3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.

Satisfaction of all requirements for a major.

Completion of degree specific requirements.

Completion of Liberal Education requirements.

Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

Submission of an Application for Graduation.

Management, B.S.B.A.

B.S.B.A.

This program is part of the 4+1 Undergraduate to Graduate program options.

For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students enrolled in the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This degree will help a student prepare for a career in business or government leadership and provide knowledge and skills desired by all types of employers. It can also provide one the background to organize and manage a family business. Graduates with a B.S.B.A. typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

Requirements For: B.S.B.A. Major – 57 Hours, 2.0 GPA
Students taking the Management major receive a broad education covering the major functional areas of Management. This degree will help a student prepare for business or government leadership and provide him/her with knowledge and skills desired by all types of employers.

**Business Core 39 CR.**

MA 171 has a prerequisite of MA 125. Students who do not meet the placement/test prerequisite for MA 171 are required to complete MA 125.
MG 306 is a required course for students with majors within the Robert W. Plaster School of Business and satisfies the requirement for Professional Writing (EN 306*)
EC 141 and EC 142 will satisfy the LE Social Science area.

**Management 18 CR.**

- MG375 - Production and Operations Management **Credits:** 3
- MG401 - Senior Seminar in Management **Credits:** 3
- HR353 - Introduction to Human Resource Management **Credits:** 3

**Select three of the following:**

Select 3 business electives at the 300-400 level (to include IS310 Business Applications) with no more than 2 course taken from the same department with the exception of Management.

*Up to three Management courses are permitted.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:
MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**
Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FL201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

**Marketing, B.S.B.A.**

**B.S.B.A.**

This program is part of the 4+1 Undergraduate to Graduate program options.

For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students enrolled in the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This degree will help a student prepare for a career in business or government leadership and provide knowledge and skills desired by all types of employers. It can also provide one the background to organize and manage a family business. Graduates with a B.S.B.A. typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

**Requirements For: B.S.B.A. Major – 60 Hours, 2.0 GPA**

The Marketing program provides a strong foundation for a career in marketing, allowing students to choose four electives from the field of marketing that reflect their interests. Students taking the Marketing program receive a broad education covering the major functional areas of Marketing.

**Ethics Requirement 3 cr.**

Select one of the following:
Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206
*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.
Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101,
PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.
Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.

Satisfaction of all requirements for a major.

Completion of degree specific requirements.

Completion of Liberal Education requirements.

Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

Submission of an Application for Graduation.

Project Management, B.S.B.A.

B.S.B.A.

This program is part of the 4+1 Undergraduate to Graduate program options.
For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students enrolled in the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This degree will help a student prepare for a career in business or government leadership and provide knowledge and skills desired by all types of employers. It can also provide one the background to organize and manage a family business. Graduates with a B.S.B.A. typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

**Requirements For: B.S.B.A. Major – 60 Hours, 2.0 GPA**

The Project Management program will help students become proficient in the skills and processes essential to project management and prepare them to sit for the Project Management Certification Exam. Project Managers are skilled professionals tasked with the job of making sure that a project is completed well, on budget and on time.

**Business Core 39 CR.**

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.
Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Education Studies: Early Childhood Education: Teaching Young Children, B.S.E.**

**Requirements For: B.S.E. Major - 55 Hours, 2.0 Cumulative, 2.75 Content GPA**

The Bachelor of Science Education Studies degree with Emphasis in Early Childhood Education Teaching Young Children is designed to prepare graduates for positions of teaching curriculum coordination, program directors, consultants and leadership positions in early childhood programs. The degree program combines knowledge of child development and learning; family and community relationships; observation, documentation, and assessment; concepts and tools of inquiry in the content areas; curriculum development; effective teaching strategies; guidance; and professionalism. **The Degree does not result in Missouri Teacher certification.** Due to the uniqueness of the non-certification program, candidates should contact their faculty advisor for assistance in application for admission to the School of Education and placement in the practicum and internship.

**Criteria for Admission to the School of Education— Early Childhood Education Teaching Young Children**

The requirements listed below are the minimum application criteria. Meeting these requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

- 2.75 GPA in core courses
- Successful completion of EDC220, EDC222, MA120 or MA135 or equivalent, EN105 and EN106

The above information is verified by the Office of the Registrar on the Application for Admission to the School of Education (form to be submitted electronically to the School of Education).
Procedure for Request for Admission to the School of Education—Early Childhood Education Teaching Young Children

Candidates must work with the appropriate School of Education FACULTY advisor when applying to the School of Education to ensure all materials are in place. Contact: Amy Wolf (amy.wolf@park.edu) who is the Faculty advisor.

Candidates must begin the application process no less than 2 semesters (4 terms) prior to requiring Education coursework listed as 350 or higher.

Application for Admission to the School of Education submitted electronically.
Two disposition evaluations completed by SOE faculty with dispositions rated "knows this & shows this." Students will make the request of the faculty to complete the online assessment.
Self-disposition evaluation to be completed online
Digitally completed recommendation completed by an employer OR a faculty member outside of the School of Education
FBI Fingerprint check
"Home State" required screenings

Availability of Courses

Although the coursework can be completed online, 95 percent of the education courses require interaction and/or observation with young children, educators and the community. Many of the online courses are only offered in a 16-week format. Practicums and internships take place in the field with young children, educators, and the community. There are specific courses tied to the practicums and the internship that are required to be completed within the same term/semester. Diversity of experiences is necessary for a well-rounded educator. As a result, some observations may be pre-approved at the student's place of employment, while others will occur outside the student's place of employment. Employment must be in a classroom with the proper ages of children (birth to 2 years old for infant and toddler practicum, three to five years old (excluding kindergarten) for pre-primary practicum and agency or classroom serving children five years and younger (excluding kindergarten) for the internship. Placements must meet standards such as NAEYC Accreditation or Head Start in order to qualify for placement.

Professional Curriculum

EDC220 - Child Growth and Development for Early Childhood and Elementary Teachers Credits: 3
EDC222 - Early Childhood Principles Credits: 3
EDU310 - Issues in Diversity and World Cultures Credits: 3

EDC372 - Infant and Toddler Practicum Credits: 1-2 (1 Credits Required)
EDC373 - Pre-primary Practicum Credits: 1-2 (1 Credits Required)
EDC420 - Internship in Early Childhood Teaching Young Children Credits: 6-10 (6 Credits Required)

EDC425 - Seminar for Internship in Early Childhood Teaching Young Children and Early Childhood Education and Leadership Credits: 3

Total 55 cr.

Candidates will select a minor or a leadership area of concentration.

Minors include:

**Psychology, Minor**

Requirements For: Minor - 18 hours, 2.0 gpa

- PS101 - Introduction to Psychology Credits: 3
- PS301 - Social Psychology Credits: 3
- PS315 - Theories of Personality Credits: 3
- PS341 - Positive Psychology Credits: 3

Electives 6 cr.

6 cr. of Psychology (PS) courses

**Social Work, Minor**

Requirements For: Social Work Minor - 18 hours, C or better

40 hours of service learning in a human service agency.

- PS309 - Human Sexuality Credits: 3
- SO302 - The Study of the Family Credits: 3
- SW205 - Introduction to Social Work Credits: 3
- SW325 - Human Diversity and Social Justice Credits: 3
- SW330 - Social Welfare Policy and Programs Credits: 3
- SW450 - Integrative Seminar for SW Minor Credits: 3 (Capstone)
Note:

All of the required courses for the Social Work minor must be completed with a grade of C or better prior to enrollment in SW450, which is the capstone course for the SW minor.

Sociology, Minor

Requirements For: Minor - 18 hours, 2.0 gpa

18 hours which must include SO 141, SO 206 and at least two courses at the 300-400 levels (6 cr).

- SO141 - Introduction to Sociology Credits: 3
- SO206 - Social Issues in Contemporary Society Credits: 3

Spanish, Minor

Requirements For: Minor - 18 hours, 2.5 gpa

The Spanish Minor is designed to assist students in gaining proficiency in oral and written communication in this world language, along with a solid understanding of Hispanic cultures. Students majoring in Early Childhood, Criminal Justice, Social Work, Nursing, Psychology or International Business concentration should consider the completion of this minor. Heritage speakers or near-native speakers are encouraged to consider test-out options for SP201.

- SP201 - Intermediate Spanish I Credits: 3
- SP202 - Intermediate Spanish II Credits: 3
- SP294 - Intermediate Spanish Conversation Credits: 3
- SP295 - Intermediate Spanish Composition Credits: 3
- SP320 - U.S. Latino Cultures and Literatures Credits: 3
- One 300 level Spanish elective in cultural and/or literary topic Credits: 3

Note:

**For those students wishing to teach K-12 Spanish: See also Bachelor of Science in Education.

B.S.E. in Secondary Education – MAJOR 53-55 Hours

or

Leadership Area of Concentration

(18 hours) includes the following coursework:
EDC344 - Program Planning and Evaluation in Early Childhood Programs **Credits:** 2
EDC345 - Financial Aspects of Early Childhood Programs **Credits:** 2
EDC346 - Human Resources in Early Childhood Programs **Credits:** 2
HR310 - Leadership and Team Building **Credits:** 3
PA331 - Public Organizations **Credits:** 3
PA333 - Public Management and Leadership **Credits:** 3
PA342 - Administrative Politics **Credits:** 3

**Liberal Education Requirements 40 CR.**

Education Requirements

There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.

Criteria for Admission to the School of Education

Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

- 3.0 GPA in content courses (Middle School and High School programs)
- 3.0 Professional Education GPA
- Successful completion of MA120 or MA135 or equivalent, EN105 and EN106
- MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor's Degree from an accredited institution are exempt.

Procedure for Request for Admission to the School of Education

- Application for Admission to the School of Education
- Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)
- Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"
- Self-disposition evaluation
- Missouri Highway Patrol and FBI Fingerprint check

Criteria and Procedure for Admission to Directed Teaching

School of Education faculty must approve all student teaching requests.

- Completed Application for Directed Teaching
- Updated Missouri Highway Patrol and FBI Fingerprint check
3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
3.0 Professional Education GPA

All students, including Certification and Certification Only, must apply for admission, and meet admission requirements of the School of Education; all students are required to complete professional education sequence classes.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:
3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

K-12 Education (Mild/Moderate Cross-Categorical Disabilities), B.S.E.

Requirements For: B.S.E. Major — 87 Hours, 2.0 cumulative; 3.00 Content; and 3.00 Professional Education GPA

No grade lower than a "C" in education core.

Professional Curriculum

- EDE225 - Children's Health, Movement and Nutrition Credits: 3
- EDE340 - Language and Literacy Development Credits: 3
- EDE342 - Mathematics Learning in Elementary Grades Credits: 3
- EDE343 - Curriculum Integration & Strategy Instruction in Social Science & Science Credits: 3
- EDU203 - Educational Psychology Credits: 3

Education Requirements

There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.

Criteria for Admission to the School of Education

Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

- 3.0 GPA in content courses (Middle School and High School programs)
- 3.0 Professional Education GPA
- Successful completion of MA120 or MA135 or equivalent, EN105 and EN106
- MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor's Degree from an accredited institution are exempt.

Procedure for Request for Admission to the School of Education

- Application for Admission to the School of Education
- Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)
- Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"
- Self-disposition evaluation
- Missouri Highway Patrol and FBI Fingerprint check

Criteria and Procedure for Admission to Directed Teaching

School of Education faculty must approve all student teaching requests.

- Completed Application for Directed Teaching
- Updated Missouri Highway Patrol and FBI Fingerprint check
- 3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
- 3.0 Professional Education GPA

All students, including Certification and Certification Only, must apply for admission, and meet admission requirements of the School of Education; all students are required to complete professional education sequence classes.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.
Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.
Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:
Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

**Middle School Education, Language Arts Concentration, B.S.E.**

**Middle School Education, B.S.E.**

(Grades 5 through 9)

**Requirements For: B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA**

No grade lower than a "C" in education core.

Students seeking middle school certification must select one area listed below.

- Language Arts
- Mathematics
- Science
- Social Science

**Professional Curriculum**

- EDU203 - Educational Psychology Credits: 3
- EDU210 - The School as a Social System Credits: 3
- PS125 - Lifespan Development Credits: 3
- EDU300 - Writing in Education Credits: 3
- EDU310 - Issues in Diversity and World Cultures Credits: 3
- EDU345 - Teaching Linguistically and Culturally Diverse Learners Credits: 3
- EDU347 - Family, School and Community Collaboration Credits: 3

**Admission to the School**

Certification Program required for enrollment in the following EDM/EDU courses

- EDM352 - Building an Effective, Equitable Learning Environment Credits: 3
- EDM358 - Reading and Writing in the Content Areas Credits: 3
- EDM360A - Field Experience I Credits: 2
- EDM360B - Field Experience II Credits: 2
- EDM395 - Methodology in Content Area Credits: 3
- EDU351 - Strategies for Higher-Order Learning Credits: 3
- EDU362 - Observation, Assessment and Data-based Decision Making Credits: 3
- EDU375 - Exceptional Children & Differentiated Learning Credits: 3
EDU384 - Meeting Literacy Needs of All Learners Credits: 3
EDM410 - Field Experience III Credits: 12

Total 58 cr.

Language Arts

EN201 - Introduction to Literature Credits: 3
EN387 - Theory and Teaching of Writing Credits: 3
EN370 - History and Practice of Rhetoric Credits: 3

Select one of the following:
EN205 - Introduction to English Studies Credits: 3
EN307 - Professional Writing in English Studies Credits: 3

Select two of the following:
EN221 - African-American Literature Credits: 3
EN317 - American Literature from Puritans to Abolitionists Credits: 3
EN318 - Dreams and Identities: American Literature from 1865 to Today Credits: 3
EN356 - Women's Literature Credits: 3

Select one of the following:
EN315 - Knights and Ladies, Priests and Peasants Credits: 3
EN316 - Revolution and Empire: British Literature from 1660-1900 Credits: 3
EN324 - Modern British and European Literature Credits: 3
EN340 - Shakespeare Then and Now Credits: 3
EN355 - International Literature Credits: 3

Select one of the following:
EN231 - Introduction to Language Credits: 3
EN232 - Introduction to Poetry Credits: 3
EN233 - Introduction to Drama Credits: 3
EN234 - Introduction to Fiction Credits: 3

- EDM395 - Methodology in Content Area **Credits:** 3
- EDU351 - Strategies for Higher-Order Learning **Credits:** 3
- EDU362 - Observation, Assessment and Data-based Decision Making **Credits:** 3
- EDU375 - Exceptional Children & Differentiated Learning **Credits:** 3
- EDU384 - Meeting Literacy Needs of All Learners **Credits:** 3
- EDM410 - Field Experience III **Credits:** 12

Total 58 cr.

**Prerequisites 8 CR.**
MA125 - Intermediate Algebra **Credits:** 3 (corequisite for CH 107)
MA160 - Precalculus for Majors **Credits:** 5 (corequisite for PY 155)

**Science**

- CH107 - General Chemistry I **Credits:** 3
- CH107L - General Chemistry Laboratory I **Credits:** 1
- BIO221 - Zoology **Credits:** 4
- BIO225 - Botany **Credits:** 4
- GO130 - Astronomy **Credits:** 4
- GO141 - Physical Geology **Credits:** 4
- PY155 - Concepts of Physics I **Credits:** 4

**Education Requirements**

There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.

**Criteria for Admission to the School of Education**

Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

- 3.0 GPA in content courses (Middle School and High School programs)
- 3.0 Professional Education GPA
- Successful completion of MA120 or MA135 or equivalent, EN105 and EN106
- MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor’s Degree from an accredited institution are exempt.

**Procedure for Request for Admission to the School of Education**

- Application for Admission to the School of Education
- Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)
- Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"
- Self-disposition evaluation
- Missouri Highway Patrol and FBI Fingerprint check

**Criteria and Procedure for Admission to Directed Teaching**

School of Education faculty must approve all student teaching requests.

- Completed Application for Directed Teaching
- Updated Missouri Highway Patrol and FBI Fingerprint check
- 3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
- 3.0 Professional Education GPA
All students, including Certification and Certification Only, must apply for admission, and meet admission requirements of the School of Education; all students are required to complete professional education sequence classes.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, CH108L, GGP115, GGP120, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101,
PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer
students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of
Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300,
PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses
designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course
must be offered by a program other than the one(s) that house(s) the student's major area of study
at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Middle School Education, Social Science Concentration, B.S.E.**

**Middle School Education, B.S.E.**

*(Grades 5 through 9)*

**Requirements For: B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA**

No grade lower than a "C" in education core.

Students seeking middle school certification must select one area listed below.

- Language Arts
- Mathematics
- Science
- Social Science

**Professional Curriculum**

- EDU203 - Educational Psychology **Credits:** 3
- EDU210 - The School as a Social System **Credits:** 3
- PS125 - Lifespan Development **Credits:** 3
- EDU300 - Writing in Education **Credits:** 3
- EDU310 - Issues in Diversity and World Cultures **Credits:** 3
- EDU345 - Teaching Linguistically and Culturally Diverse Learners **Credits:** 3
- EDU347 - Family, School and Community Collaboration **Credits:** 3

**Admission to the School**
Certification Program required for enrollment in the following EDM/EDU courses

- EDM352 - Building an Effective, Equitable Learning Environment **Credits:** 3
- EDM358 - Reading and Writing in the Content Areas **Credits:** 3
- EDM360A - Field Experience I **Credits:** 2
- EDM360B - Field Experience II **Credits:** 2
- EDM395 - Methodology in Content Area **Credits:** 3
- EDU351 - Strategies for Higher-Order Learning **Credits:** 3
- EDU362 - Observation, Assessment and Data-based Decision Making **Credits:** 3
- EDU375 - Exceptional Children & Differentiated Learning **Credits:** 3
- EDU384 - Meeting Literacy Needs of All Learners **Credits:** 3
- EDM410 - Field Experience III **Credits:** 12

**Total 58 cr.**

**Social Science**

- EC141 - Principles of Macroeconomics **Credits:** 3
- or
- EC142 - Principles of Microeconomics **Credits:** 3
- HIS104 - American History Survey Through the Civil War **Credits:** 3
- HIS105 - American History Survey Since the Civil War **Credits:** 3
- PO200 - American National Government **Credits:** 3
- PO210 - Comparative Political Systems **Credits:** 3
- GGH110 - Cultural Geography **Credits:** 3

**Select six credits from the following:**

- HIS111 - Introduction to World History I (Ancient History) **Credits:** 3
- HIS112 - Introduction to World History II (Middle Ages) **Credits:** 3
- HIS113 - Introduction to World History III (Modern Era) **Credits:** 3

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108,
CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*
Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Secondary Education, Biology Concentration, B.S.E.
Secondary Education, B.S.E.

(Grades 9 through 12)

Requirements For B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA

No grade lower than a "C" in education core.

Students seeking secondary certification must select one of the following areas of certification:

- Biology
- Chemistry
- Earth Science
- English
- Mathematics
- Social Science

Professional Curriculum

- EDU203 - Educational Psychology Credits: 3
- EDU210 - The School as a Social System Credits: 3
- PS125 - Lifespan Development Credits: 3
- EDU300 - Writing in Education Credits: 3
- EDU310 - Issues in Diversity and World Cultures Credits: 3

or
BI111 - Environmental Biology Credits: 4

Select one of the following

NS306 - Writing and Ethical Practices in Science Credits: 3
CH318 - Organic Chemistry II Credits: 3
CH329 - Introduction to Instrumental Analysis Credits: 4

Total 41-43 cr.

Education Requirements

There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.

Criteria for Admission to the School of Education

Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

3.0 GPA in content courses (Middle School and High School programs)
3.0 Professional Education GPA
Successful completion of MA120 or MA135 or equivalent, EN105 and EN106
MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor’s Degree from an accredited institution are exempt.

Procedure for Request for Admission to the School of Education

Application for Admission to the School of Education
Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)
Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"
Self-disposition evaluation
Missouri Highway Patrol and FBI Fingerprint check
Criteria and Procedure for Admission to Directed Teaching

School of Education faculty must approve all student teaching requests.

- Completed Application for Directed Teaching
- Updated Missouri Highway Patrol and FBI Fingerprint check
- 3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
- 3.0 Professional Education GPA

All students, including Certification and Certification Only, must apply for admission, and meet admission requirements of the School of Education; all students are required to complete professional education sequence classes.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH131L and CH131, CH318L and CH318, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:
Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310
6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student’s major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Secondary Education, Earth Science Concentration, B.S.E.

Secondary Education, B.S.E.

(Grades 9 through 12)

Requirements For B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA

No grade lower than a "C" in education core.

Students seeking secondary certification must select one of the following areas of certification:

- Biology
- Chemistry
- Earth Science
- English
- Mathematics
- Social Science
Professional Curriculum

EDU203 - Educational Psychology Credits: 3
EDU210 - The School as a Social System Credits: 3
PS125 - Lifespan Development Credits: 3
EDU300 - Writing in Education Credits: 3
EDU310 - Issues in Diversity and World Cultures Credits: 3
EDU345 - Teaching Linguistically and Culturally Diverse Learners Credits: 3
EDU347 - Family, School and Community Collaboration Credits: 3

Admission to the School

Certification Program required for enrollment in the following EDS/EDU courses

EDU351 - Strategies for Higher-Order Learning Credits: 3
EDS352 - Building an Effective, Equitable Learning Environment for Secondary Grades Credits: 3
EDS358 - Reading and Writing in the Content Areas Credits: 3
EDS360A - Field Experience I Credits: 2
EDS360B - Field Experience II Credits: 2
EDU362 - Observation, Assessment and Data-based Decision Making Credits: 3
EDU384 - Meeting Literacy Needs of All Learners Credits: 3
EDU375 - Exceptional Children & Differentiated Learning Credits: 3
EDS395 - Methodology in Teaching Content Area in The Secondary Classroom Credits: 3
EDS410 - Field Experience III Credits: 12 (12 Credits Required)

Total 58 cr.

Earth Science

GO130 - Astronomy Credits: 4
GO141 - Physical Geology Credits: 4
GO151 - History of the Earth Credits: 4
GGP115 - Physical Geography Credits: 4
GGP205 - Meteorology Credits: 4

NS304 - Science, Technology, and Society Credits: 3
or
NS241 - Philosophy and History of Science Credits: 3

CH107 - General Chemistry I Credits: 3
CH107L - General Chemistry Laboratory I Credits: 1

BIO221 - Zoology Credits: 4
or
BIO225 - Botany Credits: 4

PY155 - Concepts of Physics I Credits: 4

GGP120 - Global Sustainability Credits: 3
or
BI111 - Environmental Biology Credits: 4

Total 38-39 cr.

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Secondary Education, Mathematics Concentration, B.S.E.

Secondary Education, B.S.E.

(Grades 9 through 12)

Requirements For B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA

No grade lower than a "C" in education core.

Students seeking secondary certification must select one of the following areas of certification:

- Biology
- Chemistry
- Earth Science
- English
- Mathematics
- Social Science

Professional Curriculum

- EDU203 - Educational Psychology Credits: 3
- EDU210 - The School as a Social System Credits: 3
- PS125 - Lifespan Development Credits: 3
EDU300 - Writing in Education Credits: 3
EDU310 - Issues in Diversity and World Cultures Credits: 3
EDU345 - Teaching Linguistically and Culturally Diverse Learners Credits: 3
EDU347 - Family, School and Community Collaboration Credits: 3

Admission to the School

Certification Program required for enrollment in the following EDS/EDU courses

- EDU351 - Strategies for Higher-Order Learning Credits: 3
- EDS352 - Building an Effective, Equitable Learning Environment for Secondary Grades Credits: 3
- EDS358 - Reading and Writing in the Content Areas Credits: 3
- EDS360A - Field Experience I Credits: 2
- EDS360B - Field Experience II Credits: 2
- EDU362 - Observation, Assessment and Data-based Decision Making Credits: 3
- EDU384 - Meeting Literacy Needs of All Learners Credits: 3
- EDU375 - Exceptional Children & Differentiated Learning Credits: 3
- EDS395 - Methodology in Teaching Content Area in The Secondary Classroom Credits: 3
- EDS410 - Field Experience III Credits: 12 (12 Credits Required)

Total 58 cr.

Prerequisites 8 CR.

- MA125 - Intermediate Algebra Credits: 3 (prerequisite for MA 160)
- MA160 - Precalculus for Majors Credits: 5 (prerequisite for MA 221)

Mathematics

- CS208 - Discrete Mathematics Credits: 3
- MA221 - Calculus and Analytic Geometry for Majors I Credits: 5
- MA222 - Calculus and Analytic Geometry for Majors II Credits: 5
- MA223 - Calculus and Analytic Geometry for Majors III Credits: 3
- MA301 - Mathematical Thought Credits: 3
- MA305 - Probability Credits: 3
- MA311 - Linear Algebra Credits: 3
- MA312 - Abstract Algebraic Structures Credits: 3
- MA350 - History of Mathematics Credits: 3
- MA360 - Modern Geometries Credits: 3
- MA370 - Number Theory Credits: 3
- MA401 - Analysis Credits: 3

Total 40 cr.

Education Requirements

There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.
Criteria for Admission to the School of Education

Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

- 3.0 GPA in content courses (Middle School and High School programs)
- 3.0 Professional Education GPA
- Successful completion of MA120 or MA135 or equivalent, EN105 and EN106 MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor’s Degree from an accredited institution are exempt.

Procedure for Request for Admission to the School of Education

- Application for Admission to the School of Education
- Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)
- Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"
- Self-disposition evaluation
- Missouri Highway Patrol and FBI Fingerprint check

Criteria and Procedure for Admission to Directed Teaching

School of Education faculty must approve all student teaching requests.

- Completed Application for Directed Teaching
- Updated Missouri Highway Patrol and FBI Fingerprint check
- 3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
- 3.0 Professional Education GPA

All students, including Certification and Certification Only, must apply for admission, and meet admission requirements of the School of Education; all students are required to complete professional education sequence classes.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**
Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student’s major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student’s major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student’s major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.

Satisfaction of all requirements for a major.

Completion of degree specific requirements.

Completion of Liberal Education requirements.

Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

Submission of an Application for Graduation.
Secondary Education, Social Science Concentration, B.S.E.

Secondary Education, B.S.E.

(Grades 9 through 12)

Requirements For B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA

No grade lower than a "C" in education core.

Students seeking secondary certification must select one of the following areas of certification:

- Biology
- Chemistry
- Earth Science
- English
- Mathematics
- Social Science

Professional Curriculum

EDU203 - Educational Psychology Credits: 3

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Nursing (Pre-Licensure), B.S.N.

The Bachelor of Science in Nursing combines the "art and science" of nursing with a foundation in the liberal arts to prepare graduates who will assume the scope of practice expected of the professional nurse. The theoretical, laboratory, and clinical patient care experiences support learning and exposure to the profession. The Nursing pre-licensure program is designed for the non-nurse or Licensed Practical Nurse who desires a baccalaureate degree in nursing. Preparing students for the future of nursing practice, the program requires students to participate in face-to-face course formats with extensive online resources. All laboratory, patient care, and face-to-face course work is only offered at the Parkville, MO campus. Acceptance to the program is competitive.

Initial approval by the Missouri State Board of Nursing and has been awarded for the Baccalaureate Degree in Nursing (pre-licensure) program at Park University. The baccalaureate degree program in nursing at Park University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

Procedure to request admission to the BSN Pre-Licensure Major (all applicants)

The Department accepts two cohorts for the BSN major annually-fall and spring. Cohorts will be selected for the fall semester by the end of June and the spring semester in early December. To be considered for acceptance all requirements must be fully met.
If not a current Park University student, the applicant must apply for admission to Park University. Applicants for the nursing program are accepted through NursingCAS. Deadlines will be published on the Park University website and/or NursingCAS. In order to be considered for the nursing program, all official transcripts must be sent to NursingCAS, the application must be complete, and the fee charged by NursingCAS must be paid.

GPA of 3.0 in foundational science and math courses (CH105, BI210, BI211, BI212, BI223, NS220, MA135, FW175 and CH204). BI210 may be waived if BI211 is completed. Courses in progress during the semester of application will be evaluated upon completion of the course to confirm GPA.

ATI Admissions score must meet minimum admission requirements. Admission Test scores will be valid for one year from testing date. Students may repeat the test to improve their scores. Each attempt requires the student to pay the testing fee.

Will need to provide a short written essay for admission.

For students with an active LPN license, that license must be current and have no state board restrictions.

Prior learning credit for Practical Nurses

Since 1987 Park University has provided Licensed Practical Nurses with the opportunity to apply for credit linked to their Practical Nursing education. Practical Nurses may be eligible for Validated Learning Equivalency (VLE) credit (up to 6 credit hours) toward the BSN pre-licensure program requirements. To be eligible for VLE credit students must meet all of the following requirements.

Submit evidence of current undisciplined/unrestricted license as an LPN upon application to Park University. New graduate Practical Nurses must complete the NLCEX-PN and have been issued a license. Any evidence of discipline against the LPN license will be reviewed by the department for approval prior to acceptance to the BSN major. Restrictions to practice by a Board of Nursing make the student ineligible for the BSN major.

Submit official transcripts from PN School and all college level course work through NursingCAS. Students who choose to apply for VLE credit are reminded they will be held accountable for having a working knowledge of all content associated with the courses VLE credit may be awarded for the following course work:

- CH204 Nutrition for the Health Sciences **Credits: 3**
- PS125 Lifespan Development **Credits: 3**

**Total 6 cr.**

Complete the Procedure to request admission to the BSN major through NursingCAS and as stated above (apply to Park University if not already a student).

Cohort Selection Priorities

Each cohort is selected based on the admissions criteria. Priority is given to Admissions Test scores, GPA in the Math and Sciences and completion of all requirements. Incomplete submission (including, but not limited to, nonpayment to NursingCAS or not applying to Park University) of required information removes the candidate from consideration. It is the student’s obligation to assure all requirements are met.

Progression and Graduation Requirements

All NUR designated courses require a testing (unit exams, standardized exams, and final exams) average of 78% to pass the course.

All NUR designated courses require a 78% average in the clinical component of the course, if present, to pass the course.

Students who earn less than the minimum requirements in any nursing-designated course will fail that course.
Students who earn less than the minimum requirements in more than one class will be removed from the program.

A nursing GPA of 2.8 is required for graduation.

Pursuant to Section 335.066, RSMo, of the Missouri Nursing Practice Act (http://revisor.mo.gov/main/OneSection.aspx?section=335.066), completion of the Pre-licensure BSN program does not guarantee eligibility to take the licensure examination.

All requirements (i.e., admission, within program and exit) are subject to change as per the Missouri State Board of Nursing and Commission on Collegiate Nursing Education (CCNE).

**PRE-NURSING COURSE REQUIREMENTS**

**Math and Science Requirement 28-29 CR**

Must obtain a 3.0 average GPA in all of these courses. Only one Chemistry course with lab is required. BI210 can be waived if BI211 is complete.

- BI210 - The Human Body **Credits:** 3
- BI211 - Human Anatomy and Physiology I **Credits:** 4
- BI212 - Human Anatomy and Physiology II **Credits:** 4
- BI223 - Clinical Microbiology **Credits:** 4
- MA135 - College Algebra **Credits:** 3
- FW175 - Medical Terminology **Credits:** 3

- CH105 - Introductory Chemistry **Credits:** 5
  
  or
  
  - CH107 - General Chemistry I **Credits:** 3
  
  and
  
  - CH107L - General Chemistry Laboratory I **Credits:** 1

- CH204 - Nutrition for the Health Sciences **Credits:** 3
- MA120 - Basic Concepts of Statistics **Credits:** 3
  
  OR
  
  - NS220 - Applied Statistics and Experimental Design **Credits:** 3

**Ethics Requirement 3 CR**

See the Liberal Education section below for courses that fulfill the Ethics requirement.

Nursing majors may take CS300 or EDU310 to fulfill both the Ethics requirement and the Writing Intensive (outside of the major) requirement.

**Humanities Requirement 6 CR**

See the Liberal Education section below for courses that fulfill Humanities.

Nursing majors may take EN201, EN221, EN232, or EN234 to fulfill both a Humanities requirement and the Writing Intensive (outside of the major) requirement.

**Social Science Requirements 6 CR**

- PS101 - Introduction to Psychology **Credits:** 3
PS125 - Lifespan Development Credits: 3

Total 43-44 cr

Note Regarding Admission and Graduation Requirements

The Liberal Education/Graduation requirements below must also be completed prior to Admission to the Nursing major:

LE100 (freshman only)
Writing Seminar (EN105 and EN106)
Communication
Citizenship
Writing Intensive course (outside the major)

The following requirements may be completed after admission to the Nursing major:

LE300* Integrative and Interdisciplinary Learning Capstone
EN306* Professional Writing in the Disciplines

For more information about these requirements, see the Liberal Education and Graduation requirements sections below.

NURSING MAJOR CORE COURSES

Junior - First Semester
NUR280 - Introduction to Professional Nursing Credits: 2
NUR320 - Concepts of Nursing Fundamentals Credits: 6
NUR338 - Health and Physical Assessment Credits: 4
NUR352 - Pathophysiology for Nurses Credits: 3

Junior - Second Semester
NUR331 - Clinical Applications of Pharmacology I Credits: 2
NUR335 - Adult Health I Credits: 7
NUR356 - Mental Health Nursing Credits: 4
NUR357 - Gerontology Credits: 2

Senior - First Semester
NUR410 - Community Health Credits: 4
NUR431 - Clinical Applications of Pharmacology II Credits: 2
NUR435 - Adult Health II Credits: 7
NUR450 - Evidence-Based Practice Credits: 3

Senior - Second Semester
NUR419 - Women, Children, and Families Credits: 6
NUR460 - Nursing Leadership Credits: 3
NUR475 - Clinical Immersion Credits: 3
NUR480 - Prep to Professional Nursing Credits: 2

Total 60 cr.
Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.
EN105 and EN106

Math Requirement 3 cr.
Select one of the following:
MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.
Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216
Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 CR.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406 or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Upper Division Requirements 36 cr.
36 hours of upper division (300-400 level) college nursing course work

Additional Requirements

Park University grants the Bachelor of Science in Nursing upon completion of the following requirements:

- Completion of a minimum of 124 semester hours with a cumulative 2.8 GPA.
- Satisfaction of major requirements.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Application to the BSN Program is required.
- Submission of an Application for Graduation.

Social Work, B.S.W.

The Bachelor of Social Work (BSW) prepares students for beginning professional social work practice across a wide variety of social service settings. As generalist social work practitioners, graduates will be prepared to work collaboratively from a strengths based approach with diverse populations. Ecosystems Theory, Strengths Perspective, Multicultural Competence and Social, Economic & Environmental Justice within a global perspective, all serve as overarching conceptual frameworks across the curriculum. All aspects of student learning (curricular and professional) are integrated with the senior year field education practicum experience. Note: The BSW Program at Park University was granted full re-affirmation of accreditation by the Council on Social Work Education (CSWE) in Spring 2019. The BSW Program is accredited through Spring 2025.

BSW Program Application Criteria & Admission Guidelines

Students must complete all Liberal Education (LE) and BSW Program prerequisites prior to the senior year of the BSW Program. Application and admission to the professional undergraduate BSW Program is a separate process from application and admission to Park University. Declaring Social Work as a Major does not guarantee admission into the Program. Procedures 1-3 below must be completed before a student is eligible to apply to the BSW Program. Procedures 4 and 5 provide brief guidelines of the application submission and review process.

DECLARATION OF MAJOR (DOM) in Social Work (SW)

Applicants must be admitted to Park University and have submitted a DOM in SW. A Minor is not required. Once a SW Major is declared, Park assigns the student a BSW Faculty Advisor. The student should contact this advisor and schedule an appointment. Please note: a DOM in SW does not mean the student has been admitted or in any way guarantees admission into the Program.

BSW PREREQUISITE

Academic Advising with BSW Faculty is a critical component of the BSW Program. During initial advising, students share their educational goals and collaborative planning begins. The SW advisor and student will work together to ensure all required prerequisite courses are completed.

ACADEMIC REQUIREMENTS

Completion of a minimum of 60 credit hours of undergraduate college coursework; including all 43 credit hours of required LE courses, with LE300* (or equivalent or an earned AA or AS degree).

A cumulative undergraduate Grade Point Average (GPA) of 2.50 or higher on a 4 point scale. Cumulative GPA is a calculation of all undergraduate grades shown on all transcripts;
considered during the application review. A 2.50 GPA must be maintained throughout the Program. If GPA falls below 2.50, this may result in dismissal from the Program.

Completion of the following courses (or equivalent), with a grade of C or better: SO141 Introduction to Sociology; PS101 Introduction to Psychology; MA120 Basic Concepts of Statistics; SW205 Introduction to Social Work; SO302 The Study of the Family; PS309 Human Sexuality; EN306B Business Communications; SW325 Human Diversity and Social Justice; SW330 Social Welfare Policy and Programs; and two consecutive Modern Language courses. BSW Application Packet may be submitted one term prior to completing EN306B, SO302, PS309, SW325, SW330 or 2nd modern language; but are not considered for 'Full' admission until all courses are completed.

Integrative seminar for social work minors, requires 40 hours of service learning where students may apply skills learned in the classroom in a structured human service setting, military base, etc. This capstone course must be taken in the last semester before graduation.

APPLICATION SUBMISSION
All application materials must be submitted to the Department of Social Work, no later than Fall semester of the student’s Junior year, for admission consideration for the following academic year. Once the application packet is submitted to the SW Office, it becomes the property of the Department and its content will not be returned to the applicant under any circumstances, including reference letters.

APPLICATION REVIEW
The Review is conducted by the BSW Admission & Review Committee. In evaluating applicants, Committee reviewers consider the applicant’s: academic performance; GPA; participation and performance in SW courses; written and verbal communication skills; applicant’s commitment to social work and suitability for the profession; work and volunteer experiences; and references. A personal interview may be required. The Committee determines the applicant’s admission status as either: Full, Provisional, Probationary, Deferred or Denied. The BSW Program Director shares admission decision with applicant via student's Park email. In accordance with CSWE accreditation standards, the BSW Program does not grant course credit for life experience or previous work experience. However, these experiences are carefully considered during the application review process. Therefore, make sure to clearly note these experiences on your résumé.

Requirements For: B.S.W. Major – 45 hours, 2.5 GPA, Grade of C or better

Core Curriculum 15 cr.

(SW Major, pre-application to BSW Program)

PS309 - Human Sexuality Credits: 3
SO302 - The Study of the Family Credits: 3
SW205 - Introduction to Social Work Credits: 3
SW325 - Human Diversity and Social Justice Credits: 3
SW330 - Social Welfare Policy and Programs Credits: 3

Core Curriculum 30 cr.

(SW Major, post admission to BSW Program)

SW400 - Human Behavior in the Social Environment I Credits: 3
SW405 - Human Behavior and Social Environment II Credits: 3
SW406 - Social Work Research Credits: 3
SW407 - Social Work Practice II: Groups Credits: 3
SW409 - Social Work Practice I: Individuals and Families Credits: 3
SW410 - Social Work Practice III: Organizations and Communities Credits: 3
SW420 - Generalist Field Education I Credits: 3
SW430 - Generalist Field Education II Credits: 3
SW492 - Ethical Practice & Professional Behavior in Social Work Credits: 3
SW493 - Multidimensional Assessment in Generalist Practice Credits: 3

Notes:

Conditional Admission to the BSW Program (referred to as Pre-Major status). Students who have successfully completed Criteria 1 through 3 may be conditionally admitted to the BSW program and begin taking those social work courses not restricted to social work majors. Full admission to the major is contingent upon completion of Criteria 1 through 5. Students who have met the pre-requisites may apply to the BSW program by the end of fall semester with approval from the student's social work advisor and, if admitted, may be granted permission to enroll in SW400 - Human Behavior in the Social Environment I (Fall semester prior to senior year) and SW 405 - Human Behavior and Social Environment II (Spring semester prior to senior year).

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.
EN105 and EN106

Math Requirement 3 cr.
Select one of the following:
MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.
Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO235, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH117L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105
Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206
*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.
Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101,
PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.
Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 CR.
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for
transfer students)

Upper Division Requirements 36 cr.
36 hours of upper division (300-400) level course work

Writing Across the Curriculum 9 cr.
3 hours of Professional Writing (EN306* or equivalent from the list below) plus 6 hours of Writing Intensive coursework is required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS 300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Modern Language Requirement

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104; GE103 and GE104; SP103 and SP104 or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE201; SP104 and SP201; or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR202 or GE202 or SP202 or transfer equivalent

Additional Requirements

Park University grants the Bachelor of Social Work upon completion of the following requirements:

- Completion of a minimum of 122 semester hours with a cumulative 2.5 GPA (or higher dependent on major).
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Application to BSW Program required.
Submission of an Application of Graduation.

**Business Analytics, Certificate**

**Requirements For: Certificate – 12 Hours, 2.0 GPA**

- BAI329 - Business Analytics Applied **Credits:** 3
- BAI405 - Data Visualization and Story Telling **Credits:** 3
- BAI407 - Predictive Analytics and Risk Analysis **Credits:** 3 or BAI427 - Prescriptive Analytics for Decision Making **Credits:** 3
- BAI491 - Capstone in Business Analytics **Credits:** 3

**Computer Networking, Certificate**

This certificate program prepares students to sit for the Cisco Certified Network Associates (CCNA) exam. Upon completion of this certificate program, students are encouraged, but not required, to take the CCNA certification exam at a CCNA testing center. Regardless of whether a student chooses to take the CCNA certification exam, when the student is ready to graduate (either from the certificate program for non-degree-seeking students, or from the ICS program for degree-seeking students), he/she should fill out the Graduation Application Form. That application provides notice to the Registrar to put "Certificate in Computer Networking" on the student's transcript.

**Requirements for Certificate: 12 Hours, 2.5 GPA**

**Required Courses: 12 cr.**

- CS365A - Computer Networking I **Credits:** 3
- CS366A - Computer Networking II **Credits:** 3
- CS371 - Internetworking **Credits:** 3
- CS372 - Advanced Networking **Credits:** 3

**Prerequisites - 6 cr.**

The following prerequisites are required.

- CS152 - Introduction to Python Programming **Credits:** 3
- CS208 - Discrete Mathematics **Credits:** 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
Meet all requirements of the specific program as outlined in this catalog
Submission of an Application of Graduation
*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Cybersecurity, Certificate**

This certificate program prepares students for cybersecurity-related positions such as security administrator, security software developer, or security consultant. Each course in the certificate has prerequisite courses. Equivalent work experience or transferred credit may satisfy those prerequisites. Some courses offered in this program help students in preparing for industry certificates, such as the Cisco Cybersecurity Operation (CyberOps) Certification Exam.

**Requirements for Certificate - 33 Hours, 2.0 G.P.A.**

**Required Courses: 15 Hours**

- CS202 - Secure Programming **Credits: 3**
- CS335 - Introduction to Cybersecurity **Credits: 3**
- CS375 - Secure Operation **Credits: 3**
- CS377 - Digital Forensics **Credits: 3**
- IS370 - Information Security **Credits: 3**
  
  or
  
  - CJ316 - Cybersecurity Administration **Credits: 3**

**Prerequisites Required - 18 Hours**

The following are required pre-requisites for this program.

- CS152 - Introduction to Python Programming **Credits: 3**
- CS208 - Discrete Mathematics **Credits: 3**
- CS319 - Computer Architecture **Credits: 3**
- CS351 - Computer Operating Systems **Credits: 3**
- CS365A - Computer Networking I **Credits: 3**
- CS366A - Computer Networking II **Credits: 3**

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Diversity and Social Justice, Certificate**
Requirements for Certificate - 12 Hours, 2.5 GPA

SO206 - Social Issues in Contemporary Society Credits: 3

Electives 9 cr.

Select one course from each topic area.

Global Perspectives

Select one of the following:

- EN355 - International Literature Credits: 3
- GGH110 - Cultural Geography Credits: 3
- GGP120 - Global Sustainability Credits: 3
- PC315 - Global Peace Issues Credits: 3
- PO338 - Politics of the Developing World Credits: 3
- PO344 - War and Terrorism Credits: 3
- RE109 - World Religions Credits: 3
- SP320 - U.S. Latino Cultures and Literatures Credits: 3

Public and Community Engagement

Select one of the following:

- CA235 - Multicultural Communication Credits: 3
- CJ345 - Criminal Justice and the Community Credits: 3
- EDU310 - Issues in Diversity and World Cultures Credits: 3
- LE300O - Peace Journalism Credits: 3
- LE300AA - Strategic Peacebuilding Credits: 3
- PA380 - Public Service Values Credits: 3
- PA404 - Capitalism and Societal Issues Credits: 3
- PH221 - Ethics and Society Credits: 3
- SW325 - Human Diversity and Social Justice Credits: 3

Examining Inequalities

Select one of the following:

- EN356 - Women's Literature Credits: 3
- EN221 - African-American Literature Credits: 3
- HIS260 - The Civil Rights Era Credits: 3
- LE300V - The 1960s: Years of Hope and Rage Credits: 3
- PS309 - Human Sexuality Credits: 3
- PS381 - Psychology of Gender Credits: 3
- SO342 - Race and Ethnicity Credits: 3
- SO313 - Class, Status, Power Credits: 3
- SO333 - Gendered Society Credits: 3

Graduation Requirements
Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Geographical Information Systems, Certificate**

**Requirements For: Certificate – 15 Hours, 2.5 GPA**

- **GGP270 - Spatial Analysis** Credits: 3
- **GGP330 - Cartography** Credits: 3
- **GGP335 - Remote Sensing** Credits: 3
- **GGP350 - GIS I** Credits: 3
- **GGP355 - GIS II** Credits: 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Human Resource Management, Certificate**

This certificate is under the Department of Human Resource Management in the School of Business. Students should contact the department with any questions.

Certificate award requires passing all courses with a grade of "C" or better.

**Requirement for: Certificate - 12 Hours 2.0 GPA**

- **MG371 - Management and Organizational Behavior** Credits: 3
- **HR355 - Planning and Staffing** Credits: 3
- **HR357 - Employment Law** Credits: 3
- **HR434 - Compensation Management** Credits: 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:
Completion of residency requirement, at least 50% of the coursework completed at Park
Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
Meet all requirements of the specific program as outlined in this catalog
Submission of an Application of Graduation
*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Industrial Organizational Psychology, Certificate**

**Requirements For: Certificate – 15 hours, 2.5 gpa**

- PS300 - Research Methods **Credits:** 3
  - or
- SO310 - Sociological Research Methods **Credits:** 3
- PS302 - Tests and Measurements **Credits:** 3
- PS307 - Statistics for Social Sciences **Credits:** 3
  - or
- SO307 - Statistics for Social Sciences **Credits:** 3
- PS424 - Industrial and Organizational Psychology **Credits:** 3

**Electives 3 cr.**

- PS406 - Experimental Psychology **Credits:** 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Personal Financial Planning, Certificate**

This certificate is under the Department of Finance in the School of Business. Students should contact the department with any questions.
Certificate award requires passing all courses with a grade of "C" or better.

**Requirements for Certificate - 21 Hours, 2.0 GPA**

- AC309 - Individual Income Tax **Credits:** 3
- FI420 - Estate Planning **Credits:** 3
FI423 - Professional Financial Planning **Credits:** 3  
FI424 - Personal Financial Planning Capstone **Credits:** 3  
FI325 - Risk and Insurance **Credits:** 3  
FI370 - Investment Planning **Credits:** 3  
FI419 - Retirement and Employee Benefit Planning **Credits:** 3  

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park  
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)  
- Meet all requirements of the specific program as outlined in this catalog  
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Professional and Technical Writing, Certificate**

Available fully online, the certificate in Professional and Technical Writing offers students an additional employment qualification for careers in the sciences, technical industries, the military, and other professional environments requiring keen communication skills. Students become adept at analyzing audiences to anticipate their needs and fulfilling those needs with common workplace genres such as proposals, reports, presentations, memos, instructions, and more.

Additionally, students learn to produce effective, convincing documents in both print and digital formats and expand their ability to edit others' writing.

**Requirements for Certificate - 12 Hours, 2.0 G.P.A.**

- EN204 - Writing for Online Environments **Credits:** 3  
- EN207 - Professional and Technical Editing **Credits:** 3  
- EN306A - Scientific and Technical Writing **Credits:** 3 *  
- EN306B - Business Communications **Credits:** 3 *

*Note: *EN306A and EN306B require EN105 and EN106 as prerequisites.*

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park  
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)  
- Meet all requirements of the specific program as outlined in this catalog  
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).
**Project Management, Certificate**

This certificate is under the Department of Management, in the College of Management, Undergraduate School of Business. Students should contact the department with any questions.

Certificate award requires passing all courses with a grade of "C" or better.

**Requirements For: Certificate - 12 Hours, 2.0 GPA**

- MA171 - Finite Mathematics **Credits:** 3
- MG371 - Management and Organizational Behavior **Credits:** 3
- MG375 - Production and Operations Management **Credits:** 3
- MG450 - Project Management **Credits:** 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Terrorism and Homeland Security, Certificate**

The mission of the Undergraduate Certificate Program in Terrorism and Homeland Security is to provide students with a foundation for effective problem identification and solution management related to evolving terrorist threats and the protection of national interests. Through both theoretical and practical approaches, the certificate provides students with knowledge essential to homeland security issues, strategies, and planning. Certificate courses are chosen and developed to integrate knowledge in diverse fields of security, terrorism, and emergency management. The Certificate provides students with capabilities to develop practical solutions in managing natural and unnatural threats and emergency events, and to equip students to assist organizations in preparedness, response, recovery, and mitigation activities associated with both natural and manmade threats.

**Requirements For: Certificate – 12 Hours, 2.5 GPA**

**Core Courses 6 cr.**

- CJ233 - Introduction to Security **Credits:** 3
- CJ251 - Terrorism and Domestic Preparedness **Credits:** 3

**Elective Courses 6 cr.**

Select two of the following:
Graduation Requirements

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

Unmanned Aerial System, Certificate

Requirements for Certificate - 12 Hours, 2.5 GPA

The mission of the Unmanned Aerial System (UAS)-Drone Applications Certificate is to prepare students to become Federal Aviation Administration (FAA) certified small Unmanned Aerial System (UAS) Remote Drone Pilots, who are trained to conduct safe, legal, and effective aerial flight operations within the National Airspace System. The core courses supporting this certificate are designed to instruct Remote Drone Pilots in how to fly mission driven and incident-free sorties, and effectively capture/record and post-process aerial imagery.

Note: Students who successfully complete the UAS107 Commercial Drone Pilot Certification Prep Course will be prepared to sit for the FAA Part 107 UAS Remote Pilot Certification Exam, which is the accepted certification for small UAS-Drone Commercial and Municipal Operations.

- UAS107 - Commercial Drone Pilot Certification Prep Course **Credits: 3** *
- UAS140 - Drone Mission Planning **Credits: 3** *
- UAS200 - Drone Photography and Videography **Credits: 3**

Electives 3 cr.

- A department approved elective, 200 level or above, from any discipline

Notes:

* These courses may not be used as electives in the Criminal Justice Administration Program.

* This course curriculum does require the student to have a small UAS-Drone. FAA Requirements for becoming a certified Drone Pilot are listed [https://www.faa.gov/uas/](https://www.faa.gov/uas/). Students already in possession of a valid FAA Drone Remote Pilot Certification, may substitute the UAS107 course for another Park University 3 credit course with permission from the Criminal Justice Department Chair or the Criminal Justice Program Coordinator.

# This course curriculum requires the student to have access to, or own, a photo and video-recording enabled small UAS-Drone. Minimum drone specifications for this course, as well as various suitable drone models, are listed at [https://droneology.park.edu/specs](https://droneology.park.edu/specs).
Graduation Requirements

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

Accounting, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

- AC309 - Individual Income Tax Credits: 3
- AC320 - Intermediate Accounting I Credits: 3
- AC325 - Intermediate Accounting II Credits: 3
- AC350 - Accounting Information Systems Credits: 3
- AC380 - Cost Accounting Credits: 3

One course from the following:

- AC230 - Computer-Based Accounting Systems Credits: 3
- AC330 - Intermediate Accounting III Credits: 3
- AC430 - Auditing Credits: 3
- AC435 - Ethics for Accountants Credits: 3
- AC451 - Accounting Internship Credits: 1-6

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

- AC201 - Principles of Financial Accounting Credits: 3
- AC202 - Principles of Managerial Accounting Credits: 3
- AC320 - Intermediate Accounting I Credits: 3
- MG260 - Business Law I Credits: 3
- MG371 - Management and Organizational Behavior Credits: 3
- MK351 - Principles of Marketing Credits: 3

One course from the following:

- AC230 - Computer-Based Accounting Systems Credits: 3
- AC309 - Individual Income Tax Credits: 3
- AC325 - Intermediate Accounting II Credits: 3
- AC350 - Accounting Information Systems Credits: 3
- AC380 - Cost Accounting Credits: 3

Analytics, Minor
Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

The Analytics minor is designed to prepare students for applying analytical and problem-solving thinking and skills in an organization. The purpose of the program is to develop students' knowledge base of the current analytics as well as problem-solving skills within the functional areas of an organization.

- BAI209 - Survey of Analytical Approaches Credits: 3
- BAI229 - Decision Making and Problem Analysis Credits: 3
- BAI405 - Data Visualization and Story Telling Credits: 3
- BAI407 - Predictive Analytics and Risk Analysis Credits: 3
- BAI427 - Prescriptive Analytics for Decision Making Credits: 3
- BAI491 - Capstone in Business Analytics Credits: 3
- SO255 - Social Life of Data Credits: 3

Art History, Minor

The Program Coordinator of Fine Art will serve as the advisor for students seeking this minor.

Requirements for: Minor – 18 Hours, 2.0 GPA

Six courses from any of the following:

- AR115 - Introduction to the Visual Arts Credits: 3
- AR215 - Art History I Credits: 3
- AR216 - Art History II Credits: 3
- AR298 - History of the Designed Environment: Antiquity to Mid-Nineteenth Century Credits: 3
- AR316 - Modern Art Credits: 3
- AR317 - World Art Credits: 3
- AR319 - History of Graphic Design Credits: 3
- AR323 - Renaissance and Baroque Art Credits: 3
- AR390 - History of the Designed Environment: Mid-Nineteenth Century to the Present Credits: 3
- HIS203 - Introduction to Historic Preservation Credits: 3
- HIS204 - Introduction to Museum Studies Credits: 3
- HIS316 - Historical Material Conservation Credits: 3
- LE300L - World Art Credits: 3

Note:

In addition, AR315 - Special Topics in Art or Design, when the topic is art historical; AR313 - Independent Study in Art or Design, when the project developed between the student and the professor is art historical in nature; AR415 - Internship in Art or Design, when the internship is in a museum or gallery setting, and Study Abroad courses, can be included in the 18 hours that make up this Minor.

Biology, Minor

Requirements For: Minor – 18 hours, 2.0 GPA

18 hours must be from BIO courses
* For those students wishing to obtain a secondary teaching certificate in Biology, see also Bachelor of Science in Education.

**Business Economics, Minor**

**Requirements For: Business Minor – 18 Hours, 2.0 GPA**

- EC300 - Intermediate Microeconomics **Credits:** 3
- EC301 - Intermediate Macroeconomics **Credits:** 3
- EC303 - Money, Credit and Banking **Credits:** 3

**Three courses from the following:**

- EC302 - Labor Economics **Credits:** 3
- EC309 - Economic Development **Credits:** 3
- EC407 - International Trade and Finance **Credits:** 3
- EC450 - Senior Seminar in Economics **Credits:** 3
- IB331 - International Negotiations **Credits:** 3
- IB331 - International Finance **Credits:** 3
- IB331 - International Finance **Credits:** 3
- HR357 - Employment Law **Credits:** 3
- MG420 - Labor Relations **Credits:** 3

**Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA**

- EC141 - Principles of Macroeconomics **Credits:** 3
- EC142 - Principles of Microeconomics **Credits:** 3
- EC300 - Intermediate Microeconomics **Credits:** 3
- EC301 - Intermediate Macroeconomics **Credits:** 3
- EC303 - Money, Credit and Banking **Credits:** 3

**Two courses from the following:**

- AC201 - Principles of Financial Accounting **Credits:** 3
- AC202 - Principles of Managerial Accounting **Credits:** 3
- EC302 - Labor Economics **Credits:** 3
- EC309 - Economic Development **Credits:** 3
- EC407 - International Trade and Finance **Credits:** 3
- EC450 - Senior Seminar in Economics **Credits:** 3

**Chemistry, Minor**

**Requirements For: Minor - 18-20 Hours, 2.0 GPA**

- CH107 - General Chemistry I **Credits:** 3
- CH107L - General Chemistry Laboratory I **Credits:** 1
- CH108 - General Chemistry II **Credits:** 3
- CH108L - General Chemistry Laboratory II **Credits:** 1
10-12 additional hours chosen from remaining chemistry coursework

**Citizenship and Service, Minor**

This minor is focused on civic engagement and service with Park’s motto of *Fides et Labor* as its inspiration. It seeks to combine academic coursework with service to the community – be that at the local, national, or global level. Student activities in the community are integrated into the classroom to transform and enrich learning, and conversely, what students learn in the classroom can be applied in the community to encourage engaged and informed citizens.

Students can earn one (1) credit hour for every forty (40) hours of service work up to a maximum of 12 hours of academic credit in CE 200. A minimum of 120 hours of documented service work are required for this minor. Students are required to provide a portfolio of their civic engagement experience for evaluation.

**Requirements for Minor - 18 Hours, 2.0 GPA**

- **CE200** - Civic Engagement **Credits:** 3-9
- **CA233** - Introduction to Leadership **Credits:** 3
- **CA493** - Leadership for Civic Engagement **Credits:** 3

**Electives**

Choose 0-4 courses from the list below. The total number of courses needed depends upon the amount of civic engagement credit hours a student completes in the core.

- **CA235** - Multicultural Communication **Credits:** 3
- **CA392** - Organizational Leadership **Credits:** 3
- **GGP120** - Global Sustainability **Credits:** 3
- **PA331** - Public Organizations **Credits:** 3
- **PA380** - Public Service Values **Credits:** 3
- **PC321** - Interpersonal Conflict Resolution **Credits:** 3
- **PO200** - American National Government **Credits:** 3
- **RE109** - World Religions **Credits:** 3
- **SO206** - Social Issues in Contemporary Society **Credits:** 3

**Construction Management, Minor**

**Requirements For: Business Minor – 18 Hours, 2.0 GPA**

- **CO111** - Introduction to Engineer Construction Technology/Design/Materials and Safety **Credits:** 3
- **CO121** - Plans Analysis **Credits:** 3
- **CO235** - Construction Planning **Credits:** 3
- **CO360** - Project Management/Critical Path Analysis **Credits:** 3

**Select two from the following: 6 CR.**

- **CO225** - Building Codes **Credits:** 3
- **CO245** - Construction Estimating **Credits:** 3
- **CO315** - Special Topics in Construction Management **Credits:** 3
- **CO365** - Construction Project Management **Credits:** 3
CO450 - Construction Management Internship Credits: 3
MG375 - Production and Operations Management Credits: 3

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

AC201 - Principles of Financial Accounting Credits: 3
MG260 - Business Law I Credits: 3
MG371 - Management and Organizational Behavior Credits: 3
MG375 - Production and Operations Management Credits: 3

Select three of the following: 9 CR.

CO111 - Introduction to Engineer Construction Technology/Design/Materials and Safety Credits: 3
CO121 - Plans Analysis Credits: 3
CO225 - Building Codes Credits: 3
CO235 - Construction Planning Credits: 3
CO245 - Construction Estimating Credits: 3
CO360 - Project Management/Critical Path Analysis Credits: 3
CO365 - Construction Project Management Credits: 3

Criminal Justice Administration, Minor

Requirements for Minor – 18 Hours, 2.0 GPA

18 hours which must include

CJ100 - Introduction to Criminal Justice Administration Credits: 3
CJ105 - Criminal Law Credits: 3
CJ200 - Criminology Credits: 3

9 hours of CJ electives excluding

CJ440 - Internship in Criminal Justice Credits: 3-6
CJ441 - Senior Writing Project Credits: 3
CJ450 - Senior Seminar in Criminal Justice Credits: 3

Digital Marketing, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

CA218 - Public Relations Credits: 3

CA224 - Digital Media Skills Credits: 3
or
CA225 - Online Content Creation Credits: 3

MK369 - E-Marketing Credits: 3
MK385 - Consumer Behavior Credits: 3
MK405 - Social Media Marketing  Credits: 3
MK411 - Marketing Management  Credits: 3

Requirements For: NonBusiness Minor - 24 Hours, 2.0 GPA

CA224 - Digital Media Skills  Credits: 3
CA225 - Online Content Creation  Credits: 3
IB315 - International Business Perspectives  Credits: 3
MG371 - Management and Organizational Behavior  Credits: 3
MK351 - Principles of Marketing  Credits: 3
MK369 - E-Marketing  Credits: 3
MK380 - Advertising  Credits: 3
MK385 - Consumer Behavior  Credits: 3
MK405 - Social Media Marketing  Credits: 3

Economics, Minor

Requirements For: Minor–18 Hours, 2.0 GPA

EC141 - Principles of Macroeconomics  Credits: 3
EC142 - Principles of Microeconomics  Credits: 3
12 hours of upper division Economics electives

English, Minor

Requirements For: Minor – 18 Hours, 2.0 GPA

For those wanting to supplement their major with a solid foundation in reading, writing, and critical thinking, the English minor is a great choice. You can choose from a wide range of courses in literature, rhetoric and composition, creative writing, and professional and technical writing. Dive deep into a specific interest by taking several courses within a single emphasis or broaden your horizons by selecting courses from each category, seeing the full breadth of what English studies offers. The choice is yours.

EN201 - Introduction to Literature  Credits: 3
Six hours of any EN courses 200-level or above  Credits: 6
Nine hours of any EN courses 300-level or above  Credits: 9

Total 18 cr.

Finance, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

EC303 - Money, Credit and Banking  Credits: 3
FI415 - Financial Analysis and Planning Credits: 3
FI417 - Investment Analysis and Management Credits: 3
FI425 - Principles of Real Estate Credits: 3

Two courses from the following

AC309 - Individual Income Tax Credits: 3
FI325 - Risk and Insurance Credits: 3
FI380 - Financial Counseling Credits: 3
FI419 - Retirement and Employee Benefit Planning Credits: 3
FI420 - Estate Planning Credits: 3
FI423 - Professional Financial Planning Credits: 3
FI424 - Personal Financial Planning Capstone Credits: 3
FI410 - Problems in Corporate Finance Credits: 3
IB431 - International Finance Credits: 3

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

AC201 - Principles of Financial Accounting Credits: 3
AC202 - Principles of Managerial Accounting Credits: 3
EC141 - Principles of Macroeconomics Credits: 3
FI360 - Financial Management Credits: 3

Three Courses from the Following

EC303 - Money, Credit and Banking Credits: 3
FI325 - Risk and Insurance Credits: 3
FI410 - Problems in Corporate Finance Credits: 3
FI415 - Financial Analysis and Planning Credits: 3
FI417 - Investment Analysis and Management Credits: 3
FI425 - Principles of Real Estate Credits: 3
IB431 - International Finance Credits: 3

Fine Art, Minor

Requirements For: Minor – 21 Hours, 2.5 GPA

Foundations:

AR140 - Drawing I Credits: 3
Electives from Foundations courses within Art Credits: 3

Introduction to Media:

Select two of the following courses:

AR218 - Graphic Design Software Credits: 3
AR221 - Ceramics I Credits: 3
AR240 - Drawing II Credits: 3
AR241 - Photography I Credits: 3
AR270 - Fiber I Credits: 3
AR280 - Painting I Credits: 3

Art History and Theory:

Select one course from the following:

AR215 - Art History I Credits: 3
AR216 - Art History II Credits: 3
AR316 - Modern Art Credits: 3

Studio Practice:

An additional 6 hours from Intermediate or Advanced Studio courses in Painting, Drawing, Photography, Ceramics, Fiber or Special Topics

Note:

**For those students wishing to teach K-12 Art: See also Bachelor of Science in Education

Portfolios:

All graduating art and design majors are required to individually document by means of digital photography selected examples of their best work. These final portfolios are to be submitted to their major advisors as part of their Senior Seminar. CDs of the portfolio will remain the property of the Department of Art, Design and Interdisciplinary Studies.

Art Supplies:

Art and Design majors must plan, when preparing their yearly educational budgets, to spend at least $300 per semester on art supplies. All studio art courses require varying amounts of personal equipment and supplies. Studio fees collected at registration for some art courses provide only a portion of the supplies needed. Supply lists will be provided on the first day of classes.

Fitness and Wellness, Minor

Requirements For: Minor – 18-19 Hours, 2.0 GPA

BI210 - The Human Body Credits: 3
or
BI211 - Human Anatomy and Physiology I Credits: 4

BI214 - Personal and Community Health Credits: 3
FW122 - Human Nutrition Credits: 3
FW175 - Medical Terminology Credits: 3

Electives 6 cr.
Select two of the following:

- FW190 - Health, Sport, & Exercise Science Credits: 3
- FW200 - Resistance Exercise Instruction Credits: 3
- FW231 - First Aid/CPR Credits: 3
- FW275 - Introduction to Sport Management Credits: 3
- FW315 - Stress & Wellness: Current Approaches Credits: 3
- FW320 - Fitness Management Credits: 3
- FW380 - Applied Health Behavior Credits: 3

**Geographical Information Systems, Minor**

The minor provides students interested in Geographical Information Systems (GIS) an opportunity to pursue their studies in this specialized field of geography. This rapidly growing technology is proving to become a needed job skill in this computer age in virtually all fields, especially those in Natural Sciences, Social Sciences and Business.

**Requirements For: Minor – 21 Hours, 2.0 GPA**

- GGP270 - Spatial Analysis Credits: 3
- or
- NS220 - Applied Statistics and Experimental Design Credits: 3

- GGP330 - Cartography Credits: 3
- GGP335 - Remote Sensing Credits: 3
- GGP350 - GIS I Credits: 3
- GGP355 - GIS II Credits: 3
- GGP450 - Internship in GIS Credits: 3
- IS205 - Managing Information Systems Credits: 3

**Geography, Minor**

The minor provides students interested in geography an opportunity to pursue their studies in the discipline. A variety of geography subjects are available and students may select courses in line with their specific academic and career goals.

**Requirements For: Minor – 18 or more Hours, 2.0 GPA**

A minimum of eighteen hours from any courses in Geography (GGH, GGP) can be taken to fulfill this requirement.

**Geoscience, Minor**

The minor provides students interested in the geosciences an opportunity to pursue their studies in physical geography/geology. A variety of geoscience subjects are available and students may select courses in line with their specific academic and career goals.

**Requirements For: Minor – 18-20 Hours, 2.0 GPA**
Complete 18–20 hours from the following courses:

- GGP115 - Physical Geography **Credits:** 4
- GGP205 - Meteorology **Credits:** 4
- GGP290 - Selected Topics in Physical Geography **Credits:** 1-4
- GGP335 - Remote Sensing **Credits:** 3
- GGP370 - Biogeography **Credits:** 3
- GGP390 - Special Topics in Physical Geography **Credits:** 1-4
- GO125 - Natural Disasters **Credits:** 3
- GO130 - Astronomy **Credits:** 4
- GO141 - Physical Geology **Credits:** 4
- GO151 - History of the Earth **Credits:** 4
- GO200 - Oceanography **Credits:** 4
- GO215 - Selected Topics in Geology **Credits:** 1-4
- GO300 - Dinosaurs **Credits:** 3
- GO310 - Sedimentology and Stratigraphy **Credits:** 4
- GO315 - Special Topics in Geology **Credits:** 1-4
- GO320 - Geomorphology **Credits:** 4
- GO330 - Paleobiology **Credits:** 4
  or
- BIO330 - Paleobiology **Credits:** 4

**Global Studies, Minor**

**Requirements For:** Minor – 18 Hours, 2.0 GPA

**Core 6 cr.**

- PO210 - Comparative Political Systems **Credits:** 3
- PO216 - International Relations **Credits:** 3

**Electives 12 cr.**

Choose one course in each category.

**Business, Economics, and Marketing**

- EC402 - Comparative Economic Systems **Credits:** 3 *
- EC407 - International Trade and Finance **Credits:** 3 *
- IB302 - International Business Culture **Credits:** 3
- IB315 - International Business Perspectives **Credits:** 3
- IB431 - International Finance **Credits:** 3 *
- IB451 - Seminar on International Business **Credits:** 3 *
- MK395 - International Marketing **Credits:** 3 *

**Geography**

- GGH201 - Geography of Africa **Credits:** 3
- GGH202 - Geography of Latin America **Credits:** 3
- GGH203 - Geography of Europe **Credits:** 3
GGH204 - Geography of Asia Credits: 3
GGH206 - Geography of the Middle East Credits: 3
GGH305 - Geography of Russia Credits: 3

History

HIS211 - The Great War: 1914-1918 Credits: 3
HIS332 - World War II Credits: 3
HIS335 - Modern Germany Credits: 3
HIS336 - The Long 19th Century Credits: 3
HIS337 - Modern Europe Credits: 3

Global/international humanities electives

AR216 - Art History II Credits: 3
AR317 - World Art Credits: 3
CA235 - Multicultural Communication Credits: 3
ML235 - Survey of European Literature Credits: 3
ML315 - Selected Topics in Literature and Culture Credits: 3
MU260 - Introduction to Music Credits: 3
PC315 - Global Peace Issues Credits: 3
RE109 - World Religions Credits: 3

Note:

*Course has prerequisites

Global Sustainability, Minor

Requirements For: Minor – 18-19 Hours, 2.0 GPA

GGH326 - Resources and People Credits: 3
GGP120 - Global Sustainability Credits: 3
GGP301 - Renewable Energy Technologies Credits: 3
GGP340 - Environmental Planning Credits: 3

Electives 6-8 cr.

BI111 - Environmental Biology Credits: 4
BIO327 - Introductory Ecology and Evolution Credits: 4
CH101 - Chemistry in the World Credits: 4
GGP205 - Meteorology Credits: 4
GGP345 - Land Use Planning Credits: 3
GGP350 - GIS I Credits: 3
GGP365 - Geography of Disease Credits: 3
GGP370 - Biogeography Credits: 3
GO125 - Natural Disasters Credits: 3
GO151 - History of the Earth Credits: 4
GO200 - Oceanography Credits: 4
GO330 - Paleobiology Credits: 4
Graphic Design, Minor

Requirements for: Minor – 21 Hours, 2.0 GPA

Freshman Core 9 cr.

AR142 - Two-Dimensional Design Credits: 3
AR143 - Three-Dimensional Design Credits: 3
AR144 - Color Theory Credits: 3

Graphic Design Curriculum 9 cr.

AR218 - Graphic Design Software Credits: 3
AR231 - Graphic Design Studio I Credits: 3
AR300 - Graphic Design Principles II: Typography & Design Credits: 3

Select one of the following:

AR328 - Graphic Design Principles: Identity Credits: 3
AR427 - Web Page Design: Digital Environment Credits: 3

Note:

*Students required to pass any of these courses as part of their major must substitute them with other ART courses with the approval of the Art & Design department Chair.

Healthcare, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

HC351 - Organization and Administration of Healthcare Programs Credits: 3
HC451 - Healthcare and the Political Process Credits: 3
HC461 - The Hospital and the Community Credits: 3
HC465 - Basic Issues in Community Based Healthcare Delivery Credits: 3
HR353 - Introduction to Human Resource Management Credits: 3

One course from the following

HC261 - Legal and Ethical Issues in Healthcare Delivery Credits: 3
HC466 - Planning and Organizing Community Health Services Credits: 3
HC467 - Principles of Risk Management and Patient Safety Credits: 3
MG375 - Production and Operations Management Credits: 3

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

AC201 - Principles of Financial Accounting Credits: 3

MG371 - Management and Organizational Behavior Credits: 3
HR353 - Introduction to Human Resource Management Credits: 3
HR357 - Employment Law Credits: 3

HR 300-400 Level

HR class at the 300-400 level Credits: 3

One course from the following

AC202 - Principles of Managerial Accounting Credits: 3

EC141 - Principles of Macroeconomics Credits: 3
or
EC142 - Principles of Microeconomics Credits: 3

FI360 - Financial Management Credits: 3
IB315 - International Business Perspectives Credits: 3
MG261 - Business Law II Credits: 3
MG315 - Advanced Business Statistics Credits: 3
MK351 - Principles of Marketing Credits: 3

Information and Computer Science, Minor

Requirements For: Minor – 18 hours, 2.0 gpa

CS152 - Introduction to Python Programming Credits: 3
CS208 - Discrete Mathematics Credits: 3
CS252 - Object-Oriented Programming Credits: 3
CS365A - Computer Networking I Credits: 3
IS205 - Managing Information Systems Credits: 3
IS361 - Data Management Concepts Credits: 3

International Business, Minor
Requirements For: Business Minor – 18 Hours, 2.0 GPA

IB302 - International Business Culture **Credits:** 3
IB451 - Seminar on International Business **Credits:** 3
MK395 - International Marketing **Credits:** 3

**Three Courses from the Following**

CS300 - Technology in a Global Society **Credits:** 3
EC309 - Economic Development **Credits:** 3
IB331 - International Negotiations **Credits:** 3
IB420 - International Trade **Credits:** 3
IB431 - International Finance **Credits:** 3
IB461 - International Business Internship **Credits:** 1-6
PO345 - International Organizations **Credits:** 3

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

IB302 - International Business Culture **Credits:** 3
IB315 - International Business Perspectives **Credits:** 3
MG260 - Business Law I **Credits:** 3
MG371 - Management and Organizational Behavior **Credits:** 3
MK351 - Principles of Marketing **Credits:** 3
MK395 - International Marketing **Credits:** 3

**One course from the following**

AC201 - Principles of Financial Accounting **Credits:** 3
CS300 - Technology in a Global Society **Credits:** 3
EC141 - Principles of Macroeconomics **Credits:** 3
EC309 - Economic Development **Credits:** 3
IB331 - International Negotiations **Credits:** 3
IB431 - International Finance **Credits:** 3
IB461 - International Business Internship **Credits:** 1-6
PO345 - International Organizations **Credits:** 3

**Journalism, Minor**

Requirements For: Minors – 24 Hours, 2.0 GPA

CA202 - Fundamentals of Writing for Media **Credits:** 3
CA224 - Digital Media Skills **Credits:** 3
CA316 - Writing and Reporting on Multiple Platforms **Credits:** 3
CA319 - Writing for Feature, Public Relations, and Documentary **Credits:** 3
CA320 - Global and Civic Reporting **Credits:** 3
CA324 - Advanced Multimedia Production **Credits:** 3
CA302 - Communication Ethics and Law **Credits:** 3
Select one of the following:

CA203 - Multimedia Practicum I: Content Development Credits: 3
CA303 - Multimedia Practicum II: Editing and Strategic Communication Credits: 3
CA403 - Multimedia Practicum III: Major Project in Journalism, Photography or Public Relations Credits: 3

Note:

Successful Senior Portfolio required for graduation

**Leadership, Minor**

**Requirements For: Minor – 18 hours, 2.0 gpa**

The interdisciplinary leadership minor offered by the Department of Communication, Journalism, and Public Relations develops leaders who are prepared for lifelong learning in the area of leadership practice and skill development. Students completing the minor will communicate effectively, be creative, and have the interpersonal and organizational skills to excel in the complex organizations of a global society.

**Core 12 cr.**

CA233 - Introduction to Leadership Credits: 3
CA235 - Multicultural Communication Credits: 3
CA392 - Organizational Leadership Credits: 3
CA493 - Leadership for Civic Engagement Credits: 3

**Electives 6 cr.**

Choose two of the following, not from the same discipline.

CA475 - Case Studies in Communication Leadership Credits: 3
PA333 - Public Management and Leadership Credits: 3
PC321 - Interpersonal Conflict Resolution Credits: 3
PS341 - Positive Psychology Credits: 3
PS301 - Social Psychology Credits: 3

Note:

And other courses upon approval of advisor and department

**Legal Studies, Minor**

**Requirements For: Minor – 18 hours, 2.5 gpa**

PO200 - American National Government Credits: 3
PO202 - Introduction to Law Credits: 3
PO304 - Constitutional Law Credits: 3
PO323 - Congress and the Presidency Credits: 3  
PO450 - Internship Credits: 3  
PH103 - Fundamentals of Logic Credits: 3  

Logistics, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

MG375 - Production and Operations Management Credits: 3  
LG312 - Transportation and Distribution Systems Credits: 3  
LG415 - Quality Control Credits: 3  
LG424 - Purchasing and Vendor Management Credits: 3  
LG426 - Logistics Management Credits: 3  

One course from the following

LG305 - International Logistics Credits: 3  
LG324 - Contract Management and Law Credits: 3  
LG400 - Logistics Internship Credits: 3-6  

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

AC201 - Principles of Financial Accounting Credits: 3  
or  
MG306 - Business Communications Credits: 3  

MG260 - Business Law I Credits: 3  
or  
HR353 - Introduction to Human Resource Management Credits: 3  

LG312 - Transportation and Distribution Systems Credits: 3  
LG426 - Logistics Management Credits: 3  
MG371 - Management and Organizational Behavior Credits: 3  
MK351 - Principles of Marketing Credits: 3  

One course from the following

LG305 - International Logistics Credits: 3  
LG400 - Logistics Internship Credits: 3-6  
LG415 - Quality Control Credits: 3  
LG424 - Purchasing and Vendor Management Credits: 3  

Management, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

HR353 - Introduction to Human Resource Management Credits: 3
MG401 - Senior Seminar in Management Credits: 3

**MG 300-400 level**

Two MG classes at 300-400 level Credits: 6

**Two courses from the following:**

- EC301 - Intermediate Macroeconomics Credits: 3
  or
- EC302 - Labor Economics Credits: 3
  or
- EC303 - Money, Credit and Banking Credits: 3

- HR310 - Leadership and Team Building Credits: 3
- MG261 - Business Law II Credits: 3
- MK453 - Marketing Research and Information Systems Credits: 3
- LG312 - Transportation and Distribution Systems Credits: 3

**Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA**

- AC201 - Principles of Financial Accounting Credits: 3
- MG260 - Business Law I Credits: 3
- MG371 - Management and Organizational Behavior Credits: 3
- MK351 - Principles of Marketing Credits: 3

**MG 300 - 400 Level**

Two MG classes at the 300-400 level Credits: 6

**One course from the following**

- AC202 - Principles of Managerial Accounting Credits: 3
- EC141 - Principles of Macroeconomics Credits: 3
- EC142 - Principles of Microeconomics Credits: 3
- HR310 - Leadership and Team Building Credits: 3
- HR353 - Introduction to Human Resource Management Credits: 3
- LG312 - Transportation and Distribution Systems Credits: 3
- MG261 - Business Law II Credits: 3
- MG315 - Advanced Business Statistics Credits: 3

**Marketing, Minor**

**Requirements For: Business Minor – 18 Hours, 2.0 GPA**

- MK385 - Consumer Behavior Credits: 3
- MK453 - Marketing Research and Information Systems Credits: 3
MK 300-400 level

Four MK electives at the 300-400 level Credits: 12

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

AC201 - Principles of Financial Accounting Credits: 3
MG315 - Advanced Business Statistics Credits: 3
MK351 - Principles of Marketing Credits: 3
MK385 - Consumer Behavior Credits: 3
MK453 - Marketing Research and Information Systems Credits: 3

MK 300-400 Level

Two MK electives at 300-400 level Credits: 6

Mathematics, Minor

Requirements For: Minor – 22 hours, 2.0 gpa

MA221 - Calculus and Analytic Geometry for Majors I Credits: 5
MA222 - Calculus and Analytic Geometry for Majors II Credits: 5
MA223 - Calculus and Analytic Geometry for Majors III Credits: 3
MA331 - Linear Algebra Credits: 3
and two additional mathematics courses numbered at the 300 level or above.

Military History, Minor

Requirements For: Minor - 18 Hours, 2.75 GPA

HIS252 - The History of Warfare Credits: 3
HIS200 - The History of Military Thought Credits: 3
HIS330 - U.S. Military History Credits: 3
GGH310 - Geography of Terrorism Credits: 3
SO318 - Military Sociology Credits: 3
PO344 - War and Terrorism Credits: 3

Military Science, Minor

This minor is only open to ROTC students.

Requirements for: Minor - 20 Hours, 2.0 GPA

MI302 - Leadership Practicum V Credits: 2
MI312 - Leadership Practicum VI Credits: 2
MI316 - Leadership and Problem Solving Credits: 3
MI326 - Leadership and Ethics Credits: 3
MI402 - Leadership Practicum VII Credits: 2
MI412 - Leadership Practicum VIII Credits: 2
MI416 - Leadership and Management Credits: 3
MI426 - Officership Credits: 3

Military Studies, Minor

Requirements For: Minor – 18 hours, 2.0 gpa

HIS211 - The Great War: 1914-1918 Credits: 3
HIS330 - U.S. Military History Credits: 3
HIS332 - World War II Credits: 3
PO320 - American Foreign Policy Credits: 3
Plus additional Hours from electives and/or Military Service Credit Credits: 6

Multidisciplinary Arts, Minor

The minor in Multidisciplinary Arts provides an opportunity to explore artistic expression across a number of fields and disciplines. While engaging students in both the production and appreciation of artistic works, it also encourages them to extend their studies into either the performative or theoretical aspects of literature, theatre, visual art, history, communication, and music.

Requirements For: Minor – 18 hours, 2.0 gpa

Students must choose at least six hours from each of the two areas. The selections must represent at least three different course prefixes (e.g., CA, EN, AR).

Arts Appreciation at least 6 cr.

AR115 - Introduction to the Visual Arts Credits: 3
AR215 - Art History I Credits: 3
AR298 - History of the Designed Environment: Antiquity to Mid-Nineteenth Century Credits: 3
AR316 - Modern Art Credits: 3
EN201 - Introduction to Literature Credits: 3
EN221 - African-American Literature Credits: 3
EN341 - Literature and Film Credits: 3
HIS316 - Historical Material Conservation Credits: 3
ML235 - Survey of European Literature Credits: 3
MU205 - Music Appreciation Credits: 3
TH100 - Introduction to Theatre Credits: 3

Studio Art and Performance at least 6 cr.

AR140 - Drawing I Credits: 3

AR241 - Photography I Credits: 3
or
CA241 - Photography I Credits: 3
Natural Science, Minor

Requirements For: Minor – 19 hours, 2.0 gpa

This interdisciplinary minor is designed for students seeking a generalized knowledge of the natural and physical sciences. It is recommended for those not majoring in the sciences but who wish to gain a better appreciation for science and acquire a broad base of knowledge in biology, chemistry, and geoscience. It is also appropriate for those interested in teaching general science content, especially at the elementary level. A GPA of 2.0 or better is required.

At least one course from each of the following:

Biology

BI101 - Biological Concepts Credits: 4
BI111 - Environmental Biology Credits: 4
BI210 - The Human Body Credits: 3
BI214 - Personal and Community Health Credits: 3
BI211 - Human Anatomy and Physiology I Credits: 4
BIO221 - Zoology Credits: 4
BIO225 - Botany Credits: 4

Chemistry/Physics

CH101 - Chemistry in the World Credits: 4
CH107 - General Chemistry I Credits: 3
CH107L - General Chemistry Laboratory I Credits: 1
PY101 - Physical World Credits: 3
PY155 - Concepts of Physics I Credits: 4
PY156 - Concepts of Physics II Credits: 4

Geology/Geography

GGP115 - Physical Geography Credits: 4
GGP205 - Meteorology Credits: 4
GO130 - Astronomy Credits: 4
GO141 - Physical Geology Credits: 4
GO151 - History of the Earth Credits: 4
GO200 - Oceanography Credits: 4

Natural Science
NS220 - Applied Statistics and Experimental Design Credits: 3
NS241 - Philosophy and History of Science Credits: 3
NS304 - Science, Technology, and Society Credits: 3

**Organizational Communication, Minor**

**Requirements For: Minor – 18 hours, 2.5 gpa**

- CA200 - Interviewing Theories and Practice Credits: 3
- CA402 - Organizational Communication Credits: 3
- CA451 - Communication and Leadership in Groups and Teams Credits: 3
- CA475 - Case Studies in Communication Leadership Credits: 3
- Two Upper Division Communication Electives Credits: 6

**Peace Studies, Minor**

Peace Studies students at Park University will benefit from an interdisciplinary education that features multi-layered perspectives on global issues, conflict, non-violence, positive peace, and peacebuilding. Students will enhance their research, writing, storytelling, and analytical skills in their classes and through work in the field. The Peace Studies Minor will provide students with the tools to become active world citizens working towards positive social change in their communities and the world. Students will be challenged to think outside of their academic majors, and to create pragmatic, empathetic strategies and solutions to address sources of conflict and violence.

**Requirements For: Minor - 18 Hours, 2.0 GPA**

- CA235 - Multicultural Communication Credits: 3
- LE300O - Peace Journalism Credits: 3
- LE300AA - Strategic Peacebuilding Credits: 3
- PC202 - Introduction to Peace Studies Credits: 3

**Capstone**

Select one of the following

- CA490 - Professional Learning Experience Credits: 3-6
- CA491 - Senior Research Project Credits: 3
- CA493 - Leadership for Civic Engagement Credits: 3
- CA404 - Seminar: Special Topics in Communication Arts Credits: 3
  **Capstone: Peace Internship or Practicum or Research Project or Special Topics or Study Abroad. The capstone will be tailored to meet the individual student needs.**

**Elective 3 cr.**

Select one of the following

- CA321 - Interpersonal Conflict Solution Credits: 3
- PO216 - International Relations Credits: 3
- SW325 - Human Diversity and Social Justice Credits: 3
- Any course approved by Peace Studies Program Coordinator Credits 3
Philosophy, Minor

Requirements For: Minor – 18 hours, 2.75 gpa

6 hours from:

- PH101 - Introduction to Philosophical Thinking Credits: 3
- PH102 - Introduction to Ethical Thinking Credits: 3
- PH103 - Fundamentals of Logic Credits: 3

12 additional hours in Philosophy

12 additional hours in Philosophy, of which 9 credit hours must be at the 200 level or higher.

Political Science, Minor

Requirements For: Minor – 18 hours, 2.0 gpa

- PO200 - American National Government Credits: 3
- PO210 - Comparative Political Systems Credits: 3

plus twelve additional hours in Political Science.

Professional and Technical Writing, Minor

The minor in Professional and Technical Writing (PTW) provides a competitive advantage for those seeking careers in the sciences, technical industries, the military, and other professional environments requiring keen communication skills. Students become adept at analyzing audiences to anticipate their needs and fulfilling those needs with common workplace genres such as proposals, reports, presentations, memos, instructions, and more.

Additionally, students learn to produce effective, convincing documents in both print and digital formats and expand their ability to edit others' writing.

Requirements For: Minor – 18 Hours, 2.0 GPA

- EN204 - Writing for Online Environments Credits: 3
- EN207 - Professional and Technical Editing Credits: 3
- EN306A - Scientific and Technical Writing Credits: 3
- EN306B - Business Communications Credits: 3
- EN384 - Professional Learning Experience for English Credits: 3

Choose ONE of the following courses
- EN231 - Introduction to Language Credits: 3
- EN304 - Special Topics in Writing and Rhetoric Credits: 3
- EN325 - Modern Grammar Credits: 3

Project Management, Minor
Requirements For: Business Minor – 18 Hours, 2.0 GPA

AC380 - Cost Accounting Credits: 3  
FI415 - Financial Analysis and Planning Credits: 3  
HR353 - Introduction to Human Resource Management Credits: 3  
MG375 - Production and Operations Management Credits: 3  
MG401 - Senior Seminar in Management Credits: 3  
MG450 - Project Management Credits: 3

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

AC201 - Principles of Financial Accounting Credits: 3  
AC202 - Principles of Managerial Accounting Credits: 3  
FI360 - Financial Management Credits: 3  
HR353 - Introduction to Human Resource Management Credits: 3  
MG375 - Production and Operations Management Credits: 3  
MG450 - Project Management Credits: 3  
MG371 - Management and Organizational Behavior Credits: 3

Psychology, Minor

Requirements For: Minor – 18 hours, 2.0 gpa

PS101 - Introduction to Psychology Credits: 3  
PS301 - Social Psychology Credits: 3  
PS315 - Theories of Personality Credits: 3  
PS341 - Positive Psychology Credits: 3

Electives 6 cr.

6 cr. of Psychology (PS) courses

Public Administration, Minor

Requirements For: Minor – 18 hours, 2.5 gpa

18 hours must include

PO200 - American National Government Credits: 3  
PA330 - Public Administration Credits: 3  
PA333 - Public Management and Leadership Credits: 3

9 Hours of PA Prefix Electives

9 hours of PA prefix electives from the BPA Core and/or Public Service emphasis area excluding

PA430 - Research in Public Administration Credits: 3
PA432 - Senior Project in Public Administration **Credits:** 3

Certificates:

For information regarding the certificate in Terrorism and Homeland Security from the Department of Criminal Justice.

**Public Relations, Minor**

**Requirements For: Minor - 18 Hours, 2.0 GPA**

CA202 - Fundamentals of Writing for Media **Credits:** 3  
or  
EN204 - Writing for Online Environments **Credits:** 3

CA218 - Public Relations **Credits:** 3

CA224 - Digital Media Skills **Credits:** 3  
or  
CA225 - Online Content Creation **Credits:** 3

CA302 - Communication Ethics and Law **Credits:** 3  
CA348 - Theories of Communication **Credits:** 3

**Select One**

Select one of the following:

CA318 - Public Relations II **Credits:** 3

CA380 - Advertising **Credits:** 3  
or  
MK380 - Advertising **Credits:** 3

CA382 - Communication Research Methods **Credits:** 3 *  
CA490 - Professional Learning Experience **Credits:** 3-6

**Note:**  

* Communication Studies Majors cannot choose CA382.

**Social Psychology, Minor**

Social Psychology, Minor Locations

**Requirements For: Minor – 18 hours, 2.0 gpa**

Only for non-psychology and non-sociology majors.
Core 9 cr.

SO141 - Introduction to Sociology Credits: 3
PS101 - Introduction to Psychology Credits: 3
PS301 - Social Psychology Credits: 3

Electives: Any Psychology or Sociology courses. 9 cr.

9 cr. of Psychology (PS) or Sociology (SO) courses. At least 6 cr. must be at the 300-400 level

Social Work, Minor

Requirements For: Social Work Minor – 18 hours, C or better

40 hours of service learning in a human service agency.

PS309 - Human Sexuality Credits: 3
SO302 - The Study of the Family Credits: 3
SW205 - Introduction to Social Work Credits: 3
SW325 - Human Diversity and Social Justice Credits: 3
SW330 - Social Welfare Policy and Programs Credits: 3
SW450 - Integrative Seminar for SW Minor Credits: 3 (Capstone)

Note:

All of the required courses for the Social Work minor must be completed with a grade of C or better prior to enrollment in SW450, which is the capstone course for the SW minor.

Sociology, Minor

Requirements For: Minor – 18 hours, 2.0 gpa

18 hours which must include SO 141, SO 206 and at least two courses at the 300-400 levels (6 cr).

SO141 - Introduction to Sociology Credits: 3
SO206 - Social Issues in Contemporary Society Credits: 3

Spanish, Minor

Requirements For: Minor – 18 hours, 2.5 gpa

The Spanish Minor is designed to assist students in gaining proficiency in oral and written communication in this world language, along with a solid understanding of Hispanic cultures. Students majoring in Early Childhood, Criminal Justice, Social Work, Nursing, Psychology or International Business concentration should consider the completion of this minor. Heritage speakers or near-native speakers are encouraged to consider test-out options for SP201.

SP201 - Intermediate Spanish I Credits: 3
SP202 - Intermediate Spanish II **Credits:** 3
SP294 - Intermediate Spanish Conversation **Credits:** 3
SP295 - Intermediate Spanish Composition **Credits:** 3
SP320 - U.S. Latino Cultures and Literatures **Credits:** 3
One 300 level Spanish elective in cultural and/or literary topic **Credits:** 3

**Note:**

**For those students wishing to teach K-12 Spanish: See also Bachelor of Science in Education.**

**Statistics, Minor**

**Requirements For: Minor – 19 hours, 2.0 GPA**

This Statistics minor is under the Department of Mathematics and Statistics. Students should contact this department with any questions.

- MA120 - Basic Concepts of Statistics **Credits:** 3
- MA221 - Calculus and Analytic Geometry for Majors I **Credits:** 5
- MA222 - Calculus and Analytic Geometry for Majors II **Credits:** 5
- MA305 - Probability **Credits:** 3

Select one of the following: 3 cr.

- NS220 - Applied Statistics and Experimental Design **Credits:** 3
- MA380 - Mathematical Statistics **Credits:** 3
- PS307 - Statistics for Social Sciences **Credits:** 3
  or
- SO307 - Statistics for Social Sciences **Credits:** 3

**Urban and Regional Planning, Minor**

**Requirements For: Minor – 18 hours, 2.0 GPA**

**Core: 12 cr.**

- GGH323 - Urban Geography **Credits:** 3
- GGP340 - Environmental Planning **Credits:** 3
- GGP345 - Land Use Planning **Credits:** 3
- GGP350 - GIS I **Credits:** 3

Select 2 courses from different disciplines: 6 cr.

- AR390 - History of the Designed Environment: Mid-Nineteenth Century to the Present **Credits:** 3
- CA233 - Introduction to Leadership **Credits:** 3
- CA235 - Multicultural Communication **Credits:** 3
CJ345 - Criminal Justice and the Community **Credits:** 3
CJ233 - Introduction to Security **Credits:** 3
EC309 - Economic Development **Credits:** 3
EDU210 - The School as a Social System **Credits:** 3

SW325 - Human Diversity and Social Justice **Credits:** 3

### 4+1 Undergraduate to M.B.A.

The 4+1 MBA Program allows undergraduate students in business (all majors) with at least 60 undergraduate credit hours and a cumulative grade point average of 3.0 on a 4.0 scale to take graduate coursework in the Master of Business Administration, M.B.A. program, which will not only count towards fulfilling their undergraduate degree requirements, but will also count toward the completion of the MBA program. Qualified students may take up to 12 credit hours (4 courses) from the MBA curriculum, which will reduce the time necessary to complete the graduate degree from two years to as little as one year following the completion of the undergraduate degree (see table below).

The admission criteria for participation in the 4+1 Undergraduate to MBA program are as follows:

- Students must have completed 60 undergraduate credit hours toward their baccalaureate degree.
- Students must maintain a cumulative undergraduate GPA of 3.0 on a 4.0 scale while taking MBA courses.

**4+1 Undergraduate to M.S. ISBA**

1102
The 4+1 Undergraduate to Master of Science, Information Systems and Business Analytics, M.S. program allows undergraduate students in the Business Analytics, B.S.B.A. degree to take graduate coursework in the ISBA program, which will not only count towards fulfilling their undergraduate degree requirements but will also count toward the completion of the Master of Science, Information Systems and Business Analytics, M.S. Students need at least 60 undergraduate credit hours and a cumulative grade point average of 3.0 on a 4.0 scale.

Qualified students may take up to 12 credit hours (4 courses) from the ISBA curriculum, which will reduce the time necessary to complete the graduate degree from two years to as little as one year following the completion of the undergraduate degree (see table below). Students must be enrolled in at least 12 semester credit hours combined of undergraduate and graduate classes each semester that he or she is taking credits ISBA under this option.

The admission criteria for participation in the 4+1 program are as follows:

Students must have completed 60 undergraduate credit hours toward their baccalaureate degree.
Students must maintain a cumulative undergraduate GPA of 3.0 on a 4.0 scale while taking ISBA courses.

**Business Analytics, Graduate Certificate**

The graduate certificate in Business Analytics is housed in the Robert W. Plaster School of Business. The certificate is aimed to provide students with the skills and knowledge in Business Analytics, which will allow them bridging technologies and data-driven decision-making in Business and other relevant fields. The certificate will prepare students to understand how technology helps working with data; how to convert analytical questions into a set of actions, and how to use appropriate tools to perform them. Students will have the opportunity to practice working with big data, data mining, predictive models, data visualization, and/or conduct analysis of marketing or web data.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 6 cr.**

MIS605 - Management Information Systems **Credits:** 3
Select two of the following: 6 CR.

- CIS606 - Applied Data Mining and Analysis of Big Data Credits: 3
- CIS607 - Survey of Predictive Analytical Techniques Credits: 3
- CIS608 - Web and Marketing Analytics Credits: 3
- CIS609 - Data Visualization Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Criminal Justice Administration, Graduate Certificate

The Graduate Certificate in Criminal Justice Administration is housed in the Hauptmann School of Public Affairs within the College of Management. This certificate is designed to provide for the exploration of the field of criminal justice from a comparative perspective. In so doing, this certificate will bring to light similarities as well as differences in various criminal justice systems across jurisdictions around the nation and throughout the world. This exploration will be augmented by a consideration of key administrative aspects including financial management and the policy making process.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Students must complete each of the four courses, and the requirements specific to each, with a grade of “B” or better.

Core Requirement 12 cr.

- PA503 - Emerging Issues in Public Affairs Credits: 1 to 3
- PA513 - Policy Development, Evaluation and Impact for Organizations Credits: 3
- PA594 - Financial Management for Nonprofit/Community Organizations Credits: 3
- PA630 - Comparative Criminal Justice Systems Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).
Meet all requirements of the specific program as outlined in this catalog
Submission of an Application for Graduation
*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Disaster and Emergency Management, Graduate Certificate**

The Graduate Certificate in Disaster and Emergency Management complements the existing graduate programs offered by the University’s Hauptmann School of Public Affairs which is housed within the College of Management. The public’s continued concern for efficient governmental response to natural and man-made disasters, along with the recent significant investment in emergency management activities, requires knowledgeable public managers, including managers transitioning from other areas of expertise. The array of potential hazardous events that now confront public managers includes Homeland Security issues, failures of complex technology and a wide range of natural hazards. Students possessing a Graduate Certificate in Disaster and Emergency Management will be well-prepared to engage the public policy issues surrounding these community hazards.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 12 cr.**

DEM551 - Principles of Disaster and Emergency Management Credits: 3
DEM552 - Public Policy and Disaster Credits: 3
DEM553 - Disaster and Society Credits: 3
DEM557 - Continuity of Operations in Public and Private Sectors Credits: 3

**Graduation Requirements**

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Finance, Graduate Certificate**

The Graduate Certificate in Finance is housed in the School of Business within the College of Management. The certificate will assist students in achieving the chartered financial analyst certification and/or obtaining a greater flexibility in training for future careers in finance.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 12 cr.**

MBA615 - Managerial Finance Credits: 3
FIN621 - Advanced Corporate Finance Credits: 3
FIN625 - International Finance Credits: 3
FIN640 - Investment Management Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Health Services Management and Leadership, Graduate Certificate

Up-to-date knowledge and skills in the administration and leadership of health care services are critical in today’s constantly and rapidly changing environment. The Graduate Certificate in Health Services Management and Leadership, housed in the Robert W. Plaster School of Business within the College of Management, prepares students and practicing healthcare leaders to enhance their professional skills to meet new healthcare policy and practice challenges. The program focuses on critical thinking and problem solving in today’s healthcare environment.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Foundation Courses 6 cr.

- HA511 - Leadership and Management in Healthcare Systems Credits: 3
- HA518 - Organization of Healthcare Delivery Systems Credits: 3

Theory Integration Courses 6 cr.

Select two of the following:

- HA509 - Management of Health Information Systems Credits: 3
- HA515 - Marketing and Consumer Driven Healthcare Credits: 3
- HA516 - Healthcare Finance Credits: 3
- HA517 - Legal and Ethical Issues in Healthcare Administration Credits: 3
- HA521 - Special Topics in Healthcare Administration Credits: 1-3

- HA533 - Managerial Epidemiology Credits: 3
- HA537 - Health Policy and Politics Credits: 3
- HA557 - Nursing Dimensions of Healthcare Administration Credits: 3
- HA573 - Quality Improvement and Outcomes Assessment in Healthcare Settings Credits: 3
- HA603 - Healthcare Research Methods for Managerial Decision-Making Credits: 3
- HA604 - Healthcare Economics and Policy Credits: 3
- HA611 - Mediation, Negotiation and Conflict Management Credits: 3
Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Human Resource Management, Graduate Certificate

The Graduate Certificate in Human Resource Management is in the School of Business which is housed within the College of Management. The certificate is designed to expose students to the functional areas of a typical human resource department. In addition, the students gain a deeper appreciation of the consultative role that HR professionals play in supporting the organization's management team, employees, and contractors. The competencies acquired in this curriculum will prepare students to more effectively manage personnel and leverage the support of their HR professionals as their career advances.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Core Requirement 12 cr.

- HRM634 - Planning and Staffing Credits: 3
- HRM635 - Training, Development, and Evaluation Credits: 3
- HRM636 - Change Management and Conflict Resolution Credits: 3
- HRM637 - Compensation Management Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Local Economic Development, Graduate Certificate

The Graduate Certificate in Local Economic Development is designed to provide a comprehensive overview of the field that will help enrich and guide local practitioners and leaders in their efforts to promote the well-
being of their communities. Topics include the history of urban development in the United States, comparisons between types of economic development approaches, public-private partnerships and intergovernmental relations, citizen involvement in economic development policy, quality of life considerations, local land use and planning.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

PA550 - Local Economic Development in Theory and Practice **Credits: 3**  
PA560 - Approaches to Local Economic Development **Credits: 3**  
PA580 - Sustainability, Smart Growth and Community Development **Credits: 3**  
PA590 - Population, Land Use and Municipal Finance **Credits: 3**

**Graduation Requirements**

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Management Accounting, Graduate Certificate**

The Graduate Certificate in Management Accounting is in the School of Business which is housed within the College of Management. The certificate is designed to prepare the students with the competencies necessary to excel in professional positions that require a high level of comfort with accounting and finance, such as chief financial officers, controllers, financial analysts, or budget analysts or directors. More specifically, this curriculum will provide the students with an extensive understanding of management accounting concepts, cost accounting, accounting research practices, activity-based costing as an aid to making decisions, profit planning, budget forecasting and preparation, and broaden their leadership skills. The skills acquired in the management accounting curriculum will develop student knowledge of financial planning, financial analysis, control mechanisms, decision-making, and professional ethics. The Management Accounting certificate is unique in that it is designed to prepare students without an undergraduate degree in accounting, or from different graduate disciplines, with the competencies necessary to assume leadership roles within the financial service units as opposed to working as a staff or public accountant.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 12 cr.**

- ACC510 - Accounting Research and Analysis **Credits: 3**  
- ACC613 - Internal Auditing and Control Mechanisms **Credits: 3**  
- ACC617 - Advanced Managerial Accounting Issues **Credits: 3**  
- ACC626 - Management Accounting Leadership-Role of the Chief Financial Officer **Credits: 3**

**Graduation Requirements**
Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Management Information Systems, Graduate Certificate

The Graduate Certificate in Management Information Systems is in the Robert W. Plaster School of Business which is housed within the College of Management. This certificate is designed to give students an in-depth exposure to varying information systems and how these technologies are leveraged to alter organizational structures, improve workflow, and influence a firm’s culture. In addition, the curriculum will allow students to analyze potential security and privacy risks associated with corporate information and how best to mitigate these concerns through administrative, technical, and physical safeguards. The students will be exposed to concepts and applications of data analytics, the big data life cycle, and those processes associated with project management as they pertain to system architecture and a firm’s ability to answer complicated business questions.

Requirements For: Certificate - 12 Hours, 3.0 GPA

**Core Requirement 12 cr.**

- MIS603 - Information Security and Risk Management **Credits:** 3
- MIS605 - Management Information Systems **Credits:** 3
- MIS609 - Database Management Systems **Credits:** 3
- MIS614 - Data Analysis and Business Analytics **Credits:** 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Marketing, Graduate Certificate

The Graduate Certificate in Marketing is in the School of Business which is housed within the College of Management. The certificate is designed to prepare students with the competencies necessary to excel in professional positions as marketing managers. This curriculum will provide the students with an extensive
understanding of marketing concepts including consumer behavior, brand management, and digital communication.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 9 cr.**

- MKT631 - Consumer Behavior **Credits:** 3
- MKT632 - Strategic Brand Management **Credits:** 3
- MKT634 - Strategic Marketing Simulation **Credits:** 3

**Electives 3 cr.**

- CIS608 - Web and Marketing Analytics **Credits:** 3
- MKT633 - Digital and Social Media Marketing **Credits:** 3

**Graduation Requirements**

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Music Performance, Graduate Certificate**

The Graduate Certificate in Music Performance program is offered through Park University's International Center for Music. This two-year certificate program — with applied emphasis in piano, violin, viola or cello — is designed for students who want to pursue a non-degree course of study concentrating almost exclusively on performance. Minimum graduate credit hours required for the certificate are 24. Additional admission requirements in addition to the general rules that are applicable for admission to Graduate Studies at Park University, specific admission requirements are:

- Bachelor of Music or related undergraduate degree from a U. S. institution, an equivalent bachelor's degree from an accredited foreign institution of higher education, or equivalent professional experience as determined by the faculty of the International Center for Music.
- An audition before the music faculty. In approved situations, a recording may be submitted in lieu of a live audition.

Each applicant must furnish a complete list of repertoire and recital history, at the time of application. This is an advanced program of study at the graduate level, supervised and approved by the graduate faculty of Park University.

**Requirements For: Certificate - 24 Hours, 3.0 GPA**

**Core Requirement 24 cr.**
Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Nonprofit Leadership, Graduate Certificate

The Graduate Certificate in Nonprofit Leadership program, offered by the Hauptmann School of Public Affairs which is housed within the College of Management, prepares students for leadership positions in the nonprofit and philanthropic sectors. Graduates with this certificate command key skills and understanding found necessary to equip them for challenging work in these sectors. Graduates of this certificate program will be able to:

- Exhibit key skills needed to lead and manage nonprofit organizations.
- Develop cross-sector understanding and skills to help network nonprofit organizations and attract resources.
- Assess ethical dimensions of decisions of nonprofit leaders.
- Create strategies to help nonprofits fulfill their unique missions.
- Identify and attract possible funding sources for nonprofits.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Core Requirement 12 cr.

- PA542 - Social Policy Credits: 3
- PA545 - Management of Nonprofit and Nongovernmental Organizations Credits: 3
- PA593 - Financing Nonprofit/Community Services Credits: 3
- PA594 - Financial Management for Nonprofit/Community Organizations Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation
*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Project Management, Graduate Certificate**

The Graduate Certificate in Project Management (PM) is in the School of Business which is housed within the College of Management. The certificate is designed to prepare students with the knowledge, skills, and abilities (KSAs) to competently plan, organize, staff, and guide processes for creating a solution or system. The PM certificate intends to adequately prepare the students to take the Project Management Professional (PMP)® credentialing exam. More specifically, the content is aligned with the Project Management Body of Knowledge (PMBOK, 5th edition) and introduces students to the five (5) process groups, 10 knowledge areas, and 47 processes.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 12 cr.**

- PM690 - Integration, Scope, and Quality Management **Credits:** 3
- PM691 - Time and Cost Management **Credits:** 3
- PM692 - Communications, Risk, and Stakeholder Management **Credits:** 3
- PM693 - Human Resource and Procurement Management **Credits:** 3

**Graduation Requirements**

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Public Policy, Graduate Certificate**

The Graduate Certificate in Public Policy, offered by the Hauptmann School of Public Affairs which is housed within the College of Management, prepares those working for public-sector and nonprofit agencies for the public policy role they are likely to play -- from the vantage point of either policy formulation, implementation or policy assessment.

Graduates with this certificate will acquire an understanding of how public policy is developed, the significance of proper implementation and the importance evaluating the success of policy outcomes. In so doing, graduates will be introduced to several policy areas including social policy, disaster and emergency management, and issues involved in local policy making.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 12 CR.**
DEM552 - Public Policy and Disaster Credits: 3
PA513 - Policy Development, Evaluation and Impact for Organizations Credits: 3
PA542 - Social Policy Credits: 3
PA599 - Virtual Local Government Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Public Service Leadership, Graduate Certificate

Leadership is a critical component of any public agency's ability to deliver services effectively, efficiently, and help respond and adapt to ever-changing societal challenges. Quality leadership includes the ability to set goals, foster communication, encourage collaboration and trust among numerous agency and interagency groups, and engage in ethical decision making. The Graduate Certificate in Public Service Leadership will focus on leadership theory and its application, ethical leadership and decision making, and the internal and external environments of public sector agencies.

Requirements For: Certificate - 12 Hours, 3.0 GPA

- PA503 - Emerging Issues in Public Affairs Credits: 1 to 3
  * 3 credits required
- PA509 - Leadership Development and Organizations Credits: 3
- PA512 - The Environment of Public Organizations Credits: 3
- PA600 - Ethical Foundations of Authority and Responsibility Credits: 3

Music Performance, Graduate Artist Diploma

The Graduate Artist Diploma in Music Performance is offered through Park's International Center for Music. This is a unique two-year program — with applied emphasis in piano, violin, viola or cello — is open to only a few highly gifted artists who have demonstrated exemplary artistic achievement in their academic/professional career, and is the most advanced course of study in music offered at Park University. This course of study is to prepare students for a concert/stage career, or a major appointment in the professional or academic arena. Additional admission requirements, in addition to the general rules that are applicable for admission to Graduate Studies at Park University, are:

- Successful completion of the Graduate Certificate in Music Performance offered at Park University, or the equivalent graduate degree/certificate from an accredited U.S. or foreign institution, or equivalent professional experience as determined by the faculty of the International Center for Music.
An audition before the music faculty. In approved situations, a recording may be submitted in lieu of a live audition.

Each applicant must furnish a complete list of repertoire and recital history at the time of application. This is an advanced program of study at the graduate level, supervised and approved by the graduate faculty of Park University.

**Requirements For: Artist Diploma - 24 Hours, 3.0 gpa**

MU601* - Advanced Applied Music **Credits:** 6

MU601* is repeated for a total of 24 hours.

**Graduation Requirements**

Park University confers the Graduate Artist Diploma upon successful completion of the following requirements:

- Completion of a minimum of 24 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Arts, Communication and Leadership, M.A.**

The search for effective leadership continues today as contemporary organizations become more complex. The Master of Arts in Communication and Leadership program starts with the premise that communication is the essence of effective leadership. The student trained in communication is uniquely qualified to provide innovative leadership within the global community.

**Mission**

The Master of Arts in Communication and Leadership will develop exceptional communicators who are creative and who possess the interpersonal and organizational skills needed to meet the demands of complex organizations in a global society.

**Vision**

The Master of Arts in Communication and Leadership program will be an international leader in the development of uniquely qualified individuals to provide innovative leadership within the global community.

**Purpose of the Program**

In the Republic, Plato discusses the appropriate training that should be a part of educating political leaders. Since the time of the classic Greek philosophers, countless individuals have speculated about the principles of leadership. The search for effective leadership continues today, as contemporary organizations become more complex. The Master of Arts in Communication and Leadership begins with the premise that communication is the essence of effective leadership. The student trained in communication is uniquely qualified to provide innovative leadership within the global community.
This graduate program is designed for professionals who wish to build upon their current career skills or advance to a new position or organization, and for students interested in pursuing a doctorate. The complexities of relationships and the competitive nature of business demand leaders with highly polished interpersonal and organizational skills. This degree combines the practical and theoretical knowledge needed to serve in corporate and nonprofit settings, the military, government, politics or other arenas, as well as developing the research and writing skills necessary for doctoral work.

**Program Goals**

To provide students with an understanding of the centrality of communication in all aspects of personal and organizational life.
To develop the ability of students to read and conduct research, and apply the principles to their own organizations.
To provide a forum for the exchange of ideas between students and organizational leaders concerning the requirements to achieve excellence.
To provide a historical overview of leadership perspectives from the 1940s to the present.
To foster an awareness of the communication styles and values of different cultures and how these factors influence business in a global environment.
To combine theoretical knowledge and practical skills to resolve organizational issues and improve decision-making.
To develop a framework for ethical conduct in contemporary organizations.

**Admission Requirements**

A bachelor's degree from an acceptable accredited United States institution or the equivalent from an foreign institution.
A minimum 3.0 cumulative grade point average in the bachelor's degree.
A copy of resume or CV.
Official transcripts of all previous college work, both undergraduate and graduate.
Two letters or professional reference.
A brief personal statement describing the prospective student's interest and goals for pursuing the degree (no more than 1,000 words)

*Note: Students must be admitted by both the Department of Communication Arts and to Graduate Studies. A student who is accepted pending receipt of all required documentation, must submit complete and satisfactory records within 60 days (45 days in an 8-week session and/or summer term) after the first day of registration.*

**Learning Outcomes Assessment / Program Assessment**

Embedded within each course syllabi will be methodologies for learning outcomes assessment for that particular course. The overall program outcomes will be assessed based on student performance in the program with particular emphasis on:

- Comprehensive written examinations
- Capstone course consisting of a thesis or graduate project
- Thesis/graduate project oral defense

**Requirements For: Master - 36 Hours, 3.0 GPA**
Core Curriculum 15 cr.

- CA501 - Human Communication Perspectives Credits: 3
- CA516 - Research 1 Credits: 3
- CA517 - Research 2 Credits: 3
- CA529 - Cross-Cultural Communication Credits: 3
- CA699 - The Epistemology of Communication Credits: 3

Organizational Emphasis 15 cr.

- CA505 - Organizational Leadership Credits: 3
- CA520 - Leading Organizational Change Credits: 3
- CA670 - Measuring Leadership Credits: 3
- Electives Credits: 6

Graduate Project or Thesis 6 cr.

Select one of the following options:

- Graduate Project
  - CA700 - Graduate Project Credits: 3
  - Elective Credits: 3
  - Comprehensive Exam

- Thesis Option
  - CA797 - Thesis Design and Research Credits: 1-3
  - CA799 - Thesis - Continuous Enrollment Credits: 1
  - Comprehensive Exam

Notes:

- A maximum of nine (9) credit hours may be transferred from other institutions. The transfer of coursework must be completed prior to admission to the Park University's Master of Arts in Communication and Leadership Program.
- The comprehensive exam may be repeated one time. A third attempt may be permitted by the school dean upon the recommendation of the program director.

Graduation Requirements

Park University grants the Master of Arts degrees upon completion of the following requirements:

- Completion of a minimum of 36 semester hours.
- Successful completion of Comprehensive Exam.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Master of Arts, Communication and Leadership, Sergeants
Major Academy, M.A.
Program Format and Expedited Admissions Process

The Master of Arts in Communication and Leadership (MACL) program at Park University offers a 5-term MACL degree program to SMA applicants, with blended courses offered in 8-week segments. The Graduate School offers a tailored and expedited admissions policy for SMA applicants, with the GMAT and the GRE waived among other benefits.

Transfer Credits

Park University’s MACL graduate program will accept up to 12 hours of transfer academic credit. Graduate credit hours completed in the Sergeants Major Courses (SMC) may be transferred towards this master’s degree; up to 12 hours of transfer academic credit will be granted upon successful completion of the Sergeants Major Courses. MACL degree completion will normally occur during time spent at the Sergeants Major Academy.

Other Considerations

A comprehensive examination will be required for all students during completions of the capstone course, CA700. This comprehensive exam will serve as a primary means of program assessment and a means if further vetting the transfer credit we are accepting from the Sergeants Major Academy and applying to the MACL program. Through the comprehensive exam, students will demonstrate connections between their Sergeants Major Academy coursework and the outcomes of the MACL.

Program Outcomes – MACL graduates will:

Understand the centrality of communication in all aspects of personal and organizational life;
Attain a foundation in historical leadership perspectives from the 1940s to the present;
Develop advanced abilities to research problems and challenges and devise outcomes to improve organizations;
Collaborate with organizational leaders concerning the requirements to achieve excellence.

Learning Outcomes Assessment / Program Assessment

Understand the centrality of communication in all aspects of personal and organizational life;
Attain a foundation in historical leadership perspectives from the 1940s to the present;
Develop advanced abilities to research problems and challenges and devise outcomes to improve organizations;
Collaborate with organizational leaders concerning the requirements to achieve excellence.

Core Requirement 21 cr.

- CA501 - Human Communication Perspectives Credits: 3
- CA505 - Organizational Leadership Credits: 3
- CA520 - Leading Organizational Change Credits: 3
- CA529 - Cross-Cultural Communication Credits: 3
- CA567 - Communication Teaching, Training and Consulting Credits: 3
- CA649 - Introduction to Mediation Credits: 3
- CA699 - The Epistemology of Communication Credits: 3

Transfer Credit 12 cr.
The MACL program will accept up to 12 hours of academic credit for students who complete the SMA curriculum.

CA525 - Interpersonal Communication Theories **Credits: 3**
SMA coursework = C161A, C161B, C211, L211, L203

CA641 - Communication in Conflict Management **Credits: 3**
SMA coursework = L102, L110, L111, F100, F101, F102, F104, F105, F106, F107, F1

CA670 - Measuring Leadership **Credits: 3**
SMA coursework = C131, C132, C135, L101

CA675 - Case Studies in Communication and Leadership **Credits: 3**

**Capstone Course 3 cr**

CA700 - Graduate Project **Credits: 3**
Comprehensive Exam

**Notes:**
A maximum of 12 credit hours may be transferred from other institutions. The transfer of coursework must be completed prior to admission to the Park University's Master of Arts in Communication and Leadership Program. The comprehensive exam may be repeated one time. A third attempt may be permitted by the school dean upon the recommendation of the program director.

**Graduation Requirements**

Park University grants the Master of Arts degrees upon completion of the following requirements:

- Completion of a minimum of 36 semester hours.
- Successful completion of Comprehensive Exam.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Arts, Industrial-Organizational Psychology, M.A.**

**What is Industrial-Organizational (I-O) Psychology?**

I-O psychologists use science and statistics to solve workplace and organizational issues to help workers thrive. They help organizations by thoroughly analyzing job tasks, selecting the best employees, training employees, objectively rating employee performance, determining what factors retain good employees, discovering what stressors make jobs difficult, and through finding and developing great managers and leaders. In addition, I-O psychologists explore how compensation affects performance, how to make workplaces safer, and by analyzing what can help an organization grow, change, and adapt.
What is special about Park's MA in I-O Program?

Park University's MA in I-O program will specifically focus on creating I-O leaders who focus on social justice in the workplace. Coursework will address equity, diversity, and inclusion as it pertains to all people and all aspects of the workplace.

Requirements For: Master - 33 Hours, 3.0 GPA

- PS523 - Introduction to Social Justice Credits: 3
- PS527 - Applied Research Methods Credits: 3
- PS567 - Critical Analysis I Credits: 3
- PS570 - Critical Analysis II Credits: 3
- PS602 - Organizational Leadership Credits: 3
- PS609 - Personnel Psychology Credits: 3
- PS616 - Organizational Dynamics and Ethics Credits: 3
- PS622 - Training and Performance Credits: 3
- PS626 - Individual Assessment Credits: 3
- PS670 - Organizational Attitudes and Behavior Credits: 3
- PS699 - Internship Credits: 3-6

Graduation Requirements

Park University grants the Master of Arts upon completion of the following requirements:

- Completion of a minimum of 33 semester hours.
- Successful completion of Comprehensive Exam.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Master of Arts, National Security Studies, M.A.

Park University’s M.A. in National Security Studies prepares students for work as analysts, policymakers, and scholars focused on security issues in the 21st Century. Students are required to complete 36 hours of graduate coursework culminating with the production of a research thesis.

Required For: Master - 36 Hours, 3.0 GPA

- PO500 - International Relations Theory Credits: 3
- PO501 - US National Security Policy Credits: 3
- PO510 - Research Methods Credits: 3
- PO515 - Security Studies Credits: 3
- PO530 - International Law and Security Credits: 3
- PO550 - Regional Security Issues Credits: 3

Select One
Students have two options for completion of the required 36 credit hours:

**Thesis Option 18 cr.**

- PO600 - Thesis **Credits:** 3
- PO601 - Thesis II **Credits:** 3

**Electives**

Select four of the following:

- PO505 - Arms Control and Disarmament **Credits:** 3
- PO520 - Terrorism and Unconventional Warfare **Credits:** 3
- PO525 - Geoeconomics and Environmental Security **Credits:** 3
- PO535 - Cybersecurity **Credits:** 3
- PO540 - Future War **Credits:** 3
- PO545 - Intelligence Collection and Analysis **Credits:** 3
- PO551 - Insurgency and Counter-Insurgency in a Social Context **Credits:** 3
- PO555 - Doctrine and Grand Strategy **Credits:** 3

**Non-Thesis Option 18 cr.**

Select six of the following:

- PO505 - Arms Control and Disarmament **Credits:** 3
- PO520 - Terrorism and Unconventional Warfare **Credits:** 3
- PO525 - Geoeconomics and Environmental Security **Credits:** 3
- PO535 - Cybersecurity **Credits:** 3
- PO540 - Future War **Credits:** 3
- PO545 - Intelligence Collection and Analysis **Credits:** 3
- PO551 - Insurgency and Counter-Insurgency in a Social Context **Credits:** 3
- PO555 - Doctrine and Grand Strategy **Credits:** 3

**Exit exam for non-thesis option**

- Comprehensive exam

**Graduation Requirements**

Park University grants the Master of Arts degrees upon completion of the following requirements:

- Completion of a minimum of 36 semester hours.
- Successful completion of Comprehensive Exam.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Business Administration, Business Analytics, M.B.A.**

**Master of Business Administration M.B.A.**
Park University’s Master of Business Administration degree program was founded in 1998. Park's MBA program offers a student centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment. It prepares students as entrepreneurial thinkers to enhance business competitiveness in a global environment. Significance is placed on applying business knowledge and techniques to implement decisions.

Park's MBA faculty and students come from all continents and have diverse professional backgrounds, enriching the educational experience. Whether advancing through the ranks of a multinational corporation, joining a small nonprofit organization or re-entering the workplace, business applications and tools acquired in the MBA program are vital to student success in today's fast-paced global business environment.

To meet students' personal and professional needs, the MBA degree may be earned entirely online, through the blended delivery method (a blend of face-to-face and online instruction), or through a combination of these methods. Blended courses are offered as evening courses one night a week at select campus locations. Online courses offer flexibility, without sacrificing rigor and academic excellence.

The MBA curriculum is designed with the working professional in mind. Students are expected to engage in team assignments and are given the opportunity to obtain hands on knowledge through projects and case study analysis. Each concentration is designed to meet the educational needs of the growing and varied business sectors.

**Vision Statement**

The vision of Park University's Master of Business Administration program is to use a student-centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment.

**Mission Statement**

The mission of Park University's Master of Business Administration program is to prepare business leaders as entrepreneurial thinkers who enhance business competitiveness in a global environment.

**Program Learning Outcomes**

- Formulate a personal communication strategy that will help them cultivate professional relationships with diverse stakeholders to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage.
- Assess the level of professionalism needed for success in a highly dynamic and demanding environment by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession. Demonstrate the ability to function autonomously and take responsibility for managing a culturally and geographically diverse group of professionals within a highly complex and changing business environment.
- Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
- Assess the business environment and its components in order to identify opportunities and threats, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success on a domestic and global scale.
- Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic economy.
Demonstrate advanced problem solving skills that result in viable and ethical solutions to complex issues that may impact product and service delivery.

**Admissions Requirements**

See Admissions Policies and Procedures for further details.

A bachelor's degree from an acceptable accredited college or university in the U.S., or from an foreign institution of higher learning.

Minimum 2.75 cumulative grade point average on a 4.0 scale from all colleges and universities attended. Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

Admission to Park University's Master of Business Administration program is open to graduates of all fields of undergraduate study.

**Sequential Degree**

This program is a participant of the Sequential Degree option.

**Requirements For: Master - 36 Hours, 3.0 GPA**

**Core Curriculum 24 cr.**

- MBA500 - Management Foundations **Credits:** 3
- MBA515 - Accounting for Management Decisions **Credits:** 3
- MBA522 - Organization Behavior and Leadership **Credits:** 3
- MBA524 - Business Law and Ethics **Credits:** 3
- MBA576 - Operations Management **Credits:** 3
- MBA615 - Managerial Finance **Credits:** 3
- MBA630 - Strategic Marketing **Credits:** 3
- MBA695 - Strategic Management **Credits:** 3

**Concentrations**

All students complete all core courses to provide a common foundation; therefore, the program's policy is not to waive any of the core courses.

The general MBA program offers the flexibility to tailor electives to the student's professional interests. Ample choices allow a broad choice or a focus, such as finance, entrepreneurship, global business or information systems. Alternatively, the student may select one of the following formal areas of concentration:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
Project Management Concentration  
Public Accounting Concentration  

Note

Park undergraduate students who completed their bachelor's degree within the past five years, completed all four courses in the MBA 4+1 program (12 credit hours), and received a B or higher in each 4+1 course, may receive a waiver for MBA500 Management Foundations.

Business Analytics

Core Requirement 6 cr.

MIS605 - Management Information Systems Credits: 3  
MIS614 - Data Analysis and Business Analytics Credits: 3

Electives 6 cr.

Select two of the following:

CIS606 - Applied Data Mining and Analysis of Big Data Credits: 3  
CIS607 - Survey of Predictive Analytical Techniques Credits: 3  
CIS608 - Web and Marketing Analytics Credits: 3  
CIS609 - Data Visualization Credits: 3

Graduation Requirements

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

Completion of a minimum of 33 semester hours.
Cumulative GPA of 3.0 for Park University courses.
Satisfaction of all requirements for a major as outlined in this catalog.
Completion of all earned credit with no more than 2 grades of C earned.
Submission of an Application for Graduation.

Finance Concentration

The Finance concentration provides graduates with broad professional competence and skills for careers in executive positions at financial institutions and other organizations. This concentration offers students extensive understanding of core skillsets in financial modeling, debt and equity issues, valuation, mergers and acquisitions, financial planning, risk management, financial reporting and analysis, and taxation.
necessary for modern corporate finance positions and consulting. By incorporating critical strategies and
techniques in areas such as investment and commercial banks, financial, general management consulting,
venture capital and private equity firms, and corporate finance within 500 large-cap companies, graduates
are primed for financial challenges in national and international arenas. This concentration allows students
to tailor their program to their professional goals and prepare them for career opportunities such as:

*Investment Management.* Prepares candidates for a career as a security analyst, money manager,
brokerage firm analyst, insurance company representative or other financial job function.
*Corporate Financial Management.* Prepares candidates to be financial managers with responsibilities
in risk management, strategic planning, budgeting, financial forecasting, cash management, credit
administration, investment analysis and funds procurement.

**Core Requirement 12 cr.**

- FIN621 - Advanced Corporate Finance **Credits:** 3

Master of Business Administration, Human Resource Management Concentration, M.B.A.

Master of Business Administration M.B.A.

Park University's Master of Business Administration degree program was founded in 1998. Park's MBA program offers a student centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment. It prepares students as entrepreneurial thinkers to enhance business competitiveness in a global environment. Significance is placed on applying business knowledge and techniques to implement decisions.

Park's MBA faculty and students come from all continents and have diverse professional backgrounds, enriching the educational experience. Whether advancing through the ranks of a multinational corporation, joining a small nonprofit organization or re-entering the workplace, business applications and tools acquired in the MBA program are vital to student success in today's fast-paced global business environment.

To meet students' personal and professional needs, the MBA degree may be earned entirely online, through the blended delivery method (a blend of face-to-face and online instruction), or through a combination of these methods. Blended courses are offered as evening courses one night a week at select campus locations. Online courses offer flexibility, without sacrificing rigor and academic excellence.

The MBA curriculum is designed with the working professional in mind. Students are expected to engage in team assignments and are given the opportunity to obtain hands on knowledge through projects and case study analysis. Each concentration is designed to meet the educational needs of the growing and varied business sectors.

Vision Statement

The vision of Park University's Master of Business Administration program is to use a student-centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment.

Mission Statement

The mission of Park University's Master of Business Administration program is to prepare business leaders as entrepreneurial thinkers who enhance business competitiveness in a global environment.

Program Learning Outcomes
Formulate a personal communication strategy that will help them cultivate professional relationships with diverse stakeholders to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage.

Assess the level of professionalism needed for success in a highly dynamic and demanding environment by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession. Demonstrate the ability to function autonomously and take responsibility for managing a culturally and geographically diverse group of professionals within a highly complex and changing business environment.

Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.

Assess the business environment and its components in order to identify opportunities and threats, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success on a domestic and global scale.

Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic economy.

Demonstrate advanced problem solving skills that result in viable and ethical solutions to complex issues that may impact product and service delivery.

**Admissions Requirements**

See Admissions Policies and Procedures for further details.

A bachelor’s degree from an acceptable accredited college or university in the U.S., or from an foreign institution of higher learning.

Minimum 2.75 cumulative grade point average on a 4.0 scale from all colleges and universities attended.

Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

Admission to Park University’s Master of Business Administration program is open to graduates of all fields of undergraduate study.

**Sequential Degree**

This program is a participant of the Sequential Degree option.

**Requirements For: Master - 36 Hours, 3.0 GPA**

**Core Curriculum 24 cr.**

- MBA500 - Management Foundations **Credits:** 3
- MBA515 - Accounting for Management Decisions **Credits:** 3
- MBA522 - Organization Behavior and Leadership **Credits:** 3
- MBA524 - Business Law and Ethics **Credits:** 3
- MBA576 - Operations Management **Credits:** 3
- MBA615 - Managerial Finance **Credits:** 3
- MBA630 - Strategic Marketing **Credits:** 3
- MBA695 - Strategic Management **Credits:** 3

**Concentrations**
All students complete all core courses to provide a common foundation; therefore, the program’s policy is not to waive any of the core courses.

The general MBA program offers the flexibility to tailor electives to the student’s professional interests. Ample choices allow a broad choice or a focus, such as finance, entrepreneurship, global business or information systems. Alternatively, the student may select one of the following formal areas of concentration:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Project Management Concentration
- Public Accounting Concentration

**Note**

Park undergraduate students who completed their bachelor’s degree within the past five years, completed all four courses in the MBA 4+1 program (12 credit hours), and received a B or higher in each 4+1 course, may receive a waiver for MBA500 Management Foundations.

**Human Resource Management**

The Human Resource Management concentration provides graduates with exposure to the theoretical and practical knowledge needed for managerial and executive positions in human resource management in both public and private sector organizations. This concentration offers students qualitative and quantitative practice in:

- Planning and staffing;
- Training, development and evaluation methods;
- Change management, conflict resolution and consulting interventions; and
- Strategically and systematically practicing human resource management for optimal outcomes.

**Core Requirement 12 cr.**

- HRM634 - Planning and Staffing Credits: 3
- HRM635 - Training, Development, and Evaluation Credits: 3
- HRM636 - Change Management and Conflict Resolution Credits: 3
- HRM637 - Compensation Management Credits: 3

**Graduation Requirements**

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
Satisfaction of all requirements for a major as outlined in this catalog.
Completion of all earned credit with no more than 2 grades of C earned.
Submission of an Application for Graduation.

**Note**

Park undergraduate students who completed their bachelor's degree within the past five years, completed all four courses in the MBA 4+1 program (12 credit hours), and received a B or higher in each 4+1 course, may receive a waiver for MBA500 Management Foundations.

**Innovation and Quality Management**

The Innovation and Quality Management concentration is designed to give students an in-depth understanding of the concepts and techniques used to assess and improve process outcomes. In other words, the students will be able to isolate processes that are routinely experiencing too much variability in their output, identify natural and assignable causes for variations, develop tactical strategies to improve process performance, and then establish formal mechanisms for monitoring future outcomes. Students will learn how to appropriately apply qualitative and quantitative approaches to diagnose the nature and scope of process problems and evaluate the effectiveness of interventions. The competencies that will be developed in this curriculum will serve students well as they progress in their careers. Defective processes drive up operating costs, making it virtually impossible to forecast revenues, and contributing to poor quality goods and services. This can lessen a firm's competitive advantage in the marketplace and jeopardize their long-term financial viability.

**Core Requirement 12 cr.**

- QM684 - Principles of Quality Management **Credits:** 3
- QM685 - Innovative Techniques in Quality Management **Credits:** 3
- QM686 - Innovative Project Management **Credits:** 3
- QM687 - Collaborative Innovation Strategies **Credits:** 3

Management Accounting

The Management Accounting concentration is designed to prepare students with the competencies necessary to excel in professional positions that require a high level of comfort with accounting and finance, such as chief financial officers, controllers, financial analysts, budget analysts or directors. More specifically, students will develop an extensive understanding of management accounting concepts, cost accounting, accounting research practices, activity-based costing as an aid to decision-making, profit planning, budget forecasting and preparation, and broadening leadership skills. In acquiring skills for the CFO function within a variety of organizational structures, this concentration will develop student knowledge of financial planning, financial analysis, control mechanisms, decision-making, and professional ethics.

Core Requirement 12 cr.

- ACC510 - Accounting Research and Analysis Credits: 3

Management Information Systems

The Management Information Systems concentration offers a unique combination of business intelligence and industry standards through practical project-oriented instruction. The rationale is to produce quality graduates with in-depth knowledge and hands-on understanding of the essentials of managing today’s information technology systems. Students study the foundations of business so they can apply management information system technology to create efficient, effective business enterprises capable of competing in a global setting.

In addition, students are exposed to the concepts and applications of data analytics, security and privacy of big data, and project management as they pertain to system architecture and a firm’s ability to answer complicated business questions.

See Admissions Policies and Procedures for further details.

- A bachelor's degree from an acceptable accredited college or university in the U.S., or from an foreign institution of higher learning.
- Minimum 2.75 cumulative grade point average on a 4.0 scale from all colleges and universities attended. Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.
Admission to Park University's Master of Business Administration program is open to graduates of all fields of undergraduate study.

Sequential Degree

This program is a participant of the Sequential Degree option.

Requirements For: Master - 36 Hours, 3.0 GPA

Core Curriculum 24 cr.

- MBA500 - Management Foundations **Credits:** 3
- MBA515 - Accounting for Management Decisions **Credits:** 3
- MBA522 - Organization Behavior and Leadership **Credits:** 3
- MBA524 - Business Law and Ethics **Credits:** 3
- MBA576 - Operations Management **Credits:** 3
- MBA615 - Managerial Finance **Credits:** 3
- MBA630 - Strategic Marketing **Credits:** 3
- MBA695 - Strategic Management **Credits:** 3

Concentrations

All students complete all core courses to provide a common foundation; therefore, the program's policy is not to waive any of the core courses.

The general MBA program offers the flexibility to tailor electives to the student's professional interests. Ample choices allow a broad choice or a focus, such as finance, entrepreneurship, global business or information systems. Alternatively, the student may select one of the following formal areas of concentration:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Project Management Concentration
- Public Accounting Concentration

Note

Park undergraduate students who completed their bachelor's degree within the past five years, completed all four courses in the MBA 4+1 program (12 credit hours), and received a B or higher in each 4+1 course, may receive a waiver for MBA500 Management Foundations.

Project Management
The Project Management (PM) concentration is designed to prepare students with the knowledge, skills, and abilities (KSAs) to competently plan, organize, staff, and guide processes for creating a solution or system. The PM concentration intends to adequately prepare the students to take the Project Management Professional (PMP)® credentialing exam. More specifically, the content is aligned with the Project Management Body of Knowledge (PMBOK, 5th edition) and introduces students to the 5 process groups, 10 knowledge areas, and 47 processes of project management.

**Core Requirement 12 cr.**

- PM690 - Integration, Scope, and Quality Management **Credits:** 3
- PM691 - Time and Cost Management **Credits:** 3
- PM692 - Communications, Risk, and Stakeholder Management **Credits:** 3
- PM693 - Human Resource and Procurement Management **Credits:** 3

**Graduation Requirements**

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Business Administration, Public Accounting Concentration, M.B.A.**

**Master of Business Administration M.B.A.**

Park University's Master of Business Administration degree program was founded in 1998. Park's MBA program offers a student centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment. It prepares students as entrepreneurial thinkers to enhance business competitiveness in a global environment. Significance is placed on applying business knowledge and techniques to implement decisions.

Park’s MBA faculty and students come from all continents and have diverse professional backgrounds, enriching the educational experience. Whether advancing through the ranks of a multinational corporation, joining a small nonprofit organization or re-entering the workplace, business applications and tools acquired in the MBA program are vital to student success in today's fast-paced global business environment.

To meet students' personal and professional needs, the MBA degree may be earned entirely online, through the blended delivery method (a blend of face-to-face and online instruction), or through a combination of these methods. Blended courses are offered as evening courses one night a week at select campus locations. Online courses offer flexibility, without sacrificing rigor and academic excellence.

The MBA curriculum is designed with the working professional in mind. Students are expected to engage in team assignments and are given the opportunity to obtain hands on knowledge through projects and case study analysis. Each concentration is designed to meet the educational needs of the growing and varied business sectors.
Vision Statement

The vision of Park University's Master of Business Administration program is to use a student-centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment.

Mission Statement

The mission of Park University's Master of Business Administration program is to prepare business leaders as entrepreneurial thinkers who enhance business competitiveness in a global environment.

Program Learning Outcomes

- Formulate a personal communication strategy that will help them cultivate professional relationships with diverse stakeholders to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage.
- Assess the level of professionalism needed for success in a highly dynamic and demanding environment by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession. Demonstrate the ability to function autonomously and take responsibility for managing a culturally and geographically diverse group of professionals within a highly complex and changing business environment.
- Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
- Assess the business environment and its components in order to identify opportunities and threats, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success on a domestic and global scale.
- Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic economy.
- Demonstrate advanced problem solving skills that result in viable and ethical solutions to complex issues that may impact product and service delivery.

Admissions Requirements

See Admissions Policies and Procedures for further details.

- A bachelor's degree from an acceptable accredited college or university in the U.S., or from an foreign institution of higher learning.
- Minimum 2.75 cumulative grade point average on a 4.0 scale from all colleges and universities attended. Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

Admission to Park University's Master of Business Administration program is open to graduates of all fields of undergraduate study.

Sequential Degree

This program is a participant of the Sequential Degree option.

Park undergraduate students who completed their bachelor's degree within the past five years, completed all four courses in the MBA 4+1 program (12 credit hours), and received a B or higher in each 4+1 course, may receive a waiver for MBA500 Management Foundations.

Public Accounting

The Public Accounting concentration will prepare students for the CPA exam through additional courses aimed at graduate hours in accounting. The concentration will include a total of twelve (12) semester hours, which will include four (4) courses focused on the four parts of the CPA exam.

*Must have already earned a B.S. in Accounting.

Core Requirement 12 cr.

- ACC621 - Advanced Auditing Credits: 3
ACC622 - Advanced Business Environment and Concepts Credits: 3
ACC623 - Advanced Financial Accounting and Reporting Credits: 3
ACC624 - Advanced Regulation Credits: 3

Graduation Requirements

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Master of Education, Educational Leadership/Principalship, M.E.

Master of Education, Educational Leadership/Principalship, M.E. Locations

Purpose

The Master of Education with an area of emphasis in educational administration is designed for educators desiring to work as a building-level administrator in a school setting. Completion of Park’s 30 credit hour program earns a Master of Education degree in Educational Leadership/Principalship. Certification as a principal is earned by the additional passing of current DESE state assessments. The program is offered in an 8-week online format. Full-time enrollment is one course per 8-week term. Full time enrollment during the academic year and one or two courses for two summers allows completion in two calendar years.

Admission Requirements

A bachelor’s degree from an accredited institution and a valid state teaching certificate (applicant must provide copy of certificate). Note: This must be completed before the completion of the first three credit hours.

School employment as a teacher is required in order to fulfill 300 hours of administrative field experience in the school setting.

Students seeking Educational Leadership/Principalship must have three years’ teaching experience by the time they apply for state certification. DESE requires a Missouri state teaching certificate in order to apply for principal certification.

Minimum 3.0 grade point average on a 4.0 scale.

Advanced candidates with a GPA between 2.75 and 3.0 may be considered for provisional admission.

A felony background check and FBI fingerprint check must be completed and clearance received for admission.

Requirements For: Master - 30 Hours, 3.0 GPA

Core Requirement 30 cr.

ED513 - Law for Educators Credits: 3
ED514 - Foundations of Educational Administration Credits: 3
ED522 - Legal Aspects of Special Education Credits: 3
ED606 - Curriculum Theory and Practice Credits: 3
ED608 - Assessment Credits: 3
ED612 - School and Community Leadership Credits: 3
ED616 - School Supervision Credits: 3
ED626 - K-12 School Administration Credits: 3
ED634 - Directed Field Experience Credits: 3 (should be taken during the last Fall 16 weeks or Spring 16 weeks before graduation)
ED635 - School Organization and Management Credits: 3

Additional Requirements

Certification as a building-level administrator requires passing the current Missouri Department of Elementary and Secondary (DESE) assessments.

Graduation Requirements

Park University confers the Master of Education degrees upon successful completion of the following requirements:

- Completion of a minimum of 30 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Master of Education, Educational Technology for Teachers, M.E.

Purpose

The Master of Education in Educational Technology for Teachers degree focuses on technology-integrated instruction and assessment that emphasizes high-quality lesson design, critical inquiry, and building a community of learners. Studies will include a critical analysis of current and future technologies to enhance learning in the K-12 classroom through application, research, and data analysis.

The coursework for this 30-credit hour area of emphasis is offered in an 8-week online format. A professional electronic portfolio, as well as projects embedded in course work, are required. The degree can be completed in two calendar years, including summers.

Admission Requirements

- A bachelor's degree from a regionally accredited institution.
- Minimum 3.0 grade point average on a 4.0 scale.
- A felony background check and FBI fingerprint check must be completed for admission. Admission is dependent upon clearance.
- Students with a GPA between 2.75 and 3.0 may be considered for provisional admission.

Requirements For: Master - 30 Hours, 3.0 GPA
Core Requirement 30 cr.

ED502 - Teaching and Learning in the Digital World Credits: 3
ED507 - The Connected Teacher Learner Credits: 3
ED511 - Utilizing Technology in Classroom Research Credits: 3
ED523 - Assessment and Evaluation of Teaching and Learning In the Digital Classroom Credits: 3
ED543 - Trending Tools of the Internet Credits: 3
ED551 - Educational Technology/Tools for the 21st Century Learner Credits: 3
ED564 - Enhancing Instruction with Technology Credits: 3
ED571 - Issues and Ethics with Technology Integration Credits: 3
ED574 - Analyzing and Presenting Data in the Workplace Credits: 3
ED579 - Educational Technology Electronic Portfolio Development Credits: 3

Additional Requirements

An approved portfolio is required, which addresses satisfactorily the ISTE Standards. This portfolio must be presented by the fifth week of the last term in the advanced candidate's program.

Graduation Requirements

Park University confers the Master of Education degrees upon successful completion of the following requirements:

Completion of a minimum of 30 semester hours.
Cumulative GPA of 3.0 for Park University courses.
Satisfaction of all requirements for a major as outlined in this catalog.
Completion of all earned credit with no more than 2 grades of C earned.
Submission of an Application for Graduation.

Master of Education, Language and Literacy, M.E.

Purpose

The Master of Education with emphasis in Language and Literacy is designed with two program areas of emphasis for two types of educators:

Special Reading Teacher – This Master of Education area of emphasis is for educators desiring to work as reading specialists in various public and private settings. The degree program aligns with the professional standards of the International Literacy Association (ILA) for Reading Professionals (2017, ILA 2018), International Dyslexia Association Knowledge and Practice Standards for Teachers of Reading (IDA, 2018), and the Missouri Educator Gateway Assessment Framework for Special Reading (Pearson, 2020). Courses are offered in the 8-week format. Full-time enrollment is one course per 8-week term. This area of emphasis leads to Missouri Special Reading certification. This certification is not available as an initial certificate; candidates must already be certified in another area. Refer to Certification Requirements for additional information regarding certification.

English Language Learners Teacher – This Master of Education area of emphasis is for educators desiring ELL linguistics and second language acquisition basics, as well as ELL methods, materials and assessments for public and private schools. This area of emphasis meets the professional standards of the Teachers of English to Speakers of Other Languages International Association Standards for P-12 Teacher Education Programs (TESOL, 2010) as well as DESE ELL Standards. Courses are offered in the 8-week format. Full-time enrollment is one course per 8-week term. This area leads to Missouri ELL certification. Certification is not available as an initial certificate; candidates must already be certified in another area. Refer to
Certification Requirements for additional information regarding certification.

Admission Requirements
A bachelor's degree from an accredited institution and hold a valid state teaching certificate (applicant must provide copy of certificate)
School employment is not required for admission into the Language and Literacy programs. However, every course requires direct work with children; therefore, advanced candidates are responsible for finding students with whom to work if they do not have access to a classroom.
Advanced candidates seeking Special Reading Teacher or ELL certification must have two years' teaching experience by the time they apply for certification.
Minimum 3.0 grade point average on a 4.0 scale, and 2.5 GPA in core.
A felony background check and FBI fingerprint check and clearance received for admission.
Child abuse or neglect screening.
Advanced candidates with a GPA between 2.7 and 3.0 may be considered for admission, if they provide one of the following:
Four years successful employment experience (letter of recommendation from a supervisor based on good evaluations).
An acceptable GRE score for verbal and quantitative tests.
Note: If items 4 and 5 above have been completed for continuous current employment or for the U.S. military, a copy of the same may be submitted.

Program Requirements
The coursework for both 30-credit hour program areas of emphasis is offered in an 8-week format, either in a hybrid model (60% face-to-face and 40% online) or totally online. A professional portfolio, as well as projects embedded in course work, is required. Advanced candidates must successfully pass the School of Education Disposition Instrument for Advanced Candidates for admission into their respective program practicums (either ED641, ED651 or ED652). Students intending to apply for certification through DESE may need to take 3-6 additional credit hours beyond the 30 hours required to earn the MED degree depending on whether they have previously earned credits for the course equivalents of ED520 and/or ED527 from another institution or as part of their baccalaureate degree. These courses are certification requirements and not required to earn the MED degree.
For all areas, in addition to completing the 30-credit hour curriculum with at least a 3.0 GPA, the advanced candidate must submit an approved portfolio that addresses satisfactorily the ILA Standards, a comparison of the ILA and IDA Standards, or the TESOL Standards (depending on degree area of emphasis). An advanced candidate cannot complete the program or be recommended for certification without successfully completing/passing the portfolio. It is recommended that advanced candidates present their portfolios for evaluation by the fifth week of their final practicum course in the advanced candidate's program. Advanced candidates in need of more time or support beyond completion of their last required course to complete/pass their portfolio may enroll in ED699. Advanced candidates must remain continuously enrolled until all graduation requirements are fulfilled. Furthermore, advanced candidates must pass any content assessment(s) designated by the Missouri State Board of Education for additional certification(s). Advanced Candidates should consult with their Academic Advisor regarding current Missouri Content Assessment (MoCA) requirements and test availability.

Certification Requirements
Both program areas within the Master of Education with emphasis in Language and Literacy lead to certification through Missouri's Department of Elementary and Secondary Education (DESE) for Special Reading (K-12) or English Language Learners (K-12). If interested, advanced candidates are responsible for
applying online for certification through www.dese.mo.gov at the end of their program or at the point in which they meet all certification requirements (Contact your Academic Advisor for additional information). Endorsement from the designated certification official of an educator preparation program approved by DESE is required as part of the application process. The certification official from Park University will endorse applications for certification for:

Individuals who earn a MED with an emphasis in Language and Literacy (Special Reading or English Language Learners) from Park University as well as meet the state requirements for:

ED 520 and/or ED 527 (as needed for their program area) or the credit/course equivalent earned at Park University, transferred from another institution, or earned as part of a baccalaureate degree; and Pass content assessment(s) designated by the Missouri State Board of Education for additional certification(s) for Special Reading or ELL. Advanced Candidates should consult with their Academic Advisor regarding current Missouri Content Assessment (MoCA) requirements and testing availability for their program area(s).

Non-degree seeking individuals should refer to the Endorsement Policy for Non-Degree Seeking Students in Graduate Programs Leading to Certification in Missouri.

ED619 - Multi-Cultural Literature for Teachers Credits: 3

Portfolio Requirement

An approved portfolio is required, which addresses satisfactorily the ILA Standards (Special Reading), comparison of ILA and IDA Standards (Special Reading) or the TESOL Standards (ELL). It is recommended that advanced candidates present their portfolios for evaluation no later than the fifth week of their final practicum course in the advanced candidate’s program. Advanced candidates in need of more time or support to complete/pass their portfolio must be continuously enrolled in ED699 through the successful completion of their portfolio.

ED699 - Final portfolio continuous enrollment Credits: 1
   Enrollment in ED699 (1 credit/term) is required for degree candidates who have completed all coursework but have not passed the portfolio.

Certification Requirement 0-3 CR

* ED520 or its equivalent, is required for certification by DESE and may be fulfilled through credits earned as part of one’s baccalaureate degree. ED520 is not required for degree completion but is required for students seeking certification.

ED520 - Special Needs in the Classroom Credits: 3

Additional Requirements

Advanced candidates must pass School of Education Disposition Instruments as required for practicum course eligibility and program completion.

Although candidates are not required to be employed in a full time teaching position while completing their degree coursework, they are responsible for arranging access to K-12 students and classrooms in accordance with school, district, and university stipulations so that they are able to complete a range of assignments, fieldwork, and practicums.

An advanced candidate cannot complete the program or be recommended for certification without an acceptable portfolio.

Advanced candidates must be continuously enrolled until all graduation requirements are satisfied.

Advanced Candidates seeking endorsement from Park University for special reading certification must pass any content assessment(s) designated by the Missouri State Board of Education for additional certification(s).
Additional Course Offerings

Students seeking additional coursework beyond degree requirements may elect to take any of the above courses that are not already included within their degree concentration area (i.e., Special Reading or ELL). In addition, the below courses are available to students seeking additional coursework beyond degree requirements. Please note that financial aid may not be available to cover the cost of any elective courses.

   ED526 - Classroom Management Seminar **Credits:** 3  
   ED547 - Counseling Techniques with Exceptional Children and their Families **Credits:** 3  
   ED561 - Miscue Analysis **Credits:** 3  
   ED609 - Current Issues and Trends in Literacy **Credits:** 3

Graduation Requirements

Park University confers the Master of Education degrees upon successful completion of the following requirements:

   Completion of a minimum of 30 semester hours.  
   Cumulative GPA of 3.0 for Park University courses.  
   Satisfaction of all requirements for a major as outlined in this catalog.  
   Completion of all earned credit with no more than 2 grades of C earned.  
   Submission of an Application for Graduation.

Master of Education, Organizational Leadership and Adult Learning, M.E.

Purpose

The Master of Education in Organizational Leadership and Adult Learning is a progressive, multi-disciplinary program that introduces key concepts of adult learning and development in a variety of contexts. Graduates and participants in the program are qualified for a variety of careers such as training and development in organizations and the military, higher education and online learning, and community-based education. The program will:

   Provide a comprehensive, research-based understanding of human capacity building and competency development.  
   Connect advanced candidates with challenges facing today’s organizations and prepare them to create innovative and effective learning solutions.  
   Prepare advanced candidates to synthesize elements from adult learning theory, instructional design, emerging technology, and curriculum and program development and apply them to one’s current or planned professional setting.  

Drawing on a range of disciplines (education, business, information technology), this program will prepare one for a career to apply knowledge and skills, which can be effectively used and developed on an individual, team and organizational level.

Unique Program Features

The M.Ed. in Organizational Leadership and Adult Learning program utilizes real-world experiences to connect learners with external stakeholders and organizations through project-and problem-based learning. One will work with faculty in a variety of adult educational settings, to develop transferable competencies
highly sought after in organizational learning and development, consulting, higher education, the military, and other adult educational settings.

**Program Competencies**

**Active Inquiry & Critical Thinking** – Your decisions are based on supported learning and design theory, and the acquisition of new knowledge through extensive investigation viewed through the lens of critically reflective reasoning.

**Problem Solving** – You will synthesize knowledge from diverse sources and contradictory points of view to solve complex and ambiguous learning, training, and development problems facing today’s organizations.

**Strategic Thinking** – You will lead strategic change initiatives and develop learning strategies to help organizations develop and sustain competitive advantage.

**Professional Ethics and Moral Reasoning** – Your actions are value-based under conditions of complexity and uncertainty.

**Interpersonal Leadership** – You will build and utilize a set of communication and coaching skills that encourages the growth and professional development of individuals, and a positive climate that promotes effective learning in teams and organizations.

**Educational Technology Innovation** – You will become a leader in utilizing emerging technologies, learning theory, and instructional design strategies to develop effective learning experiences and materials for a diverse set of adult learners in diverse organizational settings.

**Admission Requirements**

A bachelor's degree from an accredited institution.
Minimum 3.0 grade point average on a 4.0 scale.
Advanced candidates with a GPA between 2.75 and 3.0 may be considered for admission after submitting a written Statement of Career Objectives and completing an interview with the Area Coordinator.

**Requirements For: Master - 30 Hours, 3.0 GPA**

- ED504 - Learning as a Competitive Advantage **Credits:** 3

- Completion of a minimum of 30 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Healthcare Administration, Business Analytics Concentration, M.H.A.**

**Master of Healthcare Administration M.H.A.**

The Master of Healthcare Administration (MHA) program is in the School of Business which is housed within the College of Management and is designed for those individuals who are currently, or who aspire to be, leaders in a variety of health settings. Today's health organizations need administrators who can manage the current components of healthcare, as well as lead the health sector in new directions. The MHA program offers students the opportunity to understand and master the organizational, legal, financial, political and managerial aspects of health systems management. The MHA program offers a unique curriculum that is designed specifically to meet the career needs of future health leaders.

**Vision**

The Master of Healthcare Administration program is designed to prepare learners for the challenges of a global society, including utilization of innovative approaches to managing and leading, solving complex problems, and adhering to the ethical and professional standards of the healthcare system.

**Mission**

The Master of Healthcare Administration program provides healthcare administrators the tools to ensure efficient and effective delivery of quality health-related products and services to diverse communities.

**Program Goals**

The graduates will consistently be able to:

- Formulate a communication strategy that will cultivate professional relationships amongst a diverse group of stakeholders in order to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage in the market place.
- Assess the level of professionalism necessary to succeed in the highly dynamic and demanding industry by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession.
Demonstrate the ability to function autonomously and take responsibility for managing a diverse group of professionals within a highly complex and changing healthcare environment.
Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
Assess the healthcare environment and its constructs in order to pinpoint industry risks and opportunities, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success.
Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic and demanding industry.
Demonstrate advanced problem solving skills in the construction of viable and ethical solutions to complex issues that may negatively impact product and service delivery.

Admission Requirements

See Admissions Policies and Procedures for further details.

A bachelor’s degree from an acceptable accredited United States institution or the equivalent from a foreign institution.
A minimum of a 2.75 cumulative grade point average on a 4.0 scale in the bachelor’s degree.
Submission of official transcripts is required (except for Park University alumni).
Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.
Note: The only admission requirements waived for Park University alumni are the application fee and submission of official transcripts.

For more information regarding the Master of Healthcare Administration program, please visit www.park.edu/mha.

Sequential Degree

This program is a participant of the Sequential Degree option.

Format and Delivery of Courses

Online: Courses in the MHA program are predominantly online. Students may meet all course requirements through an online format.
Blended: All ground courses are offered using a blended delivery format. This means that each weekly class session includes a physical classroom and an online component. In this format, students are expected to complete assigned readings, review supplemental materials, and complete certain assignments prior to the class session. During the class sessions, the instructors will facilitate in-class activities that promote collaborative learning and provide opportunities to apply learned concepts.

Requirements For: Master - 36 Hours, 3.0 GPA

Core Curriculum 24 cr.

HA518 - Organization of Healthcare Delivery Systems Credits: 3
(recommended first class)
HA509 - Management of Health Information Systems Credits: 3
HA516 - Healthcare Finance Credits: 3
HA517 - Legal and Ethical Issues in Healthcare Administration Credits: 3
HA604 - Healthcare Economics and Policy Credits: 3
HA605 - Healthcare Organizational Behavior and Leadership Credits: 3
HA612 - Healthcare Operations Management Credits: 3

Capstone Course

HA616 - Healthcare Strategic Management and Marketing Credits: 3

Concentrations

Students complete all core courses to provide a curricular foundation. The general MHA program offers the flexibility to tailor electives to the student’s professional interests. Ample formal concentration choices allow for a chosen focus. In lieu of the general MHA, students may select one of the following concentrations:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

Business Analytics

Core Requirement 12 cr.

- CIS607 - Survey of Predictive Analytical Techniques Credits: 3
- CIS609 - Data Visualization Credits: 3
- HA607 - Data Analytics in Healthcare Administration Credits: 3
- MIS605 - Management Information Systems Credits: 3

Graduation Requirements

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 36 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Disaster and Emergency Management

The concentration in Disaster and Emergency Management is designed to prepare the graduate student with the knowledge, skills, and abilities (KSAs) to competently mitigate, prepare, respond, and assist communities and their organizations in recovering from natural and man-made disasters. An array of potentially hazardous events now more than ever confront businesses and include, but are not necessarily limited to homeland security issues; failures of complex technology; and a wide range of natural hazards. Ultimately, this concentration is intended to prepare graduates to design and improve emergency management capabilities and command and control operations within firms, so that they're better prepared to handle major and catastrophic disasters that threaten to disrupt business continuity.

Core Requirement 12 cr.

DEM551 - Principles of Disaster and Emergency Management Credits: 3
DEM552 - Public Policy and Disaster Credits: 3
DEM553 - Disaster and Society Credits: 3
DEM557 - Continuity of Operations in Public and Private Sectors Credits: 3

- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
Project Management Concentration

Finance Concentration

The Finance concentration provides graduates with broad professional competence and skills for careers in executive positions at financial institutions and other organizations. This concentration offers students extensive understanding of core skillsets in financial modeling, debt and equity issues, valuation, mergers and acquisitions, financial planning, risk management, financial reporting and analysis, and taxation necessary for modern corporate finance positions and consulting. By incorporating critical strategies and techniques in areas such as investment and commercial banks, financial, general management consulting, venture capital and private equity firms, and corporate finance within 500 large-cap companies, graduates are primed for financial challenges in national and international arenas. This concentration allows students to tailor their program to their professional goals and prepare them for career opportunities such as:

Investment Management. Prepares candidates for a career as a security analyst, money manager, brokerage firm analyst, insurance company representative or other financial job function.

Corporate Financial Management. Prepares candidates to be financial managers with responsibilities in risk management, strategic planning, budgeting, financial forecasting, cash management, credit administration, investment analysis and funds procurement.

Core Requirement 12 cr.

- FIN621 - Advanced Corporate Finance Credits: 3
- FIN625 - International Finance Credits: 3
- FIN640 - Investment Management Credits: 3
- FIN644 - Financial Markets and Institutions Credits: 3

Graduation Requirements

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 36 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

- Submission of official transcripts is required (except for Park University alumni).
- Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

*Note: The only admission requirements waived for Park University alumni are the application fee and submission of official transcripts.*

For more information regarding the Master of Healthcare Administration program, please visit www.park.edu/mha.

**Sequential Degree**

This program is a participant of the Sequential Degree option.

**Format and Delivery of Courses**

Online: Courses in the MHA program are predominantly online. Students may meet all course requirements through an online format.
Blended: All ground courses are offered using a blended delivery format. This means that each weekly class session includes a physical classroom and an online component. In this format, students are expected to complete assigned readings, review supplemental materials, and complete certain assignments prior to the class session. During the class sessions, the instructors will facilitate in-class activities that promote collaborative learning and provide opportunities to apply learned concepts.

Requirements For: Master - 36 Hours, 3.0 GPA

Core Curriculum 24 cr.

- HA518 - Organization of Healthcare Delivery Systems Credits: 3 (recommended first class)
- HA509 - Management of Health Information Systems Credits: 3
- HA516 - Healthcare Finance Credits: 3
- HA517 - Legal and Ethical Issues in Healthcare Administration Credits: 3
- HA604 - Healthcare Economics and Policy Credits: 3
- HA605 - Healthcare Organizational Behavior and Leadership Credits: 3
- HA612 - Healthcare Operations Management Credits: 3

Capstone Course

- HA616 - Healthcare Strategic Management and Marketing Credits: 3

Concentrations

Students complete all core courses to provide a curricular foundation. The general MHA program offers the flexibility to tailor electives to the student's professional interests. Ample formal concentration choices allow for a chosen focus. In lieu of the general MHA, students may select one of the following concentrations:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

Innovation and Quality Management

The Innovation and Quality Management concentration is designed to give students an in-depth understanding of the concepts and techniques used to assess and improve process outcomes. In other words, the students will be able to isolate processes that are routinely experiencing too much variability in their output, identify natural and assignable causes for variations, develop tactical strategies to improve process performance, and then establish formal mechanisms for monitoring future outcomes. Students will learn how to appropriately apply qualitative and quantitative approaches to diagnose the nature and scope of process problems and evaluate the effectiveness of interventions. The competencies that will be developed in this curriculum will serve students well as they progress in their careers. Defective processes drive up
operating costs, making it virtually impossible to forecast revenues, and contributing to poor quality goods and services. This can lessen a firm’s competitive advantage in the marketplace and jeopardize their long-term financial viability.

Core Requirement 12 cr.

- QM684 - Principles of Quality Management Credits: 3
- QM685 - Innovative Techniques in Quality Management Credits: 3
- QM686 - Innovative Project Management Credits: 3
- QM687 - Collaborative Innovation Strategies Credits: 3

Graduation Requirements

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 36 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Master of Healthcare Administration, Management Accounting Concentration, M.H.A.

Master of Healthcare Administration M.H.A.

The Master of Healthcare Administration (MHA) program is in the School of Business which is housed within the College of Management and is designed for those individuals who are currently, or who aspire to be, leaders in a variety of health settings. Today’s health organizations need administrators who can manage the current components of healthcare, as well as lead the health sector in new directions. The MHA program offers students the opportunity to understand and master the organizational, legal, financial, political and managerial aspects of health systems management. The MHA program offers a unique curriculum that is designed specifically to meet the career needs of future health leaders.

Vision

The Master of Healthcare Administration program is designed to prepare learners for the challenges of a global society, including utilization of innovative approaches to managing and leading, solving complex problems, and adhering to the ethical and professional standards of the healthcare system.

Mission

The Master of Healthcare Administration program provides healthcare administrators the tools to ensure efficient and effective delivery of quality health-related products and services to diverse communities.

Program Goals

The graduates will consistently be able to:
Formulate a communication strategy that will cultivate professional relationships amongst a diverse group of stakeholders in order to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage in the market place.

Assess the level of professionalism necessary to succeed in the highly dynamic and demanding industry by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession.

Demonstrate the ability to function autonomously and take responsibility for managing a diverse group of professionals within a highly complex and changing healthcare environment.

Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.

Assess the healthcare environment and its constructs in order to pinpoint industry risks and opportunities, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success.

Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic and demanding industry.

Demonstrate advanced problem solving skills in the construction of viable and ethical solutions to complex issues that may negatively impact product and service delivery.

**Admission Requirements**

See Admissions Policies and Procedures for further details.

A bachelor's degree from an acceptable accredited United States institution or the equivalent from a foreign institution.

A minimum of a 2.75 cumulative grade point average on a 4.0 scale in the bachelor's degree.

Submission of official transcripts is required (except for Park University alumni).

Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

*Note: The only admission requirements waived for Park University alumni are the application fee and submission of official transcripts.*

HA616 - Healthcare Strategic Management and Marketing Credits: 3

Concentrations

Students complete all core courses to provide a curricular foundation. The general MHA program offers the flexibility to tailor electives to the student’s professional interests. Ample formal concentration choices allow for a chosen focus. In lieu of the general MHA, students may select one of the following concentrations:

Business Analytics Concentration
Disaster and Emergency Management Concentration
Finance Concentration
General Concentration
Human Resource Management Concentration
Innovation and Quality Management Concentration
Management Accounting Concentration
Management Information Systems Concentration
Marketing Concentration
Nonprofit Management Concentration
Project Management Concentration

Management Accounting

The Management Accounting concentration is designed to prepare students with the competencies necessary to excel in professional positions that require a high level of comfort with accounting and finance, such as chief financial officers, controllers, financial analysts, budget analysts or directors. More specifically, the students will develop an extensive understanding of management accounting concepts, cost accounting, accounting research practices, activity-based costing as an aid to decision making, profit planning, budget forecasting and preparation, and will broaden their leadership skills. In acquiring skills for leading the CFO function within a variety of organizational structures, this concentration will develop student knowledge of financial planning, financial analysis, control mechanisms, decision-making, and professional ethics.

Core Requirement 12 cr.

ACC613 - Internal Auditing and Control Mechanisms Credits: 3
ACC617 - Advanced Managerial Accounting Issues Credits: 3
ACC626 - Management Accounting Leadership-Role of the Chief Financial Officer Credits: 3
HA514 - Accounting for Management Decisions Credits: 3
Graduation Requirements

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

Management Information Systems

The Management Information Systems concentration offers a unique combination of business intelligence and industry standards through practical project-oriented instruction. The rationale is to produce quality graduates with in-depth knowledge and hands-on understanding of the essentials of managing today’s information technology systems. Students study the foundations of business so they can apply management information system technology to create efficient, effective business enterprises capable of competing in a global setting.

In addition, students are exposed to the concepts and applications of data analytics, security and privacy of big data, and project management as they pertain to system architecture and a firm’s ability to answer complicated business questions.

Core Requirement 12 cr.

- MIS603 - Information Security and Risk Management Credits: 3
- MIS605 - Management Information Systems Credits: 3

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

**Project Management**
The Project Management (PM) concentration is designed to prepare students with the knowledge, skills, and abilities (KSAs) to competently plan, organize, staff, and guide processes for creating a solution or system. The PM concentration intends to adequately prepare the students to take the Project Management Professional (PMP)® credentialing exam. More specifically, the content is aligned with the Project Management Body of Knowledge (PMBOK, 5th edition) and introduces students to the 5 process groups, 10 knowledge areas, and 47 processes of project management.

Core Requirement 12 cr.

- PM690 - Integration, Scope, and Quality Management Credits: 3
- PM691 - Time and Cost Management Credits: 3
- PM692 - Communications, Risk, and Stakeholder Management Credits: 3
- PM693 - Human Resource and Procurement Management Credits: 3

Graduation Requirements

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 36 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Master of Music in Performance (Applied Emphasis in Piano, Violin, Viola or Cello), M.M.

The International Center for Music's Master of Music in Performance degree program is an advanced course of study for musicians who hold a bachelor's degree and are seeking careers as professional musicians. In addition to the general rules that are applicable for admission to graduate studies at Park University, specific admission requirements are:

- Bachelor of Music or related undergraduate degree from a U.S. institution, an equivalent bachelor's degree from an accredited foreign institution of higher education or equivalent professional experience as determined by the faculty of the University's International Center for Music.
- An audition before the music faculty. In approved situations, a recording may be submitted in lieu of a live audition.

Each applicant must furnish a complete list of repertoire and recital history at the time of application. This is an advanced program of study at the graduate level, supervised and approved by the graduate faculty of Park University.

Students entering the Master of Music program must take a Theory Competency Test. Students who do not pass are assigned to the appropriate theory class.

The student may select one of the following performance areas:

Requirements For: Master - 36 Hours, 3.0 GPA

Piano Performance (2 Year Program)
Chamber Music, four semesters for total Credits: 4
MU501 - Chamber Music Credits: 1

Performance Class, three semesters for total Credits: 3
MU502 - Performance Class Credits: 1

Collaboration, four semesters for total Credits: 8
MU503 - Collaboration Credits: 2

MU511 - Seminar in Music Theory and Analysis Credits: 3
MU521 - History of the Concerto Credits: 3
MU522 - History of the Symphony Credits: 3

String Performance (2 Year Program)

Chamber Music, four semesters for total Credits: 4
MU501 - Chamber Music Credits: 1

Performance Class, three semesters for total Credits: 3
MU502 - Performance Class Credits: 1

Orchestra, four semesters for total Credits: 4
MU504 - Orchestra Credits: 1

Orchestra Repertoire, four semesters for total Credits: 4
MU505 - Orchestral Repertoire Credits: 1

MU511 - Seminar in Music Theory and Analysis Credits: 3
MU521 - History of the Concerto Credits: 3
MU522 - History of the Symphony Credits: 3

Graduation Requirements

Park University confers the Master of Music, Master of Public Administration, and Master of Science degrees at selected locations when a candidate has satisfied the following conditions:

Completion of a minimum of 36 semester hours.
Cumulative GPA of 3.0 for Park University courses.
Satisfaction of all requirements for a major as outlined in this catalog.
Completion of all earned credit with no more than 2 grades of C earned.
Submission of an Application for Graduation.

Master of Public Administration, Criminal Justice Administration Concentration, M.P.A.

Master of Public Administration, M.P.A.

Format of Courses
Courses in the MPA are offered in multiple formats: online, traditional face-to-face classroom, and blended. Students may complete their degree using any combination of formats.

**Courses of Study**

Students are required to take a series of eight core public administration courses in the Master of Public Administration program. In addition, from the program areas, students select one as a concentration area. With approval, a student may take a PA504 internship course to replace a course in the Master of Public Administration program.

**Sequential Degree**

This program is a participant of the Sequential Degree option.

**Required For: Master - 36 Hours, 3.0 GPA**

**Core Curriculum 24 cr.**

- PA501 - Public Affairs Concepts and Theory **Credits:** 3
- PA509 - Leadership Development and Organizations **Credits:** 3
- PA512 - The Environment of Public Organizations **Credits:** 3
- PA563 - Personnel Systems of Public Organizations **Credits:** 3
- PA564 - Budgeting and Finances of Public Organizations **Credits:** 3
- PA600 - Ethical Foundations of Authority and Responsibility **Credits:** 3
- PA601 - Research Methods and Data Analysis **Credits:** 3
- PA602 - Seminar in Public Affairs **Credits:** 3

**Area Concentrations**

- Criminal Justice Administration
- Disaster and Emergency Management
- Information Systems and Business Analytics
- Local Economic Development
- Management Information Systems
- Nonprofit and Community Services Management
- Project Management
- Public Policy

**Criminal Justice Administration**

**Core Requirement 12 cr.**

- PA503 - Emerging Issues in Public Affairs **Credits:** 1 to 3
- PA513 - Policy Development, Evaluation and Impact for Organizations **Credits:** 3
- PA594 - Financial Management for Nonprofit/Community Organizations **Credits:** 3
- PA630 - Comparative Criminal Justice Systems **Credits:** 3

**Graduation Requirements**
Park University confers the Master of Music, Master of Public Administration, and Master of Science degrees at selected locations when a candidate has satisfied the following conditions:

- Information Systems and Business Analytics
Local Economic Development  
Management Information Systems  
Nonprofit and Community Services Management  
Project Management  
Public Policy

**Disaster and Emergency Management**

The concentration in Disaster and Emergency Management is designed to prepare the graduate student with the knowledge, skills, and abilities (KSAs) to competently mitigate, prepare, respond, and assist communities and their organizations in recovering from natural and man-made disasters. An array of potentially hazardous events now more than ever confront businesses and include, but are not necessarily limited to homeland security issues; failures of complex technology; and a wide range of natural hazards. Ultimately, this concentration is intended to prepare graduates to design and improve emergency management capabilities and command and control operations within firms, so that they're better prepared to handle major and catastrophic disasters that threaten to disrupt business continuity.

**Core Requirement 12 cr.**

- DEM551 - Principles of Disaster and Emergency Management **Credits:** 3
- DEM552 - Public Policy and Disaster **Credits:** 3
- DEM553 - Disaster and Society **Credits:** 3
- DEM557 - Continuity of Operations in Public and Private Sectors **Credits:** 3

Local Economic Development

The MPA area concentration in Local Economic Development is designed to provide a comprehensive overview of the field that will help enrich and guide local practitioners and leaders in their efforts to promote the well-being of their communities. Topics include the history of urban development in the United States, comparisons between types of economic development approaches, public-private partnerships and intergovernmental relations, citizen involvement in economic development policy, quality of life considerations, local land use and planning.

Core Requirement 12 CR.

PA550 - Local Economic Development in Theory and Practice Credits: 3
PA560 - Approaches to Local Economic Development Credits: 3
PA580 - Sustainability, Smart Growth and Community Development Credits: 3
PA590 - Population, Land Use and Municipal Finance Credits: 3

Graduation Requirements

- Information Systems and Business Analytics
- Local Economic Development
- Management Information Systems
- Nonprofit and Community Services Management
- Project Management
- Public Policy

**Management Information Systems**

The Management Information Systems concentration offers a unique combination of business intelligence and industry standards through practical project-oriented instruction. The rationale is to produce quality graduates with in-depth knowledge and hands-on understanding of the essentials of managing today's information technology systems. Students study the foundations of business so they can apply management information system technology to create efficient, effective business enterprises capable of competing in a global setting.

In addition, students are exposed to the concepts and applications of data analytics, security and privacy of big data, and project management as they pertain to system architecture and a firm's ability to answer complicated business questions.

**Core Requirement 12 cr.**

- MIS603 - Information Security and Risk Management **Credits: 3**

**Project Management**

The Project Management (PM) concentration is designed to prepare students with the knowledge, skills, and abilities (KSAs) to competently plan, organize, staff, and guide processes for creating a solution or system. The PM concentration intends to adequately prepare the students to take the Project Management Professional (PMP)® credentialing exam. More specifically, the content is aligned with the Project Management Body of Knowledge (PMBOK, 5th edition) and introduces students to the 5 process groups, 10 knowledge areas, and 47 processes of project management.

**Core Requirement 12 cr.**

- PM690 - Integration, Scope, and Quality Management **Credits:** 3

Master of Science, Information Systems and Business Analytics, M.S.

Vision Statement

Park University's Master of Science in Information Systems and Business Analytics will be the premier provider of graduate education in information systems and analytics.

Mission Statement

Park University's Master of Science in Information Systems and Business Analytics provides students with the technical, managerial, and strategic acumen necessary to leverage information technology and data to maintain a competitive advantage and improve operational outcomes.

Program Learning Outcomes

The graduates will be able to:

- Develop and maintain the information systems necessary to support the functional, operational, and strategic needs of domestic and multinational organizations.
- Determine the most efficient and effective methods of leading and managing the resources to support a firm's information systems and technology.
- Evaluate technology alternatives to resolve complex problems in an information systems context while taking into consideration internal and external constraints and the ethical implications.
- Formulate a plan to effectively collaborate and communicate with key stakeholders (business, HIMS, and IT professionals) in order to achieve corporate or functional level goals and objectives.
- Establish an organization-wide information security risk management program designed to isolate significant internal and external threats while concurrently designing and implementing contingency, business continuity, and disaster recovery plans.
- Evaluate the usefulness of information technology to achieve a competitive advantage, efficient operations, and effective decision-making.
- Analyze large datasets for the purpose of uncovering hidden patterns, predicting future trajectories, and then using the resultant information to aid organizations in making well-informed operating, marketing, financing, and strategic decisions.

Admission Requirements

PA542 - Social Policy Credits: 3
PA599 - Virtual Local Government Credits: 3
See Admissions Policies and Procedures for further details. The Master of Science in Information Systems and Business Analytics will require applicants to meet the same admissions requirements as any other Park University graduate program in business.

A baccalaureate degree from an acceptable accredited college or university in the U.S. or from an acceptable accredited foreign institution of higher learning.
Minimum of a 2.75 cumulative grade point average on a 4.0 scale from all colleges and universities attended.
Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be required by the Program Director.

Admission to Park University's Master of Science in Information Systems and Business Analytics program is open to graduates of all fields of undergraduate study.

Sequential Degree

This program is a participant of the Sequential Degree option.

Format of Courses

Online: Students can meet all course requirements through an online format.
Blended: All ground courses are offered using a blended delivery format. This means that each weekly class session includes a physical classroom as well as the online component. In this format, students are expected to complete assigned readings, review supplemental materials, and complete certain assignments prior to each class session. During the class sessions, the instructors will facilitate in-class activities that promote collaborative learning and provide opportunities to apply learned concepts. Blended courses are offered in Kansas City, MO.
The MS in ISBA courses are offered in the 8-week accelerated format.

Required For: Master - 36 Hours, 3.0 GPA

Graduation Requirements

Park University confers the Master of Music, Master of Public Administration, and Master of Science degrees at selected locations when a candidate has satisfied the following conditions:

Completion of a minimum of 36 semester hours.
Cumulative GPA of 3.0 for Park University courses.
Satisfaction of all requirements for a major as outlined in this catalog.
Completion of all earned credit with no more than 2 grades of C earned.
Submission of an Application for Graduation.

**Master of Social Work, Advanced Standing, M.S.W.**

**Master of Social Work**

Park University's Master of Social Work program is designed to prepare graduates with the knowledge, values and skills needed to deliver effective and efficient advanced social work practice with individuals, families, groups, organizations and communities. The advanced practice concentration is in Behavioral Health. Within this concentration, students are given the opportunity to expand their knowledge and skills in one of three areas of emphasis: gerontological social work, military social work or social work with children and families. The Master of Social Work (MSW) program at Park University earned full initial accreditation at the February, 2016 meetings of the Council on Social Work Education (CSWE) Commission on Accreditation (COA).

**Mission**

The mission of Park's Master of Social Work program is to prepare graduates for effective and efficient advanced social work practice in behavioral health. Guided by the purpose of the profession, the program promotes social and economic justice, equal access to community resources, equal opportunity and the attainment of individual and community well-being.

**Vision**

The Master of Social Work program will be committed to enhancing the physical, social, psychological and spiritual well-being of all people, particularly those who have experienced oppression, exclusion and discrimination, and who have experienced the impact of poverty upon their health, well-being and sense of fulfillment.

**Purpose of the Program**

Social workers are called upon to intervene and assist large numbers of people while federal and state allocations for social welfare and treatment are being cut or drastically reduced. Therefore, social workers must become ever-more effective and efficient in the development and delivery of interventions. Moreover, they must become even more focused on advocacy efforts designed to promote access to naturally occurring, sustainable resources. Social workers who possess the knowledge and skills to engage, assess, intervene and evaluate comprehensive, individualized interventions will be in demand.

Park University identifies three areas of emphasis in Behavioral Health social work practice. These areas were identified based on current and future projections relative to demand for behavioral health services and treatment:

- **Military Social Work**: The social/psychological impact of serving in the military on service members and their families is profound.
- **Gerontological Social Work**: The demographic data illustrates that the demand for effective social work practice with older persons will continue to grow.
- **Social Work with Children and Families**: There is a growing recognition of the need for effective and efficient behavioral health interventions with children and families.

In summary, the mission of Park's Master of Social Work program reflects the values of the profession and of the University, and it is developed within the context of current and future demand for effective and efficient social work interventions in behavioral health.
Program Goals

Establish collaborative partnerships with community agencies that provide students with opportunities to enhance their knowledge, values and skills in behavioral health social work practice, with emphasis on effective and efficient interventions in military social work, gerontological social work or social work with children and families.

Educate students regarding the principles, philosophy and behavioral health advanced practice applications of the strengths perspective for social work practice to enhance individual and community well-being, social and economic justice, equity and equal opportunity for all people.

Infuse and model the social work code of ethics and the six core values of the profession as guiding concepts in all aspects behavioral health interventions with individuals, families, groups, organizations and communities, with particular attention to factors that impact the well-being of service members/veterans, children and families, and older persons.

Graduate advanced social work practitioners that are prepared to assume leadership roles in providing effective and efficient multilevel behavioral health interventions that reflect mastery of the competencies.

Admission Requirements

Regular Study (60 credit hours)

An undergraduate degree from an acceptable accredited college or university.
A minimum cumulative grade point average of at least 3.0 is preferred; or a GPA of at least 3.0 for the last 60 credit hours of the baccalaureate program. Note: lower GPA’s will be considered for probationary admission.
Three professional or academic references who can assess your potential for graduate study in social work.
A copy of your resume.
Submit three written narratives (see next page for more information).

Advanced Standing Program (33 credit hours)

A Bachelor of Social Work degree from a Council on Social Work Education accredited program.
A minimum cumulative grade point average of at least 3.0 is preferred; or a GPA of at least 3.0 for the last 60 credit hours of the baccalaureate program. Note lower GPA’s will be considered for probationary admission.
Three professional or academic references who can assess your potential for graduate study in social work. One reference must be from your practicum instructor, field liaison or the director of field education.
A copy of your resume.
Submit three written narratives (see next page for more information).

For both above programs, once accepted, all Master of Social Work students will be required to submit to a background check. Note: The GRE is not required.

Application Narratives

Each applicant completes all three narratives, each two to three pages in length utilizing APA format.

Ethical Critique: Describe an ethical dilemma that you have encountered in your personal or professional life. Using appropriate confidentiality, define the parties involved, the ethical dilemma, the values that informed your decisions and how the dilemma was addressed and/or resolved. Discuss how the experience and outcome affected you, in particular any lessons you learned. The National Association of Social Workers Code of Ethics may be found at: www.socialworkers.org/pubs/code/.
Personal Statement: What are the significant experiences that influenced your decision to enter social work? What are your short-term (3-5 years) and long-term (10-plus years) goals, and how does a Master in Social Work degree prepare you to meet those goals? How will you meet the demands of graduate academic responsibilities (20-plus hours per week in class and task completion for coursework, and 15 to 24 practicum hours per week)? Do you anticipate any barriers to meet these expectations and how do you plan to address these barriers?

Professional Statement: What is your concept of social work as a profession? Discuss a current societal concern, including contributing/causal factors, and why this concern warrants public attention and resources from the social work community. What intervention do you believe will successfully address this situation (direct practice, policy change, etc.)? What positive or negative results may occur following this intervention? Discuss your rationale and what role you might be involved in if such an intervention were to be employed.

Learning Outcomes Assessment / Program Assessment

The Master of Social Work program has established practice behaviors for both the foundation and advanced years of the program that measure student attainment of the 9 competencies established by the Council on Social Work Education. Each course delineates learning objectives which correspond with the foundation or advanced year practice behaviors and the CSWE competencies, respectively. The overall attainments of the practice behaviors and competencies are assessed through the following:

Integrative Seminar Project — Students are expected to integrate all 10 competencies in the planning, development, implementation, evaluation and dissemination of the ISP. This project will relate directly to the chosen emphasis of working either gerontological, military, or children and family service participants, and will be tied to their field practicum.

Field Learning Education Plan — This is designed to be both an ongoing guide to the activities and tasks for the student in their practicum experience, as well as an overview of the competencies and the practice behaviors.

Student Self-Assessment — Students are asked to complete the self-assessment near the end of the spring semester of the advanced year.

Requirements For: Master - 33 Hours, 3.0 GPA

Core Requirement 30 cr.

- SW600 - Bridging Practice, Theory, Policy and Research Credits: 3
- SW610 - Advanced Practice I Credits: 3
- SW615 - Social Work in Behavioral Health Credits: 3
- SW630 - Program Evaluation and Grant Writing Credits: 3
- SW640 - Current Diagnostic Trends: Integrating the DSM-5 with the Strengths' Perspective Credits: 3
- SW650 - Advanced Field Education I Credits: 3
- SW660 - Advanced Practice II Credits: 3
- SW670 - Leadership, Supervision and Entrepreneurial Opportunities in Social Work Credits: 3
- SW680 - Advanced Field Education II Credits: 3
- SW690 - Integrative Seminar Credits: 3

Electives 3 cr.

Select one of the following:

- SW620 - Gerontological Social Work Credits: 3
- SW621 - Military Social Work Credits: 3
Graduation Requirements

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Social Work, Regular Study, M.S.W.**

Master of Social Work

Park University's Master of Social Work program is designed to prepare graduates with the knowledge, values and skills needed to deliver effective and efficient advanced social work practice with individuals, families, groups, organizations and communities. The advanced practice concentration is in Behavioral Health. Within this concentration, students are given the opportunity to expand their knowledge and skills in one of three areas of emphasis: gerontological social work, military social work or social work with children and families. The Master of Social Work (MSW) program at Park University earned full initial accreditation at the February, 2016 meetings of the Council on Social Work Education (CSWE) Commission on Accreditation (COA).

Mission

The mission of Park's Master of Social Work program is to prepare graduates for effective and efficient advanced social work practice in behavioral health. Guided by the purpose of the profession, the program promotes social and economic justice, equal access to community resources, equal opportunity and the attainment of individual and community well-being.

Vision

The Master of Social Work program will be committed to enhancing the physical, social, psychological and spiritual well-being of all people, particularly those who have experienced oppression, exclusion and discrimination, and who have experienced the impact of poverty upon their health, well-being and sense of fulfillment.

Purpose of the Program

Social workers are called upon to intervene and assist large numbers of people while federal and state allocations for social welfare and treatment are being cut or drastically reduced. Therefore, social workers must become ever-more effective and efficient in the development and delivery of interventions. Moreover, they must become even more focused on advocacy efforts designed to promote access to naturally occurring, sustainable resources. Social workers who possess the knowledge and skills to engage, assess, intervene and evaluate comprehensive, individualized interventions will be in demand.
Park University identifies three areas of emphasis in Behavioral Health social work practice. These areas were identified based on current and future projections relative to demand for behavioral health services and treatment:

- **Military Social Work**: The social/psychological impact of serving in the military on service members and their families is profound.
- **Gerontological Social Work**: The demographic data illustrates that the demand for effective social work practice with older persons will continue to grow.
- **Social Work with Children and Families**: There is a growing recognition of the need for effective and efficient behavioral health interventions with children and families.

In summary, the mission of Park’s Master of Social Work program reflects the values of the profession and of the University, and it is developed within the context of current and future demand for effective and efficient social work interventions in behavioral health.

## Program Goals

- Establish collaborative partnerships with community agencies that provide students with opportunities to enhance their knowledge, values and skills in behavioral health social work practice, with emphasis on effective and efficient interventions in military social work, gerontological social work or social work with children and families.
- Educate students regarding the principles, philosophy and behavioral health advanced practice applications of the strengths perspective for social work practice to enhance individual and community well-being, social and economic justice, equity and equal opportunity for all people.
- Infuse and model the social work code of ethics and the six core values of the profession as guiding concepts in all aspects behavioral health interventions with individuals, families, groups, organizations and communities, with particular attention to factors that impact the well-being of service members/veterans, children and families, and older persons.
- Graduate advanced social work practitioners that are prepared to assume leadership roles in providing effective and efficient multilevel behavioral health interventions that reflect mastery of the competencies.

## Admission Requirements

### Regular Study (60 credit hours)

- An undergraduate degree from an acceptable accredited college or university.
- A minimum cumulative grade point average of at least 3.0 is preferred; or a GPA of at least 3.0 for the last 60 credit hours of the baccalaureate program. *Note: lower GPA's will be considered for probationary admission.*
- Three professional or academic references who can assess your potential for graduate study in social work.
- A copy of your resume.
- Submit three written narratives (see next page for more information).

### Advanced Standing Program (33 credit hours)

- A Bachelor of Social Work degree from a Council on Social Work Education accredited program.
- A minimum cumulative grade point average of at least 3.0 is preferred; or a GPA of at least 3.0 for the last 60 credit hours of the baccalaureate program. *Note lower GPA’s will be considered for probationary admission.*
- Three professional or academic references who can assess your potential for graduate study in social work. One reference must be from your practicum instructor, field liaison or the director of field education.
- A copy of your resume.
- Submit three written narratives (see next page for more information).
For both above programs, once accepted, all Master of Social Work students will be required to submit to a background check. Note: The GRE is not required.

Application Narratives

Each applicant completes all three narratives, each two to three pages in length utilizing APA format.

Ethical Critique: Describe an ethical dilemma that you have encountered in your personal or professional life. Using appropriate confidentiality, define the parties involved, the ethical dilemma, the values that informed your decisions and how the dilemma was addressed and/or resolved. Discuss how the experience and outcome affected you, in particular any lessons you learned. SW660 - Advanced Practice II Credits: 3
SW670 - Leadership, Supervision and Entrepreneurial Opportunities in Social Work Credits: 3
SW680 - Advanced Field Education II Credits: 3
SW690 - Integrative Seminar Credits: 3

Electives 3 cr.
Select one of the following:

SW620 - Gerontological Social Work Credits: 3
SW621 - Military Social Work Credits: 3
SW622 - Social Work with Children and Families Credits: 3

Graduation Requirements

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Educational Specialist, Education Administration, Ed.S.

The Educational Specialist in Educational Administration degree is designed to fulfill the state of Missouri's requirements for Superintendent (K-12) Initial Administrator certification in a 33-credit hour program or a Building-Level (K-12) Initial Administrator certification in a 33-credit hour program. There are two components: 1) Completion of the program of study earns the Educational Specialist in Educational Administration degree, and 2) Certification as a Superintendent (K-12) Initial Administrator certificate is earned by passing of current DESE state assessments. or certification as a Building-Level (K-12) Initial Administrator certificate is earned by passing of current DESE state assessments. The program is offered in an 8-week format, classes meet totally online. Full-time enrollment is one course per 8-week term. The coursework for this 33-credit hour program is offered in an 8-week format totally online (with the exception of a 16-week field experience semester).

Admission Requirements
A bachelor's degree from an accredited institution and a valid state teaching certificate (applicant must provide copy of certificate).

*Note: This must be completed before the completion of the first three credit hours.*

A Master degree in education from an accredited institution with a GPA of 3.0 for full admission or GPA of 2.75 for provisional admission.

Current school employment either as a teacher or administrator is required.

MSHP & FBI Criminal History Background Check

**Requirements For: Educational Specialist - 33 Hours, 3.0 GPA**

Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206
*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Park University confers the Associates of Arts and Associate of Science degrees at selected locations when a candidate has satisfied the following conditions:
LE100 First-Year Seminar (required for all incoming first-time freshmen and highly encouraged for transfer students)
Presentation of a minimum of sixty (60) earned credit hours.
Cumulative GPA of 2.0 for Park University courses. (Some majors may require a higher cumulative GPA.)
Satisfaction of all requirements for a major as outlined in this catalog.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of 15 earned (A, B, C, D) Park University credit hours in residence. At least nine of these credits must be in the major.
Submission of an Application of Graduation.

**Construction Management, A.S.**

**Requirements For: A.S. Major – 36 Hours, 2.0 GPA**

This degree program combines the principles of business management with the skills needed by construction managers. Students are prepared for careers in Construction Management, Project Management, and Building Inspection, among others. Topics include planning and scheduling, budgeting, organizing, supervising, safety, law, materials, methods, and plans analysis.

Information and Computer Science, A.S.

Requirements For: A.S. Major – 29-30 hours, 2.0 gpa

The Information and Computer Science (ICS) curriculum prepares students for a broad range of computer opportunities in industry as well as in graduate studies. ICS students choose one or more specialty areas from among these options: Computer Science, Information Technology, Network Security, Software Development and Web Development. As part of their curriculum, Network Security students take Cisco Certified Network Associate (CCNA) courses that prepare them for the CCNA certification exam. Depending on their chosen specialty area, ICS graduates are well prepared for these industry positions: applications programmer, systems analyst, information technology specialist, database analyst, network analyst, web programmer, software engineer, and cybersecurity specialist.

The CSIS Department works with Park University's Career Development Center in helping to place students in computer internship positions. The CSIS Department actively encourages students to work in such internship positions and considers internships to be an integral part of the ICS curriculum.

Core Curriculum 24 cr.

Math Requirement 3 cr.

Choose one of the following:

MA120 - Basic Concepts of Statistics Credits: 3
MA125 - Intermediate Algebra Credits: 3
or higher excluding MA208

Humanities Requirement 6 cr.

Complete 6 hours from any of the following disciplines:

Natural Science Requirement 6 cr.

Complete 6 hours from any of the following disciplines:

Biology, Chemistry, Computer Science, Fitness and Wellness, Information Systems, Physical Geography, Geology, Math, Natural Science, Physics, Surveying.

Natural Science/Social Science/Humanities 3 cr.

Complete an addition 3 hours of humanities, natural science, or social science in the following disciplines: Those listed under natural science or humanities or Accounting, Anthropology, Criminal Justice, Construction, Economics, Education, Engineering, Finance, Human Geography, Health Care, History, Human Resources, Logistics, Management, Marketing, Political Science, Psychology, Sociology, Social Studies, Social Work.

Graduation Requirements
Park University confers the Associates of Arts and Associate of Science degrees at selected locations when a candidate has satisfied the following conditions:

- LE100 First-Year Seminar (required for all incoming first-time freshmen and highly encouraged for transfer students)
- Presentation of a minimum of sixty (60) earned credit hours.
- Cumulative GPA of 2.0 for Park University courses. (Some majors may require a higher cumulative GPA.)
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of 15 earned (A, B, C, D) Park University credit hours in residence. At least nine of these credits must be in the major.
- Submission of an Application of Graduation.

Management/Accounting, A.S.

Requirements For: A.S. Major – 33 hours, 2.0 GPA

- AC201 - Principles of Financial Accounting Credits: 3
- AC202 - Principles of Managerial Accounting Credits: 3
- AC309 - Individual Income Tax Credits: 3
- AC380 - Cost Accounting Credits: 3
- IS141 - Applied Computer Technology for Business Credits: 3 *
- EC141 - Principles of Macroeconomics Credits: 3
- EC142 - Principles of Microeconomics Credits: 3
- FI360 - Financial Management Credits: 3
- MA171 - Finite Mathematics Credits: 3
- MG260 - Business Law I Credits: 3
- MG371 - Management and Organizational Behavior Credits: 3

Note:

*MA171 is a required course for students with majors within the Robert W. Plaster School of Business and satisfies the requirement for MA120.

Liberal Education Requirements 24 cr.

Writing Seminar 6 cr.

- EN105 - First Year Writing Seminar I: Critical Reading, Writing and Thinking Across Contexts Credits: 3
- EN106 - First Year Writing Seminar II: Academic Research and Writing Credits: 3

Math Requirement 3 cr.

Choose one of the following:

- MA120 - Basic Concepts of Statistics Credits: 3
- MA125 - Intermediate Algebra Credits: 3
or higher excluding MA208
**Humanities Requirement 6 cr.**

Complete 6 hours from any of the following disciplines:

**Natural Science Requirement 6 cr.**

Complete 6 hours from any of the following disciplines:

Biology, Chemistry, Computer Science, Fitness and Wellness, Information Systems, Physical Geography, Geology, Math, Natural Science, Physics, Surveying.

**Natural Science/Social Science/Humanities 3 cr.**

Complete an addition 3 hours of humanities, natural science, or social science in the following disciplines: Those listed under natural science or humanities or Accounting, Anthropology, Criminal Justice, Construction, Economics, Education, Engineering, Finance, Human Geography, Health Care, History, Human Resources, Logistics, Management, Marketing, Political Science, Psychology, Sociology, Social Studies, Social Work.

**Graduation Requirements**

Park University confers the Associates of Arts and Associate of Science degrees at selected locations when a candidate has satisfied the following conditions:

- LE100 First-Year Seminar (required for all incoming first-time freshmen and highly encouraged for transfer students)
- Presentation of a minimum of sixty (60) earned credit hours.
- Cumulative GPA of 2.0 for Park University courses. (Some majors may require a higher cumulative GPA.)
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of 15 earned (A, B, C, D) Park University credit hours in residence. At least nine of these credits must be in the major.
- Submission of an Application of Graduation.

**Management/Logistics, A.S.**

**Requirements For: A.S. Major – 36 hours, 2.0 gpa**

- AC201 - Principles of Financial Accounting **Credits:** 3
- AC202 - Principles of Managerial Accounting **Credits:** 3
- IS141 - Applied Computer Technology for Business **Credits:** 3 *
- EC141 - Principles of Macroeconomics **Credits:** 3
- EC142 - Principles of Microeconomics **Credits:** 3
- LG324 - Contract Management and Law **Credits:** 3
- LG415 - Quality Control **Credits:** 3
- LG424 - Purchasing and Vendor Management **Credits:** 3
- LG426 - Logistics Management **Credits:** 3
MA171 - Finite Mathematics **Credits:** 3  
MG260 - Business Law I **Credits:** 3  
MG371 - Management and Organizational Behavior **Credits:** 3

**Notes:**

*MA171 is a required course for students with majors within the Robert W. Plaster School of Business and satisfies the requirement for MA120.

**Liberal Education Requirements 24 cr.**

**Writing Seminar 6 cr.**

- EN105 - First Year Writing Seminar I: Critical Reading, Writing and Thinking Across Contexts **Credits:** 3  
- EN106 - First Year Writing Seminar II: Academic Research and Writing **Credits:** 3

**Math Requirement 3 cr.**

Choose one of the following:

- MA120 - Basic Concepts of Statistics **Credits:** 3  
- MA125 - Intermediate Algebra **Credits:** 3  
- or higher excluding MA208

**Humanities Requirement 6 cr.**

Complete 6 hours from any of the following disciplines:

**Natural Science Requirement 6 cr.**

Complete 6 hours from any of the following disciplines:

Biology, Chemistry, Computer Science, Fitness and Wellness, Information Systems, Physical Geography, Geology, Math, Natural Science, Physics, Surveying.

**Natural Science/Social Science/Humanities 3 cr.**

Complete an addition 3 hours of humanities, natural science, or social science in the following disciplines: Those listed under natural science or humanities or Accounting, Anthropology, Criminal Justice, Construction, Economics, Education, Engineering, Finance, Human Geography, Health Care, History, Human Resources, Logistics, Management, Marketing, Political Science, Psychology, Sociology, Social Studies, Social Work.

**Graduation Requirements**

Park University confers the Associates of Arts and Associate of Science degrees at selected locations when a candidate has satisfied the following conditions:
LE100 First-Year Seminar (required for all incoming first-time freshmen and highly encouraged for transfer students)
Presentation of a minimum of sixty (60) earned credit hours.
Cumulative GPA of 2.0 for Park University courses. (Some majors may require a higher cumulative GPA.)
Satisfaction of all requirements for a major as outlined in this catalog.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of 15 earned (A, B, C, D) Park University credit hours in residence. At least nine of these credits must be in the major.
Submission of an Application of Graduation.

**Social Psychology, A.S.**

**Requirements For: A.S. Major – 27 hours, 2.0 gpa**

- **PS101 - Introduction to Psychology** **Credits: 3**
- **SO141 - Introduction to Sociology** **Credits: 3**
- **SO206 - Social Issues in Contemporary Society** **Credits: 3**
- **PS301 - Social Psychology** **Credits: 3**
- **SO338 - Self and Society** **Credits: 3**

**Electives: 12 cr.**

Students may choose 12 credit hours from Psychology and/or Sociology

**Liberal Education Requirements 24 cr.**

**Writing Seminar 6 cr.**

- **EN105 - First Year Writing Seminar I: Critical Reading, Writing and Thinking Across Contexts** **Credits: 3**
- **EN106 - First Year Writing Seminar II: Academic Research and Writing** **Credits: 3**

**Math Requirement 3 cr.**

Choose one of the following:

- **MA120 - Basic Concepts of Statistics** **Credits: 3**
- **MA125 - Intermediate Algebra** **Credits: 3**
- or higher excluding MA208

**Humanities Requirement 6 cr.**

Complete 6 hours from any of the following disciplines:

**Natural Science Requirement 6 cr.**
Complete 6 hours from any of the following disciplines:

- Biology, Chemistry, Computer Science, Fitness and Wellness, Information Systems, Physical Geography, Geology, Math, Natural Science, Physics, Surveying.

**Natural Science/Social Science/Humanities 3 cr.**

Complete an addition 3 hours of humanities, natural science, or social science in the following disciplines:

**Graduation Requirements**

Park University confers the Associates of Arts and Associate of Science degrees at selected locations when a candidate has satisfied the following conditions:

- LE100 First-Year Seminar (required for all incoming first-time freshmen and highly encouraged for transfer students)
- Presentation of a minimum of sixty (60) earned credit hours.
- Cumulative GPA of 2.0 for Park University courses. (Some majors may require a higher cumulative GPA.)
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of 15 earned (A, B, C, D) Park University credit hours in residence. At least nine of these credits must be in the major.
- Submission of an Application of Graduation.

**Bachelor Degrees**

**Biology, B.A.**

**Requirements For: B.A. Major – 56 hours, 2.0 GPA**

The Bachelor of Arts in Biology degree trains students to be a professional biologist broadly trained in Biology. This major is ideally paired with a supporting minor or second major to prepare the student in several career paths, such as: laboratory assistant, research assistant, education, scientific communication, quality control assurance, pharmaceutical sales or management of science-based businesses, and biospatial analysis. Based upon career interests, students will need to seek academic advisement for assistance with selecting minor and/or a secondary major. To complete the major, students will need to focus on completing courses within the core curriculum in years one and two while focusing on the completion of elective courses within years three and four.

**Core Curriculum 44 CR.**

- BIO221 - Zoology Credits: 4
- BIO225 - Botany Credits: 4
- BIO325 - Introductory Molecular Cell Biology Credits: 3
- BIO327 - Introductory Ecology and Evolution Credits: 4
BIO340 - Genetics Credits: 4
MA160 - Precalculus for Majors Credits: 5
PY155 - Concepts of Physics I Credits: 4
NS220 - Applied Statistics and Experimental Design Credits: 3
NS302 - Current Literature in the Natural Sciences Credits: 1
NS306 - Writing and Ethical Practices in Science Credits: 3
NS401 - Natural Science Seminar Credits: 1
CH107 - General Chemistry I Credits: 3
CH107L - General Chemistry Laboratory I Credits: 1
CH108 - General Chemistry II Credits: 3
CH108L - General Chemistry Laboratory II Credits: 1

Electives 12 cr.

BIO330 - Paleobiology Credits: 4
BIO337 - Biochemistry Credits: 3
BIO350 - Microbiology Credits: 4
BIO380 - Issues in Biodiversity Credits: 3
BIO400 - Cell Biology Credits: 4
BIO410 - Comparative Anatomy Credits: 4
BIO411 - Animal Physiology Credits: 4
BIO417 - Developmental Biology Credits: 4
BIO470 - Internship Credits: 1-4
BIO490 - Advanced Topics in Biology Credits: 1-4
BIO498 - Thesis Credits: 3
BIO499 - Research Credits: 1-6

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.
EN105 and EN106

Math Requirement 3 cr.
Select one of the following:
MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.
Select one of the following:
BI101, BI111, BI212, BI223, BIO221, BIO225, BIO226, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 CR.**
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Requirements 36 cr.**

36 hours of upper division (300 - 400 level) course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

**Modern Language Requirement**

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR201 or GE201 or SP201 or transfer equivalent
Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Communication Studies, B.A.

Communication, B.A.

The Department of Communication, Journalism, Public Relations offers two related majors.

- Multimedia Journalism and Public Relations, B.A.
- Communication Studies, B.A.

These majors are designed to prepare students for success in professional fields and/or graduate study. Students do this in an environment which combines hands-on learning with great ideas. The program is designed as an extension of the liberal arts approach of Park University because the liberal arts approach is perfect for journalism and communication education in these dynamic times. In the liberal arts environment a student learns to think, to lead, to innovate, to appreciate, to criticize and to develop a deeper sense of what it is to be a citizen of the world and the community.

Students will be actively involved in each of the professions during their academic careers. They may write, design, edit or photograph for the student newspaper, The Stylus, or hold an air shift for the student radio stations, KGSP-FM. They may be actively involved in public relations campaigns and they may become campus leaders through the Communication Connection.

Requirements For: B.A. Major – 45 Hours, 2.0 GPA

- CA200 - Interviewing Theories and Practice Credits: 3
- CA218 - Public Relations Credits: 3
- CA224 - Digital Media Skills Credits: 3
- CA237 - Introduction to Organizational Communication Credits: 3
- CA302 - Communication Ethics and Law Credits: 3
- CA309 - Training in Organizations Credits: 3
- CA321 - Interpersonal Conflict Solution Credits: 3
- CA322 - Media Analysis and Criticism Credits: 3
- CA327 - Persuasive Communication Credits: 3
- CA348 - Theories of Communication Credits: 3
- CA382 - Communication Research Methods Credits: 3
CA405 - Communication and Gender **Credits:** 3  
CA475 - Case Studies in Communication Leadership **Credits:** 3  
CA490 - Professional Learning Experience **Credits:** 3-6  
CA491 - Senior Research Project **Credits:** 3

**Required Minor 18 cr.**

Choose a minor from a different discipline.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH17L and CH17, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**
Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 CR.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Requirements 36 cr.**

36 hours of upper division (300 - 400 level) course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:
3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.
AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

**Modern Language Requirement**

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR201 or GE201 or SP201 or transfer equivalent

**Additional Requirements**

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
  A minor is required (some may be discipline specific as noted in the major).

- Satisfaction of all requirements for a major.

- Completion of the Liberal Education requirements.

- Completion of the degree specific requirements.

- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

- Submission of an Application for Graduation.
Criminal Justice Administration, Corrections Concentration, B.A.

Criminal Justice Administration, B.A.

The major in Criminal Justice Administration is designed to provide a comprehensive understanding of the complete criminal justice system within society in the United States. There are three areas of concentration the student can choose from which to build on the core curriculum: Law Enforcement, Corrections, and Security. Providing a comprehensive understanding from a theoretical, philosophical, and practical perspective, the program provides a broad background for over 40 basic career opportunities in the criminal justice system, both in the public and private sectors, at the local, state, national, and international levels.

Requirements for: B.A. Major – 45 Hours, 2.0 gpa

Core Curriculum 24 cr.

CJ100 - Introduction to Criminal Justice Administration Credits: 3
CJ105 - Criminal Law Credits: 3
CJ200 - Criminology Credits: 3
CJ221 - Criminal Procedure Credits: 3
CJ300 - Agency Administration Credits: 3
CJ430 - Research in Criminal Justice Credits: 3
CJ440 - Internship in Criminal Justice Credits: 3-6
CJ450 - Senior Seminar in Criminal Justice Credits: 3

Criminal Justice Electives 12 cr.

From Criminal Justice courses not in the Core or the Areas of Concentration:

one 200-level course
two 300/400-level courses
one 400-level course

Concentrations

(One of the following areas)

Law Enforcement
Corrections
Security

Corrections 9 cr.

CJ232 - Introduction to Corrections Credits: 3

CJ231 - Introduction to Law Enforcement Credits: 3
or
CJ233 - Introduction to Security Credits: 3

CJ322 - Probation, Parole, and Community Corrections Credits: 3
Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.
EN105 and EN106

Math Requirement 3 cr.
Select one of the following:
MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.
Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337,
BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108,
CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115,
GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220,
SW492

Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216
Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107, CH107L, CH108, CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 CR.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Requirements 36 cr.

36 hours of upper division (300-400 level) course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.
Modern Language Requirement

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

Elementary Level 8 cr.

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

Secondary Level 7 cr.

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

Intermediate Level 3 cr.

FR201 or GE201 or SP201 or transfer equivalent

Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
  - A minor is required (some may be discipline specific as noted in the major).

- Satisfaction of all requirements for a major.

- Completion of the Liberal Education requirements.

- Completion of the degree specific requirements.

- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

- Submission of an Application for Graduation.

Criminal Justice Administration, Law Enforcement Concentration, B.A.

Criminal Justice Administration, B.A.
The major in Criminal Justice Administration is designed to provide a comprehensive understanding of the complete criminal justice system within society in the United States. There are three areas of concentration the student can choose from which to build on the core curriculum: Law Enforcement, Corrections, and Security. Providing a comprehensive understanding from a theoretical, philosophical, and practical perspective, the program provides a broad background for over 40 basic career opportunities in the criminal justice system, both in the public and private sectors, at the local, state, national, and international levels.

Requirements for: B.A. Major – 45 Hours, 2.0 gpa

Core Curriculum 24 cr.

- CJ100 - Introduction to Criminal Justice Administration Credits: 3
- CJ105 - Criminal Law Credits: 3
- CJ200 - Criminology Credits: 3
- CJ221 - Criminal Procedure Credits: 3
- CJ300 - Agency Administration Credits: 3
- CJ430 - Research in Criminal Justice Credits: 3
- CJ440 - Internship in Criminal Justice Credits: 3
- CJ450 - Senior Seminar in Criminal Justice Credits: 3

Criminal Justice Electives 12 cr.

From Criminal Justice courses not in the Core or the Areas of Concentration:

- one 200-level course
- two 300/400-level courses
- one 400-level course

Concentrations

(One of the following areas)

- Law Enforcement
- Corrections
- Security

Law Enforcement 9 cr.

- CJ231 - Introduction to Law Enforcement Credits: 3
- CJ232 - Introduction to Corrections Credits: 3
  or
- CJ233 - Introduction to Security Credits: 3
- CJ311 - Criminal Investigation Credits: 3

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106
Math Requirement 3 cr.
Select one of the following:
MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.
Select one of the following:
BI101, BI111, BI212, BI211, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337,
BIO359, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108,
CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115,
GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220,
SW492

Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206
Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 CR.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Requirements 36 cr.

36 hours of upper division (300 - 400 level) course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

Modern Language Requirement
Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR201 or GE201 or SP201 or transfer equivalent

**Additional Requirements**

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Criminal Justice Administration, Security Concentration, B.A.**

**Criminal Justice Administration, B.A.**

The major in Criminal Justice Administration is designed to provide a comprehensive understanding of the complete criminal justice system within society in the United States. There are three areas of concentration the student can choose from which to build on the core curriculum: Law Enforcement, Corrections, and Security. Providing a comprehensive understanding from a theoretical, philosophical, and practical perspective, the program provides a broad background for over 40 basic career opportunities in the criminal justice system, both in the public and private sectors, at the local, state, national, and international levels.

**Requirements for: B.A. Major – 45 Hours, 2.0 gpa**

**English and Professional Writing, B.A.**

**Requirements For: B.A. Major - 42 Hours, 2.0 GPA**

The English and Professional Writing program prepares students to write for both print and online environments and for a variety of audiences and purposes, making them marketable for a wide array of writing and editing careers. Students also develop analytical reading and reasoning skills and learn how to apply them to professional contexts.

Core courses in writing and editing are complemented with courses in literature, creative writing, and digital media skills. Working with an English faculty adviser, each student creates a personalized curriculum tailored to their interests and goals.

**Professional and Technical Writing Core 12 CR.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student’s major area of study at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

Modern Language Requirement

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

Elementary Level 8 cr.

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

Secondary Level 7 cr.

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

Intermediate Level 3 cr.

FR201 or GE201 or SP201 or transfer equivalent

Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor is required (some may be discipline specific as noted in the major).

Satisfaction of all requirements for a major.

Completion of the Liberal Education requirements.

Completion of the degree specific requirements.

Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

Submission of an Application for Graduation.

English, B.A.

The Bachelor of Arts in English degree program is designed for students who want to develop critical practices in reading, writing, and thinking—practices that lead not only to creative and academic fulfillment
but also to career success. No matter what your personal and professional goals are, the English major can provide you with the skills to reach them.

English majors complement a core curriculum focused on methods, rhetoric, and theory with courses in literature and writing. Working with an English faculty adviser, each student creates a personalized curriculum tailored to their interests and goals.

Students who wish to earn secondary certification to teach English are encouraged to pursue a double major in education (B.S.E.) and English (B.A.).

**Requirements For: B.A. Major – 42 Hours, 2.0 GPA**

English majors develop critical practices in reading, writing, and thinking, in order to promote creative and humanist responses to literature, life, and intellectual endeavor. The English program encourages students to explore many facets of human nature and culture through the study of literature, development of analytical reading and reasoning skills, and the articulate use of oral and written language. English majors complement a core curriculum focused on methods, rhetoric, and theory with courses in literature and writing. Working with an English adviser, each student creates a personalized curriculum, tailored to his or her interests and goals.

Students who wish to earn secondary certification to teach English should pursue a double major in education (B.S.E.) and English (B.A.).

**Core Curriculum 15 cr.**

- EN205 - Introduction to English Studies **Credits:** 3
- EN307 - Professional Writing in English Studies **Credits:** 3
- EN370 - History and Practice of Rhetoric **Credits:** 3
- EN380 - Literary Theory and Criticism **Credits:** 3
- EN490 - Capstone Seminar **Credits:** 3

**Literature 9 CR.**

Complete nine hours from among the following courses (six hours must be 300-level or above)

- EN201 - Introduction to Literature **Credits:** 3
- EN221 - African-American Literature **Credits:** 3
- EN232 - Introduction to Poetry **Credits:** 3
- EN233 - Introduction to Drama **Credits:** 3
- EN234 - Introduction to Fiction **Credits:** 3
- EN305 - Special Topics in Literature **Credits:** 3
- EN315 - Knights and Ladies, Priests and Peasants **Credits:** 3
- EN316 - Revolution and Empire: British Literature from 1660-1900 **Credits:** 3
- EN317 - American Literature from Puritans to Abolitionists **Credits:** 3
- EN318 - Dreams and Identities: American Literature from 1865 to Today **Credits:** 3
- EN320 - Young Adult Literature **Credits:** 3
- EN324 - Modern British and European Literature **Credits:** 3
- EN340 - Shakespeare Then and Now **Credits:** 3
- EN341 - Literature and Film **Credits:** 3
- EN355 - International Literature **Credits:** 3
- EN356 - Women's Literature **Credits:** 3
Writing and Rhetoric 9 CR.

Complete nine hours from among the following courses (six hours must be 300-level or above)

EN204 - Writing for Online Environments Credits: 3
EN207 - Professional and Technical Editing Credits: 3
EN231 - Introduction to Language Credits: 3
EN304 - Special Topics in Writing and Rhetoric Credits: 3
EN306A - Scientific and Technical Writing Credits: 3
EN306B - Business Communications Credits: 3
EN306C - Writing and Research in Your Academic Field Credits: 3
EN311 - Creative Writing Credits: 3
EN325 - Modern Grammar Credits: 3
EN354 - Reading and Writing Nonfiction Prose Credits: 3
EN384 - Professional Learning Experience for English Credits: 3
EN387 - Theory and Teaching of Writing Credits: 3
EN411 - Advanced Creative Writing Credits: 3

Electives 9 CR.

Complete nine additional hours from any English courses (six hours must be 300-level or above)

EN201 - Introduction to Literature Credits: 3
EN204 - Writing for Online Environments Credits: 3
EN207 - Professional and Technical Editing Credits: 3
EN221 - African-American Literature Credits: 3
EN231 - Introduction to Language Credits: 3
EN232 - Introduction to Poetry Credits: 3
EN233 - Introduction to Drama Credits: 3
EN234 - Introduction to Fiction Credits: 3
EN305 - Special Topics in Literature Credits: 3
EN306A - Scientific and Technical Writing Credits: 3
EN306B - Business Communications Credits: 3
EN306C - Writing and Research in Your Academic Field Credits: 3
EN311 - Creative Writing Credits: 3
EN315 - Knights and Ladies, Priests and Peasants Credits: 3
EN316 - Revolution and Empire: British Literature from 1660-1900 Credits: 3
EN317 - American Literature from Puritans to Abolitionists Credits: 3
EN318 - Dreams and Identities: American Literature from 1865 to Today Credits: 3
EN320 - Young Adult Literature Credits: 3
EN325 - Modern Grammar Credits: 3
EN354 - Reading and Writing Nonfiction Prose Credits: 3
EN355 - International Literature Credits: 3
EN356 - Women's Literature Credits: 3
EN384 - Professional Learning Experience for English Credits: 3
EN387 - Theory and Teaching of Writing Credits: 3
EN411 - Advanced Creative Writing Credits: 3
ML251 - Heroes and Rebels in Early European Literature Credits: 3
SP320 - U.S. Latino Cultures and Literatures Credits: 3
SP322 - Reading Cervantes' Masterpiece: Don Quixote Credits: 3
Note:

**For those students wishing to teach English: See also Bachelor of Science in Education

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 CR.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Requirements 36 cr.**

36 hours of upper division (300 - 400 level) course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student’s major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.
AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

**Modern Language Requirement**

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR201 or GE201 or SP201 or transfer equivalent

**Additional Requirements**

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Fine Art, B.A.**

**Requirements For: B.A. Major – 48 Hours, 2.5 GPA**
The goal of the Fine Art program is to provide an excellent educational experience that develops technical skills, critical and aesthetic judgment, and a sound knowledge of the visual arts appropriate to the students seeking a general appreciation of the arts as well as to aspiring fine arts professionals. The faculty engage students in the discipline of visual art as a major component in the liberal arts tradition including studio practice and art history. Students complete a common group of foundation and art history courses and then choose an emphasis area to develop a solid yet individualized program.

Students who wish to earn certification to teach K-12 Art Education can declare a double major in Education (BSE) and Fine Art (BA). BA students will need to declare a minor or may double major in another complementary area, such as Graphic Design.

**Fine Art Foundations**
- AR140 - Drawing I Credits: 3
- AR142 - Two-Dimensional Design Credits: 3
- AR143 - Three-Dimensional Design Credits: 3

**Fine Art B.A.**
- AR215 - Art History I Credits: 3
- AR216 - Art History II Credits: 3
- AR240 - Drawing II Credits: 3
- AR241 - Photography I Credits: 3
- AR280 - Painting I Credits: 3
- AR218 - Graphic Design Software Credits: 3

Select two of the following:
- AR221 - Ceramics I Credits: 3
- AR225 - Sculpture I Credits: 3
- AR270 - Fiber I Credits: 3
- AR316 - Modern Art Credits: 3
- AR497 - Senior Seminar in Fine Art Credits: 3

**Upper Level Studio Electives 9 cr.**

Select advanced 300/400 level courses in a studio focus area: Painting, Drawing, Fiber, Ceramics, Sculpture, or Photography. Independent Study, Internship, Special Topics, or Study Abroad are options to support the focus area.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:
- MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, REI09, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**
Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 CR.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Requirements 36 cr.**

36 hours of upper division (300 - 400 level) course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

**Modern Language Requirement**

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent
Intermediate Level 3 cr.

FR201 or GE201 or SP201 or transfer equivalent

Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

History, B.A.

History affords the opportunity to appreciate the diversity of human encounters through the inquiry of one's own and other's cultures and societies as they have developed over time. The study of history is a meticulous intellectual discipline involving research techniques, problem solving, and the critical evaluation of evidence. Historians seek and critique what women and men of the past have left behind, what they have created, and what imprints they have left on the global society.

Requirements for: B.A. Major - 36 Hours, 2.75 G.P.A.

Students must obtain a minimum course grade of "C" to receive credit toward the major.

- HIS400 - Internship Credits: 3
- HIS453 - Senior Writing Capstone Credits: 3
- HIS107 - Historical Thought Credits: 3

Electives - 27 cr.

Complete 27 credits of HIS coursework.

- Select 18 credits (6 courses) at the 300 level
- Select 9 credits (3 courses) at the 200 level

Liberal Education Requirements 40 CR.
Writing Seminar 6 cr.
EN105 and EN106

Math Requirement 3 cr.
Select one of the following:
MA120, MA135, or higher math course excluding MA208

FR201 or GE201 or SP201 or transfer equivalent

Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Multimedia Journalism and Public Relations, B.A.

Communication, B.A.

The Department of Communication, Journalism, Public Relations offers two related majors.

- Multimedia Journalism and Public Relations, B.A.
- Communication Studies, B.A.

These majors are designed to prepare students for success in professional fields and/or graduate study. Students do this in an environment which combines hands-on learning with great ideas. The program is
designed as an extension of the liberal arts approach of Park University because the liberal arts approach is perfect for journalism and communication education in these dynamic times. In the liberal arts environment a student learns to think, to lead, to innovate, to appreciate, to criticize and to develop a deeper sense of what it is to be a citizen of the world and the community.

Students will be actively involved in each of the professions during their academic careers. They may write, design, edit or photograph for the student newspaper, The Stylus, or hold an air shift for the student radio stations, KGSP-FM. They may be actively involved in public relations campaigns and they may become campus leaders through the Communication Connection.

Requirements For: B.A. Major – 48 Hours, 2.0 GPA

CA202 - Fundamentals of Writing for Media **Credits:** 3
CA203 - Multimedia Practicum I: Content Development **Credits:** 3
CA218 - Public Relations **Credits:** 3
CA224 - Digital Media Skills **Credits:** 3
CA241 - Photography I **Credits:** 3
CA302 - Communication Ethics and Law **Credits:** 3
CA303 - Multimedia Practicum II: Editing and Strategic Communication **Credits:** 3
CA316 - Writing and Reporting on Multiple Platforms **Credits:** 3
CA319 - Writing for Feature, Public Relations, and Documentary **Credits:** 3
CA320 - Global and Civic Reporting **Credits:** 3
CA322 - Media Analysis and Criticism **Credits:** 3
CA324 - Advanced Multimedia Production **Credits:** 3
CA326 - Editing and Design for Media and Public Relations **Credits:** 3
CA348 - Theories of Communication **Credits:** 3
CA382 - Communication Research Methods **Credits:** 3
CA403 - Multimedia Practicum III: Major Project in Journalism, Photography or Public Relations **Credits:** 3

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO235, BIO237, BIO239, BIO237L and BIO237, BIO250, BIO250, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**
Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 CR.**
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Requirements 36 cr.**

36 hours of upper division (300 - 400 level) course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

**Modern Language Requirement**

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR201 or GE201 or SP201 or transfer equivalent
Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Organizational Communication, B.A.

Requirements For: B.A. Major – 48 Hours, 2.0 gpa

The major in Organizational Communication serves a broad spectrum of professions in contemporary corporate, government, and non-profit environments. Career choices include management, training, development, human resources, consulting, or related fields.

Core Courses 42 cr.

- CA104 - Interpersonal Communication I Credits: 3
- CA200 - Interviewing Theories and Practice Credits: 3
- CA233 - Introduction to Leadership Credits: 3
- CA235 - Multicultural Communication Credits: 3
- CA301 - Interpersonal Communication II Credits: 3
- CA302 - Communication Ethics and Law Credits: 3
- CA322 - Media Analysis and Criticism Credits: 3
- CA348 - Theories of Communication Credits: 3
- CA382 - Communication Research Methods Credits: 3
- CA392 - Organizational Leadership Credits: 3
- CA402 - Organizational Communication Credits: 3
- CA451 - Communication and Leadership in Groups and Teams Credits: 3
- CA475 - Case Studies in Communication Leadership Credits: 3
- CA491 - Senior Research Project Credits: 3

Electives 6 cr.

Select six hours of communication courses

Liberal Education Requirements 40 CR.
Writing Seminar 6 cr.
EN105 and EN106

Math Requirement 3 cr.
Select one of the following:
MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.
Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, 
BIO350, BIO400, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, 
CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, 
GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, 
SW492

Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, 
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 CR.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Requirements 36 cr.

36 hours of upper division (300 - 400 level) course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student’s major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325
Modern Language Requirement

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE201; SP104 and SP201 or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR201 or GE201 or SP201 or transfer equivalent

Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Political Science, B.A.

The Bachelor's Degree in Political Science provides students with information and abilities to become participative citizens and cope with problems of modern politics. The degree also seeks to prepare well-rounded students for careers in the public sector and to prepare those who seek admission to graduate school. Analytical skills, especially critical thinking, are stressed in all courses. The Senior Thesis provides an opportunity for students to develop research skills.

Requirements For: B.A. Major - 36 Hours, 2.0 GPA
Select three of the following:

- PO201 - State and Local Government Credits: 3
- PO202 - Introduction to Law Credits: 3
- PO304 - Constitutional Law Credits: 3
- PO338 - Politics of the Developing World Credits: 3
- PO340 - Public Policy Credits: 3
- PO344 - War and Terrorism Credits: 3
- PO350 - Special Topics in Politics Credits: 3
- PO450 - Internship Credits: 3

Graduation Requirements

Student Seminar 3 CR.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Requirements 36 cr.

36 hours of upper division (300 - 400 level) coursework

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WT" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.
Modern Language Requirement

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

Elementary Level 8 cr.

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

Secondary Level 7 cr.

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

Intermediate Level 3 cr.

FR201 or GE201 or SP201 or transfer equivalent

Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
  A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106
Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206
Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Psychology, B.A.

Requirements For: B.A. Major – 39 hours, 2.0 GPA

Psychology is both a science and an applied profession. Psychology is a broad discipline that deals with behavior and mental process. Career opportunities work in counseling, personal, business, industry, research and development, advertising, college teaching, medical settings, basic research, criminal justice, and government. For those students interested in becoming licensed psychologists or professional researchers, the major is designed to prepare them for possible graduate training.

Psychology Core 24 cr.

PS101 - Introduction to Psychology Credits: 3
PS300 - Research Methods Credits: 3

PS307 - Statistics for Social Sciences Credits: 3
or
SO307 - Statistics for Social Sciences Credits: 3

PS315 - Theories of Personality Credits: 3
PS404 - History and Systems of Psychology Credits: 3
PS406 - Experimental Psychology Credits: 3 *
PS497 - Capstone Seminar Credits: 3 *

Select one of the following:

PS388 - Learning and Motivation Credits: 3
PS408 - Cognitive Psychology Credits: 3
PS423 - Physiological Psychology Credits: 3

At least five of the following electives:

PS125 - Lifespan Development Credits: 3
PS205 - Child Psychology Credits: 3
PS206 - Introduction to Guidance and Counseling Credits: 3

PS220 - Ethical Issues in Social Sciences Credits: 3
or
SO220 - Ethical Issues in Social Sciences Credits: 3

PS221 - Adolescent Psychology Credits: 3
PS222 - Adult Development and Aging Credits: 3
PS301 - Social Psychology Credits: 3
PS302 - Tests and Measurements Credits: 3
PS303 - Career Counseling and Development Credits: 3

Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 CR.**
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Requirements 36 cr.**

36 hours of upper division (300 - 400 level) course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

**Modern Language Requirement**

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR201 or GE201 or SP201 or transfer equivalent
Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Sociology, B.A.

Requirements For: B.A. Major – 39 hours, 2.0 gpa

Sociology is the study of people in groups, their interactions, identities, and the societies, institutions, and cultures they create. As a social science, it combines the scientific and humanistic perspectives to study the full range of human experience and helps us understand pressing social issues and connect them to individual human concerns. It is a valuable liberal arts major that prepares students for a variety of careers in business, government, human and social services, and social research and data analysis. It teaches students to collect, analyze, interpret, and apply valid and reliable data and explanations to personal decisions and to public and organizational policies.

Sociology Core 18 cr.

- SO141 - Introduction to Sociology Credits: 3
- SO206 - Social Issues in Contemporary Society Credits: 3
- SO310 - Sociological Research Methods Credits: 3 *
- SO307 - Statistics for Social Sciences Credits: 3
  or
- PS307 - Statistics for Social Sciences Credits: 3
- SO338 - Self and Society Credits: 3
- SO403 - Social Theory Credits: 3

Note:

*Program specified substitution for EN306* writing requirement.

Professional Seminars 3 cr.

- SO497 - Capstone Seminar Credits: 3
Electives 18 cr.

Choose any six courses from sociology with a minimum of three courses (9 cr.) at the 300-400 levels

Credits: 18

Note:

♦ Only offered online

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113
**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 CR.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Requirements 36 cr.**

36 hours of upper division (300 - 400 level) course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310
6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

**Modern Language Requirement**

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR201 or GE201 or SP201 or transfer equivalent

**Additional Requirements**

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
  A minor is required (some may be discipline specific as noted in the major).

- Satisfaction of all requirements for a major.

- Completion of the Liberal Education requirements.

- Completion of the degree specific requirements.

- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

- Submission of an Application for Graduation.
Spanish, B.A.

Requirements For: B.A. Major – 42 hours, 2.0 GPA

The Spanish Major is designed to assist students in the acquisition of this language as a tool of communication to be utilized in the local, national, and global communities. Along with the study of the Spanish language, the study of the Hispanic and indigenous cultures is an integral part of the program. The emphasis of this program is cultural studies and the development of skills for communication in the present day world. The study of literature will serve as a vehicle to a better understanding of the language and culture.

Students with two years of high school Spanish are encouraged to start their studies at the 200-level. Credit for Elementary Spanish I and II may be granted by examination, i.e. AP or "end-of-course examination." The Modern Language Placement test may be utilized for students who are uncertain about the appropriate starting point for their studies.

SP201 - Intermediate Spanish I Credits: 3
SP202 - Intermediate Spanish II Credits: 3
SP294 - Intermediate Spanish Conversation Credits: 3
SP295 - Intermediate Spanish Composition Credits: 3
SP301 - Advanced Spanish Conversation Credits: 3
SP302 - Advanced Grammar and Composition Credits: 3
SP311 - Culture and Civilization of Spain Credits: 3
SP312 - Cultures and Civilization of Spanish America and the Hispanic Caribbean Credits: 3
SP322 - Reading Cervantes’ Masterpiece: Don Quixote Credits: 3
SP394 - Introduction to the Literature of Spain Credits: 3
SP395 - Introduction to the Literatures of Spanish America and the Hispanic Caribbean Credits: 3
SP399 - The Major Capstone Project Credits: 3
(Native or near native speakers and students with a score above 300 on the Spanish Placement Test, may substitute SP201 and SP202 by taking two electives from the list below.)

Electives 6 cr.

EN355 - International Literature Credits: 3
EN324 - Modern British and European Literature Credits: 3
ML251 - Heroes and Rebels in Early European Literature Credits: 3
ML315 - Selected Topics in Literature and Culture Credits: 3
SP310 - Independent Readings in Spanish Credits: 1-3
SP320 - U.S. Latino Cultures and Literatures Credits: 3
SP384 - Professional Service Learning Experience for Spanish Credits: 3

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:
MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH345, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**
Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 CR.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Requirements 36 cr.

36 hours of upper division (300 - 400 level) course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PS315, SO141, SP320, SW325

Modern Language Requirement

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

Elementary Level 8 cr.
FR103 and FR104 or GE103 and GE104 or SP103 and SP104; or transfer equivalent

Or

Secondary Level 7 cr.

FR104 and FR201; GE104 and GE 201; SP104 and SP201 or transfer equivalent

Or

Intermediate Level 3 cr.

FR201 or GE201 or SP201 or transfer equivalent

Additional Requirements

Park University confers the Bachelor of Arts degree at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 122 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor is required (some may be discipline specific as noted in the major).
- Satisfaction of all requirements for a major.
- Completion of the Liberal Education requirements.
- Completion of the degree specific requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Fine Art, B.F.A.

Requirements For: B.F.A. Major – 75 Hours, 2.5 GPA

The goal of the Fine Art program is to provide an excellent educational experience that develops technical skills, critical and aesthetic judgment, and a sound knowledge of the visual arts appropriate to the students seeking a general appreciation of the arts as well as to aspiring fine arts professionals. The faculty engage students in the discipline of visual art as a major component in the liberal arts tradition including studio practice and art history. Students complete a common group of foundation and art history courses and then choose an emphasis area to develop a solid yet individualized program.

Students who wish to earn certification to teach K-12 Art Education can declare a double major in Education (BSE) and Fine Art (BA).

Fine Art Foundations
AR140 - Drawing I Credits: 3
AR142 - Two-Dimensional Design Credits: 3
AR143 - Three-Dimensional Design Credits: 3

Fine Art B.F.A
AR215 - Art History I Credits: 3
AR216 - Art History II Credits: 3
AR218 - Graphic Design Software Credits: 3
AR221 - Ceramics I Credits: 3
AR225 - Sculpture I Credits: 3
AR240 - Drawing II Credits: 3
AR241 - Photography I Credits: 3
AR270 - Fiber I Credits: 3
AR280 - Painting I Credits: 3
AR316 - Modern Art Credits: 3

AR317 - World Art Credits: 3
or
LE300L - World Art Credits: 3
AR490 - Senior Studio in Fine Art Credits: 3
AR497 - Senior Seminar in Fine Art Credits: 3

Upper Level Studio Electives 27 cr.

Select advanced 300/400 level courses in a studio focus area: Painting, Drawing, Fiber, Ceramics, Sculpture, or Photography. Independent Study, Internship, Special Topics, or Study Abroad are options to support the focus area.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492
Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101,
PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer
students)

Upper Division Hours 36 cr.
36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Graphic Design, B.F.A.**

**Requirements For: B.F.A. Major – 66 Hours, 2.0 GPA**

Students majoring in Graphic Design produce most of their work in the digital environment of Park University’s fully equipped Macintosh studio. Today, most artists earn a living by producing a wide range of visual materials for publication. Graphic Design students learn visual communication, typography, layout, illustration and photography while building professional quality design portfolios. Instruction models conditions in the professional environment. Internship opportunities in graphic design firms and other professional settings provide real world experience and a transition to the world beyond the campus.
Freshman Core 15 cr.

AR115 - Introduction to the Visual Arts Credits: 3
AR140 - Drawing I Credits: 3

Select 9 hours from the following:

AR313 - Independent Study in Art or Design Credits: 1-6
AR315 - Special Topics in Art or Design Credits: 1-3
AR335 - 3D Animation for Design Credits: 3
AR341 - Photography II Credits: 3
AR415 - Internship in Art or Design Credits: 3-6
CS144 - Beginning Programming with Multimedia Projects Credits: 3
MK380 - Advertising Credits: 3
   or
CA380 - Advertising Credits: 3

Portfolios

All graduating art and design majors are required to individually document (either by means of color slide photography or digital photography) selected examples of their best work. These final portfolios are to be submitted to their major advisors as part of their Senior Seminar. These slides, CDs, zip disks, etc. will remain the property of the Department of Art, Design and Interdisciplinary Studies.

Art Supplies

Art and Design majors must plan, when preparing their yearly educational budgets, to spend at least $250 per semester on art supplies. All studio art courses require varying amounts of personal equipment and
supplies. Studio fees collected at registration for some art courses provide only a portion of the supplies needed. Supply lists will be provided on the first day of classes.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:
Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student’s major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Interior Design, B.F.A.**

**Requirements For: B.F.A. Major – 78 hours, 2.5 gpa**

"The professional interior designer is qualified by education, experience and examination to enhance the function and quality of interior spaces for the purpose of improving the quality of life, increasing productivity and protecting the health, safety and welfare of the public." (Council for Interior Design Accreditation)

Students majoring in Interior Design at Park University combine the common body of knowledge in interior design with the intellectual development found in a liberal arts education. A sequence of design studios and graphic communications studios with supporting lecture courses provides the practical content integral to the profession. Park University education, combined with work experience, will enable students to sit for the National Council for Interior Design Qualifications examination and become registered interior designers.

**Freshman Core 15 cr.**

- AR115 - Introduction to the Visual Arts **Credits:** 3
- AR140 - Drawing I **Credits:** 3
- AR142 - Two-Dimensional Design **Credits:** 3
- AR143 - Three-Dimensional Design **Credits:** 3
- AR144 - Color Theory **Credits:** 3

**Interior Design Curriculum 63 cr.**

- AR218 - Graphic Design Software **Credits:** 3
- AR282 - Visual Communications I **Credits:** 3
- AR283 - Introduction to Interior Design **Credits:** 3
- AR288 - Visual Communications II **Credits:** 3
AR289 - Fundamentals of Interior Design Credits: 3
AR290 - Interior Design Materials and Resources Credits: 3
AR296 - Textiles for Interior Design Credits: 3
AR298 - History of the Designed Environment: Antiquity to Mid-Nineteenth Century Credits: 3
AR382 - Drawing Systems I Credits: 3
AR383 - Furniture Design Credits: 3
AR388 - Drawing Systems II Credits: 3
AR389 - Commercial Interiors Credits: 3
AR390 - History of the Designed Environment: Mid-Nineteenth Century to the Present Credits: 3
AR392 - Human Factors in Interior Design Credits: 3
AR393 - Lighting Fundamentals for Interior Design Credits: 3
AR491 - Interior Design Professional Practice Credits: 3
AR495 - Building Construction Systems Credits: 3
AR498 - Senior Studio I Credits: 3
AR499 - Senior Studio II Credits: 3
Art and Design Electives Credits: 6

Portfolios

All graduating interior design majors are required to individually document, using appropriate supporting methods, selected examples of their best work. These final portfolios are to be submitted to their major advisors as part of their Senior Seminar. These portfolios will remain the property of the Department of Art and Design.

Art Supplies

Interior Design majors must plan, when preparing their yearly educational budgets, to spend at least $250 per semester on art supplies. All interior design courses require varying amounts of personal equipment and supplies. Supply lists will be provided on the first day of classes.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH137L and CH137, CH18L and CH18, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206
Ethics Requirement 3 cr.
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, PR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206
*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.
Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101,
PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.
Select one of the topics for LE300*

Graduation Requirements
Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Music Performance, Piano or Orchestral Strings, B.M.

Requirements For: B.M. Major – 65 hours, 2.0 gpa
The International Center for Music fosters the artistic exchange between master teacher performers, renowned young musicians, and internationally famous musicians/teachers. This truly unique program prepares students for careers as professional soloists, chamber and orchestral musicians in a European apprenticeship style with personalized attention in a caring and supportive environment. Admission is limited to selected students who demonstrate the highest level of musical potential and a commitment to succeed. The education of emerging world-class musicians is at the philosophical core of the Center’s mission and the quality of that training crucial to great artistry. Music is an international language and enables all people to share in experiences that help shape their culture and values. By involving the highest caliber artists of our generation as educators, the International Center for Music enables our students and audiences to experience the wealth of musical literature that has impacted generations of our global society. The program makes available, to the entire campus, surrounding community, and Kansas City Metro area, concerts and recitals throughout the year as part of its annual performance series featuring students, faculty, and guest artist. The Bachelor of Music in Performance and the Undergraduate Certificate in Performance programs are designed for students studying applied piano, and orchestral strings, woodwinds, and brass. Audition required for admission

**Bachelor of Music in Performance (Applied emphasis in Piano, Violin, Viola or Cello)**

**Core Curriculum 18 cr.**

- MU221 - Music Theory I Credits: 3
- MU222 - Music Theory II Credits: 3
- MU321 - Music Theory III Credits: 3
- MU322 - Music Theory IV Credits: 3
- MU345 - Music History: Medieval, Renaissance and Baroque Credits: 3
- MU346 - Music History: Classic Credits: 3

**APPLIED (Piano) 47 cr.**

- MU120 - Chamber Music I Credits: 1 (2 semesters/2 cr. total)

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.
36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Public Administration, Criminal Justice Area Concentration, B.P.A.**

This program is part of the Air University Associates to Baccalaureate Cooperative (AU-ABC). Please review the AU-ABC website for further details.

**Public Administration, B.P.A.**

This program is part of the 4+1 Undergraduate to Graduate program options. For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.
This program meets the educational needs of persons who are interested or currently working in the field of public administration, whether at the municipal, state or federal level. The BPA provides a foundational background for those students who wish to pursue graduate studies, entry-level positions, or continued professional development.

**Requirements For: B.P.A. Major – 45 hours, 2.5 gpa**

- PO200 - American National Government **Credits: 3**
- PO201 - State and Local Government **Credits: 3**
- PA330 - Public Administration **Credits: 3**

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206
*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.
Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.
Select one of the topics for LE300*

Graduation Requirements
Student Seminar 3 cr.
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.
36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.
3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Biology, B.S.

Requirements For: B.S. Major – 68-79 hours, 2.0 GPA
The Bachelor of Science in Biology degree is designed to prepare students for post-graduate study including research based graduate study or professional training in medicine, dentistry, veterinary care, optometry, physical therapy. Depending on career interests, there are two concentrations offered: General Biology and Pre-Health Professions. The General Biology concentration provides latitude to gain training in a variety of specific areas within the field of biology while the Pre-Health Professions concentration is designed to prepare students for entry into the majority of medical (allopathic (MD) and osteopathic (DO)), dental, optometry, veterinary, and physical therapy schools.

Completion of either concentration will require students to focus on completing courses within the core curriculum in years one and two while focusing on the completion of concentration specific courses within years three and four. To complete the degree in a timely manner, students will need to seek academic advisement for assistance with selection of a concentration and with selecting courses in the correct sequence.

**Core Curriculum 56-58 cr.**

- BIO221 - Zoology Credits: 4
- BIO225 - Botany Credits: 4
- BIO325 - Introductory Molecular Cell Biology Credits: 3
- BIO327 - Introductory Ecology and Evolution Credits: 4
- BIO340 - Genetics Credits: 4
- MA160 - Precalculus for Majors Credits: 5
- PY155 - Concepts of Physics I Credits: 4
- PY156 - Concepts of Physics II Credits: 4
- or
- PY205 - Introduction to Physics I Credits: 5
- PY206 - Introduction to Physics II Credits: 5
- NS220 - Applied Statistics and Experimental Design Credits: 3
- NS302 - Current Literature in the Natural Sciences Credits: 1
- NS306 - Writing and Ethical Practices in Science Credits: 3
- NS401 - Natural Science Seminar Credits: 1
- CH107 - General Chemistry I Credits: 3
- CH107L - General Chemistry Laboratory I Credits: 1
- CH108 - General Chemistry II Credits: 3
- CH108L - General Chemistry Laboratory II Credits: 1
- CH317 - Organic Chemistry I Credits: 3
- CH317L - Organic Chemistry Laboratory I Credits: 1
- CH318 - Organic Chemistry II Credits: 3
- CH318L - Organic Chemistry Laboratory II Credits: 1

**Approved Electives**

**General Biology Concentration 12 cr.**

The general biology electives are supplemental to the core requirements and are intended to allow students the opportunity to focus on sub-disciplines within the field of biology. Students are strongly encouraged to seek academic advising to aid in career preparation, especially those interesting in post-graduate studies (M.S. or Ph.D.).

- BIO330 - Paleobiology Credits: 4
- BIO337 - Biochemistry Credits: 3
BIO337L - Biochemistry Laboratory Credits: 1
BIO350 - Microbiology Credits: 4
BIO380 - Issues in Biodiversity Credits: 3
BIO400 - Cell Biology Credits: 4
BIO410 - Comparative Anatomy Credits: 4
BIO411 - Animal Physiology Credits: 4
BIO417 - Developmental Biology Credits: 4
BIO470 - Internship Credits: 1-4
BIO490 - Advanced Topics in Biology Credits: 1-4
BIO498 - Thesis Credits: 3
BIO499 - Research Credits: 1-6

Pre-Health Professions Concentration 20 cr.

The pre-health professions concentration contains additional requirements and electives intended to aid students in their preparation for a career in a wide variety of medical fields. This program will satisfy entrance for many medical programs, but check specific requirements for your program of interest to determine if specific courses, such as Calculus, are required.

BIO337 - Biochemistry Credits: 3
BIO337L - Biochemistry Laboratory Credits: 1
BIO410 - Comparative Anatomy Credits: 4
BIO411 - Animal Physiology Credits: 4

Electives 8 cr.

Select two from the following

BIO350 - Microbiology Credits: 4
BIO400 - Cell Biology Credits: 4
BIO417 - Developmental Biology Credits: 4

Note:

A comprehensive Senior Examination is to be taken during BIO498.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.
Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.
Chemistry, B.S.

Requirements For: B.S. Major - 71 Hours, 2.0 GPA

In contemporary society, it is evident that the science of chemistry is no longer confined to the research laboratory, but is exerting a profound impact on social, political, and economic decisions at the local, national, and international levels. Chemistry is the recognized physical basis for the biological and psychological sciences and is important in every effort of our industrialized society. Students wishing to pursue a career in the chemical profession, medicine, dentistry, veterinary medicine, laboratory technology, or the environmental sciences are encouraged to consider the major program in chemistry with appropriate minors in other disciplines for their preparatory work.

The Department of Natural and Physical Sciences welcomes partnerships with appropriate businesses and government agencies to place students into internship positions in their major or a related field. The Department of Natural and Physical Sciences actively encourages students to work in such internship positions and considers internships to be an integral part of the curriculum.

CH107 - General Chemistry I **Credits:** 3  
CH107L - General Chemistry Laboratory I **Credits:** 1  
CH108 - General Chemistry II **Credits:** 3  
CH108L - General Chemistry Laboratory II **Credits:** 1  
CH317 - Organic Chemistry I **Credits:** 3  
CH317L - Organic Chemistry Laboratory I **Credits:** 1  
CH318 - Organic Chemistry II **Credits:** 3  
CH318L - Organic Chemistry Laboratory II **Credits:** 1  
CH328 - Analytical Chemistry **Credits:** 4  
CH329 - Introduction to Instrumental Analysis **Credits:** 4  
CH342 - Advanced Inorganic Chemistry **Credits:** 4  
CH407 - Physical Chemistry I **Credits:** 4  
CH408 - Physical Chemistry II **Credits:** 4  
MA221 - Calculus and Analytic Geometry for Majors I **Credits:** 5  
MA222 - Calculus and Analytic Geometry for Majors II **Credits:** 5  
MA223 - Calculus and Analytic Geometry for Majors III **Credits:** 3  
NS302 - Current Literature in the Natural Sciences **Credits:** 1  
NS401 - Natural Science Seminar **Credits:** 1  
PY205 - Introduction to Physics I **Credits:** 5  
PY206 - Introduction to Physics II **Credits:** 5

**Electives selected from the following:** 10 cr.

CH321 - Introduction to Medicinal Chemistry **Credits:** 3  
CH337 - Biochemistry **Credits:** 3  
CH337L - Biochemistry Laboratory **Credits:** 1  
CH400 - Special Topics in Chemistry **Credits:** 1-4  
CH429 - Advanced Analytical Chemistry **Credits:** 4  
CH440 - Organic Synthesis **Credits:** 4  
CH451 - Internship to Chemistry **Credits:** 1-6  
CH490 - Research in Chemistry **Credits:** 1-6

**Note:**

PASSING A WRITTEN COMPREHENSIVE EXAMINATION IS REQUIRED.
B.S.E. in Secondary Education – MAJOR 48-50 Hours
2.75 Cum G.P.A.
2.75 Core G.P.A.

**For those students wishing to obtain a secondary teaching certificate in Chemistry, see also Bachelor of Science in Education.**

***For those student interested in an engineering degree in addition to a chemistry degree, see also Dual Degree Engineering.***

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BI350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**
Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, PR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WT" (Writing Intensive), composed as follows:
3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Construction Management, B.S.

Requirements For: B.S. Major – 63 Hours, 2.0 GPA

This degree program combines the principles of business management with the skills needed by construction managers. Students are prepared for careers in Construction Management, Project Management, and Building Inspection, among others. Topics include planning and scheduling, budgeting, organizing, supervising, safety, law, materials, methods, and plans analysis.

Business Core 39 cr.

- AC201 - Principles of Financial Accounting Credits: 3
- AC202 - Principles of Managerial Accounting Credits: 3
- EC141 - Principles of Macroeconomics Credits: 3
- EC142 - Principles of Microeconomics Credits: 3
- FI360 - Financial Management Credits: 3
- IB315 - International Business Perspectives Credits: 3
- IS141 - Applied Computer Technology for Business Credits: 3
- MA171 - Finite Mathematics Credits: 3
- MG260 - Business Law I Credits: 3
- MG315 - Advanced Business Statistics Credits: 3
- MG371 - Management and Organizational Behavior Credits: 3
- MG495 - Business Policy Credits: 3
- MK351 - Principles of Marketing Credits: 3

Construction Management Requirements 18 CR.
CO111 - Introduction to Engineering Construction Technology/Design/Materials and Safety **Credits:** 3
CO121 - Plans Analysis **Credits:** 3
CO235 - Construction Planning **Credits:** 3
CO320 - Mechanical and Electrical Systems for Construction Managers **Credits:** 3
CO360 - Project Management/Critical Path Analysis **Credits:** 3
CO365 - Construction Project Management **Credits:** 3

**Select two of the following: 6 cr.**

At least one course must be 300-400 level.

- CO225 - Building Codes **Credits:** 3
- CO245 - Construction Estimating **Credits:** 3
- CO315 - Special Topics in Construction Management **Credits:** 3
- CO420 - Commercial Construction **Credits:** 3
- CO430 - Environmental Technology **Credits:** 3
- CO440 - Management of Heavy Construction Equipment **Credits:** 3
- CO450 - Construction Management Internship **Credits:** 3
- MG375 - Production and Operations Management **Credits:** 3
- MG450 - Project Management **Credits:** 3

**Note:**

For all majors within the Robert W. Plaster School of Business, MG306 is a required course and meets the requirements for EN306B.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

- MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

- BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

- AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492
Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206
*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.
Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101,
PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.
Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer
students)

Upper Division Hours 36 cr.
36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Criminal Justice Administration, Corrections Concentration, B.S.**

**Criminal Justice Administration, B.S.**

The major in Criminal Justice Administration is designed to provide a comprehensive understanding of the complete criminal justice system within society in the United States. There are three areas of concentration the student can choose from which to build on the core curriculum: Law Enforcement, Corrections, and Security. Providing a comprehensive understanding from a theoretical, philosophical, and practical perspective, the program provides a broad background for over 40 basic career opportunities in the criminal justice system, both in the public and private sectors, at the local, state, national, and international levels.
Requirements for: B.S. Major – 45 Hours, 2.0 GPA

Core Curriculum 24 cr.

CJ100 - Introduction to Criminal Justice Administration Credits: 3
CJ105 - Criminal Law Credits: 3
CJ200 - Criminology Credits: 3
CJ221 - Criminal Procedure Credits: 3
CJ300 - Agency Administration Credits: 3
CJ430 - Research in Criminal Justice Credits: 3

CJ440 - Internship in Criminal Justice Credits: 3-6
or
CJ441 - Senior Writing Project Credits: 3

CJ450 - Senior Seminar in Criminal Justice Credits: 3

Criminal Justice Electives 12 cr.

From Criminal Justice courses not in the Core or the Areas of Concentration:

one 200-level course
two 300/400-level courses
one 400-level course

Concentrations

(One of the following)

Law Enforcement
Corrections
Security

Corrections 9 cr.

CJ231 - Introduction to Law Enforcement Credits: 3
or
CJ233 - Introduction to Security Credits: 3

CJ232 - Introduction to Corrections Credits: 3
CJ322 - Probation, Parole, and Community Corrections Credits: 3

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:
MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.
Select one of the following:
BI111, BI121, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, 
BIO350, BIO400, BIO410, BIO411, CH101, CH105, CH107L and CH107, CH108L and CH108, 
CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, 
GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, 
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP205, GO125, GO130, 
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.
Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

**Criminal Justice Administration, Law Enforcement Concentration, B.S.**

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Cybersecurity, B.S.

Requirements For: B.S. Major – 57 Hours, 2.0 GPA
The Cybersecurity Program prepares students for a career focused on countering the rising threats to the security of information and assuring the reliability of computing systems. Cybersecurity graduates will be prepared for earning a variety of professional certifications relevant to cybersecurity and for entering a variety of industry positions including security analyst / consultant, software developer, system administrator, database administrator, network administrator, risk manager, and project manager.

The Computer Science and Information Systems (CSIS) Department works with Park University’s Career Development Center in helping to place students in cybersecurity and other computing internship positions. The CSIS Department actively encourages students to work in such internship positions and considers internships to be an integral part of the cybersecurity curriculum.

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**
Select one of the following:

BI214, CH101, CH102, CH105, CH107, CH107L, CH108, CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDUC10, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDUC300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CSCI300, EDUC310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325
Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Dual Degrees: Chemistry & Engineering, B.S.

Requirements For: B.S. Major – 87 Hours, 2.0 gpa

Park’s dual degree engineering program offers the unique opportunity for students to complete two bachelor degrees in a 3 year +2 year format. Upon completing the program, Park University will confer a Bachelor of Science degree in either Math or Chemistry and the partner school (UMKC) will grant an EAC of ABET accredited Civil or Mechanical Engineering degree. This program insures that the student can pursue multiple avenues of STEM related career paths, while participating in the coveted private school, low student to faculty ratio environment for which Park is known.

- CH107 - General Chemistry I Credits: 3
- CH107L - General Chemistry Laboratory I Credits: 1
- CH108 - General Chemistry II Credits: 3
- CH108L - General Chemistry Laboratory II Credits: 1
- CH317 - Organic Chemistry I Credits: 3
- CH317L - Organic Chemistry Laboratory I Credits: 1
- CH318 - Organic Chemistry II Credits: 3
- CH318L - Organic Chemistry Laboratory II Credits: 1
- CH328 - Analytical Chemistry Credits: 4
- CH329 - Introduction to Instrumental Analysis Credits: 4
- CH342 - Advanced Inorganic Chemistry Credits: 4
- CH407 - Physical Chemistry I Credits: 4
- CH408 - Physical Chemistry II Credits: 4
- CH490 - Research in Chemistry Credits: 1-6
- MA221 - Calculus and Analytic Geometry for Majors I Credits: 5
- MA222 - Calculus and Analytic Geometry for Majors II Credits: 5
- MA223 - Calculus and Analytic Geometry for Majors III Credits: 3
- MA302 - Ordinary Differential Equations Credits: 3
- NS302 - Current Literature in the Natural Sciences Credits: 1
- NS306 - Writing and Ethical Practices in Science Credits: 3
- NS401 - Natural Science Seminar Credits: 1
- PY205 - Introduction to Physics I Credits: 5
- PY206 - Introduction to Physics II Credits: 5
- PY275 - Engineering Statics Credits: 3
- AR382 - Drawing Systems I Credits: 3
Electives 10 cr.

10 Elective hours will transfer back from the partner university to complete Park University chemistry degree requirements

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH339, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student’s major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Dual Degrees: Mathematics & Engineering, B.S.

Requirements For: B.S. Major – 79 Hours, 2.0 gpa

Park's dual degree engineering program offers the unique opportunity for students to complete two bachelor degrees in a 3 year +2 year format. Upon completing the program, Park University will confer a Bachelor of Science degree in either Math or Chemistry and the partner school (UMKC) will grant an EAC of ABET accredited Civil or Mechanical Engineering degree. This program insures that the student can pursue multiple avenues of STEM related career paths, while participating in the coveted private school, low student to faculty ratio environment for which Park is known.

MA221 - Calculus and Analytic Geometry for Majors I Credits: 5
MA222 - Calculus and Analytic Geometry for Majors II Credits: 5
MA223 - Calculus and Analytic Geometry for Majors III Credits: 3
MA301 - Mathematical Thought Credits: 3
MA302 - Ordinary Differential Equations Credits: 3
MA311 - Linear Algebra Credits: 3
MA312 - Abstract Algebraic Structures Credits: 3
MA401 - Analysis Credits: 3
CH107 - General Chemistry I Credits: 3
CH107L - General Chemistry Laboratory I Credits: 1
CH108 - General Chemistry II Credits: 3
CH108L - General Chemistry Laboratory II Credits: 1
PY205 - Introduction to Physics I Credits: 5
PY206 - Introduction to Physics II Credits: 5
PY275 - Engineering Statics Credits: 3
AR382 - Drawing Systems I Credits: 3

At least four courses of the following 12 cr.
MA305 - Probability Credits: 3
MA350 - History of Mathematics Credits: 3
MA360 - Modern Geometries Credits: 3
MA370 - Number Theory Credits: 3
MA380 - Mathematical Statistics Credits: 3
MA402 - Topology Credits: 3
MA406 - Special Topics in Mathematics Credits: 1-3

Electives 9 cr.

9 Elective hours will transfer back from the partner university to complete Park University degree requirements

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310
6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student’s major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student’s major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student’s major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Geography, B.S.**

This program is part of the Air University Associates to Baccalaureate Cooperative (AU-ABC). Please review the AU-ABC website for further details.

**Requirements For: B.S. Major – 34-40 Hours, 2.0 GPA**

The skills obtained by studying geography make graduates in demand for a wide range of employment opportunities. The geography curriculum will prepare students for business and academics while encouraging life long learning skills. The link between geography and the world (cultural and physical) makes a varied list of careers. Geographic skills are essential to understanding physical patterns, human patterns, and Earth's processes. These skills are important for anyone critically thinking about the global community. The Department of Natural and Physical Sciences welcomes partnerships with appropriate businesses and government agencies to place students into internship positions in their major or a related field. The Department of Natural and Physical Sciences actively encourages students to work in such internship positions and considers internships to be an integral part of the curriculum.

**Core Curriculum 16 cr.**

- GGH110 - Cultural Geography **Credits:** 3
- GGH200 - Geography of North America **Credits:** 3
GGP115 - Physical Geography **Credits:** 4  
GGP120 - Global Sustainability **Credits:** 3  
GGP350 - GIS I **Credits:** 3

**Major Electives: 18-24 cr.**

At least six courses designated as GGH, GGP or GO; three courses (9 credits) must be 300-level or above

**Required Minor: 18-24 cr.**

Any of the minors offered by the university or successful completion of a second major.

*Only one course (3 credits) completed for the major requirements may also be counted as satisfying part of the minor requirements.*

**Capstone Assessment:**

A capstone assessment is required to be completed during the first half of the final semester/term of coursework. The capstone assessment relates directly to the content of the program's five core required courses and is designed to evaluate our graduating students' abilities in regard to the program competencies. Students must contact the Geography Program Coordinator at the beginning of their final semester/term in order to make arrangements for completing this requirement.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492
Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.
36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Healthcare Administration, General B.S.**

**Healthcare Administration, B.S.**

The healthcare administration major is designed to prepare students for entry level positions within healthcare and related industries and to provide the foundational competencies necessary to academically excel in graduate school. The curriculum stresses the development of the soft management skills and is designed to give the students practical knowledge, skills, and the ability to perform in variety of healthcare administration functions with a multitude of business structures and industries. Graduates in healthcare administration typically find jobs in hospitals, healthcare systems, outpatient care centers, group physician practices, clinics, private health insurance companies, federal and state health insurance providers, governmental public health agencies, long-term care facilities, home health organizations, pharmacies,
medical equipment manufacturers, healthcare marketing agencies, healthcare research organizations, and rehabilitation centers. A number of students with this major move into graduate study of healthcare administration.

**Requirements For: B.S. Major - 63-69 Hours, 2.0 GPA**

**Healthcare Administration Core 36 CR.**

- HC251 - Healthcare Accounting and Billing **Credits:** 3
- HC252 - US Healthcare Delivery Systems **Credits:** 3
- HC261 - Legal and Ethical Issues in Healthcare Delivery **Credits:** 3
- HC262 - Introduction to Statistics in Healthcare Administration **Credits:** 3
- HC263 - Introduction to Healthcare Economics and Policy **Credits:** 3
- HC351 - Organization and Administration of Healthcare Programs **Credits:** 3
- HC352 - Business Communications in Healthcare Administration **Credits:** 3
- HC353 - Basic Healthcare Administration Budgeting and Finance **Credits:** 3
- HC354 - Healthcare Information Technology **Credits:** 3
- HC355 - Introduction to Healthcare Organizational Behavior and Management **Credits:** 3
- HC356 - Introduction to Healthcare Human Resources Management **Credits:** 3
- HC491 - Senior Seminar in Healthcare Management **Credits:** 3

**Additional Required Support Courses Outside Major 6-9 CR**

- IS141 - Applied Computer Technology for Business **Credits:** 3
- MA171 - Finite Mathematics **Credits:** 3
- MA125 or an acceptable score on the ACT/SAT or math placement exam is required in order to register for MA171. Students who have not met the minimum score on the placement exam or ACT/SAT exam are required to complete MA125. **Credits:** 3

**Concentrations**

All students complete all core courses to provide a curricular foundation. The general BSHA program offers the flexibility to tailor electives to the student’s professional interests. Ample formal concentration choices allow for a chosen focus, include finance, human resources management, logistics, and project management. Students may choose from one of the available concentrations or complete 21 hours of Healthcare Administration electives.

Concentrations include:

- General
- Human Resource Management
- Logistics
- Project Management

**Healthcare Administration Electives 21 CR.**

Select 7 of the following courses:

- AC380 - Cost Accounting **Credits:** 3
- EC141 - Principles of Macroeconomics **Credits:** 3

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**
Select one of the following:

BI101, BI111, BI212, BI223, BI0221, BI0225, BI0325, BI0327, BI0330, BI0337L and BI0337, BI0350, BI0400, BI0410, BI0411, BI0417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205
Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.

Satisfaction of all requirements for a major.

Completion of degree specific requirements.

Completion of Liberal Education requirements.

Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

**Healthcare Administration, Human Resource Management Concentration, B.S.**

Healthcare Administration, Human Resource Management Concentration, B.S. Locations

**Healthcare Administration, B.S.**

The healthcare administration major is designed to prepare students for entry level positions within healthcare and related industries and to provide the foundational competencies necessary to academically excel in graduate school. The curriculum stresses the development of the soft management skills and is designed to give the students practical knowledge, skills, and the ability to perform in a variety of healthcare administration functions with a multitude of business structures and industries. Graduates in healthcare administration typically find jobs in hospitals, healthcare systems, outpatient care centers, group physician practices, clinics, private health insurance companies, federal and state health insurance providers, governmental public health agencies, long-term care facilities, home health organizations, pharmacies, medical equipment manufacturers, healthcare marketing agencies, healthcare research organizations, and rehabilitation centers. A number of students with this major move into graduate study of healthcare administration.

**Requirements For: B.S. Major - 63-69 Hours, 2.0 GPA**

**Healthcare Administration Core 36 CR.**

- HC251 - Healthcare Accounting and Billing Credits: 3
- HC252 - US Healthcare Delivery Systems Credits: 3
- HC261 - Legal and Ethical Issues in Healthcare Delivery Credits: 3
- HC262 - Introduction to Statistics in Healthcare Administration Credits: 3
- HC263 - Introduction to Healthcare Economics and Policy Credits: 3
- HC351 - Organization and Administration of Healthcare Programs Credits: 3
- HC352 - Business Communications in Healthcare Administration Credits: 3
- HC353 - Basic Healthcare Administration Budgeting and Finance Credits: 3
- HC354 - Healthcare Information Technology Credits: 3
- HC355 - Introduction to Healthcare Organizational Behavior and Management Credits: 3
- HC356 - Introduction to Healthcare Human Resources Management Credits: 3
- HC491 - Senior Seminar in Healthcare Management Credits: 3

**Additional Required Support Courses Outside Major 6-9 CR**

- IS141 - Applied Computer Technology for Business Credits: 3
- MA171 - Finite Mathematics Credits: 3
- MA125 or an acceptable score on the ACT/SAT or math placement exam is required in order to register for MA171. Students who have not met the minimum score on the placement exam or ACT/SAT exam are required to complete MA125. Credits: 3

**Concentrations**

All students complete all core courses to provide a curricular foundation. The general BSHA program offers the flexibility to tailor electives to the student’s professional interests. Ample formal concentration choices
allow for a chosen focus, include finance, human resources management, logistics, and project management. Students may choose from one of the available concentrations or complete 21 hours of Healthcare Administration electives.

Concentrations include:

General

Human Resource Management

Logistics

Project Management

**Human Resource Management 24 CR.**

This program focuses on the study of organizations and the use of personnel as a primary institutional resource. Emphasis is placed on a behavioral science/management approach in which the understanding of individual behavior and group processes is combined with the techniques of the management of personnel within an organization. This interdisciplinary approach draws from the fields of Management, Social Psychology, and Organization Behavior to create the skills in interpersonal and intergroup relations.

- HR353 - Introduction to Human Resource Management **Credits:** 3
- HR355 - Planning and Staffing **Credits:** 3
- HR357 - Employment Law **Credits:** 3
- HR434 - Compensation Management **Credits:** 3
- HR491 - Senior Seminar in Human Resource Development **Credits:** 3

**Business Electives 9 CR.**

Choice of 3 business electives at the 300-400 level with no more than 2 classes from the same program with the exception of Human Resource Management, and to include

- IS310 Business Applications **Credits:** 3

Healthcare Administration, Project Management Concentration, B.S.
Healthcare Administration, B.S.

The healthcare administration major is designed to prepare students for entry level positions within healthcare and related industries and to provide the foundational competencies necessary to academically excel in graduate school. The curriculum stresses the development of the soft management skills and is designed to give the students practical knowledge, skills, and the ability to perform in variety of healthcare administration functions with a multitude of business structures and industries. Graduates in healthcare administration typically find jobs in hospitals, healthcare systems, outpatient care centers, group physician practices, clinics, private health insurance companies, federal and state health insurance providers, governmental public health agencies, long-term care facilities, home health organizations, pharmacies, medical equipment manufacturers, healthcare marketing agencies, healthcare research organizations, and rehabilitation centers. A number of students with this major move into graduate study of healthcare administration.

Requirements For: B.S. Major - 63-69 Hours, 2.0 GPA

Healthcare Administration Core 36 CR.

- HC251 - Healthcare Accounting and Billing Credits: 3
- HC252 - US Healthcare Delivery Systems Credits: 3
- HC261 - Legal and Ethical Issues in Healthcare Delivery Credits: 3
- HC262 - Introduction to Statistics in Healthcare Administration Credits: 3
- HC263 - Introduction to Healthcare Economics and Policy Credits: 3
- HC351 - Organization and Administration of Healthcare Programs Credits: 3
- HC352 - Business Communications in Healthcare Administration Credits: 3
- HC353 - Basic Healthcare Administration Budgeting and Finance Credits: 3
- HC354 - Healthcare Information Technology Credits: 3
- HC355 - Introduction to Healthcare Organizational Behavior and Management Credits: 3
- HC356 - Introduction to Healthcare Human Resources Management Credits: 3
- HC491 - Senior Seminar in Healthcare Management Credits: 3

Additional Required Support Courses Outside Major 6-9 CR

- IS141 - Applied Computer Technology for Business Credits: 3
- MA171 - Finite Mathematics Credits: 3
- MA125 or an acceptable score on the ACT/SAT or math placement exam is required in order to register for MA171. Students who have not met the minimum score on the placement exam or ACT/SAT exam are required to complete MA125. Credits: 3

Concentrations

All students complete all core courses to provide a curricular foundation. The general BSHA program offers the flexibility to tailor electives to the student’s professional interests. Ample formal concentration choices allow for a chosen focus, include finance, human resources management, logistics, and project management. Students may choose from one of the available concentrations or complete 21 hours of Healthcare Administration electives.

Concentrations include:

- General
- Human Resource Management
Logistics

Project Management

**Project Management 21 CR.**

The Project Management concentration will help students become proficient in the skills and processes essential to project management and prepare them to sit for the Project Management Certification Exam. Project Managers are skilled professionals tasked with the job of making sure that a project is completed well, on budget and on time.

- AC380 - Cost Accounting **Credits:** 3
- FI415 - Financial Analysis and Planning **Credits:** 3
- HR353 - Introduction to Human Resource Management **Credits:** 3
- HR422 - Organizational Development and Change **Credits:** 3
- MG401 - Senior Seminar in Management **Credits:** 3
- MG375 - Production and Operations Management **Credits:** 3
- MG450 - Project Management **Credits:** 3

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

- MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

- BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337 and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

- AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:
CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**
3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student’s major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student’s major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student’s major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.

Satisfaction of all requirements for a major.

Completion of degree specific requirements.

Completion of Liberal Education requirements.

Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

Submission of an Application for Graduation.

Information and Computer Science, Computer Science Concentration, B.S.

Information and Computer Science, B.S.

The Information and Computer Science (ICS) curriculum prepares students for a broad range of computer opportunities in industry as well as in graduate studies. ICS students choose one or more specialty areas from among these options: Computer Science, Information Technology, Networking and Security, Software Development and Web Development. As part of their curriculum, Networking and Security students take Cisco Certified Network Associate (CCNA) courses that prepare them for the CCNA certification exam. Depending on their chosen specialty area, ICS graduates are well prepared for these industry positions: applications programmer, systems analyst, information technology specialist, database analyst, network analyst, web developer, software engineer, and cybersecurity specialist.

The Computer Science and Information Systems (CSIS) Department works with Park University’s Career Development Center in helping to place students in computer internship positions. The CSIS Department
actively encourages students to work in such internship positions and considers internships to be an integral part of the ICS curriculum.

**Requirements For: B.S. Major – 46-58 hours, 2.0 gpa**

**Core Curriculum 21 cr.**

- CS152 - Introduction to Python Programming **Credits:** 3
- CS208 - Discrete Mathematics **Credits:** 3
- CS300 - Technology in a Global Society **Credits:** 3
- CS365A - Computer Networking I **Credits:** 3
- IS205 - Managing Information Systems **Credits:** 3
- IS361 - Data Management Concepts **Credits:** 3
- MA120 - Basic Concepts of Statistics **Credits:** 3

**Concentrations**

(One of the following)

- Computer Science Concentration
- Information Technology Concentration
- Networking and Security Concentration
- Software Development Concentration
- Web Development Concentration

**Computer Science Concentration 36-37 cr.**

- CS202 - Secure Programming **Credits:** 3
- CS252 - Object-Oriented Programming **Credits:** 3
- CS319 - Computer Architecture **Credits:** 3
- CS335 - Introduction to Cybersecurity **Credits:** 3
- CS351 - Computer Operating Systems **Credits:** 3
- CS352 - Data Structures **Credits:** 3
- IS 362 or any CS course 300/400 level not required by this speciality area or core. **Credits:** 6

Choose one of the following mathematics sequences:

**Sequence One**

- MA160 - Precalculus for Majors **Credits:** 5
- MA221 - Calculus and Analytic Geometry for Majors I **Credits:** 5
- MA311 - Linear Algebra **Credits:** 3

**Sequence Two**

- MA150 - Precalculus Mathematics **Credits:** 3
- MA210 - Calculus and Analytic Geometry I **Credits:** 3
- MA211 - Calculus and Analytic Geometry II **Credits:** 3
- MA311 - Linear Algebra **Credits:** 3

**Liberal Education Requirements 40 CR.**
Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325
Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

  CS372 - Advanced Networking Credits: 3
  CS375 - Secure Operation Credits: 3

Electives 6 cr.

Select any CS/IS course at the 300-400 level that is not required by this specialty area or core.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206
Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107l, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements
Student Seminar 3 cr.
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.
36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.
3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements
Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Information and Computer Science, Software Development Concentration, B.S.
Information and Computer Science, B.S.

The Information and Computer Science (ICS) curriculum prepares students for a broad range of computer opportunities in industry as well as in graduate studies. ICS students choose one or more specialty areas from among these options: Computer Science, Information Technology, Networking and Security, Software Development and Web Development. As part of their curriculum, Networking and Security students take Cisco Certified Network Associate (CCNA) courses that prepare them for the CCNA certification exam. Depending on their chosen specialty area, ICS graduates are well prepared for these industry positions: applications programmer, systems analyst, information technology specialist, database analyst, network analyst, web developer, software engineer, and cybersecurity specialist.

The Computer Science and Information Systems (CSIS) Department works with Park University’s Career Development Center in helping to place students in computer internship positions. The CSIS Department actively encourages students to work in such internship positions and considers internships to be an integral part of the ICS curriculum.

Requirements For: B.S. Major – 46-58 hours, 2.0 gpa

Core Curriculum 21 cr.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:
Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101,
PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Information Systems, B.S.**

This program is part of the Air University Associates to Baccalaureate Cooperative (AU-ABC). Please review the AU-ABC website for further details.

**Requirements For: B.S. Major – 39 hours, 2.0 gpa**
No organization, large or small can survive without support for data processing, analysis, and management. The number of information systems jobs available in business, government, and non-profit sections continues to increase for this reason. The Information Systems major prepares students for careers in programming, product analysis, and management of computer information systems. The major allows students the freedom and flexibility to select a complementary minor reflecting their individual interests.

The Computer Science and Information Systems (CSIS) Department works with Park’s Career Development Center in helping to place students in computer internship positions. The CSIS Department actively encourages students to work in such internship positions and considers internships to be an integral part of the curriculum.

- **CS140 - Introduction to Computers**  
  Credits: 3
- **CS152 - Introduction to Python Programming**  
  Credits: 3
- **CS208 - Discrete Mathematics**  
  Credits: 3
- **CS240 - Web Programming I**  
  Credits: 3
- **CS300 - Technology in a Global Society**  
  Credits: 3
- **CS365A - Computer Networking I**  
  Credits: 3
- **IS205 - Managing Information Systems**  
  Credits: 3
- **IS310 - Business Applications**  
  Credits: 3
- **IS315 - Computer Systems Analysis and Design I**  
  Credits: 3
- **IS316 - Computer Systems Analysis and Design II**  
  Credits: 3
- **IS361 - Data Management Concepts**  
  Credits: 3
- **IS370 - Information Security**  
  Credits: 3
- **MA120 - Basic Concepts of Statistics**  
  Credits: 3

**Required Minor – 18 - 21 hours**

In consultation with their advisor, students may select any minor.

Students may also use any second major to satisfy the minor requirement, except Information and Computer Science, Computer Science Concentration, B.S., Information and Computer Science, Information Technology Concentration, B.S., Information and Computer Science, Networking and Security Concentration, B.S., Information and Computer Science, Software Development Concentration, B.S., and Information and Computer Science, Web Development Concentration, B.S. for the same reason.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**
Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.

Satisfaction of all requirements for a major.

Completion of degree specific requirements.

Completion of Liberal Education requirements.

Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

Submission of an Application for Graduation.
Interdisciplinary Studies, B.S.

This program is part of the Air University Associates to Baccalaureate Cooperative (AU-ABC). Please review the AU-ABC website for further details.

Requirements For: B.S. Major – 42-45 hours, 2.0 gpa

The Interdisciplinary Studies major allows the student to develop a major by combining two different disciplines. For the purpose of declaring a program of study, different disciplines are defined as the combination of offerings from two different major schools or departments. This affords students the flexibility to design their own degree while making an efficient use of courses they have accumulated. It requires the combination of two minor degrees of study: one that is listed in the catalog and another one either listed in the catalog or a Personal Body of Knowledge constructed by the student out of a set of courses.

Core Requirement:

Minor One - one minor as described in the University catalog **Credits: 18-21**

Minor Two - one minor as described in the University catalog **Credits: 18**

or

A personal minor field of study constructed by the student and approved by both the Program Coordinator of Interdisciplinary Studies AND Chair of the Department or Associate Dean of the School/College most closely associated with the content of that field. Students wanting to complete a personal field of study as part of their Interdisciplinary Studies degree should send a list of the courses they have completed/will complete towards the personal field of study and supply a justification for it to the Program Coordinator, who will evaluate the personal field of study and forward it to the Chair/Associate Dean whose Department/School most closely matches the field of study. The Program Coordinator and Chair/Associate Dean will either (1) approve, (2) disapprove, or (3) require additional courses. **Credits: 18**

LE310 - Introduction to Interdisciplinary Studies **Credits: 3**

LE400 - Senior Project in Interdisciplinary Studies **Credits: 3**

or

LE410 - Advanced Interdisciplinary Research **Credits: 3**

Program Competencies:

The student with integrative and interdisciplinary thinking will possess the ability to make connections across courses and connect coursework to his/her academic, professional, and civic lives. The student will be able to consider problems from several different perspectives and develop and test his/her holistic understanding of an issue, evaluate how various disciplines would conceive of solutions, and relate his/her learning to issues outside of academia.

Demonstrate an understanding of disciplinary content in its own context and in relationship to the issues, questions, and positions of at least one other discipline.

Compare and contrast points of view and scholarly materials coming from different disciplines, in formulating a new thesis or position.

Synthesize diverse perspectives derived from coursework and other professional experience to achieve an interdisciplinary understanding of an issue or problem.
Explain and evaluate methodological approaches and theoretical foundations of at least two disciplines, as they pertain to dealing with real-world problems or issues. Use professional experiences and academic coursework to attain professional employment.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:
Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107, CH107L, CH108, CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student’s major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Management, B.S.

Requirements For: B.S. Major 57 Hours, 2.0 GPA

Students taking the Management major receive a broad education covering the major functional areas of Management. This degree will help a student prepare for business or government leadership and provide him/her with knowledge and skills desired by all types of employers.

Business Core 39 CR.

- AC201 - Principles of Financial Accounting Credits: 3
- AC202 - Principles of Managerial Accounting Credits: 3
- IB315 - International Business Perspectives Credits: 3
- IS141 - Applied Computer Technology for Business Credits: 3
- EC141 - Principles of Macroeconomics Credits: 3
- EC142 - Principles of Microeconomics Credits: 3
- FI360 - Financial Management Credits: 3
- MA171 - Finite Mathematics Credits: 3
- MG260 - Business Law I Credits: 3
- MG315 - Advanced Business Statistics Credits: 3
- MG371 - Management and Organizational Behavior Credits: 3
- MG495 - Business Policy Credits: 3
- MK351 - Principles of Marketing Credits: 3

Management 18 CR.

- HR353 - Introduction to Human Resource Management Credits: 3
- MG375 - Production and Operations Management Credits: 3
Electives

Select 3 courses at the 300-400 level from any Business Program with no 2 courses taken from the same concentration with the exception of Management; and to include IS310 Business Applications

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, CR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101,
PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer
students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of
Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300,
PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses
designated in the catalog as "WI" (Writing Intensive), composed as follows:
3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Mathematics, B.S.

Requirements For: B.S. Major – 40 hours, 2.0 gpa

Mathematics is both a body of knowledge concerning a class of symbols and the relation between them, as a system of thought and communication, as well as the application of that system to other areas of human experience. As a system of thought, it derives from philosophy and provides a language, which has particular beauty and clarity. Applied to other areas of human experience mathematics has provided great power and precision to a wide range of endeavors, and thereby has supplied an essential contribution to the rise of modern civilization. The study of mathematics prepares students for graduate studies in mathematics, related sciences, economics and business administration. Other options include beginning actuarial work, teaching at the secondary level and beginning work in the area of data processing. Third and fourth year MA courses will be determined in consultation with the student's advisor.

Core Curriculum 31 cr.

- MA221 - Calculus and Analytic Geometry for Majors I Credits: 5
- MA222 - Calculus and Analytic Geometry for Majors II Credits: 5
- MA223 - Calculus and Analytic Geometry for Majors III Credits: 3
- MA301 - Mathematical Thought Credits: 3
- MA302 - Ordinary Differential Equations Credits: 3
- MA311 - Linear Algebra Credits: 3
- MA312 - Abstract Algebraic Structures Credits: 3
- MA401 - Analysis Credits: 3

At least four courses of the following: 12 cr.
MA305 - Probability Credits: 3
MA350 - History of Mathematics Credits: 3
MA360 - Modern Geometries Credits: 3
MA370 - Number Theory Credits: 3
MA380 - Mathematical Statistics Credits: 3
MA402 - Topology Credits: 3
MA406 - Special Topics in Mathematics Credits: 1-3

Note:

**For those students wishing to teach Mathematics See also Bachelor of Science in Education

Secondary Education, Mathematics Concentration, B.S.E. – MAJOR 48-50 Hours

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.

Satisfaction of all requirements for a major.

Completion of degree specific requirements.

Completion of Liberal Education requirements.

Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.

Submission of an Application for Graduation.

**Military History, B.S.**

**Requirements For: B.S. Major – 36 hours, 2.75 GPA**

Park University's Mission and Vision statement includes access to academic excellence to prepare students to think critically, communicate effectively, and engage in lifelong learning while serving in a global community. The military history degree will provide students access to academic excellence through the study of military aspects of History.

- Synthesize interdisciplinary content as it relates to Military History
- Compare and contrast disparate scholarly views of Military History
- Analyze interdisciplinary theory related to Military History
- Integrate Military History into the larger historical backdrop

**HIS108 - Introduction to Military History** **Credits:** 3

**HIS241 - Ancient Warfare** **Credits:** 3

**HIS242 - Medieval Warfare** **Credits:** 3

**HIS243 - Modern Warfare** **Credits:** 3

**HIS300 - American Military History, 1607-1902** **Credits:** 3

students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of 
Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, 
PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses 
designated in the catalog as "WI" (Writing Intensive), composed as follows:
3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Social Psychology, B.S.

Requirements For: B.S. Major – 45 hours, 2.0 gpa

Social Psychology blends the strengths of psychology and sociology. It studies the "person in the situation," and integrates knowledge about individual, group, and organizational processes. It is an adaptable major that trains students for a wide range of career options, and it is personally useful in every facet of your life beyond mere employment. Social psychology trains you to see yourself, others, and the cultures and societies we live in more clearly, critically, and completely. It equips you with a set of tools useful for a wide range of careers in business and industry, government, applied social research, data analysis and interpretation, policy and program implementation, the helping and service professions, or continued graduate study in psychology or sociology.

The Park University Social Psychology major combines a solid core in the field with a number of flexible, specialized concentrations that allow you to tailor the degree to your needs and interests. Students may take any 12 hours of PS and SO electives. All students also leave the major with a set of technical and conceptual tools that will allow them to collect, analyze, and interpret social research data and apply those findings in a number of careers.

Core Requirements 33 cr.

Theory and Application 21 cr.

- PS101 - Introduction to Psychology Credits: 3
- PS301 - Social Psychology Credits: 3
- PS315 - Theories of Personality Credits: 3
SO141 - Introduction to Sociology **Credits:** 3
SO206 - Social Issues in Contemporary Society **Credits:** 3
SO338 - Self and Society **Credits:** 3

Select one of the following 3 cr.

PS125 - Lifespan Development **Credits:** 3
PS205 - Child Psychology **Credits:** 3
PS221 - Adolescent Psychology **Credits:** 3
PS222 - Adult Development and Aging **Credits:** 3
SO329 - Sociology of the Life Course **Credits:** 3
SO330 - Sociology of Youth and Youth Cultures **Credits:** 3

**Research Methods and Statistics 9 cr.**

PS300 - Research Methods **Credits:** 3
SO310 - Sociological Research Methods **Credits:** 3 *

PS307 - Statistics for Social Sciences **Credits:** 3
or
SO307 - Statistics for Social Sciences **Credits:** 3

**Professional Seminars 3 cr.**

PS497 - Capstone Seminar **Credits:** 3 *
or
SO497 - Capstone Seminar **Credits:** 3 *

**Electives 12 cr.**

Select four courses from Sociology or Psychology.
At least 6 credits need to come from 300-400 level

**Note:**

*Program specified substitution for EN306* writing requirement.

* Only offered online

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208
Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

**Sport and Exercise Science, Exercise Physiology Concentration, B.S.**

**Sport and Exercise Science, B.S.**

The Sport and Exercise Science degree explores both the physiological foundations of human movement and the holistic concepts of wellness. Students will acquire the skills, knowledge, and leadership to assist others to better health and improved sports performance through exercise medicine, physical conditioning, and lifestyle modification. Every student will complete extensive internship and practicum requirements to help hone professional skills in working with clients. This major allows students with diverse career interests to customize their path through the major to meet their professional needs by choosing one of the following concentrations: Exercise Physiology, Fitness Management, Health Promotion or Sports Performance.

**Requirements For: B.S. Major - 74-82 Hours, 2.0 GPA**

**Sport and Exercise Core 53-56 CR.**

- CH105 - Introductory Chemistry Credits: 5
  or
- CH107 - General Chemistry I Credits: 3
- CH107L - General Chemistry Laboratory I Credits: 1
- BI101 - Biological Concepts Credits: 4
  or
- BIO221 - Zoology Credits: 4
- BI211 - Human Anatomy and Physiology I Credits: 4
- FW122 - Human Nutrition Credits: 3
- FW190 - Health, Sport, & Exercise Science Credits: 3
- FW200 - Resistance Exercise Instruction Credits: 3
- FW225 - Kinesiology Credits: 3
- FW231 - First Aid/CPR Credits: 3
- FW250 - Exercise Physiology Credits: 3
- FW250L - Exercise Physiology Laboratory Credits: 1
- FW260 - Strength and Conditioning Credits: 3
- FW350 - Exercise Testing and Prescription Credits: 4
- FW360 - Athletic Injuries Credits: 3
- FW375 - Special Populations Exercise Credits: 3
- FW400 - Internship in Fitness and Wellness Credits: 3-6 *

*Note: FW400 (3-6 hours) is required in the core. Sport Performance Concentration students are encouraged to complete six (6) hours of internship. It can be completed as a single 6 credit internship or as two separate internships in different semesters.

**Concentrations**

Exercise Physiology
Fitness Management
Health Promotion
Sports Performance

**Exercise Physiology 28-31 CR.**

The Exercise Physiology concentration begins with a strong foundation in natural and applied sciences. On that foundation, students build knowledge and skills to prescribe physical activity and exercise for the prevention and management of chronic disease, physical fitness, and well-being. Each student can choose 9-12 credits from a broad list to form a curriculum best suited to their individual career path. Students will gain practical experience by completing an individualized capstone internship of at least 200-hours in the field. Students choosing this track frequently consider careers in cardiac rehabilitation, physical or occupational therapy, athletic training, exercise physiology, or chiropractic care.

- BI212 - Human Anatomy and Physiology II **Credits:** 4
- FW325 - Motor Skill Development **Credits:** 3
- FW380 - Applied Health Behavior **Credits:** 3

- FW300 - Concepts in Strength and Conditioning **Credits:** 3
  or
- FW310 - Advanced Conditioning **Credits:** 3

- FW275 - Introduction to Sport Management **Credits:** 3
  or
- FW320 - Fitness Management **Credits:** 3

**Select four from the following: 12-15 CR.**

- CH108 - General Chemistry II **Credits:** 3
  and
- CH108L - General Chemistry Laboratory II **Credits:** 1

- FW175 - Medical Terminology **Credits:** 3
- FW315 - Stress & Wellness: Current Approaches **Credits:** 3
- MA120 - Basic Concepts of Statistics **Credits:** 3
- PY155 - Concepts of Physics I **Credits:** 4
- PY156 - Concepts of Physics II **Credits:** 4
- PS125 - Lifespan Development **Credits:** 3
- PS341 - Positive Psychology **Credits:** 3
- PS363 - Psychology of Sport **Credits:** 3
- PS401 - Abnormal Psychology **Credits:** 3
- SO309 - Sociology of Sport **Credits:** 3

  or

- PS307 - Statistics for Social Sciences **Credits:** 3
  or
- NS220 - Applied Statistics and Experimental Design **Credits:** 3

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**
Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, 
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, 
PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer 
students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, 
PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course 
must be offered by a program other than the one(s) that house(s) the student's major area of study 
at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, 
the course must be offered by the same program that houses the student's major at the time the 
course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234,

*Note: FW400 (3-6 hours) is required in the core. Sport Performance Concentration students are encouraged to complete six (6) hours of internship. It can be completed as a single 6 credit internship or as two separate internships in different semesters.*

**Concentrations**

Exercise Physiology

Fitness Management

Health Promotion

Sports Performance

**Fitness Management 28 CR.**

The Fitness Management concentration prepares students to pursue a career in leadership positions of gyms, health clubs, and fitness centers. Students will acquire the knowledge and skills needed to deliver exercise programs, educate clients on healthy lifestyles, and use business acumen to manage or build a successful business. This program provides a foundation of both the exercise science and fitness knowledge. Courses in business, marketing, and management will ensure students can successfully navigate the ever changing field of health and fitness. Students will gain practical experience by completing a capstone internship of at least 200-hours in the field.

- AC201 - Principles of Financial Accounting **Credits:** 3
- MG260 - Business Law I **Credits:** 3
- MK351 - Principles of Marketing **Credits:** 3
- FW175 - Medical Terminology **Credits:** 3
- FW320 - Fitness Management **Credits:** 3

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:
Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

**Sport and Exercise Science, Health Promotion Concentration, B.S.**

Sport and Exercise Science, B.S.

The Sport and Exercise Science degree explores both the physiological foundations of human movement and the holistic concepts of wellness. Students will acquire the skills, knowledge, and leadership to assist others to better health and improved sports performance through exercise medicine, physical conditioning, and lifestyle modification. Every student will complete extensive internship and practicum requirements to help hone professional skills in working with clients. This major allows students with diverse career interests to customize their path through the major to meet their professional needs by choosing one of the following concentrations: Exercise Physiology, Fitness Management, Health Promotion or Sports Performance.

**Requirements For: B.S. Major - 74-82 Hours, 2.0 GPA**

**Sport and Exercise Core 53-56 CR.**

- CH105 - Introductory Chemistry **Credits:** 5
  - or
- CH107 - General Chemistry I **Credits:** 3
- CH107L - General Chemistry Laboratory I **Credits:** 1

- BI101 - Biological Concepts **Credits:** 4
  - or
- BIO221 - Zoology **Credits:** 4

- BI211 - Human Anatomy and Physiology I **Credits:** 4
- FW122 - Human Nutrition **Credits:** 3
- FW190 - Health, Sport, & Exercise Science **Credits:** 3
- FW200 - Resistance Exercise Instruction **Credits:** 3
- FW225 - Kinesiology **Credits:** 3
- FW231 - First Aid/CPR **Credits:** 3
- FW250 - Exercise Physiology **Credits:** 3
- FW250L - Exercise Physiology Laboratory **Credits:** 1
- FW260 - Strength and Conditioning **Credits:** 3
- FW350 - Exercise Testing and Prescription **Credits:** 4
- FW360 - Athletic Injuries **Credits:** 3
- FW375 - Special Populations Exercise **Credits:** 3
- FW400 - Internship in Fitness and Wellness **Credits:** 3-6 *

*Note: FW400 (3-6 hours) is required in the core. Sport Performance Concentration students are encouraged to complete six (6) hours of internship. It can be completed as a single 6 credit internship or as two separate internships in different semesters.*
Concentrations

Exercise Physiology
Fitness Management
Health Promotion
Sports Performance

Health Promotion 28 CR.

The Health Promotion concentration is designed to prepare students to assist clients and communities through both exercise instruction and health coaching. Students will obtain the knowledge and skills needed to assist various populations in positive lifestyle change. Additionally, students will be able to successfully administer and manage a health education programs including needs assessments, planning, advocacy, and exercise instruction. Students will gain practical experience by completing a capstone internship of at least 200-hours in the field.

BI212 - Human Anatomy and Physiology II Credits: 4
FW175 - Medical Terminology Credits: 3
FW315 - Stress & Wellness: Current Approaches Credits: 3
FW380 - Applied Health Behavior Credits: 3
HC466 - Planning and Organizing Community Health Services Credits: 3
HC465 - Basic Issues in Community Based Healthcare Delivery Credits: 3
HC351 - Organization and Administration of Healthcare Programs Credits: 3
SO322 - Sociology of Health and Illness Credits: 3

PS358 - Applied Behavior Analysis Credits: 3
or
PS388 - Learning and Motivation Credits: 3

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310
6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.
EN105 and EN106

Math Requirement 3 cr.
Select one of the following:
MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.
Select one of the following:
BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.
Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, His105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Sport and Exercise Science, Sports Performance Concentration, B.S.**
Sport and Exercise Science, B.S.

The Sport and Exercise Science degree explores both the physiological foundations of human movement and the holistic concepts of wellness. Students will acquire the skills, knowledge, and leadership to assist others to better health and improved sports performance through exercise medicine, physical conditioning, and lifestyle modification. Every student will complete extensive internship and practicum requirements to help hone professional skills in working with clients. This major allows students with diverse career interests to customize their path through the major to meet their professional needs by choosing one of the following concentrations: Exercise Physiology, Fitness Management, Health Promotion or Sports Performance.

Requirements For: B.S. Major - 74-82 Hours, 2.0 GPA

Sport and Exercise Core 53-56 CR.

CH105 - Introductory Chemistry Credits: 5
or
CH107 - General Chemistry I Credits: 3
CH107L - General Chemistry Laboratory I Credits: 1

BI101 - Biological Concepts Credits: 4
or
BIO221 - Zoology Credits: 4

FW375 - Special Populations Exercise Credits: 3
FW400 - Internship in Fitness and Wellness Credits: 3-6 *

*Note: FW400 (3-6 hours) is required in the core. Sport Performance Concentration students are encouraged to complete six (6) hours of internship. It can be completed as a single 6 credit internship or as two separate internships in different semesters.

Concentrations

Exercise Physiology
Fitness Management
Health Promotion
Sports Performance

Sport Performance 31 CR.
The Sports Performance concentration provides a direct path to certification and entry into the fields of strength and conditioning, coaching, and sports training. This degree path is designed to prepare students to enter the field of athletics at various levels such as high school, college, professional sports, and independent or as independent practitioners. Students will supplement their exercise science education foundation through coursework emphasizing exercise programming, testing, and prescription for athletes. Upon completion of their degree, students will be able to sit for the national recognized certifications such as the NSCA Certified Strength & Conditioning Specialist (CSCS) or the ACSM certified exercise physiologist (EP-C). Students will complete a capstone internship of at least 300-hours in a minimum of two different areas in the field of strength and conditioning.

- BI212 - Human Anatomy and Physiology II **Credits:** 4
- FW175 - Medical Terminology **Credits:** 3
- FW275 - Introduction to Sport Management **Credits:** 3
- FW300 - Concepts in Strength and Conditioning **Credits:** 3
- FW310 - Advanced Conditioning **Credits:** 3
- FW320 - Fitness Management **Credits:** 3
- FW325 - Motor Skill Development **Credits:** 3
- PS341 - Positive Psychology **Credits:** 3
- PS363 - Psychology of Sport **Credits:** 3
- SO309 - Sociology of Sport **Credits:** 3

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

- MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

- BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

- AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:
CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**
3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student’s major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student’s major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student’s major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Accounting, B.S.B.A.**

**B.S.B.A.**

This program is part of the 4+1 Undergraduate to Graduate program options.

For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students enrolled in the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This degree will help a student prepare for a career in business or government leadership and provide knowledge and skills desired by all types of employers. It can also provide one the background to organize and manage a family business. Graduates with a B.S.B.A. typically find jobs in business, production management, personnel management, marketing management, or
financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

Requirements For: B.S.B.A. Major – 69 Hours, 2.0 GPA

This program is designed to prepare students for a professional career in public accounting, managerial accounting or governmental accounting. The curriculum stresses professional ethics. It is excellent preparation for graduate study in accounting, business administration, or law.

**Business Core 39 CR.**

- AC201 - Principles of Financial Accounting Credits: 3
- AC202 - Principles of Managerial Accounting Credits: 3
- EC141 - Principles of Macroeconomics Credits: 3
- EC142 - Principles of Microeconomics Credits: 3
- FI360 - Financial Management Credits: 3
- IB315 - International Business Perspectives Credits: 3
- IS141 - Applied Computer Technology for Business Credits: 3
- MA171 - Finite Mathematics Credits: 3
- MG260 - Business Law I Credits: 3
- MG315 - Advanced Business Statistics Credits: 3
- MG371 - Management and Organizational Behavior Credits: 3
- MG495 - Business Policy Credits: 3
- MK351 - Principles of Marketing Credits: 3

**Note:**

MA 171 is a required course for students with majors within the Robert W. Plaster School of Business and satisfies the requirements for MA 120

MA 171 has a prerequisite of MA 125. Students who do not meet the placement/test prerequisite for MA 171 are required to complete MA 125

MG 306 is a required course for students with majors within the Robert W. Plaster School of Business and satisfies the requirement for Professional Writing (EN 306*)

EC 141 and EC 142 will satisfy the LE Social Science area

**Accounting 27 CR.**

Select one of the following:
MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:
Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.
Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206
*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.
Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.
Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.
LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Business Economics, B.S.B.A.

B.S.B.A.
This program is part of the 4+1 Undergraduate to Graduate program options.

For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students enrolled in the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This degree will help a student prepare for a career in business or government leadership and provide knowledge and skills desired by all types of employers. It can also provide one the background to organize and manage a family business. Graduates with a B.S.B.A. typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

**Requirements For: B.S.B.A. Major – 63 Hours, 2.0 GPA**

Business Economics provides students the opportunity for an in-depth understanding of the interaction between economics and business in a rapidly changing environment. Business Economics provides a framework from which students can analyze the conditions and laws affecting the production, distribution and consumption of wealth.

**Business Core 39 CR.**

And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**
3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Healthcare, B.S.B.A.

B.S.B.A.

This program is part of the 4+1 Undergraduate to Graduate program options. For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students taking the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This major will help a student prepare for a career in business or government leadership and provide him/her with knowledge and skills desired by all types of employers. It can also give one the background to organize and manage his/her family business. Graduates
in business administration typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

Requirements For: B.S.B.A. Major – 60 Hours, 2.0 GPA

This program provides students with a comprehensive foundation of knowledge about the U.S. healthcare system, including its structure, regulations, operations, and management. Graduates of the program will have the ability to analyze the basic structures and operations of the healthcare delivery systems, use macro and micro factors to formulate administrative solutions to complex problems and challenges in healthcare, and demonstrate the ability to effectively manage organizational resources to achieve institutional objectives. This degree will prepare students for various contemporary healthcare administration practices and functions in various healthcare settings. The intent of this program is to meet the educational needs of students who intend to pursue active careers in healthcare field or enroll in graduate work in healthcare administration.

Business Core 33 CR.

- AC201 - Principles of Financial Accounting Credits: 3
- AC202 - Principles of Managerial Accounting Credits: 3
- EC141 - Principles of Macroeconomics Credits: 3
- EC142 - Principles of Microeconomics Credits: 3
- FI360 - Financial Management Credits: 3
- IB315 - International Business Perspectives Credits: 3
- IS141 - Applied Computer Technology for Business Credits: 3
- MA171 - Finite Mathematics Credits: 3
- MG315 - Advanced Business Statistics Credits: 3
- MG495 - Business Policy Credits: 3
- MK351 - Principles of Marketing Credits: 3

Note:

MA171 is a required course for students with majors within the Robert W. Plaster School of Business and satisfies the requirement for MA120. MA171 has a prerequisite of MA125. Students who do not meet the placement/test prerequisite for MA171 are required to complete MA125.
MG306 is a required course for students with majors within the Robert W. Plaster School of Business and satisfies the requirement for EN306*.
EC141 and EC142 will satisfy the LE Social Science area.

Healthcare 27 CR.

- HC261 - Legal and Ethical Issues in Healthcare Delivery Credits: 3
- HC351 - Organization and Administration of Healthcare Programs Credits: 3
- HC451 - Healthcare and the Political Process Credits: 3

- Submission of an Application for Graduation.

Human Resources, B.S.B.A.

B.S.B.A.

This program is part of the 4+1 Undergraduate to Graduate program options.

For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students enrolled in the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This degree will help a student prepare for a career in business or government leadership and provide knowledge and skills desired by all types of employers. It can also provide one the background to organize and manage a family business. Graduates with a B.S.B.A. typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

Requirements For: B.S.B.A. Major – 63 Hours, 2.0 GPA

This program focuses on the study of organizations and the use of personnel as a primary institutional resource. Emphasis is placed on a behavioral science/management approach in which the understanding of individual behavior and group processes is combined with the techniques of the management of personnel within an organization. This interdisciplinary approach draws from the fields of Management, Social Psychology, and Organization Behavior to create the skills in interpersonal and intergroup relations.
Business Core 39 CR.

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Logistics, B.S.B.A.**

**B.S.B.A.**
This program is part of the 4+1 Undergraduate to Graduate program options.

For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students enrolled in the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This degree will help a student prepare for a career in business or government leadership and provide knowledge and skills desired by all types of employers. It can also provide one the background to organize and manage a family business. Graduates with a B.S.B.A. typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

**Requirements For: B.S.B.A. Major – 63 Hours, 2.0 GPA**

Graduates of this program will be able to demonstrate a working knowledge of logistics and supply chain management. They will learn the skills necessary to increase efficiency, and demonstrate the impact of logistics and supply chain operations on a firm’s profitability. They will have a thorough understanding of the role of transportation in the US economy.

**Business Core 39 CR.**

- AC201 - Principles of Financial Accounting **Credits:** 3
- AC202 - Principles of Managerial Accounting **Credits:** 3
- EC141 - Principles of Macroeconomics **Credits:** 3
- EC142 - Principles of Microeconomics **Credits:** 3

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

**Personal Financial Planning, B.S.B.A.**

**B.S.B.A.**

This program is part of the 4+1 Undergraduate to Graduate program options.
For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students enrolled in the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This degree will help a student prepare for a career in business or government leadership and provide knowledge and skills desired by all types of employers. It can also provide one the background to organize and manage a family business. Graduates with a B.S.B.A. typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

Requirements For: B.S.B.A. Major – 63 Hours, 2.0 GPA

The Personal Financial Planning program provides students with the necessary background to sit for the exam to become a CERTIFIED FINANCIAL PLANNERTM Professional.

Business Core 39 CR.

AC201 - Principles of Financial Accounting Credits: 3
AC202 - Principles of Managerial Accounting Credits: 3
EC141 - Principles of Macroeconomics Credits: 3
EC142 - Principles of Microeconomics Credits: 3
FI360 - Financial Management Credits: 3
IB315 - International Business Perspectives Credits: 3
IS141 - Applied Computer Technology for Business Credits: 3
MA171 - Finite Mathematics Credits: 3
MG260 - Business Law I Credits: 3
MG315 - Advanced Business Statistics Credits: 3
MG371 - Management and Organizational Behavior Credits: 3
MG495 - Business Policy Credits: 3
MK351 - Principles of Marketing Credits: 3

Note:

MA 171 is a required course for students with majors within the Robert W. Plaster School of Business and satisfies the requirements for MA 120
MA 171 has a prerequisite of MA 125. Students who do not meet the placement/test prerequisite for MA 171 are required to complete MA 125
MG 306 is a required course for students with majors within the Robert W. Plaster School of Business and satisfies the requirement for Professional Writing
(EN 306*)
EC 141 and EC 142 will satisfy the LE Social Science area

Personal Financial Planning 24 CR.

AC309 - Individual Income Tax Credits: 3
FI325 - Risk and Insurance Credits: 3
FI380 - Financial Counseling Credits: 3
FI417 - Investment Analysis and Management Credits: 3
FI419 - Retirement and Employee Benefit Planning Credits: 3
FI420 - Estate Planning Credits: 3
FI423 - Professional Financial Planning Credits: 3
FI424 - Personal Financial Planning Capstone Credits: 3
**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**
EN105 and EN106

**Math Requirement 3 cr.**
Select one of the following:
MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**
Select one of the following:
BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**
Select one of the following:
CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234
And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216
Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.
AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Professional Sales, B.S.B.A.**

**B.S.B.A.**

This program is part of the 4+1 Undergraduate to Graduate program options.

For questions regarding specific courses and concentration options, please consult with your Advisor, Campus Center or via email at: advising@park.edu.

Students enrolled in the Bachelor of Science in Business Administration program receive a broad education covering the major functional areas of business. This degree will help a student prepare for a career in business or government leadership and provide knowledge and skills desired by all types of employers. It can also provide one the background to organize and manage a family business. Graduates with a B.S.B.A. typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties.

**Requirements For: B.S.B.A. Major – 60 Hours, 2.0 GPA**

The Professional Sales program provides students the opportunity to concentrate in the growing field of professional sales, a field in demand in all areas of business and industry.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student’s major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.
Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Education Studies: Early Childhood Education: Teaching Young Children, B.S.E.

Requirements For: B.S.E. Major - 55 Hours, 2.0 Cumulative, 2.75 Content GPA

The Bachelor of Science Education Studies degree with Emphasis in Early Childhood Education Teaching Young Children is designed to prepare graduates for positions of teaching curriculum coordination, program directors, consultants and leadership positions in early childhood programs. The degree program combines knowledge of child development and learning; family and community relationships; observation, documentation, and assessment; concepts and tools of inquiry in the content areas; curriculum development; effective teaching strategies; guidance; and professionalism. **The Degree does not result in Missouri Teacher certification.** Due to the uniqueness of the non-certification program, candidates should contact their faculty advisor for assistance in application for admission to the School of Education and placement in the practicum and internship.

Criteria for Admission to the School of Education— Early Childhood Education Teaching Young Children

The requirements listed below are the minimum application criteria. Meeting these requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

- 2.75 GPA in core courses
- Successful completion of EDC220, EDC222, MA120 or MA135 or equivalent, EN105 and EN106

The above information is verified by the Office of the Registrar on the Application for Admission to the School of Education (form to be submitted electronically to the School of Education).
Procedure for Request for Admission to the School of Education—Early Childhood Education
Teaching Young Children

Candidates must work with the appropriate School of Education FACULTY advisor when applying to the School of Education to ensure all materials are in place. Contact: Amy Wolf (amy.wolf@park.edu) who is the Faculty advisor.

Candidates must begin the application process no less than 2 semesters (4 terms) prior to requiring Education coursework listed as 350 or higher.

Application for Admission to the School of Education submitted electronically.
Two disposition evaluations completed by SOE faculty with dispositions rated "knows this & shows this." Students will make the request of the faculty to complete the online assessment.
Self-disposition evaluation to be completed online
Digitally completed recommendation completed by an employer OR a faculty member outside of the School of Education
FBI Fingerprint check
"Home State" required screenings

Availability of Courses

Although the coursework can be completed online, 95 percent of the education courses require interaction and/or observation with young children, educators and the community. Many of the online courses are only offered in a 16-week format. Practicums and internships take place in the field with young children, educators, and the community. There are specific courses tied to the practicums and the internship that are required to be completed within the same term/semester. Diversity of experiences is necessary for a well-rounded educator. As a result, some observations may be pre-approved at the student's place of employment, while others will occur outside the student’s place of employment. Employment must be in a classroom with the proper ages of children (birth to 2 years old for infant and toddler practicum, three to five years old (excluding kindergarten) for pre-primary practicum and agency or classroom serving children five years and younger (excluding kindergarten) for the internship. Placements must meet standards such as NAEYC Accreditation or Head Start in order to qualify for placement.

Professional Curriculum

EDC220 - Child Growth and Development for Early Childhood and Elementary Teachers Credits: 3
EDC222 - Early Childhood Principles Credits: 3

EDC425 - Seminar for Internship in Early Childhood Teaching Young Children and Early Childhood Education and Leadership Credits: 3

Total 55 cr.

Candidates will select a minor or a leadership area of concentration.

Minors include:

**Psychology, Minor**

Requirements For: Minor - 18 hours, 2.0 gpa

PS101 - Introduction to Psychology Credits: 3
PS301 - Social Psychology Credits: 3
PS315 - Theories of Personality Credits: 3
PS341 - Positive Psychology Credits: 3

Electives 6 cr.

6 cr. of Psychology (PS) courses

**Social Work, Minor**

Requirements For: Social Work Minor - 18 hours, C or better

48 hours of service learning in a human service agency.

PS309 - Human Sexuality Credits: 3
SO302 - The Study of the Family Credits: 3
SW205 - Introduction to Social Work Credits: 3
SW325 - Human Diversity and Social Justice Credits: 3
SW330 - Social Welfare Policy and Programs Credits: 3
SW450 - Integrative Seminar for SW Minor Credits: 3 (Capstone)
Note:

All of the required courses for the Social Work minor must be completed with a grade of C or better prior to enrollment in SW450, which is the capstone course for the SW minor.

Sociology, Minor

Requirements For: Minor - 18 hours, 2.0 gpa

18 hours which must include SO 141, SO 206 and at least two courses at the 300-400 levels (6 cr).

SO141 - Introduction to Sociology Credits: 3
SO206 - Social Issues in Contemporary Society Credits: 3

Spanish, Minor

Requirements For: Minor - 18 hours, 2.5 gpa

The Spanish Minor is designed to assist students in gaining proficiency in oral and written communication in this world language, along with a solid understanding of Hispanic cultures. Students majoring in Early Childhood, Criminal Justice, Social Work, Nursing, Psychology or International Business concentration should consider the completion of this minor. Heritage speakers or near-native speakers are encouraged to consider test-out options for SP201.

SP201 - Intermediate Spanish I Credits: 3
SP202 - Intermediate Spanish II Credits: 3
SP294 - Intermediate Spanish Conversation Credits: 3
SP295 - Intermediate Spanish Composition Credits: 3
SP320 - U.S. Latino Cultures and Literatures Credits: 3
One 300 level Spanish elective in cultural and/or literary topic Credits: 3

Note:

**For those students wishing to teach K-12 Spanish: See also Bachelor of Science in Education.

B.S.E. in Secondary Education – MAJOR 53-55 Hours

or

Leadership Area of Concentration

(18 hours) includes the following coursework:
EDC344 - Program Planning and Evaluation in Early Childhood Programs Credits: 2
EDC345 - Financial Aspects of Early Childhood Programs Credits: 2
EDC346 - Human Resources in Early Childhood Programs Credits: 2
HR310 - Leadership and Team Building Credits: 3
PA331 - Public Organizations Credits: 3
PA333 - Public Management and Leadership Credits: 3
PA342 - Administrative Politics Credits: 3

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251,
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130,
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101,
PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer
students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of
Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300,
PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses
designated in the catalog as "WI" (Writing Intensive), composed as follows:
3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.
AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

**Elementary Education, B.S.E.**

(Grades 1 through 6)

**Requirements For: B.S.E. Major — 79 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education gpa**

No grade lower than a "C" in education core.

**Professional Curriculum**

BI214 - Personal and Community Health **Credits:** 3
EDE332 - Integrating Arts and Movement in Learning Activities **Credits:** 3
EDE340 - Language and Literacy Development **Credits:** 3
EDE342 - Mathematics Learning in Elementary Grades **Credits:** 3
EDE343 - Curriculum Integration & Strategy Instruction in Social Science & Science **Credits:** 3
EDU203 - Educational Psychology **Credits:** 3
EDU210 - The School as a Social System **Credits:** 3
EDU300 - Writing in Education **Credits:** 3
EDU310 - Issues in Diversity and World Cultures **Credits:** 3
EDU315 - Children and Young Adult Literature **Credits:** 3
EDU345 - Teaching Linguistically and Culturally Diverse Learners **Credits:** 3
EDU347 - Family, School and Community Collaboration **Credits:** 3
PH224 - Philosophy for Children **Credits:** 3
PS125 - Lifespan Development **Credits:** 3
Admission to the School

Certification Program required for enrollment in the following EDE/EDU courses

- EDE352 - Building an Effective, Equitable Learning Environment for Elementary Grades **Credits:** 3
- EDE360A - Field Experience I **Credits:** 2
- EDE360B - Field Experience II **Credits:** 2
- EDE363 - Literacy Learning in the Elementary Grades **Credits:** 3
- EDE383 - Mathematics Methods and Differentiated Learning in Elementary Grades **Credits:** 3
- EDU351 - Strategies for Higher-Order Learning **Credits:** 3
- EDU362 - Observation, Assessment and Data-based Decision Making **Credits:** 3
- EDU375 - Exceptional Children & Differentiated Learning **Credits:** 3
- EDU384 - Meeting Literacy Needs of All Learners **Credits:** 3
- EDE410 - Field Experience III **Credits:** 12

**TOTAL 76 CR.**

Education Requirements

There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.

Criteria for Admission to the School of Education

Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

- 3.0 GPA in content courses (Middle School and High School programs)
- 3.0 Professional Education GPA
- Successful completion of MA120 or MA135 or equivalent, EN105 and EN106
- MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor’s Degree from an accredited institution are exempt.

Procedure for Request for Admission to the School of Education

Application for Admission to the School of Education
Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)
Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"
Self-disposition evaluation
Missouri Highway Patrol and FBI Fingerprint check

Criteria and Procedure for Admission to Directed Teaching

School of Education faculty must approve all student teaching requests.

- Completed Application for Directed Teaching
- Updated Missouri Highway Patrol and FBI Fingerprint check
3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
3.0 Professional Education GPA

All students, including Certification and Certification Only, must apply for admission, and meet admission requirements of the School of Education; all students are required to complete professional education sequence classes.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, REI09, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

AR497 - Senior Seminar in Fine Art Credits: 3

Select two of the following

AR218 - Graphic Design Software Credits: 3
AR225 - Sculpture I Credits: 3
AR310 - Illustration Credits: 3
AR315 - Special Topics in Art or Design Credits: 1-3
AR316 - Modern Art Credits: 3
AR321 - Ceramics II Credits: 3
AR325 - Sculpture II Credits: 3
AR340 - Drawing III Credits: 3
AR341 - Photography II Credits: 3
AR371 - Fiber II Credits: 3
AR380 - Painting II Credits: 3
AR420 - Ceramics III Credits: 3
AR425 - Sculpture III Credits: 3
AR480 - Painting III Credits: 3
Independent Study Credits: 3
Study Abroad Credits: 3

Education Requirements

There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.

Criteria for Admission to the School of Education
Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

3.0 GPA in content courses (Middle School and High School programs)
3.0 Professional Education GPA
Successful completion of MA120 or MA135 or equivalent, EN105 and EN106
MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor’s Degree from an accredited institution are exempt.

**Procedure for Request for Admission to the School of Education**

Application for Admission to the School of Education
Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)
Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"
Self-disposition evaluation
Missouri Highway Patrol and FBI Fingerprint check

**Criteria and Procedure for Admission to Directed Teaching**

School of Education faculty must approve all student teaching requests.

Completed Application for Directed Teaching
Updated Missouri Highway Patrol and FBI Fingerprint check
3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
3.0 Professional Education GPA

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:
MA120, MA135, or higher math course excluding MA208

**Science with a lab Requirement 4 cr.**

Select one of the following:
BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108,
CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*
Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

K-12 Education, Spanish, B.S.E.
K-12 Education (Art or Spanish)

(Grades K through 12)

Requirements For B.S.E. Major — 55 Hours, 2.0 cumulative; 3.00 Content; and 3.00 Professional Education GPA

No grade lower than a "C" in education core.

Professional Curriculum

- EDU203 - Educational Psychology Credits: 3
- EDU210 - The School as a Social System Credits: 3
- PS25 - Lifespan Development Credits: 3
- EDU300 - Writing in Education Credits: 3
- EDU310 - Issues in Diversity and World Cultures Credits: 3
- EDU345 - Teaching Linguistically and Culturally Diverse Learners Credits: 3
- EDU347 - Family, School and Community Collaboration Credits: 3

Admission to the School

Certification Program required for enrollment in the following EDS/EDU courses

- EDS352 - Building an Effective, Equitable Learning Environment for Secondary Grades Credits: 3
- EDS358 - Reading and Writing in the Content Areas Credits: 3
- EDU351 - Strategies for Higher-Order Learning Credits: 3
- EDU360A - Field Experience I Credits: 2
- EDU360B - Field Experience II Credits: 2
- EDU362 - Observation, Assessment and Data-based Decision Making Credits: 3
- EDU375 - Exceptional Children & Differentiated Learning Credits: 3
- EDU388 - Methodology in Content Area Credits: 3
- EDU410 - Field Experience III Credits: 12-14

K-12 Spanish

(Students must test out of SP 201 to enroll in SP 202)

- SP201 - Intermediate Spanish I Credits: 3
- SP202 - Intermediate Spanish II Credits: 3
- SP294 - Intermediate Spanish Conversation Credits: 3
- SP295 - Intermediate Spanish Composition Credits: 3
- SP301 - Advanced Spanish Conversation Credits: 3
- SP302 - Advanced Grammar and Composition Credits: 3
- SP311 - Culture and Civilization of Spain Credits: 3
- SP312 - Cultures and Civilization of Spanish America and the Hispanic Caribbean Credits: 3
- SP320 - U.S. Latino Cultures and Literatures Credits: 3
- SP322 - Reading Cervantes' Masterpiece: Don Quixote Credits: 3
- SP394 - Introduction to the Literature of Spain Credits: 3
- SP395 - Introduction to the Literatures of Spanish America and the Hispanic Caribbean Credits: 3

Total 36 cr.

- EDU351 - Strategies for Higher-Order Learning **Credits:** 3
- EDU362 - Observation, Assessment and Data-based Decision Making **Credits:** 3
- EDU375 - Exceptional Children & Differentiated Learning **Credits:** 3
- EDU384 - Meeting Literacy Needs of All Learners **Credits:** 3
- EDM410 - Field Experience III **Credits:** 12

**Total 58 cr.**

**Mathematics and Math Education**

- EDE342 - Mathematics Learning in Elementary Grades **Credits:** 3

  Select 24 credits from the following:
  - MA110 - Geometry for Teachers **Credits:** 3
  - MA120 - Basic Concepts of Statistics **Credits:** 3
  - MA125 - Intermediate Algebra **Credits:** 3
  - MA135 - College Algebra **Credits:** 3
  - MA150 - Precalculus Mathematics **Credits:** 3
  - MA160 - Precalculus for Majors **Credits:** 5
  - MA221 - Calculus and Analytic Geometry for Majors I **Credits:** 5
  - MA222 - Calculus and Analytic Geometry for Majors II **Credits:** 5
  - MA223 - Calculus and Analytic Geometry for Majors III **Credits:** 3
  - MA311 - Linear Algebra **Credits:** 3

**Education Requirements**
There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.

**Criteria for Admission to the School of Education**

Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

- 3.0 GPA in content courses (Middle School and High School programs)
- 3.0 Professional Education GPA
- Successful completion of MA120 or MA135 or equivalent, EN105 and EN106
- MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor's Degree from an accredited institution are exempt.

**Procedure for Request for Admission to the School of Education**

- Application for Admission to the School of Education
- Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)
- Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"
- Self-disposition evaluation
- Missouri Highway Patrol and FBI Fingerprint check

**Criteria and Procedure for Admission to Directed Teaching**

School of Education faculty must approve all student teaching requests.

- Completed Application for Directed Teaching
- Updated Missouri Highway Patrol and FBI Fingerprint check
- 3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
- 3.0 Professional Education GPA

All students, including Certification and Certification Only, must apply for admission, and meet admission requirements of the School of Education; all students are required to complete professional education sequence classes.

**Liberal Education Requirements 40 CR.**

**Writing Seminar 6 cr.**

EN105 and EN106

**Math Requirement 3 cr.**

Select one of the following:

MA120, MA135, or higher math course excluding MA208
Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).

A minor for Geography, B.S. and Information Systems, B.S. majors.

Satisfaction of all requirements for a major.

Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

**Middle School Education, Science Concentration, B.S.E.**

**Middle School Education, B.S.E.**

(Grades 5 through 9)

**Requirements For: B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA**

No grade lower than a "C" in education core.

Students seeking middle school certification must select one area listed below.

- Language Arts
- Mathematics
- Science
- Social Science

**Professional Curriculum**

- EDU203 - Educational Psychology **Credits:** 3
- EDU210 - The School as a Social System **Credits:** 3
- PS125 - Lifespan Development **Credits:** 3
- EDU300 - Writing in Education **Credits:** 3
- EDU310 - Issues in Diversity and World Cultures **Credits:** 3
- EDU345 - Teaching Linguistically and Culturally Diverse Learners **Credits:** 3
- EDU347 - Family, School and Community Collaboration **Credits:** 3

**Admission to the School**

Certification Program required for enrollment in the following EDM/EDU courses

- EDM352 - Building an Effective, Equitable Learning Environment **Credits:** 3
- EDM358 - Reading and Writing in the Content Areas **Credits:** 3
- EDM360A - Field Experience I **Credits:** 2
- EDM360B - Field Experience II **Credits:** 2
- EDM395 - Methodology in Content Area **Credits:** 3
- EDU351 - Strategies for Higher-Order Learning **Credits:** 3
- EDU362 - Observation, Assessment and Data-based Decision Making **Credits:** 3
- EDU375 - Exceptional Children & Differentiated Learning **Credits:** 3
- EDU384 - Meeting Literacy Needs of All Learners **Credits:** 3
- EDM410 - Field Experience III **Credits:** 12

**Total 58 cr.**

**Prerequisites 8 CR.**
MA125 - Intermediate Algebra **Credits:** 3 (corequisite for CH 107)
MA160 - Precalculus for Majors **Credits:** 5 (correquisite for PY 155)

**Science**

CH107 - General Chemistry I **Credits:** 3
and
CH107L - General Chemistry Laboratory I **Credits:** 1

BIO221 - Zoology **Credits:** 4
BIO225 - Botany **Credits:** 4
GO130 - Astronomy **Credits:** 4
GO141 - Physical Geology **Credits:** 4
PY155 - Concepts of Physics I **Credits:** 4

EDU384 - Meeting Literacy Needs of All Learners Credits: 3
EDM410 - Field Experience III Credits: 12

Total 58 cr.

Social Science

EC141 - Principles of Macroeconomics Credits: 3
or
EC142 - Principles of Microeconomics Credits: 3

HIS104 - American History Survey Through the Civil War Credits: 3
HIS105 - American History Survey Since the Civil War Credits: 3
PO200 - American National Government Credits: 3
PO210 - Comparative Political Systems Credits: 3
GGH110 - Cultural Geography Credits: 3

Select six credits from the following:

HIS111 - Introduction to World History I (Ancient History) Credits: 3
HIS112 - Introduction to World History II (Middle Ages) Credits: 3
HIS113 - Introduction to World History III (Modern Era) Credits: 3

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108,
CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

**Ethics Requirement 3 cr.**

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

**Communications Requirement 3 cr.**

Select one of the following:

CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*
Graduation Requirements

Student Seminar 3 cr.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Hours 36 cr.

36 hours upper division (300 - 400) level course work

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Secondary Education, Biology Concentration, B.S.E.
Secondary Education, B.S.E.

(Grades 9 through 12)

Requirements For B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA

No grade lower than a "C" in education core.

Students seeking secondary certification must select one of the following areas of certification:

- Biology
- Chemistry
- Earth Science
- English
- Mathematics
- Social Science

Professional Curriculum

EDU203 - Educational Psychology Credits: 3
EDU210 - The School as a Social System Credits: 3
PSI25 - Lifespan Development Credits: 3
EDU300 - Writing in Education Credits: 3
EDU310 - Issues in Diversity and World Cultures Credits: 3
EDU345 - Teaching Linguistically and Culturally Diverse Learners Credits: 3
EDU347 - Family, School and Community Collaboration Credits: 3

Admission to the School

Certification Program required for enrollment in the following EDS/EDU courses

- EDU351 - Strategies for Higher-Order Learning Credits: 3
- EDS352 - Building an Effective, Equitable Learning Environment for Secondary Grades Credits: 3
- EDS358 - Reading and Writing in the Content Areas Credits: 3
- EDS360A - Field Experience I Credits: 2
- EDS360B - Field Experience II Credits: 2
- EDU362 - Observation, Assessment and Data-based Decision Making Credits: 3
- EDU384 - Meeting Literacy Needs of All Learners Credits: 3
- EDU375 - Exceptional Children & Differentiated Learning Credits: 3
- EDS395 - Methodology in Teaching Content Area in The Secondary Classroom Credits: 3
- EDS410 - Field Experience III Credits: 12 (12 Credits Required)

Total 58 cr.

Prerequisites - 15 cr.

- CH108 - General Chemistry II Credits: 3 (prerequisite for BIO 325)
- CH108L - General Chemistry Laboratory II Credits: 1 (prerequisite for BIO 325)
- MA125 - Intermediate Algebra Credits: 3 (or higher math - prerequisite for CH 107)
- MA160 - Precalculus for Majors Credits: 5 (prerequisite for PY 155)
NS220 - Applied Statistics and Experimental Design Credits: 3 (or instructor approval - prerequisite for BIO 327)

Biology

BIO221 - Zoology Credits: 4  
BIO225 - Botany Credits: 4  
BIO325 - Introductory Molecular Cell Biology Credits: 3

CH107L - General Chemistry Laboratory I Credits: 1  
GO141 - Physical Geology Credits: 4  
PY155 - Concepts of Physics I Credits: 4

Select one of the following:  
NS241 - Philosophy and History of Science Credits: 3  
NS304 - Science, Technology, and Society Credits: 3

Select one of the following:  
BI111 - Environmental Biology Credits: 4  
GGP120 - Global Sustainability Credits: 3

Select one of the following:  
BIO330 - Palaeobiology Credits: 4  
BIO350 - Microbiology Credits: 4  
BIO410 - Comparative Anatomy Credits: 4  
BIO411 - Animal Physiology Credits: 4

Total 41-42 cr.

Education Requirements

There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.

Criteria for Admission to the School of Education

Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

3.0 GPA in content courses (Middle School and High School programs)  
3.0 Professional Education GPA  
Successful completion of MA120 or MA135 or equivalent, EN105 and EN106  
MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor's Degree from an accredited institution are exempt.

Procedure for Request for Admission to the School of Education
Application for Admission to the School of Education
Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)
Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"
Self-disposition evaluation
Missouri Highway Patrol and FBI Fingerprint check

Criteria and Procedure for Admission to Directed Teaching

School of Education faculty must approve all student teaching requests.

- Completed Application for Directed Teaching
- Updated Missouri Highway Patrol and FBI Fingerprint check
- 3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
- 3.0 Professional Education GPA

All students, including Certification and Certification Only, must apply for admission, and meet admission requirements of the School of Education; all students are required to complete professional education sequence classes.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI212, BI223, BIO221, BIO225, BIO227, BIO230, BIO237L and BIO237, BIO250, BIO260, BIO271, BIO271L, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

**Citizenship Requirement 3 cr.**

Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

**Humanities Requirement 6 cr.**

Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work
Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WT" (Writing Intensive), composed as follows:

- 3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.
- 3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

Secondary Education, Chemistry Concentration, B.S.E.

Secondary Education, B.S.E.

(Grades 9 through 12)

Requirements For B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA

No grade lower than a "C" in education core.

Students seeking secondary certification must select one of the following areas of certification:
Biology
Chemistry
Earth Science
English
Mathematics
Social Science

Professional Curriculum

EDU203 - Educational Psychology Credits: 3
EDU310 - The School as a Social System Credits: 3
PS125 - Lifespan Development Credits: 3
EDU300 - Writing in Education Credits: 3
EDU310 - Issues in Diversity and World Cultures Credits: 3
EDU345 - Teaching Linguistically and Culturally Diverse Learners Credits: 3
EDU347 - Family, School and Community Collaboration Credits: 3

Certification Program required for enrollment in the following EDS/EDU courses

EDU351 - Strategies for Higher-Order Learning Credits: 3
EDS352 - Building an Effective, Equitable Learning Environment for Secondary Grades Credits: 3
EDS358 - Reading and Writing in the Content Areas Credits: 3
EDS360A - Field Experience I Credits: 2
EDS360B - Field Experience II Credits: 2
EDU362 - Observation, Assessment and Data-based Decision Making Credits: 3
EDU384 - Meeting Literacy Needs of All Learners Credits: 3
EDU375 - Exceptional Children & Differentiated Learning Credits: 3
EDS395 - Methodology in Teaching Content Area in The Secondary Classroom Credits: 3
EDS410 - Field Experience III Credits: 12 (12 Credits Required)

Total 58 cr.

Prerequisites - 12 CR.

MA125 - Intermediate Algebra Credits: 3 (pre or corequisite for CH 107)
MA160 - Precalculus for Majors Credits: 5 (corequisite for PY 155)
CH318 - Organic Chemistry II Credits: 3 (prerequisite for CH 337)
CH318L - Organic Chemistry Laboratory II Credits: 1 (can be waived by instructor)

Chemistry

CH107 - General Chemistry I Credits: 3
CH107L - General Chemistry Laboratory I Credits: 1
CH108 - General Chemistry II Credits: 3
CH108L - General Chemistry Laboratory II Credits: 1
CH317 - Organic Chemistry I Credits: 3
CH317L - Organic Chemistry Laboratory I Credits: 1
CH328 - Analytical Chemistry Credits: 4
CH337 - Biochemistry Credits: 3
CH337L - Biochemistry Laboratory Credits: 1
NS304 - Science, Technology, and Society Credits: 3
or
NS241 - Philosophy and History of Science Credits: 3

BIO221 - Zoology Credits: 4
or
BIO225 - Botany Credits: 4

PY155 - Concepts of Physics I Credits: 4
GO141 - Physical Geology Credits: 4

GGP120 - Global Sustainability Credits: 3
or
BI111 - Environmental Biology Credits: 4

Select one of the following

NS306 - Writing and Ethical Practices in Science Credits: 3
CH318 - Organic Chemistry II Credits: 3
CH329 - Introduction to Instrumental Analysis Credits: 4

Total 41-43 cr.

Education Requirements

There are specific general education courses required for teacher certification in the state of Missouri, therefore it is imperative the student speak with his or her education advisor regarding these course requirements prior to enrollment. All requirements (i.e., admission within the program and exit) are subject to change as per the Missouri Department of Elementary and Secondary Education.

Criteria for Admission to the School of Education

Meeting these minimum requirements states that the applicant is eligible for admission consideration, but does not guarantee admission.

3.0 GPA in content courses (Middle School and High School programs)  
3.0 Professional Education GPA  
Successful completion of MA120 or MA135 or equivalent, EN105 and EN106  
MoGEA passing scores (passed within 2 years of admission date) or approved ACT Composite Score (taken within 5 years of application for admission to the School of Education). Transfer students with a Bachelor's Degree from an accredited institution are exempt.

Procedure for Request for Admission to the School of Education

Application for Admission to the School of Education  
Letter of recommendation from a professional outside of the School of Education (submitted electronically or in a sealed/signed envelope)  
Two disposition evaluations completed by SOE faculty with ratings of "target" or "acceptable"  
Self-disposition evaluation  
Missouri Highway Patrol and FBI Fingerprint check

Criteria and Procedure for Admission to Directed Teaching

School of Education faculty must approve all student teaching requests.

Completed Application for Directed Teaching  
Updated Missouri Highway Patrol and FBI Fingerprint check
3.0 GPA in content courses (Middle School, High School programs, and K-12 Spanish and Art)
3.0 Professional Education GPA

All students, including Certification and Certification Only, must apply for admission, and meet admission requirements of the School of Education; all students are required to complete professional education sequence classes.

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.
EN105 and EN106

Math Requirement 3 cr.
Select one of the following:
MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.
Select one of the following:
BI101, BI111, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PT155, PY156, PY205, or PY206

Ethics Requirement 3 cr.
Select one of the following:
AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.
Select one of the following:
CA103, CA105, or TH105

Citizenship Requirement 3 cr.
Select one of the following:
PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.
Select one of the following Art or English:
AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:
AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, 
PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

**Natural Science Requirement 3 cr.**

Select one of the following:
BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, 
GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

**Social Science Requirement 6 cr.**

Select two of the following:
AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, 
PS125, PS205, SO141, SO206, or SW205

**Seminar: Integrative & Interdisciplinary Learning 3 cr.**

Select one of the topics for LE300*

**Graduation Requirements**

**Student Seminar 3 cr.**

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

**Upper Division Hours 36 cr.**

36 hours upper division (300 - 400) level course work

**Writing Across the Curriculum 9 cr.**

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, 
PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:
3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student’s major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Additional Requirements

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
A minor for Geography, B.S. and Information Systems, B.S. majors.
Satisfaction of all requirements for a major.
Completion of degree specific requirements.
Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Submission of an Application for Graduation.

Secondary Education, Mathematics Concentration, B.S.E.

Secondary Education, B.S.E.

(Grades 9 through 12)

Requirements For B.S.E. Major — 58 Hours, 2.0 Cumulative; 3.00 Content; and 3.00 Professional Education GPA

No grade lower than a "C" in education core.

Students seeking secondary certification must select one of the following areas of certification:

- Biology
- Chemistry
- Earth Science
- English
- Mathematics
- Social Science

Professional Curriculum

- EDU203 - Educational Psychology Credits: 3
- EDU210 - The School as a Social System Credits: 3
- PS125 - Lifespan Development Credits: 3
EDU300 - Writing in Education **Credits:** 3
EDU310 - Issues in Diversity and World Cultures **Credits:** 3
EDU345 - Teaching Linguistically and Culturally Diverse Learners **Credits:** 3
EDU347 - Family, School and Community Collaboration **Credits:** 3

**Admission to the School**

**Certification Program required for enrollment in the following EDS/EDU courses**

- EDU351 - Strategies for Higher-Order Learning **Credits:** 3
- EDS352 - Building an Effective, Equitable Learning Environment for Secondary Grades **Credits:** 3
- EDS358 - Reading and Writing in the Content Areas **Credits:** 3
- EDS360A - Field Experience I **Credits:** 2

**Additional Requirements**

Park University grants the Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Public Administration, Bachelor of Science in Education, Bachelor of Fine Arts, and the Bachelor of Music Degree upon completion of the following requirements:

- Completion of a minimum of 120 semester hours with a cumulative 2.0 GPA (or higher dependent on major).
- A minor for Geography, B.S. and Information Systems, B.S. majors.
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Submission of an Application for Graduation.

**Nursing (Pre-Licensure), B.S.N.**

The Bachelor of Science in Nursing combines the "art and science" of nursing with a foundation in the liberal arts to prepare graduates who will assume the scope of practice expected of the professional nurse. The theoretical, laboratory, and clinical patient care experiences support learning and exposure to the profession. The Nursing pre-licensure program is designed for the non-nurse or Licensed Practical Nurse who desires a baccalaureate degree in nursing. Preparing students for the future of nursing practice, the program requires students to participate in face-to-face course formats with extensive online resources. All laboratory, patient care, and face-to-face course work is only offered at the Parkville, MO campus. Acceptance to the program is competitive.

Initial approval by the Missouri State Board of Nursing and has been awarded for the Baccalaureate Degree in Nursing (pre-licensure) program at Park University. The baccalaureate degree program in nursing at Park University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

**Procedure to request admission to the BSN Pre-Licensure Major (all applicants)**

The Department accepts two cohorts for the BSN major annually—fall and spring. Cohorts will be selected for the fall semester by the end of June and the spring semester in early December. To be considered for acceptance all requirements must be fully met.
If not a current Park University student, the applicant must apply for admission to Park University. Applicants for the nursing program are accepted through NursingCAS. Deadlines will be published on the Park University website and/or NursingCAS. In order to be considered for the nursing program, all official transcripts must be sent to NursingCAS, the application must be complete, and the fee charged by NursingCAS must be paid.

GPA of 3.0 in foundational science and math courses (CH105, BI210, BI211, BI212, BI223, NS220, MA135, FW175 and CH204). BI210 may be waived if BI211 is completed. Courses in progress during the semester of application will be evaluated upon completion of the course to confirm GPA.

ATI Admissions score must meet minimum admission requirements. Admission Test scores will be valid for one year from testing date. Students may repeat the test to improve their scores. Each attempt requires the student to pay the testing fee.

Will need to provide a short written essay for admission.
For students with an active LPN license, that license must be current and have no state board restrictions.

**Prior learning credit for Practical Nurses**

Since 1987 Park University has provided Licensed Practical Nurses with the opportunity to apply for credit linked to their Practical Nursing education. Practical Nurses may be eligible for Validated Learning Equivalency (VLE) credit (up to 6 credit hours) toward the BSN pre-licensure program requirements. To be eligible for VLE credit students must meet all of the following requirements.

Submit evidence of current undisciplined/unrestricted license as an LPN upon application to Park University. New graduate Practical Nurses must complete the NLCEX-PN and have been issued a license. Any evidence of discipline against the LPN license will be reviewed by the department for approval prior to acceptance to the BSN major. Restrictions to practice by a Board of Nursing make the student ineligible for the BSN major.

Submit official transcripts from PN School and all college level course work through NursingCAS. Students who choose to apply for VLE credit are reminded they will be held accountable for having a working knowledge of all content associated with the courses VLE credit may be awarded for the following course work:

- CH204 Nutrition for the Health Sciences **Credits:** 3
- PS125 Lifespan Development **Credits:** 3
  **Total 6 cr.**

Complete the Procedure to request admission to the BSN major through NursingCAS and as stated above (apply to Park University if not already a student).

**Cohort Selection Priorities**

Each cohort is selected based on the admissions criteria. Priority is given to Admissions Test scores, GPA in the Math and Sciences and completion of all requirements. Incomplete submission (including, but not limited to, nonpayment to NursingCAS or not applying to Park University) of required information removes the candidate from consideration. It is the student’s obligation to assure all requirements are met.

**Progression and Graduation Requirements**

All NUR designated courses require a testing (unit exams, standardized exams, and final exams) average of 78% to pass the course.
All NUR designated courses require a 78% average in the clinical component of the course, if present, to pass the course.
Students who earn less than the minimum requirements in any nursing-designated course will fail that course.
Students who earn less than the minimum requirements in more than one class will be removed from the program.
A nursing GPA of 2.8 is required for graduation.
Pursuant to Section 335.066, RSMo, of the Missouri Nursing Practice Act (http://revisor.mo.gov/main/OneSection.aspx?section=335.066), completion of the Pre-licensure BSN program does not guarantee eligibility to take the licensure examination.

All requirements (i.e., admission, within program and exit) are subject to change as per the Missouri State Board of Nursing and Commission on Collegiate Nursing Education (CCNE).

PRE-NURSING COURSE REQUIREMENTS

Math and Science Requirement 28-29 CR

Must obtain a 3.0 average GPA in all of these courses. Only one Chemistry course with lab is required. BI210 can be waived if BI211 is complete.

   BI210 - The Human Body Credits: 3  
   BI211 - Human Anatomy and Physiology I Credits: 4  
   BI212 - Human Anatomy and Physiology II Credits: 4  
   BI223 - Clinical Microbiology Credits: 4  
   MA135 - College Algebra Credits: 3  
   FW175 - Medical Terminology Credits: 3

   CH105 - Introductory Chemistry Credits: 5  
   or  
   CH107 - General Chemistry I Credits: 3  
   and  
   CH107L - General Chemistry Laboratory I Credits: 1

   CH204 - Nutrition for the Health Sciences Credits: 3  
   MA120 - Basic Concepts of Statistics Credits: 3  
   OR  
   NS220 - Applied Statistics and Experimental Design Credits: 3

Ethics Requirement 3 CR

See the Liberal Education section below for courses that fulfill the Ethics requirement.

Nursing majors may take CS300 or EDU310 to fulfill both the Ethics requirement and the Writing Intensive (outside of the major) requirement.

Humanities Requirement 6 CR

See the Liberal Education section below for courses that fulfill Humanities.

Nursing majors may take EN201, EN221, EN232, or EN234 to fulfill both a Humanities requirement and the Writing Intensive (outside of the major) requirement.

Social Science Requirements 6 CR

   PS101 - Introduction to Psychology Credits: 3
Total 43-44 cr

Note Regarding Admission and Graduation Requirements

The Liberal Education/Graduation requirements below must also be completed prior to Admission to the Nursing major:

- LE100 (freshman only)
- Writing Seminar (EN105 and EN106)
- Communication
- Citizenship
- Writing Intensive course (outside the major)

The following requirements may be completed after admission to the Nursing major:

- LE300* Integrative and Interdisciplinary Learning Capstone
- EN306* Professional Writing in the Disciplines

For more information about these requirements, see the Liberal Education and Graduation requirements sections below.

NURSING MAJOR CORE COURSES

Junior - First Semester
NUR280 - Introduction to Professional Nursing Credits: 2
NUR320 - Concepts of Nursing Fundamentals Credits: 6
NUR338 - Health and Physical Assessment Credits: 4
NUR352 - Pathophysiology for Nurses Credits: 3

Junior - Second Semester
NUR331 - Clinical Applications of Pharmacology I Credits: 2
NUR335 - Adult Health I Credits: 7
NUR356 - Mental Health Nursing Credits: 4
NUR357 - Gerontology Credits: 2

Senior - First Semester
NUR410 - Community Health Credits: 4
NUR431 - Clinical Applications of Pharmacology II Credits: 2
NUR435 - Adult Health II Credits: 7
NUR450 - Evidence-Based Practice Credits: 3

Senior - Second Semester
NUR419 - Women, Children, and Families Credits: 6
NUR460 - Nursing Leadership Credits: 3
NUR475 - Clinical Immersion Credits: 3
NUR480 - Prep to Professional Nursing Credits: 2

Total 60 cr.
Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105

Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216
Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 CR.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Writing Across the Curriculum 9 cr.

3 credit hours of Professional Writing (EN306* or equivalent from the list below) plus 6 credit hours of Writing Intensive coursework are required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS300, PS406 or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Upper Division Requirements 36 cr.
Additional Requirements

Park University grants the Bachelor of Science in Nursing upon completion of the following requirements:

- Completion of a minimum of 124 semester hours with a cumulative 2.8 GPA.
- Satisfaction of major requirements.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
- Completion of residency requirement, 30 hours of earned and graded (A, B, C) college hours at Park University. At least 15 of these 30 hours must be in the major.
- Application to the BSN Program is required.
- Submission of an Application for Graduation.

Social Work, B.S.W.

The Bachelor of Social Work (BSW) prepares students for beginning professional social work practice across a wide variety of social service settings. As generalist social work practitioners, graduates will be prepared to work collaboratively from a strengths based approach with diverse populations. Ecosystems Theory, Strengths Perspective, Multicultural Competence and Social, Economic & Environmental Justice within a global perspective, all serve as overarching conceptual frameworks across the curriculum. All aspects of student learning (curricular and professional) are integrated with the senior year field education practicum experience. Note: The BSW Program at Park University was granted full re-affirmation of accreditation by the Council on Social Work Education (CSWE) in Spring 2019. The BSW Program is accredited through Spring 2025.

BSW Program Application Criteria & Admission Guidelines

Students must complete all Liberal Education (LE) and BSW Program prerequisites prior to the senior year of the BSW Program. Application and admission to the professional undergraduate BSW Program is a separate process from application and admission to Park University. Declaring Social Work as a Major does not guarantee admission into the Program. Procedures 1-3 below must be completed before a student is eligible to apply to the BSW Program. Procedures 4 and 5 provide brief guidelines of the application submission and review process.

DECLARATION OF MAJOR (DOM) in Social Work (SW)

Applicants must be admitted to Park University and have submitted a DOM in SW. A Minor is not required. Once a SW Major is declared, Park assigns the student a BSW Faculty Advisor. The student should contact this advisor and schedule an appointment. Please note: a DOM in SW does not mean the student has been admitted or in any way guarantees admission into the Program.

BSW PREREQUISITE

Academic Advising with BSW Faculty is a critical component of the BSW Program. During initial advising, students share their educational goals and collaborative planning begins. The SW advisor and student will work together to ensure all required prerequisite courses are completed.

ACADEMIC REQUIREMENTS

Completion of a minimum of 60 credit hours of undergraduate college coursework; including all 43 credit hours of required LE courses, with LE300* (or equivalent or an earned AA or AS degree).

A cumulative undergraduate Grade Point Average (GPA) of 2.50 or higher on a 4 point scale. Cumulative GPA is a calculation of all undergraduate grades shown on all transcripts;
considered during the application review. A 2.50 GPA must be maintained throughout the Program. If GPA falls below 2.50, this may result in dismissal from the Program.

Completion of the following courses (or equivalent), with a grade of C or better: SO141 Introduction to Sociology; PS101 Introduction to Psychology; MA120 Basic Concepts of Statistics; SW205 Introduction to Social Work; SO302 The Study of the Family; PS309 Human Sexuality; EN306B Business Communications; SW325 Human Diversity and Social Justice; SW330 Social Welfare Policy and Programs; and two consecutive Modern Language courses. BSW Application Packet may be submitted one term prior to completing EN306B, SO302, PS309, SW325, SW330 or 2nd modern language; but are not considered for 'Full' admission until all courses are completed.

Integrative seminar for social work minors, requires 40 hours of service learning where students may apply skills learned in the classroom in a structured human service setting, military base, etc. This capstone course must be taken in the last semester before graduation.

**APPLICATION SUBMISSION**

All application materials must be submitted to the Department of Social Work, no later than Fall semester of the student's Junior year, for admission consideration for the following academic year. Once the application packet is submitted to the SW Office, it becomes the property of the Department and its content will not be returned to the applicant under any circumstances, including reference letters.

**APPLICATION REVIEW**

The Review is conducted by the BSW Admission & Review Committee. In evaluating applicants, Committee reviewers consider the applicant's: academic performance; GPA; participation and performance in SW courses; written and verbal communication skills; applicant's commitment to social work and suitability for the profession; work and volunteer experiences; and references. A personal interview may be required. The Committee determines the applicant's admission status as either: Full, Provisional, Probationary, Deferred or Denied. The BSW Program Director shares admission decision with applicant via student's Park email. In accordance with CSWE accreditation standards, the BSW Program does not grant course credit for life experience or previous work experience. However, these experiences are carefully considered during the application review process. Therefore, make sure to clearly note these experiences on your résumé.

**Requirements For: B.S.W. Major – 45 hours, 2.5 GPA, Grade of C or better**

**Core Curriculum 15 cr.**

*(SW Major, pre-application to BSW Program)*

- PS309 - Human Sexuality **Credits:** 3
- SO302 - The Study of the Family **Credits:** 3
- SW205 - Introduction to Social Work **Credits:** 3
- SW325 - Human Diversity and Social Justice **Credits:** 3
- SW330 - Social Welfare Policy and Programs **Credits:** 3

**Core Curriculum 30 cr.**

*(SW Major, post admission to BSW Program)*

- SW400 - Human Behavior in the Social Environment I **Credits:** 3
- SW405 - Human Behavior and Social Environment II **Credits:** 3
- SW406 - Social Work Research **Credits:** 3
- SW407 - Social Work Practice II: Groups **Credits:** 3
Notes:

Conditional Admission to the BSW Program (referred to as Pre-Major status). Students who have successfully completed Criteria 1 through 3 may be conditionally admitted to the BSW program and begin taking those social work courses not restricted to social work majors. Full admission to the major is contingent upon completion of Criteria 1 through 5. Students who have met the pre-requisites may apply to the BSW program by the end of fall semester with approval from the student's social work advisor and, if admitted, may be granted permission to enroll in SW400 - Human Behavior in the Social Environment I (Fall semester prior to senior year) and SW 405 - Human Behavior and Social Environment II (Spring semester prior to senior year).

Liberal Education Requirements 40 CR.

Writing Seminar 6 cr.

EN105 and EN106

Math Requirement 3 cr.

Select one of the following:

MA120, MA135, or higher math course excluding MA208

Science with a lab Requirement 4 cr.

Select one of the following:

BI101, BI111, BI211, BI212, BI223, BIO221, BIO225, BIO226, BIO325, BIO327, BIO330, BIO337L and BIO337, BIO350, BIO400, BIO410, BIO411, BIO417, CH101, CH105, CH107L and CH107, CH108L and CH108, CH317L and CH317, CH318L and CH318, CH328, CH329, CH337L and CH337, CH405, CH440, GGP115, GGP205, GO130, GO141, GO151, GO200, GO310, GO320, GO330, PY155, PY156, PY205, or PY206

Ethics Requirement 3 cr.

Select one of the following:

AC435, CA302, CS300, EDU310, MG495, NS306, PA380, PH102, PH221, PH224, PH308, PS220, SO220, SW492

Communications Requirement 3 cr.

Select one of the following:

CA103, CA105, or TH105
Citizenship Requirement 3 cr.

Select one of the following:

PO200, PO210, HIS111, HIS112, or HIS113

Humanities Requirement 6 cr.

Select one of the following Art or English:

AR115, AR215, AR216, EN201, EN221, EN232, EN234

And one of the following:

AR115, AR215, AR216, EN201, EN221, EN232, EN234, CA104, CA116, CA235, FR201, ML235, ML251, PH101, PC202, PH205, RE109, SP110, SP201, SP202, TH100, TH101, TH201, TH216

Natural Science Requirement 3 cr.

Select one of the following:

BI214, CH101, CH102, CH105, CH107 CH107L, CH108 CH108L, GGP115, GGP120, GGP205, GO125, GO130, GO141, GO151, GO200, NS220, NS241, PY101, PY155, PY156, PY205, or PY206

*Computer Science and PE courses excluded.

Social Science Requirement 6 cr.

Select two of the following:

AN100, CJ100, CJ200, EC141, EC142, EDU210, FI201, GGH110, GGH200, HIS104, HIS105, PO216, PS101, PS125, PS205, SO141, SO206, or SW205

Seminar: Integrative & Interdisciplinary Learning 3 cr.

Select one of the topics for LE300*

Graduation Requirements

Student Seminar 3 CR.

LE100 First-Year Seminar (required for all incoming first-time freshman and highly encouraged for transfer students)

Upper Division Requirements 36 cr.

36 hours of upper division (300-400) level course work

Writing Across the Curriculum 9 cr.
3 hours of Professional Writing (EN306* or equivalent from the list below) plus 6 hours of Writing Intensive coursework is required.

EN306A, EN306B, EN306C, EN307, EDU300, CJ450, HIS455, MG306, NS306, PA430, PO405, PS 300, PS406, or SO310

6 credit hours to fulfill the Writing Intensive requirement must be chosen from among the courses designated in the catalog as "WI" (Writing Intensive), composed as follows:

3 of the credit hours must come from a WI course outside the student's major(s); that is, the course must be offered by a program other than the one(s) that house(s) the student's major area of study at the time the course is taken.

3 of the credit hours must come from a WI course that is offered by the student's major program; that is, the course must be offered by the same program that houses the student's major at the time the course is taken.

AR316, AR498, BIO498, CA218, CA318, CH342, CJ221, CS300, EDU310, EN201, EN221, EN232, EN234, EN490, FW190, GGP350, HIS261, HIS453, LE410, MA301, ML251, MG495, NUR460, PA432, PO210, PS315, SO141, SP320, SW325

Modern Language Requirement

Completion of two, 4-hour elementary level modern language courses (103 and 104); or the second 4-hour elementary level modern language course (104) and one, 3-hour intermediate course (201); or one, 3-hour intermediate course (201). Placement will be determined through a Modern Language Placement test.

**Elementary Level 8 cr.**

FR103 and FR104; GE103 and GE104; SP103 and SP104 or transfer equivalent

Or

**Secondary Level 7 cr.**

FR104 and FR201; GE104 and GE201; SP104 and SP201; or transfer equivalent

Or

**Intermediate Level 3 cr.**

FR202 or GE202 or SP202 or transfer equivalent

Additional Requirements

Park University grants the Bachelor of Social Work upon completion of the following requirements:

- Completion of a minimum of 122 semester hours with a cumulative 2.5 GPA (or higher dependent on major).
- Satisfaction of all requirements for a major.
- Completion of degree specific requirements.
- Completion of Liberal Education requirements.
Completion of residency requirement, 30 hours of earned and graded (A, B, C, D) college hours at Park University. At least 15 of these 30 hours must be in the major.
Application to BSW Program required.
Submission of an Application of Graduation.

**Minor Programs**

**Accounting, Minor**

**Requirements For: Business Minor – 18 Hours, 2.0 GPA**

- AC309 - Individual Income Tax **Credits**: 3
- AC320 - Intermediate Accounting I **Credits**: 3
- AC325 - Intermediate Accounting II **Credits**: 3
- AC350 - Accounting Information Systems **Credits**: 3
- AC380 - Cost Accounting **Credits**: 3

One course from the following:

- AC230 - Computer-Based Accounting Systems **Credits**: 3
- AC330 - Intermediate Accounting III **Credits**: 3
- AC430 - Auditing **Credits**: 3
- AC435 - Ethics for Accountants **Credits**: 3
- AC451 - Accounting Internship **Credits**: 1-6

**Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA**

- AC201 - Principles of Financial Accounting **Credits**: 3
- AC202 - Principles of Managerial Accounting **Credits**: 3
- AC320 - Intermediate Accounting I **Credits**: 3
- MG260 - Business Law I **Credits**: 3
- MG371 - Management and Organizational Behavior **Credits**: 3
- MK351 - Principles of Marketing **Credits**: 3

One course from the following:

- AC230 - Computer-Based Accounting Systems **Credits**: 3
- AC309 - Individual Income Tax **Credits**: 3
- AC325 - Intermediate Accounting II **Credits**: 3
- AC350 - Accounting Information Systems **Credits**: 3
- AC380 - Cost Accounting **Credits**: 3

**Analytics, Minor**

**Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA**
The Analytics minor is designed to prepare students for applying analytical and problem-solving thinking and skills in an organization. The purpose of the program is to develop students' knowledge base of the current analytics as well as problem-solving skills within the functional areas of an organization.

BAI209 - Survey of Analytical Approaches **Credits:** 3
BAI229 - Decision Making and Problem Analysis **Credits:** 3
BAI405 - Data Visualization and Story Telling **Credits:** 3
BAI407 - Predictive Analytics and Risk Analysis **Credits:** 3
BAI427 - Prescriptive Analytics for Decision Making **Credits:** 3
BAI491 - Capstone in Business Analytics **Credits:** 3
SO255 - Social Life of Data **Credits:** 3

**Art History, Minor**

The Program Coordinator of Fine Art will serve as the advisor for students seeking this minor.

**Requirements for: Minor – 18 Hours, 2.0 GPA**

*Six courses from any of the following:*

- AR115 - Introduction to the Visual Arts **Credits:** 3
- AR215 - Art History I **Credits:** 3
- AR216 - Art History II **Credits:** 3
- AR298 - History of the Designed Environment: Antiquity to Mid-Nineteenth Century **Credits:** 3
- AR316 - Modern Art **Credits:** 3
- AR317 - World Art **Credits:** 3
- AR319 - History of Graphic Design **Credits:** 3
- AR323 - Renaissance and Baroque Art **Credits:** 3
- AR390 - History of the Designed Environment: Mid-Nineteenth Century to the Present **Credits:** 3
- HIS203 - Introduction to Historic Preservation **Credits:** 3
- HIS204 - Introduction to Museum Studies **Credits:** 3
- HIS316 - Historical Material Conservation **Credits:** 3
- LE300L - World Art **Credits:** 3

**Note:**

In addition, AR315 - Special Topics in Art or Design, when the topic is art historical; AR313 - Independent Study in Art or Design, when the project developed between the student and the professor is art historical in nature; AR415 - Internship in Art or Design, when the internship is in a museum or gallery setting, and Study Abroad courses, can be included in the 18 hours that make up this Minor.

**Biology, Minor**

**Requirements For: Minor – 18 hours, 2.0 GPA**

18 hours must be from BIO courses

*For those students wishing to obtain a secondary teaching certificate in Biology, see also Bachelor of Science in Education.*
Business Economics, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

- EC300 - Intermediate Microeconomics Credits: 3
- EC301 - Intermediate Macroeconomics Credits: 3
- EC303 - Money, Credit and Banking Credits: 3

Three courses from the following:

- EC302 - Labor Economics Credits: 3
- EC309 - Economic Development Credits: 3
- EC407 - International Trade and Finance Credits: 3
- EC450 - Senior Seminar in Economics Credits: 3
- IB331 - International Negotiations Credits: 3
- IB431 - International Finance Credits: 3
- HR357 - Employment Law Credits: 3
- MG420 - Labor Relations Credits: 3

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

- EC141 - Principles of Macroeconomics Credits: 3
- EC142 - Principles of Microeconomics Credits: 3
- EC300 - Intermediate Microeconomics Credits: 3
- EC301 - Intermediate Macroeconomics Credits: 3
- EC303 - Money, Credit and Banking Credits: 3

Two courses from the following:

- AC201 - Principles of Financial Accounting Credits: 3
- AC202 - Principles of Managerial Accounting Credits: 3
- EC302 - Labor Economics Credits: 3
- EC309 - Economic Development Credits: 3
- EC407 - International Trade and Finance Credits: 3
- EC450 - Senior Seminar in Economics Credits: 3

Chemistry, Minor

Requirements For: Minor - 18-20 Hours, 2.0 GPA

- CH107 - General Chemistry I Credits: 3
- CH107L - General Chemistry Laboratory I Credits: 1
- CH108 - General Chemistry II Credits: 3
- CH108L - General Chemistry Laboratory II Credits: 1
- 10-12 additional hours chosen from remaining chemistry coursework

Citizenship and Service, Minor
This minor is focused on civic engagement and service with Park’s motto of *Fides et Labor* as its inspiration. It seeks to combine academic coursework with service to the community – be that at the local, national, or global level. Student activities in the community are integrated into the classroom to transform and enrich learning, and conversely, what students learn in the classroom can be applied in the community to encourage engaged and informed citizens.

Students can earn one (1) credit hour for every forty (40) hours of service work up to a maximum of 12 hours of academic credit in CE 200. A minimum of 120 hours of documented service work are required for this minor. Students are required to provide a portfolio of their civic engagement experience for evaluation.

**Requirements for Minor - 18 Hours, 2.0 GPA**

- **CE200 - Civic Engagement** *Credits:* 3-9
- **CA233 - Introduction to Leadership** *Credits:* 3
- **CA493 - Leadership for Civic Engagement** *Credits:* 3

**Electives**

Choose 0-4 courses from the list below. The total number of courses needed depends upon the amount of civic engagement credit hours a student completes in the core.

- **CA235 - Multicultural Communication** *Credits:* 3
- **CA392 - Organizational Leadership** *Credits:* 3
- **GGP120 - Global Sustainability** *Credits:* 3
- **PA331 - Public Organizations** *Credits:* 3
- **PA380 - Public Service Values** *Credits:* 3
- **PC321 - Interpersonal Conflict Resolution** *Credits:* 3
- **PO200 - American National Government** *Credits:* 3
- **RE109 - World Religions** *Credits:* 3
- **SO206 - Social Issues in Contemporary Society** *Credits:* 3

**Construction Management, Minor**

**Requirements For: Business Minor – 18 Hours, 2.0 GPA**

- **CO111 - Introduction to Engineer Construction Technology/Design/Materials and Safety** *Credits:* 3
- **CO121 - Plans Analysis** *Credits:* 3
- **CO235 - Construction Planning** *Credits:* 3
- **CO360 - Project Management/Critical Path Analysis** *Credits:* 3

Select two from the following: 6 CR.

- **CO225 - Building Codes** *Credits:* 3
- **CO245 - Construction Estimating** *Credits:* 3
- **CO315 - Special Topics in Construction Management** *Credits:* 3
- **CO365 - Construction Project Management** *Credits:* 3
- **CO450 - Construction Management Internship** *Credits:* 3
- **MG375 - Production and Operations Management** *Credits:* 3
Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

AC201 - Principles of Financial Accounting Credits: 3
MG260 - Business Law I Credits: 3
MG371 - Management and Organizational Behavior Credits: 3
MG375 - Production and Operations Management Credits: 3

Select three of the following: 9 CR.

CO111 - Introduction to Engineer Construction Technology/Design/Materials and Safety Credits: 3
CO121 - Plans Analysis Credits: 3
CO225 - Building Codes Credits: 3
CO235 - Construction Planning Credits: 3
CO245 - Construction Estimating Credits: 3
CO360 - Project Management/Critical Path Analysis Credits: 3
CO365 - Construction Project Management Credits: 3

Criminal Justice Administration, Minor

Requirements for Minor – 18 Hours, 2.0 GPA

18 hours which must include

CJ100 - Introduction to Criminal Justice Administration Credits: 3
CJ105 - Criminal Law Credits: 3
CJ200 - Criminology Credits: 3

9 hours of CJ electives excluding

CJ440 - Internship in Criminal Justice Credits: 3-6
CJ441 - Senior Writing Project Credits: 3
CJ450 - Senior Seminar in Criminal Justice Credits: 3

Digital Marketing, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

CA218 - Public Relations Credits: 3
CA224 - Digital Media Skills Credits: 3
or
CA225 - Online Content Creation Credits: 3
MK369 - E-Marketing Credits: 3
MK385 - Consumer Behavior Credits: 3
MK405 - Social Media Marketing Credits: 3
MK411 - Marketing Management Credits: 3
Requirements For: NonBusiness Minor - 24 Hours, 2.0 GPA

CA224 - Digital Media Skills Credits: 3
or
CA225 - Online Content Creation Credits: 3

IB315 - International Business Perspectives Credits: 3
MG371 - Management and Organizational Behavior Credits: 3
MK351 - Principles of Marketing Credits: 3
MK369 - E-Marketing Credits: 3
MK380 - Advertising Credits: 3
MK385 - Consumer Behavior Credits: 3
MK405 - Social Media Marketing Credits: 3

Economics, Minor

Requirements For: Minor–18 Hours, 2.0 GPA

EC141 - Principles of Macroeconomics Credits: 3
EC142 - Principles of Microeconomics Credits: 3
12 hours of upper division Economics electives

English, Minor

Requirements For: Minor – 18 Hours, 2.0 GPA

For those wanting to supplement their major with a solid foundation in reading, writing, and critical thinking, the English minor is a great choice. You can choose from a wide range of courses in literature, rhetoric and composition, creative writing, and professional and technical writing. Dive deep into a specific interest by taking several courses within a single emphasis or broaden your horizons by selecting courses from each category, seeing the full breadth of what English studies offers. The choice is yours.

EN201 - Introduction to Literature Credits: 3
Six hours of any EN courses 200-level or above Credits: 6
Nine hours of any EN courses 300-level or above Credits: 9

Total 18 cr.

Finance, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

EC303 - Money, Credit and Banking Credits: 3
FI415 - Financial Analysis and Planning Credits: 3
FI417 - Investment Analysis and Management Credits: 3
FI425 - Principles of Real Estate Credits: 3
Two courses from the following

- AC309 - Individual Income Tax Credits: 3
- FI325 - Risk and Insurance Credits: 3
- FI380 - Financial Counseling Credits: 3
- FI419 - Retirement and Employee Benefit Planning Credits: 3
- FI420 - Estate Planning Credits: 3
- FI423 - Professional Financial Planning Credits: 3
- FI424 - Personal Financial Planning Capstone Credits: 3
- FI410 - Problems in Corporate Finance Credits: 3
- IB431 - International Finance Credits: 3

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

- AC201 - Principles of Financial Accounting Credits: 3
- AC202 - Principles of Managerial Accounting Credits: 3
- EC141 - Principles of Macroeconomics Credits: 3
- FI360 - Financial Management Credits: 3

Three Courses from the Following

- EC303 - Money, Credit and Banking Credits: 3
- FI325 - Risk and Insurance Credits: 3
- FI410 - Problems in Corporate Finance Credits: 3
- FI415 - Financial Analysis and Planning Credits: 3
- FI417 - Investment Analysis and Management Credits: 3
- FI425 - Principles of Real Estate Credits: 3
- IB431 - International Finance Credits: 3

Fine Art, Minor

Requirements For: Minor – 21 Hours, 2.5 GPA

Foundations:

- AR140 - Drawing I Credits: 3
  Electives from Foundations courses within Art Credits: 3

Introduction to Media:

Select two of the following courses:

- AR218 - Graphic Design Software Credits: 3
- AR221 - Ceramics I Credits: 3
- AR240 - Drawing II Credits: 3
- AR241 - Photography I Credits: 3
- AR270 - Fiber I Credits: 3
- AR280 - Painting I Credits: 3
Art History and Theory:

Select one course from the following:

- AR215 - Art History I Credits: 3
- AR216 - Art History II Credits: 3
- AR316 - Modern Art Credits: 3

Studio Practice:

An additional 6 hours from Intermediate or Advanced Studio courses in Painting, Drawing, Photography, Ceramics, Fiber or Special Topics

Note:

**For those students wishing to teach K-12 Art: See also Bachelor of Science in Education

Portfolios:

All graduating art and design majors are required to individually document by means of digital photography selected examples of their best work. These final portfolios are to be submitted to their major advisors as part of their Senior Seminar. CDs of the portfolio will remain the property of the Department of Art, Design and Interdisciplinary Studies.

Art Supplies:

Art and Design majors must plan, when preparing their yearly educational budgets, to spend at least $300 per semester on art supplies. All studio art courses require varying amounts of personal equipment and supplies. Studio fees collected at registration for some art courses provide only a portion of the supplies needed. Supply lists will be provided on the first day of classes.

Fitness and Wellness, Minor

Requirements For: Minor – 18-19 Hours, 2.0 GPA

- BI210 - The Human Body Credits: 3
- or
- BI211 - Human Anatomy and Physiology I Credits: 4

- BI214 - Personal and Community Health Credits: 3
- FW122 - Human Nutrition Credits: 3
- FW175 - Medical Terminology Credits: 3

Electives 6 cr.

Select two of the following:

- FW190 - Health, Sport, & Exercise Science Credits: 3
- FW200 - Resistance Exercise Instruction Credits: 3

1555
Geographical Information Systems, Minor

The minor provides students interested in Geographical Information Systems (GIS) an opportunity to pursue their studies in this specialized field of geography. This rapidly growing technology is proving to become a needed job skill in this computer age in virtually all fields, especially those in Natural Sciences, Social Sciences and Business.

Requirements For: Minor – 21 Hours, 2.0 GPA

- GGP270 - Spatial Analysis Credits: 3
  or
- NS220 - Applied Statistics and Experimental Design Credits: 3
- GGP330 - Cartography Credits: 3
- GGP335 - Remote Sensing Credits: 3
- GGP350 - GIS I Credits: 3
- GGP355 - GIS II Credits: 3
- GGP450 - Internship in GIS Credits: 3
- IS205 - Managing Information Systems Credits: 3

Geography, Minor

The minor provides students interested in geography an opportunity to pursue their studies in the discipline. A variety of geography subjects are available and students may select courses in line with their specific academic and career goals.

Requirements For: Minor – 18 or more Hours, 2.0 GPA

A minimum of eighteen hours from any courses in Geography (GGH, GGP) can be taken to fulfill this requirement.

Geoscience, Minor

The minor provides students interested in the geosciences an opportunity to pursue their studies in physical geography/geology. A variety of geoscience subjects are available and students may select courses in line with their specific academic and career goals.

Requirements For: Minor – 18-20 Hours, 2.0 GPA

Complete 18-20 hours from the following courses:

- GGP115 - Physical Geography Credits: 4
- GGP205 - Meteorology Credits: 4
GGP290 - Selected Topics in Physical Geography Credits: 1-4
GGP335 - Remote Sensing Credits: 3
GGP370 - Biogeography Credits: 3
GGP390 - Special Topics in Physical Geography Credits: 1-4
GO125 - Natural Disasters Credits: 3
GO130 - Astronomy Credits: 4
GO141 - Physical Geology Credits: 4
GO151 - History of the Earth Credits: 4
GO200 - Oceanography Credits: 4
GO215 - Selected Topics in Geology Credits: 1-4
GO300 - Dinosaurs Credits: 3
GO310 - Sedimentology and Stratigraphy Credits: 4
GO315 - Special Topics in Geology Credits: 1-4
GO320 - Geomorphology Credits: 4

GO330 - Paleobiology Credits: 4
or
BIO330 - Paleobiology Credits: 4

**Global Studies, Minor**

**Requirements For: Minor – 18 Hours, 2.0 GPA**

**Core 6 cr.**

- PO210 - Comparative Political Systems Credits: 3
- PO216 - International Relations Credits: 3

**Electives 12 cr.**

Choose one course in each category.

**Business, Economics, and Marketing**

- EC402 - Comparative Economic Systems Credits: 3 *
- EC407 - International Trade and Finance Credits: 3 *
- IB302 - International Business Culture Credits: 3
- IB315 - International Business Perspectives Credits: 3
- IB431 - International Finance Credits: 3 *
- IB451 - Seminar on International Business Credits: 3 *
- MK395 - International Marketing Credits: 3 *

**Geography**

- GGH201 - Geography of Africa Credits: 3
- GGH202 - Geography of Latin America Credits: 3
- GGH203 - Geography of Europe Credits: 3
- GGH204 - Geography of Asia Credits: 3
- GGH206 - Geography of the Middle East Credits: 3
- GGH305 - Geography of Russia Credits: 3
History

HIS211 - The Great War: 1914-1918 Credits: 3  
HIS332 - World War II Credits: 3  
HIS335 - Modern Germany Credits: 3  
HIS336 - The Long 19th Century Credits: 3  
HIS337 - Modern Europe Credits: 3

Global/international humanities electives

AR216 - Art History II Credits: 3  
AR317 - World Art Credits: 3  
CA235 - Multicultural Communication Credits: 3  
ML235 - Survey of European Literature Credits: 3  
ML315 - Selected Topics in Literature and Culture Credits: 3  
MU260 - Introduction to Music Credits: 3  
PC315 - Global Peace Issues Credits: 3  
RE109 - World Religions Credits: 3

Note:

*Course has prerequisites

Global Sustainability, Minor

Requirements For: Minor – 18-19 Hours, 2.0 GPA

GGH326 - Resources and People Credits: 3  
GGP120 - Global Sustainability Credits: 3  
GGP301 - Renewable Energy Technologies Credits: 3  
GGP340 - Environmental Planning Credits: 3

Electives 6-8 cr.

BI111 - Environmental Biology Credits: 4  
BIO327 - Introductory Ecology and Evolution Credits: 4  
CH101 - Chemistry in the World Credits: 4  
GGP205 - Meteorology Credits: 4  
GGP345 - Land Use Planning Credits: 3  
GGP350 - GIS I Credits: 3  
GGP365 - Geography of Disease Credits: 3  
GGP370 - Biogeography Credits: 3  
GO125 - Natural Disasters Credits: 3  
GO151 - History of the Earth Credits: 4  
GO200 - Oceanography Credits: 4  
GO330 - Paleobiology Credits: 4

Graphic Design, Minor

Requirements for: Minor – 21 Hours, 2.0 GPA
Freshman Core 9 cr.

- AR142 - Two-Dimensional Design Credits: 3
- AR143 - Three-Dimensional Design Credits: 3
- AR144 - Color Theory Credits: 3

Graphic Design Curriculum 9 cr.

- AR218 - Graphic Design Software Credits: 3
- AR231 - Graphic Design Studio I Credits: 3
- AR300 - Graphic Design Principles II: Typography & Design Credits: 3

Select one of the following:

- AR328 - Graphic Design Principles: Identity Credits: 3
- AR427 - Web Page Design: Digital Environment Credits: 3

Note:

*Students required to pass any of these courses as part of their major must substitute them with other ART courses with the approval of the Art & Design department Chair.

Healthcare, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

- HC351 - Organization and Administration of Healthcare Programs Credits: 3
- HC451 - Healthcare and the Political Process Credits: 3
- HC461 - The Hospital and the Community Credits: 3
- HC465 - Basic Issues in Community Based Healthcare Delivery Credits: 3
- HR353 - Introduction to Human Resource Management Credits: 3

One course from the following

- HC261 - Legal and Ethical Issues in Healthcare Delivery Credits: 3
- HC466 - Planning and Organizing Community Health Services Credits: 3
- HC467 - Principles of Risk Management and Patient Safety Credits: 3
- MG375 - Production and Operations Management Credits: 3

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

- AC201 - Principles of Financial Accounting Credits: 3
- HC261 - Legal and Ethical Issues in Healthcare Delivery Credits: 3
- HC351 - Organization and Administration of Healthcare Programs Credits: 3
- HC451 - Healthcare and the Political Process Credits: 3
- HC461 - The Hospital and the Community Credits: 3
- HC465 - Basic Issues in Community Based Healthcare Delivery Credits: 3
One course from the following

HC466 - Planning and Organizing Community Health Services Credits: 3
HC467 - Principles of Risk Management and Patient Safety Credits: 3
HR353 - Introduction to Human Resource Management Credits: 3
MG375 - Production and Operations Management Credits: 3

**History, Minor**

**Requirements For: Minor – 18 hours, 2.75 gpa**

HIS One course from each area of concentration Credits: 18
One 100 level course (100-199)
Two 200 level courses (200-299)
Three 300 level courses (300-399)

**Homeland Security, Minor**

**Requirements for: Minor – 18 Hours, 2.0 GPA**

CJ233 - Introduction to Security Credits: 3
CJ251 - Terrorism and Domestic Preparedness Credits: 3
CJ333 - Security Administration Credits: 3
CJ353 - Emergency Management Credits: 3
CJ355 - Homeland Security Credits: 3
GGH310 - Geography of Terrorism Credits: 3

**Human Resource Management, Minor**

**Requirements For: Business Minor – 18 Hours, 2.0 GPA**

HR355 - Planning and Staffing Credits: 3
HR357 - Employment Law Credits: 3

**HR 300-400 level**

Two HR classes at 300-400 level Credits: 6

**Two courses from the following:**

EC300 - Intermediate Microeconomics Credits: 3
EC301 - Intermediate Macroeconomics Credits: 3
EC302 - Labor Economics Credits: 3
IS205 - Managing Information Systems Credits: 3
IB315 - International Business Perspectives Credits: 3
Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

AC201 - Principles of Financial Accounting Credits: 3
MG260 - Business Law I Credits: 3
MG371 - Management and Organizational Behavior Credits: 3
HR353 - Introduction to Human Resource Management Credits: 3
HR357 - Employment Law Credits: 3

HR 300-400 Level

HR class at the 300-400 level Credits: 3

One course from the following

AC202 - Principles of Managerial Accounting Credits: 3
EC141 - Principles of Macroeconomics Credits: 3
or
EC142 - Principles of Microeconomics Credits: 3

FI360 - Financial Management Credits: 3
IB315 - International Business Perspectives Credits: 3
MG261 - Business Law II Credits: 3
MG315 - Advanced Business Statistics Credits: 3
MK351 - Principles of Marketing Credits: 3

Information and Computer Science, Minor

Requirements For: Minor – 18 hours, 2.0 gpa

CS152 - Introduction to Python Programming Credits: 3
CS208 - Discrete Mathematics Credits: 3
CS252 - Object-Oriented Programming Credits: 3
CS365A - Computer Networking I Credits: 3
IS205 - Managing Information Systems Credits: 3
IS361 - Data Management Concepts Credits: 3

International Business, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

IB302 - International Business Culture Credits: 3
IB451 - Seminar on International Business Credits: 3
MK395 - International Marketing Credits: 3

Three Courses from the Following

CS300 - Technology in a Global Society Credits: 3
EC309 - Economic Development Credits: 3
IB331 - International Negotiations Credits: 3
IB420 - International Trade Credits: 3
IB431 - International Finance Credits: 3
IB461 - International Business Internship Credits: 1-6
PO345 - International Organizations Credits: 3

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

IB302 - International Business Culture Credits: 3
IB315 - International Business Perspectives Credits: 3
MG260 - Business Law I Credits: 3
MG371 - Management and Organizational Behavior Credits: 3
MK351 - Principles of Marketing Credits: 3
MK395 - International Marketing Credits: 3

One course from the following

AC201 - Principles of Financial Accounting Credits: 3
CS300 - Technology in a Global Society Credits: 3
EC141 - Principles of Macroeconomics Credits: 3
EC309 - Economic Development Credits: 3
IB331 - International Negotiations Credits: 3
IB431 - International Finance Credits: 3
IB461 - International Business Internship Credits: 1-6
PO345 - International Organizations Credits: 3

Journalism, Minor

Requirements For: Minors – 24 Hours, 2.0 GPA

CA202 - Fundamentals of Writing for Media Credits: 3
CA224 - Digital Media Skills Credits: 3
CA316 - Writing and Reporting on Multiple Platforms Credits: 3
CA319 - Writing for Feature, Public Relations, and Documentary Credits: 3
CA320 - Global and Civic Reporting Credits: 3
CA324 - Advanced Multimedia Production Credits: 3
CA302 - Communication Ethics and Law Credits: 3

Select one of the following:

CA203 - Multimedia Practicum I: Content Development Credits: 3
CA303 - Multimedia Practicum II: Editing and Strategic Communication Credits: 3
CA403 - Multimedia Practicum III: Major Project in Journalism, Photography or Public Relations  
Credits: 3

Note:

Successful Senior Portfolio required for graduation

Leadership, Minor

Requirements For: Minor – 18 hours, 2.0 gpa

The interdisciplinary leadership minor offered by the Department of Communication, Journalism, and Public Relations develops leaders who are prepared for lifelong learning in the area of leadership practice and skill development. Students completing the minor will communicate effectively, be creative, and have the interpersonal and organizational skills to excel in the complex organizations of a global society.

Core 12 cr.

CA233 - Introduction to Leadership Credits: 3  
CA235 - Multicultural Communication Credits: 3  
CA392 - Organizational Leadership Credits: 3  
CA493 - Leadership for Civic Engagement Credits: 3

Electives 6 cr.

Choose two of the following, not from the same discipline.

CA475 - Case Studies in Communication Leadership Credits: 3  
PA333 - Public Management and Leadership Credits: 3  
PC321 - Interpersonal Conflict Resolution Credits: 3  
PS341 - Positive Psychology Credits: 3  
PS301 - Social Psychology Credits: 3

Note:

And other courses upon approval of advisor and department

Legal Studies, Minor

Requirements For: Minor – 18 hours, 2.5 gpa

PO200 - American National Government Credits: 3  
PO202 - Introduction to Law Credits: 3  
PO304 - Constitutional Law Credits: 3  
PO323 - Congress and the Presidency Credits: 3  
PO450 - Internship Credits: 3  
PH103 - Fundamentals of Logic Credits: 3
Logistics, Minor

Requirements For: Business Minor – 18 Hours, 2.0 GPA

- MG375 - Production and Operations Management Credits: 3
- LG312 - Transportation and Distribution Systems Credits: 3
- LG415 - Quality Control Credits: 3
- LG424 - Purchasing and Vendor Management Credits: 3
- LG426 - Logistics Management Credits: 3

One course from the following

- LG305 - International Logistics Credits: 3
- LG324 - Contract Management and Law Credits: 3
- LG400 - Logistics Internship Credits: 3-6

Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA

• Two MK electives at 300-400 level Credits: 6

Mathematics, Minor

Requirements For: Minor – 22 hours, 2.0 gpa

• MA221 - Calculus and Analytic Geometry for Majors I Credits: 5
• MA222 - Calculus and Analytic Geometry for Majors II Credits: 5
• MA223 - Calculus and Analytic Geometry for Majors III Credits: 3
• MA311 - Linear Algebra Credits: 3
• and two additional mathematics courses numbered at the 300 level or above.

Military History, Minor

Requirements For: Minor - 18 Hours, 2.75 GPA

• HIS252 - The History of Warfare Credits: 3
• HIS200 - The History of Military Thought Credits: 3
• HIS390 - U.S. Military History Credits: 3
• GGH310 - Geography of Terrorism Credits: 3
• SO318 - Military Sociology Credits: 3
• PO344 - War and Terrorism Credits: 3

Military Science, Minor

This minor is only open to ROTC students.

Requirements for: Minor - 20 Hours, 2.0 GPA

• MI302 - Leadership Practicum V Credits: 2
• MI312 - Leadership Practicum VI Credits: 2
• MI316 - Leadership and Problem Solving Credits: 3
Military Studies, Minor

Requirements For: Minor – 18 hours, 2.0 gpa

- HIS211 - The Great War: 1914-1918Credits: 3
- HIS330 - U.S. Military History Credits: 3
- HIS332 - World War II Credits: 3
- PO320 - American Foreign Policy Credits: 3
- Plus additional Hours from electives and/or Military Service Credit Credits: 6

Multidisciplinary Arts, Minor

The minor in Multidisciplinary Arts provides an opportunity to explore artistic expression across a number of fields and disciplines. While engaging students in both the production and appreciation of artistic works, it also encourages them to extend their studies into either the performative or theoretical aspects of literature, theatre, visual art, history, communication, and music.

Requirements For: Minor – 18 hours, 2.0 gpa

Students must choose at least six hours from each of the two areas. The selections must represent at least three different course prefixes (e.g., CA, EN, AR).

Arts Appreciation at least 6 cr.

- AR115 - Introduction to the Visual Arts Credits: 3
- AR215 - Art History I Credits: 3
- AR298 - History of the Designed Environment: Antiquity to Mid-Nineteenth Century Credits: 3
- AR316 - Modern Art Credits: 3
- EN201 - Introduction to Literature Credits: 3
- EN221 - African-American Literature Credits: 3
- EN341 - Literature and Film Credits: 3
- HIS316 - Historical Material Conservation Credits: 3
- MI235 - Survey of European Literature Credits: 3
- MU205 - Music Appreciation Credits: 3
- TH100 - Introduction to Theatre Credits: 3

Studio Art and Performance at least 6 cr.

- AR140 - Drawing I Credits: 3

- AR241 - Photography I Credits: 3

or
• CA241 - Photography I **Credits**: 3

• AR218 - Graphic Design Software **Credits**: 3
• AR221 - Ceramics I **Credits**: 3
• AR270 - Fiber I **Credits**: 3
• AR280 - Painting I **Credits**: 3
• CA203 - Multimedia Practicum I: Content Development **Credits**: 3
• EN311 - Creative Writing **Credits**: 3
• HIS305 - The Art of Expression in Public History **Credits**: 3

**Natural Science, Minor**

**Requirements For: Minor – 19 hours, 2.0 gpa**

This interdisciplinary minor is designed for students seeking a generalized knowledge of the natural and physical sciences. It is recommended for those not majoring in the sciences but who wish to gain a better appreciation for science and acquire a broad base of knowledge in biology, chemistry, and geoscience. It is also appropriate for those interested in teaching general science content, especially at the elementary level. A GPA of 2.0 or better is required.

At least one course from each of the following:

**Biology**

• BI101 - Biological Concepts **Credits**: 4
• BI111 - Environmental Biology **Credits**: 4
• BI210 - The Human Body **Credits**: 3
• BI214 - Personal and Community Health **Credits**: 3
• BI211 - Human Anatomy and Physiology I **Credits**: 4
• BIO221 - Zoology **Credits**: 4
• BIO225 - Botany **Credits**: 4

**Chemistry/Physics**

• CH101 - Chemistry in the World **Credits**: 4
• CH107 - General Chemistry I **Credits**: 3
• CH107L - General Chemistry Laboratory I **Credits**: 1
• PY101 - Physical World **Credits**: 3
• PY155 - Concepts of Physics I **Credits**: 4
• PY156 - Concepts of Physics II **Credits**: 4

**Geology/Geography**

• GGP115 - Physical Geography **Credits**: 4
• GGP205 - Meteorology **Credits**: 4
• GO130 - Astronomy **Credits**: 4
• GO141 - Physical Geology **Credits**: 4
• GO151 - History of the Earth **Credits**: 4
• GO200 - Oceanography **Credits**: 4
Natural Science

- NS220 - Applied Statistics and Experimental Design Credits: 3
- NS241 - Philosophy and History of Science Credits: 3
- NS304 - Science, Technology, and Society Credits: 3

Organizational Communication, Minor

Requirements For: Minor – 18 hours, 2.5 gpa

- CA200 - Interviewing Theories and Practice Credits: 3
- CA402 - Organizational Communication Credits: 3
- CA451 - Communication and Leadership in Groups and Teams Credits: 3
- CA475 - Case Studies in Communication Leadership Credits: 3
- Two Upper Division Communication Electives Credits: 6

Peace Studies, Minor

Peace Studies students at Park University will benefit from an interdisciplinary education that features multi-layered perspectives on global issues, conflict, non-violence, positive peace, and peacebuilding. Students will enhance their research, writing, storytelling, and analytical skills in their classes and through work in the field. The Peace Studies Minor will provide students with the tools to become active world citizens working towards positive social change in their communities and the world. Students will be challenged to think outside of their academic majors, and to create pragmatic, empathetic strategies and solutions to address sources of conflict and violence.

Requirements For: Minor - 18 Hours, 2.0 GPA

- CA235 - Multicultural Communication Credits: 3
- LE300O - Peace Journalism Credits: 3
- LE300AA - Strategic Peacebuilding Credits: 3
- PC202 - Introduction to Peace Studies Credits: 3

Capstone

Select one of the following

- CA490 - Professional Learning Experience Credits: 3-6
- CA491 - Senior Research Project Credits: 3
- CA493 - Leadership for Civic Engagement Credits: 3
- CA404 - Seminar: Special Topics in Communication Arts Credits: 3

**Capstone: Peace Internship or Practicum or Research Project or Special Topics or Study Abroad.
The capstone will be tailored to meet the individual student needs.

Elective 3 cr.

Select one of the following

- CA321 - Interpersonal Conflict Solution Credits: 3
• PO216 - International Relations **Credits:** 3
• SW325 - Human Diversity and Social Justice **Credits:** 3
• Any course approved by Peace Studies Program Coordinator **Credits:** 3

**Philosophy, Minor**

**Requirements For: Minor – 18 hours, 2.75 gpa**

6 hours from:

• PH101 - Introduction to Philosophical Thinking **Credits:** 3
• PH102 - Introduction to Ethical Thinking **Credits:** 3
• PH103 - Fundamentals of Logic **Credits:** 3

**12 additional hours in Philosophy**

12 additional hours in Philosophy, of which 9 credit hours must be at the 200 level or higher.

**Political Science, Minor**

**Requirements For: Minor – 18 hours, 2.0 gpa**

• PO200 - American National Government **Credits:** 3
• PO210 - Comparative Political Systems **Credits:** 3
• plus twelve additional hours in Political Science.

**Professional and Technical Writing, Minor**

The minor in Professional and Technical Writing (PTW) provides a competitive advantage for those seeking careers in the sciences, technical industries, the military, and other professional environments requiring keen communication skills. Students become adept at analyzing audiences to anticipate their needs and fulfilling those needs with common workplace genres such as proposals, reports, presentations, memos, instructions, and more.

Additionally, students learn to produce effective, convincing documents in both print and digital formats and expand their ability to edit others' writing.

**Requirements For: Minor – 18 Hours, 2.0 GPA**

• EN204 - Writing for Online Environments **Credits:** 3
• EN207 - Professional and Technical Editing **Credits:** 3
• EN306A - Scientific and Technical Writing **Credits:** 3
• EN306B - Business Communications **Credits:** 3
• EN384 - Professional Learning Experience for English **Credits:** 3

Choose ONE of the following courses

• EN231 - Introduction to Language **Credits:** 3
- EN304 - Special Topics in Writing and Rhetoric Credits: 3
- EN325 - Modern Grammar Credits: 3

**Project Management, Minor**

**Requirements For: Business Minor – 18 Hours, 2.0 GPA**

- AC380 - Cost Accounting Credits: 3
- FL415 - Financial Analysis and Planning Credits: 3
- HR353 - Introduction to Human Resource Management Credits: 3
- MG375 - Production and Operations Management Credits: 3
- MG401 - Senior Seminar in Management Credits: 3
- MG450 - Project Management Credits: 3

**Requirements For: NonBusiness Minor - 21 Hours, 2.0 GPA**

- AC201 - Principles of Financial Accounting Credits: 3
- AC202 - Principles of Managerial Accounting Credits: 3
- FL360 - Financial Management Credits: 3
- HR353 - Introduction to Human Resource Management Credits: 3
- MG375 - Production and Operations Management Credits: 3
- MG450 - Project Management Credits: 3
- MG371 - Management and Organizational Behavior Credits: 3

**Psychology, Minor**

**Requirements For: Minor – 18 hours, 2.0 gpa**

- PS101 - Introduction to Psychology Credits: 3
- PS301 - Social Psychology Credits: 3
- PS315 - Theories of Personality Credits: 3
- PS341 - Positive Psychology Credits: 3

**Electives 6 cr.**

6 cr. of Psychology (PS) courses

**Public Administration, Minor**

**Requirements For: Minor – 18 hours, 2.5 gpa**

18 hours must include

- PO200 - American National Government Credits: 3
- PA330 - Public Administration Credits: 3
• PA333 - Public Management and Leadership Credits: 3

9 Hours of PA Prefix Electives

9 hours of PA prefix electives from the BPA Core and/or Public Service emphasis area excluding

• PA430 - Research in Public Administration Credits: 3
• PA432 - Senior Project in Public Administration Credits: 3

Certificates:

For information regarding the certificate in Terrorism and Homeland Security from the Department of Criminal Justice.

Public Relations, Minor

Requirements For: Minor - 18 Hours, 2.0 GPA

• CA202 - Fundamentals of Writing for Media Credits: 3
  or
• EN204 - Writing for Online Environments Credits: 3

• CA218 - Public Relations Credits: 3

• CA224 - Digital Media Skills Credits: 3
  or
• CA225 - Online Content Creation Credits: 3

• CA302 - Communication Ethics and Law Credits: 3
• CA348 - Theories of Communication Credits: 3

Select One

Select one of the following:

• CA318 - Public Relations II Credits: 3

• CA380 - Advertising Credits: 3
  or
• MK380 - Advertising Credits: 3

• CA382 - Communication Research Methods Credits: 3 *
• CA490 - Professional Learning Experience Credits: 3-6

Note:

* Communication Studies Majors cannot choose CA382.

Social Psychology, Minor
Social Psychology, Minor Locations

Requirements For: Minor – 18 hours, 2.0 gpa

Only for non-psychology and non-sociology majors.

Core 9 cr.

- SO141 - Introduction to Sociology Credits: 3
- PS101 - Introduction to Psychology Credits: 3
- PS301 - Social Psychology Credits: 3

Electives: Any Psychology or Sociology courses. 9 cr.

- 9 cr. of Psychology (PS) or Sociology (SO) courses. At least 6 cr. must be at the 300-400 level

Social Work, Minor

Requirements For: Social Work Minor – 18 hours, C or better

40 hours of service learning in a human service agency.

- PS309 - Human Sexuality Credits: 3
- SO302 - The Study of the Family Credits: 3
- SW205 - Introduction to Social Work Credits: 3
- SW325 - Human Diversity and Social Justice Credits: 3
- SW330 - Social Welfare Policy and Programs Credits: 3
- SW450 - Integrative Seminar for SW Minor Credits: 3 (Capstone)

Note:

All of the required courses for the Social Work minor must be completed with a grade of C or better prior to enrollment in SW450, which is the capstone course for the SW minor.

Sociology, Minor

Requirements For: Minor – 18 hours, 2.0 gpa

18 hours which must include SO 141, SO 206 and at least two courses at the 300-400 levels (6 cr).

- SO141 - Introduction to Sociology Credits: 3
- SO206 - Social Issues in Contemporary Society Credits: 3

Spanish, Minor

Requirements For: Minor – 18 hours, 2.5 gpa
The Spanish Minor is designed to assist students in gaining proficiency in oral and written communication in this world language, along with a solid understanding of Hispanic cultures. Students majoring in Early Childhood, Criminal Justice, Social Work, Nursing, Psychology or International Business concentration should consider the completion of this minor. Heritage speakers or near-native speakers are encouraged to consider test-out options for SP201.

- SP201 - Intermediate Spanish I **Credits:** 3
- SP202 - Intermediate Spanish II **Credits:** 3
- SP294 - Intermediate Spanish Conversation **Credits:** 3
- SP295 - Intermediate Spanish Composition **Credits:** 3
- SP320 - U.S. Latino Cultures and Literatures **Credits:** 3
- One 300 level Spanish elective in cultural and/or literary topic **Credits:** 3

**Note:**

**For those students wishing to teach K-12 Spanish: See also Bachelor of Science in Education.**

**B.S.E. in Secondary Education – MAJOR 53-55 Hours**

**Statistics, Minor**

**Requirements For: Minor – 19 hours, 2.0 GPA**

This Statistics minor is under the Department of Mathematics and Statistics. Students should contact this department with any questions.

- MA120 - Basic Concepts of Statistics **Credits:** 3
- MA221 - Calculus and Analytic Geometry for Majors I **Credits:** 5
- MA222 - Calculus and Analytic Geometry for Majors II **Credits:** 5
- MA305 - Probability **Credits:** 3

Select one of the following: 3 cr.

- NS220 - Applied Statistics and Experimental Design **Credits:** 3
- MA380 - Mathematical Statistics **Credits:** 3

- PS307 - Statistics for Social Sciences **Credits:** 3
  or
- SO307 - Statistics for Social Sciences **Credits:** 3

**Urban and Regional Planning, Minor**

**Requirements For: Minor – 18 hours, 2.0 GPA**

**Core: 12 cr.**

- GGH323 - Urban Geography **Credits:** 3
- GGP340 - Environmental Planning **Credits:** 3
- GGP345 - Land Use Planning **Credits:** 3
• GGP350 - GIS I **Credits:** 3

**Select 2 courses from different disciplines: 6 cr.**

• AR390 - History of the Designed Environment: Mid-Nineteenth Century to the Present **Credits:** 3
• CA233 - Introduction to Leadership **Credits:** 3
• CA235 - Multicultural Communication **Credits:** 3
• CJ345 - Criminal Justice and the Community **Credits:** 3
• CJ233 - Introduction to Security **Credits:** 3
• EC309 - Economic Development **Credits:** 3
• EDU210 - The School as a Social System **Credits:** 3
• GGH140 - Economic Geography **Credits:** 3
• GGH326 - Resources and People **Credits:** 3
• GGP120 - Global Sustainability **Credits:** 3
• GGP270 - Spatial Analysis **Credits:** 3
• HC466 - Planning and Organizing Community Health Services **Credits:** 3
• LG312 - Transportation and Distribution Systems **Credits:** 3
• PA330 - Public Administration **Credits:** 3
• PA331 - Public Organizations **Credits:** 3
• PA333 - Public Management and Leadership **Credits:** 3
• PO340 - Public Policy **Credits:** 3
• SO303 - Urban Sociology **Credits:** 3
• SW325 - Human Diversity and Social Justice **Credits:** 3

**Undergraduate Certificate Programs**

**Business Analytics, Certificate**

**Requirements For:** Certificate – **12 Hours, 2.0 GPA**

• BAI329 - Business Analytics Applied **Credits:** 3
• BAI405 - Data Visualization and Story Telling **Credits:** 3

• BAI407 - Predictive Analytics and Risk Analysis **Credits:** 3
  or
• BAI427 - Prescriptive Analytics for Decision Making **Credits:** 3

• BAI491 - Capstone in Business Analytics **Credits:** 3

**Computer Networking, Certificate**

This certificate program prepares students to sit for the Cisco Certified Network Associates (CCNA) exam. Upon completion of this certificate program, students are encouraged, but not required, to take the CCNA certification exam at a CCNA testing center. Regardless of whether a student chooses to take the CCNA certification exam, when the student is ready to graduate (either from the certificate program for non-degree-seeking students, or from the ICS program for degree-seeking students), he/she should fill out the Graduation Application Form. That application provides notice to the Registrar to put “Certificate in Computer Networking” on the student’s transcript.
Requirements for Certificate: 12 Hours, 2.5 GPA

Required Courses: 12 cr.

- CS365A - Computer Networking I Credits: 3
- CS366A - Computer Networking II Credits: 3
- CS371 - Internetworking Credits: 3
- CS372 - Advanced Networking Credits: 3

Prerequisites - 6 cr.

The following prerequisites are required.

- CS152 - Introduction to Python Programming Credits: 3
- CS208 - Discrete Mathematics Credits: 3

Graduation Requirements

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

Cybersecurity, Certificate

This certificate program prepares students for cybersecurity-related positions such as security administrator, security software developer, or security consultant. Each course in the certificate has prerequisite courses. Equivalent work experience or transferred credit may satisfy those prerequisites. Some courses offered in this program help students in preparing for industry certificates, such as the Cisco Cybersecurity Operation (CyberOps) Certification Exam.

Requirements for Certificate - 33 Hours, 2.0 G.P.A.

Required Courses: 15 Hours

- CS202 - Secure Programming Credits: 3
- CS335 - Introduction to Cybersecurity Credits: 3
- CS375 - Secure Operation Credits: 3
- CS377 - Digital Forensics Credits: 3

- IS370 - Information Security Credits: 3
  or
- CJ316 - Cybersecurity Administration Credits: 3
Prerequisites Required - 18 Hours

The following are required pre-requisites for this program.

- CS152 - Introduction to Python Programming Credits: 3
- CS208 - Discrete Mathematics Credits: 3
- CS319 - Computer Architecture Credits: 3
- CS351 - Computer Operating Systems Credits: 3
- CS365A - Computer Networking I Credits: 3
- CS366A - Computer Networking II Credits: 3

Graduation Requirements

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

Diversity and Social Justice, Certificate

Requirements for Certificate - 12 Hours, 2.5 GPA

- SO206 - Social Issues in Contemporary Society Credits: 3

Electives 9 cr.

Select one course from each topic area.

Global Perspectives

Select one of the following:

- EN355 - International Literature Credits: 3
- GGH110 - Cultural Geography Credits: 3
- GGP120 - Global Sustainability Credits: 3
- PC315 - Global Peace Issues Credits: 3
- PO338 - Politics of the Developing World Credits: 3
- PO344 - War and Terrorism Credits: 3
- RE109 - World Religions Credits: 3
- SP320 - U.S. Latino Cultures and Literatures Credits: 3

Public and Community Engagement

Select one of the following:
• CA235 - Multicultural Communication **Credits:** 3
• CJ345 - Criminal Justice and the Community **Credits:** 3
• EDU310 - Issues in Diversity and World Cultures **Credits:** 3
• LE300O - Peace Journalism **Credits:** 3
• LE300AA - Strategic Peacebuilding **Credits:** 3
• PA380 - Public Service Values **Credits:** 3
• PA404 - Capitalism and Societal Issues **Credits:** 3
• PH221 - Ethics and Society **Credits:** 3
• SW325 - Human Diversity and Social Justice **Credits:** 3

**Experiencing Inequalities**

Select one of the following:

• EN356 - Women's Literature **Credits:** 3
• EN221 - African-American Literature **Credits:** 3
• HIS260 - The Civil Rights Era **Credits:** 3
• LE300V - The 1960s: Years of Hope and Rage **Credits:** 3
• PS309 - Human Sexuality **Credits:** 3
• PS381 - Psychology of Gender **Credits:** 3
• SO342 - Race and Ethnicity **Credits:** 3
• SO313 - Class, Status, Power **Credits:** 3
• SO333 - Gendered Society **Credits:** 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

• Completion of residency requirement, at least 50% of the coursework completed at Park
• Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
• Meet all requirements of the specific program as outlined in this catalog
• Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Geographical Information Systems, Certificate**

**Requirements For: Certificate – 15 Hours, 2.5 GPA**

• GGP270 - Spatial Analysis **Credits:** 3
• GGP330 - Cartography **Credits:** 3
• GGP335 - Remote Sensing **Credits:** 3
• GGP350 - GIS I **Credits:** 3
• GGP355 - GIS II **Credits:** 3

**Graduation Requirements**
Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation
*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Human Resource Management, Certificate**

This certificate is under the Department of Human Resource Management in the School of Business. Students should contact the department with any questions.

Certificate award requires passing all courses with a grade of "C" or better.

**Requirement for: Certificate - 12 Hours 2.0 GPA**

- MG371 - Management and Organizational Behavior **Credits**: 3
- HR355 - Planning and Staffing **Credits**: 3
- HR357 - Employment Law **Credits**: 3
- HR434 - Compensation Management **Credits**: 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation
*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Industrial Organizational Psychology, Certificate**

**Requirements For: Certificate – 15 hours, 2.5 gpa**

- PS300 - Research Methods **Credits**: 3
  
or
- SO310 - Sociological Research Methods **Credits**: 3

- PS302 - Tests and Measurements **Credits**: 3

- PS307 - Statistics for Social Sciences **Credits**: 3
  
or
- SO307 - Statistics for Social Sciences **Credits**: 3
• PS424 - Industrial and Organizational Psychology **Credits:** 3

**Electives 3 cr.**

• PS406 - Experimental Psychology **Credits:** 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

• Completion of residency requirement, at least 50% of the coursework completed at Park
• Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
• Meet all requirements of the specific program as outlined in this catalog
• Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Personal Financial Planning, Certificate**

This certificate is under the Department of Finance in the School of Business. Students should contact the department with any questions.

Certificate award requires passing all courses with a grade of "C" of better.

**Requirements for Certificate - 21 Hours, 2.0 GPA**

• AC309 - Individual Income Tax **Credits:** 3
• FI420 - Estate Planning **Credits:** 3
• FI423 - Professional Financial Planning **Credits:** 3
• FI424 - Personal Financial Planning Capstone **Credits:** 3
• FI325 - Risk and Insurance **Credits:** 3
• FI370 - Investment Planning **Credits:** 3
• FI419 - Retirement and Employee Benefit Planning **Credits:** 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

• Completion of residency requirement, at least 50% of the coursework completed at Park
• Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
• Meet all requirements of the specific program as outlined in this catalog
• Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Professional and Technical Writing, Certificate**
Available fully online, the certificate in Professional and Technical Writing offers students an additional employment qualification for careers in the sciences, technical industries, the military, and other professional environments requiring keen communication skills. Students become adept at analyzing audiences to anticipate their needs and fulfilling those needs with common workplace genres such as proposals, reports, presentations, memos, instructions, and more.

Additionally, students learn to produce effective, convincing documents in both print and digital formats and expand their ability to edit others' writing.

**Requirements for Certificate - 12 Hours, 2.0 G.P.A.**

- EN204 - Writing for Online Environments **Credits:** 3
- EN207 - Professional and Technical Editing **Credits:** 3
- EN306A - Scientific and Technical Writing **Credits:** 3 *
- EN306B - Business Communications **Credits:** 3 *

Note: *EN306A and EN306B require EN105 and EN106 as prerequisites.

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Project Management, Certificate**

This certificate is under the Department of Management, in the College of Management, Undergraduate School of Business. Students should contact the department with any questions.

Certificate award requires passing all courses with a grade of "C" or better.

**Requirements For: Certificate - 12 Hours, 2.0 GPA**

- MA171 - Finite Mathematics **Credits:** 3
- MG371 - Management and Organizational Behavior **Credits:** 3
- MG375 - Production and Operations Management **Credits:** 3
- MG450 - Project Management **Credits:** 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:
Completion of residency requirement, at least 50% of the coursework completed at Park
Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
Meet all requirements of the specific program as outlined in this catalog
Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Terrorism and Homeland Security, Certificate**

The mission of the Undergraduate Certificate Program in Terrorism and Homeland Security is to provide students with a foundation for effective problem identification and solution management related to evolving terrorist threats and the protection of national interests. Through both theoretical and practical approaches, the certificate provides students with knowledge essential to homeland security issues, strategies, and planning. Certificate courses are chosen and developed to integrate knowledge in diverse fields of security, terrorism, and emergency management. The Certificate provides students with capabilities to develop practical solutions in managing natural and unnatural threats and emergency events, and to equip students to assist organizations in preparedness, response, recovery, and mitigation activities associated with both natural and manmade threats.

**Requirements For: Certificate – 12 Hours, 2.5 GPA**

**Core Courses 6 cr.**

- **CJ233 - Introduction to Security** Credits: 3
- **CJ251 - Terrorism and Domestic Preparedness** Credits: 3

**Elective Courses 6 cr.**

Select two of the following:

- **CJ353 - Emergency Management** Credits: 3
- **CJ355 - Homeland Security** Credits: 3
- **GGH310 - Geography of Terrorism** Credits: 3

**Graduation Requirements**

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

**Unmanned Aerial System, Certificate**
Requirements for Certificate - 12 Hours, 2.5 GPA

The mission of the Unmanned Aerial System (UAS)-Drone Applications Certificate is to prepare students to become Federal Aviation Administration (FAA) certified small Unmanned Aerial System (UAS) Remote Drone Pilots, who are trained to conduct safe, legal, and effective aerial flight operations within the National Airspace System. The core courses supporting this certificate are designed to instruct Remote Drone Pilots in how to fly mission driven and incident-free sorties, and effectively capture/record and post-process aerial imagery.

Note: Students who successfully complete the UAS107 Commercial Drone Pilot Certification Prep Course will be prepared to sit for the FAA Part 107 UAS Remote Pilot Certification Exam, which is the accepted certification for small UAS-Drone Commercial and Municipal Operations.

- UAS107 - Commercial Drone Pilot Certification Prep Course Credits: 3 *
- UAS140 - Drone Mission Planning Credits: 3 *
- UAS200 - Drone Photography and Videography Credits: 3

Electives 3 cr.

- A department approved elective, 200 level or above, from any discipline

Notes:

Note: These courses may not be used as electives in the Criminal Justice Administration Program.

* This course curriculum does require the student to have a small UAS-Drone. FAA Requirements for becoming a certified Drone Pilot are listed https://www.faa.gov/uas/. Students already in possession of a valid FAA Drone Remote Pilot Certification, may substitute the UAS107 course for another Park University 3 credit course with permission from the Criminal Justice Department Chair or the Criminal Justice Program Coordinator.

# This course curriculum requires the student to have access to, or own, a photo and video-recording enabled small UAS-Drone. Minimum drone specifications for this course, as well as various suitable drone models, are listed at https://droneology.park.edu/specs.

Graduation Requirements

Park University confers Undergraduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 50% of the coursework completed at Park
- Earn a minimum cumulative GPA of 2.0* (for courses in the certificate)
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application of Graduation

*Individual departments may establish additional (or higher) requirements (refer to the Programs by Degree Type section of the catalog for program-specific requirements).

Master Degrees

Master of Arts, Communication and Leadership, M.A.
The search for effective leadership continues today as contemporary organizations become more complex. The Master of Arts in Communication and Leadership program starts with the premise that communication is the essence of effective leadership. The student trained in communication is uniquely qualified to provide innovative leadership within the global community.

**Mission**

The Master of Arts in Communication and Leadership will develop exceptional communicators who are creative and who possess the interpersonal and organizational skills needed to meet the demands of complex organizations in a global society.

**Vision**

The Master of Arts in Communication and Leadership program will be an international leader in the development of uniquely qualified individuals to provide innovative leadership within the global community.

**Purpose of the Program**

In the Republic, Plato discusses the appropriate training that should be a part of educating political leaders. Since the time of the classic Greek philosophers, countless individuals have speculated about the principles of leadership. The search for effective leadership continues today, as contemporary organizations become more complex. The Master of Arts in Communication and Leadership begins with the premise that communication is the essence of effective leadership. The student trained in communication is uniquely qualified to provide innovative leadership within the global community.

This graduate program is designed for professionals who wish to build upon their current career skills or advance to a new position or organization, and for students interested in pursuing a doctorate. The complexities of relationships and the competitive nature of business demand leaders with highly polished interpersonal and organizational skills. This degree combines the practical and theoretical knowledge needed to serve in corporate and nonprofit settings, the military, government, politics or other arenas, as well as developing the research and writing skills necessary for doctoral work.

**Program Goals**

- To provide students with an understanding of the centrality of communication in all aspects of personal and organizational life.
- To develop the ability of students to read and conduct research, and apply the principles to their own organizations.
- To provide a forum for the exchange of ideas between students and organizational leaders concerning the requirements to achieve excellence.
- To provide a historical overview of leadership perspectives from the 1940s to the present.
- To foster an awareness of the communication styles and values of different cultures and how these factors influence business in a global environment.
- To combine theoretical knowledge and practical skills to resolve organizational issues and improve decision-making.
- To develop a framework for ethical conduct in contemporary organizations.

**Admission Requirements**
• A bachelor's degree from an acceptable accredited United States institution or the equivalent from an foreign institution.
• A minimum 3.0 cumulative grade point average in the bachelor's degree.
• A copy of resume or CV.
• Official transcripts of all previous college work, both undergraduate and graduate.
• Two letters or professional reference.
• A brief personal statement describing the prospective student's interest and goals for pursuing the degree (no more than 1,000 words)

Note: Students must be admitted by both the Department of Communication Arts and to Graduate Studies. A student who is accepted pending receipt of all required documentation, must submit complete and satisfactory records within 60 days (45 days in an 8-week session and/or summer term) after the first day of registration.

Learning Outcomes Assessment / Program Assessment

Embedded within each course syllabi will be methodologies for learning outcomes assessment for that particular course. The overall program outcomes will be assessed based on student performance in the program with particular emphasis on:

• Comprehensive written examinations
• Capstone course consisting of a thesis or graduate project
• Thesis/graduate project oral defense

Requirements For: Master - 36 Hours, 3.0 GPA

Core Curriculum 15 cr.

• CA501 - Human Communication Perspectives Credits: 3
• CA516 - Research 1 Credits: 3
• CA517 - Research 2 Credits: 3
• CA529 - Cross-Cultural Communication Credits: 3
• CA699 - The Epistemology of Communication Credits: 3

Organizational Emphasis 15 cr.

• CA505 - Organizational Leadership Credits: 3
• CA520 - Leading Organizational Change Credits: 3
• CA670 - Measuring Leadership Credits: 3
• Electives Credits: 6

Graduate Project or Thesis 6 cr.

Select one of the following options:

Graduate Project
• CA700 - Graduate Project Credits: 3
• Elective Credits: 3
• Comprehensive Exam
or

Thesis Option

- CA797 - Thesis Design and Research Credits: 1-3
- CA799 - Thesis - Continuous Enrollment Credits: 1
- Comprehensive Exam

Notes:

- A maximum of nine (9) credit hours may be transferred from other institutions. The transfer of coursework must be completed prior to admission to the Park University's Master of Arts in Communication and Leadership Program.
- The comprehensive exam may be repeated one time. A third attempt may be permitted by the school dean upon the recommendation of the program director.

Graduation Requirements

Park University grants the Master of Arts degrees upon completion of the following requirements:

- Completion of a minimum of 36 semester hours.
- Successful completion of Comprehensive Exam.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Master of Arts, Communication and Leadership, Sergeants Major Academy, M.A.

Program Format and Expedited Admissions Process

The Master of Arts in Communication and Leadership (MACL) program at Park University offers a 5-term MACL degree program to SMA applicants, with blended courses offered in 8-week segments. The Graduate School offers a tailored and expedited admissions policy for SMA applicants, with the GMAT and the GRE waived among other benefits.

Transfer Credits

Park University's MACL graduate program will accept up to 12 hours of transfer academic credit. Graduate credit hours completed in the Sergeants Major Courses (SMC) may be transferred towards this master's degree; up to 12 hours of transfer academic credit will be granted upon successful completion of the Sergeants Major Courses. MACL degree completion will normally occur during time spent at the Sergeants Major Academy.

Other Considerations

A comprehensive examination will be required for all students during completions of the capstone course, CA700. This comprehensive exam will serve as a primary means of program assessment and a means if further vetting the transfer credit we are accepting from the Sergeants Major Academy and applying to the
MACL program. Through the comprehensive exam, students will demonstrate connections between their Sergeants Major Academy coursework and the outcomes of the MACL.

**Program Outcomes - MACL graduates will:**

- Understand the centrality of communication in all aspects of personal and organizational life;
- Attain a foundation in historical leadership perspectives from the 1940s to the present;
- Develop advanced abilities to research problems and challenges and devise outcomes to improve organizations;
- Collaborate with organizational leaders concerning the requirements to achieve excellence.

**Learning Outcomes Assessment / Program Assessment**

- Understand the centrality of communication in all aspects of personal and organizational life;
- Attain a foundation in historical leadership perspectives from the 1940s to the present;
- Develop advanced abilities to research problems and challenges and devise outcomes to improve organizations;
- Collaborate with organizational leaders concerning the requirements to achieve excellence.

**Core Requirement 21 cr.**

- CA501 - Human Communication Perspectives **Credits:** 3
- CA505 - Organizational Leadership **Credits:** 3
- CA520 - Leading Organizational Change **Credits:** 3
- CA529 - Cross-Cultural Communication **Credits:** 3
- CA567 - Communication Teaching, Training and Consulting **Credits:** 3
- CA649 - Introduction to Mediation **Credits:** 3
- CA699 - The Epistemology of Communication **Credits:** 3

**Transfer Credit 12 cr.**

The MACL program will accept up to 12 hours of academic credit for students who complete the SMA curriculum.

- CA525 - Interpersonal Communication Theories **Credits:** 3
- SMA coursework = C161A, C161B, C211, L211, L203

- CA641 - Communication in Conflict Management **Credits:** 3
- SMA coursework = L102, L110, L111, F100, F101, F102, F104, F105, F106, F107, F1

- CA670 - Measuring Leadership **Credits:** 3
- SMA coursework = C131, C132, C135, L101

- CA675 - Case Studies in Communication and Leadership **Credits:** 3

**Capstone Course 3 cr**
• CA700 - Graduate Project Credits: 3
• Comprehensive Exam

Notes:

• A maximum of 12 credit hours may be transferred from other institutions. The transfer of coursework must be completed prior to admission to the Park University's Master of Arts in Communication and Leadership Program.
• The comprehensive exam may be repeated one time. A third attempt may be permitted by the school dean upon the recommendation of the program director.

Graduation Requirements

Park University grants the Master of Arts degrees upon completion of the following requirements:

• Completion of a minimum of 36 semester hours.
• Successful completion of Comprehensive Exam.
• Cumulative GPA of 3.0 for Park University courses.
• Satisfaction of all requirements for a major as outlined in this catalog.
• Completion of all earned credit with no more than 2 grades of C earned.
• Submission of an Application for Graduation.

Master of Arts, Industrial-Organizational Psychology, M.A.

What is Industrial-Organizational (I-O) Psychology?

I-O psychologists use science and statistics to solve workplace and organizational issues to help workers thrive. They help organizations by thoroughly analyzing job tasks, selecting the best employees, training employees, objectively rating employee performance, determining what factors retain good employees, discovering what stressors make jobs difficult, and through finding and developing great managers and leaders. In addition, I-O psychologists explore how compensation affects performance, how to make workplaces safer, and by analyzing what can help an organization grow, change, and adapt.

What is special about Park’s MA in I-O Program?

Park University's MA in I-O program will specifically focus on creating I-O leaders who focus on social justice in the workplace. Coursework will address equity, diversity, and inclusion as it pertains to all people and all aspects of the workplace.

Requirements For: Master - 33 Hours, 3.0 GPA

• PS523 - Introduction to Social Justice Credits: 3
• PS527 - Applied Research Methods Credits: 3
• PS567 - Critical Analysis I Credits: 3
• PS570 - Critical Analysis II Credits: 3
• PS602 - Organizational Leadership Credits: 3
• PS609 - Personnel Psychology **Credits:** 3
• PS616 - Organizational Dynamics and Ethics **Credits:** 3
• PS622 - Training and Performance **Credits:** 3
• PS626 - Individual Assessment **Credits:** 3
• PS670 - Organizational Attitudes and Behavior **Credits:** 3
• PS699 - Internship **Credits:** 3-6

**Graduation Requirements**

Park University grants the Master of Arts upon completion of the following requirements:

• Completion of a minimum of 33 semester hours.
• Successful completion of Comprehensive Exam.
• Cumulative GPA of 3.0 for Park University courses.
• Satisfaction of all requirements for a major as outlined in this catalog.
• Completion of all earned credit with no more than 2 grades of C earned.
• Submission of an Application for Graduation.

**Master of Arts, National Security Studies, M.A.**

Park University's M.A. in National Security Studies prepares students for work as analysts, policymakers, and scholars focused on security issues in the 21st Century. Students are required to complete 36 hours of graduate coursework culminating with the production of a research thesis.

**Required For: Master - 36 Hours, 3.0 GPA**

• PO500 - International Relations Theory **Credits:** 3
• PO501 - US National Security Policy **Credits:** 3
• PO510 - Research Methods **Credits:** 3
• PO515 - Security Studies **Credits:** 3
• PO530 - International Law and Security **Credits:** 3
• PO550 - Regional Security Issues **Credits:** 3

**Select One**

Students have two options for completion of the required 36 credit hours:

**Thesis Option 18 cr.**

• PO600 - Thesis **Credits:** 3
• PO601 - Thesis II **Credits:** 3

**Electives**

Select four of the following:

• PO505 - Arms Control and Disarmament **Credits:** 3
• PO520 - Terrorism and Unconventional Warfare **Credits:** 3
• PO525 - Geoeconomics and Environmental Security **Credits:** 3
• PO535 - Cybersecurity Credits: 3
• PO540 - Future War Credits: 3
• PO545 - Intelligence Collection and Analysis Credits: 3
• PO551 - Insurgency and Counter-Insurgency in a Social Context Credits: 3
• PO555 - Doctrine and Grand Strategy Credits: 3

Non-Thesis Option 18 cr.

Select six of the following:

• PO505 - Arms Control and Disarmament Credits: 3
• PO520 - Terrorism and Unconventional Warfare Credits: 3
• PO525 - Geoeconomics and Environmental Security Credits: 3
• PO535 - Cybersecurity Credits: 3
• PO540 - Future War Credits: 3
• PO545 - Intelligence Collection and Analysis Credits: 3
• PO551 - Insurgency and Counter-Insurgency in a Social Context Credits: 3
• PO555 - Doctrine and Grand Strategy Credits: 3

Exit exam for non-thesis option

• Comprehensive exam

Graduation Requirements

Park University grants the Master of Arts degrees upon completion of the following requirements:

• Completion of a minimum of 36 semester hours.
• Successful completion of Comprehensive Exam.
• Cumulative GPA of 3.0 for Park University courses.
• Satisfaction of all requirements for a major as outlined in this catalog.
• Completion of all earned credit with no more than 2 grades of C earned.
• Submission of an Application for Graduation.

Master of Business Administration, Business Analytics, M.B.A.

Master of Business Administration M.B.A.

Park University's Master of Business Administration degree program was founded in 1998. Park's MBA program offers a student centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment. It prepares students as entrepreneurial thinkers to enhance business competitiveness in a global environment. Significance is placed on applying business knowledge and techniques to implement decisions.

Park's MBA faculty and students come from all continents and have diverse professional backgrounds, enriching the educational experience. Whether advancing through the ranks of a multinational corporation, joining a small nonprofit organization or re-entering the workplace, business applications and tools acquired in the MBA program are vital to student success in today's fast-paced global business environment.
To meet students’ personal and professional needs, the MBA degree may be earned entirely online, through the blended delivery method (a blend of face-to-face and online instruction), or through a combination of these methods. Blended courses are offered as evening courses one night a week at select campus locations. Online courses offer flexibility, without sacrificing rigor and academic excellence.

The MBA curriculum is designed with the working professional in mind. Students are expected to engage in team assignments and are given the opportunity to obtain hands on knowledge through projects and case study analysis. Each concentration is designed to meet the educational needs of the growing and varied business sectors.

**Vision Statement**

The vision of Park University’s Master of Business Administration program is to use a student-centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment.

**Mission Statement**

The mission of Park University’s Master of Business Administration program is to prepare business leaders as entrepreneurial thinkers who enhance business competitiveness in a global environment.

**Program Learning Outcomes**

- Formulate a personal communication strategy that will help them cultivate professional relationships with diverse stakeholders to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage.
- Assess the level of professionalism needed for success in a highly dynamic and demanding environment by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession. Demonstrate the ability to function autonomously and take responsibility for managing a culturally and geographically diverse group of professionals within a highly complex and changing business environment.
- Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
- Assess the business environment and its components in order to identify opportunities and threats, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success on a domestic and global scale.
- Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic economy.
- Demonstrate advanced problem solving skills that result in viable and ethical solutions to complex issues that may impact product and service delivery.

**Admissions Requirements**

See Admissions Policies and Procedures for further details.

- A bachelor's degree from an acceptable accredited college or university in the U.S., or from an foreign institution of higher learning.
• Minimum 2.75 cumulative grade point average on a 4.0 scale from all colleges and universities attended.
• Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.
Admission to Park University’s Master of Business Administration program is open to graduates of all fields of undergraduate study.

Sequential Degree

This program is a participant of the Sequential Degree option.

Requirements For: Master - 36 Hours, 3.0 GPA

Core Curriculum 24 cr.

• MBA500 - Management Foundations Credits: 3
• MBA515 - Accounting for Management Decisions Credits: 3
• MBA522 - Organization Behavior and Leadership Credits: 3
• MBA524 - Business Law and Ethics Credits: 3
• MBA576 - Operations Management Credits: 3
• MBA615 - Managerial Finance Credits: 3
• MBA630 - Strategic Marketing Credits: 3
• MBA695 - Strategic Management Credits: 3

Concentrations

All students complete all core courses to provide a common foundation; therefore, the program’s policy is not to waive any of the core courses.

The general MBA program offers the flexibility to tailor electives to the student’s professional interests. Ample choices allow a broad choice or a focus, such as finance, entrepreneurship, global business or information systems. Alternatively, the student may select one of the following formal areas of concentration:

• Business Analytics Concentration
• Disaster and Emergency Management Concentration
• Finance Concentration
• General Concentration
• Human Resource Management Concentration
• Innovation and Quality Management Concentration
• Management Accounting Concentration
• Management Information Systems Concentration
• Marketing Concentration
• Project Management Concentration
• Public Accounting Concentration

Note

Park undergraduate students who completed their bachelor’s degree within the past five years, completed all four courses in the MBA 4+1 program (12 credit hours), and received a B or higher in each 4+1 course, may receive a waiver for MBA500 Management Foundations.
Business Analytics

Core Requirement 6 cr.

- MIS605 - Management Information Systems Credits: 3
- MIS614 - Data Analysis and Business Analytics Credits: 3

Electives 6 cr.

Select two of the following:

- CIS606 - Applied Data Mining and Analysis of Big Data Credits: 3
- CIS607 - Survey of Predictive Analytical Techniques Credits: 3
- CIS608 - Web and Marketing Analytics Credits: 3
- CIS609 - Data Visualization Credits: 3

Graduation Requirements

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Disaster and Emergency Management

The concentration in Disaster and Emergency Management is designed to prepare the graduate student with the knowledge, skills, and abilities (KSAs) to competently mitigate, prepare, respond, and assist communities and their organizations in recovering from natural and man-made disasters. An array of
potentially hazardous events now more than ever confront businesses and include, but are not necessarily limited to homeland security issues; failures of complex technology; and a wide range of natural hazards. Ultimately, this concentration is intended to prepare graduates to design and improve emergency management capabilities and command and control operations within firms, so that they're better prepared to handle major and catastrophic disasters that threaten to disrupt business continuity.

**Core Requirement 12 cr.**

- DEM551 - Principles of Disaster and Emergency Management **Credits:** 3
- DEM552 - Public Policy and Disaster **Credits:** 3
- DEM553 - Disaster and Society **Credits:** 3
- DEM557 - Continuity of Operations in Public and Private Sectors **Credits:** 3

**Graduation Requirements**

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

Park undergraduate students who completed their bachelor's degree within the past five years, completed all four courses in the MBA 4+1 program (12 credit hours), and received a B or higher in each 4+1 course, may receive a waiver for MBA500 Management Foundations.

Finance Concentration

The Finance concentration provides graduates with broad professional competence and skills for careers in executive positions at financial institutions and other organizations. This concentration offers students extensive understanding of core skillsets in financial modeling, debt and equity issues, valuation, mergers and acquisitions, financial planning, risk management, financial reporting and analysis, and taxation necessary for modern corporate finance positions and consulting. By incorporating critical strategies and techniques in areas such as investment and commercial banks, financial, general management consulting, venture capital and private equity firms, and corporate finance within 500 large-cap companies, graduates
are primed for financial challenges in national and international arenas. This concentration allows students to tailor their program to their professional goals and prepare them for career opportunities such as:

- **Investment Management.** Prepares candidates for a career as a security analyst, money manager, brokerage firm analyst, insurance company representative or other financial job function.
- **Corporate Financial Management.** Prepares candidates to be financial managers with responsibilities in risk management, strategic planning, budgeting, financial forecasting, cash management, credit administration, investment analysis and funds procurement.

**Core Requirement 12 cr.**

- FIN621 - Advanced Corporate Finance **Credits:** 3
- FIN625 - International Finance **Credits:** 3
- FIN640 - Investment Management **Credits:** 3
- FIN644 - Financial Markets and Institutions **Credits:** 3

**Graduation Requirements**

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Business Administration, General, M.B.A.**

**Master of Business Administration M.B.A.**

Park University's Master of Business Administration degree program was founded in 1998. Park's MBA program offers a student centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment. It prepares students as entrepreneurial thinkers to enhance business competitiveness in a global environment. Significance is placed on applying business knowledge and techniques to implement decisions.

Park's MBA faculty and students come from all continents and have diverse professional backgrounds, enriching the educational experience. Whether advancing through the ranks of a multinational corporation, joining a small nonprofit organization or re-entering the workplace, business applications and tools acquired in the MBA program are vital to student success in today's fast-paced global business environment.

To meet students' personal and professional needs, the MBA degree may be earned entirely online, through the blended delivery method (a blend of face-to-face and online instruction), or through a combination of these methods. Blended courses are offered as evening courses one night a week at select campus locations. Online courses offer flexibility, without sacrificing rigor and academic excellence.

The MBA curriculum is designed with the working professional in mind. Students are expected to engage in team assignments and are given the opportunity to obtain hands on knowledge through projects and case study analysis. Each concentration is designed to meet the educational needs of the growing and varied business sectors.
**Vision Statement**

The vision of Park University’s Master of Business Administration program is to use a student-centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment.

**Mission Statement**

The mission of Park University’s Master of Business Administration program is to prepare business leaders as entrepreneurial thinkers who enhance business competitiveness in a global environment.

**Program Learning Outcomes**

- Formulate a personal communication strategy that will help them cultivate professional relationships with diverse stakeholders to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage.
- Assess the level of professionalism needed for success in a highly dynamic and demanding environment by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession. Demonstrate the ability to function autonomously and take responsibility for managing a culturally and geographically diverse group of professionals within a highly complex and changing business environment.
- Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
- Assess the business environment and its components in order to identify opportunities and threats, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success on a domestic and global scale.
- Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic economy.
- Demonstrate advanced problem solving skills that result in viable and ethical solutions to complex issues that may impact product and service delivery.

**Admissions Requirements**

See Admissions Policies and Procedures for further details.

- A bachelor's degree from an acceptable accredited college or university in the U.S., or from an foreign institution of higher learning.
- Minimum 2.75 cumulative grade point average on a 4.0 scale from all colleges and universities attended.
- Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

Admission to Park University's Master of Business Administration program is open to graduates of all fields of undergraduate study.

**Sequential Degree**

This program is a participant of the Sequential Degree option.
Requirements For: Master - 36 Hours, 3.0 GPA

Core Curriculum 24 cr.

- MBA500 - Management Foundations Credits: 3
- MBA515 - Accounting for Management Decisions Credits: 3
- MBA522 - Organization Behavior and Leadership Credits: 3
- MBA524 - Business Law and Ethics Credits: 3
- MBA576 - Operations Management Credits: 3
- MBA615 - Managerial Finance Credits: 3
- MBA630 - Strategic Marketing Credits: 3
- MBA695 - Strategic Management Credits: 3

Concentrations

All students complete all core courses to provide a common foundation; therefore, the program's policy is not to waive any of the core courses.

The general MBA program offers the flexibility to tailor electives to the student's professional interests. Ample choices allow a broad choice or a focus, such as finance, entrepreneurship, global business or information systems. Alternatively, the student may select one of the following formal areas of concentration:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Project Management Concentration
- Public Accounting Concentration

Note

Park undergraduate students who completed their bachelor's degree within the past five years, completed all four courses in the MBA 4+1 program (12 credit hours), and received a B or higher in each 4+1 course, may receive a waiver for MBA500 Management Foundations.

General

Choose four courses from the following:

- HRM634 - Planning and Staffing Credits: 3
- MBA620 - Leadership in Organizations Credits: 3
- MIS605 - Management Information Systems Credits: 3
- MKT633 - Digital and Social Media Marketing Credits: 3
Graduation Requirements

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

• Completion of a minimum of 33 semester hours.
• Cumulative GPA of 3.0 for Park University courses.
• Satisfaction of all requirements for a major as outlined in this catalog.
• Completion of all earned credit with no more than 2 grades of C earned.
• Submission of an Application for Graduation.

Master of Business Administration, Human Resource Management Concentration, M.B.A.

Master of Business Administration M.B.A.

Innovation and Quality Management

The Innovation and Quality Management concentration is designed to give students an in-depth understanding of the concepts and techniques used to assess and improve process outcomes. In other words, the students will be able to isolate processes that are routinely experiencing too much variability in their output, identify natural and assignable causes for variations, develop tactical strategies to improve process performance, and then establish formal mechanisms for monitoring future outcomes. Students will learn how to appropriately apply qualitative and quantitative approaches to diagnose the nature and scope of process problems and evaluate the effectiveness of interventions. The competencies that will be developed in this curriculum will serve students well as they progress in their careers. Defective processes drive up operating costs, making it virtually impossible to forecast revenues, and contributing to poor quality goods and services. This can lessen a firm's competitive advantage in the marketplace and jeopardize their long-term financial viability.

Core Requirement 12 cr.

- QM684 - Principles of Quality Management Credits: 3
- QM685 - Innovative Techniques in Quality Management Credits: 3
- QM686 - Innovative Project Management Credits: 3
- QM687 - Collaborative Innovation Strategies Credits: 3

Graduation Requirements
Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

Management Accounting

The Management Accounting concentration is designed to prepare students with the competencies necessary to excel in professional positions that require a high level of comfort with accounting and finance, such as chief financial officers, controllers, financial analysts, budget analysts or directors. More specifically, students will develop an extensive understanding of management accounting concepts, cost accounting, accounting research practices, activity-based costing as an aid to decision-making, profit planning, budget forecasting and preparation, and broadening leadership skills. In acquiring skills for the CFO function within a variety of organizational structures, this concentration will develop student knowledge of financial planning, financial analysis, control mechanisms, decision-making, and professional ethics.

Core Requirement 12 cr.

- ACC510 - Accounting Research and Analysis Credits: 3

Management Information Systems

The Management Information Systems concentration offers a unique combination of business intelligence and industry standards through practical project-oriented instruction. The rationale is to produce quality graduates with in-depth knowledge and hands-on understanding of the essentials of managing today's information technology systems. Students study the foundations of business so they can apply management information system technology to create efficient, effective business enterprises capable of competing in a global setting.

In addition, students are exposed to the concepts and applications of data analytics, security and privacy of big data, and project management as they pertain to system architecture and a firm's ability to answer complicated business questions.

Core Requirement 12 cr.

Park's MBA faculty and students come from all continents and have diverse professional backgrounds, enriching the educational experience. Whether advancing through the ranks of a multinational corporation, joining a small nonprofit organization or re-entering the workplace, business applications and tools acquired in the MBA program are vital to student success in today's fast-paced global business environment.

To meet students' personal and professional needs, the MBA degree may be earned entirely online, through the blended delivery method (a blend of face-to-face and online instruction), or through a combination of these methods. Blended courses are offered as evening courses one night a week at select campus locations. Online courses offer flexibility, without sacrificing rigor and academic excellence.

The MBA curriculum is designed with the working professional in mind. Students are expected to engage in team assignments and are given the opportunity to obtain hands on knowledge through projects and case study analysis. Each concentration is designed to meet the educational needs of the growing and varied business sectors.

**Vision Statement**

The vision of Park University's Master of Business Administration program is to use a student-centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment.

**Mission Statement**

The mission of Park University's Master of Business Administration program is to prepare business leaders as entrepreneurial thinkers who enhance business competitiveness in a global environment.

**Program Learning Outcomes**

• Formulate a personal communication strategy that will help them cultivate professional relationships with diverse stakeholders to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage.
• Assess the level of professionalism needed for success in a highly dynamic and demanding environment by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession. Demonstrate the ability to function autonomously and take responsibility for managing a culturally and geographically diverse group of professionals within a highly complex and changing business environment.

• Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.

• Assess the business environment and its components in order to identify opportunities and threats, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success on a domestic and global scale.

• Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic economy.

• Demonstrate advanced problem solving skills that result in viable and ethical solutions to complex issues that may impact product and service delivery.

**Admissions Requirements**

See Admissions Policies and Procedures for further details.

• A bachelor's degree from an acceptable accredited college or university in the U.S., or from an foreign institution of higher learning.

• Minimum 2.75 cumulative grade point average on a 4.0 scale from all colleges and universities attended.

• Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

Admission to Park University's Master of Business Administration program is open to graduates of all fields of undergraduate study.

**Sequential Degree**

This program is a participant of the Sequential Degree option.

**Requirements For: Master - 36 Hours, 3.0 GPA**

**Core Curriculum 24 cr.**

• MBA500 - Management Foundations **Credits: 3**
• MBA515 - Accounting for Management Decisions **Credits: 3**
• MBA522 - Organization Behavior and Leadership **Credits: 3**
• MBA524 - Business Law and Ethics **Credits: 3**
• MBA576 - Operations Management **Credits: 3**
• MBA615 - Managerial Finance **Credits: 3**
• MBA630 - Strategic Marketing **Credits: 3**
• MBA695 - Strategic Management **Credits: 3**

**Concentrations**
All students complete all core courses to provide a common foundation; therefore, the program's policy is not to waive any of the core courses.

The general MBA program offers the flexibility to tailor electives to the student's professional interests. Ample choices allow a broad choice or a focus, such as finance, entrepreneurship, global business or information systems. Alternatively, the student may select one of the following formal areas of concentration:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Project Management Concentration
- Public Accounting Concentration

Note

Park undergraduate students who completed their bachelor's degree within the past five years, completed all four courses in the MBA 4+1 program (12 credit hours), and received a B or higher in each 4+1 course, may receive a waiver for MBA500 Management Foundations.

Marketing

Core Requirement 9 cr.

- MKT631 - Consumer Behavior **Credits:** 3
- MKT632 - Strategic Brand Management **Credits:** 3
- MKT634 - Strategic Marketing Simulation **Credits:** 3

Electives

Select one of the following:

- CIS608 - Web and Marketing Analytics **Credits:** 3
- MKT633 - Digital and Social Media Marketing **Credits:** 3

Graduation Requirements

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.
Master of Business Administration, Project Management
Concentration, M.B.A.

Master of Business Administration M.B.A.

Park University’s Master of Business Administration degree program was founded in 1998. Park's MBA program offers a student centered learning environment to produce responsible, innovative business leaders in an ever-changing global environment. It prepares students as entrepreneurial thinkers to enhance business competitiveness in a global environment. Significance is placed on applying business knowledge and techniques to implement decisions.

Park's MBA faculty and students come from all continents and have diverse professional backgrounds, enriching the educational experience. Whether advancing through the ranks of a multinational corporation, joining a small nonprofit organization or re-entering the workplace, business applications and tools acquired in the MBA program are vital to student success in today's fast-paced global business environment.

Project Management

The Project Management (PM) concentration is designed to prepare students with the knowledge, skills, and abilities (KSAs) to competently plan, organize, staff, and guide processes for creating a solution or system. The PM concentration intends to adequately prepare the students to take the Project Management Professional (PMP)® credentialing exam. More specifically, the content is aligned with the Project Management Body of Knowledge (PMBOK, 5th edition) and introduces students to the 5 process groups, 10 knowledge areas, and 47 processes of project management.

Core Requirement 12 cr.

• PM690 - Integration, Scope, and Quality Management Credits: 3
• PM691 - Time and Cost Management Credits: 3
• PM692 - Communications, Risk, and Stakeholder Management Credits: 3
• PM693 - Human Resource and Procurement Management Credits: 3

Graduation Requirements

**Public Accounting**

The Public Accounting concentration will prepare students for the CPA exam through additional courses aimed at graduate hours in accounting. The concentration will include a total of twelve (12) semester hours, which will include four (4) courses focused on the four parts of the CPA exam.

*Must have already earned a B.S. in Accounting.*

**Core Requirement 12 cr.**

- ACC621 - Advanced Auditing **Credits: 3**
- ACC622 - Advanced Business Environment and Concepts **Credits: 3**
- ACC623 - Advanced Financial Accounting and Reporting **Credits: 3**
- ACC624 - Advanced Regulation **Credits: 3**

**Graduation Requirements**

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Education, Educational Leadership/Principalship, M.E.**

Master of Education, Educational Leadership/Principalship, M.E. Locations

**Purpose**

The Master of Education with an area of emphasis in educational administration is designed for educators desiring to work as a building-level administrator in a school setting. Completion of Park's 30 credit hour program earns a Master of Education degree in Educational Leadership/Principalship. Certification as a
principal is earned by the additional passing of current DESE state assessments. The program is offered in an 8-week online format. Full-time enrollment is one course per 8-week term. Full time enrollment during the academic year and one or two courses for two summers allows completion in two calendar years.

**Admission Requirements**

- A bachelor’s degree from an accredited institution and a valid state teaching certificate (applicant must provide copy of certificate). *Note: This must be completed before the completion of the first three credit hours*
- School employment as a teacher is required in order to fulfill 300 hours of administrative field experience in the school setting.
- Students seeking Educational Leadership/Principalship must have three years’ teaching experience by the time they apply for state certification. DESE requires a Missouri state teaching certificate in order to apply for principal certification.
- Minimum 3.0 grade point average on a 4.0 scale.
- Advanced candidates with a GPA between 2.75 and 3.0 may be considered for provisional admission.
- A felony background check and FBI fingerprint check must be completed and clearance received for admission.

**Requirements For: Master - 30 Hours, 3.0 GPA**

**Core Requirement 30 cr.**

- ED513 - Law for Educators **Credits: 3**
- ED514 - Foundations of Educational Administration **Credits: 3**
- ED522 - Legal Aspects of Special Education **Credits: 3**
- ED606 - Curriculum Theory and Practice **Credits: 3**
- ED608 - Assessment **Credits: 3**
- ED612 - School and Community Leadership **Credits: 3**
- ED616 - School Supervision **Credits: 3**
- ED626 - K-12 School Administration **Credits: 3**
- ED634 - Directed Field Experience **Credits: 3** (*should be taken during the last Fall 16 weeks or Spring 16 weeks before graduation*)
- ED635 - School Organization and Management **Credits: 3**

**Additional Requirements**

- Certification as a building-level administrator requires passing the current Missouri Department of Elementary and Secondary (DESE) assessments.

**Graduation Requirements**

Park University confers the Master of Education degrees upon successful completion of the following requirements:

- Completion of a minimum of 30 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
Submission of an Application for Graduation.

**Master of Education, Educational Technology for Teachers, M.E.**

**Purpose**

The Master of Education in Educational Technology for Teachers degree focuses on technology-integrated instruction and assessment that emphasizes high-quality lesson design, critical inquiry, and building a community of learners. Studies will include a critical analysis of current and future technologies to enhance learning in the K-12 classroom through application, research, and data analysis.

The coursework for this 30-credit hour area of emphasis is offered in an 8-week online format. A professional electronic portfolio, as well as projects embedded in course work, are required. The degree can be completed in two calendar years, including summers.

**Admission Requirements**

- A bachelor's degree from a regionally accredited institution.
- Minimum 3.0 grade point average on a 4.0 scale.
- A felony background check and FBI fingerprint check must be completed for admission. Admission is dependent upon clearance.
- Students with a GPA between 2.75 and 3.0 may be considered for provisional admission.

**Requirements For: Master - 30 Hours, 3.0 GPA**

**Core Requirement 30 cr.**

- ED502 - Teaching and Learning in the Digital World **Credits: 3**
- ED507 - The Connected Teacher Learner **Credits: 3**
- ED511 - Utilizing Technology in Classroom Research **Credits: 3**
- ED523 - Assessment and Evaluation of Teaching and Learning In the Digital Classroom **Credits: 3**
- ED543 - Trending Tools of the Internet **Credits: 3**
- ED551 - Educational Technology/Tools for the 21st Century Learner **Credits: 3**
- ED564 - Enhancing Instruction with Technology **Credits: 3**
- ED571 - Issues and Ethics with Technology Integration **Credits: 3**
- ED574 - Analyzing and Presenting Data in the Workplace **Credits: 3**
- ED579 - Educational Technology Electronic Portfolio Development **Credits: 3**

**Additional Requirements**

An approved portfolio is required, which addresses satisfactorily the ISTE Standards. This portfolio must be presented by the fifth week of the last term in the advanced candidate's program.

**Graduation Requirements**
Park University confers the Master of Education degrees upon successful completion of the following requirements:

- Completion of a minimum of 30 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Education, Language and Literacy, M.E.**

**Purpose**

The Master of Education with emphasis in Language and Literacy is designed with two program areas of emphasis for two types of educators:

Special Reading Teacher – This Master of Education area of emphasis is for educators desiring to work as reading specialists in various public and private settings. The degree program aligns with the professional standards of the International Literacy Association (ILA) for Reading Professionals (2017, ILA 2018), International Dyslexia Association Knowledge and Practice Standards for Teachers of Reading (IDA, 2018), and the Missouri Educator Gateway Assessment Framework for Special Reading (Pearson, 2020). Courses are offered in the 8-week format. Full-time enrollment is one course per 8-week term. This area of emphasis leads to Missouri Special Reading certification. This certification is not available as an initial certificate; candidates must already be certified in another area. Refer to Certification Requirements for additional information regarding certification.

English Language Learners Teacher – This Master of Education area of emphasis is for educators desiring ELL linguistics and second language acquisition basics, as well as ELL methods, materials and assessments for public and private schools. This area of emphasis meets the professional standards of the Teachers of English to Speakers of Other Languages International Association Standards for P-12 Teacher Education Programs (TESOL, 2010) as well as DESE ELL Standards. Courses are offered in the 8-week format. Full-time enrollment is one course per 8-week term. This area leads to Missouri ELL certification. Certification is not available as an initial certificate; candidates must already be certified in another area. Refer to Certification Requirements for additional information regarding certification.

**Admission Requirements**

A bachelor's degree from an accredited institution and hold a valid state teaching certificate (applicant must provide copy of certificate)

School employment is not required for admission into the Language and Literacy programs. However, every course requires direct work with children; therefore, advanced candidates are responsible for finding students with whom to work if they do not have access to a classroom.

Advanced candidates seeking Special Reading Teacher or ELL certification must have two years' teaching experience by the time they apply for certification.

Minimum 3.0 grade point average on a 4.0 scale, and 2.5 GPA in core.

A felony background check and FBI fingerprint check and clearance received for admission.

Child abuse or neglect screening.

Advanced candidates with a GPA between 2.7 and 3.0 may be considered for admission, if they provide one of the following:
Four years successful employment experience (letter of recommendation from a supervisor based on good evaluations).
An acceptable GRE score for verbal and quantitative tests.
Note: If items 4 and 5 above have been completed for continuous current employment or for the U.S. military, a copy of the same may be submitted.

Program Requirements
The coursework for both 30-credit hour program areas of emphasis is offered in an 8-week format, either in a hybrid model (60% face-to-face and 40% online) or totally online. A professional portfolio, as well as projects embedded in course work, is required. Advanced candidates must successfully pass the School of Education Disposition Instrument for Advanced Candidates for admission into their respective program practicums (either ED641, ED651 or ED652). Students intending to apply for certification through DESE may need to take 3-6 additional credit hours beyond the 30 hours required to earn the MED degree depending on whether they have previously earned credits for the course equivalents of ED520 and/or ED527 from another institution or as part of their baccalaureate degree. These courses are certification requirements and not required to earn the MED degree.

For all areas, in addition to completing the 30-credit hour curriculum with at least a 3.0 GPA, the advanced candidate must submit an approved portfolio that addresses satisfactorily the ILA Standards, a comparison of the ILA and IDA Standards, or the TESOL Standards (depending on degree area of emphasis). An advanced candidate cannot complete the program or be recommended for certification without successfully completing/passing the portfolio. It is recommended that advanced candidates present their portfolios for evaluation by the fifth week of their final practicum course in the advanced candidate's program. Advanced candidates in need of more time or support beyond completion of their last required course to complete/pass their portfolio may enroll in ED699. Advanced candidates must remain continuously enrolled until all graduation requirements are fulfilled. Furthermore, advanced candidates must pass any content assessment(s) designated by the Missouri State Board of Education for additional certification(s). Advanced Candidates should consult with their Academic Advisor regarding current Missouri Content Assessment (MoCA) requirements and test availability.

Certification Requirements
Both program areas within the Master of Education with emphasis in Language and Literacy lead to certification through Missouri’s Department of Elementary and Secondary Education (DESE) for Special Reading (K-12) or English Language Learners (K-12). If interested, advanced candidates are responsible for applying online for certification through www.dese.mo.gov at the end of their program or at the point in which they meet all certification requirements (Contact your Academic Advisor for additional information). Endorsement from the designated certification official of an educator preparation program approved by DESE is required as part of the application process. The certification official from Park University will endorse applications for certification for:

Individuals who earn a MED with an emphasis in Language and Literacy (Special Reading or English Language Learners) from Park University as well as meet the state requirements for:
ED 520 and/or ED 527 (as needed for their program area) or the credit/course equivalent earned at Park University, transferred from another institution, or earned as part of a baccalaureate degree; and
Pass content assessment(s) designated by the Missouri State Board of Education for additional certification(s) for Special Reading or ELL. Advanced Candidates should consult with their Academic Advisor regarding current Missouri Content Assessment (MoCA) requirements and testing availability for their program area(s).
Non-degree seeking individuals should refer to the Endorsement Policy for Non-Degree Seeking Students in Graduate Programs Leading to Certification in Missouri.

Requirements For: Master - 30 Hours*, 3.0 GPA

Special Reading

Core Requirement 12 cr.

- ED546 - Analysis and Correction of Reading Difficulties Credits: 3
- ED641 - Literacy Practicum I Credits: 3
- ED651 - Literacy Practicum II Credits: 3
- ED550 - Literacy Intervention for the Diverse Learner Credits: 3

Required Courses 18 cr.

- ED528 - Theory and Practice in Literacy Credits: 3
- ED548 - Evaluation of Abilities and Achievement Credits: 3
- ED557 - Language to Literacy Acquisition and Development Credits: 3
- ED603 - Teaching Literacy to Diverse Learners Credits: 3
- ED605 - Professional Learning & Literacy Leadership Credits: 3
- ED610 - Issues & Research in Literacy Credits: 3

Certification Requirement 0-6 CR

*ED520 and ED527 or their equivalents are required for certification by DESE and may be fulfilled through credits earned as part of one's baccalaureate degree. ED520 and ED527 are not required for degree completion but are required for students seeking certification.

- ED520 - Special Needs in the Classroom Credits: 3
- ED527 - Growth and Development of Children and Adolescents Credits: 3

English Language Learners

Core Requirement 9 cr.

- ED545 - Teaching Reading to Linguistically Diverse Learners Credits: 3
- ED548 - Evaluation of Abilities and Achievement Credits: 3
- ED652 - English Language Learners Practicum Credits: 3

Required Courses 21 cr.
• ED509 - Language and Culture **Credits:** 3  
• ED552 - Linguistics for English Language Learner Teachers **Credits:** 3  
• ED562 - Principles of Second Language Learning **Credits:** 3  
• ED582 - Methods for Teaching English Language Learners **Credits:** 3  
• ED584 - Curriculum for Teaching English Language Learners **Credits:** 3  
• ED607 - Assessment Strategies for English Language Learners **Credits:** 3  
• ED619 - Multi-Cultural Literature for Teachers **Credits:** 3

**Portfolio Requirement**

An approved portfolio is required, which addresses satisfactorily the ILA Standards (Special Reading), comparison of ILA and IDA Standards (Special Reading) or the TESOL Standards (ELL). It is recommended that advanced candidates present their portfolios for evaluation no later than the fifth week of their final practicum course in the advanced candidate’s program. Advanced candidates in need of more time or support to complete/pass their portfolio must be continuously enrolled in ED699 through the successful completion of their portfolio.

• ED699 - Final portfolio continuous enrollment **Credits:** 1  
  Enrollment in ED699 (1 credit/term) is required for degree candidates who have completed all coursework but have not passed the portfolio.

**Certification Requirement 0-3 CR**

*ED520 or its equivalent, is required for certification by DESE and may be fulfilled through credits earned as part of one’s baccalaureate degree. ED520 is not required for degree completion but is required for students seeking certification.*

• ED520 - Special Needs in the Classroom **Credits:** 3

**Additional Requirements**

Advanced candidates must pass School of Education Disposition Instruments as required for practicum course eligibility and program completion.

Although candidates are not required to be employed in a full time teaching position while completing their degree coursework, they are responsible for arranging access to K-12 students and classrooms in accordance with school, district, and university stipulations so that they are able to complete a range of assignments, fieldwork, and practicums.

An advanced candidate cannot complete the program or be recommended for certification without an acceptable portfolio.

Advanced candidates must be continuously enrolled until all graduation requirements are satisfied.

Advanced Candidates seeking endorsement from Park University for special reading certification must pass any content assessment(s) designated by the Missouri State Board of Education for additional certification(s).

**Additional Course Offerings**
Students seeking additional coursework beyond degree requirements may elect to take any of the above courses that are not already included within their degree concentration area (i.e., Special Reading or ELL). In addition, the below courses are available to students seeking additional coursework beyond degree requirements. Please note that financial aid may not be available to cover the cost of any elective courses.

- **ED526 - Classroom Management Seminar** **Credits:** 3
- **ED547 - Counseling Techniques with Exceptional Children and their Families** **Credits:** 3
- **ED561 - Miscue Analysis** **Credits:** 3
- **ED609 - Current Issues and Trends in Literacy** **Credits:** 3

**Graduation Requirements**

Park University confers the Master of Education degrees upon successful completion of the following requirements:

- Completion of a minimum of 30 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Education, Organizational Leadership and Adult Learning, M.E.**

**Purpose**

The Master of Education in Organizational Leadership and Adult Learning is a progressive, multi-disciplinary program that introduces key concepts of adult learning and development in a variety of contexts. Graduates and participants in the program are qualified for a variety of careers such as training and development in organizations and the military, higher education and online learning, and community-based education. The program will:

- Provide a comprehensive, research-based understanding of human capacity building and competency development.
- Connect advanced candidates with challenges facing today’s organizations and prepare them to create innovative and effective learning solutions.
- Prepare advanced candidates to synthesize elements from adult learning theory, instructional design, emerging technology, and curriculum and program development and apply them to one’s current or planned professional setting.

Drawing on a range of disciplines (education, business, information technology), this program will prepare one for a career to apply knowledge and skills, which can be effectively used and developed on an individual, team and organizational level.

**Unique Program Features**

The M.Ed. in Organizational Leadership and Adult Learning program utilizes real-world experiences to connect learners with external stakeholders and organizations through
project-and problem-based learning. One will work with faculty in a variety of adult educational settings, to develop transferable competencies highly sought after in organizational learning and development, consulting, higher education, the military, and other adult educational settings.

**Program Competencies**

- **Active Inquiry & Critical Thinking** – Your decisions are based on supported learning and design theory, and the acquisition of new knowledge through extensive investigation viewed through the lens of critically reflective reasoning.
- **Problem Solving** – You will synthesize knowledge from diverse sources and contradictory points of view to solve complex and ambiguous learning, training, and development problems facing today’s organizations.
- **Strategic Thinking** – You will lead strategic change initiatives and develop learning strategies to help organizations develop and sustain competitive advantage.
- **Professional Ethics and Moral Reasoning** – Your actions are value-based under conditions of complexity and uncertainty.
- **Interpersonal Leadership** – You will build and utilize a set of communication and coaching skills that encourages the growth and professional development of individuals, and a positive climate that promotes effective learning in teams and organizations.
- **Educational Technology Innovation** – You will become a leader in utilizing emerging technologies, learning theory, and instructional design strategies to develop effective learning experiences and materials for a diverse set of adult learners in diverse organizational settings.

**Admission Requirements**

- A bachelor’s degree from an accredited institution.
- Minimum 3.0 grade point average on a 4.0 scale.
- Advanced candidates with a GPA between 2.75 and 3.0 may be considered for admission after submitting a written Statement of Career Objectives and completing an interview with the Area Coordinator.

**Requirements For: Master - 30 Hours, 3.0 GPA**

- ED504 - Learning as a Competitive Advantage **Credits:** 3
- ED512 - Human Capacity Building **Credits:** 3
- ED516 - Introduction to Graduate Research **Credits:** 3
- ED540 - Emerging Technologies and Facilitation Strategies **Credits:** 3
- ED542 - Program Planning for Adults **Credits:** 3
- ED563 - Managing Change and Innovation **Credits:** 3
- ED565 - Team Learning and Innovation **Credits:** 3
- ED566 - Organizational Learning **Credits:** 3
- ED572 - Developing Critical Thinking & Transformative Learning **Credits:** 3
- ED631 - Capstone **Credits:** 3

**Graduation Requirements**

Park University confers the Master of Education degrees upon successful completion of the following requirements:
Completion of a minimum of 30 semester hours.
Cumulative GPA of 3.0 for Park University courses.
Satisfaction of all requirements for a major as outlined in this catalog.
Completion of all earned credit with no more than 2 grades of C earned.
Submission of an Application for Graduation.

Master of Education, Teacher Leadership, Curriculum and Instruction Concentration, M.E.

This program is part of the 4+1 Undergraduate to Graduate program options. For questions regarding specific courses and options, please consult with your Advisor, Campus Center or via email at advising@park.edu.

Master of Education Teacher Leadership, M.E.

This 30-hour master’s degree emphasizes the integration of theory and practice through four key elements: relationship building; classroom culture and climate; teaching cycle; and content knowledge. Common threads through all courses are developing a strong knowledge base in culturally responsive teaching, clinical practice, and assessment.

Admission Requirements

- A bachelor's degree from an acceptable accredited institution.
- Minimum 3.0 grade point average on a 4.0 scale.
- A felony background check and FBI fingerprint check must be completed for admission. Admission is dependent upon clearance.
- Students with a GPA between 2.75 and 3.0 may be considered for provisional admission.

Requirements For: Master - 30 Hours, 3.0 GPA

- ED513 - Law for Educators Credits: 3
- ED519 - Diversity in the Classroom Credits: 3
- ED532 - Teaching and Learning: Theory Into Practice Credits: 3
- ED612 - School and Community Leadership Credits: 3
- ED617 - Assessment for Teachers Credits: 3
- ED632 - Action Research Credits: 3

Concentrations

- Curriculum and Instruction Concentration
- Literacy Concentration

Curriculum and Instruction
Core Requirement 12 cr.

- ED606 - Curriculum Theory and Practice Credits: 3
- ED620 - Advanced Curriculum, Instruction and Assessment Methods and Strategies Credits: 3
- ED621 - Serving Students with Special Needs in the Classroom Credits: 3
- ED623 - Differentiated Instruction in the Regular Classroom Credits: 3

Graduation Requirements

Park University confers the Master of Education degrees upon successful completion of the following requirements:

- Completion of a minimum of 30 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Master of Healthcare Administration, Business Analytics Concentration, M.H.A.

Master of Healthcare Administration M.H.A.

The Master of Healthcare Administration (MHA) program is in the School of Business which is housed within the College of Management and is designed for those individuals who are currently, or who aspire to be, leaders in a variety of health settings. Today's health organizations need administrators who can manage the current components of healthcare, as well as lead the health sector in new directions. The MHA program offers students the opportunity to understand and master the organizational, legal, financial, political and managerial aspects of health systems management. The MHA program offers a unique curriculum that is designed specifically to meet the career needs of future health leaders.

Vision

The Master of Healthcare Administration program is designed to prepare learners for the challenges of a global society, including utilization of innovative approaches to managing and leading, solving complex problems, and adhering to the ethical and professional standards of the healthcare system.

Mission
The Master of Healthcare Administration program provides healthcare administrators the tools to ensure efficient and effective delivery of quality health-related products and services to diverse communities.

**Program Goals**

The graduates will consistently be able to:

- Formulate a communication strategy that will cultivate professional relationships amongst a diverse group of stakeholders in order to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage in the market place.
- Assess the level of professionalism necessary to succeed in the highly dynamic and demanding industry by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession.
- Demonstrate the ability to function autonomously and take responsibility for managing a diverse group of professionals within a highly complex and changing healthcare environment.
- Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
- Assess the healthcare environment and its constructs in order to pinpoint industry risks and opportunities, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success.
- Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic and demanding industry.
- Demonstrate advanced problem solving skills in the construction of viable and ethical solutions to complex issues that may negatively impact product and service delivery.

**Admission Requirements**

See Admissions Policies and Procedures for further details.

- A bachelor's degree from an acceptable accredited United States institution or the equivalent from a foreign institution.
- A minimum of a 2.75 cumulative grade point average on a 4.0 scale in the bachelor's degree.
- Submission of official transcripts is required (except for Park University alumni).
- Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

*Note: The only admission requirements waived for Park University alumni are the application fee and submission of official transcripts.*
For more information regarding the Master of Healthcare Administration program, please visit www.park.edu/mha.

**Sequential Degree**

This program is a participant of the Sequential Degree option.

**Format and Delivery of Courses**

- Online: Courses in the MHA program are predominantly online. Students may meet all course requirements through an online format.
- Blended: All ground courses are offered using a blended delivery format. This means that each weekly class session includes a physical classroom and an online component. In this format, students are expected to complete assigned readings, review supplemental materials, and complete certain assignments prior to the class session. During the class sessions, the instructors will facilitate in-class activities that promote collaborative learning and provide opportunities to apply learned concepts.

**Requirements For: Master - 36 Hours, 3.0 GPA**

**Core Curriculum 24 cr.**

- HA518 - Organization of Healthcare Delivery Systems **Credits**: 3 *(recommended first class)*
- HA509 - Management of Health Information Systems **Credits**: 3
- HA516 - Healthcare Finance **Credits**: 3
- HA517 - Legal and Ethical Issues in Healthcare Administration **Credits**: 3
- HA604 - Healthcare Economics and Policy **Credits**: 3
- HA605 - Healthcare Organizational Behavior and Leadership **Credits**: 3
- HA612 - Healthcare Operations Management **Credits**: 3

**Capstone Course**

- HA616 - Healthcare Strategic Management and Marketing **Credits**: 3

**Concentrations**

Students complete all core courses to provide a curricular foundation. The general MHA program offers the flexibility to tailor electives to the student's professional interests. Ample formal concentration choices allow for a chosen focus. In lieu of the general MHA, students may select one of the following concentrations:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
• Management Accounting Concentration
• Management Information Systems Concentration
• Marketing Concentration
• Nonprofit Management Concentration
• Project Management Concentration

Business Analytics

Core Requirement 12 cr.

• CIS607 - Survey of Predictive Analytical Techniques Credits: 3
• CIS609 - Data Visualization Credits: 3
• HA607 - Data Analytics in Healthcare Administration Credits: 3
• MIS605 - Management Information Systems Credits: 3

Graduation Requirements

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

• Completion of a minimum of 36 semester hours.
• Cumulative GPA of 3.0 for Park University courses.
• Satisfaction of all requirements for a major as outlined in this catalog.
• Completion of all earned credit with no more than 2 grades of C earned.
• Submission of an Application for Graduation.

• Project Management Concentration

Disaster and Emergency Management

The concentration in Disaster and Emergency Management is designed to prepare the graduate student with the knowledge, skills, and abilities (KSAs) to competently mitigate, prepare, respond, and assist communities and their organizations in recovering from natural and man-made disasters. An array of potentially hazardous events now more than ever confront businesses and include, but are not necessarily limited to homeland security issues; failures of complex technology; and a wide range of natural hazards. Ultimately, this concentration is intended to prepare graduates to design and improve emergency management capabilities and command and control operations within firms, so that they’re better prepared to handle major and catastrophic disasters that threaten to disrupt business continuity.

Core Requirement 12 cr.

• DEM551 - Principles of Disaster and Emergency Management Credits: 3
• DEM552 - Public Policy and Disaster Credits: 3
• DEM553 - Disaster and Society Credits: 3
• DEM557 - Continuity of Operations in Public and Private Sectors Credits: 3

Graduation Requirements

- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

Finance Concentration

The Finance concentration provides graduates with broad professional competence and skills for careers in executive positions at financial institutions and other organizations. This concentration offers students extensive understanding of core skillsets in financial modeling, debt and equity issues, valuation, mergers and acquisitions, financial planning, risk management, financial reporting and analysis, and taxation necessary for modern corporate finance positions and consulting. By incorporating critical strategies and techniques in areas such as investment and commercial banks, financial, general management consulting, venture capital and private equity firms, and corporate finance within 500 large-cap companies, graduates are primed for financial challenges in national and international arenas. This concentration allows students to tailor their program to their professional goals and prepare them for career opportunities such as:

- **Investment Management.** Prepares candidates for a career as a security analyst, money manager, brokerage firm analyst, insurance company representative or other financial job function.
- **Corporate Financial Management.** Prepares candidates to be financial managers with responsibilities in risk management, strategic planning, budgeting, financial forecasting, cash management, credit administration, investment analysis and funds procurement.

Core Requirement 12 cr.

The Master of Healthcare Administration program is designed to prepare learners for the challenges of a global society, including utilization of innovative approaches to managing and leading, solving complex problems, and adhering to the ethical and professional standards of the healthcare system.

**Mission**

The Master of Healthcare Administration program provides healthcare administrators the tools to ensure efficient and effective delivery of quality health-related products and services to diverse communities.

**Program Goals**

The graduates will consistently be able to:

- Formulate a communication strategy that will cultivate professional relationships amongst a diverse group of stakeholders in order to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage in the market place.
- Assess the level of professionalism necessary to succeed in the highly dynamic and demanding industry by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession.
- Demonstrate the ability to function autonomously and take responsibility for managing a diverse group of professionals within a highly complex and changing healthcare environment.
- Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
- Assess the healthcare environment and its constructs in order to pinpoint industry risks and opportunities, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success.
- Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic and demanding industry.
- Demonstrate advanced problem solving skills in the construction of viable and ethical solutions to complex issues that may negatively impact product and service delivery.

**Admission Requirements**

See Admissions Policies and Procedures for further details.

- A bachelor’s degree from an acceptable accredited United States institution or the equivalent from a foreign institution.
- A minimum of a 2.75 cumulative grade point average on a 4.0 scale in the bachelor’s degree.
Submission of official transcripts is required (except for Park University alumni).

Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

*Note: The only admission requirements waived for Park University alumni are the application fee and submission of official transcripts.*

For more information regarding the Master of Healthcare Administration program, please visit www.park.edu/mha.

**Sequential Degree**

This program is a participant of the Sequential Degree option.

**Format and Delivery of Courses**

- Online: Courses in the MHA program are predominantly online. Students may meet all course requirements through an online format.
- Blended: All ground courses are offered using a blended delivery format. This means that each weekly class session includes a physical classroom and an online component. In this format, students are expected to complete assigned readings, review supplemental materials, and complete certain assignments prior to the class session. During the class sessions, the instructors will facilitate in-class activities that promote collaborative learning and provide opportunities to apply learned concepts.

**Requirements For: Master - 36 Hours, 3.0 GPA**

**Core Curriculum 24 cr.**

- HA518 - Organization of Healthcare Delivery Systems **Credits:** 3 (recommended first class)
- HA509 - Management of Health Information Systems **Credits:** 3
- HA516 - Healthcare Finance **Credits:** 3
- HA517 - Legal and Ethical Issues in Healthcare Administration **Credits:** 3
- HA604 - Healthcare Economics and Policy **Credits:** 3
- HA605 - Healthcare Organizational Behavior and Leadership **Credits:** 3
- HA612 - Healthcare Operations Management **Credits:** 3

**Capstone Course**

- HA616 - Healthcare Strategic Management and Marketing **Credits:** 3

**Concentrations**

Students complete all core courses to provide a curricular foundation. The general MHA program offers the flexibility to tailor electives to the student’s professional interests. Ample formal concentration choices allow for a chosen
focus. In lieu of the general MHA, students may select one of the following concentrations:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

**Human Resource Management**

The Human Resource Management concentration provides graduates with exposure to the theoretical and practical knowledge needed for managerial and executive positions in human resource management in both public and private sector organizations. This concentration offers students qualitative and quantitative practice in:

- Planning and staffing;
- Training, development and evaluation methods;
- Change management, conflict resolution and consulting interventions; and
- Strategically and systematically practicing human resource management for optimal outcomes.

**Core Requirement 12 cr.**

- HRM634 - Planning and Staffing **Credits: 3**
- HRM635 - Training, Development, and Evaluation **Credits: 3**
- HRM636 - Change Management and Conflict Resolution **Credits: 3**
- HRM637 - Compensation Management **Credits: 3**

**Graduation Requirements**

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 36 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.
Master of Healthcare Administration, Innovation and Quality Management Concentration, M.H.A.

Master of Healthcare Administration M.H.A.

The Master of Healthcare Administration (MHA) program is in the School of Business which is housed within the College of Management and is designed for those individuals who are currently, or who aspire to be, leaders in a variety of health settings. Today’s health organizations need administrators who can manage the current components of healthcare, as well as lead the health sector in new directions. The MHA program offers students the opportunity to understand and master the organizational, legal, financial, political and managerial aspects of health systems management. The MHA program offers a unique curriculum that is designed specifically to meet the career needs of future health leaders.

Vision

The Master of Healthcare Administration program is designed to prepare learners for the challenges of a global society, including utilization of innovative approaches to managing and leading, solving complex problems, and adhering to the ethical and professional standards of the healthcare system.

Mission

The Master of Healthcare Administration program provides healthcare administrators the tools to ensure efficient and effective delivery of quality health-related products and services to diverse communities.

Program Goals

The graduates will consistently be able to:

• Formulate a communication strategy that will cultivate professional relationships amongst a diverse group of stakeholders in order to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage in the market place.
• Assess the level of professionalism necessary to succeed in the highly dynamic and demanding industry by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession.
• Demonstrate the ability to function autonomously and take responsibility for managing a diverse group of professionals within a highly complex and changing healthcare environment.
• Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
• Assess the healthcare environment and its constructs in order to pinpoint industry risks and opportunities, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success.
• Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic and demanding industry.
• Demonstrate advanced problem solving skills in the construction of viable and ethical solutions to complex issues that may negatively impact product and service delivery.

Admission Requirements

See Admissions Policies and Procedures for further details.

Requirements For: Master - 36 Hours, 3.0 GPA

Core Curriculum 24 cr.
- HA518 - Organization of Healthcare Delivery Systems Credits: 3
  *(recommended first class)*
- HA509 - Management of Health Information Systems Credits: 3
- HA516 - Healthcare Finance Credits: 3
- HA517 - Legal and Ethical Issues in Healthcare Administration Credits: 3
- HA604 - Healthcare Economics and Policy Credits: 3
- HA605 - Healthcare Organizational Behavior and Leadership Credits: 3
- HA612 - Healthcare Operations Management Credits: 3

**Capstone Course**

- HA616 - Healthcare Strategic Management and Marketing Credits: 3

**Concentrations**

Students complete all core courses to provide a curricular foundation. The general MHA program offers the flexibility to tailor electives to the student's professional interests. Ample formal concentration choices allow for a chosen focus. In lieu of the general MHA, students may select one of the following concentrations:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

**Innovation and Quality Management**

The Innovation and Quality Management concentration is designed to give students an in-depth understanding of the concepts and techniques used to assess and improve process outcomes. In other words, the students will be able to isolate processes that are routinely experiencing too much variability in their output, identify natural and assignable causes for variations, develop tactical strategies to improve process performance, and then establish formal mechanisms for monitoring future outcomes. Students will learn how to appropriately apply qualitative and quantitative approaches to diagnose the nature and scope of process problems and evaluate the effectiveness of interventions. The competencies that will be developed in this curriculum will serve students well as they progress in their careers. Defective processes drive up operating costs, making it virtually impossible to forecast revenues, and contributing to poor quality goods and services. This can lessen a firm's competitive advantage in the marketplace and jeopardize their long-term financial viability.
Core Requirement 12 cr.

- QM684 - Principles of Quality Management Credits: 3
- QM685 - Innovative Techniques in Quality Management Credits: 3
- QM686 - Innovative Project Management Credits: 3
- QM687 - Collaborative Innovation Strategies Credits: 3

Graduation Requirements

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

Management Accounting
The Management Accounting concentration is designed to prepare students with the competencies necessary to excel in professional positions that require a high level of comfort with accounting and finance, such as chief financial officers, controllers, financial analysts, budget analysts or directors. More specifically, the students will develop an extensive understanding of management accounting concepts, cost accounting, accounting research practices, activity-based costing as an aid to decision making, profit planning, budget forecasting and preparation, and will broaden their leadership skills. In acquiring skills for leading the CFO function within a variety of organizational structures, this concentration will develop student knowledge of financial planning, financial analysis, control mechanisms, decision-making, and professional ethics.

Core Requirement 12 cr.

- ACC613 - Internal Auditing and Control Mechanisms Credits: 3

#### Concentrations

Students complete all core courses to provide a curricular foundation. The general MHA program offers the flexibility to tailor electives to the student's professional interests. Ample formal concentration choices allow for a chosen
focus. In lieu of the general MHA, students may select one of the following concentrations:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

Management Information Systems

The Management Information Systems concentration offers a unique combination of business intelligence and industry standards through practical project-oriented instruction. The rationale is to produce quality graduates with in-depth knowledge and hands-on understanding of the essentials of managing today's information technology systems. Students study the foundations of business so they can apply management information system technology to create efficient, effective business enterprises capable of competing in a global setting.

In addition, students are exposed to the concepts and applications of data analytics, security and privacy of big data, and project management as they pertain to system architecture and a firm's ability to answer complicated business questions.

Core Requirement 12 cr.

- MIS603 - Information Security and Risk Management Credits: 3
- MIS605 - Management Information Systems Credits: 3
- MIS609 - Database Management Systems Credits: 3
- MIS614 - Data Analysis and Business Analytics Credits: 3

Concentrations

Students complete all core courses to provide a curricular foundation. The general MHA program offers the flexibility to tailor electives to the student’s professional interests. Ample formal concentration choices allow for a chosen focus. In lieu of the general MHA, students may select one of the following concentrations:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

Nonprofit Management

The concentration in nonprofit management is beneficial for those students interested in learning more about creating strategies for nonprofits to fulfill their unique missions, leading and managing nonprofit organizations. This concentration offers students extensive understanding of core skillsets in reviewing community needs, nonprofit incorporation and regulation, governance process, marketing to various stakeholders, funding sources for community and nonprofit services, budgeting, financial recordkeeping, tax provisions governing financial management controls, cost analysis, financial reporting, and preparation for audits.

Core Requirement 12 cr.

- PA542 - Social Policy Credits: 3
• PA545 - Management of Nonprofit and Nongovernmental Organizations  
  **Credits:** 3
• PA593 - Financing Nonprofit/Community Services  
  **Credits:** 3
• PA594 - Financial Management for Nonprofit/Community Organizations  
  **Credits:** 3

**Graduation Requirements**

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

• Completion of a minimum of 36 semester hours.
• Cumulative GPA of 3.0 for Park University courses.
• Satisfaction of all requirements for a major as outlined in this catalog.
• Completion of all earned credit with no more than 2 grades of C earned.
• Submission of an Application for Graduation.

**Master of Healthcare Administration, Project Management Concentration, M.H.A.**

**Master of Healthcare Administration M.H.A.**

The Master of Healthcare Administration (MHA) program is in the School of Business which is housed within the College of Management and is designed for those individuals who are currently, or who aspire to be, leaders in a variety of health settings. Today’s health organizations need administrators who can manage the current components of healthcare, as well as lead the health sector in new directions. The MHA program offers students the opportunity to understand and master the organizational, legal, financial, political and managerial aspects of health systems management. The MHA program offers a unique curriculum that is designed specifically to meet the career needs of future health leaders.

**Vision**

The Master of Healthcare Administration program is designed to prepare learners for the challenges of a global society, including utilization of innovative approaches to managing and leading, solving complex problems, and adhering to the ethical and professional standards of the healthcare system.

**Mission**

The Master of Healthcare Administration program provides healthcare administrators the tools to ensure efficient and effective delivery of quality health-related products and services to diverse communities.

**Program Goals**

The graduates will consistently be able to:
• Formulate a communication strategy that will cultivate professional relationships amongst a diverse group of stakeholders in order to achieve cooperation, promote teamwork, demonstrate respect, and maintain a competitive advantage in the market place.
• Assess the level of professionalism necessary to succeed in the highly dynamic and demanding industry by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession.
• Demonstrate the ability to function autonomously and take responsibility for managing a diverse group of professionals within a highly complex and changing healthcare environment.
• Develop a clear and achievable organizational vision for the future which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
• Assess the healthcare environment and its constructs in order to pinpoint industry risks and opportunities, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success.
• Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic and demanding industry.
• Demonstrate advanced problem solving skills in the construction of viable and ethical solutions to complex issues that may negatively impact product and service delivery.

Admission Requirements

See Admissions Policies and Procedures for further details.

• A bachelor’s degree from an acceptable accredited United States institution or the equivalent from a foreign institution.
• A minimum of a 2.75 cumulative grade point average on a 4.0 scale in the bachelor’s degree.
• Submission of official transcripts is required (except for Park University alumni).
• Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be requested by the Program Director.

Note: The only admission requirements waived for Park University alumni are the application fee and submission of official transcripts.

For more information regarding the Master of Healthcare Administration program, please visit www.park.edu/mha.

Sequential Degree

This program is a participant of the Sequential Degree option.

Format and Delivery of Courses
Online: Courses in the MHA program are predominantly online. Students may meet all course requirements through an online format.

Blended: All ground courses are offered using a blended delivery format. This means that each weekly class session includes a physical classroom and an online component. In this format, students are expected to complete assigned readings, review supplemental materials, and complete certain assignments prior to the class session. During the class sessions, the instructors will facilitate in-class activities that promote collaborative learning and provide opportunities to apply learned concepts.

Requirements For: Master - 36 Hours, 3.0 GPA

Core Curriculum 24 cr.

- HA518 - Organization of Healthcare Delivery Systems Credits: 3 (recommended first class)
- HA509 - Management of Health Information Systems Credits: 3
- HA516 - Healthcare Finance Credits: 3
- HA517 - Legal and Ethical Issues in Healthcare Administration Credits: 3
- HA604 - Healthcare Economics and Policy Credits: 3
- HA605 - Healthcare Organizational Behavior and Leadership Credits: 3
- HA612 - Healthcare Operations Management Credits: 3

Capstone Course

- HA616 - Healthcare Strategic Management and Marketing Credits: 3

Concentrations

Students complete all core courses to provide a curricular foundation. The general MHA program offers the flexibility to tailor electives to the student’s professional interests. Ample formal concentration choices allow for a chosen focus. In lieu of the general MHA, students may select one of the following concentrations:

- Business Analytics Concentration
- Disaster and Emergency Management Concentration
- Finance Concentration
- General Concentration
- Human Resource Management Concentration
- Innovation and Quality Management Concentration
- Management Accounting Concentration
- Management Information Systems Concentration
- Marketing Concentration
- Nonprofit Management Concentration
- Project Management Concentration

Project Management
The Project Management (PM) concentration is designed to prepare students with the knowledge, skills, and abilities (KSAs) to competently plan, organize, staff, and guide processes for creating a solution or system. The PM concentration intends to adequately prepare the students to take the Project Management Professional (PMP)® credentialing exam. More specifically, the content is aligned with the Project Management Body of Knowledge (PMBOK, 5th edition) and introduces students to the 5 process groups, 10 knowledge areas, and 47 processes of project management.

Core Requirement 12 cr.

- PM690 - Integration, Scope, and Quality Management Credits: 3
- PM691 - Time and Cost Management Credits: 3
- PM692 - Communications, Risk, and Stakeholder Management Credits: 3
- PM693 - Human Resource and Procurement Management Credits: 3

Graduation Requirements

Park University confers the Master of Healthcare Administration degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 36 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Master of Music in Performance (Applied Emphasis in Piano, Violin, Viola or Cello), M.M.

The International Center for Music's Master of Music in Performance degree program is an advanced course of study for musicians who hold a bachelor's degree and are seeking careers as professional musicians. In addition to the general rules that are applicable for admission to graduate studies at Park University, specific admission requirements are:

- Bachelor of Music or related undergraduate degree from a U.S. institution, an equivalent bachelor's degree from an accredited foreign institution of higher education or equivalent professional experience as determined by the faculty of the University's International Center for Music.
- An audition before the music faculty. In approved situations, a recording may be submitted in lieu of a live audition.

Each applicant must furnish a complete list of repertoire and recital history at the time of application. This is an advanced program of study at the graduate level, supervised and approved by the graduate faculty of Park University.

Students entering the Master of Music program must take a Theory Competency Test. Students who do not pass are assigned to the appropriate theory class.

The student may select one of the following performance areas:
Requirements For: Master - 36 Hours, 3.0 GPA

Piano Performance (2 Year Program)

Chamber Music, four semesters for total Credits: 4
- MU501 - Chamber Music Credits: 1

Performance Class, three semesters for total Credits: 3
- MU502 - Performance Class Credits: 1

Collaboration, four semesters for total Credits: 8
- MU503 - Collaboration Credits: 2
- MU511 - Seminar in Music Theory and Analysis Credits: 3
- MU521 - History of the Concerto Credits: 3
- MU522 - History of the Symphony Credits: 3

String Performance (2 Year Program)

Chamber Music, four semesters for total Credits: 4
- MU501 - Chamber Music Credits: 1

Performance Class, three semesters for total Credits: 3
- MU502 - Performance Class Credits: 1

Orchestra, four semesters for total Credits: 4
- MU504 - Orchestra Credits: 1

Orchestra Repertoire, four semesters for total Credits: 4
- MU505 - Orchestral Repertoire Credits: 1
- MU511 - Seminar in Music Theory and Analysis Credits: 3
- MU521 - History of the Concerto Credits: 3
- MU522 - History of the Symphony Credits: 3

Graduation Requirements

Park University confers the Master of Music, Master of Public Administration, and Master of Science degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 36 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.
Master of Public Administration, Criminal Justice Administration Concentration, M.P.A.

Master of Public Administration, M.P.A.

Format of Courses

Courses in the MPA are offered in multiple formats: online, traditional face-to-face classroom, and blended. Students may complete their degree using any combination of formats.

Courses of Study

Students are required to take a series of eight core public administration courses in the Master of Public Administration program. In addition, from the program areas, students select one as a concentration area. With approval, a student may take a PA504 internship course to replace a course in the Master of Public Administration program.

Sequential Degree

This program is a participant of the Sequential Degree option.

Required For: Master - 36 Hours, 3.0 GPA

Core Curriculum 24 cr.

- PA501 - Public Affairs Concepts and Theory Credits: 3
- PA509 - Leadership Development and Organizations Credits: 3
- PA512 - The Environment of Public Organizations Credits: 3
- PA563 - Personnel Systems of Public Organizations Credits: 3
- PA564 - Budgeting and Finances of Public Organizations Credits: 3
- PA600 - Ethical Foundations of Authority and Responsibility Credits: 3
- PA601 - Research Methods and Data Analysis Credits: 3
- PA602 - Seminar in Public Affairs Credits: 3

Area Concentrations

- Criminal Justice Administration
- Disaster and Emergency Management
- Information Systems and Business Analytics
- Local Economic Development
- Management Information Systems
- Nonprofit and Community Services Management
- Project Management
- Public Policy
Criminal Justice Administration

Core Requirement 12 cr.

- PA503 - Emerging Issues in Public Affairs Credits: 1 to 3
- PA513 - Policy Development, Evaluation and Impact for Organizations Credits: 3
- PA594 - Financial Management for Nonprofit/Community Organizations Credits: 3
- PA630 - Comparative Criminal Justice Systems Credits: 3

Graduation Requirements

Park University confers the Master of Music, Master of Public Administration, and Master of Science degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 36 semester hours.
- Cumulative GPA of 3.0 for Park University courses.

- Disaster and Emergency Management
- Information Systems and Business Analytics
- Local Economic Development
- Management Information Systems
- Nonprofit and Community Services Management
- Project Management
- Public Policy

Disaster and Emergency Management

The concentration in Disaster and Emergency Management is designed to prepare the graduate student with the knowledge, skills, and abilities (KSAs) to competently mitigate, prepare, respond, and assist communities and their organizations in recovering from natural and man-made disasters. An array of potentially hazardous events now more than ever confront businesses and include, but are not necessarily limited to homeland security issues; failures of complex technology; and a wide range of natural hazards. Ultimately, this concentration is intended to prepare graduates to design and improve emergency management capabilities and command and control operations within firms, so that they’re better prepared to handle major and catastrophic disasters that threaten to disrupt business continuity.

Core Requirement 12 cr.

- DEM551 - Principles of Disaster and Emergency Management Credits: 3
- DEM552 - Public Policy and Disaster Credits: 3
- DEM553 - Disaster and Society Credits: 3
- DEM557 - Continuity of Operations in Public and Private Sectors Credits: 3

Graduation Requirements
Park University confers the Master of Music, Master of Public Administration, and Master of Science degrees at selected locations when a candidate has satisfied the following conditions:

**Management Information Systems**

The Management Information Systems concentration offers a unique combination of business intelligence and industry standards through practical project-oriented instruction. The rationale is to produce quality graduates with in-depth knowledge and hands-on understanding of the essentials of managing today’s information technology systems. Students study the foundations of business so they can apply management information system technology to create efficient, effective business enterprises capable of competing in a global setting.

In addition, students are exposed to the concepts and applications of data analytics, security and privacy of big data, and project management as they pertain to system architecture and a firm’s ability to answer complicated business questions.

**Core Requirement 12 cr.**

**Master of Science, Information Systems and Business Analytics, M.S.**

**Vision Statement**

Park University's Master of Science in Information Systems and Business Analytics will be the premier provider of graduate education in information systems and analytics.

**Mission Statement**

Park University's Master of Science in Information Systems and Business Analytics provides students with the technical, managerial, and strategic acumen necessary to leverage information technology and data to maintain a competitive advantage and improve operational outcomes.

**Program Learning Outcomes**
The graduates will be able to:

- Develop and maintain the information systems necessary to support the functional, operational, and strategic needs of domestic and multinational organizations.
- Determine the most efficient and effective methods of leading and managing the resources to support a firm's information systems and technology.
- Evaluate technology alternatives to resolve complex problems in an information systems context while taking into consideration internal and external constraints and the ethical implications.
- Formulate a plan to effectively collaborate and communicate with key stakeholders (business, HIMS, and IT professionals) in order to achieve corporate or functional level goals and objectives.
- Establish an organization-wide information security risk management program designed to isolate significant internal and external threats while concurrently designing and implementing contingency, business continuity, and disaster recovery plans.
- Evaluate the usefulness of information technology to achieve a competitive advantage, efficient operations, and effective decision-making.
- Analyze large datasets for the purpose of uncovering hidden patterns, predicting future trajectories, and then using the resultant information to aid organizations in making well-informed operating, marketing, financing, and strategic decisions.

**Admission Requirements**

See Admissions Policies and Procedures for further details. The Master of Science in Information Systems and Business Analytics will require applicants to meet the same admissions requirements as any other Park University graduate program in business.

- A baccalaureate degree from an acceptable accredited college or university in the U.S. or from an acceptable accredited foreign institution of higher learning.
- Minimum of a 2.75 cumulative grade point average on a 4.0 scale from all colleges and universities attended.
- Students with a cumulative grade point average below 2.75 may be considered for probationary admission. Submission of additional documentation may be required by the Program Director.

Admission to Park University’s Master of Science in Information Systems and Business Analytics program is open to graduates of all fields of undergraduate study.

**Sequential Degree**

This program is a participant of the Sequential Degree option.

**Format of Courses**

- Online: Students can meet all course requirements through an online format.
- Blended: All ground courses are offered using a blended delivery format. This means that each weekly class session includes a physical classroom as well as the
online component. In this format, students are expected to complete assigned readings, review supplemental materials, and complete certain assignments prior to each class session. During the class sessions, the instructors will facilitate in-class activities that promote collaborative learning and provide opportunities to apply learned concepts. Blended courses are offered in Kansas City, MO.

- The MS in ISBA courses are offered in the 8-week accelerated format.

**Required For: Master - 36 Hours, 3.0 GPA**

- CIS601 - Systems Analysis and Design **Credits:** 3
- CIS604 - Project Management for Information Technology **Credits:** 3
- CIS606 - Applied Data Mining and Analysis of Big Data **Credits:** 3
- CIS607 - Survey of Predictive Analytical Techniques **Credits:** 3
- CIS608 - Web and Marketing Analytics **Credits:** 3
- CIS609 - Data Visualization **Credits:** 3
- CIS610 - Capstone in Information Systems **Credits:** 3
- CIS621 - Data Analysis for Business Analytics **Credits:** 3
- CIS622 - Data Architecture for Business Analytics **Credits:** 3
- MBA576 - Operations Management **Credits:** 3
- MIS605 - Management Information Systems **Credits:** 3
- MIS614 - Data Analysis and Business Analytics **Credits:** 3

**Graduation Requirements**

Park University confers the Master of Music, Master of Public Administration, and Master of Science degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 36 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

**Master of Social Work, Advanced Standing, M.S.W.**

**Master of Social Work**

Park University’s Master of Social Work program is designed to prepare graduates with the knowledge, values and skills needed to deliver effective and efficient advanced social work practice with individuals, families, groups, organizations and communities. The advanced practice concentration is in Behavioral Health. Within this concentration, students are given the opportunity to expand their knowledge and skills in one of three areas of emphasis: gerontological social work, military social work or social work with children and families. The Master of Social Work (MSW) program at Park University earned full initial accreditation at the February, 2016 meetings of the Council on Social Work Education (CSWE) Commission on Accreditation (COA).
Mission

The mission of Park's Master of Social Work program is to prepare graduates for effective and efficient advanced social work practice in behavioral health. Guided by the purpose of the profession, the program promotes social and economic justice, equal access to community resources, equal opportunity and the attainment of individual and community well-being.

Vision

The Master of Social Work program will be committed to enhancing the physical, social, psychological and spiritual well-being of all people, particularly those who have experienced oppression, exclusion and discrimination, and who have experienced the impact of poverty upon their health, well-being and sense of fulfillment.

Purpose of the Program

Social workers are called upon to intervene and assist large numbers of people while federal and state allocations for social welfare and treatment are being cut or drastically reduced. Therefore, social workers must become ever-more effective and efficient in the development and delivery of interventions. Moreover, they must become even more focused on advocacy efforts designed to promote access to naturally occurring, sustainable resources. Social workers who possess the knowledge and skills to engage, assess, intervene and evaluate comprehensive, individualized interventions will be in demand.

Park University identifies three areas of emphasis in Behavioral Health social work practice. These areas were identified based on current and future projections relative to demand for behavioral health services and treatment:

- Military Social Work: The social/psychological impact of serving in the military on service members and their families is profound.
- Gerontological Social Work: The demographic data illustrates that the demand for effective social work practice with older persons will continue to grow.
- Social Work with Children and Families: There is a growing recognition of the need for effective and efficient behavioral health interventions with children and families.

In summary, the mission of Park’s Master of Social Work program reflects the values of the profession and of the University, and it is developed within the context of current and future demand for effective and efficient social work interventions in behavioral health.

Program Goals

- Establish collaborative partnerships with community agencies that provide students with opportunities to enhance their knowledge, values and skills in behavioral health social work practice, with emphasis on effective and efficient interventions in military social work, gerontological social work or social work with children and families.
- Educate students regarding the principles, philosophy and behavioral health advanced practice applications of the strengths perspective for social work.
practice to enhance individual and community well-being, social and economic justice, equity and equal opportunity for all people.

- Infuse and model the social work code of ethics and the six core values of the profession as guiding concepts in all aspects behavioral health interventions with individuals, families, groups, organizations and communities, with particular attention to factors that impact the well-being of service members/veterans, children and families, and older persons.
- Graduate advanced social work practitioners that are prepared to assume leadership roles in providing effective and efficient multilevel behavioral health interventions that reflect mastery of the competencies.

## Admission Requirements

### Regular Study (60 credit hours)

- An undergraduate degree from an acceptable accredited college or university.
- A minimum cumulative grade point average of at least 3.0 is preferred; or a GPA of at least 3.0 for the last 60 credit hours of the baccalaureate program. *Note: lower GPA's will be considered for probationary admission.*
- Three professional or academic references who can assess your potential for graduate study in social work.
- A copy of your resume.
- Submit three written narratives (see next page for more information).

### Advanced Standing Program (33 credit hours)

- A Bachelor of Social Work degree from a Council on Social Work Education accredited program.
- A minimum cumulative grade point average of at least 3.0 is preferred; or a GPA of at least 3.0 for the last 60 credit hours of the baccalaureate program. *Note lower GPA's will be considered for probationary admission.*
- Three professional or academic references who can assess your potential for graduate study in social work. One reference must be from your practicum instructor, field liaison or the director of field education.
- A copy of your resume.
- Submit three written narratives (see next page for more information).

For both above programs, once accepted, all Master of Social Work students will be required to submit to a background check. *Note: The GRE is not required.*

## Application Narratives

*Each applicant completes all three narratives, each two to three pages in length utilizing APA format.*

- Ethical Critique: Describe an ethical dilemma that you have encountered in your personal or professional life. Using appropriate confidentiality, define the parties involved, the ethical dilemma, the values that informed your decisions and how the dilemma was addressed and/or resolved. Discuss how the experience and outcome affected you, in particular any lessons you learned. *The National Association of Social Workers Code of Ethics may be found at: [www.socialworkers.org/pubs/code/](http://www.socialworkers.org/pubs/code/).*
- Personal Statement: What are the significant experiences that influenced your decision to enter social work? What are your short-term (3-5 years) and long-
term (10-plus years) goals, and how does a Master in Social Work degree prepare you to meet those goals? How will you meet the demands of graduate academic responsibilities (20-plus hours per week in class and task completion for coursework, and 15 to 24 practicum hours per week)? Do you anticipate any barriers to meet these expectations and how do you plan to address these barriers?

- Professional Statement: What is your concept of social work as a profession? Discuss a current societal concern, including contributing/causal factors, and why this concern warrants public attention and resources from the social work community. What intervention do you believe will successfully address this situation (direct practice, policy change, etc.)? What positive or negative results may occur following this intervention? Discuss your rationale and what role you might be involved in if such an intervention were to be employed.

Learning Outcomes Assessment / Program Assessment

The Master of Social Work program has established practice behaviors for both the foundation and advanced years of the program that measure student attainment of the 9 competencies established by the Council on Social Work Education. Each course delineates learning objectives which correspond with the foundation or advanced year practice behaviors and the CSWE competencies, respectively. The overall attainments of the practice behaviors and competencies are assessed through the following:

- Integrative Seminar Project — Students are expected to integrate all 10 competencies in the planning, development, implementation, evaluation and dissemination of the ISP. This project will relate directly to the chosen emphasis of working with either gerontological, military, or children and family service participants, and will be tied to their field practicum.
- Field Learning Education Plan — This is designed to be both an ongoing guide to the activities and tasks for the student in their practicum experience, as well as an overview of the competencies and the practice behaviors.
- Student Self-Assessment — Students are asked to complete the self-assessment near the end of the spring semester of the advanced year.

Requirements For: Master - 33 Hours, 3.0 GPA

Core Requirement 30 cr.

- SW600 - Bridging Practice, Theory, Policy and Research Credits: 3
- SW610 - Advanced Practice I Credits: 3
- SW615 - Social Work in Behavioral Health Credits: 3
- SW630 - Program Evaluation and Grant Writing Credits: 3
- SW640 - Current Diagnostic Trends: Integrating the DSM-5 with the Strengths' Perspective Credits: 3
- SW650 - Advanced Field Education I Credits: 3
- SW660 - Advanced Practice II Credits: 3
- SW670 - Leadership, Supervision and Entrepreneurial Opportunities in Social Work Credits: 3
- SW680 - Advanced Field Education II Credits: 3
• SW690 - Integrative Seminar **Credits:** 3

**Electives 3 cr.**

Select one of the following:

• SW620 - Gerontological Social Work **Credits:** 3  
• SW621 - Military Social Work **Credits:** 3  
• SW622 - Social Work with Children and Families **Credits:** 3

**Graduation Requirements**

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

• Completion of a minimum of 33 semester hours.  
• Cumulative GPA of 3.0 for Park University courses.  
• Satisfaction of all requirements for a major as outlined in this catalog.  
• Completion of all earned credit with no more than 2 grades of C earned.  
• Submission of an Application for Graduation.

Electives 3 cr.
Select one of the following:

- SW620 - Gerontological Social Work Credits: 3
- SW621 - Military Social Work Credits: 3
- SW622 - Social Work with Children and Families Credits: 3

Graduation Requirements

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

EdS Degree

Educational Specialist, Education Administration, Ed.S.

The Educational Specialist in Educational Administration degree is designed to fulfill the state of Missouri's requirements for Superintendent (K-12) Initial Administrator certification in a 33-credit hour program or a Building-Level (K-12) Initial Administrator certification in a 33-credit hour program. There are two components: 1) Completion of the program of study earns the Educational Specialist in Educational Administration degree, and 2) Certification as a Superintendent (K-12) Initial Administrator certificate is earned by the passing of current DESE state assessments. or certification as a Building-Level (K-12) Initial Administrator certificate is earned by passing of current DESE state assessments. The program is offered in an 8-week format, classes meet totally online. Full-time enrollment is one course per 8-week term. The coursework for this 33-credit hour program is offered in an 8-week format totally online (with the exception of a 16-week field experience semester).

Admission Requirements

- A bachelor's degree from an accredited institution and a valid state teaching certificate (applicant must provide copy of certificate).
- Note: This must be completed before the completion of the first three credit hours.
- A Master degree in education from an accredited institution with a GPA of 3.0 for full admission or GPA of 2.75 for provisional admission.
- Current school employment either as a teacher or administrator is required.
- MSHP & FBI Criminal History Background Check
Requirements For: Educational Specialist - 33 Hours, 3.0 GPA

Core Requirements 18 CR.

- ED705 - Foundations & Organization of Educational Leadership Credits: 3
- ED706 - Administration of School Policy and Governance Credits: 3
- ED710 - School District Supervision of Instruction & Assessment Credits: 3
- ED711 - Administration of Curriculum Credits: 3

- ED720 - Educational Research & Evaluation Credits: 3
  or
- ED608 - Assessment Credits: 3 (Option for Building-Level Only)

- ED612 - School and Community Leadership Credits: 3 (Option for Building-Level Only)
  or
- ED740 - School & Community Relations Credits: 3

Building-Level Certification 15 CR.

- ED513 - Law for Educators Credits: 3
- ED522 - Legal Aspects of Special Education Credits: 3
- ED626 - K-12 School Administration Credits: 3
- ED634 - Directed Field Experience Credits: 3
- ED635 - School Organization and Management Credits: 3

District-Level Certification 15 CR.

- ED721 - School Finance Credits: 3
- ED730 - Advanced School Law Credits: 3
- ED731 - Human Resource Administration Credits: 3

Graduation Requirements

Park University confers the Master of Business Administration, Master of Social Work and Education Specialist degrees at selected locations when a candidate has satisfied the following conditions:

- Completion of a minimum of 33 semester hours.
- Cumulative GPA of 3.0 for Park University courses.
- Satisfaction of all requirements for a major as outlined in this catalog.
- Completion of all earned credit with no more than 2 grades of C earned.
- Submission of an Application for Graduation.

Graduate Certificate Programs
Business Analytics, Graduate Certificate

The graduate certificate in Business Analytics is housed in the Robert W. Plaster School of Business. The certificate is aimed to provide students with the skills and knowledge in Business Analytics, which will allow them bridging technologies and data-driven decision-making in Business and other relevant fields. The certificate will prepare students to understand how technology helps working with data; how to convert analytical questions into a set of actions, and how to use appropriate tools to perform them. Students will have the opportunity to practice working with big data, data mining, predictive models, data visualization, and/or conduct analysis of marketing or web data.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Core Requirement 6 cr.

- MIS605 - Management Information Systems Credits: 3
- MIS614 - Data Analysis and Business Analytics Credits: 3

Select two of the following: 6 CR.

- CIS606 - Applied Data Mining and Analysis of Big Data Credits: 3
- CIS607 - Survey of Predictive Analytical Techniques Credits: 3
- CIS608 - Web and Marketing Analytics Credits: 3
- CIS609 - Data Visualization Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Criminal Justice Administration, Graduate Certificate

The Graduate Certificate in Criminal Justice Administration is housed in the Hauptmann School of Public Affairs within the College of Management. This certificate is designed to provide for the exploration of the field of criminal justice from a comparative perspective. In so doing, this certificate will bring to light
similarities as well as differences in various criminal justice systems across jurisdictions around the nation and throughout the world. This exploration will be augmented by a consideration of key administrative aspects including financial management and the policy making process.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Students must complete each of the four courses, and the requirements specific to each, with a grade of "B" or better.

Core Requirement 12 cr.

- PA503 - Emerging Issues in Public Affairs Credits: 1 to 3
- PA513 - Policy Development, Evaluation and Impact for Organizations Credits: 3
- PA594 - Financial Management for Nonprofit/Community Organizations Credits: 3
- PA630 - Comparative Criminal Justice Systems Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Disaster and Emergency Management, Graduate Certificate

The Graduate Certificate in Disaster and Emergency Management complements the existing graduate programs offered by the University’s Hauptmann School of Public Affairs which is housed within the College of Management. The public’s continued concern for efficient governmental response to natural and man-made disasters, along with the recent significant investment in emergency management activities, requires knowledgeable public managers, including managers transitioning from other areas of expertise. The array of potential hazardous events that now confront public managers includes Homeland Security issues, failures of complex technology and a wide range of natural hazards. Students possessing a Graduate Certificate in Disaster and Emergency Management will be well-prepared to engage the public policy issues surrounding these community hazards.
Requirements For: Certificate - 12 Hours, 3.0 GPA

Core Requirement 12 cr.

- DEM551 - Principles of Disaster and Emergency Management Credits: 3
- DEM552 - Public Policy and Disaster Credits: 3
- DEM553 - Disaster and Society Credits: 3
- DEM557 - Continuity of Operations in Public and Private Sectors Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation
*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Finance, Graduate Certificate

The Graduate Certificate in Finance is housed in the School of Business within the College of Management. The certificate will assist students in achieving the chartered financial analyst certification and/or obtaining a greater flexibility in training for future careers in finance.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Core Requirement 12 cr.

- MBA615 - Managerial Finance Credits: 3
- FIN621 - Advanced Corporate Finance Credits: 3
- FIN625 - International Finance Credits: 3
- FIN640 - Investment Management Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:
• Completion of residency requirement, at least 75% of the coursework completed at Park
• Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
• Completion of coursework with no more than 2 grades of C earned at Park University
• Meet all requirements of the specific program as outlined in this catalog
• Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Health Services Management and Leadership, Graduate Certificate**

Up-to-date knowledge and skills in the administration and leadership of health care services are critical in today's constantly and rapidly changing environment. The Graduate Certificate in Health Services Management and Leadership, housed in the Robert W. Plaster School of Business within the College of Management, prepares students and practicing healthcare leaders to enhance their professional skills to meet new healthcare policy and practice challenges. The program focuses on critical thinking and problem solving in today's healthcare environment.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Foundation Courses 6 cr.**

• HA511 - Leadership and Management in Healthcare Systems Credits: 3
• HA518 - Organization of Healthcare Delivery Systems Credits: 3

**Theory Integration Courses 6 cr.**

Select two of the following:

• HA509 - Management of Health Information Systems Credits: 3
• HA515 - Marketing and Consumer Driven Healthcare Credits: 3
• HA516 - Healthcare Finance Credits: 3
• HA517 - Legal and Ethical Issues in Healthcare Administration Credits: 3
• HA521 - Special Topics in Healthcare Administration Credits: 1-3
• HA532 - Healthcare Services and Systems for Diverse Populations Credits: 3
• HA533 - Managerial Epidemiology Credits: 3
• HA537 - Health Policy and Politics Credits: 3
• HA557 - Nursing Dimensions of Healthcare Administration Credits: 3
• HA573 - Quality Improvement and Outcomes Assessment in Healthcare Settings Credits: 3
• HA603 - Healthcare Research Methods for Managerial Decision-Making Credits: 3
• HA604 - Healthcare Economics and Policy Credits: 3
• HA611 - Mediation, Negotiation and Conflict Management Credits: 3
• HA615 - Healthcare Strategic Management Credits: 3
Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Human Resource Management, Graduate Certificate

The Graduate Certificate in Human Resource Management is in the School of Business which is housed within the College of Management. The certificate is designed to expose students to the functional areas of a typical human resource department. In addition, the students gain a deeper appreciation of the consultative role that HR professionals play in supporting the organization’s management team, employees, and contractors. The competencies acquired in this curriculum will prepare students to more effectively manage personnel and leverage the support of their HR professionals as their career advances.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Core Requirement 12 cr.

- HRM634 - Planning and Staffing Credits: 3
- HRM635 - Training, Development, and Evaluation Credits: 3
- HRM636 - Change Management and Conflict Resolution Credits: 3
- HRM637 - Compensation Management Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation
*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Local Economic Development, Graduate Certificate**

The Graduate Certificate in Local Economic Development is designed to provide a comprehensive overview of the field that will help enrich and guide local practitioners and leaders in their efforts to promote the well-being of their communities. Topics include the history of urban development in the United States, comparisons between types of economic development approaches, public-private partnerships and intergovernmental relations, citizen involvement in economic development policy, quality of life considerations, local land use and planning.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

- PA550 - Local Economic Development in Theory and Practice **Credits:** 3
- PA560 - Approaches to Local Economic Development **Credits:** 3
- PA580 - Sustainability, Smart Growth and Community Development **Credits:** 3
- PA590 - Population, Land Use and Municipal Finance **Credits:** 3

**Graduation Requirements**

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Management Accounting, Graduate Certificate**

The Graduate Certificate in Management Accounting is in the School of Business which is housed within the College of Management. The certificate is designed to prepare the students with the competencies necessary to excel in professional positions that require a high level of comfort with accounting and finance, such as chief financial officers, controllers, financial analysts, or budget analysts or directors. More specifically, this curriculum will provide the students with an extensive understanding of management accounting concepts, cost accounting,
accounting research practices, activity-based costing as an aid to making decisions, profit planning, budget forecasting and preparation, and broaden their leadership skills. The skills acquired in the management accounting curriculum will develop student knowledge of financial planning, financial analysis, control mechanisms, decision-making, and professional ethics. The Management Accounting certificate is unique in that it is designed to prepare students without an undergraduate degree in accounting, or from different graduate disciplines, with the competencies necessary to assume leadership roles within the financial service units as opposed to working as a staff or public accountant.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Core Requirement 12 cr.

- ACC510 - Accounting Research and Analysis Credits: 3
- ACC613 - Internal Auditing and Control Mechanisms Credits: 3
- ACC617 - Advanced Managerial Accounting Issues Credits: 3
- ACC626 - Management Accounting Leadership-Role of the Chief Financial Officer Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Management Information Systems, Graduate Certificate

The Graduate Certificate in Management Information Systems is in the Robert W. Plaster School of Business which is housed within the College of Management. This certificate is designed to give students an in-depth exposure to varying information systems and how these technologies are leveraged to alter organizational structures, improve workflow, and influence a firm’s culture. In addition, the curriculum will allow students to analyze potential security and privacy risks associated with corporate information and how best to mitigate these concerns through administrative, technical, and physical safeguards. The students will be exposed to concepts and applications of data analytics, the big data life cycle, and those processes associated with project management as they
pertain to system architecture and a firm's ability to answer complicated business questions.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Core Requirement 12 cr.

- MIS603 - Information Security and Risk Management Credits: 3
- MIS605 - Management Information Systems Credits: 3
- MIS609 - Database Management Systems Credits: 3
- MIS614 - Data Analysis and Business Analytics Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Marketing, Graduate Certificate

The Graduate Certificate in Marketing is in the School of Business which is housed within the College of Management. The certificate is designed to prepare students with the competencies necessary to excel in professional positions as marketing managers. This curriculum will provide the students with an extensive understanding of marketing concepts including consumer behavior, brand management, and digital communication.

Requirements For: Certificate - 12 Hours, 3.0 GPA

Core Requirement 9 cr.

- MKT631 - Consumer Behavior Credits: 3
- MKT632 - Strategic Brand Management Credits: 3
- MKT634 - Strategic Marketing Simulation Credits: 3

Electives 3 cr.
• CIS608 - Web and Marketing Analytics Credits: 3
• MKT633 - Digital and Social Media Marketing Credits: 3

Graduation Requirements

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

• Completion of residency requirement, at least 75% of the coursework completed at Park
• Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
• Completion of coursework with no more than 2 grades of C earned at Park University
• Meet all requirements of the specific program as outlined in this catalog
• Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

Music Performance, Graduate Certificate

The Graduate Certificate in Music Performance program is offered through Park University’s International Center for Music. This two-year certificate program — with applied emphasis in piano, violin, viola or cello — is designed for students who want to pursue a non-degree course of study concentrating almost exclusively on performance. Minimum graduate credit hours required for the certificate are 24. Additional admission requirements in addition to the general rules that are applicable for admission to Graduate Studies at Park University, specific admission requirements are:

• Bachelor of Music or related undergraduate degree from a U. S. institution, an equivalent bachelor’s degree from an accredited foreign institution of higher education, or equivalent professional experience as determined by the faculty of the International Center for Music.
• An audition before the music faculty. In approved situations, a recording may be submitted in lieu of a live audition.

Each applicant must furnish a complete list of repertoire and recital history, at the time of application. This is an advanced program of study at the graduate level, supervised and approved by the graduate faculty of Park University.

Requirements For: Certificate - 24 Hours, 3.0 GPA

Core Requirement 24 cr.

• MU530* - Applied Music I Credits: 6
  The course is repeated for a total of 24 credit hours.

Graduation Requirements
Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

* Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Nonprofit Leadership, Graduate Certificate**

The Graduate Certificate in Nonprofit Leadership program, offered by the Hauptmann School of Public Affairs which is housed within the College of Management, prepares students for leadership positions in the nonprofit and philanthropic sectors. Graduates with this certificate command key skills and understanding found necessary to equip them for challenging work in these sectors. Graduates of this certificate program will be able to:

- Exhibit key skills needed to lead and manage nonprofit organizations.
- Develop cross-sector understanding and skills to help network nonprofit organizations and attract resources.
- Assess ethical dimensions of decisions of nonprofit leaders.
- Create strategies to help nonprofits fulfill their unique missions.
- Identify and attract possible funding sources for nonprofits.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 12 cr.**

- PA542 - Social Policy **Credits:** 3
- PA545 - Management of Nonprofit and Nongovernmental Organizations **Credits:** 3
- PA593 - Financing Nonprofit/Community Services **Credits:** 3
- PA594 - Financial Management for Nonprofit/Community Organizations **Credits:** 3

**Graduation Requirements**

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
• Completion of coursework with no more than 2 grades of C earned at Park University
• Meet all requirements of the specific program as outlined in this catalog
• Submission of an Application for Graduation
*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Project Management, Graduate Certificate**

The Graduate Certificate in Project Management (PM) is in the School of Business which is housed within the College of Management. The certificate is designed to prepare students with the knowledge, skills, and abilities (KSAs) to competently plan, organize, staff, and guide processes for creating a solution or system. The PM certificate intends to adequately prepare the students to take the Project Management Professional (PMP)® credentialing exam. More specifically, the content is aligned with the Project Management Body of Knowledge (PMBOK, 5th edition) and introduces students to the five (5) process groups, 10 knowledge areas, and 47 processes.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 12 cr.**

- PM690 - Integration, Scope, and Quality Management **Credits:** 3
- PM691 - Time and Cost Management **Credits:** 3
- PM692 - Communications, Risk, and Stakeholder Management **Credits:** 3
- PM693 - Human Resource and Procurement Management **Credits:** 3

**Graduation Requirements**

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

• Completion of residency requirement, at least 75% of the coursework completed at Park
• Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
• Completion of coursework with no more than 2 grades of C earned at Park University
• Meet all requirements of the specific program as outlined in this catalog
• Submission of an Application for Graduation
*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Public Policy, Graduate Certificate**

The Graduate Certificate in Public Policy, offered by the Hauptmann School of Public Affairs which is housed within the College of Management, prepares those working for public-sector and nonprofit agencies for the public policy role they
Graduates with this certificate will acquire an understanding of how public policy is developed, the significance of proper implementation and the importance of evaluating the success of policy outcomes. In so doing, graduates will be introduced to several policy areas including social policy, disaster and emergency management, and issues involved in local policy making.

**Requirements For: Certificate - 12 Hours, 3.0 GPA**

**Core Requirement 12 CR.**

- DEM552 - Public Policy and Disaster **Credits: 3**
- PA513 - Policy Development, Evaluation and Impact for Organizations **Credits: 3**
- PA542 - Social Policy **Credits: 3**
- PA599 - Virtual Local Government **Credits: 3**

**Graduation Requirements**

Park University confers Graduate Certificates at selected locations when a candidate has satisfied the following conditions:

- Completion of residency requirement, at least 75% of the coursework completed at Park
- Earn a minimum cumulative GPA of 3.0* (for courses in the certificate)
- Completion of coursework with no more than 2 grades of C earned at Park University
- Meet all requirements of the specific program as outlined in this catalog
- Submission of an Application for Graduation

*Individual departments may establish additional (or higher) requirements (refer to the program-specific requirements).

**Public Service Leadership, Graduate Certificate**

Leadership is a critical component of any public agency's ability to deliver services effectively, efficiently, and help respond and adapt to ever-changing societal challenges. Quality leadership includes the ability to set goals, foster communication, encourage collaboration and trust among numerous agency and interagency groups, and engage in ethical decision making. The Graduate Certificate in Public Service Leadership will focus on leadership theory and its application, ethical leadership and decision making, and the internal and external environments of public sector agencies.
Requirements For: Certificate - 12 Hours, 3.0 GPA

- PA503 - Emerging Issues in Public Affairs Credits: 1 to 3
  * 3 credits required
- PA509 - Leadership Development and Organizations Credits: 3
- PA512 - The Environment of Public Organizations Credits: 3
- PA600 - Ethical Foundations of Authority and Responsibility Credits: 3

* 16-week session codes FA (Fall), SP (Spring), 2 week session code SMA (May semester). The Graduate programs uses FAP, SPP and U1P for their 16-week terms. Eight week terms are F1P, etc.

**Courses of Instruction**

1708
The lettered prefix before each course number represents an abbreviation of the course’s discipline. The first digit of the course number represents the level of the course. The following course numbering system is used:

- 100 – 199 Freshman
- 200 – 299 Sophomore
- 300 – 399 Junior
- 400 – 499 Senior
- 500 – 999 Graduate

Freshman and sophomore students should not enroll in courses more than one level above their academic classification without consulting their advisor (e.g., Freshmen may not enroll in 300 level courses without permission; sophomores may not enroll in 400 level courses without permission).

**Definition of Credit Hours**

All courses are valued in semester hours. Fifty minutes of classroom or direct faculty instruction and two hours out-of-class student work each week for 15 weeks, plus 50 minutes reserved for a final exam, for one semester hour of credit.

One hundred minutes per week of classroom or direct faculty instruction and 240 minutes outof-class student work each week for 8 weeks, for one hour of credit.

Courses scheduled for a different number of weeks and other academic activities such as laboratory work, internships, practica, and studio work, have an equivalent number of hours as reflected in the combination of direct faculty instruction and out of class student work for the same amount of credit as listed above.

For online and blended courses, active student engagement with other students, the instructor and/or online course content, combine to form the equivalent amount of time (100 minutes per week), while other out of class student work, which is designed to achieve course learning outcomes, makes up the approximately 240 minutes of such work for each one hour of credit.

**Courses**

Suggested prerequisites are recommended to enhance the probability of success in specific courses.

**Courses of Instruction**

The lettered prefix before each course number represents an abbreviation of the course’s discipline.

- The first digit of the course number represents the level of the course. The following course numbering system is used:
  - 100 – 199 Freshman
  - 200 – 299 Sophomore
  - 300 – 399 Junior
  - 400 – 499 Senior
  - 500 - 700 Graduate

Freshman and sophomore students should not enroll in courses more than one level above their academic classification without consulting their advisor (e.g., Freshmen may not enroll in 300 level courses without permission; sophomores may not enroll in 400 level courses without permission).
Each course description is followed by a 3-number sequence providing the following information: first digit, number of lecture hours per week; second digit, number of laboratory hours per week; third digit, number of credit hours granted for the course. For example, a class described as 3:1:4 would have three lecture hours, one lab hour, and four hours of total credit.

Course Search

Accounting

AC201 - Principles of Financial Accounting

Provides an introduction to the concepts and uses of financial accounting information in a business environment and its role in the economic decision-making process. Topics include the processing of accounting information, income measurement, accrual accounting, and accounting for assets, liabilities and equity in the corporate environment. In addition to the preparation of basic financial statements, students will apply analytical tools in making business decisions.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

AC202 - Principles of Managerial Accounting

An introduction to the economic and financial information provided to managers and other internal users for business decision making. Topics include cost behavior; cost-volume-profit analysis; decision making applying relevant information, and hybrid costing systems; and budgetary planning and control.

Prerequisite(s): AC201 or equivalent. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

AC230 - Computer-Based Accounting Systems

An introduction to integrated accounting systems with emphasis on hands-on applications based on simulated accounting practice.

Prerequisite(s): AC201 and IS141. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ACC230

AC309 - Individual Income Tax

A study of the U.S. income taxation system as it applies to individuals. The objective of the course is to develop a broad-based knowledge in the area. The course emphasizes the analysis of the individual income tax formula and the preparation of tax returns. Topics include gross income, exclusions, deductions, credits, sole proprietor business income and deductions, and property transactions.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ACC309, ACC310

AC312 - Business Income Tax

A study of the taxation of business entities. The course emphasizes the tax ramifications for business entities and their key stakeholders. Topics include an entity overview, corporate taxation and distributions, accounting for income taxes, partnership taxation, S corporation considerations, and state, local, and multinational considerations.

Prerequisite(s): AC201 and IS141. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ACC312

AC320 - Intermediate Accounting I

AC320 is a professional course requiring intensive study and analysis. Students who have
not completed AC201 - Principles of Financial Accounting within the past two years may have difficulty. The first in a three-course sequence of Intermediate Accounting. It offers an in-depth examination of generally accepted principles related to the preparation of external financial statements for a corporate entity. The conceptual framework is studied and applied throughout, as well as the application of present value techniques to accounting valuations. Specific topics include the accounting system, development and research of accounting standards, income statement, statement of retained earnings, comprehensive income, balance sheet, statement of cash flows, time value of money, cash, receivables, and inventory.

Prerequisite(s): AC201 and IS141 or equivalents and a course grade of C or higher

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ACC320

AC325 - Intermediate Accounting II

AC325 is a professional course requiring intensive study and analysis. Students who have not completed AC320 within the past two years may have difficulty. The second in a three-course sequence of Intermediate Accounting. Topical coverage includes long-term assets, current and long-term liabilities, stockholders' equity, and ratio/trend analysis. There is an experiential component focusing on financial statement analysis.

Prerequisite(s): AC320 and IS141 or equivalents. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ACC325

AC330 - Intermediate Accounting III

AC330 is a professional course requiring intensive study and analysis. The third in a three-course sequence of Intermediate Accounting. Topical coverage includes earnings per share, investments, revenue recognition, income taxes, pensions, leases, accounting changes, and statement of cash flows. There is an experiential component focusing on a comprehensive intermediate-level accounting case.

Prerequisite(s): AC325 and IS141 or equivalent. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ACC325

AC342, ACC420

AC350 - Accounting Information Systems

A study of internal controls within the accounting system. The course includes the completion of an accounting simulation using specialized journals as well as the development of efficient spreadsheets using higher-level Excel skills.

Prerequisite(s): AC320 and IS141. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

AC380 - Cost Accounting

An intermediate level course covering the managerial use of accounting data to assist managers in their decision making regarding resource allocation, organizational control and measurements. Emphasis is on accepted production cost methods for job order, process, and activity-based systems, budgetary planning and control, flexible budgeting, capital budgeting and inventory management.

Prerequisite(s): AC202 and either AC320 or FI360. All prerequisites must be passed with a C or better.

Fulfills: 4+1

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ACC315

AC425 - Advanced Accounting

A study of consolidated financial statements and governmental/nonprofit accounting.

Prerequisite(s): AC325 and IS141 or equivalents. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ACC425

AC430 - Auditing

A study of auditing theory and procedures, including the role of the external audits in financial markets, professional responsibilities of the auditor, risk assessment, and evaluation of evidence to support audit conclusions.

Prerequisite(s): AC325 and AC350. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: AC430
Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ACC430

AC435 - Ethics for Accountants

This course will serve as a guide to professional ethics in the accounting and business environments. This course covers fundamental ethical issues of business and society, roles and responsibilities of the accounting and auditing profession, ethical behavior by management, and legal and professional guidelines that address the ethical concerns of society. Emphasis is on the AICPA Code of Professional Conduct and the IMA’s Statement of Ethical Professional Practice.

Fulfills: LE Ethics
Lecture Hours: 3 Lab Hours: 0 Credits: 3

AC440 - Special Topics in Accounting

An in-depth examination of specific areas in the field of accounting. Topics include, but are not limited to: governmental accounting, current problems, theory of income determination, budgetary control, information systems, and independent research.

Lecture Hours: 0 Lab Hours: 0 Credits: 1-3

AC451 - Accounting Internship

The Internship must provide an applied/practical experience consistent with a career position filled by a college graduate. The Internship will be approved by the Department Chair and overseen by the Accounting Program Coordinator (PC) or a business faculty member approved by the Accounting PC. An experience paper is required. Three (3) credit hours will be earned by 120 hours of experience connected to the Internship learning outcomes.

Prerequisite(s): Open only to students who have earned at least 9 hours of their Accounting degree requirements and have a 3.0 GPA.

Repeatable for Credit This class can be repeated to earn a maximum of 6 hours of credit at the discretion of the Accounting PC.

Grade: Pass/Fail
Lecture Hours: 0 Lab Hours: 0 Credits: 1-6

ACC510 - Accounting Research and Analysis

This course will apply accounting research tools and current accounting issues in multiple organizations ranging from "for-profit" and "not-for-profit" enterprises to "international" conglomerates. A base comparison of Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Strategies (IFRS) will also be included in this course. Other topics will include research of accounting questions related to assets, leases, derivative instruments, debt, contingencies, segment reporting, pensions, business combinations, consolidations, stockholder’s equity, fund balance, and tax-related research. The impact of change from GAAP to IFRS as related to important accounting issues will also be covered. Research will be customized to various sizes and types of organizations ranging from the LLC level to applicable issues for complex international conglomerates. The course will include financial analysis in organizations and computation and analysis of metrics denoting liquidity levels, debt-paying abilities, and profitability analysis from the prospective of GAAP as well as IFRS.

Prerequisite(s): MBA515 or HA514
Credits: 3

ACC613 - Internal Auditing and Control Mechanisms

It is important that leadership teams have a practical understanding of internal and external auditing process, so that they may render necessary support before, during, and following the audit, and more effectively leverage the findings to improve the firm’s operational and financial performance. To this end, this course will approach audits from the perspective of an executive team member. Students will focus on high level oversight of the auditing practices performed by public accountants, internal auditors, or internal investigators. Topics that will be covered include management’s role in the public accounting audits, preparing for audits, ensuring the timely and accurate resolution of findings, communicating with audit committees and client organizations. In addition, students will focus on the role of internal auditing and computer-assisted audit techniques in organizations; concepts such as governance, risk assessment, and the internal control framework developed by the Committee of Sponsoring Organizations (COSO). Students will experience practical team approaches to internal audits in
organizations seeing positive benefits of audits and evaluative techniques to bring about more effective operations.

**Prerequisite(s):** MBA515

**Credits:** 3

**History:** MBA613

### ACC617 - Advanced Managerial Accounting Issues

This course places emphasis on high-level strategic decision making for planning and control in organizations. The course focuses on data analytics and performance metrics in decision-making. Managerial tools and concepts such as target setting, activity-based costing, strategic alignment with management objectives, measurement and control of quality costs and capacity, operational constraints, and emerging managerial accounting issues will be explored. In addition, this course will examine the computation and analysis of metrics from the perspective of GAAP and IFRS. Special emphasis will be placed on trends in management accounting/corporate environments through case studies that effect desired change in organizations.

**Prerequisite(s):** MBA515

**Credits:** 3

### ACC621 - Advanced Auditing

An intensive study to prepare for the Auditing (AUD) section of the CPA exam. The AUD section tests knowledge and skills related to external auditing including audit reports and procedures, generally accepted auditing standards, attestation and other engagements, and government auditing.

**Prerequisite(s):** Undergraduate degree in accounting. This course should be taken during the last twelve credit hours of the program.

**Credits:** 3

### ACC622 - Advanced Business Environment and Concepts

An intensive study to prepare for the Business Environment and Concepts (BEC) section of the CPA exam. The BEC tests knowledge and skills covering general business topics, such as corporate governance, information technology, financial management, economics, and operations management, including managerial accounting.

**Prerequisite(s):** Undergraduate degree in accounting. This course should be taken during the last twelve credit hours of the program.

**Credits:** 3

### ACC623 - Advanced Financial Accounting and Reporting

An intensive study to prepare for the Financial Accounting and Reporting (FAR) section of the CPA exam. The FAR tests knowledge and skills covering financial accounting and reporting used by business enterprises under U.S. Generally Accepted Accounting Principles (GAAP), not-for-profit accounting, governmental accounting, and the differences between International Financial Reporting Standards (IFRS) and U.S. GAAP.

**Prerequisite(s):** Undergraduate degree in accounting. This course should be taken during the last twelve credit hours of the program.

**Credits:** 3

### ACC624 - Advanced Regulation

An intensive study to prepare for the Regulation (REG) section of the CPA exam. The REG tests knowledge and skills covering topics from both business law and taxation, including the taxation of property transactions, individuals, and other entities.

**Prerequisite(s):** Undergraduate degree in accounting. This course should be taken during the last twelve credit hours of the program.

**Credits:** 3

### ACC626 - Management Accounting Leadership-Role of the Chief Financial Officer

This course prepares students to professionally interact with CEOs as a CFO in organizations and is the capstone course for the Management Accounting concentration. This course prepares students as they develop leadership strategies for corporate financial management and accounting operation. The course explores CFOs as strategists, leaders, and advisors and develops skills in the various roles. Students will conduct research and develop their personal career path for success. Communication skills will be polished to prepare students for leadership in
AN100 - General Anthropology

This course is an introduction to the principles and processes of physical and cultural anthropology. Course topics include areas of human evolution, prehistoric archaeology, population genetics, development of cultural and social systems, ethnology and linguistics. Concepts examined include research and ideas from the various schools of anthropological thought.

Fulfills: LE Social Science

Lecture Hours: 3 Lab Hours: 0 Credits: 3

AN207 - Field Study in Archaeology

Combines theoretical studies in archaeology with extensive fieldwork. Lectures delivered on site provide a conceptual framework, which makes meaningful the actual dig experience. Course requirements include a minimum of thirty-two hours excavation, identification, and classification of material; ten hours lecture; and extensive reading from a variety of sources.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

AN221 - Urban Anthropology

The anthropology of urban centers focuses on the study of human beings and their cultural institutions in cities. The course focuses on strategies of people and how they cope with demands imposed by urban environments. The ethnographic study of cities explore questions related to the nature of urban experiences, the differences and similarities between different settings and the vexing question of "what is a city?" The course will require supplemented field trips to Kansas City.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

AN301 - Cultural Anthropology

Cultural anthropology, or ethnography, is a study of humans as social beings, an analysis of society in a cross-cultural and global perspective, and the study of issues of cultural transformation and processes of globalization. The course will study the interrelated aspects of culture and world regions, including language, human cultural diversity, cultural pluralism, the existence and perpetuation of inequality in human society, human interaction with the environment, race, ethnicity nationalism, world-views, social organization, and the arts.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

Art

AR115 - Introduction to the Visual Arts

A basic art appreciation course, which introduces the formal language of painting, sculpture, and architecture, relating them to the philosophical premises and historical events that they reflect. This course provides a frame of reference for appreciation of art as well as a basis for further study. While slide lecture is the usual format, demonstrations, fieldtrips and gallery tours augment classroom instruction.

Fulfills: LE Humanities, GEM

Lecture Hours: 3 Lab Hours: 0 Credits: 3

AR140 - Drawing I

An introduction to develop a foundation of understanding of drawing concepts and approaches including shape and form, measure and proportion and form defined by light. Students learn by gaining experience with the physical act of drawing in an attempt to resolve problems of representation and description in fundamental ways. This is a course available to anyone wanting to learn the fundamentals of drawing but also as a foundation for more advanced studio work in Art and Design.

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR142 - Two-Dimensional Design
A foundation studio course focused on the basic language of art and design on a flat plane, in black and white as well as color. Problems/projects are organizational, conceptual, and thought provoking to challenge and introduce the basic elements and principles of art and design. Visual and aesthetic awareness is developed through the creative problem-solving process.

**Lecture Hours:** 1  
**Lab Hours:** 5  
**Credits:** 3  
**History:** AR204, AR202, AR101

**AR143 - Three-Dimensional Design**

An introduction to basic design techniques, methods, and concepts of sculptural work. In this course students will explore formal, functional and conceptual issues that govern three-dimensional work by creating a variety of artworks as assigned. It is the intent of this studio experience to establish a disciplines, efficient, practical and safe use of art tools and materials. This is a course available to anyone wanting to learn the fundamentals of 3-D Design, but also as a foundation for more advanced studio work in Art and Design.

**Lecture Hours:** 1  
**Lab Hours:** 5  
**Credits:** 3  
**History:** AR203, AR102

**AR144 - Color Theory**

A foundation studio course emphasizing the interaction of color and the application of that knowledge to the visual arts and design. Visual and aesthetic awareness is developed through the creative problem solving process. This course emphasizes a deliberate and clear presentation for maximum effect and is a foundation for more advanced studio work in Art and Design.

**Lecture Hours:** 1  
**Lab Hours:** 5  
**Credits:** 3  
**History:** AR208

**AR215 - Art History I**

A chronological survey of the history of art from the prehistoric and ancient eras through the medieval. Instruction is not limited to the western tradition but includes sections on Asia, India, Africa and the Americas. Art is studied within historical and cultural contexts. Gallery tours augment slide-lecture instruction.

**Fulfills:** LE Humanities, GEM  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**Prerequisite(s) or Corequisite(s):** AR140,
AR143, AR142, and AR218

Note: This course is designed to be taken the same semester as AR300

Lecture Hours: 1
Lab Hours: 5 Credits: 3
History: AR318, AR312

AR240 - Drawing II

An introduction to drawing from the human figure to engage issues of form, structure, volume, movement, composition and the expressive possibilities of the human form. This class is an essential next step for those planning to study fine art, illustration and costume design or for those who want to participate in a studio tradition of figure drawing.

Prerequisite(s): AR140

Note: This course is designed to be taken the same semester as AR300

Lecture Hours: 1
Lab Hours: 5 Credits: 3
History: AR251

AR241 - Photography I

Crosslisted: CA241

An introduction to the basic techniques of black and white photography. Cameras, lenses, films, lighting, composition are discussed. Students must provide an acceptable camera and expendable supplies. Darkroom work is required.

Prerequisite(s): CA224 or AR218

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR270 - Fiber I

An introduction to fiber media and techniques. Students explore handmade papermaking, weaving, fabric dyeing, basketry techniques, silk-screening, batik and other fiber processes in both two-dimensional surface and three-dimensional form.

Lecture Hours: 1 Lab Hours: 5 Credits: 3
History: AR370

AR280 - Painting I

An introduction to the basic techniques and principles of painting in a studio course. The course is designed to develop skills in painting emphasizing direct observation. This class is an essential next step for those planning to study fine art or illustration or for those who want to participate in a studio tradition of direct painting.

Prerequisite(s): AR140

Lecture Hours: 1 Lab Hours: 5 Credits: 3
History: AR260

AR282 - Visual Communications I

An introduction to basic drafting techniques, terminology, and symbols used in architectural drawings, using drafting equipment, lettering, plan and elevation construction with emphasis on proper line weight, quality, and scale; additionally study materials and fabrication techniques involved in the design and construction of interior details.

Lecture Hours: 1 Lab Hours: 5 Credits: 3
History: DR101, AR291, AR292A

AR283 - Introduction to Interior Design

This course is an introduction of the interior design profession, exploring the principles and elements of design, theories, and systems, design process programming, schematics, design development, and space planning techniques; as well as, elementary sketching and ideation, and basic industry specific regulations.

Lecture Hours: 1 Lab Hours: 5 Credits: 3
History: AR292B, AR294, ID106, INT206

AR288 - Visual Communications II

With an emphasis on three dimensional communication methods, including paraline drawings, models, and both hand drawn and computer generated perspectives. Students will apply black and white, as well as color rendering techniques, to three dimensional drawings utilizing both manual and digital techniques.

Prerequisite(s): AR282

Lecture Hours: 1 Lab Hours: 5 Credits: 3
History: AR397A, AR293

AR289 - Fundamentals of Interior Design

An exploration of residential space planning problems applying the design process and space planning techniques to projects that emphasizes research and application of global design and the study of different cultures. Includes an intermediate review of life safety codes and accessibility guidelines.
**AR290 - Interior Design Materials and Resources**

A survey of the materials and finishes utilized in interior applications through lecture, demonstrations, and/or field trips. Various methods of specification and estimation are reviewed, with students researching and assessing performance criteria including environmental ethics and social responsibility.

**Prerequisite(s):** AR296

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** DS104

**AR296 - Textiles for Interior Design**

This course explores the nature of man-made and natural materials used to produce textiles for use within the interior design industry. Content includes discussion of fibers, yarns, fabrics, finishes, design methods, construction, and proper application of these materials from technical, environmental and aesthetic approaches.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** DS104

**AR298 - History of the Designed Environment: Antiquity to Mid-Nineteenth Century**

A study of interiors, furniture, material culture, art and architecture within a historical context. Students analyze the social, political and physical influences affecting historical changes in the built environment, as well as the impact of the built environments of the past on current design practices. The course includes a survey of significant movements, traditions and theories in the built environment from antiquity through the mid-1800s.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** ID201, INT201

**AR300 - Graphic Design Principles II: Typography & Design**

An introduction to typography as a formal, functional and expressive medium of communication. Building from the study of individual letterforms through words and paragraphs, skills are gained in spatial organization, information architecture, hierarchy, legibility, readability and expression. Critical thinking and craftsmanship are emphasized.

**Prerequisite(s):** AR283

**Lecture Hours:** 1 **Lab Hours:** 5 **Credits:** 3

**History:** AR299B, AR295, ID225

**AR310 - Illustration**

This course is designed to teach students about illustration media, techniques and practices. Students will acquire skills in traditional and digital illustration media through hands-on projects and studio assignments. Projects are structured to provide students with opportunities to develop and strengthen illustration and design skills in ink, paint, graphite and other materials. Students will learn other aspects of illustration such as image design, composition, color usage, layout, concepts and principles of illustration, and professional practices of illustrators.

**Prerequisite(s):** AR140

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**AR313 - Independent Study in Art or Design**

Designed for students who have taken all courses in a particular area but wish to continue in it, or who wish to explore in an area for which there is no appropriate course offered. Admission to independent study is by permission of the Chair of the Department with evidence of the student's ability to work independently at an appropriate level. Students seeking admission to Independent Study must submit an approved proposal. The student and teacher write a contract stating goals, amount of work and critique times, etc.

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 1-6

**AR315 - Special Topics in Art or Design**

A specialized workshop or seminar focused on a particular subject, issue or medium.

**Repeatable for Credit** May be repeated for
AR316 - Modern Art

Modern Art is a study of painting, sculpture, architecture and other visual arts from the late nineteenth century to the present. Major art movements such as Impressionism, Post-Impressionism, Expressionism, Cubism, Pop Art, Conceptual Art, Activist Art and other movements will be discussed. Gallery, museum or virtual tours will augment in-class instruction. This is a writing intensive course where students should expect a significant amount of writing related to visual art in the modern era.
Fulfills: Writing Intensive,
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: ART316

AR317 - World Art

An introduction to the art of a selected number of cultures from Africa, Oceania and the Americas which will be studied within their historical and cultural contexts, and which will include examples of contemporary art. Gallery tours, studio exercises, and guest lectures will augment slide-lecture instruction.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

AR319 - History of Graphic Design

A survey of the genesis and development of Graphic Design from its beginnings in the Industrial Revolution through the challenges of the digital transition and beyond. The relationships and impact of major graphic style periods are discussed in social context and defining visual characteristics are examined by studying examples.
Prerequisite(s): AR115, AR218 and AR231
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: AR314

AR321 - Ceramics II

A continuation of AR221 that includes wheel throwing and other more advanced building techniques. Basic glaze calculation and explanations for firing techniques are covered.
Prerequisite(s): AR221
Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR323 - Renaissance and Baroque Art

An overview of European art including painting, sculpture, and architecture created during the fourteenth and sixteenth centuries. Discussion will include the social, religious and political contexts as well as the changing roles of artists and patrons during this time. Major Renaissance Breughel family will be discussed; from the Baroque perspective, figures such as Bernini, Caravaggio, Rubens, and Rembrandt will play prominent roles in course discussion.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

AR325 - Sculpture II

Investigation of traditional and contemporary sculptural media and processes with an emphasis on individual projects. Exploration of conceptual meaning in materials, form, and use of space in finished work.
Prerequisite(s): AR225
Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR328 - Graphic Design Principles: Identity

This intermediate Graphic Design course explores the use of logos, identity, branding, packaging, campaigns and business practices. The process of developing design discipline is emphasized while producing portfolio quality projects that reflect a growing understanding of industry standards and practice.
Prerequisite(s): AR231 and AR300
Lecture Hours: 1 Lab Hours: 5 Credits: 3
History: AR412

AR331 - Graphic Design Studio II: Computer Imaging

This course emphasizes effective advertising campaign. The student experiences the network of ideas and research necessary to reach a public targeted by the manufacturer or service. It also explores the history and methods of publication design and examines the processes involved in coordinating art and typography with verbal and visual content; exploration of computer imaging through the use of image processing, page layout, and design concept.
Prerequisite(s) or Corequisite(s): AR231, AR328 and AR300
AR335 - 3D Animation for Design

This course is designed as an introduction to the principles of 3D-computer animation including modeling, texture mapping, lighting, and motion, character development, storyboarding and visual storytelling. While learning the technical aspects of using animation software will be an integral part of this course, the student's independent artistic vision is still a very important component.

Prerequisite(s): AR331 and permission of the department.

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR340 - Drawing III

A course emphasizing more advanced drawing allowing students the opportunity to study and expand their personal interpretations and approaches to drawing concepts and techniques. Emphasis is placed upon individual interpretation of class assignments.

Prerequisite(s): AR240

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR341 - Photography II

Crosslisted: CA341 This course explores the language of photography with particular attention to the photographic essay and the photographic illustration. Both black and white and color photography are included. A variety of techniques in photographic printmaking are explored with an emphasis on self-expression and craft.

Prerequisite(s): CA241 or AR241

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR371 - Fiber II

An advanced fiber workshop in which the student chooses the media, technique and number of projects in consultation with the instructor. Taught concurrently with Fiber I.

Prerequisite(s): AR270

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR380 - Painting II

This course expands upon motif encouraging students to develop their conceptual foundation of content and meaning in their art while being challenged to develop their aesthetic and technical skills. Emphasis is placed upon individual interpretation of class painting assignments as the intermediate level.

Prerequisite(s): AR280

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR382 - Drawing Systems I

An introduction to the principles and operations of computer generated drawing with an emphasis on producing both 2D (floor plans, elevations, etc.) and 3D (orthographic) drawings using AutoCAD.

Prerequisite(s): AR282

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR383 - Furniture Design

Study of furniture through the evaluation of historic and contemporary furnishings. Issues include applying the design process to the construction, ergonomics, anthropometrics, quality of materials and methods.

Prerequisite(s): AR283 and AR289

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR388 - Drawing Systems II

Students expand their computer drawing skills, using the Building Information Modeling program Revit to produce construction documents and three-dimensional drawings and renderings.

Prerequisite(s): AR382

Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR389 - Commercial Interiors

In this studio course students apply the design process and space planning techniques to different types of commercial spaces with emphasis on sustainability, universal and barrier free design.

Prerequisite(s): AR218, AR283 and AR289
AR390 - History of the Designed Environment: Mid-Nineteenth Century to the Present

A continuation of the study of interiors, furniture, material culture, art and architecture within a historical context. Students analyze the social, political and physical influences affecting historical changes in the built environment, as well as the impact of the built environments of the past on current design practices. The course includes a survey of significant movements, traditions and theories in the built environment from the mid-19th Century to the present.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: ID202, INT202

AR392 - Human Factors in Interior Design

A study of the principles and considerations related to human factors, universal design, anthropometrics, ergonomics and the psychological response of users to interior environments.

Prerequisite(s): AR288
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: ID420

AR393 - Lighting Fundamentals for Interior Design

A study of the technical, aesthetic, and psychological aspects of natural and artificial lighting in regards to their application within interior environments.

Prerequisite(s): AR289
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: ID321, INT321

AR415 - Internship in Art or Design

Off-campus placement in a professional environment such as a graphic design studio, art gallery, or art organization, to gain insight into a particular art or design career and work experience in the field. Many different internships are possible. Variable credit from 3 to 6 hours (i.e., a minimum of 6 to 12 hours per week). Departmental approval required. Intended for seniors.

Lecture Hours: 0 Lab Hours: 0 Credits: 3-6
History: ID451

AR418 - Graphic Design Studio III: Advanced Typography

This course offers more complex typographic problems, page layout and solution strategies. Areas covered include the expression of abstract concepts, information architecture, type and image, visual metaphor and sequential development, typographic theory and use exploring formal and informal structures with an analysis of historic styles. Multipage layout in the printed and digital realm emphasized.

Prerequisite(s): AR300, AR328 and AR331
Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR420 - Ceramics III

A continuation of AR321 in which students work to develop their own techniques and with an emphasis on glaze formulation to enhance the work.

Prerequisite(s): AR321
Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR425 - Sculpture III

Advanced exploration of traditional and contemporary sculptural media and processes with an emphasis on individual projects. Finished projects will incorporate conceptual understanding of site-specific or environmental aspects of sculpture.

Prerequisite(s): AR325
Lecture Hours: 1 Lab Hours: 5 Credits: 3

AR427 - Web Page Design: Digital Environment

This course concentrates on training the graphic designer to develop effective design interfaces for web page design. Students combine text, images, sound and interactivity to Web presentations. Students explore new software (for example FLASH MX) and technical information for Web page development and Web servers. Current and future directions of the information superhighway, online services, search engines and World Wide Web development are
investigated.

**Prerequisite(s):** AR328  
**Lecture Hours:** 1  
**Lab Hours:** 5  
**Credits:** 3

**AR440 - Drawing IV**

An advanced studio engagement in drawing allowing students the opportunity to study and expand their interpretations and approaches to drawing concepts and personal expression. Emphasis is placed upon individual interpretation of class assignments at the advanced level.

**Prerequisite(s):** AR340  
**Lecture Hours:** 1  
**Lab Hours:** 5  
**Credits:** 3  

**History:** AR340, AR350

**AR470 - Fiber III**

Continuation of AR371. An advanced level fiber course stressing increasing mastery of media, technique and personal expression. Although projects are developed in consultation with the instructor, the student will demonstrate growing artistic autonomy. (All levels of Fiber are taught concurrently.)

**Prerequisite(s):** AR371  
**Lecture Hours:** 1  
**Lab Hours:** 5  
**Credits:** 3

**AR480 - Painting III**

A course building advanced painting experience allowing students the opportunity to study and expand their personal interpretations and approaches in consultation with the instructor. Greater expectations and self-discipline are requirements with increased autonomy in each student's choice of subject matter with an emphasis on personal visual expression.

**Prerequisite(s):** AR380  
**Lecture Hours:** 1  
**Lab Hours:** 5  
**Credits:** 3  

**History:** AR360

**AR481 - Painting IV**

The goal of the course is to challenge students to develop their paintings at an advanced level. Greater expectations and self-discipline are requirements as students develop their aesthetic, technical and conceptual ability. Emphasis is placed upon individual interpretations of painting concepts at the advanced level.

**Prerequisite(s):** AR480  
**Lecture Hours:** 1  
**Lab Hours:** 5  
**Credits:** 3

**AR490 - Senior Studio in Fine Art**

This is the first half of the senior capstone course for the B.F.A. degree in Fine Art. Students select a topic for research which leads to a concept for a senior project and exhibition to be completed in AR497. Students will also prepare for professional practice and explore career goals. Topics covered include art research, writing a resume, portfolio preparation, exhibition and art resources, marketing and business plans for artists, and research about art websites.

**Prerequisite(s):** Permission of the department.  
**Lecture Hours:** 1  
**Lab Hours:** 5  
**Credits:** 3

**AR491 - Interior Design Professional Practice**

A review of the principles governing the practice, business, legal, and contractual aspects of the interior design profession. Students begin to assemble a professionally reflective portfolio of student work.

**Prerequisite(s):** AR218 and AR389  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  

**History:** ID475

**AR495 - Building Construction Systems**

This course is a study of the components that make up the major building systems: Structural, Mechanical, Electrical and Plumbing systems, and the Building Envelope. A review of the impact and interrelationship of these building systems on interior design elements and sustainable construction; including acoustics, vertical and horizontal circulation. Includes an in-depth review of building and life safety codes.

**Prerequisite(s):** AR382  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**AR496 - Graphic Design Studio VI: Senior Studio/Portfolio**

The capstone course of the major provides an intense investigation of the design and production of the professional portfolio including marketing techniques, format, binding, layout,
and reproduction. The portfolio documents the student's development as a designer and forms his/her main professional credential in preparation for the transition to professional practice. Directed senior thesis project, portfolio and resume preparation. Selected topics in design and senior portfolio show.

**Prerequisite(s):** AR418

**Lecture Hours:** 1  **Lab Hours:** 5  **Credits:** 3

### AR497 - Senior Seminar in Fine Art

This is the capstone course of the major in Fine Arts. The project will be a culmination of the skills and knowledge gained in the student’s academic experience and forms his/her main professional credential in preparation for the transition to professional practice or advanced degree programs. Students will select a topic or design area for research, which will lead to a thesis statement and concept for a senior exhibition. This experience includes a directed senior thesis project in selected topics, with portfolio and resume preparation and senior portfolio exhibition.

**Lecture Hours:** 1  **Lab Hours:** 5  **Credits:** 3

**History:** AR475

### AR498 - Senior Studio I

The first of two sequential capstone courses for Interior Design, B.F.A. students. Students will select a topic for research, which will lead to a thesis statement and complete concept for a senior project that will be completed in AR499 Senior Studio II. Students continue their assembly of a professionally reflective portfolio of student work.

**Prerequisite(s):** Permission of Department.

**Fulfills:** Writing Intensive

**Lecture Hours:** 1  **Lab Hours:** 5  **Credits:** 3

**History:** AR497

### AR499 - Senior Studio II

This is the second half of the capstone course for Interior Design, B.F.A. students. Focuses on the continued development of the Thesis project begun in AR498 Senior Studio I, culminating in a juried presentation of the thesis and supporting documents. Students finalize a professionally reflective portfolio of student work.

**Prerequisite(s):** Permission of Department.

**Lecture Hours:** 1  **Lab Hours:** 5  **Credits:** 3

### Biology

#### BI101 - Biological Concepts

Biological Concepts offers an overview of the fundamental facts and principles of modern biology. The course is designed for the non-science student who wishes to gain an understanding of current biological concepts and their relevance to problems of human society. Emphasis will be on life, its origin, chemistry, energy transformations, reproduction, genetics, evolution, and ecology. At home laboratory activities are included.

**Fulfills:** Science with lab

**Lecture Hours:** 3  **Lab Hours:** 3  **Credits:** 4

#### BI111 - Environmental Biology

Environmental science is the study of the position and impact of Homo sapiens as an organism in the environment and consideration of the sociological, political, and economic implications of mankind's relationship to the ecosystem. Problems of world population, world hunger, international implications, etc. will be included. Specific considerations of energy availability, usage, and controversies, as well as pollution topics will be addressed.

**Fulfills:** Science with lab

**Lecture Hours:** 3  **Lab Hours:** 3  **Credits:** 4

**History:** BIO111

#### BI210 - The Human Body

Structure and function of the principal systems of the human body. Topics include: muscular, nervous, skeletal, circulatory, digestive, endocrine, and urinogenital systems. This course is designated as a VLE for nursing students.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** BIO210

#### BI211 - Human Anatomy and Physiology I

A study of the structure and function of the human body beginning at the cellular level through system level of organization. Focus will be on histology, nervous, skeletal, muscular, cardiovascular, and respiratory systems.

**Prerequisite(s):** (BI101 or BIO221) and
(CH105 or CH107 and CH107L)
Note: One biology and one chemistry prerequisite required. Choices for each are listed in prerequisites. Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: BIO211

BI212 - Human Anatomy and Physiology II

A study of advanced concepts in human anatomy and physiology, including the nervous, endocrine, lymphatic, digestive, urinary, integumentary, immune, and reproductive systems.
Prerequisite(s): BI211 or equivalent
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: BIO212

BI214 - Personal and Community Health

Educational in nature with emphasis on personal hygiene, community health and health education, this course covers diverse topics such as wellness, mental health, stress, nutrition, weight management, communicable disease, non-communicable disease, reproductive health, parenting, substance abuse, aging, and ecology. Socioeconomic and sociocultural factors that impact the wellness of specific cultural groups will also be discussed. This course does not count toward a biology major.
Fulfills: LE Natural Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3

BI223 - Clinical Microbiology

A study of microorganisms that commonly affect humans, including their morphology, physiology, taxonomy, and ecology. Epidemiology of representative diseases and other applied aspects are discussed. Emphasis in the lab is on techniques: staining, culturing, and standard identification methods.
Prerequisite(s): CH105 or CH107 / CH107L or equivalent.
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4

BIO221 - Zoology

This course is a broad introduction to Kingdom Animalia. The anatomy, physiology, systematic, evolution, and ecology of animals will be discussed. Laboratory will include dissection, microscopic and macroscopic examination of organisms representative of the major animal phyla.
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: BI226

BIO225 - Botany

A study of the plant kingdom with an emphasis on the structure and physiology of the flowering plants.
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: BI225

BIO325 - Introductory Molecular Cell Biology

An introductory course in cell structure and function at the molecular level. Topics include cell structure; the flow and transduction of mass, energy, and genetic information; genetic engineering; and regulation of cell growth.
Prerequisite(s): CH108 and CH108L
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: BI231

BIO327 - Introductory Ecology and Evolution

An introduction to the fundamental principles of ecology and evolution. Understand the origin and complex interactions among plants, animals, microbes, the environment, and the diversification of life through evolutionary processes. Topics will include natural selection, speciation, evolutionary processes, ecosystems, populations, biogeography, and biogeochemical cycles.
Prerequisite(s): BIO221, BIO225 and NS220 or permission of instructor.
Fulfills: Writing Intensive, Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4

BIO330 - Paleobiology
Crosslisted: GO330 The study of the earth’s past life, which will be examined in two parts: (1) an introduction to invertebrate and vertebrate paleontology that will focus on classification, relationships, and evolutionary history and (2) the uses of paleontological data in evolution, systematics, paleoecology and extinctions.

Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: BI330

BIO337 - Biochemistry

Crosslisted: CH337 Biochemical systems and the relation of chemical structure to biochemical function as well as the molecular basis of metabolism are discussed.

Prerequisite(s): CH318 and CH318L
Corequisite(s): BIO337L which is a separate course that can be waived by permission of the instructor.

Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: BI337

BIO337L - Biochemistry Laboratory

Crosslisted: CH337L Students are introduced to basic laboratory techniques in biochemistry. Experiments will reinforce materials covered in the co-requisite lecture.

Corequisite(s): BIO337 which is a separate course that can be waived by permission of the instructor.

Fulfills: Science with lab
Lecture Hours: 0 Lab Hours: 3 Credits: 1
History: BI337L

BIO340 - Genetics

A study of the principles of heredity and variation in both plants and animals including humans. Modern theories of gene action are stressed.

Prerequisite(s): BIO325
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: BI330

BIO350 - Microbiology

A study of the biology of the major groups of microorganisms. Research skills are stressed in the laboratory.

Prerequisite(s): BIO325, CH108 and CH108L

Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: BI350

BIO380 - Issues in Biodiversity

An introduction to biodiversity from the perspective of ecosystems and the biosphere. Topics covered include extinction, characteristics, special problems of the various biomes, conservation economics, endangered species management, and theory of nature preserve design.

Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: BI380

BIO400 - Cell Biology

A study of ultrastructure of the cell and its organelles. Laboratory includes studies in molecular biology and tissue culture.

Prerequisite(s): BIO325, CH317 and CH317L
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: BI360

BIO410 - Comparative Anatomy

A study of the phylogeny and gross structure of the organ systems of the vertebrates. Major systems of the shark and cat are dissected and correlations are made with other groups of vertebrates.

Prerequisite(s): BIO221
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: BI340

BIO411 - Animal Physiology

A study of living processes as they occur in cells, tissues, and systems in vertebrates and invertebrates. Laboratory work is correlated with classroom discussion.

Prerequisite(s): BIO221 and CH108
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4

BIO417 - Developmental Biology

A study of the molecular and cellular biology of pattern formation in developing embryos.
Systems surveyed include Drosophila, sea urchin, frog, salamander, chicken, and human.

**Prerequisite(s):** BIO325, CH317 and CH317L  
**Fulfills:** Science with lab  
**Lecture Hours:** 3  
**Lab Hours:** 3  
**Credits:** 4  
**History:** BI417

**BIO470 - Internship**

Practical work experience in biology in an industrial, academic, or other setting. Internship must be approved by the instructor prior to starting work.  
**Lecture Hours:** 0  
**Lab Hours:** 0  
**Credits:** 1-4

**BIO490 - Advanced Topics in Biology**

Selected topics in biology. Topics left to the discretion of the instructor and student. Plant taxonomy, histology, cellular physiology, advanced field ecology, entomology, etc. are possible topics.  
**Note:** Laboratory work may be required.  
**Repeatable for Credit:** May be repeated for credit if topics differ.  
**Lecture Hours:** 0  
**Lab Hours:** 0  
**Credits:** 1-4  
**History:** BI490

**BIO498 - Thesis**

This course will integrate information from biological literature, field studies, and laboratory studies to provide students an opportunity to apply, integrate, and demonstrate knowledge and skills they have acquired in their biology education.  
**Prerequisite(s):** BIO225, NS302 and NS306  
**Corequisite(s):** NS401  
**Fulfills:** Writing Intensive,  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** BI425

**BIO499 - Research**

Students will be expected to conduct research that will culminate in the production of a research paper and presentation. Projects will vary depending upon the interest and capabilities of the student and selected mentor.  
**Lecture Hours:** 0  
**Lab Hours:** 0  
**Credits:** 1-6  
**History:** BI415

---

**Business Analytics**

**BAI209 - Survey of Analytical Approaches**

This course focuses on various theoretical and practical approaches to analytics. Students will learn to recognize and follow steps of analytical thinking and reasoning. Student will also understand the role of data, information, and logic in those processes.  
**Grade:** LT  
**Credits:** 3

**BAI229 - Decision Making and Problem Analysis**

This course will discuss Decision Making from various perspectives including Psychological Decision Making, Behavioral Economics with its Rational Agent Theory and Utility Theory. The course will cover various decision-making techniques, the concept of a decision maker and group decision making process in various business and non-business contexts. The course will also focus on the decision problem analysis and problem decompositions. Students will practice writing problem statements and select widely defines widely defined approaches to problem-solving.  
**Grade:** LT  
**Credits:** 3

**BAI329 - Business Analytics Applied**

This course will equip students with entry level business analytic skills sets and provide a managerial perspective for making sound business decisions using analytics. The course reviews the necessary steps needed to create an environment for business analytics, providing an overview of the key concepts, applications, processes, and techniques through relevant case studies related to business analytics. Students will learn about the fundamental concepts of the emerging field of business analytics and apply basic business analytic principles.  
**Grade:** LT  
**Credits:** 3

**BAI405 - Data Visualization and Story Telling**
This course is designed to develop data visualization and storytelling skills in the presentation of data insights through the application of analytics and data visualization tools. Students will examine data requirements and sources of data, utilize visualization and storytelling methods to effectively analyze and communicate insights to a non-technical audience.

**Grade:** LT  
**Credits:** 3

**BAI407 - Predictive Analytics and Risk Analysis**

This course is designed to provide an in-depth view of various techniques of analyzing risks in an organization and creating predictive analytics using data in an organization. Students will learn risk analysis and predictive analytics using simulations, data mining, trendlines, time series analysis, regression analysis, and forecasting to uncover hidden patterns and correlations in data.

**Prerequisite(s):** BAI329 or MA120, SO307, PS307 (statistics course).

**Grade:** LT  
**Credits:** 3

**BAI427 - Prescriptive Analytics for Decision Making**

This course focuses on providing an understanding of the application of prescriptive analytics and optimization used by professionals in decision making. Students will learn to identify and apply prescriptive analytics that align for the specific organization through simulation modeling and decision systems used for making decisions in their organizations.

**Prerequisite(s) or Corequisite(s):** BAI329 or MA120, PS307, SO307 (statistics courses)

**Grade:** LT  
**Credits:** 3

**BAI491 - Capstone in Business Analytics**

This course is the capstone for Analytics integrating the concepts and techniques from the Analytic curriculum. Students will create a final project demonstrating an understanding of the application of analytics in their own domain by synthesizing into a real-world situation.

**Prerequisite(s):** BAI329 and BAI407 or BAI427  
**Grade:** LT  
**Credits:** 3

**Communication**

**CA103 - Public Speaking**

A development of the ability to speak clearly and express ideas effectively before an audience. Students plan, compose, and deliver various kinds of speeches and talks. Principles of effective rhetorical presentation are related to basic purposes and forms of public speech communication.

**Fulfills:** GEM  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** COM103

**CA104 - Interpersonal Communication I**

An introduction to the knowledge and skills of interpersonal communication. The course content includes facilitation of more effective and supportive behavior, reduction of communication barriers and development of increased skill and confidence in relationships.

**Fulfills:** LE Humanities  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** COM104

**CA105 - Introduction to Human Communication**

This course focuses on the most frequently used communication skills. The course demonstrates the natural relationships between communicating one-to-one and in public, group, and mediated contexts, showing that skills in one can be employed in the other and given practice in both. Students will be introduced to the communication process, listening, concepts of self, language, perception, small group and workplace communication, intercultural communication, mediated communication, the speech process (including topic selection and audience analysis, organization, development and support of speeches, delivery) and informative and persuasive public speaking.
CA116 - Media and Society

This course introduces students to analyzing the intersection between society and the recent developments in media content, technologies, consumers, producers, organizations, and regulations. Grounded in the most current scholarship in media and mass communication in the humanities and social sciences, students learn ways to think about media as both influencing and changed by society.

Fulfills: LE Humanities

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CA200 - Interviewing Theories and Practice

Development and analysis of the interviewing process from the viewpoints of the interviewer and the interviewee. Consideration is given to strategies, ethics, the interview as a management tool, and a broad understanding of the communication variables involved in the interviewing context. Both practical and theoretical perspectives are examined.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CA202 - Fundamentals of Writing for Media

This course introduces students to the fundamental philosophy and principles of writing in journalism on a variety of platforms. It is conducted in an active workshop environment designed to develop writing skills, provide the basic techniques of reporting, familiarize the student with the professions of journalism and public relations, begin the discussion of ethics and purpose, and provide a vehicle for self-expression.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CA203 - Multimedia Practicum I: Content Development

Students research, report, write, photograph, and create audio and video packages, primarily on assignment, for multiple university news and feature platforms. Service to the university community is combined with opportunities for journalistic self-expression.

Prerequisite(s): CA202 and CA224

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CA218 - Public Relations

A study of the dissemination of public information through mass media; intraorganizational information; public opinion analysis, research techniques to establish psychographics within groups, applications in business, government, education, and politics.

Fulfills: Writing Intensive,

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: CA314, COM314

CA224 - Digital Media Skills

Digital Media Skills is an entry-level course where students learn basic digital skills (audio and video editing, photo editing, digital newspaper layout, posting online) which will provide a foundation for production work students will do in more advanced courses and as staff members of KGSP-FM, the Pirate News video newscast, The Stylus newspaper, and the Narva magazine. Project work will be emphasized.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CA225 - Online Content Creation

Online Content Creation is an entry-level course where students learn basic skills such as writing for the web, online publishing, smartphone photography, audio capture and editing, and smartphone video. Students will understand different media formats, how people interact with information, and how to be found online.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CA233 - Introduction to Leadership

The focus and purpose of this course is to provide students with an introductory education of leadership development theory, cultural and gender impacts on communication and leadership, self-understanding, ethical leadership, group dynamics, servant leadership, leading and making change in communities, and group and self-renewal. The course will encourage students to explore the leadership process and develop one’s own leadership
potential while encouraging self-assessment and communication skill development. This course fulfills the first core requirement of the undergraduate leadership minor.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA235 - Multicultural Communication**

A study of communication and culture that examines cultural variability in interpersonal and organizational relationships and the mass media. Emphasis is placed on facilitation of more effective communication episodes across boundaries. Students will demonstrate the principles and skills needed to become effective in communicating outside one’s primary culture.

**Fulfills:** LE Humanities  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA237 - Introduction to Organizational Communication**

An analysis of how organizations are produced and affected by communication. Students will undertake the study of organizational communication and apply communication theories and research at the individual, group, and organization-wide level. Effective communication in global organizations is also presented.

**Prerequisite(s):** CA104  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA241 - Photography I**

**Crosslisted:** AR241  
An introduction to the basic techniques of black and white photography. Cameras, lenses, films, lighting, composition, etc, are discussed. Students must provide an acceptable camera and expendable supplies. Darkroom work is required.

**Prerequisite(s):** CA224 or AR218  
**Lecture Hours:** 1  **Lab Hours:** 5  **Credits:** 3  
**History:** COM241

**CA301 - Interpersonal Communication II**

A study of the nature of and problems in communication. Areas of study include: mental process in communication, perception, content, amount of communication, interpersonal and task behaviors, norms, conflict, creativity, touch, distance, time usage, manipulation of environment, intervention, attitude change and opinions, and how communication fosters attraction, productivity, and leadership. The course focuses on the development of a framework for analyzing the various approaches to interpersonal communication.

**Prerequisite(s):** CA104  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA302 - Communication Ethics and Law**

A study of laws and ethics for journalists and other communicators. The course will analyze libel law, privacy, and objectivity, responsibility, freedom of speech and censorship, and the role of the press in society.

**Fulfills:** LE Ethics  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA303 - Multimedia Practicum II: Editing and Strategic Communication**

Students primarily work as editors conceptualizing stories, editing text and image, designing print pages, Internet displays, public relations materials, and audio and video programs. Students also serve, where appropriate, as senior writers and videographers on live university media venues.

**Prerequisite(s):** CA202, CA218 and CA224  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA309 - Training in Organizations**

This course will prepare students to develop and present training workshops and seminars to meet the needs of organizations. Content focuses on andragogy, needs assessment, curriculum design and organization, delivery modes, and outcome assessment.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA316 - Writing and Reporting on Multiple Platforms**

Focus on information gathering, international reporting, and on using multimedia tools and outlets to disseminate information. Students write, shoot still images and video, collect audio, and utilize other new forms of media.
communication for publishing on the Internet. Other course topics include civic journalism, citizen journalism, and freedom of the press, including freedom of information and sunshine laws.

**Prerequisite(s):** CA202 and CA224

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

### CA318 - Public Relations II

Advance study of persuasive communications with emphasis on design and execution of public relations campaigns, the role of the public information officer, development of the comprehensive information package, and creation of effective internal publications. Includes discussion of specific ethical issues of persuasive communications.

**Prerequisite(s):** CA218

**Fulfills:** Writing Intensive,

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

### CA319 - Writing for Feature, Public Relations, and Documentary

The course focuses on the documentary aspects of storytelling in journalism and public relations utilizing written, audio and visual tools. It is process oriented and conducted in a workshop setting. It provides a rich opportunity for self-expression.

**Prerequisite(s):** CA202

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

### CA320 - Global and Civic Reporting

Student multimedia journalists will learn how to engage with their community and with the world. They will learn reporting theories and techniques for identifying and covering local and international issues. Students will also learn about the relationship between international development and journalism, and about peace journalism and solutions journalism. They will apply their new knowledge and skills by producing multimedia reports (both local and global) that reflect the best practices taught in this course.

**Prerequisite(s):** CA202

**Note:** Recommended Prerequisite: CA316

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

### CA321 - Interpersonal Conflict Solution

**Crosslisted:** PC321  Presents various strategies for dealing with conflict in a positive manner. Emphasizes the development and practice of skills of listening, assertiveness, problem solving, conflict management, and mediation.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

### CA322 - Media Analysis and Criticism

This course analyzes the content of media messages and the role the media play in creating the modern symbolic environment. It provides a theoretical basis for critique of those messages and their potential effects on the communities in which students live. Students accomplish original research of media messages as the cornerstone of the course.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

### CA324 - Advanced Multimedia Production

Students in Advanced Multimedia Production will develop their audio, video, and online multimedia production skills. This class will help you develop basic production skills that will prepare you for work on student media as well as internships at media outlets and public relations firms. This is a hands-on video laboratory course. You will produce a number of projects, both written and digital, to demonstrate your mastery of production. You will learn broadcast writing, shooting, editing, newsgathering, studio operations, multimedia platforms, as well as techniques used to produce professional promotional products. As part of your work in the course, students will have a weekly on-air shift at KGSP-FM, Park University's student-run radio station.

**Prerequisite(s):** CA202 and CA224

**Note:** Recommended Prerequisite: CA316

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

### CA326 - Editing and Design for Media and Public Relations

Students conceptualize and edit copy, edit photographs and other images, work with writers and photographers, and design a variety of news and public relations presentations. Students
confront the ethical questions faced by editors of vital community publications. The course is conducted in a workshop atmosphere.

**CA327 - Persuasive Communication**

Persuasion is a form of influence in which an audience is encouraged to adopt an idea, attitude or behavior through symbolic means. This course is a study of the persuasive process in contemporary society. Students apply persuasion theories in the interpersonal, organizational, public and global contexts in an effort to become responsible consumers and creators of public persuasion. Special attention is placed on ethical persuasion. Students develop and present persuasive messages and a persuasive campaign. This course may incorporate service learning.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA341 - Photography II**

**Crosslisted:** AR341  This course explores the language of photography with particular attention to the photographic essay and the photographic illustration. Both black and white and color photography are included. A variety of techniques in photographic printmaking are explored with an emphasis on self-expression and craft.

**Prerequisite(s):** CA241

**Lecture Hours:** 1  **Lab Hours:** 5  **Credits:** 3

**CA348 - Theories of Communication**

The study of communication theories with emphasis on people’s interactions with the media and one another. The course focuses on how communication affects human attitudes and behavior. Includes a review of media influence in the individual, social and political arenas.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA360 - Sports Communication in a Digital Age**

An introduction and overview of the field of sport communication, including sports journalism, for print and electronic media, history of sports media, sports advertising, public relations, media relations and employment opportunities. The course teaches effective communication strategies and techniques within an organizational and professional context for the sports industries. Emphasis is on reporting and writing in all forms, including social media.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA380 - Advertising**

**Crosslisted:** MK380  Designed to give the student an understanding of the creation, design, and production of material for advertising campaigns in all media. Suggested

**Prerequisite(s):** MK351 or equivalent.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** COM380

**CA382 - Communication Research Methods**

This course focuses on the most frequently used communication research methods in the areas of journalism, communication studies, and public relations. Students will be introduced to the qualitative and quantitative communication research methods including content analysis, participant observation, interviewing, textual analysis and experimental research. It will emphasize understanding communication research reports and developing research and writing skills appropriate for both communication professionals and students seeking advanced degrees. The course may utilize service learning.

**Prerequisite(s):** CA348

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA392 - Organizational Leadership**

A course that explores contemporary organizations and the pervasiveness of communication in all aspects of organizational life. It will emphasize the role of the leader in problem solving and decision-making.

**Prerequisite(s):** CA233 and CA235

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** CA492

**CA402 - Organizational Communication**

Examines the role of communication in organizations and the people and patterns
making up the many sides of complicated issues, which arise in organizational life. The course also examines the communication messages sent and received within an organization including the organization’s formal structure and its informal social groups.

**Prerequisite(s):** CA104  
**Lecture Hours:** 3  
**Credits:** 3

**CA403 - Multimedia Practicum III: Major Project in Journalism, Photography or Public Relations**

Students primarily work on storytelling and documentary projects for live media venues. They conceptualize these capstone projects in journalism or public relations, plan and create them independently, and, in concert with other students, bring them to publication. They also may serve as senior writers and videographers on student media.  

**Prerequisite(s):** CA202, CA316 and CA324  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CA404 - Seminar: Special Topics in Communication Arts**

Topics deal with such matters as social responsibility in mass media, effects of technological change upon the communication industry, film criticism, promotional strategies and case studies, or issues and problems in broadcast management or public relations.  

**Prerequisite(s):** Advanced standing  
**Repeatable for Credit** Revolving topic seminar for advanced students, which may be repeated under different topic headings.  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CA405 - Communication and Gender**

This course is designed to promote critical thinking and analysis of gender and communication issues in the personal and professional contexts. A variety of theoretical perspectives will be utilized to examine gender socialization, identity, female-male interactions, stereotypes, and the role of language.  

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CA441 - Photojournalism**

Learn to use the camera to tell a story with a single photograph or with a series. The course is directed toward newspapers, but includes magazine photography.  
**Prerequisite(s):** CA241 or equivalent competency.  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CA450 - Seminar: Special Topics in Journalism**

Specialized study and practice in various aspects of print journalism. May be repeated for credit when topics are changed. (Topics may include Investigative Reporting, Feature Writing, Editorial and Interpretive Writing, History of Journalism, Advanced Layout and Design.)  
**Prerequisite(s):** Advanced standing  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CA451 - Communication and Leadership in Groups and Teams**

Study of leadership, group processes, and interpersonal relationships in the small group. Special emphasis will be given to the effect of culture on small group interaction.  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CA455 - Seminar in Journalism Education**

The course explores methods in journalism education, the needs of student journalists, and professional standards sought by journalists in the field.  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CA475 - Case Studies in Communication Leadership**

Students use case studies to analyze and apply organizational communication and leadership theories. The student will conduct an in-depth study of an organizational communication case and develop a leadership plan.  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CA490 - Professional Learning Experience**
Students gain extensive experience off campus in a professional environment with direct supervision by employers. Students may work in any relevant communication capacity with prior approval from a Communication faculty member.

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 3-6

**CA491 - Senior Research Project**

This course may not be taken before senior year. It is a capstone course in which the student designs a practical project aimed at publication in a commercial newspaper or magazine (or broadcast outlet), researches the project, completes the writing (or broadcast production), and may offer it to the appropriate editors.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA493 - Leadership for Civic Engagement**

Students will apply leadership and communication theory, skills, and values to identify, research, plan, carry out, and analyze the effectiveness of a service project that makes a meaningful difference in the civic life of our communities. Emphasis will be placed on the student's recognition of their membership in global and local communities and their development of framing, storytelling, organizational, and direction-giving skills.

**Prerequisite(s):** CA233 and CA392

**Note:** Because of the nature of the course, it is offered in the 16-week format only.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CA490F**

**CA501 - Human Communication Perspectives**

This course is a survey of communication theories from the interpersonal, small-group and organizational contexts. It also serves as an introduction to graduate study.

**Credits:** 3

**CA504 - Special Topics in Communication and Leadership**

The course is designed to allow for the introduction of special areas of interest in communication and leadership.

**Repeatable for Credit** This course may be repeated with a different topic.

**Credits:** 3

**CA505 - Organizational Leadership**

A course that explores contemporary organizations and the pervasiveness of communication in all aspects of organizational life. It will emphasize the role of the leader in problem-solving and decision-making.

**Credits:** 3

**CA510 - Rhetorical Criticism**

This course discusses the general nature of both rhetoric and criticism, providing a basic conceptual framework for the identification and analysis of rhetorical artifacts and then survey contemporary critical approaches. These include cluster, feminist, ideological, metaphoric, narrative and generative criticism. This class will be writing intensive.

**Credits:** 3

**CA516 - Research 1**

A study of the processes used by social researchers to describe human communication. The class will emphasize ethnography, field research and interviewing for data gathering and analysis.

**Credits:** 3

**CA517 - Research 2**

A study of the basic principles used to construct quantitative research designs, test hypotheses and apply methods of behavioral science to communication.

**Credits:** 3

**CA520 - Leading Organizational Change**

An examination of the leader's role in assessing organizational readiness for change, implementation of change, framing change for stakeholders and evaluation of change efforts.

**Credits:** 3
CA525 - Interpersonal Communication Theories

A study of research and theories of interpersonal communication, including exemplary leadership behavior for organizations.

Credits: 3

CA529 - Cross-Cultural Communication

A study of communication and culture that examines cultural variability in interpersonal relationships.

Credits: 3

CA567 - Communication Teaching, Training and Consulting

This course covers the theory and practice of developing, presenting and evaluating communication and communication training sessions for organizations and higher education contexts. Units include public speaking, interpersonal communication, organization communication, leadership and consulting. Students prepare for the role of educator, consultant or trainer by acting as a consultant or creating their own training or educational units.

Credits: 3

CA620 - Human Communication and the Internet

This course explores communication theories within the context of emerging media. The paradoxes of human communication on the Internet and the interpersonal nature of the interactions are examined. Students will investigate online communities, communication strategies and information leadership. Course includes major components in writing and experiential learning in an action research project.

Credits: 3

CA641 - Communication in Conflict Management

This class covers the nature of power and conflict, researched-based methods of decision-making and conflict resolution. The student will analyze, plan, make decisions and implement research-based strategies for conflict management in organizational communication contexts.

Credits: 3

CA649 - Introduction to Mediation

Mediation is the intervention of a third party to assist those in a conflict in determining their own resolution. This course introduces the theory of mediation and basic mediator skills.

Credits: 3

CA670 - Measuring Leadership

This course analyzes the methods used by scholars and practitioners to understand leadership. Starting with landmark leadership studies at Ohio State University, numerous attempts have been made to identify essential elements involved in leading others. This course examines assessments starting with the 1940s and concluding with current methods. Expensive learning materials required. Contact your professor before purchase.

Credits: 3

CA675 - Case Studies in Communication and Leadership

This course will cover organizational theories of scientific and classical management, transitional theories, human relations movement, information technology, leadership and human resource development. Students will read, write and discuss case studies to analyze, evaluate and predict effective, research-based organizational communication and leadership theories and practices.

Credits: 3

CA685 - Communication Audits in Organizations

A hands-on analysis of communication in a selected organization. Students work as a consulting group to analyze the essential dimensions of communication, including job satisfaction, channels, feedback and commitment.

Credits: 3
CA699 - The Epistemology of Communication

This course examines the philosophical origins of communication theories and the nature of knowledge in the field. Literature will be drawn from various disciplines illustrating the eclectic roots of communication as an area of inquiry. The course focuses on a framework to analyze the various approaches.

Credits: 3

CA700 - Graduate Project

Capstone course for students who work individually with a graduate advisor to apply scholarly knowledge to a real-world problem or to compile a detailed reflection over their coursework in the program. 3 hours in the SMA program. Offered in 8- and 16-week format. The project will be graded on a pass/fail basis and requires an oral defense.

Prerequisite(s): Permission required.

Note: The project will be graded on a pass/fail basis and requires an oral defense. Grade: Pass/Fail

Credits: 3

CA797 - Thesis Design and Research

With the approval of the program director, interested and capable students may elect the Thesis Option to satisfy degree requirements. The six (6) credit hour Thesis Option provides students with the opportunity to explore a topic of interest through an in-depth research project. Students electing the Thesis Option shall adhere to the requirements set forth in the Graduate Studies Thesis Standards and Procedures manual. Variable credit: 1-3 hours; may be repeated; must total 6 hours Permission required. Thesis graded on a pass/fail basis and requires an oral defense.

Credits: 1-3

CA799 - Thesis - Continuous Enrollment

This class will be graded on a pass/fail basis. Offered in 16-week format. Grade: Pass/Fail

Credits: 1

Computer Science

CS130 - Developing the User Experience

This course teaches students to design web site, mobile app and desktop software with a focus on user experience and user interface across multi-platform environments. Students will learn about human factors, intuitive design, feedback, and rules for consistency. Students will put these concepts into practice using current prototyping and designing software.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: CS314

CS131 - Introduction to Web Structures

This course provides an introduction to developing responsive websites. Concepts used to develop these websites will be HTML and CSS. Due to the particularly dynamic nature of the web environment, course content will change as appropriate.

Prerequisite(s) or Corequisite(s): CS130

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CS140 - Introduction to Computers

This course introduces computer concepts, terminology, and applications to enable students to use computers in their environment and career. This class will feature lectures, written assignments, and demonstrations of computer concepts. The lab will concentrate on hands-on computer lab projects using the dominant Windows operating system and Office applications. Software will include Word, Excel, Access, PowerPoint, and Internet browsers. Students will be introduced to the structure and use of personal computer hardware, peripherals, comparison of popular operating systems, recent history of technology and some ethical implications.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: CSC176

CS144 - Beginning Programming with Multimedia Projects
This course introduces students to the fundamentals of programming and design using multimedia projects. In a "hands-on" class, students will use pseudocode design and the three programming constructs (sequence, selection, and repetition) in creating 3-D Worlds with animation. Students will learn how to combine text, graphics, audio, video, and animation in their projects.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CS145 - Introduction to Mobile Application Development**

This course introduces students to programming by creating applications that run on mobile devices. The main topics of this course are computational thinking, software design, program development, and testing. Students will gain hands-on experience in creating mobile apps with multimedia components such as graphics, audio, video, and animation.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CS147 - Computing Principles**

This course introduces students to the central ideas of computer science, engages them in computational thinking, and investigates how computing contributes to other disciplines and how it affects society in general. (college readiness).

**Prerequisite(s):** MA125 or departmental chair permission.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CS152 - Introduction to Python Programming**

This course introduces students to computer programming and algorithmic thinking. The current language is Python. Students will learn about variables, data types, input/output, control flow, sequences, and functions.

**Prerequisite(s):** Grade of C or better in any math course ≥ MA125, or grade of C or better in CS144, CS145, or CS147, or ACT math score ≥ 23, or SAT math score ≥ 570, or appropriate score on the Park University math placement test.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CS165 - Introduction to Command-Line Interfaces**

This course introduces students to command-line interfaces (CLIs) for manipulating computer operating systems, especially variants of the UNIX/Linux operating systems. Students will learn basic shell commands and also learn to use CLIs to support advanced computing tasks such as software development, data processing, and system administration. A particular focus will be given to the Bash shell and its use in automating tasks.

**Prerequisite(s):** CS152

**Grade:** LT

**Lecture Hours:** 3  **Credits:** 3

**CS202 - Secure Programming**

This course explores the concepts involved in writing programs that are resistant to errors and resistant to attacks. Students put these concepts into practice with C++ and C. Because students should already know basic programming constructs from their prerequisite programming course, this course covers C++ basics quickly. Students learn about the vulnerabilities in C++/C and strategies for limiting those vulnerabilities when using strings, pointers, dynamic memory management, file I/O, and so on.

**Prerequisite(s):** CS208 and a grade of C or better in CS152

**Lecture Hours:** 3  **Credits:** 3

**CS206 - Introduction to JavaScript**

This course provides an introduction to JavaScript for client-side based web sites. Concepts will be put into practice by developing solutions to client-side problems using JavaScript. Due to the particularly dynamic nature of the web environment, course content will change as appropriate.

**Prerequisite(s):** CS130, CS131, and CS152

**Lecture Hours:** 3  **Credits:** 3

**CS208 - Discrete Mathematics**

**Crosslisted:** MA208  This course introduces the student to selected finite systems pertinent to the study of computer science. Course topics will include combinatorial problem solving, logic, Boolean algebra, combinatorial circuits, sets, relations, functions, proofs, mathematical induction, recurrence relations, graphs, trees, and counting techniques.
Prerequisite(s): A grade of C or better in any math course ≥ MA125, or an ACT math score ≥ 23, or an SAT math score ≥ 570, or appropriate score on the Park University math placement test.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CS209, CSC209, CSC208

**CS215 - Selected Topics in Computers**

This course provides an in-depth study into a particular area of computers.

**Prerequisite(s):** Dependent upon course topic.

**Repeatable for Credit** May be repeated once for credit for a different course topic.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CSC215

**CS225 - Programming Concepts**

This course continues the development of the programming and problem solving skills introduced in CS252. Programming concepts will be put into practice by using C++ for programming projects. Since C++ is so similar to Java and since students should already know Java from their prerequisite courses, this course will cover C++ basics (control constructs, operators, data types, functions) very quickly. More time will be spent on those features of C++ that differ from Java. For example, more time will be spent on pointers, object-oriented programming techniques, and operator overloading.

**Prerequisite(s):** A grade of C or better in CS252

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CSC320, CSC320

**CS240 - Web Programming I**

This course provides an introduction to the various languages, tools and programming techniques used for client-side programming on the World Wide Web. Concepts will be put into practice by using HTML, cascading style sheets, and JavaScript. Due to the particularly dynamic nature of the web environment, course content will change as appropriate.

**Prerequisite(s):** CS152

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CS321

**CS252 - Object-Oriented Programming**

This course continues the development of the programming and problem solving skills introduced in CS152, using Java for programming projects. The course covers object-oriented programming and two of its key components, inheritance and polymorphism, along with lists, 1-D and 2-D arrays, searching and sorting, graphical user interface components, and exception handling.

**Prerequisite(s):** A grade of C or better in any math course ≥ MA125 and a grade of C or better in CS152

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CS219

**CS300 - Technology in a Global Society**

This course presents the social, political, economic, multicultural, and ethical issues surrounding the use of computers and computer technology. Course work includes class discussion, readings, collaborative projects and formal term papers on selected topics.

**Prerequisite(s):** EN106

Fulfills: Writing Intensive, LE Ethics

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CSC300

**CS304 - Introduction to Data Science**

This course introduces the terminology and scientific techniques of data science, including all steps of the data science pipeline. It uses programming, statistics, and specialized tools to process large, real-world data sets, demonstrating the results in visually meaningful ways.

**Prerequisite(s):** CS152, MA120, and IS361

Lecture Hours: 3 Lab Hours: 0 Credits: 3

**CS305 - Introduction to Artificial Intelligence**

This course introduces the field of Artificial Intelligence though study of its core concepts, methods, and applications, especially in the areas of knowledge representation, automated reasoning, and machine learning. Using the Python programming language, students will leverage AI techniques to optimize the actions.
taken by computer software in complex and uncertain environments. Students will also explore the context of AI including major application areas and ethical concerns.

**Prerequisite(s):** CS352  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** CSC305

**CS317 - Web Animation**

This course will focus on the development of web-based animations by coding. Topics include introduction to animation basics, developing animations with code, testing, debugging, and deployment. Students will put these concepts into practice by building animations for websites. Due to the particularly dynamic nature of the web environment, course content will change as appropriate.

**Prerequisite(s):** CS240 or CS206  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CS319 - Computer Architecture**

The student will learn about the various hardware components of a computer system. Course topics include: data representation, number systems, Boolean algebra, combinational logic, sequential logic, CPU layout, registers, adders, buses, and memory devices.

**Prerequisite(s):** CS208 and CS152  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** CS220, CSC220

**CS322 - Web Programming II**

This course continues the development of the web programming skills introduced in CS240. While CS240 emphasizes client-side web programming, this course emphasizes server-side web programming. Server-side concepts will be put into practice by using ASP.NET. Students will be expected to implement an application that utilizes ASP.NET AJAX. Due to the particularly dynamic nature of the web environment, course content will change as appropriate.

**Prerequisite(s):** CS240  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CS325 - Full Stack Web Development**

This course continues the development of creating web sites by developing server-side based web sites. Server-side concepts will be taught by using a variety of web based server languages that are single-threaded in concept. Due to the particularly dynamic nature of the Web environment, course content will change as appropriate.

**Prerequisite(s):** CS206 and IS361  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CS330 - Principles of Mobile Development**

This course focuses on the development of web-based solutions for mobile devices. Topics include hybrid mobile application development concepts, testing, debugging, and deployment. Students put these concepts into practice by building app-based solutions and non-app based solutions, with database integration. Due to the particularly dynamic nature of the web/app environment, course content will change as appropriate.

**Prerequisite(s):** CS206 or CS240  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CS335 - Introduction to Cybersecurity**

This course introduces students to various security concepts, issues, and countermeasures. The topics to be examined include, but are not limited to, cryptographic techniques and applications, attack and vulnerability identification, defenses and countermeasures, security tools and techniques, and ethical and legal issues. Several of these concepts may be put into practice using laboratory exercises.

**Prerequisite(s):** CS208 and CS152  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** CS373

**CS345 - Web Development with Frameworks**

This course continues the development of creating web sites by developing framework based web sites. Framework concepts will be taught by using a variety of frameworks and server languages that are multi thread in concept. Due to the particularly dynamic nature of the Web environment, course content will change as appropriate.

**Prerequisite(s):** CS330  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3
CS351 - Computer Operating Systems

This course presents the theory of operating systems and an overview of one or more operating system environments. Operating system concepts covered should include (but are not limited to): process management, memory management, I/O management, file management, and security. Theory concepts will be put into practice with exercises, some requiring college algebra skills and/or basic programming knowledge. Operating system environments may include (but are not limited to): Windows, UNIX, and Linux.

Prerequisite(s): CS202 and CS319
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CSC351

CS352 - Data Structures

This course introduces various data structures and advanced algorithmic concepts, using Java for the programming projects. These data structures will be covered: linked lists, stacks, queues, trees and hash tables. These concepts will be covered: recursion, sorting, and time-complexity analysis.

Prerequisite(s): CS208 and a grade of C or better in CS252
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CSC255, CS255

CS365A - Computer Networking I

This course provides an overview of computer networking concepts. Course topics include network topologies and protocols, local and wide area networking, layering model, and logical and physical network addressing. Additionally, the course contains various hands-on networking projects. This course includes the concepts in a course recommended by Cisco for Cisco Certified Network Associate (CCNA).

Prerequisite(s): CS208 and CS152
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CSC365, CS365

CS366A - Computer Networking II

This course continues the topics presented in CS365A. Course topics include network topologies and protocols, local and wide area networking, layering model, and logical and physical network addressing. Additionally, the course contains various hands-on networking projects. This course include the concepts in a course recommended by Cisco for Cisco Certified Network Associate (CCNA).

Prerequisite(s): CS365A
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CS366

CS369 - Operating System Administration

This course provides students with the fundamentals of system administration under various operating system environments (including for examples, Linux, Windows.) Topics may include (but not limited to): directory services, server management, file I/O configuration, and user/client administration. Theoretical concepts will be put into practice with hands-on exercises.

Prerequisite(s): CS365A and IS361
Lecture Hours: 3 Lab Hours: 0 Credits: 3

CS371 - Internetworking

This course introduces a variety of routing, switching, and wireless concepts. Course topics include (but not limited to): static and dynamic routing, packet forwarding, switching mechanism, and wireless technologies. Additionally, the course contains various hands-on networking projects. This course includes the concepts in a course recommended by Cisco for Cisco Certified Network Associate (CCNA).

Prerequisite(s): CS366A
Lecture Hours: 3 Lab Hours: 0 Credits: 3

CS372 - Advanced Networking

This course introduces a variety of advanced networking concepts. Course topics include (but not limited to): enterprise networking, WAN, network security, and network management. Additionally, the course contains various hands-on networking projects. This course includes the concepts in a course recommended by Cisco for Cisco Certified Network Associate (CCNA).

Prerequisite(s): CS371
Lecture Hours: 3 Lab Hours: 0 Credits: 3

CS375 - Secure Operation
This course will focus on the principles, knowledge, skills, and tools about secure operations of computers, networks, and information technology systems. Topics include security concepts, cryptography, attack methods, security monitoring, incident response, handling and analysis. The course will contain various hands-on security labs. This course includes the concepts in a course recommended by Cisco for Cisco Certified CyberOps Associate (CBROPS) certification. Due to the particularly dynamic nature of the web environment, course content will change as appropriate.

**Prerequisite(s):** CS335 and CS366A

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**CS377 - Digital Forensics**

This course will focus on principles, procedures and techniques of digital forensics. The topics to be examined include data acquisition, incident scene processing, data and file recovery, digital forensics analysis and validation, virtual machine, networks, mobile device and cloud forensics, etc. Several of these concepts may be put into practice using laboratory exercises.

**Prerequisite(s):** CS335, CS351 and CS366A

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**CS380 - Compilers**

The student will learn the principles of compiler construction. In particular, the student will learn about lexical analysis, symbol tables, parsing, type checking, and code optimization. Some or all of these concepts will be put into practice with programming projects.

**Prerequisite(s):** CS352

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**CS401 - Portfolio for Web Development**

This course is a capstone course for web development. Students will build a personal portfolio containing work from other courses and personal projects and explore emerging new web technologies. Due to the particularly dynamic nature of the Web environment, course content will change as appropriate.

**Prerequisite(s):** CS317, CS345, and AR218

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

---

**CS415 - Special Topics in Computers**

This course serves as an in-depth study in a specific field of computer science. Course topics may include (but are not limited to): architecture, advanced networking concepts, computer graphics, modeling and simulation, programming language theory, software engineering, VLSI circuits.

**Prerequisite(s):** dependent on course topic.

**Repeatable for Credit** May be repeated once for credit for a different course topic.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**CS451 - Computer Science Internship**

The student arranges to work in a professional environment. The student's duties must be sufficiently complex to require the expertise of a senior level computer student. Internship duties may include (but are not limited to): developing or updating a program(s) or application(s), installing computer hardware or software, installing or administering a network, writing technical documentation. Prior to enrolling in CS451, the student and the student's job supervisor must jointly prepare an internship proposal. The proposal must be submitted to the advisor and approved no later than four weeks prior to the enrollment deadline.

**Prerequisite(s):** Consent of the advisor, student should be entering or completing his/her senior year.

**Note:** (Parkville Daytime Campus Center Only)

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-6

**History:** CSC451

---

**CS490 - Senior Project in Computers**

The student finds a computer-related field of interest and performs in-depth work in that field. The project must be sufficiently complex to require the expertise of a senior level computer student. Project topics may include (but are not limited to): developing or updating a program(s) or application(s), installing computer hardware or software, installing or administering a network, writing technical documentation, writing a research paper. Prior to enrolling in CS490, the student must prepare a project proposal. The proposal must be submitted to the advisor and approved no later than four weeks prior to the enrollment deadline.
Prerequisite(s): Consent of the advisor, student should be entering or completing his/ her senior year.

Note: (Parkville Daytime Campus Center Only)

Lecture Hours: 0 Lab Hours: 0 Credits: 1-6

History: CSC490

Computer Information Systems

CIS601 - Systems Analysis and Design

This course focuses on in-depth assessment of the methodology, tools and techniques involved in designing an information system for an enterprise, including a detailed study of the system’s development life cycle. The course requires reviewing and analyzing cases and exercises. A final project will be required, including analysis and design of an actual information system.

Credits: 3

CIS604 - Project Management for Information Technology

This course will draw attention to the similarities and differences between traditional and agile project management. The iterative nature of agile management and how this method uses cross functional input to make informed determinations on the next steps in a project will be emphasized. Explore and apply the skill set needed to successfully manage a project using the constraints of scope, time, cost, and quality for an information system application in business. Current technical and behavioral tools of project management are covered within the context of the information systems development process.

Prerequisite(s): MIS605

Fulfills: 4+1

Credits: 3

CIS606 - Applied Data Mining and Analysis of Big Data

This course will emphasize the extraction, transformation, and preparation of data from traditional relational databases, NoSQL, or software ecosystems such as Hadoop for analytical purposes. Students will be introduced to data wrangling, munging, and scraping of both structured and unstructured data. Furthermore, students will also be introduced to parallel computing for big data such as MapReduce and query languages like Apache Hive. An overview of data mining tools and techniques used to realize unseen patterns will be examined through the application of traditional statistical analysis and machine learning techniques.

Prerequisite(s): MIS605 and MBA576 is normally taken before this course; however, the Program Director may make an exception.

Credits: 3

CIS607 - Survey of Predictive Analytical Techniques

This course addresses the foundation of using predictive statistics on big datasets to guide the decision-making process. The focus will be on applied examples using realistic data associated with marketing research and operations. Models implemented include multiple logistics regression, principle component analysis, factor analysis, propensity score matching, classification, decision trees, and clustering with analytical estimations using spreadsheet software or SPSS. Hypotheses formulation and testing, sampling methodologies, determining an appropriate sample size, levels of significance, confidence intervals, interpreting results (p-value and critical value approaches), and the application of A/B testing will be covered. In addition, market based analysis and product launch models will be explored. Finally, students will be introduced to exporting models into operating systems (OS).

Prerequisite(s): MIS614 or HA607

Fulfills: 4+1

Credits: 3

CIS608 - Web and Marketing Analytics

This course will emphasize the application and accurate interpretation of web analytics and other social media platforms for purposes of understanding and optimizing web and social media usage and business intelligence. Students will work with Google Analytics and other web analytical platforms to judge performance throughout the customer lifecycle and ascertain the return on investment (ROI) on a firm’s web and marketing programs.

Prerequisite(s): MIS614

Credits: 3
CIS609 - Data Visualization

This course provides the students an opportunity to perform analyses and create dashboards in business intelligence applications. Emphasis is placed on knowing the needs and expectations of internal and external stakeholders, identifying proper metrics, and the best approach to display them for different end users. Dashboards will be built for implementation on both desktops as well as tablet devices using Tableau. Students will identify key performance indicators (KPIs) and how they may be effectively used across different levels of the organization to achieve business optimization. Finally, students will be introduced to the concept and application of balanced scorecards in business settings.

Prerequisite(s): MIS614 or HA607
Credits: 3

CIS610 - Capstone in Information Systems

This capstone course focuses on the integration and synthesis of previous knowledge in information systems and the student’s concentration of choice. More specifically, students will analyze and synthesize relevant data and user requirements, and then utilize this information to develop and implement recommendations that may assist a firm in maintaining its competitive advantage in a highly dynamic environment.

Note: This course is typically taken at the end of the program; however, the Program Director may make an exception. Credits: 3

CIS621 - Data Analysis for Business Analytics

This course will teach students to apply statistical analysis and other forms of data analysis to solve business problems. Students will design analytical methodology and use relevant software tools to implement the analysis. Students will also learn to evaluate the results of the analysis, its limitations, and their applicability to support business decisions.

Grade: LT
Credits: 3

CIS622 - Data Architecture for Business Analytics

This course will teach students to identify data sources and datasets relevant to business problems, gather, and manipulate data. Students will learn how to build and use relational, and non-relational databases as well as how to work with standalone datasets, APIs and other formats of data. This course will also focus on the main data manipulation methods such as querying, merging, filtering, and aggregation using various tools and their relation to the analytical solutions to business problems.

Grade: LT
Credits: 3

Chemistry

CH101 - Chemistry in the World

This course is designed to acquaint non-science majors with the impact of chemistry on their world. This course provides a general introduction to both inorganic and organic chemistry and stresses applications of chemistry in the commercial, industrial and technological components of society.

Note: This course does not satisfy the requirements for a major or minor in chemistry. Fulfills: LE Natural Science, Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4

CH102 - Contemporary Chemistry

CH102 will introduce the non-science major to the impact that the science of chemistry has on their world. The course provides a general introduction to the principles of the science of chemistry, in the commercial, industrial, and technological components of society.

Note: (Taught in 8-week programs only). This course does not satisfy the requirements for a major or minor in chemistry. Fulfills: LE Natural Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3

CH105 - Introductory Chemistry

A survey of general chemistry, organic chemistry, and biochemistry. Basic principles as applied to health science will be covered. The lab will be a practical application of the principles covered in lecture.

Corequisite(s): MA125 or higher.
Fulfills: LE Natural Science, Science with lab
CH107 - General Chemistry I

An introduction to chemistry by developing fundamental tools such as problem solving methods and the concept of the mole. Major topics covered will include stoichiometry, atomic and molecular structure and the states of matter.

Corequisite(s): MA125 or higher and CH107L which is a separate course that can be waived by permission of the instructor.

Fulfills: LE Natural Science, Science with lab

Lecture Hours: 4 Lab Hours: 3 Credits: 5
History: CHE105

CH107L - General Chemistry Laboratory I

Students are introduced to basic laboratory techniques. Experiments will reinforce materials covered in the lecture components of this course.

Corequisite(s): CH107 which is a separate course that can be waived by permission of the instructor.

Lecture Hours: 0 Lab Hours: 3 Credits: 1
History: CHE107, CHE125

CH108 - General Chemistry II

A continuation of CH107 with major topics covered including solutions, chemical kinetics, thermodynamics, equilibria, and an introduction to descriptive chemistry.

Prerequisite(s): 'C' or better in CH107 or permission of instructor.

Corequisite(s): CH108L which is a separate course that can be waived by permission of the instructor.

Fulfills: LE Natural Science, Science with lab

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CHE108, CHE126

CH108L - General Chemistry Laboratory II

A continuation of CH107L with experiments relating to kinetics, equilibria, thermodynamics, and qualitative analysis.

Prerequisite(s): 'C' or better in CH107L or permission of instructor.

Corequisite(s): CH108 is a separate course that can be waived by permission of the instructor.

Lecture Hours: 0 Lab Hours: 3 Credits: 1
History: CHE108L

CH204 - Nutrition for the Health Sciences

A review of the basic concepts of biochemistry and nutrition as it relates to digestion, absorption and metabolism of macro-and micro-nutrients throughout the life cycle. A study of nutrition as it relates to the prevention and intervention of disease states including, but not limited to, obesity, diabetes, metabolic syndrome, cardiac, liver, kidney, and gastrointestinal disorders.

Prerequisite(s): CH105 and BI211

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CH215 - Selected Topics in Chemistry

An in-depth examination of specific areas of chemistry.

Repeatable for Credit May be repeated once for credit with a change in topic.

Lecture Hours: 0 Lab Hours: 0 Credits: 1-4

CH300 - Chemistry Seminar

A series of case studies of legal, economic and social problems occasioned by the advance of science and technology in contemporary society. Open to all students.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CHE300

CH301 - Chemistry and Society

The history and nature of the science of chemistry with emphasis upon its role as a human activity and its relationship to humanity. Open to all junior and senior level students.

Note: This course does not satisfy the requirements for a major or minor in chemistry

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CH317 - Organic Chemistry I

An introduction to the chemistry of carbon based compounds. Nomenclature, structure, bonding, and reaction mechanisms.

Prerequisite(s): CH108

Corequisite(s): CH317L except in 8-week
programs. which is a separate course that can be waived by permission of the instructor.

**Fulfills:** Science with lab  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** CHE317, CHE111

**CH317L - Organic Chemistry Laboratory I**

Introduction to lab techniques in organic chemistry; extraction, purification, and chromatographic analysis. Basic qualitative analysis of functional groups and separation of compounds of different functional groups.  
**Corequisite(s):** CH317 which is a separate course that can be waived by permission of the instructor.  
**Lecture Hours:** 0  
**Lab Hours:** 3  
**Credits:** 1  
**History:** CHE317L

**CH318 - Organic Chemistry II**

Application of principles learned in CH317 to members of each homologous series. Retrosynthetic analysis and introduction to bioorganic chemistry (amino acids, nuclear bases, carbohydrates, lipids).  
**Prerequisite(s):** CH317  
**Corequisite(s):** CH318L which is a separate course that can be waived by permission of the instructor.  
**Fulfills:** Science with lab  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** CHE318, CHE312

**CH318L - Organic Chemistry Laboratory II**

Application of techniques learned in CH317L to carry out synthesis. Modifications to and introduction of functional groups of a given substrate.  
**Corequisite(s):** CH318 which is a separate course that can be waived by permission of the instructor.  
**Lecture Hours:** 0  
**Lab Hours:** 3  
**Credits:** 1  
**History:** CHE318L

**CH321 - Introduction to Medicinal Chemistry**

This course covers an introductory level medicinal chemistry. The following topics will be covered; drug development process; drug approval processes; receptors; drug interaction; pharmacodynamics; pharmacokinetics, quantitative structure activity relationships. Some of the following classes of drugs will be discussed in detail - antibacterial drugs; drugs that work on the central nervous system, analgesics, etc. Case studies of current drugs going through approval process.  
**Prerequisite(s):** CH318  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**CH328 - Analytical Chemistry**

An in-depth study of classical analytical chemistry techniques. Subjects include the statistical evaluation of data, gravimetric and titrimetric methods of analysis, acid-base chemistry, complexation chemistry, and redox process. Laboratory includes practical examples of the methods covered in lecture.  
**Prerequisite(s):** CH108 and CH108L  
**Fulfills:** Science with lab  
**Lecture Hours:** 3  
**Lab Hours:** 3  
**Credits:** 4  
**History:** CHE327, CH327

**CH329 - Introduction to Instrumental Analysis**

An introduction to modern instrumental chemical analysis. The course will span theory of operation, instrument design and methodology, and applications of instrumental techniques. Electrochemical methods including potentiometry, voltammetry, and coulometry; spectroscopic methods including infrared, UV/VIS, and NMR; chromatographic methods including gas, liquid and thin layer; thermal methods of analysis and kinetic methods of analysis will be covered.  
**Prerequisite(s):** CH328  
**Fulfills:** Science with lab  
**Lecture Hours:** 3  
**Lab Hours:** 3  
**Credits:** 4

**CH337 - Biochemistry**

**Crosslisted:** BIO337  
Biochemical systems and the relation of chemical structure to biochemical function as well as the molecular basis of metabolism are discussed.  
**Prerequisite(s):** CH318 and CH318L
Corequisite(s): BIO337L which is a separate course that can be waived by permission of the instructor.
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CHE337, CHE315

CH337L - Biochemistry Laboratory

Crosslisted: BIO337L Students are introduced to basic laboratory techniques in biochemistry. Experiments will reinforce materials covered in the co-requisite lecture.
Corequisite(s): BIO337 which is a separate course that can be waived by permission of the instructor.
Lecture Hours: 0 Lab Hours: 3 Credits: 1
History: CHE337L

CH342 - Advanced Inorganic Chemistry

A study of inorganic chemistry to atomic structure, bonding models, inorganic reactions, coordination chemistry and symmetry. Laboratory portion of the course will include instruction in the modern synthetic techniques currently used in inorganic chemistry.
Prerequisite(s): Any of the following: CH317, CH318, CH328, CH329 and CH337
Fulfills: Writing Intensive, Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4

CH400 - Special Topics in Chemistry

A seminar devoted to selected topics in modern chemistry of interest to students requiring more depth in the field. The course may involve laboratory work.
Repeatable for Credit May be repeated multiple times for credit with a change in topic.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-4
History: CHE400

CH405 - Fundamentals of Physical Chemistry

A one-semester survey of physical chemistry for students not intending to pursue advanced work in chemistry. Topics include an introduction to thermodynamics, phase equilibria, chemical equilibrium, electrochemistry, kinetics, atomic structure, bonding, and molecular spectroscopy.

CH407 - Physical Chemistry I

An introduction to modern theoretical chemistry. The primary emphasis will be in the areas of thermodynamics. The principles of thermodynamics will be applied to phase and chemical equilibria.
Prerequisite(s): CH108 and PY206 and MA222
Corequisite(s): MA223
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: CHE407

CH408 - Physical Chemistry II

A continuation of modern theoretical chemistry. Topics covered will include the chemical kinetics and quantum chemistry. Modern theories of atomic and molecular structure will be investigated.
Prerequisite(s): CH407 and one of the following: MA223, MA302 or MA311
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: CHE408

CH429 - Advanced Analytical Chemistry

Advanced methods of chemical analysis stressing, but not limited to, the instrumental techniques. An in-depth study of the theory of electrochemical measurements, spectroscopic techniques, and chromatographic theory will be covered.
Prerequisite(s): CH318, CH329
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4

CH440 - Organic Synthesis

In-depth study of various classes of reactions on different classes of organic compounds. Applications of those reactions in synthesis and retrosynthesis of natural products and importance of medicinal chemistry. Lab involved multistep procedures and qualitative analysis of
organic compounds based on their chemical properties.

Prerequisite(s): CH318
Fulfills: Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: CH373F, CHE373F

CH451 - Internship to Chemistry

Practical work in chemistry in an industrial, academic or other professional setting. Prior to the start of work, the department must approve the internship.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-6
History: CHE451

CH490 - Research in Chemistry

Open to advanced chemistry majors with permission of the instructor.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-6
History: CHE490

Criminal Justice

CJ100 - Introduction to Criminal Justice Administration

This course is an introduction to the history, nature, structure, and function of the criminal justice system in America, with comparisons to systems in other nations. Examinations of the various aspects of the administration of the justice systems, including law enforcement, courts, correctional agencies (including probation and parole), and including the increasing role of private entities in the system will be conducted.
Fulfills: LE Social Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CJA111, CJ111

CJ105 - Criminal Law

This course is a survey of the history and nature of criminal law in the United States. Substantive Criminal Law, defenses, and criminal responsibility will be studied within the context of the criminal justice process and rules of evidence.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CJA222, CJ222

CJ200 - Criminology

This basic course provides an examination of the nature and extent of crime and theories of crime causation, as well as the societal reaction of criminal behavior will be covered in this class.
Fulfills: LE Social Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CJA324, CJ324

CJ205 - Juvenile Justice System

This is an introduction to the origins, philosophy and objectives of the Juvenile justice system. Focus is on the operation, legal processes, current trends, and roles of the various actions within the juvenile justice system.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CJA225, CJ225

CJ221 - Criminal Procedure

This basic course examines the procedures to be followed in law enforcement, the courts, and the corrections in the processing of the criminal case, from the crime to the end of punishment. The law of search and seizure and the right to counsel in each of the three segments of the criminal justice system are among the topics that will be examined.
Fulfills: Writing Intensive,
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CJA221

CJ231 - Introduction to Law Enforcement

This is an introduction to the law enforcement segment of the criminal justice system, with an examination of the history and development of law enforcement, especially in the United States. The various job and career opportunities in law enforcement will be reviewed.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ232 - Introduction to Corrections

This basic course discusses correctional concepts from their historical background to the present. An emphasis will be placed on the multi-faceted approach to corrections in our society, including the use of alternatives to incarceration.
CJ233 - Introduction to Security

This course covers the basic principles of security and loss prevention that are common and fundamental to all areas of protection of personal property from historical and modern day points of view. Topics of discussion will include: the security industry, the threat environment, risk analysis, fundamentals of physical security, safety, and accident prevention, and common security problems.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ250 - Selected Topics in Criminal Justice

This course is a specialized introductory study of a particular subject in criminal justice that is not otherwise available in the criminal justice department. The course may be repeated for credit when topics are changed.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ251 - Terrorism and Domestic Preparedness

An introductory study of the criminal justice system’s response to threats of terrorism. The course explores terrorism and its impact on the development and maintenance of organizational responses to homeland security requirements. It considers the need for coordination and cooperation among diverse agencies required for planning and implementing domestic preparedness strategies. It examines the public policy environment within the context of organizing criminal justice agency responses to terrorist threats.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ252 - Victimology

This basic course is an introductory study of the relationship between the criminal justice system and victims. The course examines policy developments and other actions that have been developed based upon concerns over how victims are treated by the criminal justice system. Students will explore whether the criminal justice system can become more oriented toward victims and less toward the criminal.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ300 - Agency Administration

This intermediate course examines management models, administrative techniques and patterns or organizational structure characteristic of criminal justice agencies.

Prerequisite(s): CJ100 and either CJ231, CJ232, or CJ233

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ302 - Media and Criminal Justice

This is an intermediate level, interdisciplinary course wherein students will learn about the relationship between the media and various elements of the criminal justice system.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ311 - Criminal Investigation

This intermediate course includes a discussion of the nature and purpose of criminal investigation, historical background, tools employed skills development, and techniques useful in the reconstruction of criminal activity.

Prerequisite(s): CJ100 and CJ105

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ312 - Criminalistics

This intermediate course covers topics such as the discovery, recognition, observation, identification, and collection and comparison of physical evidence, including a review of various current techniques in the testing of physical evidence.

Prerequisite(s): CJ100 and CJ105

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ313 - The Law of Evidence

This intermediate course examines the rules of evidence as they relate to the prosecution and defense of criminal cases, general provisions, judicial notice, presumptions, relevancy, privileges, witnesses, hearsay, expert testimony,
CJ315 - Special Topics in Criminal Justice

This advanced course is a specialized study of a particular subject in criminal justice not otherwise available in the department. This course may be repeated for credit when topics are changed.

Prerequisite(s): At least junior standing.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: CJ490

CJ316 - Cybersecurity Administration

This course will focus on the principles of cybersecurity administration with regard to how human interactions and interventions influence security protocols through actions. An examination of best practices in cybersecurity administration are explored through controlled exercises, and practical field application. The content will change to remain current.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ322 - Probation, Parole, and Community Corrections

This intermediate course explores the use of probation and parole as alternatives or as adjuncts to confinement. The rules and functions of the parole and probation system and their supervision are discussed. Various techniques and methods for achieving the goals are considered, including community related programs.

Prerequisite(s): CJ232

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ323 - Corrections Management

This intermediate course examines the principles, problems, and trends in the correctional administration and management, methods of achieving organizational change and the evaluation of correctional units.

Prerequisite(s): CJ232

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: CJA337, CJ337

CJ325 - PEER Program

The PEER (Prison Experiential Education and Reflection) Program brings students inside a prison one day a week for three hours to have class with prison inmates through a three-phase approach: The first phase involves study of Criminal Lifestyle theory; the second phase involves panel presentations which debate current issues in criminal justice policy; the third involves offenders presenting their own "life histories," sharing with the class the circumstances and decisions that led to their present incarceration.

Prerequisite(s): Permission of instructor.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CJ332 - Enterprise Risk Management (ERM)

This advanced course examines the internationally recognized Committee of Sponsoring Organizations (COSO) internal control framework, which is the worldwide accepted standard for defining internal control in enterprises today. Emphasizes internal control responsibilities, the history and scope of the COSO report, and an examination of understanding risk in today's organizations. Applies risk management principles to ensure legal compliance including the Sarbanes-Oxley Act. Explains how to implement an effective ERM program.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: SE300, SEC300

CJ333 - Security Administration

This intermediate course examines the selection, organization and administration of contemporary security programs in business, government and industry. Emphasizes both private and government protection of assets, personnel and facilities. Focuses on best practices that security managers can put to immediate use. Provides strategic planning guidance for risk assessment and management, and the coordination of security planning with institutional stakeholders.

Prerequisite(s): CJ233

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: CJA333
**CJ345 - Criminal Justice and the Community**

This intermediate course emphasizes the programming techniques for benefitting the agency-citizen relationship. Prominence is placed on utilizing the resources of the criminal justice agencies to engage in effective conflict resolution with citizens, develop citizen and agency awareness, community crime prevention and community relations.

*Lecture Hours: 3*  *Lab Hours: 0*  *Credits: 3*

**CJ350 - Criminal Justice Management and Planning**

This intermediate course examines budgeting, personnel, and planning. This course is designed to develop a working knowledge of management planning in criminal justice.

*Prerequisite(s):* CJ300

*Lecture Hours: 3*  *Lab Hours: 0*  *Credits: 3*

**History:** CJA446, CJ446

**CJ353 - Emergency Management**

A basic management course that could apply to all aspects of local and state governments, but concentrates on the law enforcement aspect. Topics include overall management techniques, coordination of rescue efforts, NIMS, and the Unified Command System. Related topics include mutual aid pacts, cooperative efforts with industry, manpower and resource management.

*Lecture Hours: 3*  *Lab Hours: 0*  *Credits: 3*

**CJ355 - Homeland Security**

An introductory study of the criminal justice system’s response to disasters at all levels related to agencies of the Department of Homeland Security. This course introduces the student to emergency planning and management relative to a variety of human natural disasters. Students learn to identify and analyze potential disasters, to provide corrective action, and to plan, organize and implement contingency and recovery programs.

*Lecture Hours: 3*  *Lab Hours: 0*  *Credits: 3*

**CJ400 - Constitutional Law in Criminal Justice**

This advanced course is an in-depth study of the U.S. Constitution as it applies to law enforcement, the courts, and corrections, including an examination of recent decisions by the U.S. Supreme Court.

*Prerequisite(s):* Junior standing.

*Lecture Hours: 3*  *Lab Hours: 0*  *Credits: 3*

**History:** CJA221, CJ221

**CJ404 - Law School and LSAT Preparation**

This course is a requirement for Legal Studies minors. It will provide students with a means to prepare themselves for the rigors of law school. It will present students with strategies for getting into the law school of their choice. A significant amount of time will be spent on developing a personal statement that will improve their chances in the competition for scarce positions in law schools. It will also spend a good deal of time helping students to prepare for taking the Law School Admissions Test. Readings on the law school experience, presentations from those who have been to law school, significant work on a personal statement usually required for law school applications, and intense preparation for the LSAT will be the methodologies employed.

*Lecture Hours: 3*  *Lab Hours: 0*  *Credits: 3*

**History:** PO329

**CJ405 - Legal Analysis**

An introduction to the theory, method and actual process of legal reasoning. Particular attention is paid to identifying legal principles which underlie statutes and judicial precedents; understanding their logical basis and assessing their substantive significance; and applying them analytically and creatively in various factual contexts.

*Prerequisite(s):* EN105, EN106, and 60 accumulated hours.

*Lecture Hours: 3*  *Lab Hours: 0*  *Credits: 3*

**History:** PO302

**CJ415 - Financial Investigations**

This intermediate course studies how current perspectives dominate in the field of financial investigations. Discussions of the concepts of law and evidence, sources of information, accounting, methods of tracing funds, banking and financial record keeping, and interviewing as they apply to
detecting and resolving financial crimes will be discussed. Primary emphasis will be placed on theoretical principles and applications of financial investigative techniques.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CJ365, CJ410

**CJ420 - Forensic Science**

This advanced course is a theoretical and practical examination of techniques in the identification, examination, and comparison of physical evidence using both historical and current methods. Laboratory performance is a portion of the coursework.

**Prerequisite(s):** Senior standing.  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CJ425 - Comparative Criminal Justice Systems**

This advanced course is an in-depth examination of criminal justice systems other than the U.S. system. The course allows students to make comparisons of these systems to the U.S. system.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CJ430 - Research in Criminal Justice**

This advanced course is an examination of the research methods with application most commonly utilized in criminological and criminal justice research. Development and implementation of an original data-gathering instrument is required. A research proposal summarizing and evaluating the data-gathering instruments and comparing the data to published articles is required.

**Prerequisite(s):** Senior standing.  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CJ440 - Internship in Criminal Justice**

This advanced course provides practical application through service with a criminal justice agency. Opportunities are available in both the public and private sectors.

**Prerequisite(s):** Permission of Department Chair.  
**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 3-6  
**History:** CJA448, CJ448

**CJ441 - Senior Writing Project**

This advanced course may be taken instead of CJ440 - Internship in Criminal Justice. It is designed for students currently employed in a criminal justice field who do not need the practical experience of an internship. Students in this course must design, implement, evaluate, analyze, and/or critique a project connected to their work environment in written format. This course may be taken online or an independent study in a face-to-face setting. The department chair must approve students to substitute this course for the internship.

**Prerequisite(s):** Permission of Department Chair.  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**CJ450 - Senior Seminar in Criminal Justice**

This advanced course addresses current issues and trends in criminal justice with emphasis on group discussion. Each student will be required to prepare and submit a research paper.

**Prerequisite(s):** EN105, EN106, CJ430 and senior standing.  
**Fulfills:** Professional Writing  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CJA450

**CJ460 - Senior Honors Thesis**

This advanced course allows the student to make a special investigation into a specific area. The student will have completed the major courses in his/her program before enrolling in this course.

**Prerequisite(s):** CJ430, senior standing and 3.2 GPA.  
**Note:** The Criminal Justice department may approve substituting this course for CJ450.  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CJA447

**Construction**

**CO111 - Introduction to Engineer Construction**  
**Technology/Design/Materials and Safety**
Introduction to the field of engineering calculations, technical reporting, presentation of data, and the fundamental steps of construction designs and safety issues. Emphasis will be on the analysis, identification, selections and specifications of the materials of construction required to achieve the desired project quality.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CON110, CO110

### CO121 - Plans Analysis

Introduction to the architectural, structural, and mechanical requirements as they relate to the construction field. Emphasis is on the blueprint interpretation, craft resources, material requirements, code compliance, and work scheduling.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CON121

### CO215 - Construction Safety and Health

Orientation and enforcement of the construction trades sub-parts of the Occupational Safety and Health Act. The student will develop knowledge in record-keeping requirements and the recognition, avoidance, and prevention of safety hazards within construction trades.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CON215

### CO225 - Building Codes

Basic principles and methods significant in contract relationships and appreciation of the legal considerations in construction work. Emphasis is placed on the National Building Code and its application to local situations.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CON225

### CO235 - Construction Planning

Basic construction management functions: preparation of work schedules, requests for progress payments, evaluation of alternative methods of construction, and equipment usage.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CON235

### CO245 - Construction Estimating

Basic cost estimating of construction projects. Topics include types of estimates, quantity take off, unit price, material and labor costs, overhead, profit contingencies, job cost data sources, and cost indices.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CON245

### CO315 - Special Topics in Construction Management

In-depth examination of contemporary issues and developments in the field of Construction Management.  
**Repeatable for Credit** May be taken twice for credit with a change of topic.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

### CO320 - Mechanical and Electrical Systems for Construction Managers

Introduction of the different mechanical and electrical systems in structures to future construction managers. The course covers their installation, setup for operation and continued maintenance of water, heating, ventilation, cooling and wiring systems in both commercial and domestic structures. LEED (Leadership in Energy and Environmental Design) systems are presented, in addition to the many current standard systems. This is an overview of the systems and some prior exposures to the many different systems are beneficial but not required.

**Prerequisite(s):** CO111  
**Grade:** Must earn a "C" or higher in CO111  

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

### CO360 - Project Management/Critical Path Analysis

Study of planning and control of a schedule by network techniques including the time cost analysis of CPM scheduling for application on construction projects, project management, job shop scheduling, and related problems.

**Prerequisite(s):** CO235. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** CON260, CON360
CO365 - Construction Project Management

This course focuses on project planning, project and contract administration, claims and disputes, responsibilities, proper documentation, construction laws, labor relations, construction safety, meetings, negotiations, CPM scheduling, quality assurance, construction materials and workmanship, and project closeout.

Prerequisite(s): CO111. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

CO420 - Commercial Construction

This course focuses on the project principles and practices used in commercial construction. The differences of multi-story construction verses traditional one and two story construction to include curtain walls, sub floor construction and the unique internal finishes often required in commercial building is addressed.

Prerequisite(s): CO111, CO121 and CO235
Grade: Must earn a grade of C or higher in all prerequisite courses.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

CO430 - Environmental Technology

Course includes legal and administrative activities leading toward improved environmental management and the responsibilities of contract managers. The management of water related systems (potable, waste and storm water management), solid and hazardous waste management, noise and air pollution practices and optimization are covered.

Prerequisite(s): CO111, CO121, and CO235
Grade: Must earn a grade of C or higher in all prerequisite courses.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

CO440 - Management of Heavy Construction Equipment

This course in the management of heavy construction equipment will take an advanced approach to the use and the proper management of heavy construction equipment. Emphasis will be on the use of modern construction equipment to increase productivity in both vertical and horizontal construction resulting in increased profitability, while maintaining or even improving the quality of the finished construction contract.

Prerequisite(s): CO111, CO121, and CO235
Grade: Must earn a grade of C or higher in all prerequisite courses.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

CO450 - Construction Management Internship

The internship must provide an applied/practical experience consistent with a career position filled by a college graduate. The internship will be approved and overseen by the Construction Management Program Coordinator (PC) or a business faculty member approved by the PC. An experience paper is required. One credit hour will be earned by 40 hours of experience.

Prerequisite(s): Open only to student who have completed at least three of their courses in Construction Management and have an overall 3.0 GPA.
Repeatable for Credit This class may be repeated to earn a maximum of 6 credit hours at the discretion of the PC.
Grade: Pass/Fail
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: CON450

Dem551 - Principles of Disaster and Emergency Management

This course covers concepts of organizing society to manage emergencies and disasters. It explores governmental and non-governmental approaches to coping with natural and technological hazards.
Fulfills: 4+1
Credits: 3

Dem552 - Public Policy and Disaster

The history, development and implementation of disaster-related public policy are discussed. The course addresses the local, state and federal levels, and their interactions during policy development and implementation. It also explores the role of emergency managers as
policy advocates at all levels of government.

**DEM553 - Disaster and Society**

Disasters affect people and communities. This course considers the social aspects of disasters through social science theory and research. Case studies will be used to illustrate the influence of social factors such as race, gender, culture, and socioeconomic status on perceptions of disasters.

**Credits:** 3

**DEM57 - Continuity of Operations in Public and Private Sectors**

This course examines the implications of crises, emergencies, and disasters on public and private organizations. In particular, this course considers how an organization can prepare for, mitigate, respond to, and recover from disasters through appropriate continuity of operations planning (COOP) and business continuity planning (BCP), so that the organization can continue to provide essential services to its stakeholders. Case studies will be utilized to demonstrate underlying theory and best practices related to COOP and BCP.

**Credits:** 3

**DEM588 - Current Issues in Homeland Security**

This course provides an interdisciplinary survey of contemporary issues in homeland security designed to help learners understand the "cross-talk" between the various disciplines in the homeland security project as well as the influences, demands, and interactions of the law. In addition to the agencies within the Department of Homeland Security, the homeland security mission requires support from local, state, tribal, and federal law enforcement. As such, this course is intended to address the interoperability, collaboration, and law related to domestic and international criminal terrorism.

**Credits:** 3

**DEM589 - Theoretical Principles of Terrorism**

This course discusses the sociological, psychological, and political theories associated with terrorism with application to disaster and emergency management. The course analyzes
extremist beliefs and ideologies as a means to understanding terrorist motives and behaviors. The course applies theoretical concepts of terrorism to the disaster and emergency management principles of planning, mitigation, response, and recovery. The course considers the impact of domestic and international terrorism on public administration organizations at the federal, state and local levels.

**Credits:** 3

**DEM690 - Capstone in Disaster and Emergency Management**

The capstone course provides the opportunity to synthesize emergency management topics into a final capstone project. The projects will vary by student interest and identified needs but will include a community needs or hazard vulnerability assessment and will address a particular problem or problems facing the community under study. The course will apply emergency management concepts, utilize team work, work through the phases of emergency management, and conduct after action reporting in a simulated disaster situation.

**Credits:** 3

**Economics**

**EC141 - Principles of Macroeconomics**

A study of the contemporary American economy; the role of investment, consumption, and government on income determination; and an analysis of the foreign sector. Emphasis is on contemporary problems: unemployment, inflation, and growth.

**Fulfills:** LE Social Science

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** ECO141

**EC142 - Principles of Microeconomics**

A study of the market mechanism and the organization of production and distribution activities in society. A major focus is on the determination of prices of goods and factors of production. Analysis of the firm as the main institution in the market.

**Fulfills:** LE Social Science

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** ECO142

**EC300 - Intermediate Microeconomics**

An analysis of the considerations underlying economic value. Emphasis is on the pricing process under different market conditions and the evaluation of the functioning of the enterprise system.

**Prerequisite(s):** EC142. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**EC301 - Intermediate Macroeconomics**

This course begins with a review of national income concepts including national income accounting. It analyzes fiscal and monetary policy using the ISLM model. The primary course focus is on the critical analysis of fiscal, monetary, new Keynesian, and new classical models and their success in explaining economic stability and the stimulation of economic growth.

**Prerequisite(s):** EC141. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** ECO301

**EC302 - Labor Economics**

A study of wages, working hours, conditions of work, fringe benefits. Also, an analysis of purchasing power of wages, and productivity. Attention is given to labor unions and to government attitudes toward labor.

**Prerequisite(s):** EC142. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**EC303 - Money, Credit and Banking**

A study of commercial banking, money markets, capital markets, monetary standards, foreign exchange; also, an analysis of the Federal Reserve System (central banking system) and its impact on the control of the money supply, and a survey of financial institutions.

**Prerequisite(s):** EC141 and EC142. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**EC305 - Special Issues in Economics**
This course consists of the study and analysis of some major aspects of economic theory at the junior level.

**Lecture Hours:** 1-3  **Lab Hours:** 0  **Credits:** 1-3

**EC308 - Transition to a Market Economy**

An examination of problems of transitioning from a centrally directed, statist economic system to a system in which the market establishes what and how much the economy produces and consumes. The role of the price system and the function of profit in a market economy are discussed. Formal and informal institutional barriers to the transition will be evaluated.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EC309 - Economic Development**

A study of the principles of growth applied to developed countries, newly industrialized countries, and developing countries. Analysis begins with a discussion of the early gains from socialist collectivization and Latin American early gains due to import substitution. The development failure that led to the collapse of the USSR and the development failures in the current non-communist countries are analyzed.

**Prerequisite(s):** EC141 and EC142. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EC401 - History of Economic Thought**

This course provides an overview of the historical development of economic doctrines from ancient times to the mid 20th century. Included in the discussion are the Greek and Roman slave society, the feudal society, mercantilism and the historical transition to socialism and capitalism.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  **History:** ECO401

**EC402 - Comparative Economic Systems**

A study of several economies which discusses the impact of various ideologies on economic structures. Major areas: capitalism, socialism, communism (theory and practice).

**Prerequisite(s):** EC141 and EC142. All prerequisites must be passed with a C or better.

**Note:** Term paper required. **Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  **History:** ECO402

**EC404 - Managerial Economics**

This course covers the concepts, tools, and methods of economic analysis relevant to a broad cross-section of decisions within the business firm. Attention is given to the analysis of market demands and the determination of costs relevant to various managerial decisions. Interrelationships between price policy, costs, promotion outlays, operating rates and production schedules, capital budgets, and financing in the short and long run are stressed. The course uses Excel and the Solver package to find the optimum solution to these business-related problems.

**Prerequisite(s):** MG315. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EC407 - International Trade and Finance**

The course entails an examination of trade theory, commercial policy and selective trade problems of global economics; an investigation of the nature of international payments, balance of payments and foreign exchange markets; a study of international monetary arrangements and their adjustment mechanisms.

**Prerequisite(s):** EC141, EC142 and EC300. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  **History:** EC304

**EC450 - Senior Seminar in Economics**

In this capstone course for economics majors, students will demonstrate mastery of economic concepts by successfully completing comprehensive written exams in micro- and macroeconomics. Analytical ability as well as communication skills will be assessed through student completion of an original research project requiring statistical analysis of an economics topic. Research findings will be presented to faculty and other invited participants.
Prerequisite(s): EC300, EC301, MG306, MG315 and at least two of the following: EC302, EC303 or EC407. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

EC452 - Economics Internship

The internship must provide an applied/practical experience consistent with a career position filled by a college graduate. The internship will be approved and overseen by the Economics Program Coordinator (PC) or a business faculty member approved by the PC. An experience paper is required. Once credit hour will be earned by 40 hours of experience connected to the internship learning outcomes.

Prerequisite(s): Open only to students who have completed at least 3 of their courses in Economics and have an overall GPA of 3.0.

Repeatable for Credit This class may be repeated to earn a maximum of 6 credit hours at the discretion of the PC.

Grade: Pass/Fail

Lecture Hours: 3-6 Lab Hours: 0 Credits: 3-6

EC490 - Special Topics in Economics

This course consists of the study and analysis of some major aspect(s) of economic theory at the senior level.

Lecture Hours: 1-3 Lab Hours: 0 Credits: 1-3

Early Childhood Education

EDC220 - Child Growth and Development for Early Childhood and Elementary Teachers

A study of the growth and development of children, birth through adolescence. Emphasis will be placed on theoretical ideas, contemporary multicultural dimensions of development and child-rearing, and their implications for teachers. Students will spend a total of 15 hours contact hours (5 hours per age group) in each of the following early childhood settings: Infant or toddler, pre-primary, and early elementary (K-3).

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ED220

EDC221 - Child Growth and Development-Field Experience for Transfer students

This course is designed for students transferring a child development course that did not include observation. A course designed for student observation and reflection for a total of five (5) hours in each of the following early childhood settings: Infant or Toddler, Pre-primary, and Early Elementary (K-3).

Prerequisite(s): Transfer course equivalent to EDC220 without field Experience.

Lecture Hours: 0 Lab Hours: 2 Credits: 1

EDC222 - Early Childhood Principles

This course is an introduction to early childhood principles and their implications for teaching. Students will be familiar with the philosophical framework of developmentally appropriate practices as a basis for making professional decisions. Students will observe, outside of class time, in each of the following early childhood settings: Infant or Toddler, Pre-Primary, and Early Elementary (K-3). Students will spend a total of 15 hours contact hours (5 hours per age group) in each of the following early childhood settings: Infant or toddler, preprimary, and early elementary (K-3).

Prerequisite(s): EDC220 or equivalent child development course.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: ED222

EDC223 - Early Childhood Principles-Field Experience for Transfer students

This course is designed for students transferring an early childhood principles course that did not include observation. A course designed for student observation and reflection for a total of five (5) hours in each of the following early childhood settings: Infant or Toddler, Pre-primary, and Early Elementary (K-3).

Prerequisite(s): Transfer course equivalent to EDC222 without field Experience and EDC220.

Lecture Hours: 0 Lab Hours: 2 Credits: 1

EDC325 - Education of Exceptional Children
A course designed to study the varied educational, developmental, and behavioral characteristics of children with special intellectual, physical, emotional, or social needs. This course includes completion of out-of-class experiences such as visits to inclusion classrooms in area schools, classroom or agency visits for children with exceptionalities or interviews with families.

**Prerequisite(s):** EDC220

Lecture Hours: 3  Lab Hours: 0  Credits: 3

**EDC337 - Development and Learning Through Play**

The course emphasizes understanding theoretical and empirical perspectives that connect play to young children’s learning and development. Furthermore, the course accentuates designing play-based curriculum and assessment for diverse learners focusing heavily on art, music and creative drama.

**Prerequisite(s):** EDC220 and EDC222

Lecture Hours: 3  Lab Hours: 0  Credits: 3

**EDC341 - Professionalism and Program Management in Early Childhood Education**

A course examining professionalism in early childhood education (including involvement in the field of early education, upholding ethical standards and professional guidelines, engaging in critical perspective engaging in advocacy) and issues of management in early childhood programs (including supervision and collaborative learning; planning environments, curriculum and evaluation procedures; health, safety, nutrition; guidance and classroom management; professional decision-making; and working with families and community). Students will visit and participate in a variety of different programs serving children from birth through third grade.

**Prerequisite(s):** EDC220 and EDC222

Lecture Hours: 3  Lab Hours: 0  Credits: 3

**EDC344 - Program Planning and Evaluation in Early Childhood Programs**

This course examines the systematic and ongoing evaluation of various components of an early childhood program, and the use of that information to determine the vision and goals for the program, and allocation of resources to meet those goals. The process of change and the role of leadership will be explored. This course is designed for candidates declaring the "leadership area of concentration". It is recommended that this course be taken after practicum when possible.

**Prerequisite(s):** 12 hours of Early Childhood coursework and EDC341

**Corequisite(s):** EDC345 and EDC346

Lecture Hours: 2  Lab Hours: 0  Credits: 2

**History:** EDC367

**EDC345 - Financial Aspects of Early Childhood Programs**

The course will examine the financial aspects of early childhood programs related to establishing and operating early education centers and family child care homes. Issues of quality, compensation and affordability will be addressed. Steps in planning a budget based on the program’s vision, mission and goals and a regular analysis of the budget as a planning tool will be emphasized. Financial records necessary to provide evidence of a sound fiscal management system will be addressed. Fiscal policies and procedures and insurance needed to protect program integrity and assets will be analyzed. Effective marketing, public relations, and community outreach strategies will be explored. This course is designed for candidates declaring the "leadership area of concentration". It is recommended that the course is taken after practicum when possible.

**Prerequisite(s):** 12 hours of Early Childhood coursework and EDC341

Lecture Hours: 2  Lab Hours: 0  Credits: 2

**History:** EDC365

**EDC346 - Human Resources in Early Childhood Programs**

A course designed to examine aspects of supervising and supporting personnel in early care and education settings. Policies and legalities of recruiting, screening and hiring will be addressed. This course is designed for candidates declaring the "leadership area of concentration". It is recommended that the course is taken after practicum when possible.

**Prerequisite(s):** 12 hours of Early Childhood coursework and EDC341
EDC351 - Teaching Development of Language and Literacy in Early Childhood

A study of language and literacy development in young children. Emphasis will be placed on the roles of teachers and families in facilitating reading, writing, speaking and listening in young children from birth through age 8. Students will implement activities with children in each of the following age spans: Infants or Toddlers (Community-based or Home-based program), Pre-primary (Head Start or Head Start like program), and Early Elementary (K-3, Public or Private school). Implementation of activities in each age group can take up to five hours.  
Prerequisite(s): Admission to the School of Education, EDC220 and EDC222  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

EDC354 - Observation, Assessment & Screening in Early Childhood Education

A course exploring appropriate assessment procedures for evaluating, monitoring, reporting, and planning experiences to support and extend the development and learning of young children. Students will practice the skills of observation and assessment.  
Prerequisite(s): Admission to the School of Education  
Corequisite(s): Concurrent enrollment in: EDC363, EDC355, and EDC373  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

EDC355 - Social and Emotional Learning in Early Childhood

This course will examine the theories that support the problem solving approach to guiding young children's behavior in the early childhood classroom. The adult role in developing relationships of mutual trust and respect and helping young children see themselves as a member of a learning community will be emphasized. Developmentally appropriate strategies, including preventive strategies, will be explored. Students will observe and analyze guidance and classroom management practices in different early childhood settings.  
Prerequisite(s): Admission to the School of Education.  
Corequisite(s): Concurrent enrollment in EDC354, EDC363 and EDC373  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

EDC362 - Infants and Toddlers

Students will plan, implement and evaluate developmentally appropriate materials, activities and strategies for children, birth through age two.  
Prerequisite(s): Admission to the School of Education  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

EDC363 - Integrating the Curriculum: Pre-primary

A course designed for students to plan, implement and evaluate developmentally appropriate materials, activities and strategies in a Pre-primary setting. ECE Certification and ECE Teaching Young Children students must be concurrently enrolled in EDC372 Infant and Toddler Practicum for ECE Certification or Teaching Young Children.  
Prerequisite(s): Admission to the School for Education.  
Corequisite(s): Concurrent enrollment in EDC354, EDC355 and EDC373  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

EDC364 - Integrating the Curriculum: K-3

A course designed for students to plan, implement and evaluate developmentally appropriate materials, activities and strategies in a primary setting, grades K-3. ECE Certification students must be concurrently enrolled in EDC374 K-3 Practicum for ECE Certification.  
Prerequisite(s): Admission to the School of Education.  
Corequisite(s): Concurrent enrollment in EDC374  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

EDC372 - Infant and Toddler Practicum
Supervised field experience in an infant/toddler setting that supports the integration of teacher knowledge, skills, and dispositions necessary for working with young children, birth through age 2, and their families. The student is required to be in the infant/toddler setting. Candidates enrolled for 1 credit hour will spend the equivalent one day per week in the classroom during weeks 2-7. Candidates enrolled for 2 credit hours will spend the equivalent of two full days per week in the classroom during weeks 2-7. The practicum is scheduled through the Early Childhood Program. The student must earn at least a "B" in the practicum to continue in the program. **Prerequisite(s):** Admission to the School of Education. **Corequisite(s):** Concurrent enrollment: 

EDC362 

**Lecture Hours:** 1-2 **Lab Hours:** 0 **Credits:** 1-2 

**History:** EDC360A 

**EDC373 - Pre-primary Practicum**

A supervised field experience in Pre-primary setting that supports the integration of teacher knowledge, skills, and dispositions necessary for working with young children, 3-5 years of age and their families. The student is required to be in the Pre-primary setting for a minimum of 12 weeks. Candidates will spend a minimum of a half day per week in the setting when enrolled in 1 credit hour. Candidates will spend the equivalent of 1 full day per week in the setting when enrolled in 2 credit hours. The candidate must earn at least a "B" in the practicum to continue in the program. **Prerequisite(s):** Admission to the School for Education. **Corequisite(s):** Concurrent Enrollment in EDC354, EDC355, and EDC363 **Lecture Hours:** 1-2 **Lab Hours:** 0 **Credits:** 1-2 

**History:** EDC360B 

**EDC374 - K-3 Practicum**

A supervised field experience in an early primary setting that supports the integration of teacher knowledge, skills, and dispositions necessary for working with young children, (K-grade 3), and their families. The candidate is required to be in the early primary setting a minimum of 1 day per week for 12 weeks. The student must earn at least a "B" in the practicum to continue in the program. **Prerequisite(s):** Admission to the School for Education. **Corequisite(s):** Concurrent enrollment in EDC364 

**Note:** Student must pass appropriate Missouri Content Assessment before enrolling in EDC410 Field Experience III. **Lecture Hours:** 0 **Lab Hours:** 2 **Credits:** 1 

**History:** EDC360C 

**EDC410 - Field Experience III**

This course is composed of a directed teaching and seminar experience. Seminar is designed to provide personal and professional support during a teacher candidate's directed teaching experience. Seminar begins with intensive training followed by weekly meetings throughout the semester. Teacher candidates are placed in one school setting under the supervision of a cooperating teacher and university supervisor, assuming the role and responsibilities of a lead teacher in-and-out of the classroom. **Prerequisite(s):** EDC354, EDC355, EDC362, EDC363, EDC364, EDC372, EDC373, EDC374, and admission to the School of Education and criteria met for directed teaching. Student must pass appropriate Missouri Content Assessment before enrolling in Directed Teaching with Seminar. **Lecture Hours:** 2 **Lab Hours:** 10 **Credits:** 12 

**EDC420 - Internship in Early Childhood Teaching Young Children**

Internship in Teaching Young Children is an internship experience in one or three different early childhood classrooms (Infant or Toddler or Preprimary); OR Candidates may participate in an internship experience in a community or state agency benefitting young children (birth through age 5) and their families. Candidates, who are in catalogs dating 2009-2015, will enroll in EDC420 for 10 credit hours. Candidates will spend no less than 400 contact hours at the internship site. Candidates, who are in catalogs 2016 and later, will enroll in EDC420 for 6 credit hours. Candidates will plan a 16-week, (minimum of 15 hours each week), field experience with their education advisor, (candidates will spend a minimum of 240 hours working directly at an internship site). The internship can occur as a form of mentorship only if: 1) The candidate is
Currently teaching or working full-time in an approved program/school/agency; 2) The site is pre-approved AND 3) The candidate can provide evidence that a mentor will be provided by the school/program/agency to meet with the candidate each day that the candidate is participating in the internship experience. Interactions with children and families or constituents from a variety of backgrounds will be an internal part of the experience. Degree portfolio will be completed in this course.

**Prerequisite(s):** EDC354, EDC355, EDC362, EDC363, EDC372, EDC373, and concurrent enrollment in EDC425. Admission to the School of Education and criteria met for requesting internship.

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 6-10

**EDC425 - Seminar for Internship in Early Childhood Teaching Young Children and Early Childhood Education and Leadership**

The seminar is a capstone course. The purpose of the seminar is to allow exploration of issues and experiences in Early Education in a reflective way, to enhance the leadership/teaching experience, and to articulate a philosophy of early childhood education as a basis for making professional decisions. An in-depth project and degree portfolio will be completed in this course.

**Prerequisite(s):** EDC354, EDC355, EDC362, EDC363, EDC372, EDC373, admission to the School of Education and criteria met for requesting internship.

**Corequisite(s):** Concurrent Enrollment: EDC420

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**Elementary Education**

**EDE225 - Children's Health, Movement and Nutrition**

This course recognizes that children, birth through grade 6, must be in a state of wellness in order to learn and reach their full potential; influential factors will be examined, including health, nutrition, and movement practices at home and school. Related topics include the importance of collaborating with families and sensitivity to cultural practices, special needs of children, as well as the teacher's role as a mandated reporter.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EDE332 - Integrating Arts and Movement in Learning Activities**

Full STEAM Ahead (Integrating the Arts through STEAM)

Dive in with hands-on experiences and learn to use technology and other resources to integrate the arts (including visual arts, literature, movement, music, and drama) into your daily classroom learning. You will use the ISTE Standards and the Missouri Learning Standards to guide you as you explore age-appropriate robotics, digital and electronic tools, 3D printing, and other engaging activities, such as Breakout Boxes, to transform your classroom teaching.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EDE340 - Language and Literacy Development**

This course provides foundational knowledge, theory, and current research about children's oral and written language and literacy acquisition and development from birth through adolescence. Linguistic elements and systems of the English language will be examined, including phonology, grapheme-phoneme correspondence patterns, morphology, syntax, semantics, and pragmatics. Application of this foundational knowledge to developmentally-appropriate language and literacy instruction in grades pre-primary through grade 6 will be stressed.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EDE342 - Mathematics Learning in Elementary Grades**

This course will examine best practices for planning and delivering mathematics instruction pre-primary through grade 6. Mathematics topics will focus on number sense, operations, algebraic thinking, measurement, geometry, data analysis, probability and diagnosing math misconceptions and errors through error analysis. Teacher candidates will be engaged in hands-on activities, problem solving, authentic tasks, and active learning activities that exemplify...
cultural considerations and family involvement.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**EDE343 - Curriculum Integration & Strategy Instruction in Social Science & Science**

This course provides teacher candidates with strong and effective instructional strategies and techniques by using an integrated curricular approach in the areas of science and social studies. The course work is hands-on, inquiry based and STEAM (science, technology, engineering, arts and design, and mathematics) rich. Park University is a partner with Project Lead the Way (PLTW) and students who successfully complete this class, will be PLTW credentialed and certified.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**EDE352 - Building an Effective, Equitable Learning Environment for Elementary Grades**

Theory and skills necessary to implement instructional and classroom management strategies are presented through lecture, discussion and classroom observations. Students will explore the theoretical foundations, knowledge, skills and dispositions necessary to create supportive teacher-student relationships and to implement developmentally appropriate instruction, guidance, and classroom management strategies. The course includes guidance procedures for integrating children with and without disabilities. Students will observe and analyze instruction, guidance, and management practices in a variety of appropriate elementary school settings.

**Prerequisite(s):** Admission to the School of Education.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**EDE360A - Field Experience I**

This field experience in an elementary classroom supports the integration of teacher knowledge, skills, and dispositions in observation and application of classroom management, professional practices, and instructional techniques.

**Prerequisite(s):** Admission to the School of Education or permission of the program.

**Lecture Hours:** 0 **Lab Hours:** 2 **Credits:** 2

**EDE360B - Field Experience II**

This field experience in an elementary classroom supports the integration of teacher knowledge, skills, and dispositions in observation and application of classroom management, professional practices, and instructional techniques.

**Prerequisite(s):** Admission to the School of Education.

**Corequisite(s):** Concurrent enrollment in EDU375

**Lecture Hours:** 0 **Lab Hours:** 2 **Credits:** 2

**EDE363 - Literacy Learning in the Elementary Grades**

This course develops elementary teacher candidates' knowledge and skills in effectively planning, implementing, and assessing English Language Arts/Literacy instruction in grades K-6. Course content will include teaching and learning strategies that support the development of early grade children's oral, written, visual, technological, and higher-order literacy competencies in English/Language Arts and across elementary school content areas.

**Prerequisite(s):** EDE340 and Admission to the School of Education.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**EDE383 - Mathematics Methods and Differentiated Learning in Elementary Grades**

This course provides an examination and application of effective assessment/diagnostic and instructional techniques for pre-primary through grade 6, including remedial strategies, for the teaching of mathematics. Opportunities will be provided to apply knowledge of the assessment/diagnostic methods and prescriptive teaching strategies with students in the area of mathematics during a field experience in an elementary school setting.

**Prerequisite(s):** EDE342, MA120 or MA135 plus one additional math course or permission of the program, and Admission to the
School of Education.

Corequisite(s): To be taken concurrently with Field Experience II.

Note: Student must pass appropriate Missouri Content Assessment before enrolling in Directed Teaching with Seminar. Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDE410 - Field Experience III

This course is composed of a directed teaching and seminar experience. Seminar is designed to provide personal and professional support during a teacher candidate's directed teaching experience. Seminar begins with intensive training focused on co-teaching strategies and the MEES evaluation tool followed by weekly meetings throughout the semester. Teacher candidates are placed in an elementary school setting under the supervision of a cooperating teacher and university supervisor, assuming the role and responsibilities of lead teacher in-and-out of the classroom.

Prerequisite(s): EDE360A and EDE360B with at least a grade of "B".

Lecture Hours: 2 Lab Hours: 10 Credits: 12

Middle School Education

EDM352 - Building an Effective, Equitable Learning Environment

This course provides the theory and skills necessary to implement instructional and classroom management strategies as presented through lecture, discussion and classroom observations. Students will explore the theoretical foundations, knowledge, skills and dispositions necessary to create supportive teacher-student relationships and to implement developmentally appropriate instruction, guidance, and classroom management strategies. The course includes guidance procedures for integrating children with and without disabilities. Students will observe and analyze instruction, guidance, and management practices in a variety of appropriate middle school settings. Additionally, this course provides an overview for the emotional growth for all students while incorporating the philosophy and organization needed in a middle school setting.

Prerequisite(s): Admission to the School of Education.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDM358 - Reading and Writing in the Content Areas

Crosslisted: EDS358 This course provides middle school and secondary teacher candidates with theory-based strategies to develop middle school and high school learners' engagement with literacy, with a focus on building literacy competencies in both discipline-specific and interdisciplinary contexts. Course activities will include critical examination, modeling, and practice with theory-based teaching and learning strategies that will scaffold the development of middle school and secondary school learners' oral, written, visual, technological, and higher-order literacy competencies.

Prerequisite(s): Admission to the School of Education.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: EDM380

EDM360A - Field Experience I

This field experience in a middle school classroom supports the integration of teacher knowledge, skills, and dispositions in observation and application of classroom management, professional practices, and instructional techniques.

Prerequisite(s): Admissions to the School of Education

Corequisite(s): Concurrent enrollment in EDU375

Lecture Hours: 0 Lab Hours: 2 Credits: 2

EDM360B - Field Experience II

This field experience in a middle school classroom supports the integration of teacher knowledge, skills, and dispositions in observation and application of classroom management, professional practices, and instructional techniques.

Prerequisite(s): Admission to the School of Education.

Corequisite(s): Concurrent enrollment in EDU384

Lecture Hours: 0 Lab Hours: 2 Credits: 2
EDM395 - Methodology in Content Area

The purpose of this course is for teacher candidates to identify and practice content literacy, instructional methods and assessment strategies in the area of certification. A. English, B. Social Science, C. Science, D. Mathematics

Prerequisite(s): Admission to the School of Education.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: EDM397

EDM410 - Field Experience III

This course is composed of a directed teaching and seminar experience. Seminar is designed to provide personal and professional support during a teacher candidate’s directed teaching experience. Seminar begins with intensive training focused on co-teaching strategies and the MEES evaluation tool followed by weekly meetings throughout the semester. Teacher candidates are placed in a middle school setting under the supervision of a cooperating teacher and university supervisor, assuming the role and responsibilities of lead teacher in-and-out of the classroom.

Prerequisite(s): EDM360A and EDM360B with at least a grade of "B".

Note: Student must pass appropriate Missouri Content Assessment exams in an area of certification before enrolling in Directed Teaching with Seminar. Lecture Hours: 2 Lab Hours: 10 Credits: 12

Secondary Education

EDS352 - Building an Effective, Equitable Learning Environment for Secondary Grades

Theory and skills necessary to implement instructional and classroom management strategies are presented through lecture, discussion and classroom observations. Students will explore the theoretical foundations, knowledge, skills and dispositions necessary to create supportive teacher-student relationships and to implement developmentally appropriate instruction, guidance, and classroom management strategies. The course includes guidance procedures for integrating children with and without disabilities. Students will observe and analyze instruction, guidance, and management practices in a variety of appropriate secondary school settings.

Prerequisite(s): Admission to the School of Education.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDS358 - Reading and Writing in the Content Areas

Crosslisted: EDM358 This course provides middle school and secondary teacher candidates with theory-based strategies to develop middle school and high school learners’ engagement with literacy, with a focus on building literacy competencies in both discipline-specific and interdisciplinary contexts. Course activities will include critical examination, modeling, and practice with theory-based reaching and learning strategies that will scaffold the development of middle school and secondary school learners’ oral, written, visual, technological, and higher-order literacy competencies.

Prerequisite(s): Admission to the School of Education.

Note: Recommend simultaneous enrollment with Field Experience I. Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDS360A - Field Experience I

This field experience in a secondary school classroom supports the integration of teacher knowledge, skills, and dispositions in observation and application of classroom management, professional practices, and instructional techniques.

Prerequisite(s): Admissions to the School of Education and concurrent enrollment in EDU375

Lecture Hours: 0 Lab Hours: 2 Credits: 2

EDS360B - Field Experience II

This field experience in a secondary school classroom supports the integration of teacher knowledge, skills, and dispositions in observation and application of classroom management, professional practices, and instructional techniques.

Prerequisite(s): Admission to the School of
Corequisite(s): Concurrent enrollment in EDU384
Lecture Hours: 0 Lab Hours: 2 Credits: 2

EDS395 - Methodology in Teaching Content Area in The Secondary Classroom

The purpose of this course is for teacher candidates to identify and practice content literacy, instructional methods and assessment strategies in the area of certification.
A. English
B. Social Science
C. Science
D. Mathematics
Prerequisite(s): Admission to the School of Education.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: EDS397

EDS410 - Field Experience III

This course is composed of a directed teaching and seminar experience. Seminar is designed to provide personal and professional support during a teacher candidate’s directed teaching experience. Seminar begins with intensive training focused on co-teaching strategies and the MEES evaluation tool followed by weekly meetings throughout the semester. Teacher candidates are placed in a high school setting under the supervision of a cooperating teacher and university supervisor, assuming the role and responsibilities of lead teacher in-and-out of the classroom.
Prerequisite(s): EDS360A and EDS360B with at least a grade of “B”.
Note: Student must pass appropriate Missouri Content Assessment before enrolling in Directed Teaching with Seminar. Lecture Hours: 2 Lab Hours: 10 Credits: 12

Education

ED495 - Statistics for Teachers

This course is designed to teach teachers basic concepts of statistics: sampling and measurement; descriptive statistics; probability distributions and statistical inference, including tests of significance. It assumes no prior coursework in statistics, but fluency in arithmetic, the use of calculators and two years of high school algebra are required.
Credits: 3

ED501 - Diversity and Equity in Education

This course focuses on factors of diversity that impact decisions K-12 educators must make regarding design and implementation of curriculum, teaching strategies, and materials in order to provide equity and excellence for all learners.
Credits: 3

ED502 - Teaching and Learning in the Digital World

This course is designed to provide background and understanding of the skill sets of 21st Century students and the expectations for the teaching and learning environment.
Credits: 3

ED504 - Learning as a Competitive Advantage

The course will provide a historical perspective of adult education theory, philosophy, and practice. Additionally, the transformation of workplace and adult learning due to advance in technology will be examined. Changes in the nature of informal and formal learning, the learning needs of organizations and the role of the adult educator in the 21st century will be explored.
Credits: 3

ED505 - Introduction to Educational Research

A course designed to provide teachers with a background and understanding of educational research such that they will become critical consumers and effective implementers of research in the classroom. This course will function as one of a two part major course where
the student will investigate and learn about educational research and begin an educational research project that will terminate in the second course where the student will hone analytical skills and report findings and discuss future implications.

**Credits:** 3

**ED507 - The Connected Teacher**

Learner

This course explores the work processes and digital tools of an innovative professional in a global and digital society.

**Credits:** 3

**ED509 - Language and Culture**

This course provides an overview of changing classroom demographics and the implications for the classroom teacher in recognizing the influence of classroom, school and community cultures on relationship building within the classroom. The ways in which people use languages, the nature of languages used both in American and in countries of immigrants, and differences in communicative systems will be investigated. Recognizing bias to counter stereotypes is necessary for building an inclusive learning environment.

**Credits:** 3

**ED511 - Utilizing Technology in Classroom Research**

This course provides an introduction to the pedagogy of academic research, utilizing computer-based research platforms to develop an action research plan.

**Credits:** 3

**ED512 - Human Capacity Building**

This course explores the philosophy of human capacity building as a means to help individuals develop personally and meet professional goals, and to increase overall organizational performance. Current issues and trends in organizational learning and development as it relates to adult education and training will be analyzed, including learning organizations, adult basic education, executive education, workplace learning, and career planning.

**Credits:** 3

**ED513 - Law for Educators**

This course is designed to give educators the legal information they need to correctly interpret and apply the laws that govern all aspects of public education.

**Credits:** 3

**ED514 - Foundations of Educational Administration**

This course is designed to give prospective school leaders the opportunity to delve into the Professional Standards for Educational Leaders and apply those standards to life as a building principal. With an intense focus on leadership in a school building through decision making, communication strategies, conflict management approaches, and organization systems, students will gain a better understanding of the standards, principles, practices, and theories to be an effective school leader. Students will also be required to complete a minimum of 20 hours of field experience within their building/district.

**Credits:** 3

**ED515 - Sociological Factors Affecting Education**

This course provides an opportunity to examine the changing sociological factors affecting American education. Problem-solving approaches to these situations will be utilized, culminating in a field-based advocacy project.

**Credits:** 3

**ED516 - Introduction to Graduate Research**

This course provides an introduction to both qualitative and quantitative research, including research design. The purpose of this course is to enable the educator to become an informed consumer of research.

**Prerequisite(s):** ED504

**Credits:** 3

**ED517 - Instructional Design and Delivery**
This course provides an overview of the art and science of teaching with an introduction to data driven instruction and accountability.

**Credits:** 3

**ED519 - Diversity in the Classroom**

This course provides an overview of changing classroom demographics and the implications for the classroom teacher in recognizing the influence of classroom, school and community cultures on relationship building within the classroom. Recognizing bias to counter stereotypes is necessary for building an inclusive learning environment. A field-based study will be required.

**Fulfills:** 4+1

**Credits:** 3

**ED520 - Special Needs in the Classroom**

This course is designed to address the special needs of students being mainstreamed into the traditional classroom. A minimum of 10 hours of field experience is required.

**Fulfills:** 4+1

**Credits:** 3

**ED521 - Contextual Factors Influencing Effective Instruction**

This course provides a framework inclusive of contextual factors within a community, school, and classroom that influence effective instruction.

**Credits:** 3

**ED522 - Legal Aspects of Special Education**

This course provides a review and analysis of current case law and litigation related to children with disabilities. Focus on the legal system that ensures children with disabilities a free appropriate public education with emphasis on due process procedures and other procedural safeguards, discipline, program accessibility and application of least restrictive environment alternative principles to special education programming.

**Credits:** 3

**ED523 - Assessment and Evaluation of Teaching and Learning In the Digital Classroom**

This course analyzes the issues of assessment in a technologically enhanced classroom.

**Credits:** 3

**ED526 - Classroom Management Seminar**

This course provides a foundation for teachers to develop the knowledge and strategies necessary for successful classroom management for students who exhibit a wide range of behavioral needs and characteristics. Teachers will study how to prevent behavior problems, what to do when problems occur and what to do to increase the possibility of a positive learning environment for all students. Teachers will develop a personal philosophy and plan for an optimal learning environment.

**Credits:** 3

**ED527 - Growth and Development of Children and Adolescents**

This course provides a developmental approach to the study of the growth and development of children and adolescents. This course explores the cognitive, personality, emotional, social and physical changes that occur in children from conception through adolescence. It will review research on how children learn, solve problems and function in home and school environments.

**Credits:** 3

**ED528 - Theory and Practice in Literacy**

This course provides a survey of historical and current literacy theories and models that have influenced the teaching of reading across time to the present. Foundational knowledge of key literacy domains, language systems, diverse reader profiles, and the science of reading is introduced. Emphasis is placed on the reading component of literacy and language learning. This course addresses the development of teachers' own theoretical orientations to literacy practices: how they develop and change over a career, and how they are reflected in the
This course provides an overview of current theories and research on the topics of learning, motivation, teacher thinking and effective teaching strategies. Classroom applications will be stressed. Field experience will be required.

**Credits:** 3

**ED532 - Teaching and Learning: Theory Into Practice**

This course provides an overview of current theories and connected to various literacy theories and models. The role of and professional resources for reading/literacy specialists are explored.

**Credits:** 3

**ED540 - Emerging Technologies and Facilitation Strategies**

This course will investigate how emergent technologies can be harnessed to support and facilitate learning, professional development, and influence both the exchange of information and the creation of knowledge as the emergence of digital and electronic technologies has generated profound cultural transformations in communication, organizations, and higher education delivery. Learners will develop systems and processes to keep abreast of new technologies and will utilize selected technology tools to develop and facilitate an eLearning unit.

**Prerequisite(s):** ED504 and ED516

**Credits:** 3

**History:** ED525

**ED541 - Middle School Philosophy and Organization**

This course explores the unique nature of modern middle schools to include organization, methodology and curriculum with particular emphasis on integration of interdisciplinary teaming. Understanding the unique developmental needs of current middle school students will occur through individual research, readings and reflective inquiry. The student will gain a deeper understanding of curriculum, instruction and engagement strategies through a field-based experience ranging from observation to classroom teaching.

**Credits:** 3

**ED542 - Program Planning for Adults**

This course provides the learner with leading models of planning, designing, and assessing courses and programs. Learners will use these models to lead all phases of a course or program lifecycle, from needs assessment, design, managing the overall project and development, implementation, and finally assessing the program and showing its value in community-based, higher education, and organizational environments.

**Prerequisite(s):** ED504, ED516, ED540, ED566

**Credits:** 3

**ED543 - Trending Tools of the Internet**

This course investigates and evaluates tools trending on the internet.

**Credits:** 3

**ED545 - Teaching Reading to Linguistically Diverse Learners**

This course is designed to acquaint students to a broad range of skills, activities and media that can be used to enhance the literacy development of linguistically diverse learners. Content will focus on current principles and practices associated with teaching diverse learners in grades K-12. Peer teaching activities will be structured around strategies that foster development of the ability to use the target language in the appropriate contexts.

**Credits:** 3

**ED546 - Analysis and Correction of Reading Difficulties**

This course will explore characteristics, identification and intervention strategies appropriate for K-12 diverse learners with reading, writing, and spelling difficulties and disabilities. It includes the study of formal and informal assessments, including miscue analysis with an Informal Reading Inventory. This course continues examining both traditional and innovative means of teaching reading, writing, and spelling to diverse learners experiencing literacy challenges. Teachers will practice administering, interpreting and reporting diagnostic results. Practice with students within Grades 6-12 is a focus in this course.
ED547 - Counseling Techniques with Exceptional Children and their Families

This is a survey course exploring the role and function of counseling, including philosophies, theories and research. It is designed to foster parent-teacher cooperation, including communication and conflict resolution strategies applicable to educationally-related situations (including IEP conferences and regular parent-teacher conferences) with exceptional students, families and other professionals. The effects of exceptionalities upon the student with disabilities and his/her parents and siblings will be included.

ED548 - Evaluation of Abilities and Achievement

This course provides an overview of the assessment of K-12 students, including formal and informal instruments and techniques of literacy and language domains. The course focus is on formal & informal measures, including diagnostic measures. Students will be instructed in the administration, eligibility procedures, interpretation & communication of individualized, formative & summative assessments. Assessment to support identification and evidence-based instruction for diverse reader profiles is stressed. This course addresses effective communication of assessment results and the instructional implications with diverse learners, their families and school personnel. Practice with students within Grades K-5 is a focus in this course.

ED550 - Literacy Intervention for the Diverse Learner

This course is designed to acquaint students with a broad range of skills, activities and media that can be used to enhance the literacy development of diverse learners, including those with dyslexia. Content will focus on current principles and practices associated with teaching diverse learners in grades K-5 for intervention. Students will use knowledge of literacy research, theoretical models, skills, and instructional practices to design and implement teaching activities. Lessons will be structured around activities and strategies that foster development of literacy ability in the appropriate contexts, as well as adapt to specific needs of a child based on assessment data. This course will include the use of instructional practices and behavior management approaches to increase students' engagement and motivation for literacy.

ED551 - Educational Technology/Tools for the 21st Century Learner

This course explores digital tools and resources to support curriculum and an integrated learning classroom environment.

ED552 - Linguistics for English Language Learner Teachers

This course introduces prospective teachers of English as a Second or Other Language to the characteristics of human language in general; with particular attention to English. Students will be able to identify the common properties of language, as well as how individual languages differ. Students will examine language structure, variation and change, and discover the ways that this knowledge can be put to practical use in teaching learners from diverse language backgrounds.

ED557 - Language to Literacy Acquisition and Development

This course provides a study for teachers in the identification and referral of individuals with communication disorders. It explores language development in children and adolescents with special needs. This is an essential course for understanding the teaching of reading through the lens of literacy and language development. Students explore literacy from the earliest stage to maturity in the processes of reading, writing, and spelling. This course is built on the understanding that reading is a language-based
activity and explores the links between speech and print. The developmental approach to learning to read is especially important when working with children of diverse backgrounds. Emergent and beginning literacy assessments are introduced and students use relevant data to inform planning, implementation, and reflection of a lesson with an emergent or beginning reader. Formal and informal evaluation procedures are examined, intervention strategies appropriate to the language impaired are reviewed and language arts strategies are developed.

**Prerequisite(s):** ED528  
**Credits:** 3

**ED561 - Miscue Analysis**

This course looks at miscue analysis as a strategy for learning about and valuing readers’ strengths. The course will examine the theories underlying miscue analysis as well as a range of procedures for implementing miscue analysis. Students will receive hands-on experience with miscue analysis procedures, both in an in-class workshop setting and with actual children. The use of miscue analysis data to inform classroom practice will be stressed.  

**Credits:** 3

**ED562 - Principles of Second Language Learning**

This course will acquaint students with the theories and models of first and second language acquisition. Students will address the typical and atypical situations, bilingual language acquisition, and the effects of the cultural and educational environment on the process of acquiring a language.  

**Credits:** 3

**ED563 - Managing Change and Innovation**

Organizations today are in a state of continuous change as they adapt to new global realities. The ability for consultants and leaders in education and organizational learning to embrace change quickly and effectively, with committed and capable people is a strategic advantage. This course will connect change management theory to practice in a variety of professional settings. Learners will create strategies to support change management and foster innovation opportunities in teams, departments and organizations.  

**Prerequisite(s):** ED504, ED516, ED540  
**Credits:** 3

**ED564 - Enhancing Instruction with Technology**

This course focuses on rigor and relevance to align appropriate classroom instructional strategies with technology tools and resources to enhance instructional opportunities for learners.  

**Credits:** 3

**ED565 - Team Learning and Innovation**

Teamwork is an essential component of most professional activities in the modern world. This course is an introduction to the innovation and effectiveness that successful teams bring to an organization. But how can you foster success for your team as a member or leader of a team? This course covers why teams are important, how networking within diverse teams and organizations can be a source of information and learning, and explores research related to organizations with high-performing teams. Learners will be introduced to Problem-Based Learning model and use the model to promote innovation and problem-solving within teams. The Problem-Based Learning model addresses the roles and responsibilities of individuals in a team, processes for effective teamwork and communication, and methods for addressing team conflict.  

**Prerequisite(s):** ED504 and ED516  
**Credits:** 3

**ED566 - Organizational Learning**

The modern organization faces continual change along with the pressure to remain competitive and innovative. Effective organizations develop a culture of learning to enable the ongoing evolution and transformation in individuals, teams, and at the enterprise level in an effort to remain relevant and competitive. This course considers factors that contribute to a learning culture, which starts with personal mastery but also includes important concepts such as assessing the readiness of an organization to change and fostering motivation, diversity,
reflective discussion, and the ability to think critically at all organizational levels to equip them to anticipate and innovate in an environment of increasing ambiguity and complexity.

**Credits:** 3

**ED567 - Culturally Responsive Classroom Leadership, Organization, and Management**

This course focuses on strategies to effectively organize and manage a culturally responsive classroom community, including designing a safe and engaging learning environment; responding proactively to students' needs; planning functional behavior assessments with interventions; and providing leadership in demonstrating best practice in positively guiding individual student and group behavior.

**Credits:** 3

**ED571 - Issues and Ethics with Technology Integration**

This course investigates national standards, copyright laws, and district policies governing technology, including digital citizenship and its effect on today's digital learners.

**Credits:** 3

**ED572 - Developing Critical Thinking & Transformative Learning**

This course evaluates the work of leading critical educators and analyzes the challenges of empowering adult educators toward social change and transformative action within their communities and organizations. Models of critical thinking and critical reflection will be used to apply critical learning theories and principles to solve complex issues related to social, economic, psychological, and motivational challenges in a variety of professional settings.

**Prerequisite(s):** ED516

**Credits:** 3

**ED573 - Investigating Teaching, Learning, and Student Engagement**

This course focuses on instructional and assessment best practices that engage students in the learning process.

**Credits:** 3

**ED574 - Analyzing and Presenting Data in the Workplace**

This course utilizes information that includes analysis of results and a presentation from a completed action research project.

**Prerequisite(s):** ED511

**Credits:** 3

**ED579 - Educational Technology Electronic Portfolio Development**

This course analyzes strategies for the development, organization and presentation of an electronic portfolio.

**Credits:** 3

**ED580 - Special Topics in Education**

This course is designed to allow for the introduction of special areas of interest in education.

**Repeatable for Credit** May be repeated for credit with a different topic.

**Credits:** 1-3

**ED582 - Methods for Teaching English Language Learners**

Through the instruction of theories and best practices for teaching English to speakers of other languages in K-12 classrooms, this course allows the teacher candidate to identify and practice teaching techniques and methodologies necessary to be successful, reflective and empathetic English Language Learner teachers.

**Credits:** 3

**ED584 - Curriculum for Teaching English Language Learners**

This course provides the study of approaches and techniques used in teaching language skills and developing cross-cultural understandings to English Language Learners in grades K-12. The emphasis of the course includes curriculum development through different development states and content areas in addition to lesson
ED603 - Teaching Literacy to Diverse Learners

This course is designed to acquaint students with a broad range of skills, activities and media that can be used to enhance the literacy development of diverse learners in Grades 6-12, including those with dyslexia. Content will focus on current principles and practices associated with teaching diverse learners in Grades 6-12 for intervention. Students will use knowledge of literacy research, theoretical models, skills, and instructional practices to design and implement teaching activities for adolescents. Lessons will be structured around activities and strategies that foster development of literacy ability in the appropriate contexts, as well as adapt to specific needs of an adolescent based on assessment data. This course will include the use of instructional practices and behavior management approaches to increase students' engagement and motivation for literacy.

Prerequisite(s): ED546
Grade: LT
Credits: 3

ED605 - Professional Learning & Literacy Leadership

This course explores the various roles and application of literacy leadership with an emphasis on the role of a reading specialist as a reflective literacy professional. Literacy research, policy, practices, and adult learning will be discussed. In addition, this course examines the development, implementation, and evaluation of literacy programs. Students also will learn about and engage in various forms of professional learning and literacy leadership with individuals, groups or organizations. Advocacy for literacy and literacy learners across various contexts of schooling will be introduced and explored.

Prerequisite(s): ED603
Grade: LT
Credits: 3

ED606 - Curriculum Theory and Practice

This course offers an overview of curriculum theory that discusses current issues in curriculum and gives the teacher the opportunity to develop useful curriculum. Field experience will be required.

Credits: 3

ED607 - Assessment Strategies for English Language Learners

This course provides a review of the use and interpretation of commercially available diagnostic and achievement and classroom tests. The relation between academic testing and development of language skills will be addressed, and teachers will be introduced to the means by which teachers can make on-going assessments of the development of the students' language.

Credits: 3

ED608 - Assessment

This course examines the relationship between instruction, student engagement, learning, and assessment, as well as technology integrated with these processes. The collection and reporting of data at the student, classroom, school district, state, and national levels will also be examined. A 20-hour field experience component is required.

Fulfills: 4+1
Credits: 3

ED609 - Current Issues and Trends in Literacy

This course includes a critical examination of current issues in literacy, including extensive reading of recent research literature relevant to those issues. Issues to be focused upon will change every semester based upon current developments in the literacy field.

Credits: 3

ED610 - Issues & Research in Literacy

This course includes a critical examination of current issues in literacy, including extensive reading of recent and historical research literature relevant to those issues. Issues to be focused upon will change based on current developments in the literacy field and students' identified areas of interest. This course will also include and introduction to action research in
literacy education. Students will design an action research inquiry/research project and prepare an application to submit to the Institutional Research Review Board for permission to conduct their study in their classroom or in a school setting during ED651 Literacy Practicum II. Applications must be submitted before the end of the first half of ED641 Literacy Practicum I and permission to conduct a study must be granted to enroll in ED651 Literacy Practicum II.

Prerequisite(s): ED603
Grade: LT
Credits: 3

ED612 - School and Community Leadership

This course addresses the role of schools in the larger community and how to involve partners, families and other stakeholders in the development of a school in which all students can learn. Approaches to initiating school reform and the balance between internal and external communication are addressed. Field experience will be required.

Fulfills: 4+1
Credits: 3

ED613 - Current Legal Issues for Educators

This is an application course designed to promote educator awareness of new developments and special concerns in the area of education law. Will focus on factual classroom situations with hidden legal issues.

Credits: 3

ED616 - School Supervision

This course defines the process of supervising faculty and staff in the educational environment. It addresses effective instruction and competencies related to the evaluation and assessment of teacher performance. Theoretical and practical approaches are addressed to encourage human relations and to improve school climate and culture. A 20-hour field experience component is required.

Credits: 3

History: ED614

ED617 - Assessment for Teachers

This course addresses current issues relating to formal and informal assessment, teacher-made tests, and standardized tests and state mandated assessments.

Note: Field experience will be required. Fulfills: 4+1
Credits: 3

ED619 - Multi-Cultural Literature for Teachers

This course provides a seminar focused upon literature emerging from various American minority cultures with emphasis upon the teaching of such literature in elementary, middle and secondary schools.

Credits: 3

ED620 - Advanced Curriculum, Instruction and Assessment Methods and Strategies

This course provides the teacher with the opportunity to identify and apply innovative techniques, methods and best practice in the area of pre-K 12 areas of certification. Field experience will be required.

Credits: 3

ED621 - Serving Students with Special Needs in the Classroom

This course is designed to examine and address the various diagnoses of children with special needs, including related issues such as the disproportionate representation of culturally diverse students. Field experience will be required.

Fulfills: 4+1
Credits: 3

ED623 - Differentiated Instruction in the Regular Classroom

This course examines educational models that provide frameworks for teachers to follow as they plan and implement curriculum, instruction, and assessment in response to student needs. Field experience will be required.

Credits: 3
ED626 - K-12 School Administration

This course provides a thorough grounding in elementary and secondary principalship. It addresses student assessment, curriculum design and organization, student organization and activities, student programs, supervision of students, procedures for implementing school improvement and the day-to-day operation of the elementary and secondary schools. A 20-hour field experience component is required.

Repeatable for Credit: Yes
Credits: 3

ED627 - Instructional Leadership

This course provides instructors with the opportunity to identify and apply innovative techniques, methods, and best practices as instructors plan and implement curriculum, instruction, and assessment in response to student needs.

Credits: 3

ED628 - Leadership of Adult Learning

This course provides learners the opportunity to reflect on their role as a leader and focuses on five fundamentals of leadership to increase their capacity to lead.

Credits: 3

ED631 - Capstone

The program culminates in the application of knowledge acquired and competencies developed throughout the program. Learners will coach others engaged in problem-based learning teams, evaluating the team's strengths and weaknesses and working with individuals and teams to create an action plan to promote effective team learning and innovation. Learners will propose, research, design, and present a research-substantiated course or program to the academic community and/or their organization of choice.

Prerequisite(s):
ED504, ED516, ED540, ED542, ED565
Credits: 3

ED632 - Action Research

This course will introduce practitioners to principles, methods, and procedures of action research, a form of self-reflective inquiry on their own teaching practice. Students will investigate a significant question, concern, or issue relevant to their own teaching practice and determine solutions and interventions that can improve teaching practice and impact student learning.

Credits: 3

ED633 - Application of Educational Research

In Application of Educational Research, the students will learn how to analyze, interpret, make critical decisions, and communicate those decisions based on the results of their research, to a wide variety of stakeholders including parents, teachers, and administrators. Students will utilize elements garnered from their coursework to demonstrate their ability to act as a change agent and teacher leader in their school.

Prerequisite(s): ED505
Credits: 3

ED634 - Directed Field Experience

This course is designed to provide the prospective principal with a substantial, sustained and standards-based field experience in a real-life setting. This 16-week course requires 180 contact hours in a setting under the supervision of Park University faculty and one or more successful, practicing principals.

Credits: 3

ED635 - School Organization and Management

This course helps the prospective school leader to develop knowledge and competencies related to specific issues of organization and management of schools. Operational procedures, safety and security, human resource management, fiscal operations, budgeting, use of facilities, ADA compliance, student discipline and various legal issues affecting operations are addressed. A 20-hour field experience component is required.

Credits: 3

ED641 - Literacy Practicum I
This course involves structured fieldwork in an authentic educational setting, supervised by a university instructor. Students will work with individuals and/or small groups of children or young adults to assess and meet those learners' literacy needs. In consultation with the instructor, students will apply various assessment strategies with their assigned students, and, based on the resulting information, will plan and implement literacy activities and interventions for those students. Strategies for communicating with, sharing information, and making recommendations for diverse learners, their families, and other professionals will be practiced. In addition, strategies necessary to promote a positive learning environment and successful management of students experiencing literacy challenges, including those who exhibit a range of behavioral needs and characteristics will be utilized. During this course, students will submit an application to the Institutional Research Review Board for permission to conduct an action research study during their second practicum. Students in the special reading track must have experience in Literacy Practicum I that involves working with learners from a different K-12 grade level than the grade level they intend to work with for their Practicum II course and that is outside of their current teaching certification level.  

**Prerequisite(s):** ED610  
**Credits:** 3

**ED651 - Literacy Practicum II**

This is the Master of Education Language and Literacy, Special Reading Program's culminating course, its capstone. The course will involve the implementation of an inquiry-based action research study in an authentic field setting. The nature of the inquiry project will be shaped by the graduate student, in consultation with an under the mentorship of a faculty advisor, to fit the graduate student's individual goals. The project must address an identified literacy need in the setting where it is conducted. Prior to enrolling in this course, the graduate student must prepare, submit, and receive approval to conduct their study from a faculty supervisor and the Institutional Research Review Board. Conference proposals, grant applications, and journal articles related to the graduate student's action research study will be explored. During this practicum, graduate students must work with a target age level that is different from the grade level of learners that were worked with in ED641 Literacy Practicum I and include lesson demonstrations and observations. Graduate students will prepare their final portfolios for submission during this course.  

**Prerequisite(s):** ED641  
**Credits:** 3

**ED652 - English Language Learners Practicum**

This course provides a supervised clinical experience in which candidates acquire experience in planning for and working with English Language Learner students in various instructional settings in both elementary and secondary schools. Candidates will collaborate with other educators in the school environment to support student learning.  

**Credits:** 3

**ED699 - Final portfolio continuous enrollment**

This course is to be arranged with the Director of Graduate Programs when additional time is needed to complete final portfolio requirements. (Offered in 16-week format). May be repeated.  

**Prerequisite(s):** ED651  
**Repeatable for Credit** Yes  
**Grade:** PF  
**Credits:** 1

**ED700 - Thesis Proposal**

This course is designed as the first part of the thesis option sequence. Students are expected to prepare a formal proposal related to an area of interest for research under the direction of a committee chair and according to Graduate School requirements. At a minimum, the research proposal should clarify the thesis statement and methodology (including the data gathering instruments and data analysis techniques) and provide an effective overview of the scholarly literature that sets the foundation for the thesis. (Offered in 16-week format)  

**Credits:** 3

**ED701 - Thesis**
This course is designed as the final sequence of the thesis option. Following approval of the thesis proposal, students will begin the data collection phase of the research project. The thesis may be conducted using quantitative, qualitative or participatory action research methods. An oral defense of the written thesis must be satisfactorily completed and approved by members of the committee, and the senior academic officer of the School. The thesis in its final version must be submitted to the Graduate School. *(Offered in 16-week format)*  
**Credits: 3**

**ED705 - Foundations & Organization of Educational Leadership**  
This course is designed to give the prospective school leader historical and foundational theory and practice of leadership skills, and knowledge of the role of the educational administrator in guiding an educational system through the political, social, organizational cultural, ethical and economic processes.  
**Note:** Field experience will be required.  
**Credits: 3**

**ED706 - Administration of School Policy and Governance**  
This course is designed to develop an understanding of school governance and an analysis of school policies and regulations. Students will examine current issues and problems of school governance and the impact on district and building operations. The course includes an overview of state and federal programs.  
**Note:** 20 hours of field experience will be required.  
**Credits: 3**

**ED710 - School District Supervision of Instruction & Assessment**  
This course is designed to examine the roles and responsibilities of building and district school administration in the area of instructional leadership to include supervision of instruction, data collection and assessment of data as it relates to student achievement, and professional and team development.  
**Note:** A 20-hour field experience component is required.  
**Credits: 3**

**ED711 - Administration of Curriculum**  
This course is designed to study curriculum construction and development from a building and district perspective. It will examine how to differentiate curriculum to meet the needs of all students, and investigate and analyze current and innovative instructional programs.  
**Note:** A 20-hour field experience component is required.  
**Credits: 3**

**ED720 - Educational Research & Evaluation**  
This course includes discussion of basic statistical concepts and procedures that form the foundation for interpreting and analyzing the results of standardized tests and using the results of this analysis for school improvement purposes. The course will address specific assessment and research data relevant to state of Missouri and provide the student the opportunity to implement knowledge and skills through case-based practices.  
**Note:** Field Experience is required.  
**Credits: 3**

**ED721 - School Finance**  
This course will provide leaders with a broad understanding and overview of school finance issues at the local, state and national levels, including the study of school budgeting procedures, payroll management, taxes and tax rates, revenues and expenditures. The Missouri Uniform Accounting System for Public School will be reviewed.  
**Note:** Field experience will be required.  
**Credits: 3**

**ED730 - Advanced School Law**  
This course will delve into constitutional, statutory and case law that relates to all staff personnel, students, school district and other allied governmental units. Students will investigate, analyze and discuss these areas as well as the study of contracts, dismissals, tenure, retirement, pupil injuries, liability of school personnel, school district and board members’ legal rights and responsibilities. This includes the basic study of developing and implementing educational policy.  
**Credits: 3**
ED731 - Human Resource Administration

This course will focus on statutory and procedural issues involved with Human Resource administration. These topics will be included: Recruitment, selection, placement, induction, staff development, appraisal, compensation, negotiation, employment conditions, employment data, support staff, formal and informal negotiations, and empowerment of staff, policies and procedures.

Note: Field experience will be required Credits: 3

ED740 - School & Community Relations

This course will prepare administrators to work in the area of public relations by developing effective interpersonal skills with all district stakeholders, the community, media, school board relationships, and management teams. The course includes developing skills to manage and resolve conflict constructively.

Note: A field experience will be required. Credits: 3

ED741 - School Plant & Operations Management

This course will examine effective planning, designing, construction, management, safety and maintenance of educational facilities. This includes the effective use of space for instructional programs, modernization of facilities and the daily operations of district and property grounds.

Note: A field experience will be required. Credits: 3

ED770 - Internship & Field Experience

This course is designed to provide students with the opportunity to practice knowledge, skills and dispositions necessary to provide effective leadership at the school district level. The student will select, perform and complete activities aligned with the Missouri Superintendent Standards and the Professional Standards for Educational Administration. The 16-week course requires 120 contact hours in a district-level setting under the supervision of university faculty and one or more practicing district-level administrator.

Note: Hours of Field Experience minimum 200 hours Credits: 3

ED799 - Thesis Continuous Enrollment

This course is to be arranged with the Director of Graduate Programs when additional time is needed to complete thesis requirements. (Offered in 16-week format)

Repeatable for Credit may be repeated Credits: 1

EDU110 - Geometry for Teachers

Crosslisted: MA110 A consideration of selected topics from basic Euclidean geometry with emphasis on proper terminology and unification of concepts. Techniques available for teaching the basics are discussed.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDU203 - Educational Psychology

This course surveys theories in psychology associated with the emotional, social, moral, and cognitive development of K-12 students. Specific attention is given to application of theory to the teaching and learning process of diverse student populations.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDU207 - Technology in Education

This course provides an introduction to how technology can support pedagogy, including inquiry-based learning collaboration, and the design of high-quality lessons for a community of learners. Various forms of technology operations and technological resources will be introduced as tools to enhance the teaching and learning process.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDU210 - The School as a Social System

This course provides a broad overview of the development of U.S. educational systems with an emphasis on the legal and ethical foundations
that govern the profession of teaching. Complex sociological influence; local, state, and federal policies; and the ever-evolving roles of educator’s legal and ethical rights, and professional responsibilities are also examined.

Fulfills: LE Social Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDU300 - Writing in Education

This course is the departmental equivalent for the third course in the required writing sequence at Park University. This course emphasizes professional writing skills and expectations for those preparing to teach. Emphasis will be placed on language arts competencies that focus on the four most important types of writing teachers will use; reflection, analysis, persuasion and procedure. A grade of "C" or higher is required.

Prerequisite(s): EN105 and EN106 with at least a "C"
Fulfills: Professional Writing
Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDU310 - Issues in Diversity and World Cultures

This course deals with issues of equity and justice in education including gender, race, religion, class, age, sexual orientation, and issues faced by learners who are culturally and linguistically diverse. Teacher candidates will be exposed to educational situations that challenge stereotypes of society. They are expected to engage in deep reflection and critical analysis of culturally-responsive teaching and the impact of diversity in the school setting.

Fulfills: Writing Intensive, LE Ethics
Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDU315 - Children and Young Adult Literature

This course will survey traditional and modern literature for children and young adults. Quality literature will be emphasized and multiculturalism highlighted. Candidates will determine criteria for selecting and evaluating this literature and develop techniques/resources to incorporate it in their teaching. Candidates will learn how to conceptually organize the literature for teaching reading in various content areas.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: EDE311

EDU336 - Foundations of Special Education

The course serves as an introduction to the special education profession including an examination of the historical, philosophical, and legal foundations of special education, components necessary for effective collaboration and consultation with parents, school personnel and other professionals in person-centered planning, related multicultural values, ethical and legal issues, the characteristics of students with exceptional learning needs exceptionalities, and the process and procedures for providing special education services to meet the educational, social, and personal goals for student with disabilities exceptionalities as defined in their Individual Education Programs, Response to Intervention (RtI) will be included. Behavior Intervention Plans, and/or Individual Transition Plans. The recommended practices of the Council for Exceptional Children will serve as the foundation for understanding the roles, knowledge and competencies of the special educator.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDU345 - Teaching Linguistically and Culturally Diverse Learners

In this course, teacher candidates will learn principles of second language acquisition and characteristics of dialects to promote content-area learning and academic-language development for English language learners (ELL) and students who are culturally diverse in grade K-12 classrooms. Particular attention will be given to methods and strategies for planning, implementing and assessing effective instruction for ELL and students who are culturally diverse.

Fulfills: 4+1
Lecture Hours: 3 Lab Hours: 0 Credits: 3

EDU347 - Family, School and Community Collaboration

This course is designed to support student development of communication, collaboration and consultation skills and strategies with diverse communities. Students will learn to create and maintain effective partnerships with families,
professionals and community stakeholders including linking families with community relationships.

**Fulfills:** 4+1  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**EDU351 - Strategies for Higher-Order Learning**

This course will examine effective instructional strategies to promote higher-order thinking skills within unit and lesson design and formative and summative assessment, with an emphasis on developing knowledge of the Missouri Learning Standards.

**Prerequisite(s):** Admission to the School of Education.  
**Note:** Recommended simultaneous enrollment with Field Experience I.  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**EDU356 - Assessment in Special Education**

This course examines how assessment is used to make specific legal and instructional decisions about students with exceptionalities during each of the assessment steps in the special education process, including screening, referral, determining eligibility, program planning (Individual Education Programs, Behavior Interventions Plans, and/or Individual Transition Plans), program monitoring, and program evaluation. Candidates will critique the appropriate uses and limitations of various types of informal and formal assessments of behavior, learning, achievement, and environment to individualize learning experiences that support the growth and development of students with exceptionalities. Co-teaching and class within a class will be highlighted.

**Prerequisite(s):** Admission to the School of Education.  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**EDU360A - Field Experience I**

This field experience supports the integration of teacher knowledge, skills, and dispositions in observation and application of classroom management, professional practices, and instructional techniques in an Art or Spanish classroom.

**Prerequisite(s):** Admission to the School of Education.  
**Corequisite(s):** Concurrent enrollment in EDU356  
**Note:** Recommend simultaneous enrollment with EDS358, EDU351 and EDU362.  
**Lecture Hours:** 0  
**Lab Hours:** 2  
**Credits:** 2

**EDU360B - Field Experience II**

This field experience supports the integration of teacher knowledge, skills, and dispositions in observation and application of classroom management, professional practices, and instructional techniques in an Art or Spanish classroom.

**Prerequisite(s):** Admission to the School of Education.  
**Lecture Hours:** 0  
**Lab Hours:** 2  
**Credits:** 2

**EDU360C - Field Experience SPED I**

This course is designed to provide Park University students with authentic experiences with exceptional students and special education teachers in the schools. The Park University students will have the opportunity to participate as instructors with individual and/or small groups of exceptional youths.

**Prerequisite(s):** Admission to the School of Education.  
**Corequisite(s):** Concurrent enrollment in EDU375  
**Lecture Hours:** 0  
**Lab Hours:** 1  
**Credits:** 1

**EDU360D - Field Experience SPED II**

This course is designed to provide Park University students with authentic experiences with exceptional students and special education teachers in the schools. The Park University students will have the opportunity to participate as instructors with individual and/or small groups of exceptional youths.

**Prerequisite(s):** Admission to the School of Education.  
**Corequisite(s):** EDU360B  
**Lecture Hours:** 0  
**Lab Hours:** 1  
**Credits:** 1

**EDU362 - Observation, Assessment and Data-based Decision Making**
This course provides an overview of formative and summative assessment methods that can be used across content areas to gather, analyze, and interpret data to improve instruction and maximize student learning.

**Prerequisite(s):** Admission to the School of Education.

**Fulfills:** 4+1

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EDU366 - Methods of Teaching Students with Cross-Categorical Disabilities**

This is a methods course designed to develop and enhance the students' knowledge and skills of curricular and instructional methodologies used in the teaching of children and youth with mild/moderate cross-categorical disabilities who are typically served in resource rooms and in inclusive classroom settings. The application of classroom practices, teaching strategies, effective interactions, and instructional accommodations/modifications will be included. Autism behavior interventions and practices will be highlighted.

**Prerequisite(s):** Admission to the School of Education.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EDU375 - Exceptional Children & Differentiated Learning**

This course is an introduction to pedagogical, legal legislation, curricular, and social considerations involved in educating diverse learners in the general education classroom. Throughout the course, we analyze characteristics of individuals whose cognitive, physical, or emotional development differs from typical individuals. We will explore individuals with exceptionalities, the special education process, individualized education plans, and curriculum differentiation.

**Prerequisite(s):** Admitted to the School of Education.

**Fulfills:** 4+1

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EDU384 - Meeting Literacy Needs of All Learners**

This course prepares teacher candidates to individualize instructional practices for elementary, middle and high school students with reading deficits.

**Prerequisite(s):** Admission to the School of Education.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EDU388 - Methodology in Content Area**

The purpose of this course is for teacher candidates to identify and practice content literacy, instructional methods and assessment strategies in the area of certification.

A. Art  B. Spanish

**Prerequisite(s):** Admission to the School of Education.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EDU400 - Independent Reading in Education**

A course designed to meet individual interest areas in the field of education.

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-3

**EDU410 - Field Experience III**

This course is composed of a directed teaching and seminar experience. Seminar is designed to provide personal and professional support during a teacher candidate’s directed teaching experience. Seminar begins with intensive training focused on co-teaching strategies and the MEES evaluation tool followed by weekly meetings throughout the semester. Teacher candidates are placed in a K - 12 school setting under the supervision of a cooperating teacher and university supervisor, assuming the role and responsibilities of lead teacher in-and-out of the classroom.

**Prerequisite(s):** For K-12 Art or Spanish EDU360A with at least a grade of "B." For K-12 Mild/Moderate Cross-Categorical Disabilities EDU360A, EDU360B, EDU360C, and EDU360D with at least a grade of a "B."

**Lecture Hours:** 2  **Lab Hours:** 10-12  **Credits:** 12-14

**EDU457 - Language Development of the Exceptional Child**
This course examines theoretical positions, assessment techniques, and planning and teaching procedures relevant to preparing students with disabilities. Emphasis is placed on exploring the impact of disabilities and second language acquisition on language development and the interdependence of speaking, listening, reading, and writing. The course will link all aspects of language to literacy skills since language is the foundation of those academic outcomes. The course includes an examination of the characteristics and etiology of children and youth with language disabilities, the language characteristics associated with various types of disabilities, formal and informal evaluation procedures, and intervention strategies appropriate for those with language delays, impairments, and deficits.

Prerequisite(s): Admitted to the School of Education.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

English

EN105 - First Year Writing Seminar I: Critical Reading, Writing and Thinking Across Contexts

An introduction to the recursive processes of writing, the course will emphasize discovery and writing-as-thinking. Students will engage various personal and academic genres, with attention to analyzing the audience and purpose for different writing situations. Course readings expose students to a variety of genres and topics from a range of cultural contexts to promote critical thinking and dialogue. Peer response, reflection and revision are emphasized through a summative course portfolio.

Fulfills: GEM
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: ENG101, EN101

EN106 - First Year Writing Seminar II: Academic Research and Writing

The course provides sustained experience with the research and writing tasks common in the academy. Students will explore various academic genres, with particular focus on learning to undertake academic inquiry; engage in close reading; incorporate research into their writing; and document sources. Peer response, reflection

Prerequisite(s): EN105 or equivalent
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: ENG102, EN102

EN115 - Writing Studio I

The course enhances student engagement in reading, writing, and thinking across contexts, in close support of students' work in concurrent sections of EN105. Class time will provide students with additional time and experience in small-group workshops, individual conferencing, open writing time, and inquiry into writing conventions.

Corequisite(s): Taken only in conjunction with EN105.
Lecture Hours: 1 Lab Hours: 0 Credits: 1

EN116 - Writing Studio II

The course provides students additional time and experience with academic reading and writing, in close support of students' work in concurrent sections of EN106. Topics will include strategies for conducting library research, effective use of sources, knowledge of academic writing genres and conventions, and approaches to revisions.

Corequisite(s): Taken only in conjunction with EN106.
Lecture Hours: 1 Lab Hours: 0 Credits: 1

EN201 - Introduction to Literature

Introduction to concepts and vocabulary involved in literary analysis. Develops skills in reading, interpreting, and writing about literature and surveys some of the major literary concerns and movements.

Fulfills: Writing Intensive, LE Humanities, GEM
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: ENG201

EN204 - Writing for Online Environments

Students will develop rhetorical skills appropriate to drafting, designing, and publishing online compositions. Students will explore typical web genres and formats, editing techniques, and established and emerging technologies, including
social media. The course will emphasize the challenges new media presents to professionals' understanding of writing, design, and audience analysis.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN205 - Introduction to English Studies**

An introduction to academic study in English, this course introduces students to the basic elements of literary analysis and theory and to intellectual issues relevant to the study of language, literature and culture. Students will develop the academic skills and habits of mind needed to successfully engage in advanced studies in literature and writing. The course involves opportunities for engagement in campus and local literary organizations/events.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN207 - Professional and Technical Editing**

An introduction to professional editing practice and principles, with an emphasis on technical editing. Students will learn to proofread and edit using professional copy-editing tools and mark-ups and will learn to edit with attention to the audience and purpose for different writing situations. In addition to editing for grammar, punctuation, and style, students will learn how to evaluate documents for readability and usability, as well as document design, organization, and consistency.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN221 - African-American Literature**

An introduction to major African-American writers from the earliest expressions to the present. An examination of the cultural milieu from which the writing arose, the ideological stance of each writer studied, and the styles and structure of the works considered.

**Fulfills:** Writing Intensive, LE Humanities  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** EN221

**EN231 - Introduction to Language**

As an introduction to a general study of language, the course deals with the origin, nature and function of language as a uniquely human phenomenon. The history of English language and a survey of approaches to the analysis of languages are important components.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN232 - Introduction to Poetry**

An introduction to concepts, techniques, and vocabulary involved in the literary analysis of poetry. The course involves a study of poetic works written in English and in translation.

**Fulfills:** Writing Intensive, LE Humanities, GEM  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** EN331

**EN233 - Introduction to Drama**

A study of dramatic literature with emphasis on Anglo-American drama.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** EN332

**EN234 - Introduction to Fiction**

Close reading of selected works of English and American prose fiction, emphasizing the historical development of the novel and short story.

**Fulfills:** Writing Intensive, LE Humanities, GEM  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** ENG333, EN333

**EN304 - Special Topics in Writing and Rhetoric**

A seminar course treating various topics of contemporary interest in writing and/or rhetoric.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN305 - Special Topics in Literature**

A literature seminar course treating various topics of contemporary interest.

**Repeatable for Credit** Yes  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN306* - Professional Writing in the Disciplines**
This course is the third course in the required writing sequence at Park University. It emphasizes professional writing skills and expectations in various disciplines while developing further basic writing skills. Specific departmental courses may be deemed equivalent and will be used to satisfy this course. The course will have three sections as follows: Scientific and Technical Writing This course helps students do scientific and technical research and prepare reports that will address the needs of various audiences in science, government, and industry. Business Communications This course will emphasize knowing and preparing various kinds of communications in business and related fields: business letters, reports, proposals, surveys, field studies, visual aids, group presentations, and public lectures. Advanced Expository and Research Writing This course develops further skills in advanced expository writing: long essays or articles for publication in journals or trade magazines, arts or literary publications, the teaching of writing, and general critical or argumentative pieces. This course helps students do scientific and technical research and prepare reports that will address the needs of various audiences in science, government, and industry. 

Prerequisite(s): EN105 and EN106
Fulfills: Professional Writing
Lecture Hours: 3 Lab Hours: 0 Credits: 3

EN306B - Business Communications

**Prerequisite(s):** EN105 and EN106

**Fulfills:** Professional Writing

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** EN300C

**EN307 - Professional Writing in English Studies**

Experience in research, writing, and editing in the professional context of contemporary work in English studies.

**Prerequisite(s):** EN105 and EN106

**Note:** ONLY fulfills EDU300 requirement for Secondary Education, English Concentration, B.S.E.

**Fulfills:** Professional Writing

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** ENG311

**EN311 - Creative Writing**

Writing workshop in creative genres, including fiction, poetry and playwriting.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** ENG311

**EN315 - Knights and Ladies, Priests and Peasants**

A survey of major authors and works from the medieval beginnings of English literature to approximately 1700. Special attention to Chaucer, Spenser, Shakespeare, and Milton.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN316 - Revolution and Empire: British Literature from 1660-1900**

A survey of major authors, works, and movements from approximately 1660 to 1900. Special attention to the Romantic and Victorian periods.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN317 - American Literature from Puritans to Abolitionists**

Study of significant American writers from the colonial period through the Civil War with attention to the historical and cultural contexts of their works.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** ENG317

**EN318 - Dreams and Identities: American Literature from 1865 to Today**

Study of significant American writers from the Civil War to the present with attention to the historical and cultural contexts of their works.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** ENG318

**EN320 - Young Adult Literature**

A study of young adult literature, especially novels intended for readers ages 12-18. Students will apply literary analysis and interpretation to their reading of these works to determine the validity of young adult literature as a genre in the broader literary tradition.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN324 - Modern British and European Literature**
This course focuses on British and European literature from the twentieth- and twenty-first centuries with emphasis on the cultural/historical contexts.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN325 - Modern Grammar**

This course concentrates on modern approaches to English grammar and its teaching after a brief historical perspective of transformational, structural, and traditional methodologies.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** ED325

**EN340 - Shakespeare Then and Now**

An examination of major comedies, histories, tragedies, primarily in performance on the original stage and in modern film.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** EN440

**EN341 - Literature and Film**

Investigation of the relationship between written literature and the moving image of film and video as media for both narrative and lyrical expression, with close study of selected examples.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** ENG341

**EN354 - Reading and Writing Nonfiction Prose**

A study of creative nonfiction prose for English majors concentrating in writing, and for other serious students of advanced writing. Emphasis will be on reading at least 2-3 major works of nonfiction prose and on student writing.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN355 - International Literature**

The course discusses ethnic literary expressions from around the world, including works in translation.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** ENG355

**EN356 - Women's Literature**

A study of literary works by and about women which will encourage students to explore the historical, political, and social contexts in which women live and write.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN370 - History and Practice of Rhetoric**

This course introduces students to the main movements, figures, theories and key terms in the history of rhetoric, with a focus on how the rhetorical tradition bears on reading, writing and textual analysis.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN380 - Literary Theory and Criticism**

An examination of key questions in contemporary theory and its historical roots, along with the practice of literary criticism today. English Majors only.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** EN480

**EN384 - Professional Learning Experience for English**

Designed to support successful completion of an on- or off-campus internship by providing academic readings, research, and dialogue to enhance the experiential learning. At least one semester prior to enrolling, the student must submit a description of the internship and proposed academic complement for approval by his/her faculty mentor.

**Prerequisite(s):** Junior or senior status.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**EN387 - Theory and Teaching of Writing**

An introduction to composition theory, the course will engage students in the study of writing. Some consideration will be given to theories which overlap in composition and literature. Students will produce a major writing project, which will include a self-reflective analysis of their process.

**Prerequisite(s):** EN105 and EN106

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3
EN411 - Advanced Creative Writing

This course develops advanced creative writing skills by focusing exclusively on one literary genre. Students will participate in writing workshops; undertake close critical analyses of their own work and the works of others; and explore the techniques, conventions, and structures of the focus genre.

Prerequisite(s): EN311
Lecture Hours: 3 Lab Hours: 8 Credits: 3

EN490 - Capstone Seminar

The seminar is the culminating experience for English majors in which they demonstrate proficiency in the English program competencies by compiling a portfolio of work completed in the program and completing a longer scholarly project on a topic of their choice related to English studies. Students will get instruction and support in developing longer, self-sponsored scholarly projects, including project development, research, drafting, feedback, and revision. The final capstone project will be finalized in a 12-15 page scholarly paper and a conference presentation.

Fulfills: Writing Intensive,
Lecture Hours: 3 Lab Hours: 0 Credits: 3

EN515 - Readings for Writers

The course studies the processes involved in crafting imaginative literature, with a close focus on examples of writers deliberating on the various methods and techniques of prose narrative. The course investigates fiction and nonfiction prose, and encourages students to experiment in both genres in order to identify a preferred focus genre in the program.

Credits: 3

EN516 - Creating Fiction

This studio course presents a craft-based approach to the structure, development and technique of fictional narratives. The primary texts in the course are student manuscripts, and a premium is placed on revision and peer/instructor evaluation.

Prerequisite(s): EN515
Credits: 3

EN517 - Advanced Fiction Writing

This advanced studio course will focus on the development and elaboration of a craft-based approach to creating fictional narratives and culminate in the creation of a heavily revised work of publishable quality.

Prerequisite(s): EN515 and EN516
Credits: 3

EN518 - Creative Nonfiction

This studio course presents a craft-based approach to the structure, development and technique of nonfiction narratives. The primary texts in the course are student manuscripts, and a premium is placed on revision and peer/instructor evaluation.

Prerequisite(s): EN515
Credits: 3

EN519 - Advanced Creative Nonfiction

This advanced studio course will focus on the development and elaboration of a craft-based approach to the genre and culminate in the creation of a heavily revised work of publishable quality.

Prerequisite(s): EN515 and EN518
Credits: 3

EN525 - Writing for Publication

This course is an investigation of the requirements and best practices of literary publication. The course will present students with the various methods of publication available to creative writers, and address particular trends and conventions of the publishing industry. The course culminates in the development of a publication portfolio.

Prerequisite(s): (EN515, EN516 and EN517) or (EN518 and EN519)
Credits: 3

Finance

FI201 - Personal Financial Management

A study of individual and family financial management concepts and techniques which
assist persons to become informed consumers and efficient managers of personal resources.

**Fulfills:** LE Social Science

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MGT201, MG201

**FI325 - Risk and Insurance**

An introduction to the basic principles of insurance and risk management from the perspective of the individual and family consumer; consideration is given to business risk management.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MGT325, MG325

**FI360 - Financial Management**

The role of financial management through the development of a framework appropriate for financial decision making. Emphasis on obtaining and effectively utilizing the funds necessary for the operation of an enterprise. Elements of financial planning, capital budgeting, and consideration of alternative sources of funds.

**Prerequisite(s):** AC201. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MGT360, MGT360

**FI363 - Financial Institutions and Markets**

A study of the macrofinancial environment with emphasis on the structure, functions, and economic role of financial institutions and markets. This includes the role of commercial banks, the central banking system and international finance.

**Prerequisite(s):** EC301. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MG363, MGT363

**FI370 - Investment Planning**

Overview of various investment alternatives, selection criteria, portfolio management, and financial markets. Emphasis on economic environment, fundamental and technical analysis, sources of information, and the efficient markets concept for risk management.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**FI380 - Financial Counseling**

This course provides an overview of the financial counseling process, techniques and strategies in leading clients through the challenges of debt reduction and achievement of their financial goals, and understanding the current resources, tools, and opportunities available in the financial counseling field. This is one of courses that can prepare students to pursue certification by the AFCPE® as an Accredited Financial Counselor.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**FI400 - Special Topics in Finance**

This course consists of the study and analysis of some major aspect(s) of finance concepts at the senior level.

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-3

**FI410 - Problems in Corporate Finance**

A study of selected problems in financial management including short and long-term financial analysis and planning, trade-credit analysis, capital budgeting; use of case analysis.

**Prerequisite(s):** FI360. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MGT410, MG410

**FI415 - Financial Analysis and Planning**

Analysis of the financial aspects of corporate business planning, evaluation of financial performance, valuation analysis, risk analysis, management of growth.

**Prerequisite(s):** FI360. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MGT415, MG415

**FI417 - Investment Analysis and Management**

A study of investment alternatives, selection criteria, and portfolio management. Emphasis is placed on economic, financial, and market factors which affect the values of alternative investments, while studying risk management associated with
investment management.

**Prerequisite(s):** FI360. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MGT417, MG417

**FI419 - Retirement and Employee Benefit Planning**

A course that provides an in depth exploration of two important aspects of financial planning. Students will learn the various alternatives available in planning for retirement, including qualified and non-qualified retirement plans and social security. Additional topics of study are the advantages and costs of employee benefit plans, including non-pension benefits. Healthcare planning, Medicare and ethical issues will be included.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**FI420 - Estate Planning**

In this course, students apply estate planning in personal financial planning. This course is designed to provide students with an understanding of the concepts of the fundamentals of estate planning, estate planning considerations and constraints, tools and techniques for general estate planning, and the tools and techniques for special estate planning situations.

**Prerequisite(s):** AC309, FI325, FI417, and FI419. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** FI416

**FI423 - Professional Financial Planning**

This course centers around the principles, concepts, ethics and applications of financial planning for the professional planner working with individuals, families or businesses. Analytical procedures will be taught and cases used to illustrate the determination of financial goals, appropriate product selection, and planning process implementation necessary to accomplish goals.

**Prerequisite(s):** FI325, FI419, FI420 and AC309. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**FI424 - Personal Financial Planning Capstone**

FI424 will be a continuation of the comprehensive written financial plan started in FI423, with emphasis on a comprehensive understanding of content in the PFP curriculum, including retirement planning and estate planning. The student will complete case studies and continue development of the sections of the written financial plan related to content areas covered in the course. The student will submit a comprehensive written financial plan for evaluation by the course instructor. In addition, the student will orally present a summary of the plan for evaluation.

**Prerequisite(s):** FI423. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**FI425 - Principles of Real Estate**

A study of real property, its legal title, transfer, ownership, finance, and management.

**Prerequisite(s):** FI360. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MGT425, MG425

**FI430 - Public Financial Management**

A study of financial functions performed in public and not-for-profit organizations with emphasis on financial reporting, budgeting, and accounting processes.

**Prerequisite(s):** AC201 and AC202. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MGT430, MG430

**FI451 - Finance Internship**

The internship must provide an applied/practical experience consistent with a career position filled by a college graduate. The internship will be approved and overseen by the Finance Program Coordinator (PC) or a business faculty member approved by the PC. An experience paper is required. One credit hour will be earned by 40 hours of experience connected to the internship
FIN621 - Advanced Corporate Finance

The objective of this course is to study the major decision-making areas of managerial finance and some selected topics in financial theory. The course reviews theory and empirical evidence related to investment and financing policies of a firm and attempts to develop decision-making in these areas. This course serves as a complement and supplement to MBA615 Managerial Finance. Some areas of financial management not covered in MBA615 are covered in FIN621. These may include leasing, mergers and acquisitions, corporate reorganizations, financial planning and working capital management, and other selected topics. Other areas that are covered in MBA615 are covered more in-depth and more rigorously in this course. These include investment decision-making under uncertainty, cost of capital, capital structure, pricing of selected financial instruments and corporate liabilities, and dividend policy.

Prerequisite(s): HA516 (MBA615)
Credits: 3

FITNESS AND WELLNESS

FW122 - Human Nutrition

An introductory course in nutrition and bioenergetics. The course explores nutritional guidelines for healthy eating in adults. The biological roles of macro- and micro-nutrients is emphasized as well as regulation of energy metabolism.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

FW190 - Health, Sport, & Exercise Science

Explores disciplines and careers within health, fitness, sport, and physical rehabilitation. The course includes foundational terminology, scientific principles, & historical perspectives. Students will prepare to navigate an educational...
path to their desired career.
Fulfills: Writing Intensive,
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**FW200 - Resistance Exercise Instruction**

Explores detailed techniques, teaching progressions, and safety considerations for barbell, dumbbell, and bodyweight exercises. In this hands on course students will advance their own movement skill as well as practice the professional instruction, correction, and modification of resistance exercises to meet client needs.

*Note:* Fitness & Wellness majors only or approval by the program director. Lecture Hours: 3 Lab Hours: 0 Credits: 3

**FW225 - Kinesiology**

A course that studies the principles and concepts of human movement, anatomical structures, directional terms and cardinal planes, classification of joints, and biomechanics; including active, passive, and resisted movements to all major joints in the body.

*Prerequisite(s):* BI210 or BI211 or concurrent enrollment
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**FW231 - First Aid/CPR**

The practice of first aid and cardiopulmonary resuscitation skills. Emphasis will be on life saving emergency skills, accident prevention, first aid, AED training, and transportation of the sick and injured. A standard first aid and emergency cardiac care certification will be awarded to those who qualify.

*Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: AT225, AT236

**FW250 - Exercise Physiology**

A study of the physiological adjustments that occur within the body during after exercise. Emphasis is placed on the circulatory, respiratory, and musculoskeletal, nervous, and endocrine systems and training adaptations.

*Prerequisite(s):* BI211
*Note:* FW250L Exercise Physiology Laboratory is available as a separate enrollment.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**FW250L - Exercise Physiology Laboratory**

Explore physiological laboratory assessments, data analytic, and research communications that reinforce the concepts of exercise physiology.

*Corequisite(s):* FW250
Lecture Hours: 0 Lab Hours: 3 Credits: 1

**FW260 - Strength and Conditioning**

Apply the principles and methods of exercise training to enhance sports performance. This course covers general adaptation, warm-up, flexibility, resistance exercise, plyometrics, agility drills, speed, and aerobic endurance training. Students will learn to perform needs analyses and write short term and periodized training programs.

*Prerequisite(s):* FW200 or FW250
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: AT275, FWR150

**FW275 - Introduction to Sport Management**

Examine the management strategies and issues in operating a sports business or organization. Sports marketing, legal and ethical issues, facilities management, event management, and sponsorships will be addressed.

*Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: FWR250

**FW300 - Concepts in Strength and Conditioning**

An examination and implementation of strength training. Maximum benefits and body adaptation will be presented, and the safety features will be explained and implemented.

*Prerequisite(s):* FW260
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: FWR300

**FW310 - Advanced Conditioning**
An in depth examination of the physiological principles that must be considered when designing and implementing conditioning programs to enhance athletic performance.

**Prerequisite(s):** FW260

**Lecture Hours:** 3

**Lab Hours:** 0

**Credits:** 3

**History:** FWR310

---

**FW315 - Stress & Wellness: Current Approaches**

A detailed course covering the physiology of stress and its relationship with disease. The course will be centered around the psychosomatic and physio-psychological relationships within stress & its management. Holistic and body centered approaches to stress management will be emphasized. Students will both examine scientific research and practice various techniques of coping and stress management. Students will learn to manage their own personal stress as well as the techniques to assist others in stress management.

**Lecture Hours:** 3

**Lab Hours:** 0

**Credits:** 3

---

**FW320 - Fitness Management**

A detailed study of the dynamic environment of a fitness & wellness business. Emphasis is placed on the management strategies necessary for successful, safe, and ethical operation of a fitness business.

**Lecture Hours:** 3

**Lab Hours:** 0

**Credits:** 3

---

**FW325 - Motor Skill Development**

This course focuses on the development of motor skills across the lifespan. Emphasis is placed on identifying and aiding individuals who have motor deficits or other constraints that impede acquisition or execution of various movement patterns.

**Prerequisite(s):** FW250

**Lecture Hours:** 3

**Lab Hours:** 0

**Credits:** 3

**History:** FWR325

---

**FW350 - Exercise Testing and Prescription**

A laboratory course that covers exercise test administration, results interpretation, and exercise prescription based on ACSM guidelines. Aerobic Fitness, muscular strength and endurance, balance, flexibility, & body composition will be addressed. Professional communication skills will be advanced through client interactions & practical examinations.

**Prerequisite(s):** FW200 and FW250

**Lecture Hours:** 3

**Lab Hours:** 3

**Credits:** 4

---

**FW360 - Athletic Injuries**

A wide variety of athletic injuries, mechanisms of injury, prevention strategies, and therapies will be discussed. This course will help students to respond to injuries as exercise professionals and understand the scope of practice for the various members a sports medicine team.

**Prerequisite(s):** FW225

**Lecture Hours:** 3

**Lab Hours:** 0

**Credits:** 3

**History:** AT140, FW140

---

**FW375 - Special Populations Exercise**

Develop appropriate exercise prescriptions for children, elderly, pregnancy, and persons with chronic diseases. The developmental & pathophysiology of each state is explored as a foundation for ACSM recommended modifications to the exercise prescription.

**Prerequisite(s):** FW350 or concurrent enrollment

**Lecture Hours:** 3

**Lab Hours:** 0

**Credits:** 3

---

**FW380 - Applied Health Behavior**

Examines personal, social, and environmental influences on health behavior. The course includes both psychosocial theories and applied intervention skills with emphasis on the trans-theoretical model of behavior change and motivational interviewing. Students will design health promotion interventions and practice client interactions.

**Prerequisite(s):** PS101

**Lecture Hours:** 3

**Lab Hours:** 0

**Credits:** 3

---

**FW395 - Special Topics in Fitness and Wellness**

A detailed study and analysis of a major concept, development, or trend in fitness and wellness.

**Lecture Hours:** 1-4

**Lab Hours:** 0

**Credits:** 1-4
FW400 - Internship in Fitness and Wellness

All internships must be approved before the internship begins. The internship will consist of observation and work in a professional environment and must reflect appropriate work for a college graduate. Students may use internship to observe in a clinical professional such as a physical therapist or chiropractor only if they intend to enter graduate study in that profession immediately upon graduation. Students will work with their site supervisor and their internship instructor to create learning objectives and plan skill building activities to complete within the internship. Students will reflect on their completed internship experience and professional development in a written essay.

Prerequisite(s): Junior standing
Repeatable for Credit

Lecture Hours: 0 Lab Hours: 0 Credits: 3-6

GGH200 - Geography of North America

This introductory course is designed to closely examine variations in cultural and physical differences in North America. Topics will include water supply, climate, dialect, economics, and population.
Fulfills: LE Social Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3 History: GG200

GGH201 - Geography of Africa

This comprehensive course will study the physical and cultural geography of the regions of the African continent. Topics will include: neocolonialism, slavery, health issues, environmental problems, population, and current political geographical issues.
Lecture Hours: 3 Lab Hours: 0 Credits: 3 History: GG201

GGH202 - Geography of Latin America

This comprehensive course will study the physical and cultural geography of the regions of the South American and Middle American Realms. Topics will include: the economic climate, environmental problems, population, and current political geographical issues.
Lecture Hours: 3 Lab Hours: 0 Credits: 3 History: GG202

GGH203 - Geography of Europe

This comprehensive course will study the physical and cultural geography of the regions of the European continent. Topics will include: economic problems, environmental problems, population dynamics, and current political geographical issues.
Lecture Hours: 3 Lab Hours: 0 Credits: 3 History: GG203

GGH204 - Geography of Asia

This comprehensive course will study the physical and cultural geography of the regions of the Asian continent. Topics will include: economic problems, environmental problems,
population dynamics, and current political geographical issues of South, East, and Southeast Asia.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** GG204

**GGH206 - Geography of the Middle East**

This comprehensive course will study the physical and cultural geography of the regions of the Southwestern Asia, Central Asia, and the Eastern Mediterranean. Topics will include: economic problems, environmental problems, population dynamics, and current political geographical issues.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** GG206

**GGH290 - Selected Topics in Human Geography**

This course will consist of an in-depth examination of specific areas of geography at the lower level.

**Repeatable for Credit** It may be repeated once for credit with a change of topic.

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-4  
**History:** GG223

**GGH305 - Geography of Russia**

This comprehensive course will study the physical and cultural geography of the regions of Russia and the former Soviet Union (Near Abroad). Topics will include: economic problems, environmental problems, population dynamics, and current political geographical issues involving Russia and its neighbors.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** GG206

**GGH310 - Geography of Terrorism**

This course provides an in-depth study of the geographical dimensions of terrorism and other related forms of violence. While critically examining the variety of sociocultural and environmental factors most often influencing the occurrence and nature of this phenomenon in particular places and regions, the course also provides an introduction to the sub-field of political geography, which is ultimately concerned with the spatial dynamics of power. International and global perspectives regarding concepts such as geopolitics, globalization, world-systems analysis, states, territory, boundaries, nationalism, identity, and terrorism itself are explored in order to gain a better understanding of different forms of power and expressions of politically motivated violence at various spatial scales.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**GGH312 - Military Geography**

An examination of human and physical geography and the role it plays in military planning of operations, its role in the eventual military outcomes, and a detailed analysis of how their results impacted the local and global society. Historic examples from around the world will be utilized for investigations.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**GGH323 - Urban Geography**

The course is an in-depth study of the concepts of the physical characteristics of cities and the current and future problems urbanization presents humans on a global scale.

**Repeatable for Credit** It may be repeated once for credit with a change of topic.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 1-4  
**History:** GG223

**GGH326 - Resources and People**

This course is an in-depth study of the interactions between physical systems and human activities, and their effects on the environment. Topics will include: population growth, food production, water supply, air pollution, and natural resource consumption.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** GG226

**GGH390 - Special Topics in Human Geography**

This course will consist of an in-depth examination of specific areas of geography at the upper level.

**Repeatable for Credit** It may be repeated once for credit with a change of topic.

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-4

**Physical Geography**
GGP115 - Physical Geography

Examination of the major physical elements, processes, and patterns that comprise the earth's four major spheres (atmosphere, hydrosphere, lithosphere, and biosphere) and their continuous interaction and relevance to human occupancy of the earth on a global basis. Laboratory exercises will reinforce and extend course concepts.

**Fulfills:** LE Natural Science, Science with lab
**Lecture Hours:** 3  **Lab Hours:** 3  **Credits:** 4

GGP120 - Global Sustainability

This course addresses ways in which to maximize the life experience of human beings. A case study approach will be used to study the maintenance of human capital framed in the context of environmental, economic and social sustainability inputs.

**Fulfills:** LE Natural Science
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

GGP205 - Meteorology

The study of the atmosphere and atmospheric phenomena and how they interact globally with the earth's surface, oceans, and life. In the laboratory, students will learn and use the methods used to study meteorological processes. Topics will include: controls of weather elements, energy exchange, heat/water budgets, and economic/social impacts of weather and climate.

**Fulfills:** LE Natural Science, Science with lab
**Lecture Hours:** 3  **Lab Hours:** 3  **Credits:** 4

History: GO205

GGP270 - Spatial Analysis

This course will introduce student learners to techniques for the statistical analysis of spatial data. The course will cover issues in characterizing spatial data, methods and problems in spatial data sampling and the relevant statistical tests for solving a variety of spatial problems when they are applied to 2D and 3D space.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

History: GG270

GGP290 - Selected Topics in Physical Geography

This course will consist of an in-depth examination of specific areas of geography at the lower level.

**Repeatable for Credit** It may be repeated once for credit with a change of topic.

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-4

GGP301 - Renewable Energy Technologies

This course will discuss both the need for and the specifics of energy conservation and renewable energy technologies. Passive solar design for reducing energy requirements will be covered, including solar water heating and solar cooking. The main renewable energy power systems will be discussed, including solar photovoltaics, wind and hydro. Electrical theory will be covered, as well as inverter technology for converting system output from DC to standard AC power. Both battery-based and grid-tied batteryless systems will be discussed. Students will have an opportunity to design a renewable energy system to meet the needs of a simulated home environment.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

GGP330 - Cartography

The course is designed to prepare student learners for the basics of map compilation, design, and construction. Laboratory projects involving student learner use of computers will be required.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

History: GG330

GGP335 - Remote Sensing

The course is designed to prepare student learners for the basics of using remotely sensed imagery from space. Laboratory projects involving student learner use of computers will be required.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

History: GG335

GGP340 - Environmental Planning

This course is designed to study and evaluate the air and water environments, solid waste, noise pollution, and toxic wastes for the purpose of achieving environmental quality. An emphasis
will be placed on how urbanization is impacting the environment and will be studied by interpretive maps, soil surveys, remote sensors, and computers.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** GG340

**GGP345 - Land Use Planning**

An examination and application of the methods associated with land use planning, especially in the small town and rural context. Emphasis is placed upon the tools and techniques associated with land use planning such as interpretive maps, soil surveys, remote sensors, and computers. A major focus will be the use of the land planning process in community planning. Also included is an introduction to state and local land use law in community development.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** GG345

**GGP350 - GIS I**

This course introduces the student learner to the theoretical, conceptual, and practical aspects of the collection, storage, analysis, and display of spatial data. Emphasis will be placed on the application of geographic information systems. Laboratory projects involving student learner use of computers will be required.

**Fulfills:** Writing Intensive,  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** GG350

**GGP355 - GIS II**

This course is an advanced course that will have the student learner performing theoretical, conceptual, and practical aspects of the collection, storage, analysis, and display of spatial data. Emphasis will be placed on the applications of geographic information systems. Laboratory projects involving student learner use of computers will be required.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** GG355

**GGP365 - Geography of Disease**

This course will study the origin, distribution patterns, and cultural biases of disease. Topics to be emphasized include: disease classification, spread of diseases, and major types of diseases (HIV+).

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** GG365

**GGP370 - Biogeography**

The purpose of this course is to study the distribution of plants and animals across the Earth’s surface. This Physical Geography course will expand upon principles of Ecology and Biology, and will focus on understanding ecosystem processes that impact both fauna and flora. Topics will include the study of communities, ecosystems, biomes.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** GG370

**GGP390 - Special Topics in Physical Geography**

This course will consist of an in-depth examination of specific areas of geography at the upper level.

**Repeatable for Credit** It may be repeated once for credit with a change of topic.

**Lecture Hours:** 0  
**Lab Hours:** 0  
**Credits:** 1-4

**GGP405 - Conservation GIS**

An applied geographic information systems (GIS) course focusing on theory, methods, and applications of ArcGIS software to practical problems in ecology. Topics typically covered include habitat loss, endangered species, urban development, mining, wildlife research, forestry, and landscape ecology.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**GGP450 - Internship in GIS**

The student arranges to work in a professional environment. Internship duties will be based on the needs of the cooperating business/organization. Prior to beginning the internship experience, the student and the student's intended job supervisor must jointly prepare an internship proposal specifying the objectives to be accomplished. The proposal must be submitted to the instructor and approved before any internship work takes place.

**Prerequisite(s):** GGP350 and GGP355

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3
Geology

**GO125 - Natural Disasters**

This course will study the earth's natural processes and phenomena that impact the earth. These natural impacts will be studied which result in massive damage to the earth and to its inhabitants. The course will explore how humans cope with natural disasters. Humans typically measure the damage in terms of loss of life or economic loss, but the end result is that these natural disasters influence human culture and population distribution.

**Fulfills:** LE Natural Science
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**GO130 - Astronomy**

This course will study the complexities of the universe. It will examine the physical, chemical, and meteorological aspects of the universe, including planets, suns, asteroids, and nebulas.

**Fulfills:** LE Natural Science, Science with lab
**Lecture Hours:** 3 **Lab Hours:** 3 **Credits:** 4

**GO141 - Physical Geology**

The study of the earth, the materials which make it up and the mechanisms which change it. Students will explore these materials and processes in the laboratory.

**Fulfills:** LE Natural Science
**Lecture Hours:** 3 **Lab Hours:** 3 **Credits:** 4
**History:** NS141

**GO151 - History of the Earth**

This is a survey of the history of the earth, including its continents, oceans, and life. The course will be divided into two parts: (1) An introduction into how the earth's history is recognized from the earth's materials and structures and (2) an examination of the past life and major geologic events that have been recorded.

**Fulfills:** LE Natural Science, Science with lab
**Lecture Hours:** 3 **Lab Hours:** 3 **Credits:** 4

**GO200 - Oceanography**

This course will study the complexities of the global oceans. It will examine the physical, chemical, meteorological, biological, and geological aspects of the oceans while evaluating the oceans' role on humans.

**Fulfills:** LE Natural Science, Science with lab
**Lecture Hours:** 3 **Lab Hours:** 3 **Credits:** 4

**GO215 - Selected Topics in Geology**

This course will consist of an in-depth examination of specific areas of geology at the lower level.

**Repeatable for Credit** It may be repeated once for credit with a change in topic.

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 1-4

**GO300 - Dinosaurs**

This course is an introduction to the paleontology of dinosaurs. The preservation, history of dinosaur studies, evolution, classification, behaviors, extinction, and current topics concerning dinosaurs are discussed.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**GO310 - Sedimentology and Stratigraphy**

The purpose of this course is to study the origin of sedimentary rocks and the physical processes that commonly influence them (deposition to diagenesis). The other portion of the course focuses on knowing the various types of stratigraphic units and methods of dating and correlation. The laboratory exercises will reinforce these concepts.

**Fulfills:** Science with lab
**Lecture Hours:** 3 **Lab Hours:** 3 **Credits:** 4

**GO315 - Special Topics in Geology**

This course will consist of an in-depth examination of specific areas of geology at the upper level.

**Repeatable for Credit** It may be repeated once for credit with a change of topic.

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 1-4

**GO320 - Geomorphology**
The study of the earth’s surface and the processes that shape it. Processes discussed include those associated with weathering, streams, glaciers, ground water, wind, oceans, and tectonics. Laboratory exercises will reinforce these concepts.

**Fulfills:** Science with lab  
**Lecture Hours:** 3 **Lab Hours:** 3 **Credits:** 4

**GO330 - Paleobiology**

**Crosslisted:** BIO330  The study of the earth’s past life, which will be examined in two parts: 1) an introduction to invertebrate and vertebrate paleontology that will focus on classification, relationships, and evolutionary history and 2) the uses of paleontological data in evolution, systematics, paleoecology and extinctions.

**Fulfills:** Science with lab  
**Lecture Hours:** 3 **Lab Hours:** 3 **Credits:** 4

**Global Business**

**GB500 - European Business Environment**

Doing business in Europe provides a broad overview of culture and management practices in main Western and Emerging European economies putting some emphasis on countries as their business activities are diligently connected with those of European Union. The course will conduct a survey examination of the European Union business environment, along with that of each country's history, culture and economy; and it will examine specific management practices in each country. In this course, students will evaluate how Europe's geopolitical, economic, financial, and legal status is impacting its ability to compete in the global market. Conversely, students will examine the effect that global events are having on Europe production, resource consumption, imports, and exports. Strategic management implications will be thoroughly explored. Finally, this course will critically evaluate how European Union countries view social responsibility taking into account local customs, values, beliefs, ethics, and the laws.

**Credits:** 3

**GB501 - Business Strategies for Latin America**

Doing business in Latin America provides a broad overview of culture and management practices in main Latin American economies putting some emphasis on countries such as Brazil, Argentina and Chile as their business activities are diligently connected with those of greater Latin America. The course will conduct a survey examination of the Latin American countries business environment, along with that of each country's history, culture and economy; and it will examine specific management practices in each country. In this course, students will evaluate how Latin America geopolitical, economic, financial, and legal status is impacting its ability to compete in the global market. Conversely, students will examine the effect that global events are having on Latin America production, resource consumption, imports, and exports. Strategic management implications will be thoroughly explored. Finally, this course will critically evaluate how Latin America countries view social responsibility taking into account local customs, values, beliefs, ethics, and the laws.

**Credits:** 3

**GB502 - Business Environments in Sub-Saharan Africa**

Doing business in Sub-Sahara Africa provides a broad overview of culture and management practices in Sub-Sahara African economies putting some emphasis on countries such as South Africa, Nigeria, Kenya, and Angola as their business activities are diligently connected with those of greater Sub-Saharan Africa. The course will conduct a survey examination of sub-Saharan Africa business environment, along with that of each country's history, culture and economy; and it will examine specific management practices in each country. In this course, students will evaluate how sub-Saharan Africa's geopolitical, economic, financial, and legal status is impacting its ability to compete in the global market. Conversely, students will examine the effect that global events are having on Sub-Sahara African production, resource consumption, imports, and exports. Strategic management implications will be thoroughly explored. Finally, this course will critically evaluate how Sub-Sahara African countries view social responsibility taking into account local customs, values, beliefs, ethics, and the laws.

**Credits:** 3
GB503 - Doing Business in Asia

Doing Business in Asia provides a broad overview of culture and management practices in main East and Southeast Asian economies, as well as India and Arab Emirates as their business activities are diligently connected with those of greater Asia. The course will conduct a survey examination of the Asian business environment, along with that of each country's history, culture and economy; and it will examine specific management practices in each country. In this course, students will evaluate how Asia's geopolitical, economic, financial, and legal status is impacting its ability to compete in the global market. Conversely, students will examine the effect that global events are having on Asian production, resource consumption, imports, and exports. Strategic management implications will be thoroughly explored. Finally, this course will critically evaluate how Asian countries view social responsibility taking into account local customs, values, beliefs, ethics, and the laws.

Credits: 3

Health Care

HC251 - Healthcare Accounting and Billing

This course introduces the fundamental principles of health care accounting and billing in healthcare organizations. Emphasis is placed on accounting concepts necessary to record financial information, understand financial statements, and conduct ratio analysis. In this course, the students will become familiar with the health insurance industry and differences in reimbursement methodologies. This course introduces principles of medical billing related to proper claim form preparation, submission and payment processing, and the follow up process.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC252 - US Healthcare Delivery Systems

This course provides an overview of the nature, organization, and function of the continuum of health services in the United States. Emphasis is placed on the business of health care, the history of its development and the roles of various business entities and healthcare professionals in the delivery of care to the patient. Topics include cost, access, and quality of health care services; governmental influence on health care delivery, private industry role in health care, services for the medically indigent and elderly, types of health insurance, managed care, highly integrated health care systems, and population health management.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC261 - Legal and Ethical Issues in Healthcare Delivery

This course provides an overview of legal and ethical issues that impact the business of healthcare and those who manage it. It covers the evolution of laws and regulations that govern the health care delivery in the United States, the basics of the legal system, and how healthcare laws and regulations are formulated and enforced. This course introduces major ethical theories, principles, and decision-making models that form the basis for resolution of ethical dilemmas in the health care settings. Topics include: torts, contracts, statutory law, patients' rights, antitrust law, medical records, licensure, regulatory requirements established by accrediting and certifying agencies.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC262 - Introduction to Statistics in Healthcare Administration

This course provides an introduction to the study of statistics used in healthcare assessment, utilization of published healthcare research statistics, and application of internal organizational healthcare statistics in managerial decisions. This course covers basic concepts of probability, descriptive and inferential statistics, and using statistics for decision making in healthcare administration. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control population parameter estimation, and hypothesis testing.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC263 - Introduction to Healthcare Economics and Policy
This course provides the fundamental economic principles and tools that healthcare administrators need to utilize for effective decision making within the healthcare industry. This course explores a framework for understanding government policies, legislation, healthcare market supply and demand, health services pricing, profitability, risk issues within the healthcare economic system, and how health economics is used to analyze health policy questions and provide support for new policy formulation.

Fulfills: Writing Intensive,
Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC351 - Organization and Administration of Healthcare Programs

Structure and implementation of various types of health care organizations and their internal departments, administrative theory; utilization; facilities management; accreditation; strategic planning; decision making theory; medical, nursing, and support staff supply, supervision, and evaluation; financial management; human relations; research and development; organizational culture and change theory; and other internal and external forces.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC352 - Business Communications in Healthcare Administration

This course is a survey and analysis of theories and findings related to communication proceedings in healthcare administration. It introduces communication skills and strategies for effective relations with patients, families, employees, other business representatives, and the community. Topics include patients' rights, confidentiality, anonymity, and privacy; the nature of therapeutic communications; communications that contribute to trust of the healthcare organization and the providers; the proper placement of advisement; reflections and interpretations; communications that ensure comprehensive and continuous patient-centered care; managing communications within and across constituencies relevant to the organization (other provider groups, addressing conflict within a healthcare system, resolving disputes); and altering the systems of care to enhance healthcare communications.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC353 - Basic Healthcare Administration Budgeting and Finance

This course covers practical applications of financial management concepts and frameworks as well as the conceptual foundations of financing healthcare in a dynamically changing environment. This includes healthcare services reimbursement models; health insurance issues; multifunctionality of financial management within a healthcare institution; various types of budgets; the implications of future trends in healthcare financing; and ethical implications associated with the practice of rationing financial resources in healthcare.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC354 - Healthcare Information Technology

This course provides a broad understanding of the critical role information technologies and systems play in healthcare organizations. This course introduces the different types of information maintained by healthcare organizations, commonly used healthcare software systems, robotics and automation interfaces, basic healthcare information security systems standards, privacy issues, and record archival.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC355 - Introduction to Healthcare Organizational Behavior and Management

This course introduces health care organizational behavioral science concepts, as they apply to organizational structure, process, and function. Students explore the healthcare administrator's role in relation to motivating teams and developing strategies for improving operational workflow and efficiencies. This course covers the concepts, techniques, and tools necessary to design, analyze, and improve the operational capabilities of healthcare and other related industries which promote health and wellness of society.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
HC356 - Introduction to Healthcare Human Resources Management

This course is an introduction to the human resource management (HRM) function in healthcare organizations. This course provides an overview of the special considerations of human resources management, including recruitment, selection, job descriptions, professional licensure, staffing ratios, retention, traditional and nontraditional labor sources, legal issues and wages, benefits management, and labor relations.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC400 - Special Topics in Healthcare Management

This course examines several important structural, political and regulatory issues in healthcare management. Potential topics include: the history of healthcare reform, consumer detected healthcare, the future of Medicare and Medicaid, medical ethics, healthcare economics, the impact of the Affordable Care Act (ACA), the future of Accountable Care Organization (ACO), managing a health related practice including human resources, confidentiality of employees, HIPPA regulation, and quantitative measurements of quality in healthcare. This course may be offered in 1-3 credits depending on the course content and assignments.

Lecture Hours: 0 Lab Hours: 0 Credits: 1-3

HC451 - Healthcare and the Political Process

Analysis of the process of health policy formation at the federal, state, and local levels from historical and contemporary perspectives. Specific topics will include cost controls, utilization review, methods of changing public and private health policies, and political factors in health care delivery.

Fulfills: 4+1 Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC461 - The Hospital and the Community

Issues specific to the organization and administration of hospitals, their scope of services in relation to community need, and relationships with community health care services. Topics covered dealing with the unique aspects of administration of hospitals and internal departments include improvement of organizational performance, personnel productivity, strategic planning, cost containment, materials management, image in the community, medical staff recruitment, patient census and utilization of services, and contracting for services from external suppliers.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC462 - Healthcare Management Internship

The internship must provide an applied/practical experience consistent with a career position filled by a college graduate. The internship will be approved and overseen by the Healthcare Management Program Coordinator (PC) or a business faculty member approved by the PC. An experience paper is required. One credit hour will be earned by 40 hours of experience connected to the internship learning outcomes.

Prerequisite(s): Open only to students who have completed at least 3 of their courses in Healthcare Management and have an overall GPA of 3.0.

Repeatable for Credit This class may be repeated to earn a maximum of 6 credit hours at the discretion of the PC.

Grade: Pass/Fail Lecture Hours: 0 Lab Hours: 0 Credits: 3-6

HC465 - Basic Issues in Community Based Healthcare Delivery

Historical and philosophical factors defining the functions and scope of current community and public health based health care delivery. Introduction to the concepts of epidemiology, ecology, community needs assessment, and social and cultural influences on utilization of health care by community aggregates.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HC466 - Planning and Organizing Community Health Services

Organization and management of community based and public health agencies. Strategic planning for national, state, and local trends, community needs, and projected changes in society and health care. Administration of
personnel, information systems, accreditation requirements, facilities, finances, external services contracts, community relations, and technology in clinics, home health, schools, industry, and other community based agencies.

**Fulfills:** 4+1
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HC467 - Principles of Risk Management and Patient Safety**

This course is an introduction to risk management and patient safety principles and their application. Students will analyze risk management incidents (as well as recognize potential issues); and learn how to identify methodologies used to maintain and improve quality and safety in healthcare. This course explores quality assurance measures including Total Quality Management, Continuous Quality Improvement, and the Joint Commission standards.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HC468 - Statistical Analysis of the Electronic Health Record**

Electronic Health Records (EHRs) hold over 50 years of recorded patient information and, with increased adoption and high levels of population coverage, are becoming foci of healthcare data analyses. This course introduces statistical analysis of EHRs. The future of medicine depends on understanding patterns in EHRs. Topics include: preparing data using structured query language (SQL), risk assessment formulating prognosis of patients with multiple morbidities, comparison of means and rates, time to adverse events, analysis of one observation per time period (Tukey chart), causal control charts, regression analyses, matched case control studies, association network, and casual networks.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HC469 - Evidence-Based Management in Healthcare Settings**

This course promotes introduces evidence-based management principles in healthcare settings. It will guide students in developing the skills and knowledge needed to identify, access, and use quality evidence from science and practice in making better decisions. Topics include what it means to be an evidence-based manager, the Baldrige as the most rigorous evidence-based management in healthcare organizations, acquiring evidence, organizational evidence, experiential evidence, decision practices that reduce bias and judgment errors and give due consideration to ethical concerns.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HC491 - Senior Seminar in Healthcare Management**

Capstone course in which students study selected topics on health care administration in depth. It is highly recommended that all major core courses be passed before enrolling in this course.

**Prerequisite(s):** As the capstone, must be taken in the last term.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**Healthcare Administration**

**HA509 - Management of Health Information Systems**

This course advances the learner through a discussion of the history, present state, and future trends in the industry. The course provides a managerial perspective of the issues related to the planning, selection, and operation of healthcare information systems. Many of the key acts and laws that regulate secure handling of patient specific data are introduced in the course. Electronic healthcare record systems are identified as critical tools in improving quality of care in the healthcare process. While adding key elements of the science of information technology, this course also highlights the importance of then basic review and safeguarding of healthcare data, change management, budgeting, and personnel management. Healthcare leaders are further expected to manage various aspects of information technology effectiveness through a complete understanding of the industry regulatory requirements and technology trends.

**Prerequisite(s):** HA518 is normally taken prior to this course; however, the MHA Director may make an exception.

**Fulfills:** 4+1
**Credits:** 3
HA511 - Leadership and Management in Healthcare Systems

Healthcare systems are composed of numerous professional groups, specialties, and departments with complex, nonlinear interactions between them. Within large organizations such as healthcare systems, the numerous groups with different specializations, multidirectional goals, and multidisciplinary staff might support or be in conflict with each other. This course is an in-depth study of the role that skillful leadership plays in optimizing management in this highly complex environment. The study will include a review of leadership approaches for capitalizing on the multi-disciplinary diversity within the organization as a whole and efficiently utilizing resources when designing management processes, while encouraging personnel to work toward common goals. Specific focus will be given to change leadership, culture building, conflict management and resolution, quality improvement, diversity leadership, team leadership and collaboration.

Credits: 3

HA514 - Accounting for Management Decisions

Crosslisted: (MBA515) This course emphasizes the use of accounting data and analytical techniques employed by management for decision-making in for-profit and not-for profit businesses and governmental organizations. Students will study, evaluate and apply the analytical techniques as part of the broader management accounting process used to analyze, evaluate, and convey their recommendations concerning economic events related to management decisions. Areas covered include cash flow analysis, financial statement analysis, ratio analysis, variable costing, product costing, cost prediction, cost-volume-profit considerations, operational budgeting, variance analysis, return on investment and capital budgeting decisions. The course uses discussion, problems, accounting case studies and a term project to evaluate the student’s comprehension of the material.

Credits: 3

HA515 - Marketing and Consumer Driven Healthcare

Within a broad marketing philosophy, the course presents marketing as the process of identifying and delivering what physicians, patients and families want. This involves market research, market analysis, product design, product development, promotion and delivery; physician, patient, family and employee satisfaction, and understanding how these factors drive the healthcare market.

Fulfills: 4+1
Credits: 3

HA516 - Healthcare Finance

The knowledge of financial principles is advantageous to managers in virtually every discipline in healthcare. The content of this course integrates both conceptual and practical information related to financial and managerial accounting and financial management within healthcare organizations. The following topics will be covered: financial accounting; income statement and statement of change in equity, balance sheet and statement of cash flows; managerial accounting: cost behaviors and profit analysis, cost allocation models, pricing and service decisions, planning and budgeting; financial management concepts: time value analysis, financial risk and required return; long-term financing: LT debt financing, equity financing and security markets, capital structure and the cost of capital; capital investment decisions: capital budgeting, project risk analysis; current asset management and financing; financial condition analysis, lease financing and business valuation; financial risk management; and consider ethical implications associated with financial practices and decision-making.

Prerequisite(s): HA518 is normally taken prior to this course; however, the MHA Director may make an exception.

Fulfills: 4+1
Credits: 3

HA517 - Legal and Ethical Issues in Healthcare Administration

In the U.S., the healthcare industry is recognized as one of the most heavily regulated sectors of the economy and is becoming more operationally complex. These characteristics make it essential that healthcare administrators have a sound working knowledge of the law and create a culture that makes corporate compliance and risk
mitigation a priority. This course will provide students with the practical knowledge needed to identify legal and ethical issues inherent in health care administration and to understand the legal and moral ramifications of administrative and management decisions. Specifically, this course will cover the following topics: sources of law; tort, contract, criminal, and employment law; antitrust laws; corporate structure and legal issues; legal issues associated with the medical, nursing, and other allied health professionals; information management; patient consent; patient and employee rights and responsibilities; legal reporting requirements; professional and product liability; labor relations; patient safety; tort reform; and ethical issues associated with decision-making, end-of-life choices, and procreation.

**Prerequisite(s):** HA518 is normally taken prior to this course; however, the MHA Director may make an exception.

**Credits:** 3

HA518 - Organization of Healthcare Delivery Systems

The U.S. healthcare delivery system is unique in many ways from that of other developed countries. The system is comprised of a number of subsystems that loosely work together towards a common goal to promote the health and welfare of the population. This course explores the social, political, economic, technological, legal, key stakeholders, and environmental factors that influence the health care delivery system in the U.S. Focus is placed on the factors affecting the need, access, and use of services; factors related to healthcare costs; quality assessment and quality assurance; the impact of legal, regulatory, and accreditation actions; and financing of care through private health insurance and governmental programs. Major influences in the advances and other changes to the health services system are evaluated with pertinent references to the Patient Protection and Affordable Care Act (ACA). The effects of medical education, scientific advances, rising costs, changing population demographics, and American values and assumptions regarding health care are covered. Role of population health management and public health on health care systems and practices are explored.

**Fulfills:** 4+1

**Credits:** 3

HA521 - Special Topics in Healthcare Administration

This course is designed primarily for Master of Healthcare Administration students and will focus on contemporary management issues in health care. The course will be offered when need and interest are present.

**Credits:** 1-3

HA532 - Healthcare Services and Systems for Diverse Populations

This is a broad-based course in the sociology and anthropology of medicine and health. The course will focus on the social, cultural and behavioral aspects of health-related issues and their implications for health administration. Topics will also include gender, race and culture issues in health care.

**Credits:** 3

HA533 - Managerial Epidemiology

Epidemiology is the study of the distribution and determinants of health in populations, and the application of this study to improve health outcomes. It is the basic science of public health. This course introduces students to the field of public health epidemiology, emphasizing methods for assessing factors associated with the distribution and etiology of health and disease. The ultimate goals of epidemiology are to determine the scale and nature of human health problems, identify solutions to prevent disease and improve the health of the entire population. This course will focus on the principles of epidemiology and the application for epidemiology in the management of health care organizations.

**Credits:** 3

HA537 - Health Policy and Politics

This course addresses the momentous changes that healthcare is facing in the United States and around the world. Fueled by population growth and socioeconomic trends, political systems will and must respond to changing demands of healthcare. With a challenging and insightful analysis of the political, professional, and consumer demands, this course will help learners prepare for the leadership expectations systemic
changes require. This course will cover conceptual frameworks and theories of policymaking, political environment, interest groups and stakeholders, and their respective roles in political decision-making in the healthcare sector. Students will examine policy-related challenges through research, operational data analysis, and economic evaluation and make policy recommendations to improve health system outcomes. Specific focus will be given to policy formulation, implementation, modification, and advocating for new policies.

Credits: 3

HA557 - Nursing Dimensions of Healthcare Administration

As nurses are a major force in healthcare delivery, current and evolving leadership roles and challenges in the nursing profession will be explored within the context of healthcare systems. Leaders within a healthcare system may be responsible for overseeing multiple departments, managers, and individuals depending on the size of the organization. Issues such as organizational climate, work environment, staffing, negotiation, leadership relationships with healthcare professionals, nurse-physician relationships, change, diversity, and global healthcare are important to consider in the leadership role and when applying different styles of leadership practice.

Credits: 3

HA573 - Quality Improvement and Outcomes Assessment in Healthcare Settings

As organizations address quality improvement throughout their operating structure, they should examine all aspects of performance relating to the delivery of safe and high-quality service to its customers in all situations, including emergency preparedness. This course will focus on the systems that form the foundation of a high-quality health services organization. Students will learn which management practices are essential to advancing performance goals, making long-lasting process improvements, and providing the operational systems and tools needed for success. More specifically, this course will cover quality tools, improvement models, project teams, and patient safety strategies for reporting and analyzing data to evaluate performance.

Credits: 3

HA603 - Healthcare Research Methods for Managerial Decision-Making

The healthcare industry emphasizes the utilization of evidence to support operational and clinical decision-making when appropriate and feasible. To this end, this course seeks to empower students by giving them the knowledge and ability to follow the research process as a means of making well-informed decisions. The course topics will include problem identification and research question and hypothesis development, literature review, use of theory in research, research design and methodology, hypothesis testing, interpretation of results, and addressing ethical issues in research. This course will also provide tangible examples of how research supports managerial decision-making as in the case of program design and evaluation and quality management.

Fulfills: 4+1

Credits: 3

HA604 - Healthcare Economics and Policy

Healthcare spending in the U.S. is consistently larger per capita and as a portion of the gross domestic product (GDP) than other developed countries. The capability to think critically regarding health policy is a must for healthcare administrators. Economics continues to be used as a means for analyzing health policy questions and providing support for new policy formulation. This course will cover the following topics: relevance of studying health economics; provide an overview of the healthcare delivery and financing systems; the approaches for describing, evaluating, and managing risk; understanding costs; bending the cost curve; demand for health products; elasticity; forecasting; supply and demand; profit maximization; pricing; asymmetrical information and incentives; economic analysis of clinical and managerial interventions; profits, market share, and market power; government interventions in healthcare markets; policy and regulation; and behavioral economics.

Prerequisite(s): HA518 normally taken prior to
this course; however, the MHA Director may make an exception.

**Fulfills: 4+1**

**Credits: 3**

**HA605 - Healthcare Organizational Behavior and Leadership**

With a dynamic industry such as healthcare, leaders need to challenge themselves to discover new and innovative approaches to achieve effectiveness within complex organizational structures and settings. This course will examine organizational behavior and leadership from an individual perspective, group perspective, and institutional perspective. More specifically, this course will address topics such as diversity, attitudes, communication, motivation, power versus leadership, theories of leadership, managing stress in the workplace, decision-making, conflict management and negotiation skills, group dynamics, teams and team building, organizational development, change management, strategy and structure, and organizational culture.

**Prerequisite(s):** HA518 normally taken prior to this course; however, the MHA Director may make an exception.

**Fulfills: 4+1**

**Credits: 3**

**HA607 - Data Analytics in Healthcare Administration**

This course includes the concepts and practices associated with data analytics in various healthcare domains and applying the results of the analytics to make sound financial, operational, and strategic decisions. Students will be exposed to advanced data management and analytical techniques commonly employed in healthcare organizations of all sizes and structures, such as data acquisition and storage, machine learning, statistics, text analytics and natural language processing. In addition, the synergies associated with analyzing previously untapped data coupled with existing enterprise data will be explored in terms of making sound business decisions. Furthermore, this course will evaluate common sources of big data in healthcare, the big data life cycle, big data architecture framework, issues pertaining to the security and privacy of big data in healthcare.

**Credits: 3**

**HA611 - Mediation, Negotiation and Conflict Management**

Enhanced negotiation, mediation, and conflict management skills are essential in constantly changing healthcare environments. While innovation and change are essential to the progress of any organization, they often produce conflict situations. Because of issues such as lack of resources, growing demands of aging population, rise in chronic health conditions, change in delivery models, and payment reforms, healthcare leaders often find themselves in situations where they need to lead change and negotiate with a range of stakeholders including physicians, nurses, patient advocates, hospital boards, medical committees, politicians, lobbyists, and community leaders. This course explores conflict resolution techniques, such as negotiation and mediation strategies and tactics, building relationships, bargaining, and creating and maximizing value for all parties. The emphasis will be on situational learning exercises providing an opportunity for the practical development of skills, but more importantly, on conceptual tools relating to negotiation, mediation, conflict analysis, and peacebuilding.

**Credits: 3**

**HA612 - Healthcare Operations Management**

Historically, the healthcare industry has struggled to contain costs, improve profitability, strengthen access, and achieve consistent quality outcomes. Many of these issues can be effectively addressed when utilizing a systematic and rigorous approach to operations management. This course provides students with the concepts, techniques, and tools necessary to design, analyze, and improve the operational capabilities of healthcare organizations. The topics covered include: healthcare operations and systems; quality, productivity, and performance management; operations research methods; operational metrics; project management; operational planning; return on investment analysis; logistics and supply chain management; purchasing and materials management; inventory management, forecasting; and operational analysis and benchmarking.

**Prerequisite(s):** HA518 normally taken prior to this course; however, the MHA Director may make an exception.
HA615 - Healthcare Strategic Management

In order to maintain a competitive advantage in the highly dynamic environment, it is necessary that healthcare administrators possess the requisite knowledge, skills, and abilities to favorably position their organizations for success. This requires the leaders to promote strategic thinking, create well-developed strategic plans, and engage in strategic management. This course will enable students to critically examine organizational, strategic business unit, and functional level vision, mission, and values statements, analyze and draw meaningful conclusions from internal and external assessments using a variety of established tools and techniques, formulate well-conceived strategies and present realistic implementation and monitoring plans.

Credits: 3

HA616 - Healthcare Strategic Management and Marketing

In order to maintain a competitive advantage in a highly dynamic environment, it is necessary that healthcare administrators possess the requisite knowledge, skills, and abilities to favorably position their organizations for success. This requires the leaders to promote strategic thinking, create well-developed strategic plans, and engage in strategic management. This course will enable students to critically examine organizational, strategic business unit, and functional level vision, mission, and values statements; analyze and draw meaningful conclusions from internal and external assessments using a variety of established tools and techniques; formulate well-conceived organizational goals, objectives, and strategies; and present tactical implementation and monitoring plans. Finally, the students will be exposed to the processes involving data analytics, planning, implementation, and controlling marketing activities associated with consumer-oriented marketing programs designed to favorably position an organization to achieve and sustain a competitive advantage in the market.

Prerequisite(s):
HA509, HA516, HA517, HA604, HA605, HA612 or the equivalent as approved by the MHA Director.

Credits: 3

History

HIS101 - Western Civilization: From Antiquity to 1500

This course surveys the social, cultural and political development of western Europe from the ancient Mediterranean world to the dawn of Modern Europe. This course covers the ancient civilizations of Babylonia and Egypt, Greece and Rome, and the collapse of the Roman Empire, the development of feudalism and conflicts between secular and ecclesiastical governments. Critical literacies and writings are emphasized.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIE101, H101

HIS102 - Western Civilization: The Reformation to 1918

This course surveys developments in Western Europe's political, cultural, social and intellectual history from the European Reformation to World War I. The survey investigates inter alia the rise of the modern state, the development and importance of technology, changing patterns of urbanization, international relations, warfare, and social transformations. The survey shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIE102, H102

HIS104 - American History Survey Through the Civil War

Introduction to the social, cultural, political and economic history of the United States from the conquest and colonization of North America to the reunification of the nation at the conclusion of the Civil War. The survey shall comprise an inquiry of period literature.

Note: Offered as required. Fulfills: LE Social Science, GEM
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: HIU104, H1205
HIS105 - American History Survey
Since the Civil War

Introduction to the social, cultural, political and economic history of the United States since the conclusion of the Civil War. The survey shall comprise an inquiry of period literature.

Note: Offered as required. Fulfills: LE Social Science, GEM
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: HIU105, HI206

HIS107 - Historical Thought

Examines the nature of historical explanation and nature of temporality in historical accounts via the narrative literary format. In addition, the course investigates the problem-oriented history, structure and agency in historical explanation, rhetoric and poetics of history.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: HIS103, HI103

HIS108 - Introduction to Military History

Introduction to Military History introduces the discipline of history. It introduces the ideas, terms, themes, and concepts of military history. It places military history into the larger historical and interdisciplinary backdrop.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS111 - Introduction to World History I (Ancient History)

A survey of world history that provides an introduction to the origin and development of the world’s societies and their political, cultural and economic traditions from Prehistory to 500 A.D.

Fulfills: LE Citizenship
Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS112 - Introduction to World History II (Middle Ages)

A survey of world history that provides an introduction to the origin and development of the world’s societies and their political, cultural and economic traditions from 500 to 1500 A.D.

Fulfills: LE Citizenship
Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS113 - Introduction to World History III (Modern Era)

A survey of world history that provides an introduction to the origin and development of the world’s societies and their political, cultural and economic traditions from 1500 to Present.

Fulfills: LE Citizenship
Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS200 - The History of Military Thought

The phenomenon of war is among the most persistent, complex, and important of all social interactions. Since war began, military thinkers have struggled to understand war in terms coincident to their own time and place, creating theories about war’s nature, purpose and conduct through which one may trace its historical evolution. This seminar offers the student of military history an opportunity to come directly to grips with fundamental questions of war as they have been addressed in this body of formal thought. Seminar readings will therefore turn on a study of major works of military theory, together with other readings that set these theories within their historical and intellectual context. And because the student of military history is commonly required to contend with several competing theories at any one time, the seminar will address the nature, purpose and structure of military theory itself, so as to equip the student with the means to judge a theory’s explanatory powers.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS203 - Introduction to Historic Preservation

A survey of the history and theory of historic preservation. Students shall gain knowledge to apply historic preservation methods to renovation and restoration projects.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS204 - Introduction to Museum Studies

A survey of museology that introduces students to the history of museums and to debates on the philosophical nature of museums. The survey covers the types and definitions of museums. In
addition, it traces the history of museums, discusses contemporary practices in museums, and examines current issues in the profession as it faces the future of museums in the 21st Century. Students will review museums' missions and their roles in society through case studies and exhibitions in a variety of museums.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**HIS207 - Introduction to Archival Management**

A survey of principles and practices that archivists and record managers apply, as well as issues they confront. Student will learn the nature of documentation and record keeping in contemporary society and the different types of institutions with responsibility for records.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**HIS210 - Ancient Greece**

This course surveys Greek history from the Dark Ages to the Hellenistic period. Traces the political, economic, social, religious and cultural developments. The survey shall comprise an inquiry of period literature.

**Note:** Offered as required.  **Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  **History:** HIE210

**HIS211 - The Great War: 1914-1918**

World War One was the crucible of the modern world and it altered the political, economic, intellectual, social and cultural realities of inside and outside Europe, culminating in a redrawn map of Europe's political boundaries. This survey examines the war's multiple cause and effects. The survey shall comprise an inquiry of period literature.

**Note:** Offered as required.  **Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  **History:** HIE211

**HIS212 - Roman Civilization**

This seminar studies the civilization of ancient Rome from the Iron Age to the age of Constantine, with concentration on the late Republic and early Empire. The seminar shall comprise an inquiry of period literature.

**Note:** Offered as required.  **Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  **History:** HIE212

**HIS220 - History of the American West**

Investigates the Western United States from the early 16th century to the present. Themes embraced are: Euro-American interactions with Native Americans; extension and escalation of the federal government into the West; exploitation of natural resources; formation of borders and national identities; race, class and gender relations; impact of immigration and emigration; aggression and criminality; and continuing perseverance of Frederick Jackson Turner's "frontier" myth in American culture. The survey shall comprise an inquiry of period literature.

**Note:** Offered as required.  **Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  **History:** HIU220

**HIS240 - Introduction to Oral History and Methods**

The course will focus on the art and practice of oral history interviewing and methodology. Students will experience a balance of reading, discussion, and fieldwork, in which students shall create and implement an oral history project, in which a collection of digitally recorded interviews and their companion transcripts will be completed. In addition, the course will explore the theory, ethics and practice of oral history as an activist research methodology.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**HIS241 - Ancient Warfare**

The phenomenon of war is among the most persistent, complex, and important of all human activity. It is also among the oldest. This course examines war's nature, purpose, persistence, and conduct in ancient cultures.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**HIS242 - Medieval Warfare**

The phenomenon of war is among the most persistent, complex, and important of all human activity. It is also among the oldest. This course examines war's nature, purpose, persistence,
technologies, and conduct in medieval cultures.

**HIS243 - Modern Warfare**

The phenomenon of war is among the most persistent, complex, and important of all human activity. It is also among the oldest. This course examines war's nature, purpose, persistence, technologies, and conduct in modern cultures.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HIS250 - Nazi Germany**

This seminar studies the Nazi movement in Germany and Europe, from the post-World War I era to the outbreak of World War II. Topics include: race and racism, religion, and gender; experiences of men and women in Germany; the role of the church and business; Fascism; occupation, persecution, collaboration and resistance. The seminar shall comprise an inquiry of period literature.

**Note:** Offered as required. **Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** HIE250

**HIS251 - The French Revolution**

This seminar studies the French Revolution and its implications for Europe and the world. It considers the social, political and ideological causes of the Revolution in 1789 and then examines the successive stages of revolution from the experiment with constitutional monarchy to the radical republic and the terror to Napoleon's popular dictatorship. The seminar shall comprise an inquiry of period literature.

**Note:** Offered as required. **Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** HIE251

**HIS252 - The History of Warfare**

This course will survey a broad expanse of military history as an introduction to the discipline and the practice of war over time and space. It will examine the idea of war, changes in warfare, total war, technology, the nature of armies, the role of war in Western and non-Western society, and major theories of warfare.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HIS260 - The Civil Rights Era**

Examines the years between 1954 and 1975 which has been portrayed as a "Second Reconstruction" and the "Fulfillment of the promise of the American Revolution." The seminar will impart a concentrated investigation through marked examination of primary and secondary sources, documentaries and films. The seminar shall comprise an inquiry of period literature.

**Note:** Offered as required. **Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** HIU260

**HIS261 - The Making of the American Republic, 1754-1820**

Examines the formation of a novus ordo saeculum by assessing the experiences after 1763 as the colonizers in the thirteen British colonies rebelled against the authority of the British Crown and created a new republic. The seminar will investigate the political and ideological foundations of the rupture from Britain, the military and social course of the War of Independence, the postwar strain to attain a constitutional order that would sustain republican liberties, the creation of the Constitution to the Missouri Compromise of 1820, emphasizing economic growth, territorial expansion and social change. The seminar shall comprise an inquiry of period literature.

**Note:** Offered as required. **Fulfills:** Writing Intensive, **Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** HIU261

**HIS262 - The Great Depression**

Examines the economic collapse of the 1920s and 1930s, which put social, cultural and political changes in motion that altered the nature of American life. Consideration will be on the methods contemporaries encountered and contributed in those changes, as well as on the historiography that elucidates the Great Depression. The seminar shall comprise an inquiry of period literature.

**Note:** Offered as required. **Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** HIU262
HIS300 - American Military History, 1607-1902

This course is an overview of the American Military experience from pre-Revolutionary times to 1902 with a focus on how the nation thinks about, prepares for, and conducts warfare. The course will examine the interaction of the military, cultural, social, institutional, and international factors that have shaped American Military history.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS301 - American Military History, 1900-Present

This course is an overview of the American Military experience from 1900 to the present with a focus on how the nation thinks about, prepares for, and conducts warfare. The course will examine the interaction of the military, cultural, social, institutional, and international factors that have shaped American Military history.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS302 - War and Technology

The phenomenon of war is among the most persistent, complex, and important of all human interactions. Since war began, humans have endeavored to seek more effective ways to kill one another. These efforts have resulted in revolutions in technology and technique that have played a key role in the rise of the nation-state and in shaping the modern world. This course offers the student of military history an opportunity to come directly to grips with fundamental changes in the technology of war and in the revolution in military affairs debate.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS303 - War, Ethics, and Morality

The phenomenon of war is among the most persistent, complex, and important of all social interactions. Since war began, people have struggled to understand the ethics and morality of war in terms coincident to their own time and place. This course offers the student of military history an opportunity to come directly to grips with fundamental questions of war as they relate to ethics and morality.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS304 - The Art of Expression in Public History

The course shall provide opportunity for students to apply the expressive measures involved in public history. Students will be required to design, write and respond by creating actual text for exhibits, public relation and media related press releases, selection of exhibit artifacts, creation of exhibit websites and virtual tours, and informative blogs.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS305 - War, Culture, and Society

The phenomenon of war is among the most persistent, complex, and important of all social interactions. Since war began, people have struggled to understand war in terms coincident to their own time and place. This course offers the opportunity to come directly to grips with fundamental questions of war as they relate to culture and society.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: HIS306

HIS310 - War, Culture, and Society

The phenomenon of war is among the most persistent, complex, and important of all social interactions. Since war began, people have struggled to understand war in terms coincident to their own time and place. This course offers the opportunity to come directly to grips with fundamental questions of war as they relate to culture and society.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: HIS306

HIS316 - Historical Material Conservation

The course shall explore American and Kansas City area material conservation. A primary focus of the course shall be on architecture and how architecture is a vehicle for social change. In addition, students will be able to recognize the geographical, political, environmental, technical, economical, and social factors that affect architecture and material conservation.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS320 - Jackson and the Legacy of Antebellum America, 1820-1854

Examines the political and social history of the United States from the Missouri debate to the ratification of the Kansas-Nebraska Act. A comprehensive assessment of the market revolution which altered American life, economic expansion, advancement of slavery, First Nation removal, religion and reform, altering positions of women, political movements connected with "Jacksonian democracy," the impact of abolitionism, and the westward movement of entire peoples. The seminar shall comprise an
inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIU320

HIS321 - The Prelude of Bleeding Kansas, 1854-1861

Examines the events that created the turmoil between residents of the State of Missouri and emigrants into the Territory of Kansas from 1854 to 1861 known as "Bleeding Kansas." A comprehensive assessment of the social, political, economic, religious and military events that ultimately lead to the American Civil War. The course will also examine the important men and women that influenced the fore mentioned events. Students shall be required to visit local historical sites related to the events and peoples of Bleeding Kansas. The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIU321

HIS322 - The Civil War, 1861 - 1865

Examines the causes and consequences of the conflict that created the American Civil War. Topics shall include: How did slavery and capitalism compare as rival economic and social systems? What principles did the Confederate States of America stand for? Why did soldiers on both sides fight? How did the war change the lives and roles of women? What made the Civil War the first "modern war"? Why did Abraham Lincoln abolish slavery? How has the American Civil War been remembered and interpreted in the century and a half since the war concluded? The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIU322

HIS323 - The Epoch of Reconstruction, 1865-1867

Examines the consequences following the American Civil War in the aftermath referred to as Reconstruction. Topics shall include: What were the experiences of former slaves after Emancipation? What have been the legacies of slavery? What were the goals of Reconstruction? Why did Reconstruction fail? How has Reconstruction been remembered and interpreted in the century and a half since 1877? The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIU323

HIS324 - The Emergence of Modern America, 1877-1945

Examines the social, economic, political, religious and intellectual advancement and controversies that molded modern America. Particular consideration will be given to concerns raised by industrialization, urbanization, immigration, science and technology. The Labor, Populist and Progressive movements will be studied closely. The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIU324

HIS325 - The Cold War, 1945-1992

Examines the superpower rivalry and American anticomunism from the origins of the Cold War after World War II through to the election of William Jefferson Clinton. Students will examine the most important events, ideas and personalities and address key historical debates on topics including the origins of the Cold War; the development of atomic and nuclear weapons; McCarthyism; the expansion of the Cold War beyond Europe; race and gender relations; the growth of the "imperial presidency," human rights, dissent, sexuality, neoconservatism, and the end of the Cold War. The course will also give detailed attention to Cold War crises-including the Korean War, the Taiwan Strait, Berlin, Cuba and Vietnam- and their impact on American domestic society. The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIU325, HI314

HIS326 - Bolstering the Dominoes of Indochina: The Contradictions and Consequences
Examines the history of American involvement in Vietnam, the experience of Americans and Vietnamese who fought the Second Indochina War (1954-1975), and the impact of the war on American society. The course begins with a brief exploration of pre-colonial Vietnamese history and culture, French colonial dominance from the late 19th century through the 1930s, and the growing Vietnamese nationalist resistance that led to the First Indochina War (1945-1954). A further examination will be spent on the diplomatic and political course of the American war in Vietnam as well as the domestic consequences it wrought in both the United States and Vietnam. Students will seek an understanding of the Vietnam experience through the lives of those who experienced it. Finally, the course will end with a discussion of the legacy of the Vietnam War and its lingering presence in American life. The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIU326

HIS330 - U.S. Military History

This course is an overview of the U.S. military experience from pre-Revolutionary to the Present with a focus on how the nation thinks about, prepares for, and conducts warfare. The course will examine the interaction of the military, cultural, social, institutional, and international factors that have shaped U.S. military history.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS331 - The Holocaust

This seminar examines the origins, implementation, evolution and aftermath of the Holocaust in and outside Nazi occupied Europe. The seminar investigates the experiences and perspectives of victims, perpetrators, accomplices and bystanders. The seminar also analyzes historians changed and changing understanding of the Holocaust. The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIE331

HIS332 - World War II

This seminar studies World War II's causes and course, the Holocaust, military technology, the home and fighting fronts, and the postwar reconstruction. The seminar examines the experience of combatants and non-combatants experience of occupation and resistance. The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIE332

HIS334 - The Reformations

This seminar investigates the intellectual, economic, cultural, scientific and political background to the 16th century reformations as well as the theological controversies that led to and flowed from these reformations. The seminar is writing intensive. The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIE334

HIS335 - Modern Germany

This seminar examines changes in political, economic, social and cultural life in Germany from the late Wilhelmina Empire to post-Reunification. The seminar is reading and writing intensive. The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIE335

HIS336 - The Long 19th Century

This seminar will examine the history of the 19th century from the Napoleonic to WWI. It focuses on the major social, political, economic and intellectual trends in the 19th century that shaped the modern world. The seminar shall comprise an inquiry of period literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIE336

HIS337 - Modern Europe

This seminar examines major political, social, economic and cultural developments in Europe
over the course of the 20th century. Main course
themes include: the retreat of Liberalism; the rise
of Fascism; the role of war in transforming
society, European unity; the lives of women; the
place of the "other" in European society; internal
and external threats to open societies. The
seminar shall comprise an inquiry of period
literature.

Note: Offered as required. Lecture Hours: 3
Lab Hours: 0 Credits: 3
History: HIE330

HIS338 - Preservation Law

The course shall emphasize the historical
development and continued evolution of laws
designed to protect historic and cultural
resources. Through an analysis of significant
national, state and local preservation laws, the
course will introduce students to the basic
concepts involved in the field of historic
preservation law.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS378 - Special Topics in History

Selected periods, ideas, and movements are
studied.

Lecture Hours: 0 Lab Hours: 0 Credits: 1-3

HIS400 - Internship

Interpreting the past is vital to understanding
democratic ideals and civic life. All Majors will be
required to complete 135 clock hours of
internship experience at a selected historical
institution approved by the student's history
advisor. Students are required to maintain a
weekly journal of their internship activities.
Upon completion of the internship, the student
and internship supervisor will submit written
reports of their experience and responsibilities to
the student's history advisor.

Prerequisite(s): EN105, EN106 and
completion of a minimum of 75 credit hours.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: HI410

HIS441 - Military Thought I

The phenomenon of war is among the most
persistent, complex, and important of all social
interactions. Since war began, military thinkers
have struggled to understand war in terms
coincident to their own time and place, creating
theories about wars nature, purpose and conduct
through which one may trace its historical
evolution. This seminar offers the student of
military history an opportunity to come directly
to grips with fundamental questions of war as
they have been addressed in this body of formal
thought. Seminar readings will therefore turn on
a study of major works of military theory,
together with other readings that set these
theories within their historical and intellectual
context. And because the student of military
history is commonly required to contend with
several competing theories at any one time, the
seminar will address the nature, purpose and
structure of military theory itself, so as to equip
the student with the means to judge a theory's
explanatory powers.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS442 - Military Thought II

The phenomenon of war is among the most
persistent, complex, and important of all social
interactions. Since war began, military thinkers
have struggled to understand war in terms
coincident to their own time and place, creating
theories about wars nature, purpose and conduct
through which one may trace its historical
evolution. This seminar offers the student of
military history an opportunity to come directly
to grips with fundamental questions of war as
they have been addressed in this body of formal
thought. Seminar readings will therefore turn on
a study of major works of military theory,
together with other readings that set these
theories within their historical and intellectual
context. And because the student of military
history is commonly required to contend with
several competing theories at any one time, the
seminar will address the nature, purpose and
structure of military theory itself, so as to equip
the student with the means to judge a theory's
explanatory powers.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

HIS453 - Senior Writing Capstone

All History Majors are required to complete a
senior writing capstone under the guidance of a
full-time Park University history faculty member.
The capstone applies sustained, independent
research, including: formulating a historical
question, historical methodology, devising research strategy, and evaluating primary and secondary sources. Completion with grade of "C" of higher is required. The written capstone project shall be at least 5,000-to-6,250 words on an appropriate and approved topic of history. The research must be original and based on primary and secondary sources. The writing style must be in compliance with the current edition of the Chicago Manual of Style for all work submitted. **Prerequisite(s):** EN105, EN106, and completion of a minimum of 90 credit hours. **Note:** This course satisfies the Writing Intensive area for History and Military History majors. **Fulfills:** Writing Intensive, **Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HIS455 - Senior Seminar Paper**

The Senior Seminar Paper permits students to develop, research, write and defend a major essay, composing of 25-30 pages, of original historical research on a topic of their choice. This course is the culmination of their major and builds on training and writing completed in the earlier history courses. Students will work closely with one member of the Program of History. The student will defend and discuss their seminar paper during their Senior Oral Comprehensive Examination. **Prerequisite(s):** EN105, EN106, and completion of minimum of 90 credit hours. **Fulfills:** Professional Writing **Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**Honors Academy**

**HN250 - Honors Leadership Seminar**

This course provides students with insight into the nature and scope of leadership as well as its successes, limitations and failures. Students will examine the core traits, behaviors, and values of what makes effective leaders by focusing on self-awareness, reflection, individual effectiveness, and self-assessment to learn to recognize and utilize the differences between themselves and others. They will learn and apply leadership skills that encourage them to challenge their own beliefs and assumptions about what constitutes a leader. They will grow in their ability to think and respond as leaders in whatever settings they serve. **Prerequisite(s):** LE100 **Lecture Hours:** 2 **Lab Hours:** 0 **Credits:** 2

**HN299 - Introduction to Undergraduate Research**

This course introduces research methods from across undergraduate disciplines. It addresses topics such as how to conduct literature searches, create annotated bibliographies, critically read and analyze research articles, research ethics, IRB requirements, and designing and developing their mentor-led research project. **Prerequisite(s):** HN250 or permission of Honors Academy Director **Lecture Hours:** 2 **Lab Hours:** 0 **Credits:** 2

**HN300 - Research and Writing Orientation**

This course provides a foundation for the completion of the final project in the Honors Option Program as well as opportunities to gain experience in conducting research. **Lecture Hours:** 1 **Lab Hours:** 0 **Credits:** 1

**HN303 - Honors Scholarship I**

This independent study course is structured in which the Honors student works one-on-one with a selected faculty mentor towards completion their individual Honors Research Project. **Prerequisite(s):** HN299 **Lecture Hours:** 2 **Lab Hours:** 0 **Credits:** 2

**HN304 - Honors Scholarship II**

This independent study course is structured in which the Honors student continues to work one-on-one with their selected faculty mentor to complete their individual Honors Research Project. **Prerequisite(s):** HN303 **Lecture Hours:** 2 **Lab Hours:** 0 **Credits:** 2

**HN400 - Honors Seminar**

This is an optional course only for students who need an additional semester to complete their individual Honors Research Project. **Prerequisite(s):** Permission of Honors
Academy Director

**HN410 - Honors Capstone Seminar: Enduring Questions**

This is an interdisciplinary seminar in which students will examine links between their disciplines in real world situations/current events and Park's core values.

**Prerequisite(s):** HN304

**Lecture Hours:** 2 **Lab Hours:** 0 **Credits:** 2

**Human Resource Management**

**HR290 - Selected Topics in Human Resources**

An in-depth examination of a specific area(s) of Human Resources. May be repeated once for credit with a change in topic.

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 1-3

**HR310 - Leadership and Team Building**

This intermediate course examines the principles of leadership and team building, with an application of the principles of real life situations to be implemented. Exercises to use in building a team will be developed.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HR353 - Introduction to Human Resource Management**

Theory, methodology and application of human resource planning and development techniques, staffing analysis and planning, career management, management succession and development, and performance improvement.

**Prerequisite(s):** MG371 or HC351. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** HR301, HRM301

**HR355 - Planning and Staffing**

Examines basic concepts, strategies, and current issues in recruitment, talent acquisition, selection and training. This course involves the use of computer tools to analyze the impacts of legal compliance, diversity, technology, outsourcing, restructuring and downsizing, on the effective management of human resources.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HR357 - Employment Law**

This course presents and examines the federal laws and legal issues surrounding the recruitment, selection, employment, and performance assessment of workers. Issues considered include discrimination, the determination of bona fide occupational qualifications, the use of testing for selection, family leave, and the collective bargaining process.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HR421 - Organizational Training and Development**

This course provides insight into the role of employee training and development. Students will explore the key elements of learning, training needs assessments, training technology trends, along with training design and evaluation. Emphasis will be given to creating a learning environment focused on organizational success and strategic HR Management.

**Prerequisite(s):** HR353 and (MG371 or HC351). All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**HR422 - Organizational Development and Change**

This course will provide the student with an understanding of the basic theories and techniques of organizational development. We will focus on practical information regarding the design, management and control of organizational development programs in business, public sector and social services organizations.

**Prerequisite(s):** HR353 and (MG371 or HC351). All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** HR420, HRM420
HR434 - Compensation Management

A study of compensation theories, policies, systems and practices with emphasis on the design of effective compensation programs. The course views compensation basically from the employer's point of view.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: HR431, HRM431

HR462 - Internship in Human Resource Management

The internship must provide an applied/practical experience consistent with a career position filled by a college graduate. The internship will be approved and overseen by the Human Resource Management Program Coordinator (PC) or a business faculty member approved by the PC. An experience paper is required. One credit hour will be earned by 40 hours of experience connected to the internship learning outcomes.

Prerequisite(s): Open only to students who have completed at least 3 of their courses in Human Resource Management and have an overall GPA of 3.0.
Repeatable for Credit: This class may be repeated to earn a maximum of 6 credit hours at the discretion of the PC.
Grade: Pass/Fail
Lecture Hours: 0 Lab Hours: 0 Credits: 3-6

HR490 - Special Topics in Human Resources

This course consists of the study and analysis of some major aspect(s) of Human Resources concepts at the senior level.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-3

HR491 - Senior Seminar in Human Resource Development

This course is intended to integrate concepts and techniques from the Human Resources curriculum into a framework of applied programs. This course is designed for the advanced student and will give the student an opportunity to investigate and synthesize various concepts of Human Resources management and to relate them to "real world" situations.
Prerequisite(s): MG306, HR353 and (MG371 or HC351). All prerequisites must be passed with a C or better.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: HRM491

HRM634 - Planning and Staffing

This course examines concepts, strategies and current issues in recruitment, talent acquisition, selection and training. The course involves the use of quantitative methods to analyze the impacts of legal compliance, diversity, technology, outsourcing, restructuring and downsizing, on the effective strategic management of human resources.
Credits: 3

HRM635 - Training, Development, and Evaluation

This course examines concepts, strategies and current issues in the training and development of quantitative methods to analyze the impact of training and development on organizational and strategic human resource management outcomes and their effectiveness.
Credits: 3
History: MBA635

HRM636 - Change Management and Conflict Resolution

This course examines concepts, strategies and current issues in change management and conflict resolution, and subsequent downstream effects. Quantitative methods are used to analyze the impact of change and other interventions on organizational and strategic human resource management outcomes, and their effectiveness.
Credits: 3
History: MBA636

HRM637 - Compensation Management

This course examines theory, concepts, strategies and current issues in the design and implementation of compensation and benefit systems, and subsequent downstream effects. The course involves the use of quantitative methods to analyze the impact of compensation and benefit systems on organizational and strategic human resource management outcomes and their
IB302 - International Business Culture

This course explores cultural aspects of global business and leadership to identify the major issues of life and commerce in multicultural environments. Students discuss ethics, and how cultural factors motivate international business decisions and communications. The course offers opportunities to increase the cultural understanding, and communications skills required to function appropriately and successfully within increasingly global and multicultural working environments.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

IB315 - International Business Perspectives

This course examines international business, especially the multinational corporation, from several perspectives: historical, business, political, cultural, economic and environmental. Attention is given to the impact and effect of the MNC upon traditional societies and nationalistic governments. Its future also is considered in the rapidly changing economies of Europe and the Third World.

Prerequisite(s): Junior level status.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

IB331 - International Negotiations

This course introduces the topic of negotiation and the tools needed to negotiate successfully, in general and especially in the international environment. Basic concepts of negotiation are introduced. Team and individual negotiations are included. The special problems of negotiating in foreign countries and among different cultures are emphasized, including an overview of cultural dimensions and examples of negotiating styles typical of some cultures.

Prerequisite(s): IB315. All prerequisites must be passed with a C or better.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

IB420 - International Trade

This course is a workshop for students to learn and practice the theories, tools and procedures of international trade used to identify and enter markets and to grow in the exporting environment. After a theoretical overview, students practice tools for achieving competitive strategies that firms and nations can use to increase export-import success, including Porter’s Diamond. Governmental strategies ranging from import substitution to export promotion are debated. The course also addresses supply chain management primarily for exporting firms and steps in exporting successfully. The world trading system and major organizations are discussed as well as the role of governmental interventions, instruments of trade policy, and major national trade measures. The course stresses the importance of knowing how to study and to evaluate current events to form opinions and predictions and to identify opportunities and threats.

Prerequisite(s): IB315. All prerequisites must be passed with a C or better.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

IB431 - International Finance

An in-depth study of the financing of international transactions and multinational business operations with emphasis on sources of funds, financial services, analysis of currency problems and exchange controls, and the functioning of foreign money and capital markets.

Prerequisite(s): FI360. All prerequisites must be passed with a C or better.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

IB451 - Seminar on International Business

A study of strategic planning and international business policy using extensive reading and cases in the international business field which includes insights into the historical, cultural, and political foundations that created problems and opportunities and the solutions and courses of action taken in response. The course content is flexible and analyzes specific problem areas that are current at the time the course is offered. Each
student will submit a capstone research paper reflecting the standards, substance and quality of a professional international business publication.

**Prerequisite(s):** MG306 and completion or concurrent enrollment in all other international business core courses. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** BA451

**IB461 - International Business Internship**

The internship must provide an applied/practical experience consistent with a career position filled by a college graduate. The internship will be approved and overseen by the International Business Program Coordinator (PC) or a business faculty member approved by the PC. An experience paper is required. One credit hour will be earned by 40 hours of experience connected to the internship learning outcomes.

**Prerequisite(s):** Open only to students who have completed at least 3 of their courses in International Business and have an overall GPA of 3.0.

**Repeatable for Credit** This class may be repeated to earn a maximum of 6 credit hours at the discretion of the PC.

**Grade:** Pass/Fail

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-6

**History:** BA461

**IB490 - Special Topics in International Business**

This course consists of the study and analysis of some major aspect(s) of International Business concepts at the senior level.

**Prerequisite(s):** Permission of the program coordinator.

**Note:** Satisfies advisor approved IIE requirement. **Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**Information Management**

**IM425 - Networking and Security**

This course introduces students to computer networking through the lens of the data communication in a business. Students will learn about distributed applications, networking, networking management and security as it applies to the business environment and the concerns of business management and staff.

**Prerequisite(s):** IS41 All prerequisites must be completed with a C or higher.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**IM435 - Business Analytics**

This course will equip students with entry-level business analytic skill sets and provide a managerial perspective for making sound business decisions. The course reviews the necessary steps needed to create an environment for business analytics, providing an overview of the key concepts, applications, processes, and techniques through relevant case studies related to business analytics. Students will learn about the fundamental concepts of the emerging field of business analytics and apply basic business analytic principles.

**Prerequisite(s):** IS310 and ML315. All prerequisites must be passed with a C or better.

**Fulfills:** 4+1

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**Information Systems**

**IS41 - Applied Computer Technology for Business**

This course utilizes Microsoft Excel and Access as business decision making tools. By utilizing various functionalities provided by the tools, students will learn how to create spreadsheets and databases to facilitate data analysis for making rational business decisions. In particular, the spreadsheet skills include working with formulas and functions, creating worksheets with charts and graphs, and analyzing data using various tools. The database skills include creating and maintaining databases, making database queries, and generating forms and reports.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**IS205 - Managing Information Systems**

This course introduces the student to information systems concepts and the management concerns of information technology. The course focuses on the components, types, and management concerns of information systems which, when
combined, support an enterprise. Students will explore the enterprise perspective on controlling the use of information systems and understanding project changes, risk, and quality management.

**IS310 - Business Applications**

Business Applications provides an advanced opportunity for students to understand issues surrounding the effect of emerging technologies upon multiple organizational environments. Students will explore the use of technology to solve problems as well as gain a strategic competitive advantage in the global market place. Students will individually investigate the advanced capabilities of Office Productivity Software to solve relevant business problems. Upon completion of the course, group case projects will demonstrate knowledge of concepts learned. Students will also have the opportunity to take the MOS exam for Word, Excel, Access, and/or Power Point Certification. The design of the case projects will necessitate the use of analysis, synthesis, and evaluation activities.

**Prerequisite(s):** CS140 or IS141

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** CSC205, CS205

**IS315 - Computer Systems Analysis and Design I**

This course presents various philosophies, terminology, and techniques used in the analysis and implementation of the system development life cycle. The student will investigate such areas as project proposals, logical systems, flow diagrams, data modeling, dictionaries, and documentation. The student will learn how to use a CASE tool.

**Prerequisite(s):** IS205

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** CSC315, CS315

**IS316 - Computer Systems Analysis and Design II**

Continuation of IS315. The student will continue to study the concepts and methods used in a system development life cycle. In addition, the student will gain practical experience by working on various projects. The student will use a CASE tool for his/her project work.

**Prerequisite(s):** IS315

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** CSC316, CS316

**IS361 - Data Management Concepts**

This course provides an overview of data management concepts. This course explores the enterprise perspective of managing data needs of an organization. This includes data integrity, database models, and integration of databases, security, and database administration issues. The student will be introduced to query processing within a database environment.

**Prerequisite(s):** CS152 and CS208

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**IS362 - Applied Database Management**

This course builds on the Data Management Concepts course and focuses on the creation, administration and use of databases. This course assumes a knowledge of database system concepts. The student will be introduced to application program development in a database environment with emphasis on setting up, modifying, and querying a database.

**Prerequisite(s):** IS361

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**IS370 - Information Security**

This course introduces students to the field of information systems security from both managerial and technical perspectives. The topics to be examined include legal and ethical issues in information systems, risk identification and management, security planning, security technology, cryptography, and information system implementation and maintenance.

**Prerequisite(s):** CS365A

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** IS470

**IS450 - Systems Analysis Senior Seminar**

This is a capstone course in which seniors exhibit skills and knowledge gained in the analysis and design of an information systems solution. Students will apply best practices in solving an
organizational problem with technology. Such concepts include: problem solving, methodology, project management, and use of related tools.

**Prerequisite(s):** IS315

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

## Liberal Education

### CE200 - Civic Engagement

This course is designed to allow students to apply real-world hours of community service toward academic credit at Park University. Students may exchange 40 documented service hours for 1 hour of credit. (minimum 3, maximum 9)

**Repeatable for Credit** yes

**Lecture Hours:** 3-9  **Lab Hours:** 0  **Credits:** 3-9

### LE100 - First-Year Seminar

Required for all incoming first-time freshmen and is highly encouraged for transfer students. Park University’s First-Year Seminars are designed to offer first-time freshmen an opportunity to engage in a course structured around writing, small group discussion and oral communication as a means of strengthening core academic skills. Introduction to university life and enhancement of skills for success will be facilitated within the course.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** LS100, PS100, SS100

### LE215 - Selected Topics in Liberal Education

An in-depth examination of specific areas in the general area of liberal education.

**Repeatable for Credit** May be repeated for credit with a change in topic.

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-3

**History:** LS215

### LE299 - Junior-Year Seminar: Liberal Education and the Park Advantage.

This course is designed to introduce students who did not start their education with Park University to the goals of Park’s Liberal Education Program and the resources the University has for its students. The curriculum will be focused Park’s Literacies and the advantages they give Park graduates in pursuing their personal and professional goals.

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

### LE300* - Integrative and Interdisciplinary Learning Capstone

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Note:** Must select specific LE300 topic. **Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

### LE300A - Of Hope & Horror: Literary & Psychological Impact of Holocaust

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

### LE300AA - Strategic Peacebuilding

Presents analytical frameworks for investigating the sources of conflict and the dynamics of conflict resolution, peacebuilding, and post-conflict reconstruction and justice. Students will explore cross-disciplinary connections inherent in the study of conflict, violence, positive peace, and peacebuilding. Practical skills, case studies, and activities that promote peace and justice at the local and global level will be emphasized.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** PC320

### LE300AB - Science and Religion in Dialogue

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing
diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours: 3  Lab Hours: 0  Credits: 3**

### LE300B - Genocide an Interdisciplinary Perspective

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours: 3  Lab Hours: 0  Credits: 3**

### LE300C - Great Works Utopias V. Dystopias

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours: 3  Lab Hours: 0  Credits: 3**

### LE300D - Media and Elections

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours: 3  Lab Hours: 0  Credits: 3**

### LE300E - Arab and Muslim Women's Writing

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours: 3  Lab Hours: 0  Credits: 3**

### LE300G - Terrorism and the Media

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours: 3  Lab Hours: 0  Credits: 3**

### LE300H - Christian Attitudes toward War and Peace

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours: 3  Lab Hours: 0  Credits: 3**

### LE300I - World War II at Sea: Literature, History, & Film

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours: 3  Lab Hours: 0  Credits: 3**

### LE300J - Serial Killers as Heroes in Popular Culture

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.
among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**LE300K - Topics in Autobiographical Writing: War Stories**

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**LE300O - Peace Journalism**

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**LE300L - World Art**

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**LE300P - The Nature of Interdisciplinarity**

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**LE300M - Globalization & the Environment**

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**LE300Q - Postcolonial Literature**

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**LE300N - Mankinds Intellectual Journey: Interdisciplinary Triangle of Philosophy, Ideology & Educational Theory**

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**LE300R - Ethics & Psychology of Humor in Popular Culture**

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3
LE300S - Ethnobiology

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

LE300T - World Language and Culture

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

LE300U - Immigration

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

LE300V - The 1960s: Years of Hope and Rage

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

LE300W - The City

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

LE300Y - Integrative and Interdisciplinary Capstone: Commercial Use of Outer Space

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

LE300Z - Creativity

A seminar for the Liberal Education program, LE300 requires students to integrate the Park University Literacies, synthesizing diverse perspectives to achieve interdisciplinary understanding and exploring the relationships among academic knowledge, professional pursuits, and the responsibilities of local and global citizenship.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

LE310 - Introduction to Interdisciplinary Studies

This course introduces students to the necessity of interdisciplinary approaches for solving complex problems. It also introduces the key concepts of interdisciplinary studies: the history of disciplinarity, disciplinary perspectives, disciplinary insights, the varieties of cross-disciplinary approaches, critical analysis of the disciplines, integration, synthesis, and interdisciplinary research methods.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
LE315 - Special Topics in Liberal Education

An in-depth examination of specific areas in the general area of liberal education.
Repeatable for Credit May be repeated for credit with a change in topic.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-3

LE400 - Senior Project in Interdisciplinary Studies

An independent project option for students completing their Interdisciplinary Studies major. If desired, this course can be taken so the student can work on a capstone project under a particular faculty member’s guidance. The project must have relevance to the student’s two chosen fields. The student and the major advisor must agree on the nature, area, scope, and method of evaluation for the project
Prerequisite(s): LE310
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: LS400

LE410 - Advanced Interdisciplinary Research

The capstone course of the Interdisciplinary Studies major, this course deepens student’s understanding of interdisciplinary and integrative research by introducing them to interdisciplinary research methods and methods of integration such as transdisciplinary problem solving and systems thinking. Throughout the course students develop and complete an independent, interdisciplinary research or creative project that builds holistic understandings and interdisciplinary frameworks to tackle an issue of significant importance.
Prerequisite(s): LE310
Fulfills: Writing Intensive,
Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: LOG201

LG305 - International Logistics

Principles and practices of logistics from an international perspective, with an emphasis on transportation, customs issues, documentation, terms of trade, and global supply chain management. A focus is placed on current events and their impact on logistical activities of firms.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

LG312 - Transportation and Distribution Systems

Principles and practices of transportation and its role in the distribution process. The physical transportation system of the United States and its performance; carrier responsibilities and services; economic and legal bases of rates, freight classification and tariffs; public policy regarding regulation; transportation issues and problems.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: LOG312

LG324 - Contract Management and Law

A study of the procurement and contracting process with emphasis on the organization, policy formulation, procedures, and administration of purchasing activities and functions.
Prerequisite(s): MG260. All prerequisites must be passed with a C or better.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: LOG324

LG400 - Logistics Internship

The internship must provide an applied/practical experience consistent with a career position filled by a college graduate. The internship will be approved and overseen by the Logistics Program Coordinator (PC) or a business faculty member approved by the PC. An experience paper is required. One credit hour will be earned by 40
hours of experience connected to the internship learning outcomes. This class may be repeated to earn a maximum of 6 credit hours at the discretion of the PC.

**Prerequisite(s):** Open only to students who have completed at least 3 of their courses in Logistics and have an overall GPA of 3.0.

**Repeatable for Credit** May be repeated for a maximum of 6 hours.

**Grade:** Pass/Fail

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 3-6

**LG415 - Quality Control**

A study of quality planning and control systems including application and statistical quality control theory to the design of quality control systems; the impact of quality on logistics and the procurement process.

**Prerequisite(s):** MA171. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** LOG415

**LG424 - Purchasing and Vendor Management**

A study of the procurement and contracting process including planning, developing, and contracting for major systems. Topics include: purchasing policy and strategy, value, analysis engineering, quality assurance, make-or-buy decisions, principles of inventory management, institutional and government purchasing management.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** LOG424

**LG426 - Logistics Management**

A critical examination of the logistics system with emphasis on managerial functions within the system and analytical techniques used in planning and control of the various subsystems.

**Prerequisite(s):** HC351 or MG371. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** LOG426

**LG490 - Special Topics in Logistics**

In-depth examination of contemporary issues and developments in the field of Logistics. Topics include, but are not limited to: supply chain management, logistics challenges for the future, warehousing, or procurement.

**Repeatable for Credit** May be taken twice for credit with change of topic.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**Mathematics**

**MA102 - Introductory Algebra**

This developmental course prepares students to complete Park's Liberal Education mathematics requirement. Topics include integer arithmetic, basic algebraic equations, rational numbers, percentages, and basic graphing. This course does not fulfill a graduation or Liberal Education requirement. This introductory course prepares students for the study of algebra. Topics include integer arithmetic, basic algebraic equations, rational numbers, percentages, and basic graphic.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** LOG415

**MA110 - Geometry for Teachers**

**Crosslisted:** EDU110 A consideration of selected topics from basic Euclidean geometry with emphasis on proper terminology and unification of concepts. Techniques available for teaching the basics are discussed.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** MA140

**MA120 - Basic Concepts of Statistics**

A development of certain basic concepts in probability and statistics that are pertinent to most disciplines. Topics include: probability models, discrete random variables, normal distributions, confidence intervals, and hypothesis testing.

**Prerequisite(s):** SAT math score \( \geq 510 \), or ACT math score \( \geq 19 \), or MA102, or successful placement by the Park University placement test, or consent of the instructor.

**Fulfills:** GEM

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** MAT170

**MA125 - Intermediate Algebra**

**Mathematics**

**MA102 - Introductory Algebra**

This developmental course prepares students to complete Park's Liberal Education mathematics requirement. Topics include integer arithmetic, basic algebraic equations, rational numbers, percentages, and basic graphing. This course does not fulfill a graduation or Liberal Education requirement. This introductory course prepares students for the study of algebra. Topics include integer arithmetic, basic algebraic equations, rational numbers, percentages, and basic graphic.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** LOG415

**MA110 - Geometry for Teachers**

**Crosslisted:** EDU110 A consideration of selected topics from basic Euclidean geometry with emphasis on proper terminology and unification of concepts. Techniques available for teaching the basics are discussed.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** MA140

**MA120 - Basic Concepts of Statistics**

A development of certain basic concepts in probability and statistics that are pertinent to most disciplines. Topics include: probability models, discrete random variables, normal distributions, confidence intervals, and hypothesis testing.

**Prerequisite(s):** SAT math score \( \geq 510 \), or ACT math score \( \geq 19 \), or MA102, or successful placement by the Park University placement test, or consent of the instructor.

**Fulfills:** GEM

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** MAT170

**MA125 - Intermediate Algebra**
This course provides a transition into college level Mathematics courses. Topics include the real number system, basic operations of algebra, linear, quadratic and rational equations, inequalities, radicals and exponents, and systems of equations. 

Prerequisite(s): SAT math score ≥ 510, or ACT math score ≥ 19, or MA102, or successful placement by the Park University placement test, or consent of the instructor.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

MA135 - College Algebra

A study of the algebra necessary for calculus. Topics include: Linear and non-linear equations, inequalities and their applications; inverse, exponential and logarithmic functions; complex numbers; and systems of linear equations.

Prerequisite(s): MA125, or an ACT math score ≥ 23, or a SAT math score of ≥ 570, or successful placement by the Park University placement test.

Fulfills: GEM

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: MA131

MA141 - College Trigonometry

A consideration of those topics in trigonometry necessary for the calculus. Topics include: circular functions, identities, special trigometric formulae, solving triangles, polar coordinates, vectors, and conic sections.

Prerequisite(s): MA135, or a high school or transfer course equivalent to MA135, or an ACT math score ≥ 26, SAT mathematics subscore of ≥ 560 (SAT prior to March 2016) or SAT mathematics subscore of ≥ 580.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: MAT141

MA150 - Precalculus Mathematics

A consideration of those topics in algebra and trigonometry necessary for the calculus. Topics include: mathematical analysis of the line, the conic sections, exponential and logarithmic functions, circular functions, polynomial and rational functions, mathematical induction, and theory of equations.

Prerequisite(s): MA125, or an ACT math score ≥ 26, or a SAT math score ≥ 610, or successful placement by the Park University placement test.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: MAT161

MA160 - Precalculus for Majors

A consideration of those topics in algebra and trigonometry necessary for the calculus. Topics include: equations and inequalities, polynomial, rational, exponential and logarithmic functions, trigonometric functions, and trigonometric identities.

Prerequisite(s): MA125, or an ACT math score ≥ 26, or a SAT math score ≥ 610, or successful placement by the Park University placement test.

Lecture Hours: 5 Lab Hours: 0 Credits: 5

MA171 - Finite Mathematics

A course focusing on mathematical concepts that have business applications. Topics include systems of linear equations and matrix concepts, linear programming, basics of sets and counting principles, probability, and introduction to financial mathematics.

Prerequisite(s): MA125, or an ACT math score ≥ 23, or a SAT math score of ≥ 570, or successful placement by the Park University placement test.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

MA208 - Discrete Mathematics

Crosslisted: CS208 This course introduces the student to selected finite systems pertinent to the study of computer science. Course topics will include combinatorial problem solving, logic, Boolean algebra, combinatorial circuits, sets, relations, functions, proofs, mathematical induction, recurrence relations, graphs, trees, and counting techniques.

Prerequisite(s): A grade of C or better in any math course ≥ MA125, or an ACT math score ≥ 23, or an SAT math score ≥ 570, or appropriate score on the Park University math placement test.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: MA209, MA219, MAT209

MA210 - Calculus and Analytic Geometry I

The study of the calculus begins with an examination of the real number system and the Cartesian plane. Additional topics to be
considered include: functions and their graphs, limits and differentiation techniques, the mean value theorem, application of the derivative, indefinite integration, the trigonometric functions.

**Prerequisite(s):** MA141 or MA150 or equivalent.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MAT202

**MA211 - Calculus and Analytic Geometry II**

The study of the calculus continues with the definite integral and its applications, transcendental functions, integration techniques, the conic sections, polar coordinates, parametric equations, indeterminate forms and improper integrals.

**Prerequisite(s):** MA141 or MA210 or equivalent.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MAT203

**MA212 - Calculus and Analytic Geometry III**

The algebra and calculus of vectors and vector functions, constant term sequences and series, power series and convergence criteria.

**Prerequisite(s):** MA211

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MAT204

**MA213 - Calculus and Analytic Geometry IV**

A study of multi-dimensional spaces, functions in multi-dimensional space, partial differentiation, multiple integration.

**Prerequisite(s):** MA212

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MAT205

**MA221 - Calculus and Analytic Geometry for Majors I**

The calculus begins with a study of limits of functions and continuity. Additional topics to be considered include: the derivatives of algebraic, trigonometric, exponential and logarithmic functions, differentiation techniques, applications of differentiation, the Mean Value Theorem, indefinite integration, definite integrals, the Fundamental Theorem of Calculus, and basic rules of integration.

**Prerequisite(s):** MA160  
**Lecture Hours:** 5  
**Lab Hours:** 0  
**Credits:** 5

**MA222 - Calculus and Analytic Geometry for Majors II**

The study of the calculus continues with applications of the definite integral, techniques of integration, improper integrals, constant term sequences and series, power series, convergence criteria, polar coordinates, parametric equations, and conic sections.

**Prerequisite(s):** MA221 or equivalent  
**Lecture Hours:** 5  
**Lab Hours:** 0  
**Credits:** 5

**MA223 - Calculus and Analytic Geometry for Majors III**

The study of the calculus extends further with three-dimensional spaces, vectors, multi-variable functions, partial derivatives and their applications, multiple integration.

**Prerequisite(s):** MA222 or equivalent  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**MA301 - Mathematical Thought**

A transition course for the mathematics major, this offering provides an overview of the subject as a study of systems. Topics include: informal and formal logic, theory of sets, formal development of the number system of mathematics.

**Prerequisite(s):** MA211 or MA221  
**Fulfills:** Writing Intensive,  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**MA302 - Ordinary Differential Equations**

An introduction to ordinary differential equations and their solutions in the complex field. Topics include: series solutions and Laplace transforms.

**Prerequisite(s):** MA222  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MAT302

**MA305 - Probability**
A calculus-based approach to the theory and statistical application of probability. Topics include: discrete and continuous random variables, density and distribution functions, probability models, non-parametric statistics. 

**Prerequisite(s):** MA222 or equivalent.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MA311 - Linear Algebra

Topics include systems of linear equations, matrix algebra, linear transformations, determinants, vector spaces, eigenvalues and eigenvectors, and orthogonality.

**Prerequisite(s):** MA211 or MA221

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MA312 - Abstract Algebraic Structures

A study of several algebraic systems from a postulational viewpoint. Systems studied include groups, rings, integral domains, and fields.

**Prerequisite(s):** MA222 and MA301

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MA350 - History of Mathematics

An introduction to the history of mathematics with emphasis on the contributions of the many and diverse cultures which have influenced the development of the discipline. Cultures studied include: the Egyptians, Babylonians, Greeks, Romans, Arabs, Medieval Europeans, and Renaissance Europeans. Topics include: the Pythagorean Theorem, perfect numbers, classic construction problems, the Golden Ratio, noteworthy mathematicians and current trends. One field trip is required.

**Prerequisite(s):** MA135 and MA141 or MA150

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MA360 - Modern Geometries

A study of the foundations of modern Euclidean geometry as well as finite geometries and non-Euclidean geometries.

**Prerequisite(s):** MA222 and MA301

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MA370 - Number Theory

An introduction to the theory of numbers. Topics include: congruencies and residue classes, the theorems of Euler and Fermat, and number-theoretic functions.

**Prerequisite(s):** MA222 and MA301

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MA380 - Mathematical Statistics

A calculus-based study of probability and statistics for mathematics and science majors. Topics include: sample spaces, random variables and probability distributions, moment generating functions, transformations of random variables, laws of large numbers and the central limit theorem, regression analysis, and analysis of variance.

**Prerequisite(s):** MA305

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MA401 - Analysis

A rigorous treatment of sequences, series, and functions of one real variable. Topics include limits and convergence properties of sequences and series; limits, differentiability, continuity and integration of functions of one real variable.

**Prerequisite(s):** MA401

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MA402 - Topology

An introduction to the topology of Euclidean space, metric spaces, and general topological spaces.

**Prerequisite(s):** MA401

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MA406 - Special Topics in Mathematics

This course provides an opportunity for directed study in areas not necessarily included in formal course work.

**Lecture Hours:** 0  
**Lab Hours:** 0  
**Credits:** 1-3

### Management

### MG101 - Introduction to Management

Basic functions of management with emphasis on the behavioral problems management faces in
adopting and implementing policy.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MGT101

### MG110 - Introduction to Business

Provides for business and non-business students an overview of business in our modern American society. Examines the development of our business system, social responsibility of business, and the functions of management, marketing, personnel, production, accounting, finance investments, insurance, and business law. Career opportunities in business are explored.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MGT110

### MG260 - Business Law I

Introduction to the law: contracts, agency, employment, and negotiable instruments; comparison of social responsibility and legal aspects of selected issues.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MGT260, BA260

### MG261 - Business Law II

A continuation of the study of contracts, agency, employment, and negotiable instruments; comparison of social responsibility and legal aspects of selected issues.

**Prerequisite(s):** MG260  
All prerequisites must be passed with a C or better.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MGT261, BA261

### MG271 - Principles of Supervision

A study of leadership skills for persons in supervisory positions. Topics include: methods of training employees, employee rating, improving personal leadership, interpreting organization policies, and obtaining the maximum results through the efforts of others.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** MGT271

### MG299 - Developing Business Careers

This course is designed to help students understand business career fields and how they position themselves to develop and enhance their business careers. The student will be introduced to the various business majors and related careers, identify their personal career preferences, and develop an academic plan on how to develop their career portfolio to position themselves successfully.

**Lecture Hours:** 1  
**Lab Hours:** 0  
**Credits:** 1

### MG306 - Business Communications

This course provides insight into the principles and practices of business communications. It is grounded in communication theory which is applied to the planning, creating and transmitting of ethical and effective business communication in the global market place. There will be instruction in graphic, electronic and oral presentation as well as report and letter writing. Students will learn how to enhance their business communication with technically based media.

**Prerequisite(s):** EN105 and EN106. All prerequisites must be passed with a C or better.

**Fulfills:** Professional Writing

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

### MG315 - Advanced Business Statistics

This advanced level statistics course explores the complexities of conducting quantitative research for the social and administrative sciences. The course is organized around a research project on quantitative analysis of data.

**Prerequisite(s):** MA171 and IS141. All prerequisites must be passed with a C or better.

**Fulfills:** 4+1

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** EC315

### MG371 - Management and Organizational Behavior

This course is the foundation for the study of management as an academic discipline. As such, the functions, activities and principles of management and organizational leadership in business and other institutions are presented and examined. The philosophy, history, current practices and issues in the areas of motivation and human relations, individual behavior, small group behavior, intergroup behavior, organizational effectiveness, and development are presented and discussed in the context of
managing organizations in a global society.

**Prerequisite(s):** Junior level status within the program.

**Fulfills:** 4+1

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** (MG352 and MG365)

### MG372 - Entrepreneurial Studies

A detailed study of the relationship and functions of accounting, management, financial management, and marketing in the successful initiation and operation of a small business.

**Prerequisite(s):** MG371 or HC351. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** MG354, MGT355

### MG375 - Production and Operations Management

Study of the design, planning and operations and control of manufacturing processes, material management, inventory quality control systems, work measurement and production standards.

**Prerequisite(s):** MA171 and (MG371 or HC351). All prerequisites must be passed with a C or better.

**Fulfills:** 4+1

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** BA375, MGT375

### MG380 - ENACTUS

In conjunction with ENACTUS, students will develop and implement projects that will benefit community businesses and help in the development of entrepreneurial leaders.

**Prerequisite(s) or Corequisite(s):** MK351, (MG371 or HC351) and MG372

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

### MG401 - Senior Seminar in Management

Consideration of managerial problems and/or policies. Topics include: the role of values and assumptions in administrative situations, especially their influence on administrators choices among possible ends and means; the skills, attributes and personal qualities that enhance effectiveness of responsible individuals as they work with others in organizations; and the determinants of organization and executive action.

**Prerequisite(s):** (MG371 or HC351) and MG306 or equivalent. All prerequisites must be passed with a C or better.

**Note:** It is strongly recommended that all major core courses be completed prior to enrolling in this course.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** MGT401

### MG420 - Labor Relations

Consideration of the development, legal environment, and current problems of the industrial relations system. Emphasis is placed upon the historical evolution of both the union movement and the legislative system that shapes its activities.

**Prerequisite(s):** MG371 or HC351. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** MGT420

### MG440 - Complex Organizations

A sociological approach to the study of organizations. Focuses on theoretical perspectives, characteristics of organizations, the interrelationship of organizational variables, and other related topics.

**Prerequisite(s):** MG371 or HC351. All prerequisites must be passed with a C or better.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** MGT440

### MG450 - Project Management

This course presents the full range of topics covered by the PMP Certification Exam. Students address the terms, processes, and skills that are covered in the exam. The course follows Project Management Institute’s knowledge areas of the PMBOK® guide.

**Prerequisite(s):** MG371 or HC351. All prerequisites must be passed with a C or better.

**Fulfills:** 4+1

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

### MG460 - Management Internship

The internship must provide an applied/practical experience consistent with a career position filled
by a college graduate. The internship will be approved and overseen by the Management Program Coordinator (PC) or a business faculty member approved by the PC. An experience paper is required. One credit hour will be earned by 40 hours of experience connected to the internship learning outcomes.

**Prerequisite(s):** Open only to students who have completed at least 3 of their courses in Management and have an overall GPA of 3.0.

**Repeatable for Credit** This class may be repeated to earn a maximum of 6 credit hours at the discretion of the PC.

**Grade:** Pass/Fail

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 3-6

**MG465 - Independent Study in Business**

Individual research dealing with secondary sources on an approved topic in business.

**Prerequisite(s):** Major in business administration, economics or accounting.

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 1-4

**MG490 - Special Topics in Business Administration**

A course based on subjects outside the current offerings.

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 1-3

**MG495 - Business Policy**

A series of business cases and materials dealing with a variety of problems confronting general management selected to illustrate the major areas of managerial concern: environmental opportunities and constraints, formulation of business policy, organization for business activity and marshalling of resources for achieving objectives of the firm.

**Prerequisite(s):** EC141, EC142, FI360, MG260, MG315, (MG371 or HC351), and MG306. All prerequisites must be passed with a C or better.

**Fulfills:** Writing Intensive, LE Ethics

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** MGT400, MG400

**MIS603 - Information Security and Risk Management**

This course will stress the necessity for establishing an organization-wide information security risk management program designed to isolate significant internal and external threats through the application of technical security evaluations. In addition, this course will explore the risks associated with using wireless networks and permitting remote access to corporate information, as well as an examination of current and future administrative, physical, and technical security safeguards. Contingency, business continuity and disaster recovery planning will be covered along with applicable laws and regulations dealing with security and privacy.

**Prerequisite(s):** MIS605

**Credits:** 3

**History:** CIS603

**MIS605 - Management Information Systems**

This course focuses on analyzing the use of information by organization and the different types of information systems. It explores the technological, managerial, and organizational considerations of information systems. The theoretical foundations of information systems and their development, uses, operations, management oversight, control, structure, and impact will be explored. The analysis of information within the organization, the nature of characteristics of computerized information systems, usage of information systems and technology to change the organizational structure and/or work process, and culture will be addressed.

**Fulfills:** 4+1

**Credits:** 3

**History:** CIS600

**MIS608 - Topics in Information Systems**

This capstone course focuses on the integration and synthesis of previous knowledge in information systems. Utilizing information systems and technology to address topics and problems in many functional areas such as marketing, accounting, human resources and management information are stressed. The
adaption of information systems and technology to meet the needs of the ever-changing business environment will also be addressed. Case studies will reinforce lectures.

Credits: 3

MIS609 - Database Management Systems

This course will explore techniques used to design databases and database management systems. Topics such as relational and non-relational databases; knowledge databases (knowledgebase); database operations; data repositories, warehouses, and marts; and data mining will be covered. This course will examine common sources of big data and big data architecture, issues pertaining to the security and privacy of big data and how to identify data that is needed to produce the information and knowledge necessary to answer business questions. Visual analytics will be presented with an emphasis on how it permits end-users to directly interact with the data analysis capabilities of modern computing systems.

Prerequisite(s): MIS605
Credits: 3
History: CIS602

MIS614 - Data Analysis and Business Analytics

This course focuses on how to make well-formed and more expedient business decisions using data. Advanced analytic techniques such as text analytics, machine learning, predictive analytics, data mining, statistics, and natural language processing will be covered. In addition, the synergies associated with analyzing previously untapped data coupled with existing enterprise data will be explored in terms of making sound business decisions. In addition, this course will evaluate common sources of big data, the big data life cycle, big data architecture framework, issues pertaining to the security and privacy of big data and how to identify data that is needed to produce the information and knowledge necessary to answer business questions. Finally, the course will cover the processes associated with project management, such as initiating, planning, executing, monitoring & controlling, and closing projects.

Prerequisite(s): MIS605
Fulfills: 4+1

Credits: 3
History: CIS605

Marketing

MK351 - Principles of Marketing

Examines factors relevant to the marketing mix (product, promotion, distribution, and price) and to marketing management.

Fulfills: 4+1
Lecture Hours: 3 Lab Hours: 0 Credits: 3

MK369 - E-Marketing

This course will address the new technological environments that marketers are facing by introducing strategic considerations related to technology and technology implementation as it impacts the field of marketing. The course will explore the basics of marketing exchange utilizing the Internet, multimedia techniques, database marketing, and interactive telecommunications across delivery platforms. In addition the course will give students hands on experience with relevant software.

Prerequisite(s): MK351. All prerequisites must be passed with a C or better.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

MK380 - Advertising

Crosslisted: CA380 Designed to give the student an understanding of the creation, design, and production of material for advertising campaigns in all media.

Prerequisite(s): MK351 or equivalent. All prerequisites must be passed with a C or better.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: BA380

MK385 - Consumer Behavior

An integrated approach to the study of various behavioral concepts and theories useful for understanding consumer behavior and its relevance to the development of effective marketing strategies.

Prerequisite(s): MK351 All prerequisites must be passed with a C or better.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: MKT385
**MK386 - Retailing Administration**

The basic concepts and analytical tools of retailing; types of organizational structure; store location; personnel; merchandising; promotion; services; and control techniques.  
Prerequisite(s): MK351 or equivalent. All prerequisites must be passed with a C or better.  
Lecture Hours: 3 Lab Hours: 0 Credits: 3  
History: MKT386

**MK389 - Professional Selling**

A study of the personal selling process with emphasis on the contributions of behavioral theories and on the legal, ethical, and social responsibilities of selling professionals.  
Prerequisite(s): MK351. All prerequisites must be passed with a C or better.  
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**MK395 - International Marketing**

An in-depth study of the methods of establishing and servicing foreign markets with emphasis on pricing, promotion, and distribution channels given the complex effects of international, cultural, legal and business practice environments. Exporting, importing and tariff barriers are also covered.  
Prerequisite(s): MK351 and IB315. All prerequisites must be passed with a C or better.  
Lecture Hours: 3 Lab Hours: 0 Credits: 3  
History: MKT456

**MK400 - Special Topics in Marketing**

This course consists of the study and analysis of some major aspect(s) of Marketing concepts at the senior level.  
Lecture Hours: 0 Lab Hours: 0 Credits: 1-3

**MK401 - Sales Management**

Review and analysis of approaches to planning, organizing, training, developing, compensating, directing, and controlling the sales force in support of marketing objectives. Use of case materials.  
Prerequisite(s): MK351. All prerequisites must be passed with a C or better.  
Lecture Hours: 3 Lab Hours: 0 Credits: 3  
History: MKT401, AGR401

**MK405 - Social Media Marketing**

The advent of online social media has revolutionized the way in which consumers connect with each other as well as the way in which firms communicate with their target markets. In this class, we will explore the nature of social media networks and the impact they have had on how businesses operate. The course is aimed at examining, in-depth, social media platforms, social media-related brand management strategies and best practices.  
Prerequisite(s): MK351. All prerequisites must be passed with a C or better.  
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**MK411 - Marketing Management**

Study of the theoretical foundations, the methods and the environment of marketing, management. Topics include: consumer behavior, product policy, channel management, pricing and promotion.  
Prerequisite(s): MK351 and MK385. All prerequisites must be passed with a C or better.  
Lecture Hours: 3 Lab Hours: 0 Credits: 3  
History: MKT411

**MK453 - Marketing Research and Information Systems**

Examines the application of research methods to the problems of marketing. Consideration is given to research procedures, sources of data and management’s use of information for decision making.  
Prerequisite(s): MG315 and MK351. All prerequisites must be passed with a C or better.  
Lecture Hours: 3 Lab Hours: 0 Credits: 3  
History: BA455

**MK455 - Advertising and Promotional Strategies**

A study of the specific role of the various promotional mix elements in relation to the overall marketing strategy.  
Prerequisite(s): MK351 and MK380. All prerequisites must be passed with a C or better.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: MKT455

MK463 - Marketing Internship

The internship must provide an applied/practical experience consistent with a career position filled by a college graduate. The internship will be approved and overseen by the Marketing Program Coordinator (PC) or a business faculty member approved by the PC. An experience paper is required. One credit hour will be earned by 40 hours of experience connected to the internship learning outcomes.

Prerequisite(s): Open only to students who have completed at least 3 of their courses in Marketing and have an overall GPA of 3.0.
Repeatable for Credit This class may be repeated to earn a maximum of 6 credit hours at the discretion of the PC.

Grade: Pass/Fail
Lecture Hours: 0 Lab Hours: 0 Credits: 3-6

MK491 - Seminar in Marketing

Intensive studies of selected current issues in marketing through seminars, workshops, and forums.

Prerequisite(s): MK351, MK411, and MK453. All prerequisites must be passed with a C or better.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: MKT491

MKT631 - Consumer Behavior

This course is designed to review behavioral science concepts applicable to understanding behavior of consumers in the marketplace as related to designing marketing strategy. This includes the nomenclature commonly used by marketers to describe the application of consumer behavior knowledge. Understanding situational influences such as information processing, learning and memory, attitude formation and change, post-purchase behavior, ethical/social issues are integral to marketing strategy formulation through an examination of the consumer decision process, a process foundational to the study of consumer behavior. Topics covered include effects of internal factors (perception, learning, memory, motives, personality, emotions, and attitudes), and external factors (the significance of word-of-mouth marketing and the role of opinion leaders) on consumer decision making, information processing, learning and memory, attitude formation and change, post-purchase behavior, ethical/social issues, and effects on marketing strategy.

Prerequisite(s): MBA630
Credits: 3

MKT632 - Strategic Brand Management

This course approaches the study of brand management by illustrating the formulation of strategically sound brand management programs and the evaluation and control of the implementation of key brand initiatives (new products, advertising support, etc.). Focus is on theories and models to develop and manage brand equity. Specific learning modules include customer development, brand strategy development, brand extension development and annual brand planning. Specific attention is focused on case studies and team projects in building, measuring and managing brand equity. Building and effectively maintaining brand equity is among the top priorities of high performing companies. Effective brand-building and brand management drives superior financial results, consumer loyalty and competitive insulation. This course provides students with insights into how profitable brand strategies can be created and the implications for brand management professionals. The class blends marketing theory and practice to provide perspective on corporate marketing and the brand management function. Therefore, the goal of competitive strategy for a brand is to find a position in the industry where the brand can: 1) articulate a compelling value proposition, 2) defend itself against competitive forces and influence them in its favor and 3) leverage communication resources to sell the brand message and build brand equity.

Prerequisite(s): MBA630
Credits: 3

MKT633 - Digital and Social Media Marketing

This course aims to provide the theoretical knowledge and practical insights for integrating social media and digital marketing into the traditional marketing mix, understanding and
engaging social media consumers, and monitoring and measuring the results of these efforts. Students will learn how to manage digital and social media, be able to understand the psychology of online consumers, the impact of digital and social media on traditional marketing strategy, review the digital and social media marketing process, critically evaluate the various social media platforms and online content, and successfully measure the impact of digital marketing efforts. Specific topics to be discussed include: Search Engine Marketing, Google AdWords, Google Analytics and Facebook Insights. Social media technologies are continuously transforming the ways consumers interact with each other and firms. These changes constitute a fundamental shift in the marketplace--consumers have greater opportunities to voice their opinions and connect with other consumers as well as an increased influence over marketers and brands. As a result, the conventional approaches to marketing communications have become more and more challenged. This puts an added emphasis on leveraging social media to engage consumers and propagate ideas, messages, products, and behaviors. This course takes an in-depth look at the relationship between media and human behavior, and examines how organizations capitalize on social media, and these consumer to-consumer interactions, to support their marketing efforts. Students will get hands-on experience creating comprehensive social media strategies for active brands.

**Prerequisite(s):** MBA630  
**Credits:** 3

**MKT634 - Strategic Marketing Simulation**

Students will participate in a group simulation activity and will have hands on 'live' experience, making strategic marketing decisions that affect the business viability in work teams. Students master the marketing concepts of production, channels of distribution, branding, promotion, segmentation, targeting, pricing and competition as they make decisions that affect the future profitability of the business entity.

**Prerequisite(s):** MBA630, MKT631, MKT632, and (MKT633 or CIS608)  
**Credits:** 3

**MBA500 - Management Foundations**

Successful leaders must understand basic fundamentals of a business functions for proper academic success and decision making. Emphasis in this course is placed on the necessary classroom and business fundamentals to assist students in being successful throughout their MBA courses. This introduction to the MBA program is designed for all students to refresh their knowledge develop a foundation for success in the MBA curriculum. Students will learn the key attributes of effective techniques for writing, research, and navigating the learning management systems.

**Note:** Must take this course first unless approved for an exception by the program director.  
**Credits:** 3

**MBA515 - Accounting for Management Decisions**

This course emphasizes the use of accounting data and analytical techniques employed by management for decision-making in for-profit and not-for-profit businesses and governmental organizations. Students will study, evaluate and apply analytical techniques as part of the broader management accounting process used to analyze, evaluate and convey their recommendations concerning economic events related to management decisions. Areas covered include: cash flow analysis, financial statement analysis, ratio analysis, variable costing, product costing, cost prediction, cost-volume-profit considerations, operational budgeting, variance analysis, return on investment and capital budgeting decisions. The course uses discussion, problems, accounting case studies and a term project to evaluate the student’s comprehension of the material.

**Prerequisite(s):** MBA 500  
**Fulfills:** 4+1  
**Credits:** 3  
**History:** AC515, AC600

**MBA522 - Organization Behavior and Leadership**

Achieving optimal effectiveness in today's workplace is a challenge for even the most seasoned leaders. In order to remain competitive in a domestic and global market, leaders need to
be able to leverage internal competencies to create a culture that fosters innovation while instilling an entrepreneurial spirit throughout the firm. Students will learn how leadership styles directly influence the organizational culture; affect problem-solving, workplace stress, and conflict resolution; and influence the level of motivation within an entity. In addition, students will explore the linkages between power and politics, change management, and organizational success, as well as the challenges, benefits, and tactical approaches to forming and managing high performing, diverse workgroups and teams. Finally, students will learn the key attributes of successful leaders to include professionalism, being accountable for one’s own actions and those of subordinates, the ability to demonstrate flexibility and adaptability when situations are dynamic and expectations are ambiguous, an awareness of the ethical implications of decision-making, establishing a shared vision, effective communication, and working well within groups and autonomously to achieve established goals and objectives.

**Prerequisite(s):** MBA 500

**Fulfills:** 4+1

**Credits:** 3

**MBA524 - Business Law and Ethics**

This course examines the legal and ethical environment of business with particular attention to principles of law relating to business operations. The course emphasizes how organizational leaders identify, address, minimize, and prevent legal and ethical issues in areas of law important to business including: constitutional law; properly law, with a focus on intellectual property; contract law, including UCC Article 2, Statute of Frauds remedies, and e-commerce; tort law, including intentional, negligence, strict, and product liability; criminal law, including cybercrime, white-collar crime, and the Sarbanes-Oxley Act; regulatory law; agency and employment law; international law; forms of business organization; bankruptcy law; and litigation and alternative dispute resolution. Finally, students will be expected to apply critical thinking and legal reasoning to consider both the legal and ethical impacts of decision-making and business practice.

**Credits:** 3

**MBA576 - Operations Management**

This course focuses on the vital concepts, issues, and techniques for efficient and effective operations to produce goods and services for consumers and/or businesses. Special emphasis is placed on process improvement logistics and supply chain management; planning; organizing and managing or resources to accomplish organizational objectives within a variety of business structures. Topics include operations strategy; product and service design; project management; operational planning; return on investment analysis process design and analysis; capacity planning; lean production systems; purchasing; materials and inventory management, forecasting; quality management and six sigma; and operational analysis and benchmarking.

**Prerequisite(s):** MBA 500

**Fulfills:** 4+1

**Credits:** 3

**MBA611 - Green Marketing**

This is an environmental marketing course dealing with issues related to the environment. Topics covered are centered around the theoretical basis, managerial perspective, public policy viewpoint, or for empirical evidence of environmentalism. This course also covers a wide array of topics from segmentation of product, advertising and distribution strategies, and from a micro to a macro perspective. It represents an excellent tool for understanding and researching environmental marketing.

**Credits:** 3

**History:** MK615

**MBA615 - Managerial Finance**

This course covers a comprehensive analysis of financial management issues faced by financial managers in today's business environment. This course will cover time value analysis, financial risk and required return long-term financing; LT debt financing, equity financing and security markets, capital structure and the cost of capital; capital investment decision: capital budgeting, project risk analysis; current asset management and financing; financial condition analysis, lease financing and business valuation financial risk management; and consider ethical implications associated with financial practices and decision-making. Emphasis will be on operational definitions of financial concepts and analytical
techniques to real world situations confronted by management.

**Prerequisite(s):** MBA515 or equivalent  
**Fulfills:** 4+1  
**Credits:** 3  
**History:** FI615, BA615

**MBA620 - Leadership in Organizations**

The course discussions will focus on leadership in organizations, problem-solving techniques and communication, coordination, and human relation skills required for managerial success. Topics covered include principles and practices of management functions such as planning, organizing, motivating and controlling.

**Credits:** 3  
**History:** MG620, BA620

**MBA630 - Strategic Marketing**

Strategic Marketing encompasses the vision of marketing as a value creating process that is essential to the formulation of a customer-driven strategy by selecting target markets, setting objectives and developing, implementing, and managing marketing programs designed to meet the value requirements of the customers in each market. Students will study strategic positioning, market opportunities, pricing strategies, market analysis, as well as product differentiation with an overarching goal to ensure the firm maintains a competitive advantage within its current and future markets. Strategic and tactical analysis of the marketing mix will be covered in a decision making focus, together with considerations of globalization, leadership, data driven decision making, and integrated marketing for brand building and equity. This course uses an application-oriented approach to study marketing strategy and incorporates real-world examples of marketing strategies adopted by both large and small companies in a variety of business areas.

**Prerequisite(s):** MBA 500  
**Fulfills:** 4+1  
**Credits:** 3  
**History:** MK630

**MBA670 - Special Topics in Business**

In this course, current topics in business are extensively discussed, including business ethics, labor relations, financial planning or any of a wide variety of subjects in business curriculum, such as entrepreneurial research, entrepreneurial education or entrepreneurial investments.

**Credits:** 1-3  
**History:** MG670, BA670

**MBA695 - Strategic Management**

One of the key factors of success for an organization is the ability to not only find and implement sustainable competitive advantages but also implement actions to respond and adjust strategies as needed. This requires leaders to apply research and analysis when leading decision making and policy changes at the organizational and functional levels for long-term performance of an organization. Strategic skills include strategic thinking, choosing competitive strategies, strategic planning, crafting and defending competitive advantages, defining goals, and allocating critical resources. This course enables students to build skills in strategy formulation, implementation, evaluation and control by applying a variety of tools and techniques related to strategic analysis. Students then use that analysis to formulate organizational goals, tactical implementation to reach goals, and monitor plans. Students will use internal and external data as part of the planning, implementation and monitoring processes in order to sustain a competitive advantage in current and future domestic and global markets.

**Prerequisite(s):**  
MBA515, MBA522, MBA524, MBA576, MBA615, MBA630 or equivalent by the MBA Director.  
**Credits:** 3  
**History:** MG695, BA610

**Military Science**

**MI102 - Leadership Practicum I**

Examines leadership in basic tactical and patrolling operations. Includes a tactical application exercise and participation in physical fitness conditioning as a course requirement. Students practice leadership according to 16 principles and learn basic individual soldier skills.

**Lecture Hours:** 2  
**Lab Hours:** 0  
**Credits:** 2

**MI110AF - Air Force ROTC Fitness**
Introduction to various AFROTC team sports. Promotes benefits of being physically fit and maintaining Air Force fitness standards.

**Lecture Hours:** 1  
**Lab Hours:** 0  
**Credits:** 1  

**MI111AF - Heritage and Values I**

Is a survey course designed to introduce students to the United States Air and Space Forces and provides an overview of the basic characteristics, missions, and organization of the Air and Space Forces.

**Lecture Hours:** 1  
**Lab Hours:** 0  
**Credits:** 1  

**MI112 - Leadership Practicum II**

Continuation of MI102. Examines advanced squad and platoon tactical operations with emphasis on patrolling operations. Topics include: leadership techniques, basic first aid, and problem-solving exercises. A tactical field application exercise and physical fitness conditioning program are included as course requirements. Students perform duties as leaders of small units.

**Lecture Hours:** 2  
**Lab Hours:** 0  
**Credits:** 2  

**MI112AF - Heritage and Values II**

Is a survey course designed to introduce students to the United States Air and Space Forces and provides an overview of the basic characteristics, missions, and organization of the Air and Space Forces.

**Lecture Hours:** 1  
**Lab Hours:** 0  
**Credits:** 1  

**MI116 - Foundations of Officership**

The course introduces the student to issues and competencies that are central to a commissioned officer’s responsibilities. These initial lessons establish a framework for understanding officership, leadership, and Army values. Additionally, the semester addresses "life skills" including fitness and time management. This course is designed to give the student an accurate insight into the Army profession and the officer's role in the Army.

**Lecture Hours:** 1  
**Lab Hours:** 0  
**Credits:** 1  

**MI126 - Basic Leadership**

This course builds upon the fundamentals introduced in MI116 Foundations of Officership, by focusing on leadership theory and decision making. "Life Skills" lessons in this semester include: problem solving, critical thinking, leadership theory, followership, group interaction, goal setting, and feedback mechanisms. Upon completion of this semester, students are prepared to advance to more complex leadership instruction concerning the dynamics of organizations. Additionally, students will be increasingly required to demonstrate knowledge of leadership fundamentals and communications (written and oral).

**Prerequisite(s):** MI116 or the consent of the Department Chairperson.

**Lecture Hours:** 1  
**Lab Hours:** 0  
**Credits:** 1  

**MI202 - Leadership Practicum III**

Course examines squad and platoon offensive and defensive operations and leadership procedures in patrolling operations. Includes a tactical application exercise and participation in physical fitness conditioning as a course requirement. Students will perform various leadership roles and present classroom instruction.

**Prerequisite(s):** To be taken concurrently and required for students in MI216.

**Lecture Hours:** 2  
**Lab Hours:** 0  
**Credits:** 2  

**MI210AF - Leadership Laboratory**

Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of the Air Force second lieutenants and complement the AFROTC academic program. It is a student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander. For AS100/200 level cadets.

**Lecture Hours:** 1  
**Lab Hours:** 0  
**Credits:** 1  

**History:** 9/21/21  

**MI211AF - Team and Leadership Fundamentals I**

Provides a fundamental understanding of both leadership and team building. The lessons and course flow are designed to prepare students for
field training and leadership positions in the detachment.

**Lecture Hours:** 1  **Lab Hours:** 0  **Credits:** 1

**MI212 - Leadership Practicum IV**

Continuation of MI202 to examine advanced squad and platoon offensive and defensive operations, reaction to obstacles, and leadership procedures in patrolling operations. Includes a tactical application exercise and participation in physical fitness conditioning as a course requirement. Students will perform in various leadership roles and present classroom instruction.

**Prerequisite(s):** To be taken concurrently and required for students in MI226

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

**MI212AF - Team and Leadership Fundamentals II**

Provides a fundamental understanding of both leadership and team building. The lessons and course flow are designed to prepare students for field training and leadership positions in the detachment.

**Lecture Hours:** 1  **Lab Hours:** 0  **Credits:** 1

**MI216 - Individual Leadership Studies**

This semester is designed to develop within the student a knowledge of self, self-confidence and individual skills. Through experiential learning activities, students will develop problem solving and critical thinking skills, and apply communication, feedback and conflict resolution skills. Building upon the fundamentals introduced in MI116/MI126 this course delves into several aspects of communication and leadership theory. The focus of the semester is on critical "life skills" which will enable the student’s future success. The course concludes with a major leadership and problem solving case study which draws upon previous instruction.

**Prerequisite(s):** MI116 and MI126 or the consent of the Department Chairperson.

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

**MI226 - Leadership and Teamwork**

This course focuses on self-development guided by knowledge of self and group processes.

Experiential learning activities are designed to challenge students current beliefs, knowledge and skills. This semester takes the approach of placing students in a wide variety of group exercises designed to emphasize various leadership competencies and insights. The instructor, acting as facilitator, helps guide student processing of the events to derive the leadership, group dynamics and problem solving lessons that the exercises offer. Practical "life skills" are emphasized throughout.

**Prerequisite(s):** M116, M126, and MI216 or the consent of the Department Chairperson.

**Corequisite(s):** To be taken concurrently with MI212

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

**MI302 - Leadership Practicum V**

Examines squad and platoon offensive and defensive operations, the patrol leader in patrolling operations, and a tactical application exercise. Participation in physical fitness conditioning and a tactical application exercise is required. Students will perform in various leadership roles and present classroom instruction.

**Prerequisite(s):** Advanced-course status, to be taken concurrently, and required for students enrolled in MI316.

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

**MI312 - Leadership Practicum VI**

Familiarize squad and platoon offensive and defensive operations, the patrol leader in patrolling operations, and a tactical application exercise. Participation in physical fitness conditioning and a tactical application exercise is required. Students will perform in various leadership roles and present classroom instruction.

**Prerequisite(s):** Advanced-course status, to be taken concurrently, and required for students enrolled in MI316.

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

**MI316 - Leadership and Problem Solving**

Provides the student with no prior military or cadet experience the ability to quickly learn essential cadet knowledge and skills necessary for
successful performance of cadet tasks. Following an introduction to the principles of physical fitness and healthy lifestyles lessons will cover: the Leader Development Program, how to plan and conduct individual and small unit training, basic tactical principles, reasoning skills and the military specific application of these skills in the form of the Army’s troop leading procedures. The course concludes with a detailed examination of officership which culminates in a five-hour officership case study.

**Prerequisite(s):** 6 credits in Military Science, and Department Chairperson approval and concurrent enrollment in MI302.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**MI321AF - Leading People and Effective Communication I**

Utilizes student's field training experience to take a more in-depth look at leadership. Special emphasis is placed on enhancing communication skills, and why that is important as a leader. Students have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**MI322AF - Leading People and Effective Communication II**

Utilizes student's field training experience to take a more in-depth look at leadership. Special emphasis is placed on enhancing communication skills, and why that is important as a leader. Students have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**MI326 - Leadership and Ethics**

Continues the focus from MI316 on doctrinal leadership and tactical operations at the small unit level. Instructional modules include: Army branches, Army Leadership philosophy, dynamics of a group environment, oral and written presentation skills, culminating in instruction in National and Army values and ethics. This critical semester synthesizes the various components of training, leadership and team building.

**Prerequisite(s):** MI316 and concurrent enrollment in MI312

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**MI402 - Leadership Practicum VII**

Practical applications in problem analysis, decision making, planning and organization, delegation and control, and development of interpersonal skills required for effective management. Participation in physical fitness conditioning and tactical application exercise is required. Students will perform in various leadership positions and present classroom instruction.

**Prerequisite(s):** Advanced-course status, to be taken concurrently, and required for students enrolled in MI416.

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

**MI410AF - Leadership Laboratory**

Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of the Air Force second lieutenants and complement the AFROTC academic program. It is a student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander. For AS300/400 level cadets

**Repeatable for Credit**  Repeatable for credit.

**Grade:** Pass/fail

**Lecture Hours:** 1  **Lab Hours:** 0  **Credits:** 1

**MI412 - Leadership Practicum VIII**

Practical applications in problem analysis, decision making, planning and organization, delegation and control, and development of interpersonal skills required for effective management, includes a tactical application exercise. Participation in physical fitness conditioning is required. Students will perform various leadership roles and conduct classroom instruction.

**Prerequisite(s):** Advanced course status, to be taken concurrently, and required for students enrolled in MI426

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

**MI416 - Leadership and Management**
A series of lessons designed to enable students to make informed career decisions as they prepare for commissioning and service as Second Lieutenants. Classes concentrate on Army operations and training management, communications and leadership skills which support the final transition from cadet/ student to Lieutenant/leader. Subjects include: The Army Training Management System, coordinating activities with staffs, and counseling skills. At the end of this semester students should possess the fundamental skills, attributes and abilities to operate as a competent leader in the cadet battalion.

**Prerequisite(s):** Advanced Course status and concurrent enrollment in MI402

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

### MI426 - Officership

A series of lessons that provide a review of the ethical dimensions of leadership, Law in Leadership, Organizing for Military Operations to include historical case studies, Personnel, Supply and Maintenance administration and management, personal financial planning and entering the service. The semester concludes with a 12 lesson experiential exercise simulating assignment as a new Lieutenant in a unit.

**Prerequisite(s):** MI416; Advanced Course status and concurrent enrollment in MI412

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

### MI441AF - National Security Affairs/Preparation for Active Duty I

Is designed for college seniors and gives them the foundation to understand their role as military officers and how they are directly tied to our National Security Strategy. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

### MI442AF - National Security Affairs/Preparation for Active Duty II

Is designed for college seniors and gives them the foundation to understand their role as military officers and how they are directly tied to our National Security Strategy. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

### Modern Languages

#### CN103 - Elementary Chinese I

An introductory course with emphasis on pronunciation and the basic elements of grammar; practice in understanding, speaking, reading, and writing. Some lab required.

**Lecture Hours:** 3 **Lab Hours:** 1 **Credits:** 4

#### CN104 - Elementary Chinese II

The introduction of more complex elements of grammar; additional practice in understanding, speaking, reading, and writing. Some lab required.

**Prerequisite(s):** CN103 or equivalent.

**Lecture Hours:** 3 **Lab Hours:** 1 **Credits:** 4

#### FR103 - Elementary French I

This course will introduce students to the four language skills (speaking, listening, reading and writing) that will enable them, on a limited basis, to understand and communicate about topics of everyday importance. Through various media, students will also learn about cultural differences in the French-speaking world. Some lab required.

**Lecture Hours:** 3 **Lab Hours:** 1 **Credits:** 4

#### FR104 - Elementary French II

This course continues to develop competency in producing the French language, both spoken and written. Emphasis is placed upon student's ability to communicate effectively in short conversations and basic writings, as well as to grasp the
meaning of what they hear and read. Some lab required.

**Prerequisite(s):** FR103 or equivalent.
**Lecture Hours:** 3 **Lab Hours:** 1 **Credits:** 4

**FR201 - Intermediate French I**

Students work on building vocabulary and comprehension and increasing speaking ability. Everyday life situations and current events are discussed in class. A grammar review will be included.

**Prerequisite(s):** Two years of high school French.
**Fulfills:** LE Humanities
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**FR202 - Intermediate French II**

A continuation of FR201. Vocabulary is put to added work in composition.

**Prerequisite(s):** Two and one half years of high school French.
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**FR310 - Independent Readings in French**

Materials and credit to be arranged with the instructor.

**Prerequisite(s):** FR202 or three years of high school French.
**Repeatable for Credit** May be repeated for up to six hours of credit with permission of the instructor.
**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 1-3

**GE103 - Elementary German I**

Areas covered in this course include: grammar, vocabulary building, conversation, comprehension and writing, with an introduction to German culture and civilization. Some lab required.

**Lecture Hours:** 3 **Lab Hours:** 1 **Credits:** 4

**GE104 - Elementary German II**

This course continues the development of speaking, comprehension, reading and writing skills and study of German culture and civilization begun in GE103. Some lab required.

**Prerequisite(s):** GE103 or equivalent.
**Lecture Hours:** 3 **Lab Hours:** 1 **Credits:** 4

**GE201 - Intermediate German I**

Students work on building vocabulary and comprehension and increasing speaking ability. Everyday life situations and current events are discussed in class. A grammar review of GE103 and GE104 is also included.

**Prerequisite(s):** GE104 or two years of high school German.
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**GE202 - Intermediate German II**

A continuation of GE201. Vocabulary is put to added work in composition.

**Prerequisite(s):** GE201 or two and one half years of high school German.
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**ML100-300 - Exploring Modern Languages**

Course designed to allow the teaching of modern languages not found in the normal course offerings.

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 3

**ML105A - Exploring Global Cultures: Latin America**

This is an introductory course designed to help understand global issues. Depending on the section you choose, you will explore different parts of the world: a. Latin America; b. Francophone; c. East Asian or d. Arab Cultures. This course provides a general understanding of the culture, history and traditions of the selected culture, compare and contrast them with those from the US. It also offers very basic language skills of such culture.

**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 3

**ML105B - Exploring Global Cultures: Francophone**

This is an introductory course designed to help understand global issues. Depending on the section you choose, you will explore different parts of the world: a. Latin America; b.
Francophone; c. East Asian or d. Arab Cultures. This course provides a general understanding of the culture, history and traditions of the selected culture, compare and contrast them with those from the US. It also offers very basic language skills of such culture.

**Lecture Hours: 3**  **Lab Hours: 0**  **Credits: 3**

**ML105C - Exploring Global Cultures: East Asian**

This is an introductory course designed to help understand global issues. Depending on the section you choose, you will explore different parts of the world: a. Latin America; b. Francophone; c. East Asian or d. Arab Cultures. This course provides a general understanding of the culture, history and traditions of the selected culture, compare and contrast them with those from the US. It also offers very basic language skills of such culture.

**Lecture Hours: 3**  **Lab Hours: 0**  **Credits: 3**

**ML105D - Exploring Global Cultures: Arab**

This is an introductory course designed to help understand global issues. Depending on the section you choose, you will explore different parts of the world: a. Latin America; b. Francophone; c. East Asian or d. Arab Cultures. This course provides a general understanding of the culture, history and traditions of the selected culture, compare and contrast them with those from the US. It also offers very basic language skills of such culture.

**Lecture Hours: 3**  **Lab Hours: 0**  **Credits: 3**

**ML235 - Survey of European Literature**

Introduction to major European literary genres from the earliest expressions to modern times. An examination of the literary, historical cultural position of selected writers and literary movements. Relationships among each country's literary expressions will be emphasized. Special attention will be given to Homer, Dante, Boccaccio, Chaucer, Moliere, Shakespeare, Cervantes, and the Romantic movement in Italy, France, Germany and England.

**Fulfills: LE Humanities**

**Lecture Hours: 3**  **Lab Hours: 0**  **Credits: 3**

**ML251 - Heroes and Rebels in Early European Literature**

From Greek mythology through legends of the Middle Ages to literature of the Renaissance, this course will illustrate great literary contributions of the European tradition, works that still shape thinking in the modern world.

**Fulfills: Writing Intensive, LE Humanities**

**Lecture Hours: 3**  **Lab Hours: 0**  **Credits: 3**

**ML315 - Selected Topics in Literature and Culture**

An advanced level course that examines issues pertaining to issues of culture, society, literature, and history.

**Lecture Hours: 3**  **Lab Hours: 0**  **Credits: 3**

**SP103 - Elementary Spanish I**

This course offers a broad introduction to the study of the language in it diverse contexts with a focus on grammar, and oral and written comprehension. Some lab required. Presumes no previous experience with the language.

**Lecture Hours: 3**  **Lab Hours: 1**  **Credits: 4**

**SP104 - Elementary Spanish II**

This course introduces more complex elements of grammar and includes student-generated dialogues, short interviews and brief essays as a basis for the practices of speaking, comprehension, reading and writing skills. Some lab required.

**Prerequisite(s):** SP103 or equivalent or one year of high school Spanish

**Lecture Hours: 3**  **Lab Hours: 1**  **Credits: 4**

**SP110 - Spanish for Health Care Professionals**

In this course, students will develop basic speaking, listening, reading and writing skills specific to careers in the health care industry. The course will also explore cultural contexts relating to the provision of health care in multicultural environments. Previous experience with Spanish is not required.

**Fulfills: LE Humanities**

**Lecture Hours: 3**  **Lab Hours: 0**  **Credits: 3**
SP201 - Intermediate Spanish I

In this course students review basic concepts of the language while expanding reading comprehension and writing skills. Readings focus on the study of Hispanic cultures.
Prerequisite(s): Two years of high school Spanish or permission of the Program Coordinator
Fulfills: LE Humanities
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP202 - Intermediate Spanish II

A continuation of the grammatical and cultural studies undertaken in SP201. This course includes content-based projects in the target language.
Prerequisite(s): SP201 or four years of high school Spanish.
Fulfills: LE Humanities
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: SPN301

SP203 - Business Spanish I

An intermediate level review of grammar through the study of business terminology and transactions.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP204 - Business Spanish II

An advanced intermediate review of grammar through the study of business terminology and cultural interaction.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP205 - Issues in International Business

A study of global markets accompanied by interactive role-playing, case studies and problem-solving.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP213 - Spanish for Health Care I

An intermediate level review of grammar through the study of cultural skills and medical terminology when interacting with patients.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP24 - Spanish for Health Care II

An advanced intermediate level review of grammar through the study of cultural skills and medical terminology when interacting with patients.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP294 - Intermediate Spanish Conversation

The course consists of a variety of sources and topics for the improvement of oral language skills. Forums for conversation include individual presentations, pair presentations and groups discussion in Spanish based on readings, individual research, movies, plays and excursions. This course includes a review of advanced grammar concepts.
Prerequisite(s): SP202 or equivalent, four years of high school Spanish.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP295 - Intermediate Spanish Composition

Writing in Spanish at the intermediate level, including a review of grammar. Short essays and other practical exercises in composition.
Prerequisite(s): SP202 or equivalent.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP301 - Advanced Spanish Conversation

Based on the viewing of U.S. Latino, Spanish and Spanish American films, this course emphasizes the practice of oral communication skills and analytical approaches to film reviews. Taught in Spanish.
Prerequisite(s): SP294 or equivalent.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP302 - Advanced Grammar and Composition

In this course the student develops advanced-level reading and writing skills through the analytical interpretation of short texts by Hispanic writers. Taught in Spanish.
Prerequisite(s): SP295 or equivalent.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
SP310 - Independent Readings in Spanish

Material and credit to be arranged with the instructor.
Prerequisite(s): SP202 or four years of high school Spanish.
Repeatable for Credit May be repeated for up to six hours of credit with permission of the instructor.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-3

SP311 - Culture and Civilization of Spain

Further development of written and spoken Spanish through the study of the culture and civilization of Spain. This course is taught in Spanish.
Prerequisite(s): SP294 and SP295 or equivalent.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP312 - Cultures and Civilization of Spanish America and the Hispanic Caribbean

Taught in Spanish, this course examines aspects of the history and cultures of Spanish America and the Hispanic Caribbean from pre-Columbian to contemporary times. Topics covered include: indigenous civilizations, the Spanish Conquest and occupation, the legacies of empire, dilemmas of national development, the changing roles of women, military dictatorships, and the "disappeared," contemporary Indian cultures and social realities, the narcotic industry, "third-world" debt and issues of national sovereignty.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP320 - U.S. Latino Cultures and Literatures

An advanced course that examines issues pertaining to U.S. Latino culture, society, literature, and history.
Fulfills: Writing Intensive,
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP322 - Reading Cervantes' Masterpiece: Don Quixote

Taught in English, this course examines Don Quixote with consideration of the Exemplary Novel and the background of Renaissance Prose. Open to Spanish and non-Spanish majors.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP348 - Professional Service Learning Experience for Spanish

Designed to support successful completion of an on- or off-campus service learning by providing academic readings, research, and dialogue to enhance the experiential learning. This course is designed for active participation in community-based organizations that require the use of Spanish with clients. Students will have the opportunity to encounter real-life experiences that will allow them opportunities to expand their knowledge and develop critical thinking and problem solving skills. At least one semester prior to enrolling, the student must submit a description of the service learning and proposed academic complement for approval by his/her faculty mentor. Conducted in Spanish and English
Prerequisite(s): Junior or senior status.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP394 - Introduction to the Literature of Spain

Presents key works of Spanish literature, from the Middle Ages to contemporary times. The selection of texts is designed not only to introduce major writers, but also to seek further insights into the Spanish culture. This course is taught in Spanish.
Prerequisite(s): SP301, SP302 or equivalent.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP395 - Introduction to the Literatures of Spanish America and the Hispanic Caribbean

Taught in Spanish, this course explores the literature of Mexico, Central and Spanish America.
Prerequisite(s): SP294 and SP295 or equivalent, or permission of the Department Chair.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SP399 - The Major Capstone Project
An individual or joint research project that involves hands-on learning with a written report in Spanish and a final oral presentation in Spanish of the work undertaken.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

### Music

**MU120 - Chamber Music I**

Study and performance of music for chamber orchestra.

**Prerequisite(s):** (Majors Only)

**Note:** May be repeated up to 2 times

**Repeatable for Credit** Yes

**Lecture Hours:** 0  **Lab Hours:** 2  **Credits:** 1

---

**MU130 - Collaboration I**

Developing skills of playing music for chamber orchestra.

**Prerequisite(s):** (Majors Only)

**Note:** May be repeated up to 2 times

**Repeatable for Credit** Yes

**Lecture Hours:** 0  **Lab Hours:** 2  **Credits:** 1

---

**MU205 - Music Appreciation**

A course designed to acquaint the student with the basic materials and history of music. Emphasis is on aural analysis and attendance at live performance.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**MU220 - Musicianship Development**

This course offers students a greater insight into enhancing listening and perceptive skills by attending concerts, preparing aural and written critiques, and observing lessons with faculty outside their primary instrument.

**Prerequisite(s):** (Majors Only)

**Repeatable for Credit** This course may be repeated for credit up to 6 times.

**Lecture Hours:** 1  **Lab Hours:** 0  **Credits:** 1

---

**MU221 - Music Theory I**

A study of the fundamentals of harmony and basic elements of sight-singing, melodic dictation, rhythmic dictation, keyboard, timbre, texture, and form used both in aural and visual analysis.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**MU222 - Music Theory II**

A continuation of the fundamentals of harmony and basic elements of sight-singing, melodic dictation, rhythmic dictation, keyboard, timbre, texture, and form used both in aural and visual analysis.

**Prerequisite(s):** MU221

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**MU230 - Performance**

Opportunity to perform in a simulated concert environment with critical feedback.

**Prerequisite(s):** (Majors Only).

**Note:** May be repeated up to 2 times

**Repeatable for Credit** Yes

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

---

**MU260 - Introduction to Music**

A comprehensive survey of Western music from its known beginnings to the present.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** MU250

---

**MU280 - Orchestra I**

Study and performance of music for orchestra.

**Prerequisite(s):** (Majors Only)

**Note:** May be repeated up to 4 times

**Repeatable for Credit** Yes

**Lecture Hours:** 0  **Lab Hours:** 3  **Credits:** 1

---

**MU290* - Applied Music I**

Individual lessons offered in piano, violin, viola, and cello.

Must select MU290A, MU290C, MU290P, or MU290V

**Prerequisite(s):** (Majors Only)

**Note:** May be repeated for credit up to 4 times.

**Repeatable for Credit** Yes

**Lecture Hours:** 0  **Lab Hours:** 2  **Credits:** 2

---

**MU290A - Applied Music I: Viola**
Individual lessons offered in viola at the 200 level.

**MU290C - Applied Music I: Cello**

Individual lessons offered in cello at the 200 level.

**MU290P - Applied Music I: Piano**

Individual lessons offered in piano at the 200 level.

**MU290V - Applied Music I: Violin**

Individual lessons offered in violin at the 200 level.

**MU322 - Music Theory IV**

A continuation of MU321, with a further study and analysis of modulation, altered chords, modes, chromaticism, and devices used in contemporary music. Further studies will be applied to written, aural, and keyboard skills. Course has a required laboratory session.

**MU330 - Collaboration II**

Developing skills of playing with other musicians.

**MU345 - Music History: Medieval, Renaissance and Baroque**

An introduction to the music literature from ancient times to 1700.

**MU346 - Music History: Classic**

Survey of western art music of the pre-Classical and Classical periods. Representative works and composers will be studied and analyzed in relation to the stylistic principles of the period, and these will be examined in the context of European historical and cultural developments.

**MU347 - Music History: Romantic**

Survey of western art music of the Romantic period, commencing with Beethoven and proceeding through the early 20th century. Representative works and composers will be studied and analyzed in relation to the stylistic principles of the period, and these will be examined in the context of European historical and cultural developments.
MU348 - Music History: 20th-century to Present

Survey of western art music from the early 20th c. through the present day, commencing with music of the post-romantics, and proceeding through contemporary styles. Representative works and composers will be studied and analyzed in relation to the stylistic principles of this period.

Prerequisite(s): MU347

Lecture Hours: 3 Lab Hours: 0 Credits: 3

MU355 - Orchestral Repertoire

The study, rehearsal and performance of orchestral repertoire at the first 300 level.

Prerequisite(s): (Majors only)

Lecture Hours: 0 Lab Hours: 1 Credits: 1

MU356 - Orchestral Repertoire (Majors only)

The study, rehearsal and performance of orchestral repertoire at the second 300 level.

Prerequisite(s): (Majors only)

Lecture Hours: 0 Lab Hours: 1 Credits: 1

MU360 - Special Topics

Intensive study of an area of music selected by the instructor on the basis of student need or current issues.

Lecture Hours: 0 Lab Hours: 0 Credits: 1-3

MU365 - Orchestration

A study of the orchestral instrument families with exercises in writing scores for instrumental ensembles. Emphasis is placed upon full orchestra with secondary attention given to small ensembles.

Prerequisite(s): Instructor's approval.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

MU415 - Independent Study in Music

This course offers the student minorning in music the opportunity to research a focused topic in music, to compose a significant musical work, or to perform a significant work or set of works. The final product will be a fully developed research paper, a finished original musical score, or a significant performance.

Prerequisite(s): Permission of artistic director.

Note: May be repeated for up to 9 credit hours

Repeateable for Credit: Yes

Lecture Hours: 1-3 Lab Hours: 1-6 Credits: 1-6

MU420 - Musicianship Development

This course offers students a greater insight into enhancing listening and perceptive skills by attending concerts, preparing aural and written critiques, and observing lessons with faculty outside their primary instrument.

Prerequisite(s): (Majors Only)

Repeateable for Credit: This course may be repeated for credit up to 6 times.

Lecture Hours: 1 Lab Hours: 0 Credits: 1

MU430 - Performance

Opportunity to perform in a simulated concert environment with critical feedback.

Prerequisite(s): (Majors Only).

Repeateable for Credit: May be repeated for credit a limit of 4 times.

Lecture Hours: 1 Lab Hours: 0 Credits: 1

MU455 - Orchestral Repertoire

The study, rehearsal and performance of orchestral repertoire at the first 400 level course.

Lecture Hours: 0 Lab Hours: 1 Credits: 1

MU456 - Orchestral Repertoire

The study, rehearsal and performance of orchestral repertoire at second 400 level course.

Lecture Hours: 0 Lab Hours: 1 Credits: 1

MU480 - Orchestra II

Study and performance of music for orchestra.

Prerequisite(s): (Majors Only)

Note: May be repeated up to 4 times

Repeateable for Credit: Yes

Lecture Hours: 0 Lab Hours: 3 Credits: 1

MU490* - Applied Music II

Individual lessons offered in piano, violin, viola, and cello at the 400 level.
Must select MU490A, MU490C, MU490P or MU490V
Prerequisite(s): (Majors Only)
Repeatable for Credit May be repeated for credit up to 6 times.
Lecture Hours: 0 Lab Hours: 2 Credits: 2

MU490A - Applied Music II: Viola

Individual lessons offered in viola at the 400 level.
Prerequisite(s): (Majors only)
Note: May be repeated up to 4 times.
Repeatable for Credit Yes
Lecture Hours: 0 Lab Hours: 2 Credits: 2

MU490C - Applied Music II: Cello

Individual lessons offered in cello at the 400-level.
Prerequisite(s): (Majors only)
Note: May be repeated up to 4 times.
Repeatable for Credit Yes
Lecture Hours: 0 Lab Hours: 2 Credits: 2

MU490P - Applied Music II: Piano

Individual lessons offered in piano at the 400-level.
Prerequisite(s): (Majors only)
Note: May be repeated up to 4 times.
Repeatable for Credit Yes
Lecture Hours: 0 Lab Hours: 2 Credits: 2

MU490V - Applied Music II: Violin

Individual lessons offered in violin at the 400-level.
Prerequisite(s): (Majors only)
Note: May be repeated up to 4 times.
Repeatable for Credit Yes
Lecture Hours: 0 Lab Hours: 2 Credits: 2

MU501 - Chamber Music

The study, rehearsal, and performance of music for chamber ensembles. Repeatable registration for credit allowed, not to exceed six credits. Meets two hours per week.
Credits: 1

MU502 - Performance Class

Course provides a weekly opportunity for students to perform in a simulated concert environment with critical feedback by music faculty, students and guest artists. Repeatable registration for credit allowed, not to exceed six credits. Meets one day per week for two hours.
Credits: 1

MU503 - Collaboration

Course provides a weekly opportunity for students to perform instrumental repertoire requiring accompaniment. Repeatable registration for credit allowed, not to exceed six credits.
Credits: 2

MU504 - Orchestra

Course provides a weekly opportunity for students to perform instrumental repertoire requiring accompaniment. Repeatable registration for credit allowed, not to exceed six credits.
Credits: 1

MU505 - Orchestral Repertoire

Course provides a weekly opportunity for students to study a wide variety of standard orchestral repertoire. Repeatable registration for credit allowed, not to exceed six credits.
Credits: 1

MU511 - Seminar in Music Theory and Analysis

Students will be actively engaged in leading discussions of assigned topics and repertoire. Class presentations of their research and analysis of assigned repertoire will include suggestions of performance implications. Using the analytical theories based on the work of Heinrich Schenker, students will engage in intensive and comprehensive analysis of a major, multi-movement work demonstrating competencies in describing the compositional tools, techniques and structures of said work.
Prerequisite(s): Admission into the Master of Music in Performance program in the International Center of Music at Park University.
Repeatable for Credit No
Credits: 3
MU521 - History of the Concerto

Study of the concerto as a contributing form of western art music. Study of composers and analysis of representative works from the 17th-century to the present day will be done in context of musical and cultural developments of the various periods. Particular attention will be given to concerto repertoire for violin, viola, cello, and piano.

Prerequisite(s): Successful completion of an undergraduate bachelor's degree in music or permission of instructor.
Repeatable for Credit No  
Credits: 3

MU522 - History of the Symphony

Detailed study of the symphony as contributing form of western art music. Representative composers and works from the 17th-century to the present will be studied and analyzed, with emphasis on stylistic, constructional and performance components. Major works from the late 18th-century through the 20th-century will serve as the core of the study.

Prerequisite(s): Successful completion of a bachelor's degree in music or permission instructor.
Repeatable for Credit No  
Credits: 3

MU530* - Applied Music I

This course places emphasis on the development and expansion of appropriate repertoire and is designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the student's final semester of study.

Must select either MU530A, MU530C, MU530P, or MU530V

Note: May be repeated up to 24 hours.

Credits: 6

MU530A - Applied Music I: Viola

This course places emphasis on the development and expansion of appropriate repertoire and is designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the student's final semester of study.

Note: May be repeated for up to 24 hours.

Repeatable for Credit Yes  
Credits: 6

MU530C - Applied Music I: Cello

This course places emphasis on the development and expansion of appropriate repertoire and is designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the student's final semester of study.

Note: May be repeated for up to 24 hours.

Repeatable for Credit Yes  
Credits: 6

MU530P - Applied Music I: Piano

This course places emphasis on the development and expansion of appropriate repertoire and is designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the student's final semester of study.

Note: May be repeated for 24 credits.

Repeatable for Credit Yes  
Credits: 6

MU530V - Applied Music I: Violin

This course places emphasis on the development and expansion of appropriate repertoire and is
designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the student's final semester of study.

**Note:** May be repeated up to 24 hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU570** - **Applied Music II**

A continuation of MU530** Applied Music I

Must select MU570A, MU570C, MU570P or MU570V

**Note:** May be repeated up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU570A** - **Applied Music II: Viola**

A continuation of MU530** - Applied Music I.

**Note:** May be repeated for up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU570C** - **Applied Music II: Cello**

A continuation of MU530** - Applied Music I.

**Note:** May be repeated up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU570P** - **Applied Music II: Piano**

A continuation of MU530** - Applied Music I

**Note:** May be repeated up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU570V** - **Applied Music II: Violin**

A continuation of MU530** - Applied Music I

**Note:** May be repeated for up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU580** - **Applied Music III**

A continuation of MU570** - Applied Music II

Must select MU580A, MU580C, MU580P or MU580V

**Note:** May be repeated up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU580A** - **Applied Music III: Viola**

A continuation of MU570** - Applied Music II

**Note:** May be repeated for up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU580C** - **Applied Music III: Cello**

A continuation of MU570** - Applied Music II

**Note:** May be repeated up to 24 credit hours.

**Credits:** 6

---

**MU580P** - **Applied Music III: Piano**

A continuation of MU570** - Applied Music II

**Note:** May be repeated up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU580V** - **Applied Music III: Violin**

A continuation of MU570** - Applied Music II

**Note:** May be repeated up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6

---

**MU585** - **Special Topics in Music**

Intensive study and/or performance of an area of music selected by the instructor on the basis of student need or current issues.

**Credits:** 1-3

---

**MU590** - **Applied Music**

A continuation of MU580** - Applied Music III

Must select MU590A, MU590C, MU590P or MU590V

**Note:** May be repeated up to 24 credit hours.

**Repeatable for Credit** Yes

**Credits:** 6
MU590A - Applied Music IV: Viola

A continuation of MU580* - Applied Music III

Note: May be repeated up to 24 credit hours.

Repeatable for Credit: Yes

Credits: 6

MU590C - Applied Music IV: Cello

A continuation of MU580* - Applied Music III

Note: May be repeated up to 24 credit hours.

Repeatable for Credit: Yes

Credits: 6

MU590P - Applied Music IV: Piano

A continuation of MU580* - Applied Music III

Note: May be repeated up to 24 credit hours.

Repeatable for Credit: Yes

Credits: 6

MU590V - Applied Music IV: Violin

A continuation of MU580* - Applied Music III

Note: May be repeated up to 24 credit hours.

Repeatable for Credit: Yes

Credits: 6

MU600* - Applied Music V

This course places emphasis on the development and expansion of appropriate repertoire and is designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the students final semester of study.

Repeatable for Credit: Yes

Credits: 6

MU600A - Applied Music V: Viola

This course places emphasis on the development and expansion of appropriate repertoire and is designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the students final semester of study.

Repeatable for Credit: Yes

Credits: 6

MU600C - Applied Music V: Cello

This course places emphasis on the development and expansion of appropriate repertoire and is designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the students final semester of study.

Repeatable for Credit: Yes

Credits: 6

MU600P - Applied Music V: Piano

This course places emphasis on the development and expansion of appropriate repertoire and is designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the students final semester of study.

Repeatable for Credit: Yes

Credits: 6

MU600V - Applied Music V: Violin

This course places emphasis on the development and expansion of appropriate repertoire and is designed to develop musical artistry, technical skills, performing technique, analytical understanding, and professional level musical performance. Students have two intensive one-hour lessons per week. Repeatable registration for credit allowed, not to exceed 24 credits,
culminating in the passing of a major recital as adjudicated by music faculty during the students final semester of study.

**Repeatable for Credit** Yes  
**Credits:** 6

**MU601** - Advanced Applied Music

This advanced course places emphasis on the development and expansion of appropriate repertoire and is designed to develop the highest level of musical artistry, technical skills, performing technique, analytical understanding, and professional musical performance. Students have two intensive on-hour lessons per week. Students will be expected to participate in national and international competitions. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the student's final semester of study.  
**Repeatable for Credit** Yes  
**Credits:** 6

**MU601A** - Advanced Applied Music: Viola

This advanced course places emphasis on the development and expansion of appropriate repertoire and is designed to develop the highest level of musical artistry, technical skills, performing technique, analytical understanding, and professional musical performance. Students have two intensive on-hour lessons per week. Students will be expected to participate in national and international competitions. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the student's final semester of study.  
**Repeatable for Credit** Yes  
**Credits:** 6

**MU601P** - Advanced Applied Music: Piano

This advanced course places emphasis on the development and expansion of appropriate repertoire and is designed to develop the highest level of musical artistry, technical skills, performing technique, analytical understanding, and professional musical performance. Students have two intensive on-hour lessons per week. Students will be expected to participate in national and international competitions. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the student's final semester of study.  
**Repeatable for Credit** Yes  
**Credits:** 6

**MU601V** - Advanced Applied Music: Violin

This advanced course places emphasis on the development and expansion of appropriate repertoire and is designed to develop the highest level of musical artistry, technical skills, performing technique, analytical understanding, and professional musical performance. Students have two intensive on-hour lessons per week. Students will be expected to participate in national and international competitions. Repeatable registration for credit allowed, not to exceed 24 credits, culminating in the passing of a major recital as adjudicated by music faculty during the student's final semester of study.  
**Repeatable for Credit** Yes  
**Credits:** 6

**Natural and Applied Sciences**

**NS220** - Applied Statistics and Experimental Design
The applied use of statistics in the natural sciences. This course will provide an overview of statistics important to biological investigation, hypothesis testing, sampling protocol, and experimental design. Emphasis will be placed on computer statistical packages, natural science data, and application and interpretation of these statistics. Students will be introduced to several common statistical tests, including one- and two-sample hypothesis testing, analysis of variance (ANOVA), correlation, regression, and chi-squared tests with nonparametric alternatives briefly discussed.

Fulfills: LE Natural Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3

NS241 - Philosophy and History of Science

A history of science is presented in terms of the multicultural aspects of our scientific heritage. Focus is upon the nature of scientific inquiry and the social factors affecting the participation of diverse groups of individuals in the advancement of science.

Fulfills: LE Natural Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3

NS302 - Current Literature in the Natural Sciences

The goals of this course are to learn to read and critique research papers; to learn to present a polished, professional summary of a recent paper; and to acquire background information for appropriate scientific seminars.

Fulfills: LE Natural Science
Lecture Hours: 2 Lab Hours: 0 Credits: 1

NS304 - Science, Technology, and Society

Relationship between science, technology, and society. Topics include: the two cultures, the relationship between basic science and technology, the effects of technology upon society, and possible future technologies.

Fulfills: LE Natural Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3

NS306 - Writing and Ethical Practices in Science

This course will focus on scientific writing and the ethical considerations involved in the process of contributing to the scientific literature base. Students will engage in numerous writing activities and will explore the context and ethical considerations of performing scientific research and publication of results.

Prerequisite(s): EN105, EN106, NS302, and 60 accumulated hours.

Note: This is the second course of a three semester scientific communication sequence (NS302, NS306, and NS401) which is required of Biology and Chemistry majors. This course is to be taken during the junior year and will satisfy the EN306* and the Ethics LE requirements for Biology and Chemistry majors.

Fulfills: LE Ethics, Professional Writing
Lecture Hours: 3 Lab Hours: 0 Credits: 3

NS401 - Natural Science Seminar

A regularly scheduled seminar based on formal presentations of students, faculty, and guests. The presentations are based upon current periodical literature, and the presentation of an abstract and bibliography is required.

Note: Required of all senior students within the school as designated by the department.

Repeatable for Credit May be repeated for credit.
Lecture Hours: 2 Lab Hours: 0 Credits: 1

History: MNS401

Nursing (RN to BSN)

NU310 - Transitions to Professional Nursing (8 weeks)

This is a seminar discussion course to introduce and orient the Baccalaureate student to the Nursing Program. Exploration of transition processes to the BSN role, collegiality, emotional intelligence, and professional aspects of the BSN prepared nurse are emphasized.

Fulfills: LE Natural Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3

NU325 - Healthcare Informatics

Exploration of the use of computer technology in the management of individuals, groups, or organizations in the healthcare arena. Emphasis is on becoming knowledgeable and competent
with available resources useful in patient care settings.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**NU332 - Pharmacology for Clinicians**

This course will encompass nursing management for drug therapy including pharmacotherapeutics, pharmacokinetics, pharmacodynamics, contraindications and precautions, adverse effects, and drug interactions. The course addresses drug therapy as it relates to information for the patient including gender, health status, lifespan, lifestyle, environment, and cultural considerations. Other topics included are drug development and ethical considerations, core ethical principles of pharmaceutical research, drug standards and legislation, the Nurse Practice Act, and initiatives to combat drug counterfeiting. Complementary and alternative therapies will be explored. The course will provide an overview of drug and substance use disorder, safety and quality of medication administration and self-administration education for the patient.  
Prerequisite(s): NU310, NU325, NU339
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**NU339 - Health Assessment and Physical Examination**

Health Assessment and Physical Examination will expand the knowledge on the most efficient methods in health assessment and the most logical method of data retrieval. This course will include an increased focus on reviewing and expanding the practicing nurse's knowledge base to include physical assessment beyond their current practice area, including expected findings and variations in generally healthy people to a comprehensive study of abnormal findings using conceptual approach. The conceptual approach will span holism, elicitation of self-care behaviors, discussion with the patient to promote a healthier lifestyle, education on self-examination. This course will also address continue to develop cultural competencies in the nurse's role to meet the changing needs of a global society.  
Prerequisite(s): NU310, NU325, NU332
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**NU355 - Pathophysiology for Clinicians**

This course provides an understanding of the physiological process underlying human disease. The course emphasizes a systems approach to pathophysiological process associated with altered health states and its clinical manifestations. Multiple examples and case studies will be discussed.  
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**NU359 - Gerontology**

This course examines the physical, psychological, sociocultural, and spiritual aspects of aging. The health of older adults is studied with the emphasis on health promotion, illness prevention, and the management of common disease processes of aging individuals. End of life issues, care of dying individuals and adaptations in the provision of nursing care to the older individual are discussed.  
Prerequisite(s): NU310, NU325, NU339, NU332
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**NU400 - Global Health Care Perspectives**

An investigation of current topics associated with global health with an emphasis on the role of the nurse in global health care. Topics include the effect of disease upon populations, role of the RN in global health care issues, and health promotion activities to minimize the effects of disease.  
Lecture Hours: 3 Lab Hours: 0 Credits: 3

**NU405 - Health Promotions in Society**

Health Promotions addresses primary, secondary and tertiary care including models, theories and strategies used in nursing practice for individuals, families, models, theories and strategies used in nursing practice for individuals, families, and diverse and changing populations across the globe. This course will further develop the nurse's role in health promotion to envision potential problems in order to institute actions to facilitate the health, well-being and the relief of suffering. A key focus is the ongoing development of interventions to promote and prepare the practicing nurse to
deploy strategies that address growth and development, nutrition, exercise, stress management, and holistic health strategies for optimal wellness and disease prevention across the lifespan. Health Promotion will also address global trends that introduce risk factors impacting healthy people all over the world by combating disease and illness to ensure the safety of populations.

**Prerequisite(s):** NU310, NU325, NU339, NU332  
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

### NU410 - Community Health Nursing Practice

This course combines an investigation of community health theory with clinical application. Emphasis is placed on the role of the RN in implementing community based health care processes. This course is composed of 3 credit hours theory and 1 credit hours of clinical applications.  
**Lecture Hours:** 3 **Lab Hours:** 1 **Credits:** 4

### NU420 - Leadership and the BSN Role

An analysis and critique of management issues facing nursing leaders using theoretical and clinical applications. This course is composed of 3 credit hours for theory based applications and 2 credit hours for clinically based applications.  
**Lecture Hours:** 3 **Lab Hours:** 2 **Credits:** 5

### NU450 - Evidence-based Practice

This course focuses on core theoretical concepts of nursing practice: health, wellness, illness, holism, caring, environment, and self care, uniqueness of persons, interpersonal relationships and decision making. This course helps the student understand Nursing's unique contribution to meeting societal needs through integrating theory, research, and practice. Emphasis is placed on the development of students' skills in using the research process to define clinical research problems and to determine the usefulness of research in clinical decisions related to practice. The critique of Nursing and Nursing-related research studies is emphasized in identifying applicability to practice.  
**Prerequisite(s):** NUR280, NUR320,NUR338, NUR356 or permission of the department.  
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

### NU455 - Integrative Practice in Nursing

A capstone course to integrate the theoretical and practical application of nursing as a profession. This seminar course assists the student in focusing on professional development and life-long learning.  
**Prerequisite(s):** Departmental approval.  
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

### Nursing (Pre-Licensure)

#### NUR280 - Introduction to Professional Nursing

Nursing is defined as both an art and a science. This course focuses on the role of both parts of the definition in the creation of the professional Nurse and their links to the care of individuals and the health and wellness needs of the world. Topics reflect Nursing history and theory, concepts linked to Nurses such as caring, emotional intelligence, communication, cultural competence, interdisciplinary relationships, Nursing Process, evidence based practice, and professional development.  
**Prerequisite(s):** Acceptance to the BSN Pre-Licensure program.  
**Lecture Hours:** 2 **Lab Hours:** 0 **Credits:** 2

#### NUR320 - Concepts of Nursing Fundamentals

This combined theory and clinical course introduces fundamental nursing principles and psychomotor skills related to the provision of safe, quality care. Students are introduced to the nursing process and the basic needs of individuals across the lifespan. Clinical experiences provide students opportunities to practice psychomotor skills.  
**Prerequisite(s):** Acceptance into the BSN program  
**Corequisite(s):** NUR280, NUR338, NUR352  
**Lecture Hours:** 3 **Lab Hours:** 3 **Credits:** 6
NUR331 - Clinical Applications of Pharmacology I

This course introduces foundational principles of pharmacotherapy, pharmacodynamics, and pharmacokinetics. Within a framework of medication classifications and prototypes, over-the-counter and prescribed medications for commonly occurring conditions are examined. Focus is placed on patient-centered care that acknowledges the variables of genetics, health status, lifestyle, environmental influences, developmental level, learning needs, language preference, spirituality, culture, and socioeconomic status. The nurse's responsibility to safely administer medications, including calculating medication dosages, and to provide patient teaching that fosters patient engagement are emphasized.

Prerequisite(s): NUR320, NUR352, NUR338, NUR280 or permission from the Nursing department.
Corequisite(s): NUR335, NUR356, NUR357

Lecture Hours: 2 Lab Hours: 0 Credits: 2

NUR335 - Adult Health I

This combined theory and clinical course focuses on safe, patient-centered care of diverse backgrounds. Evidence-based practice guides nursing care of patients with commonly occurring conditions. Emphasis is placed on health promotion, disease management, and inter-professional care. Apply clinical judgement and create safe environments that result in high quality patient outcomes.

Prerequisite(s): NUR280, NUR352, NUR320, NUR338, or permission from the Nursing Department

Lecture Hours: 4 Lab Hours: 3 Credits: 7

NUR338 - Health and Physical Assessment

This combined theory and laboratory course prepares students to perform comprehensive and focused health assessments on an adult populations and developmental considerations across the lifespan. Analyze the impact of normal and abnormal physiological, psychological, sociocultural, and lifestyle changes on the individual's health. Develop health promotion strategies to address safety and health risks. Emphasis is placed on using effective communication techniques, maintaining an individual's personal and social dignity, and providing client-centered care.

Prerequisite(s): Admission to the BSN major
Lecture Hours: 3 Lab Hours: 1 Credits: 4

NUR352 - Pathophysiology for Nurses

This theory course utilizes knowledge from the anatomy and physiology to identify the physical and biological abnormalities that result in disease and injury. Using a system's approach, etiologies, risk factors, epidemiology, clinical manifestations, complications, and prognoses of disease states are examined. As a foundation for nursing practice, students begin to develop clinical judgment required to manage disease and promote health.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

NUR356 - Mental Health Nursing

This combined theory and clinical course focuses on the care of patients who have mental health alterations across the lifespan. The theory component is organized around the major categories of behavioral health disorders. Using the nursing process as a framework, health promotion and disease management are addressed. Inclusion of evidence-based nursing practice and the focus on establishing and maintaining therapeutic nurse-patient relationships is included. Nursing care that promotes the dignity and unique needs of each individual are emphasized.

Prerequisite(s): NUR280, NUR352, NUR320, NUR338, or permission from the Nursing Department

Lecture Hours: 3 Lab Hours: 1 Credits: 4

NUR357 - Gerontology

This course focuses on the concepts of aging in society and strategies to assist older adults achieve optimal quality of life. Social, economic, and health service implications on health policy and society are analyzed. Physical, psychological, sociocultural, economic, and spiritual needs of older adults are explored. Respect, support and delivery of palliative and end-of-life care is emphasized.
Prerequisite(s): NUR280, NUR320, NUR338, NUR352 or permission of the Nursing Department
Corequisite(s): NUR331, NUR335, NUR356
Lecture Hours: 2 Lab Hours: 0 Credits: 2

NUR410 - Community Health

This combined theory and clinical course focuses on populations and the provision of care of individuals, families, communities, aggregates, systems, and populations. The course includes an introduction to the roles of public health and community-based nursing with a local and global population perspective. The course emphasizes safe, quality care that incorporates public health sciences of epidemiology, environmental health, health policy, community assessment, and community interventions.

Prerequisite(s): NUR280, NUR320, NUR331, NUR335, NUR338, NUR352, NUR356, NUR450, or permission from the Nursing Department
Corequisite(s): NUR 431 NUR 435 NUR 450
Lecture Hours: 3 Lab Hours: 1 Credits: 4

NUR419 - Women, Children, and Families

This combined theory and practice course studies health-related topics specific to women, pediatrics, and families. Learning will include evidence-based practice required to provide safe, quality care including that of health promotion and risk reduction. A focus on patient and caregiver education and growth and development is included.

Prerequisite(s): NUR280, NUR320, NUR331, NUR335, NUR338, NUR352, NUR356, NUR410, NUR435, NUR450 or permission of the Nursing Department.
Lecture Hours: 4 Lab Hours: 2 Credits: 6

NUR431 - Clinical Applications of Pharmacology II

This course expands on Pharmacology I with a focus on the clinical application of medications specific to complex disease processes. Focus is placed on patient-centered care that acknowledges the variables of genetics, health status, lifestyle, environmental influences, developmental level, learning needs, language preference, spirituality, culture, and socioeconomic status. The nurse's responsibility to safely administer medications, including calculating medication dosages, and provide patient teaching that fosters patient engagement are emphasized.

Prerequisite(s): NUR280, NUR320, NUR331, NUR335, NUR338, NUR352, NUR356 or permission from the Nursing Department
Corequisite(s): NUR410, NUR435, NUR450
Lecture Hours: 2 Lab Hours: 0 Credits: 2

NUR435 - Adult Health II

This combined theory and clinical course builds upon Adult Health I with a continued focus on safe, patient-centered care of diverse backgrounds. Evidence-based practice guides nursing care of patients with emergent and complex health conditions. Emphasis is placed on health promotion, disease management, and interdisciplinary care.

Prerequisite(s): NUR280, NUR320, NUR331, NUR335, NUR338, NUR352, NUR356, NUR450, or permission from the Nursing Department
Corequisite(s):

Lecture Hours: 4 Lab Hours: 3 Credits: 7

NUR450 - Evidence-Based Practice

This course focuses on the introduction and application of evidenced-based practice as it applies to the nurse generalist. This course guides the student's understanding of nursing's unique contribution through integration of theory, research, and practice. The student will utilize research to identify best practice, promote patient safety, and improve patient outcomes.

Prerequisite(s): NUR280, NUR320, NUR338, and NUR352 or permission of the Nursing Department.
Corequisite(s): NUR 410 NUR 431 NUR 450
Lecture Hours: 3 Lab Hours: 0 Credits: 3

NUR460 - Nursing Leadership
This course focuses on the role of the professional nurse as a leader in a dynamic healthcare delivery system. Clinical reasoning, evidence-based practice, and clinical decision making in multicultural healthcare environments are evaluated. Socio-cultural, economic, legal, and political factors related to nursing and healthcare are analyzed.

**Prerequisite(s):** NUR280, NUR320, NUR331, NUR335, NUR338, NUR356, NUR357, NUR410, NUR419, NUR435, NUR450, NUR475 or permission of the Nursing department.

**Fulfills:** Writing Intensive,
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

### NUR470 - Special Topics in Nursing

This variable credit course is a student designed learning opportunity in collaboration with an assigned faculty member. Emphasis areas include a variety of nursing practice, professional, or related topics/concepts.

**Prerequisite(s):** Approval of Department Chair.

**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-3

### NUR475 - Clinical Immersion

This concentrated clinical course provides students the opportunity to synthesize knowledge and skills into the role of the baccalaureate generalist nurse. Students experience intra-interprofessional collaboration in providing nursing care with a preceptor. Students are given expanded opportunities to further develop nursing judgment and utilize principles of management and delegation with a focus on safe, quality care.

**Prerequisite(s):** NUR280, NUR320, NUR331, NUR335, NUR338, NUR356, NUR357, NUR410, NUR431, NUR435, and NUR450 or permission of the department.

**Corequisite(s):** NUR419, NUR460, and NUR475

**Lecture Hours:** 0  **Lab Hours:** 3  **Credits:** 3

### NUR480 - Prep to Professional Nursing

This course emphasizes strategies required to transition from student to registered nurse. Preparation for the NCLEX-RN exam is facilitated through the review of content, testing, and development of a personal plan of study.

**Prerequisite(s):** NUR280, NUR320, NUR331, NUR335, NUR338, NUR352, NUR356, NUR357, NUR410, NUR431, NUR435, and NUR450

**Corequisite(s):** NUR419, NUR460, and NUR475

**Lecture Hours:** 2  **Lab Hours:** 0  **Credits:** 2

### Park Basic Skills

#### PK103 - College Reading Improvement

A course for the student who needs individualized instruction to improve reading comprehension and vocabulary skills. The course will include instruction in basic study skills, note taking and test taking. VA benefits might not be available for this course.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

#### PK110 - Introduction to College Study Skills

Provides students with strengthening skills necessary for success in college classes. Emphasizes basic communication skills. Students will learn to read textbooks and library materials, listen to lectures, write examinations, speak in class discussions, and give oral reports. VA benefits might not be available for this course.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

#### PK117 - Principles of Composition in Review

An individualized program designed for students who need additional practice in composition skills in preparation for writing competency examination.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

#### PK119 - Self and Career Exploration

This seven-week course is especially for the student who is unsure of what career or major to choose. Students learn through self-discovery exercises and various printed and computerized career resources. This course is geared toward teaching students to make thoughtful and more
satisfying career/major choices.

**Lecture Hours:** 1  **Lab Hours:** 0  **Credits:** 1

**PK120 - Computer Keyboarding**

Designed to offer techniques and basic skills of typing, with emphasis upon formation of correct typewritten techniques, mastery of the keyboard, and performance of basic typing operations. Credit may be given when the student passes a comprehensive test and demonstrates ability to type at 35-40 wpm. This is a pass/fail course requiring students to demonstrate the skills listed by the end of the term.

**Grade:** Pass/fail

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PK308 - Assertive Career Building**

This seven-week course is designed for the junior or senior who is preparing to graduate and enter the world of work. Course topics include effective resume writing, interviewing and contact building.

**Lecture Hours:** 1  **Lab Hours:** 0  **Credits:** 1

**Peace Studies**

**PC202 - Introduction to Peace Studies**

This survey course is designed to introduce students to various definitions of peace, especially positive peace, and the obstacles faced in peacebuilding. This course will also discuss theories of conflict and peace; explore the major causes of direct and structural violence; discuss how positive peace can be sustained; and analyze the comparative success of various strategies such as non-violence. The course will provide students with tools to analyze conflicts and peacebuilding initiatives.

**Fulfills:** Writing Intensive, LE Humanities

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** PC200

**PC300 - Nations At War: People of Peace**

A contemporary and historical study of current international conflicts. Considers perspectives and strategies of contemporary peacemakers and peacemaking organizations. Analyzes the political, economic and cultural factors causing international conflict and students imagine concrete alternatives for peace building that maximizes justice.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PC308 - Religion, Conflict and Visions of Peace**

Religious communities frequently have bold visions of peace and justice and yet may be major contributors to violence and oppression. Students will engage in meeting first hand religious communities in metro Kansas City as well as exploring key beliefs and practices through readings and class discussion. Accurate and empathic understandings of different faiths will be combined with critical examination of their propensities for peace and justice-making historically and in contemporarily conflicts worldwide. Contemporary conflicts will include the USA, Northern Ireland, Bosnia, the Middle East, Africa, and the Indian sub-continent.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PC315 - Global Peace Issues**

An examination of current global peace issues in the context of globalization. Issues covered will include the nature of globalization, different ways of defining security, the phenomenon of new or postmodern wars, terrorism, human rights, poverty and development, climate change, gender, immigration, international organizations, AIDS etc. Uses a symposium approach focusing on ideological visions and analyses of the issue and possible solutions that promote peace, security and human well being.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PC321 - Interpersonal Conflict Resolution**

**Crosslisted:** CA321  Presents various strategies for dealing with conflict in a positive manner. Emphasizes the development and practice of skills of listening, assertiveness, problem solving, conflict management, and mediation.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PC385 - The History of Peace**
A study of the quest for peace and the partnership way of human community from pre-history to the present. The approaches to peace from as many cultures and academic disciplines as possible are pursued, acknowledged, and evaluated. The lessons from the dominant paradigm of social organization and the history of war are used to clarify the proposition that an equally valid history of peace exists.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**Philosophy**

**PH101 - Introduction to Philosophical Thinking**

An entry into philosophy by one of two routes: an exploration of philosophical problems through reading and discussing selections from the great thinkers or a lecture-discussion survey of philosophy conceived in the broadest fashion.

**Fulfills:** LE Humanities  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** PHL101

**PH102 - Introduction to Ethical Thinking**

An exploration of what things have value and proposals about how people ought to live their lives including relativism, utilitarianism, Kantian ethics, and virtue ethics. This course also emphasizes the application of these proposals to personal life and contemporary social issues.

**Fulfills:** LE Ethics  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PH103 - Fundamentals of Logic**

Principles of sound analytical reasoning. Topics include: analysis of propaganda and sources of prejudice, fallacies in reasoning and speech; the logic of the syllogism with techniques for testing validity; and the basic apparatus of symbolic logic.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** PH211, PHL111

**PH205 - The Meaning of Life**

Students in this course participate in the quest for meaning in life through reading and discussion of the contributions of philosophers, religious prophets, poets and writers, and through talking with persons who seem to have achieved meaning in their own lives. Students are expected by the end of the course to have formulated in writing or some other medium a statement of where they are in their personal quests.

**Fulfills:** LE Humanities  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PH217 - Ancient and Medieval Philosophy**

A survey of the central figures of classical and medieval philosophy, including the early Greek thinkers, Socrates, Plato, Aristotle, Augustine, and Aquinas. Their contributions to the development of science, religious thought, and social and political theory are studied.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PH220 - History of Political Philosophy**

**Crosslisted:** PO220  
An analysis of political philosophy in its historical perspective, with a special examination of the influences of political philosophy on political institutions and on the development of political science.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PH221 - Ethics and Society**

Applies the insights of philosophical ethics to value questions that require public decision. Content of the course description will vary according to the choice of the instructor. Possible topics include abortion, capital punishment, euthanasia, use of natural resources, nuclear concern or censorship.

**Fulfills:** LE Ethics  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PH223 - Modern Philosophy**

A survey of select figures in 16th-18th century European philosophy (e.g., Descartes, Spinoza, Leibniz, Hobbes, Locke, Berkeley, Hume, Kant) and how they have shaped modern scientific, religious, ethical and political thought.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3
**PH224 - Philosophy for Children**

This course teaches the Community of Inquiry method for facilitating philosophical discussions with children. A Community of Inquiry session consists of stimulus, questioning, inquiring, metacognition, and application/creation. Attention is given to questions concerning ethics, knowledge, and reality. This course considers the application of Community of Inquiry at elementary through adult learning settings.

Fulfills: LE Ethics  
Lecture Hours: 3  Lab Hours: 0  Credits: 3

**PH303 - Philosophy of Science**

An examination of the philosophical assumptions of both the natural and the social sciences. Topics include: the distinction between science and non-science; the nature and types of scientific explanation; the structure and function of scientific laws and theories; the problems and paradoxes of confirmation and disconfirmation; the role of mathematics and models of science; the basis for probability and induction; and the relationship between science and values.

Lecture Hours: 3  Lab Hours: 0  Credits: 3  
History: PHL303

**PH308 - Business Ethics**

An inquiry into the role of ethics in business situations. Topics considered include: ethical considerations in management, accounting, marketing, and international business; conflicts of interest, whistleblowing, employee rights and responsibilities; and the impact of business on the environment. Emphasis is put upon the study of specific cases with attention to the sometimes conflicting demands of profit maximization and societal well-being.

Fulfills: LE Ethics  
Lecture Hours: 3  Lab Hours: 0  Credits: 3  
History: PHL308

**PH310 - Independent Study in Philosophy**

An opportunity for students to pursue a special interest not covered by regular course offerings. Material and credit arranged in consultation with instructor. May be repeated for credit with permission of department.

Lecture Hours: 0  Lab Hours: 0  Credits: 1-3

**PH316 - Time, Identity, and Change**

What is a person? Do humans have free will? Is everything we do pre-determined? What is a cause? Is time real? Do the past and future exist? How can objects or persons persist through time? How can simple objects combine to form more complex objects? This course examine philosophical answers to these questions, including: Perdurantism, Endurantism, Austere Nominalism, Universalism, A and B Theories of Time, Counterpart Theory, Mereological Nihilism, Constitution Theory, Libertarianism, Compatibilism, Hard Determinism.

Lecture Hours: 3  Lab Hours: 0  Credits: 3

**PH317 - Knowledge, Skepticism, and Evidence**

How can we be sure of anything? How do you know you are not living in a virtual reality right now? What is knowledge? Do you have to know that you know in order to know? What counts as good evidence, and when do you have enough evidence to be justified in believing something? How can cognitive science and psychology help us answer these questions? Is knowing a virtue? Can a claim be partially true? Is truth valuable? May you believe without evidence?

Lecture Hours: 3  Lab Hours: 0  Credits: 3  
History: PH315

**PH319 - Philosophy of Religion**

Fundamental questions about religion are considered. Does God exist? If so, what is God’s nature? Of what significance is mysticism? What happens (if anything) at death?

Lecture Hours: 3  Lab Hours: 0  Credits: 3  
History: PHL319

**PH320 - Philosophy of Mind**

Survey of philosophical issues about the mind and body, including mind/body dualism, functionalism, physicalism, consciousness, and whether machines can be conscious.

Lecture Hours: 3  Lab Hours: 0  Credits: 3
PH325 - Ethical Theory

In-depth exploration of the foundations of ethical thinking, including utilitarianism, Kantian ethics, virtue ethics, contractarianism, and care ethics as well as other issues surrounding the theoretical side of ethics.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PH326 - Contemporary Political Philosophy

Survey of developments in political philosophy after John Rawls. Includes anarchism, modern libertarianism, egalitarianism, communitarianism, feminist political philosophy, multiculturalism, and cosmopolitanism.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PH328 - Aesthetics

Examination of philosophical issues surrounding art, beauty, and the sublime.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PH331 - Philosophy in Literature

Philosophical issues found in novels, poetry, and/or short stories chosen by the instructor as well as in the examination of the phenomenon of literature itself.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PH334 - Bioethics

An examination of the complex ethical issues that arise in biology and medicine. Topics include: human and animal testing research, ethical use of biotechnology, genetic ethics, end of life issues, reproductive ethics, genetic ethics, and environmental ethics. The course will include a general overview of ethical theories and explores how they apply to issues arising in biology and medicine.

Fulfills: LE Ethics
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PH350 - Special Topics in Philosophy

This course deals with various topics in philosophy, especially those which involve interdisciplinary studies or studies concerning contemporary issues in culture and society.

Repeatable for Credit May be repeated for credit with change in topic.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

Physics

PY101 - Physical World

An overview of physics concepts in our world accessible to student with little or no physics background. The class will focus primarily on classical physics and selected topics on electricity and magnetism.

Fulfills: LE Natural Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PY155 - Concepts of Physics I

A non-calculus approach to physics designed to emphasize the concepts that are most important to students pursuing careers in the health sciences. Topics include: measurements, force and motion, statics, vectors, and wave theory as applied to heat, sound, and light. Laboratory includes appropriate experiments to illustrate concepts.

Corequisite(s): MA160
Fulfills: LE Natural Science, Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: PHY155, PHY203

PY156 - Concepts of Physics II

A continuation of PY155. Topics include: electricity, magnetism, wave mechanics, lasers, x-rays and nuclear radiation. Laboratory includes experiments and demonstrations to illustrate and emphasize concepts.

Corequisite(s): MA160
Fulfills: LE Natural Science, Science with lab
Lecture Hours: 3 Lab Hours: 3 Credits: 4
History: PHY156, PHY204

PY205 - Introduction to Physics I

Lecture and laboratory introducing the calculus based physics. Topics include: introductory kinematics and Newtonian dynamics of both particles and solid bodies, work and energy, momentum, and thermodynamics.
Prerequisite(s): MA221  
Corequisite(s): MA222  
Fulfills: LE Natural Science, Science with lab  
Lecture Hours: 4  
Lab Hours: 3  
Credits: 5  
History: PHY205

PY206 - Introduction to Physics II

A continuation of the calculus physics sequence. Topics include: wave motion, electromagnetic and acoustic waves, properties of waves, and electromagnetic theory.  
Prerequisite(s): PY205  
Fulfills: LE Natural Science, Science with lab  
Lecture Hours: 4  
Lab Hours: 3  
Credits: 5  
History: PHY206

PY275 - Engineering Statics

This course will address the study of forces on bodies at rest, vector algebra, force systems, principles of equilibrium, application to trusses, frames and beams, and friction.  
Prerequisite(s): PY205 and MA222  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

PY400 - Special Topics in Physics

This course offers specialized study in applied physics relevant in an increasingly technologically dependent society. At the discretion of the instructor, the course may involve laboratory work.  
Prerequisite(s): PY156 or PY206  
Lecture Hours: 0  
Lab Hours: 0  
Credits: 1-4

Political Science

PO200 - American National Government

A survey of the functions and processes of the three branches of American national government. The changing roles of the branches and their relationship to the public will be emphasized.  
Fulfills: LE Citizenship, GEM  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

PO201 - State and Local Government

A critical survey of the major trends in state and local government in the United States, with special emphasis on the governmental practices of state governments and the problems of municipal governments.  
Fulfills: GEM  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

PO202 - Introduction to Law

Descriptions of American law, language and processes. Subjects include, but are not limited to: the purposes of law, civil law, criminal law, torts, contracts, family law, rights and liberties.  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3

PO210 - Comparative Political Systems

An introduction to Comparative Politics with specific emphasis on key themes including democracy, authoritarianism, the modern state, political economy, development, institutional design, alternative politics, and political violence.  
Fulfills: LE Citizenship, Writing Intensive  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3  
History: PSC402

PO216 - International Relations

An introduction to study of international relations with specific focus on war and conflict, global trade, institutions and the limits to state cooperation, and complex contemporary global issues.  
Fulfills: LE Social Science  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3  
History: PO211, PO212, PSC212

PO220 - History of Political Philosophy

Crosslisted: PH220  An analysis of political philosophy in its historical perspective, with a special examination of the influences of political philosophy on political institutions and on the development of political science.  
Lecture Hours: 3  
Lab Hours: 0  
Credits: 3  
History: PO414

PO304 - Constitutional Law

A seminar-type study of the basic principles of American government and fundamental rights as
interpreted by the Supreme Court. Briefs of selected cases are discussed.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** PO416

**PO310 - Parties and Elections**

A study of the structure and uses of pressure groups, political parties and elections in the United States. The central concern of the course is the development of a realistic understanding of the political process.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** PO411, PSC411

**PO320 - American Foreign Policy**

Contemporary foreign relations policy of the United States. An analysis of the factors affecting American foreign policy is undertaken. The governmental institutions concerned with development and execution of foreign policy are examined.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PO323 - Congress and the Presidency**

This course examines the interrelationships between two of the three branches of our federal government. It is designed to provide a basis for understanding how relations between Congress and the President impact the formulation, adoption and implementation of domestic and foreign policy. The tensions between the two branches have been long-standing and constant. This course focuses on the dynamics of those tensions.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** PO313, PSC313

**PO338 - Politics of the Developing World**

This course is intended to familiarize students with the political workings of developing countries. The course will present a broad view of historical and contemporary developments in a selection of countries from Africa, Asia, Latin America and the Middle East.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PO340 - Public Policy**

Policies and functions of American government with the emphasis on the policy problems confronting the United States and the process of policy making.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** PO325, PO215

**PO344 - War and Terrorism**

This course considers the causes of conflict and war in the international system including unconventional warfare and terrorism. Looking at contemporary theories of international relations, it will explore both the sources of international conflict and possible mechanisms for conflict management and resolution.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PO345 - International Organizations**

This course will examine and analyze the structure and function of international organizations. International organizations will be defined broadly in the course to encompass formal intergovernmental and non-governmental organizations as well as less formal institutional arrangements. Topics to be covered include democracy and international organizations, culture and international organizations, bargaining in international organizations, political and economic integration, NGOs, and the future of global governance.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**PO350 - Special Topics in Politics**

In-depth examination of a selected issue in politics and government.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** PO378

**PO405 - Senior Thesis in Political Science**

This course critically reviews the major methodological and conceptual features of the discipline. Students develop research questions and arguments, choose an appropriate methodology for analysis, and write their thesis paper. Students will be required to defend their completed thesis orally.

**Prerequisite(s):** EN105, EN106, and 60 accumulated hours.
**PO450 - Internship**

An internship in an actual work situation related to politics or public administration.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**History:** PO418

**PO500 - International Relations Theory**

This seminar examines the major theoretical perspectives found within International Relations while introducing students to key debates within the discipline.

**Credits:** 3

**PO501 - US National Security Policy**

This course examines the evolution of US national security policy from the Washington administration to the present day. Special attention is paid to the interplay between the executive and legislative branches in the development of policy.

**Credits:** 3

**PO505 - Arms Control and Disarmament**

A review of arms control efforts and achievements throughout the international system. This course introduces students to the limits and possibilities of international security regimes through a detailed analysis of arms control and non-proliferation.

**Credits:** 3

**PO510 - Research Methods**

A survey and application of qualitative and quantitative research methodologies in the social sciences.

**Credits:** 3

**PO515 - Security Studies**

A survey of recent work on the logic and politics of security as a frame for thinking about complex issues. Special attention is paid to the process of "securitization", the politics of various forms of risk analysis, and the increasingly individual-centered logic of many security initiatives.

**Credits:** 3

**PO520 - Terrorism and Unconventional Warfare**

A review of the changing nature of terrorist activity from a historical and analytical perspective. The course focuses on the impact of globalization, modern communications, and the proliferation of arms in relation to terrorist groups and their activities.

**Credits:** 3

**PO525 - Geoeconomics and Environmental Security**

This course examines the flows of production, distribution, and consumption of resources across borders. Environmental threats such as urbanization, resource extraction/usage, and climate change. The impact of international economic trends and state economic capabilities on security also is included.

**Credits:** 3

**PO530 - International Law and Security**

This course examines international legal issues related to state security. Special attention is given to role of law in international politics, the use of law as a tool for increasing national security, and recent debates about Just War Theory.

**Credits:** 3

**PO535 - Cybersecurity**

The growing impact of cyber efforts to promote and degrade state security is examined in this course. Special attention is given to the vulnerability of critical infrastructures, policies aimed at coping with cyber attacks, and the economic impact of the theft of intellectual property.

**Credits:** 3

**PO540 - Future War**
An examination of future military conflict, the history of future war doctrine, and the impact of current conflict on notions of what trends exist in the conduct of war. An analysis of existing and predicted strategies to address future threats also is considered.

**Credits:** 3

**PO545 - Intelligence Collection and Analysis**

An introduction and overview of the role intelligence plays in the development and conduct of US national security policy. Topics include an overview of intelligence collection and analysis, the layout and jurisdiction of bodies making up the US Intelligence Community, the relationship of the US intelligence agencies to those of other countries, and current operational tasks of these agencies (to the extent known publicly).

**Credits:** 3

**PO550 - Regional Security Issues**

The course analyzes the current and evolving security situation in five key regions in the international system: East Asia, Europe, the Middle East, South Asia, and Sub-Saharan Africa. The impact of state development and the role of international organizations in dealing with security issues in these areas will be included.

**Credits:** 3

**PO551 - Insurgency and Counter-Insurgency in a Social Context**

An introduction to the rational and sociological turns in the analysis of political violence with a special focus on insurgency and non-traditional war. Course topics to include an overview of state-of-the-art literature on political violence, the viability of insurgency groups, and the lessons learned during the Afghanistan and Iraq conflicts.

**Credits:** 3

**PO555 - Doctrine and Grand Strategy**

Overview of the history and current status of US military doctrine and national security policy. The course will include a history of US operational planning through the Cold War, the 1990s, the War on Terror, and current planning for potential conflict with great power rivals. Further, the course will relate doctrine to changes in US national security strategy under Presidents Clinton, Bush (43), Obama, and Trump. In addition, the course will introduce the concept of 'Grand Strategy' and summarize arguments for how the US should consider its security in terms of world order.

**Credits:** 3

**PO600 - Thesis**

First of two courses culminating in a Master’s thesis. Students will be enrolled upon the approval of a prospectus and work with an assigned faculty member to complete a literature review and initial drafts of thesis chapters. This course will be graded "pass or fail".

**Grade:** Pass or Fail

**Credits:** 3

**PO601 - Thesis II**

The second of two courses culminating in a Master’s thesis. Students will work with a supervisor to complete a thesis and have it reviewed by said supervisor and the Program Director. The course will culminate with a viva voce to include the supervisor, the Program Coordinator, and an outside reader. This course is to be graded as fail, pass, or pass with distinction.

**Grade:** Pass or Fail

**Credits:** 3

**Project Management**

**PM690 - Integration, Scope, and Quality Management**

This course focuses on the processes and activities used by the project manager and team to identify, define, combine, unify, and coordinate project work, such as developing the project management plans. Further, special attention is given to the planning, executing, and controlling of project scope. Finally, students will learn the processes, policies, and procedures that must be implemented to meet the quality requirements.

**Credits:** 3
PM691 - Time and Cost Management

This course introduces students to the policies, procedures, and documentation required to plan, develop, manage, execute, and control the project schedule. In addition, learners will leverage the schedule baseline when creating the project budget. An important takeaway is the relationship between time management and cost management.

Prerequisite(s): PM690
Credits: 3

PM692 - Communications, Risk, and Stakeholder Management

This course emphasizes the criticality of effective and efficient communications from the project manager to both internal and external stakeholders. In addition, stakeholder identification and engagement are examined relative to the communications strategy. Finally, the risk management process is evaluated to include risk planning, identification, analysis, and response planning.

Prerequisite(s): PM690 and PM691
Credits: 3

PM693 - Human Resource and Procurement Management

This course underscores the value of effectively managing human resources that are assigned to projects, with an emphasis on acquiring, developing, and managing project team members. In addition, learners are exposed to the procurement management knowledge area, which focuses on the processes required to acquire products, services, and results from external vendors.

Prerequisite(s): PM690, PM691, and PM692
Credits: 3
History: MBA693

Psychology

PS101 - Introduction to Psychology

A survey of the assumptions, history, methods, and techniques of psychology. A presentation of representative theory and research in the areas of consciousness, learning, motivation, cognition, personality, and social behavior.

Fulfills: LE Social Science, GEM
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: PSY101

PS125 - Lifespan Development

A discussion of the physical, social and physiological changes occurring during the life of the individual from conception to death. Emphasis is placed on the similarities and differences of the various age groups and the specialized needs of each.

Fulfills: LE Social Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: PS121, BI121

PS205 - Child Psychology

A study of biological, cognitive, and sociocultural development from the prenatal period through childhood. Attention will be given to theory and research, practical examples and policy implications.

Fulfills: LE Social Science
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PS206 - Introduction to Guidance and Counseling

A survey of the guidance process, communication, functions of counseling, and various counseling theories. This course is designed to introduce students to the whole guidance process. Emphasis will be placed on an integrated approach to basic helping skills utilizing theory, practice, and case application. The course will provide students with the foundation to develop skills they need to establish effective helping relations.

Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: PSY206

PS220 - Ethical Issues in Social Sciences

Crosslisted: SO220 Considers the moral and ethical consequences of conducting social science research, disseminating the results, and implementing practices and policies based on those findings. Critically examines those questions and choices rising at each stage of the research process, and the results of those choices
on relevant parties.

**Prerequisite(s):** An introductory social science course (i.e., SO141, PS101, CJ100, or SW205).

**Fulfills:** LE Ethics

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**PS221 - Adolescent Psychology**

Developmental factors and problems common to the period from puberty to adulthood. Topics include: self-identity, sexuality, life-styles, parent-adolescent relationships, and conditions leading to optimal development.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** PSY221

**PS222 - Adult Development and Aging**

Focuses on the developmental tasks and psychosocial services during the adult years with special emphasis placed on the social psychology of aging.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** PSY222

**PS300 - Research Methods**

Surveys the range of quantitative (experiments, surveys, etc) and qualitative (observations, interviews, etc) methodologies commonly used in social scientific research. Critically examines issues related to the scientific method including formulating research questions, evaluating social scientific literature, sampling, measurement, design, analysis, interpretation, and communication of results.

**Prerequisite(s):** PS101, EN105, EN106

**Fulfills:** Professional Writing

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** (PS306 and PS308)

**PS301 - Social Psychology**

A study of the impact of the real or imagined social environment on individuals; particular emphasis is placed on the role of social and cultural influences on individual's thoughts, feelings, and behaviors.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**PS302 - Tests and Measurements**

An introduction to the uses of psychological tests and to the techniques of test construction and evaluation. Topics include: a survey of common tests in the areas of general classification, differential testing of abilities and measurement of personality characteristics.

**Prerequisite(s):** PS101

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** PSY302

**PS303 - Career Counseling and Development**

Theories of career development and various approaches to career counseling across the lifespan will be critiqued. The use of career assessment instruments and career exploration resources, including technology in occupational decision-making will be evaluated. In addition, issues affecting special populations and effective adjustments in the workplace are analyzed.

**Prerequisite(s):** PS101

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**PS304 - Career Counseling and Development**

**PS307 - Statistics for Social Sciences**

**Crosslisted:** SO307 Statistical methods are a primary tool for all of the social and behavioral sciences. This course introduces a wide variety of common statistical techniques and their conceptual bases, including: basic descriptive and inferential statistics, analyses of association and variance, effect sizes, and others in their parametric and nonparametric forms. It provides a background in the relevant theories of probability, sampling, and measurement. And the student will learn how to become a more discerning consumer of statistical information as well as gaining practical experience calculating these statistics by hand and computer.

**Prerequisite(s):** MA135 or MA120 and an introductory social science class (i.e., SO141, PS101, CJ100, or SW205) and PS300 /SO310

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**PS309 - Human Sexuality**

Survey of topics relating to human sexuality. The themes range from the biology of human reproduction to the sociology and psychology of human mating. Many controversial subjects are discussed, to encourage students to examine their own attitudes towards these subjects.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: PSY309

PS315 - Theories of Personality

Examination of the major personality theories and contributing research evidence with particular emphasis upon motivation and dynamics of behavior.
Prerequisite(s): PS101
Fulfills: Writing Intensive,
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: PSY315

PS325 - Disaster Psychology

This course provides a broad introduction to the field of disaster psychology. As part of this course we will focus on the components of the emergency response framework in the United States, traumatic stress, vulnerable populations, psychological first aid, social psychological and industrial/organizational applications, the role of the media and cultural beliefs and practices pertaining to mental health and funeral practices.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PS341 - Positive Psychology

An exploration of the scientific and applied approaches to identifying a person’s strengths and promoting their positive functioning. The course will focus on human potential, emotional and cognitive processes that contribute to a person’s well-being and that increase prosocial behavior and the ability to create positive environments.
Prerequisite(s): PS101
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PS358 - Applied Behavior Analysis

This course is an introduction to the defining characteristics, philosophical orientation, goals, and limitations of Behavior Analysis. Topics will include behavior observation, operant conditioning, functional assessment, single-subject design, maintenance, and application of behavior analytic principles.
Prerequisite(s): PS101
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PS361 - Cross-Cultural Psychology

Emphasizing active learning, we will examine the sociocultural forces impacting human behavior. Specifically we will address the dynamics of culture as a psychological variable, the global perspective in psychology, theories of culture and behavior, cross-cultural research methods, cognition, language, culture and gender, socialization, cultural differences in social behavior, intergroup relations, organizational behavior across cultures, and culture and health.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PS363 - Psychology of Sport

Overview of psychological theory and research as it relates to sports and exercise at both the individual and group levels.
Prerequisite(s): PS101
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PS381 - Psychology of Gender

Critical analysis of the major psychological theories of gender development including an emphasis on biological, social, cognitive, and behavioral similarities and differences between men and women.
Prerequisite(s): PS101
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PS388 - Learning and Motivation

A survey of major theories and supporting research related to classical and operant conditioning, social learning, and motivational processes. Consideration of behavior modification and applications in solving clinical, motivational, educational, and societal problems.
Prerequisite(s): PS101
Lecture Hours: 3 Lab Hours: 0 Credits: 3

PS390 - Selected Topics in Psychology

Intensive study of an area of psychology selected by the instructor on the basis of student need or current issues.
Prerequisite(s): An introductory social science class.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-3
PS401 - Abnormal Psychology

An introduction and investigation of the causes, development, symptomatology and treatment of abnormal behavior. Primary focus is an eclectic view of persons and their adaptation of their environment.
**Prerequisite(s):** PS101
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3
**History:** PSY401

PS402 - Systems of Psychotherapy

Explores the major schools of psychotherapy. The course includes an extensive use of actual case studies.
**Prerequisite(s):** PS401 or PS315
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3
**History:** PSY402

PS404 - History and Systems of Psychology

Study of history of the philosophical and scientific bases of the evolution of modern psychology and a critical examination of the systems of structuralism, functionalism, behaviorism, Gestalt psychology, psycho-analytic, humanistic, and existential theories.
**Prerequisite(s):** PS101 and junior or senior standing.
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

PS405 - Independent Study in Psychology

**Prerequisite(s):** major in psychology and junior or senior standing.
**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 1-6

PS406 - Experimental Psychology

An introduction to the design and analysis of laboratory experiments and other research methods in psychology. Topics may include: cognitive, social, perceptual, clinical developmental, and biological processes. Students conduct and evaluate experiments, may serve as subjects, and gain experiences in writing scientific research reports.
**Prerequisite(s):** EN105, EN106, PS101, PS307, PS300, and 60 accumulated hours.

Fulfills: Professional Writing
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

PS407 - Field Placement in Psychology

Field Placement in Psychology is a supervised field placement in an organization or agency that adds value to in-class experiences and informs concerning career paths. (1 credit hour equals 45 site hours).
**Prerequisite(s):** Major or minor in psychology or social psychology, junior or senior standing.
**Lecture Hours:** 0 **Lab Hours:** 0 **Credits:** 1-6

PS408 - Cognitive Psychology

Students are introduced to modern concepts in cognitive psychology. Human information processing, representation and organization of knowledge, and the uniqueness of higher cognitive skills are emphasized. Classroom demonstrations and experiments are used in exploring human learning and memory.
**Prerequisite(s):** PS101, and junior or senior standing.
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

PS410 - Social Influence and Persuasion

This course will examine empirical evidence regarding the impact of social influence on individual behavior. Specifically, addressing the role of compliance, conformity, and obedience in shaping ideas, attitudes, and behavior.
**Prerequisite(s):** PS101, and junior or senior standing.
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

PS423 - Physiological Psychology

An introduction to the general principles and relationships between brain, mind and behavior; includes brain mechanisms, perception, motivation, emotion, learning, memory, higher cognition and disorders (neurological and psychological).
**Prerequisite(s):** PS101
**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

PS424 - Industrial and Organizational Psychology
This course examines various psychological applications in the workplace including research, testing, making personnel decisions, training, appraising performance, organization structure, teamwork, satisfaction, occupational health, motivation and leadership.

**Prerequisite(s):** PS101

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** PS374

**PS497 - Capstone Seminar**

This core course serves as the capstone experience for students in their senior year. This course will include professional development for employment or graduate studies, creation of a professional portfolio, completion of a comprehensive exam, and a reflection upon the degree program. This course is not transferable from another institution.

**Prerequisite(s):** PS101 or SO141 and senior standing

**Note:** Offered online only or with chair approval.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** (PS398 and PS498)

**PS523 - Introduction to Social Justice**

This course will introduce students to Industrial Organizational (I-O) Psychology and social justice literature and the interrelationship between the two. Students will begin to explore how I-O psychology can be used to create justice-centered organizations. Students will gain hand-on experience in identifying organizational needs and begin to formulate solutions to address those needs.

**Credits:** 3

**PS527 - Applied Research Methods**

This course will prepare students to use various research methods employed by Industrial Organizational (I-O) psychologists such as interviews, surveys, experiments, and quasi-experiments. Students will utilize statistical analyses and software, critical thinking, and inclusive thinking to evaluate and communicate findings.

**Credits:** 3

**PS567 - Critical Analysis I**

This course will be an introduction to statistical techniques including correlation, t-tests, ANOVA, MANOVA, and MANCOVA. Probability and Bayesian techniques will be examined. Students will use statistical software to analyze data using these techniques and utilize critical and inclusive thinking to communicate findings.

**Prerequisite(s):** PS527 or consent of department chair/program coordinator

**Credits:** 3

**PS570 - Critical Analysis II**

This course will introduce students to statistical techniques including bivariate, multiple, and logistic regressions. A brief overview of factor analyses, structural equation modeling, and meta-analyses will be provided. Students will use statistical software to analyze data using these techniques and utilize critical and inclusive thinking to communicate findings.

**Prerequisite(s):** PS567 or consent of department chair/program coordinator

**Credits:** 3

**PS602 - Organizational Leadership**

This course will concentrate on organizational leadership, specifically focusing on leadership theories, ineffective/counterproductive leadership, developing leaders, and incorporating social-justice based leadership. Students will create a leadership development plan to cultivate their own leadership skills.

**Credits:** 3

**PS609 - Personnel Psychology**

This course will explore elements of a job including: selection tools, cognitive and non-cognitive factors to perform tasks, and the legal context of employment decisions. Students will gain hand-on experience in job analysis, a central task of I-O psychologists.

**Credits:** 3

**PS616 - Organizational Dynamics and Ethics**

In this course students will review organizational theory, including culture, climate, change management, and organizational development in addition to an extensive review on organizational
teams. Each level of analysis will explore organizational ethics and pro-social I-O work.

**Credits:** 3

**PS622 - Training and Performance**

In this course students will learn how to design training programs, how to conduct training, and how to evaluate training programs based on learning and organizational theories. Students will critique real-world training and talent management programs and discuss legal aspects of training.

**Credits:** 3

**PS626 - Individual Assessment**

In this course students will review individual assessment models, conduct myriad assessments, provide detailed feedback and make career recommendations based on assessment results.

**Credits:** 3

**PS670 - Organizational Attitudes and Behavior**

This course considers employee attitudes, emotions, and behavior at work and the complex relationship among those factors. An emphasis will be placed on why individuals work, what motivates employees, what helps employees cope with work stress, and burnout.

**Credits:** 3

**PS699 - Internship**

This course is for students who will work individually with an I-O Psychologist in the business, consulting, or government sector to apply scholarly knowledge to real world problems. Three (3) internship hours are required though up to six (6) can count toward graduation. No more than three credits will be allowed from one organization. Internship sites and supervisors must be approved by the department chair/program coordinator prior to enrollment.

**Credits:** 3-6

**Public Administration**

**PA250 - Special Topics in Fire Service Management**

This course is designed specifically for the Bachelor or Public Administration/Fire Services Management program and includes such topics as: fire investigation, fire administration, fire inspection, building and fire codes, environmental laws, regulations, and environmental management, marketing and public relations, applied environmental laws and regulations, and hazardous materials management and planning.

**Repeatable for Credit** May be repeated up to a total of 12 hours (permission of department chair required).

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** PO250

**PA330 - Public Administration**

Principles and problems of public administration in America. Special attention is given to the problems of democratic control and the development of basic concepts of the field.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** PO330, PA225

**PA331 - Public Organizations**

A study dealing with public organization design and the impact public organizations have upon those who work in them or deal with them. Topics include: public organization information and control systems, decision making in public organizations, the environment of public organizations, organizational behavior and innovation in public organizations.

**Fulfills:** 4+1

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** PO331, PA335, PAD335

**PA333 - Public Management and Leadership**

The study of managerial functions, processes, ethics, and practices in public organizations. Topics may include goals, objectives, policies, organizational structures, and decision-making theory and practice in public organizations.

**Fulfills:** 4+1

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** PO333
PA334 - Public Personnel Administration

Analysis of the various functions of public personnel administration including: recruitment, placement, training, salary, evaluation, retirement, personnel problems, labor relations, collective bargaining, ethics, merit systems, and EEO programs.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: PO334, PA337, PAD337

PA342 - Administrative Politics

Examines the skills involved in interacting with the public, private groups, legislative bodies, advisory committees, political appointees, other administrative agencies, and other levels of government. The ethical problems of such relationships are also considered.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: PO335

PA345 - The Media and Public Administration

An analysis of the relationship between public administrators and the media from the standpoint of (a) the public relations efforts of administrators, and (b) the reporting of the media.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: PO336, PA465, PAD465

PA350 - Budget and Finance

An analysis of public budgeting at the national, state and local levels of government, including the relationship of the federal budget to fiscal policy. The politics of the budgetary process are examined as well as various types of budgets. The influence of intergovernmental transfer payments is also reviewed.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: PO332, PA338, PAD338

PA360 - Special Topics in Public Administration

This course examines selected issues affecting public administration.

Repeatable for Credit: This course may be repeated for credit when topics are changed, but only one applicable special topics course can be applied toward each emphasis area.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PA370 - Public Administration in a Virtual City

Using the core concepts of public administration and urban policy, students collaborate to create a virtual local government. Students recommend public management and urban policy approaches to design an innovative and vibrant virtual community. These combine methods of citizen engagement, governance, neighborhood development, project management, strategic planning, and urban planning used in local government.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PA380 - Public Service Values

This course examines values and the public good relative to public service, including ethical decision-making and professional responsibility.

Fulfills: LE Ethics, 4+1

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PA390 - Administrative Law

The study of administrative agencies, their rule making powers, adjudicatory functions and judicial control over such agencies. Areas covered include: the scope of administrative power, judicial review, regulatory law, due process, and personal liability of public servants.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

History: PO337

PA404 - Capitalism and Societal Issues

This course examines current societal trends and public debates relative to the dynamic interface of capitalism, economic concepts and principles. Students use a framework of foundational analytical tools in exploring these issues.

Fulfills: 4+1

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PA430 - Research in Public Administration
Students undertake research proposals that address issues of relevance to the field of public administration, including in relation to a student's area of emphasis or areas of emphasis, and will be determined in consultation with the instructor. This course can only be applied towards one emphasis area.

**Prerequisite(s):** EN105 and EN106. All prerequisites must be passed with a C or better.

**Fulfills:** Professional Writing, 4+1

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** PO430

**PA432 - Senior Project in Public Administration**

Through research, students should be able to demonstrate a thorough integration of the courses taken and skills learned in Public Administration, including in relation to a student's area of emphasis or areas of emphasis. Case studies and/or practical problems will be examined.

**Prerequisite(s):** EN105, EN106, PA430. All prerequisites must be passed with a C or better.

**Fulfills:** Writing Intensive,

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** PO403

**PA501 - Public Affairs Concepts and Theory**

This course provides an introduction to the field of public affairs and to the current problems in the area. Public affairs will be related to concepts of organizational theory and organizational behavior with an emphasis on the special nature of public organizations. The emphasis areas of the MPA program and their interrelationships will be explained.

**Credits:** 3

**PA503 - Emerging Issues in Public Affairs**

The course analyzes a selected current issue in the field of public affairs. This course will be offered when need and interest are present. The topic of the course will vary.

**Credits:** 1 to 3

**PA504 - Independent Study in Public Affairs**

This course consists of a prescribed program of study with provision for interaction between a student and a Park University faculty member, and may be used to replace integration courses. A three-credit hour PA504 may also be taken in conjunction with an approved internship to fulfill the pre-service student internship requirement and will be used to replace the cross-sector course in these cases. The course may be taken twice.

**Prerequisite(s):** Permission of the civic leader and MPA program director; prerequisite for PA504 with an internship: 24 credit hours, including completion of PA501

**Credits:** 1 - 4

**PA509 - Leadership Development and Organizations**

This highly interactive course, grounded in organization theory, examines organizations from a cross-sector perspective. The inherently contradictory nature of organizations and the leadership competencies associated with these contradictions are explored, using organizational effectiveness frameworks. Students embark on developing managerial leadership competencies associated with organizational effectiveness criteria.

**Fulfills:** 4+1

**Credits:** 3

**PA512 - The Environment of Public Organizations**

This course provides a study of the inter-relationships between public organizations and their internal and external environment, including its global dimensions. The environments will also be analyzed as the framework for the demands and supports facing public organizations, with special emphasis on ideas of citizen participation, inter-governmental relations and political influence. The mutual relationships between politics and administration will be stressed, including issues of contracting out and privatization.

**Fulfills:** 4+1

**Credits:** 3

**PA513 - Policy Development, Evaluation and Impact for Organizations**
This course examines the evaluation of the output of public organizations, the criteria and methodology of the evaluation. It also explores how public policies impact on the environment and the role of these outcomes for future actions of public organizations. The relationship of evaluation to monitoring performance will be analyzed.

Credits: 3

**PA521 - Business, Government, and Global Society**

This course examines management of the interrelationship between business and government within society, both domestically and globally.

Credits: 3

**PA524 - Global Comparative Public Administration and Policy**

This course examines the interdisciplinary mechanisms of public administration through the structure and functions of governments and policy globally.

Credits: 3

**PA525 - Global Comparative Public Budget and Finance**

This course examines public budgeting and financing issues, methods, and techniques in governments globally.

Credits: 3

**PA537 - Global Sustainable Development**

This course examines the economic and social issues and debates in development policies globally.

Credits: 3

**PA542 - Social Policy**

This course examines policies intended to address community needs and how the policies get set. Students review community needs, organizations, services and inter-organizational arrangements designed to implement policies in such areas as social welfare, health and mental health, employment and training, crime prevention and cultural endeavors. The role of individual values and responsibility, as well as the mobilization of community efforts to address problems, paying attention to their global implications, are explored.

Fulfills: 4+1

Credits: 3

**PA543 - The Nonprofit and Nongovernmental Sectors**

This course reviews the role and functions of the philanthropic and nonprofit sector, including history and trends in the field, and the legal and regulatory environment. The relationship of the nonprofit sector to the public and business sectors is examined, with attention to the related role of public and for-profit entities in delivering community services.

Note: PA543 may only be taken by students operating under a previous degree plan or taking it as an elective for the Nonprofit Leadership, Graduate Certificate. Certificate students should contact their advisor before enrolling in this course.

Credits: 3

**PA545 - Management of Nonprofit and Nongovernmental Organizations**

An overview of management principles and practices, with the common and distinctive elements of nonprofit management compared to that of public and business organizations in the U.S. and to civil society and non-governmental organizations in the global context. Different approaches within nonprofit management are viewed historically and in current practices. Critical nonprofit functions are emphasized, such as nonprofit incorporation and regulation, the nature of governance processes, marketing to multiple stakeholders, variations in the mix of services and funding sources, and the use of volunteers. Ethical relationships and the impact of technology within the nonprofit organization...
PA550 - Local Economic Development in Theory and Practice

Local economic development is a fascinating endeavor and field of study that requires familiarity with the essentials – the purpose of economic development, theories of policymaking, the political environment, and the role of stakeholders in local economic development decision-making. This course will examine local economic development in the United States from a historic perspective, theories and models of local economic development decision-making, the range of participants in the local economic development policy-making process, and current issues confronting citizens as well as public, private and nonprofit institutions in local communities and how these might be addressed through local economic development efforts.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PA560 - Approaches to Local Economic Development

Communities engage in various approaches to economic development with varying degrees of success; this necessitates a consideration of local economic development activities and outcomes, how government and business interact to influence the economic prospects of the community, how citizens are engaged in development decisions and how the lives of historically marginalized groups are impacted and might be improved. This course will examine approaches to economic development (what works, when, how and at what cost?), public-private partnerships in economic development, the significance of intergovernmental relations in economic development policy, the role of citizen engagement and how local economic development efforts might promote social and economic justice.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PA562 - Administrative Leadership

This course studies the role of the manager in a public organization, stressing the process of decision and policy-making, as well as the strategies leading to the accomplishment of organizational goals within the political framework. Consideration will be given to problems of communication and group processes.

Credits: 2

PA563 - Personnel Systems of Public Organizations

This course examines the operations of a personnel system with special emphasis on problems of collective bargaining, performance appraisal, training and supervision. Personal development will be emphasized together with diversity as essential concerns of the organization.

Credits: 3

PA564 - Budgeting and Finances of Public Organizations

This course presents current problems in budgeting, accounting and auditing. Special emphasis will be given to the various theories of budgeting and to the role of budgets in planning and performance measurements.

Credits: 3

PA580 - Sustainability, Smart Growth and Community Development

Local economic development efforts have consequences beyond revenue and jobs. This calls for an exploration of thinking regarding the impact of development on the larger environment and the crucial importance of strategic thinking to ensure the maintenance of a livable, high quality of life community. This course will examine the relationship between citizen quality of life and economic development efforts, growth management policies, the relationship between community development and economic development, and the prospect of sustainable communities.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

PA590 - Population, Land Use and Municipal Finance

Crosslisted: Communities make use of a vital resource – their land. As a key to local economic development, and for some the single most important single resource available to city
leaders, land use is emphasized in this investigation into the relationship between land use, city finances and economic development planning. This course examines the relationship between land use and economic development policies, land use and population geography, the impact of land use change on public revenues and expenditures, and land use and City Master Plans. Lecture Hours: 3 Lab Hours: 0

 Credits: 3

PA593 - Financing Nonprofit/Community Services

This course provides an examination of alternative funding sources for community and nonprofit services, and the optimal mix of funding sources for a given service and clientele. A variety of fundraising methods are reviewed, as well as organizational characteristics and capabilities which contribute to successful fundraising. Attention is given to non-monetary resources such as in-kind contributions of goods and services, and cooperative ventures.

 Note: Two-credit offering only for those students operating under a previous degree plan requiring two (2) credits for this course. Credits: 3

PA594 - Financial Management for Nonprofit/Community Organizations

This course surveys methods for budgeting income and expenses; financial recordkeeping; laws and regulations; and tax provisions governing financial management controls, cost analysis, financial reports and preparation for audits.

 Note: Two-credit offering only for those students operating under a previous degree plan requiring two (2) credits for this course. Credits: 3

PA599 - Virtual Local Government

Through a virtual platform in this course, a local government is created by students using the core concepts of public administration and urban policy. Students recommend public management and urban policy approaches to design an innovative and vibrant community. These combine methods of strategy, structure, project management, public private partnerships, infrastructure and citizen engagement used in local government.

 Repeatable for Credit No

 Credits: 3

PA600 - Ethical Foundations of Authority and Responsibility

This course examines fundamental ethical theories, issues, strategies and dilemmas in public service as they relate to issues of power, authority and responsible decision-making in organizations.

 Fulfills: 4+1

 Credits: 3

PA601 - Research Methods and Data Analysis

This course provides an examination of various research methodologies and appropriate statistical applications, relevant for public-sector and nonprofit administrators. A focus will be on the presentation and interpretation of empirical research findings.

 Fulfills: 4+1

 Credits: 3

 History: (PA502 and PA508)

PA602 - Seminar in Public Affairs

PA602 is the capstone seminar of the MPA program. Conducted as a graduate seminar, this course addresses correlation of the academic and practical experiences of the degree candidates to their responsibilities as professionals in a democratic society. Each student prepares a series of papers and/or presentations that emphasize various expectations to be faced in professional work, such as case analysis, critique, evaluation, implementation, research and proficiency in U.S. Constitutional issues.

Prerequisite(s): 27 hours academic credit, including completion of PA501. Students will not be able to enroll in PA602 while they are enrolled in PA501 or while they are finishing the requisite 27 credit hours. Students are advised to take these two courses early in their programs; failure to do so may result in delay of degree completion and graduation.

 Credits: 3

PA630 - Comparative Criminal Justice Systems
This course will discuss the management and administration of criminal justice systems in various jurisdictions in the United States and globally. In this course, students will explore concepts of criminality through a sociological perspective and will discuss similarities and differences in criminal justice systems around the nation and world.

**Credits:** 3

**Quality and Innovation Management**

**QM684 - Principles of Quality Management**

This course provides an overview of Quality Theorists and their contribution to the field. Quality Management resulted mainly from the work of American quality gurus such as Joseph Juran, W. Edwards Deming, Philip Crosby and Armand Feignbaum; and Japanese quality such as Kaoru Ishikawa, Genichi Taguchi, and Shigeo Shingo. In addition, quality systems and processes are assessed and evaluated. Topics include managing a quality improvement effort, tools, applications (TQM and Lean Six Sigma), metrics, benchmarking, best practices, and ethical practices.

**Credits:** 3

**QM685 - Innovative Techniques in Quality Management**

This course provides a proven method to apply innovation to achieve successful quality outcomes. This course will integrate innovative principles and techniques of Design for Six Sigma, creative techniques for innovation, and quality management applications. In addition, change management principles and data-centric decision-making will provide a successful method for beginning to change the culture of the organization.

**Prerequisite(s):** QM684

**Credits:** 3

**QM686 - Innovative Project Management**

This course provides a cadre of agile, disciplined, and transformational tools and processes for improving innovation opportunity outcomes and achieving sustained innovation project success. Provides future organizational leaders and decision-makers with a responsive and proven methodology for making time-sensitive and fact-based decisions on innovation opportunities.

**Prerequisite(s):** QM684 and QM685

**Credits:** 3

**QM687 - Collaborative Innovation Strategies**

Innovation on a corporate scale does not just happen; it is planned and executed by management. Management must see the value in innovating the way they operate, communicate, and carryout decisions. This course prepares the student to facilitate innovation within the organization or business. Innovation strategy consists of cultural and environment assessment, diagnostics, opportunities identification, implementation strategies and processes.

**Prerequisite(s):** QM684, QM685 and QM686

**Credits:** 3

**Religion**

**RE103 - Introduction to Religion**

A look at the different ways in which contemporary humanity views, studies and evaluates religion, giving special emphasis to the global nature of the human experience in religion. Approaches religion from the perspective of academic inquiry, considering art, language, ethics, ritual, and myth.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**RE109 - World Religions**

An introduction to the religion of humankind from the earliest records of spiritual life to the great religions of today. The course recognizes the possibilities of dialogue among the living traditions around the world and the resources within the local community

**Fulfills:** LE Humanities

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**History:** RE309

**RE215 - Selected Topics in Religious Studies**
An in-depth examination of specific areas in religion not otherwise available in the department.  
**Repeatable for Credit** May be repeated once for credit with change of topics.  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**RE223 - Ancient Christianity**

A critical exploration of the origination and development of Christianity within the larger historical, cultural, and religious setting of the ancient Graeco-Roman world. Particular attention is paid to how early Christians understood Jesus of Nazareth, organized and regulated their churches, and dealt with important religious and social concerns. Significant parts of the New Testament are studied with regard to these matters.  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**RE224 - Ancient Israel**

A critical exploration of the origination and development of the Israelite people within the larger historical, cultural, and religious setting of the ancient Near Eastern world. Particular attention is paid to how early Hebrews understood Yahweh, the God of Israel; organized and regulated their community; and dealt with important religious and social concerns. Significant parts of the Hebrew Bible are studied with regard to these matters.  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**RE307 - Religion in Today's World**

Contemporary aspects of religious thought and practice across a variety of disciplines and expressions, and considering current trends and movements. Attention will be given to religion as manifested on the world stage, with particular attention to the role it plays in the United States. The attempt is made to integrate religion with business, education, the sciences, politics consistent with current experience.  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** REL307

**RE310 - Independent Study in Religion**

An opportunity for students to pursue special interests not covered by regular course offerings. Material and credit arranged in consultation with instructor.  
**Repeatable for Credit** May be repeated for credit with permission of department.  
**Lecture Hours:** 0  **Lab Hours:** 0  **Credits:** 1-3

**RE315 - Special Topics in Religious Studies**

This course deals with various topics in religious studies, especially those which involve interdisciplinary studies or studies concerning contemporary issues in culture and society.  
**Repeatable for Credit** May be repeated for credit with change in topic.  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**Sociology**

**SO141 - Introduction to Sociology**

An examination of the social processes and structures of society, with particular attention to American society. Reviews such topics as interpersonal interaction, culture, major social institutions, inequality, deviance, and social change. Also introduces methods used in sociological research.  
**Fulfills:** Writing Intensive, LE Social Science, GEM  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** SOC141

**SO206 - Social Issues in Contemporary Society**

This course is a study of contemporary social issues using a sociological perspective. It examines social problems that occur in society and uses social theory and research methods to gain insight into the interaction of inequality with various elements in that society. These components include the nature, level, consequences and prospective resolutions surrounding social problems in the United States and globally.  
**Fulfills:** LE Social Science  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO210 - Social Institutions**
An overview of major social institutions, such as education, family, religion, culture and media, science and health care, politics, and the economy. Discusses their historical development, modern forms, social functions, and the ways in which they relate to one another and shape individual lives.

**Prerequisite(s):** SO141

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO220 - Ethical Issues in Social Sciences**

**Crosslisted:** PS220  
Considers the moral and ethical consequences of conducting social science research, disseminating the results, and implementing practices and policies based on those findings. Critically examines those questions and choices rising at each stage of the research process, and the results of those choices on relevant parties.

**Prerequisite(s):** An introductory social science course (i.e., SO141, PS101, CJ100 or SW205)

**Fulfills:** LE Ethics  
**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO223 - Pop Culture and Media**

Using theoretical approaches from sociology, analyzes how popular culture is portrayed in and projected upon society, and presents explanations and repercussions of those processes on the self and society. Examines the relationship between media, pop culture, and society, focusing on consumption and communication, the transmission of culture, the political economy of media, representations of social groups in popular culture, and new data cultures.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO255 - Social Life of Data**

Examines the mechanisms by which aspects of social life have become quantified, calculated, and datafied. Analyzes datafication from identity formation to population statistics in cultural, economic, and political spheres. Identifies how ideologies and beliefs are embedded in computational tools, systems, and infrastructures and how data forms can reproduce, challenge, or modify social relations. Topics include algorithmic bias, surveillance and privacy, data sovereignty, artificial intelligence, predictive policing, 'smart' city applications, health metrics, and market segmentation among others.

**Grade:** LT  
**Credits:** 3

**SO290 - Environmental Sociology**

This course is an introduction to the topics studied within Environmental Sociology. It examines the various theoretical perspectives on the relationship between humans and the environment. It includes discussion of the systemic causes of environment disruption and the social consequences and responses to environmental change.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO302 - The Study of the Family**

A study of the family as a social institution and a social group in terms of cross-cultural, historical, and contemporary perspectives. Current controversies concerning male-female roles, sexual morality, reproduction and other issues are considered.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** SO202, SOC202

**SO303 - Urban Sociology**

A study of the development of the city and of the social characteristics of urbanization, ecology, social processes, group relations, and selected urban problems.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3  
**History:** SOC303

**SO307 - Statistics for Social Sciences**

**Crosslisted:** PS307  
Statistical methods are a primary tool for all of the social and behavioral sciences. This course introduces a wide variety of common statistical techniques and their conceptual bases, including: basic descriptive and inferential statistics, analyses of association and variance, effect sizes, and others in their parametric and nonparametric forms. It provides a background in the relevant theories of probability, sampling, and measurement. And the student will learn how to become a more discerning consumer of statistical information as
well as gaining practical experience calculating these statistics by hand and computer. 

**Prerequisite(s):** MA135 or MA120 and an introductory social science class (i.e., SO141, PS101, CJ100, or SW205) and PS300/SO310

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO309 - Sociology of Sport**

Explores the dynamic relationship between sport, culture and society. Analyzes issues in sport utilizing sociological theory. Topics covered in the course include socialization, race, class, gender, identity, and the social and cultural contexts in which sport is created, given meaning, played and integrated into everyday life.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO310 - Sociological Research Methods**

Explores the common issues, concepts, and techniques central to research within sociology including both quantitative and qualitative methods. Critically evaluates sociological research and the theories and logics embedded in various methodologies. Students will learn to form analytic research questions and develop research designs and collect data to appropriately answer those questions.

**Prerequisite(s):** An introductory social science class (i.e. SO141, CJ100, or SW205) and (for Social Psychology and Sociology majors- EN105 and EN106).

**Fulfills:** Professional Writing

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** (SO306 and SO308), SO300

**SO313 - Class, Status, Power**

An examination of the role of social class in U.S. society. Analyzes the system of stratification and the distributions of resources. Addresses ideologies and practices that contribute to the reproduction of class inequality. Explains the multiple ways in which power is organized and its effects on status and mobility. Analyzes micro level identity construction and cultural meaning, as well as institutional practices and policies. Studies intersectional identities and interlocking forms of oppression and how social class is represented and portrayed in media and popular culture.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO318 - Military Sociology**

The military as a social institution, focusing on both the internal structure and practices of the military and its relation to other institutions (such as the government or the family), military leadership, policy issues and the role of the military in diplomacy and international relations, and the social psychological effects on service members (including the differences between enlisted personnel and the officer corps), veterans, and their families and friends. And it analyzes the dynamic role of the military in a digital age with changing operational mandates.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO322 - Sociology of Health and Illness**

This course examines the sociological view of health, illness, and the delivery of medical care in contemporary society. It includes social and social-psychological factors involved in being ill; social relationships and organizations that are connected with medical treatment the roles of providers and patients; and national health care systems around the world. This course integrates recent research in the field of medical sociology and highlights the importance of race, class, and gender throughout.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**History:** SO327

**SO325 - Crime, Deviance, and Social Control**

Survey of major theories of deviance and social control. Analyzes specific behaviors and identities commonly regarded as deviant: violence, property crimes, drug use, mental illness, unconventional sexual behaviors, suicide and self-destructive behaviors, among others. Explores both official and informal responses to deviantized behaviors, including criminalization and stigmatization, and their cross-cultural variation.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

**SO326 - Sociology of Conflict, War and Terror**
Surveys the conditions under which conflicts arise, escalate, and are resolved or erupt into open hostility. Examines the social functions and consequences of warfare, including its relation to political, cultural, and economic concerns, and its affects on combatants. Traces the reasons for terrorism and its rise from the 20th century onward, including its connections to globalization and the global community.

**Prerequisite(s):** SO141 or instructor consent.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**SO328 - Religion, Globalization, & Identity**

Sociological analysis of religious organizations, movements, and experiences with an emphasis on historical and cross-cultural comparisons. The course surveys both large-scale religious trends and demographic patterns and the social and cultural dimensions of individual religious feelings and behaviors. Topics include formal religious organizations, religious socialization, religious conflict, relations with other institutions, the worldwide rise of fundamentalisms, and the future of religion.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**SO329 - Sociology of the Life Course**

Examines the social aspects of aging from birth to death and the differences in our experiences due to age, historical period, and the cohort or generation to which we belong. Substantive topics include social psychological outcomes (such as self-esteem and stress), adolescence and identity formation, dating and family dynamics, occupational trajectories and retirement. Also examines the large scale effects of population aging trends and the effects of maturation of social relationships.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**SO330 - Sociology of Youth and Youth Cultures**

Focus on the social and cultural aspects of development from the onset of adolescence through young adulthood. Examines historical and cultural differences in the concept of "youth." Topics include the effects of family, friends, and the media on identity and personal decisions; dating and mating; school and work; popular culture, values, and consumerism; violence, delinquency, sex, and risk taking.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**SO332 - Dying, Death and Bereavement**

Examines the demographic, cultural, and social psychological aspects of dying, death, and the grieving process. Topics include cultural and individual attitudes toward death, the medicalization of death, associated institutions, end of life care, the social role of funerals, and various forms of death, such as old age and dying young, euthanasia, suicide, and genocide.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**SO333 - Gendered Society**

Gender is a central framework in constructing meaning in society and this course will examine the various articulations of gender from a sociological lens. The goal of this course is to provide students with an overview of sociological perspectives on gender and introduce students to the role of gender in informing our identities, interactions, social institutions, and other systems of power. Gender is often socially constructed as a binary of difference between men and women, masculinity and femininity. This course will take a non-binary perspective on gender, questioning its structures, boundaries, limits, and consequences. Various topics this course will cover include: queer and feminist history, gender socialization, intersectionality, gender inequality across various social institutions, and cultural representations of gender.

**Lecture Hours:** 3  **Lab Hours:** 0  **Credits:** 3

---

**SO338 - Self and Society**

This course is an exploration of the connections between the self and society. The sociological approach begins with the claim that "inner lives" are fundamentally grounded in social experience. In this course we will be examining the ways we construct our social reality and who we realize and enact our identities. The course is divided into three sections: the social construction of reality, the self and interaction, and social politics of inequalities. For each section we will be discussing key sociological concepts and theories
through empirical examples.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**SO342 - Race and Ethnicity**

An examination of the role of race and ethnicity in U.S. society. Analyzes the formation and transformation of racial systems and the unequal distribution of resources. Examines institutional inequalities and systemic discrimination. Addresses racial ideologies at the individual, interactional, and institutional level to understand how racial inequality is produced, maintained, and alleviated.

**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**SO390 - Topics in Sociology**

Based each semester on a different subject area not otherwise available in the department.

**Prerequisite(s):** SO141  
**Note:** Recommended for any students desiring to broaden their knowledge base in the social sciences.  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**SO402 - Independent Study in Sociology**

An opportunity for the student to pursue an individual area of interest by directed readings or research, or both. This is not a substitute for standard course offerings.

**Prerequisite(s):** Major or minor in sociology and SO141  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3

**SO403 - Social Theory**

Surveys the historical development of sociological theory, examines the nature of social theory and theory construction, and reviews the principal contemporary perspectives and debates in the field of social theory.

**Prerequisite(s):** SO141  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** SO335

**SO430 - Field Placement in Sociology**

Supervised field placement in an agency specifically concerned with application of sociology.

**Prerequisite(s):** major in sociology and junior or senior standing.  
**Lecture Hours:** 0  
**Lab Hours:** 0  
**Credits:** 1-6

**SO496 - Senior Project in Sociology**

This course involves research on a selected sociological problem and preparation of a major paper in the style of a professional journal article in sociology. The paper will include a problem statement, review of relevant theory and research, and presentation of research findings and analysis.

**Lecture Hours:** 0  
**Lab Hours:** 0  
**Credits:** 1-4

**SO497 - Capstone Seminar**

This course serves as the capstone experience for students in their senior year. This course will include professional development for employment or graduate studies, creation of a professional portfolio, completion of a comprehensive exam, and a reflection upon the degree program. This course is not transferable from another institution.

**Prerequisite(s):** PS101 or SO141 and senior standing  
**Note:** Offered online only or with chair approval.  
**Lecture Hours:** 3  
**Lab Hours:** 0  
**Credits:** 3  
**History:** (SO398 and SO498)

**Social Science**

**SS215 - Selected Topics in Social Science**

An in-depth examination of specific areas of the social sciences.  
**Repeatable for Credit** May be repeated once for credit with a change in topic.  
**Lecture Hours:** 0  
**Lab Hours:** 0  
**Credits:** 1-3  
**History:** SSC215

**SS315 - Special Topics in Social Science**

An in-depth examination of specific areas of the social sciences.  
**Repeatable for Credit** May be repeated once for credit with a change in topic.
SS401 - Social Sciences Colloquium

A seminar for juniors and seniors promoting understanding of selected contemporary problems from an inter-departmental perspective. Strongly recommended for all majors and minors within the division. **Repeateble for Credit** May be repeated for credit.

**Lecture Hours:** 1 **Lab Hours:** 0 **Credits:** 1

Surveying

SU201 - Introduction to Surveying

Course will cover principles and methods of surveying; handling of survey equipment during transit; field work to include foundation layouts, grade calculations, level circuits, and profiling; and compilation of field notes.

**Prerequisite(s):** MA141

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

Social Work

SW205 - Introduction to Social Work

This course examines the multidisciplinary nature of the profession of Social Work. Students learn about the historical roots of social work and influences from other disciplines such as psychology, sociology, anthropology, criminal justice, law, education, and political science, as well as social welfare policy in contemporary practice. The course also examines values and ethics, as set forth by the National Association of Social Work, and practice competencies, as set forth by the Council on Social Work Education. Students are required to engage in 20 hours of service learning to experience the delivery of the Seven Core Functions of Generalist Social Work Practice in a community setting. The Council on Social Work Education’s (CSWE) 10 Competencies of Generalist Social Work Practice are infused in the discourse and assignments in this course. SW205 is recommended for students earning a degree in the School for Behavioral and Health Sciences and the School for Education.

SW325 - Human Diversity and Social Justice

This course provides a foundation of knowledge to better understand how diversity and difference shape the human experience and are critical to the formation of identity. The dimensions of diversity and their intersectionality across multiple factors; including but not limited to age, ability, culture, ethnicity, race, political ideology, class, religion/spirituality, gender and sexual expression, immigration status, marital status, and tribal sovereign status, are examined. Consequently, how these differences associate to oppressive practices is examined and various international and multicultural strategies to advance human rights and social, economic, and environmental justice are explored. This critical knowledge is applied to generalist social work practice.

**Fulfills:** Writing Intensive,

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

SW330 - Social Welfare Policy and Programs

This course introduces students to the major social welfare policies and programs of the United States today, and examines the historical circumstances which gave rise to those social welfare programs and the social work profession. Existing policies are critically examined, and attention is given to methods by which social policies might be influenced to better meet human needs and promote social justice.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

SW400 - Human Behavior in the Social Environment I

This course examines theories designed to understand the ecological person-in-environment perspective while providing students with a better understanding of the interdependence of biological, cognitive, psychological, social, cultural and spiritual factors which influence human behavior, development and functioning across the life span. This course specifically focuses from conception through young adulthood. Students are further
introduced to a range of social systems and the ways in which these systems promote or deter people from achieving and maintaining health and well-being.

Prerequisite(s): Admission to the BSW Program
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: SW305

SW405 - Human Behavior and Social Environment II

This course examines theories designed to understand the ecological person-in-environment perspective while providing students with a better understanding of the interdependence of biological, cognitive, psychological, social, cultural, and spiritual factors which influence human behavior, development and functioning across the life span. This course specifically focuses on middle adulthood through death in old age. Students closely examine a range of social systems and the ways in which these systems promote or deter people from achieving and maintaining health and well-being.

Prerequisite(s): Admission to the BSW program.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SW406 - Social Work Research

This course introduces students to the purpose and responsible conduct of social work research. Students explore the principles of logic, scientific inquiry, and culturally informed and ethical approaches to building knowledge through research activities and closely examine the critical role research facilitates in the continued growth and development of the social work profession.

Prerequisite(s): MA120 (or equivalent), Admission to the BSW Program.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: SW335

SW407 - Social Work Practice II: Groups

This course introduces students to knowledge and skills required for effective, competent and ethical generalist social work group practice. This includes exploration of the dynamics of group processes and the use of group interventions to address a wide range of human needs.

Prerequisite(s): Admission to the BSW program.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: SW320

SW409 - Social Work Practice I: Individuals and Families

This course teaches students the values, knowledge and skills required for effective, competent and ethical generalist social work practice, across a wide range of settings with individuals and families. Emphasis is placed on understanding and application of the nine social work competencies as set forth by the Council of Social Work Education (2015), and the seven core helping functions from a strength's based approach. This course is taken concurrently with Generalist Field Education I, and is designed to integrate classroom learning with concrete expression of generalist practice in actual helping situations across field practicum experiences.

Prerequisite(s): Admission to the BSW Program
Corequisite(s): SW420
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: SW310

SW410 - Social Work Practice III: Organizations and Communities

This course introduces students to knowledge and skills required for effective, competent and ethical generalist social work practice with organizations and communities. This includes an introduction to organizational development and community practice. Strategies for community and organizational transformation are explored from an ecological strengths based approach. This course is considered the 'capstone' course in the BSW curriculum and is taken concurrently with Generalist Field Education II. Students are expected to integrate professional application of all nine social work competencies (CSWE, 2015) and seven core helping functions in the development, implementation, evaluation, and dissemination of their Capstone Research Project.

Prerequisite(s): SW400, SW406, SW409, SW420 and SW492
Corequisite(s): SW430
Lecture Hours: 3 Lab Hours: 0 Credits: 3
SW420 - Generalist Field Education I

This course is designed to provide students the opportunity to operationalize generalist practice behaviors that reflect the essence of the Nine Competencies of Generalist Social Work Practice as set forth by the Council on Social Work Education (CSWE, 2015 EPAS). Students collaborate with their Faculty Liaison, Field Practicum and Practice Class instructors to develop and implement real-life practice opportunities. Generalist practice behaviors are documented on the Field Learning Education Plan (FLEP). The core assessment in SW420 is a summative paper that reflects an understanding of core concepts related to Generalist Social Work Practice and examples of how these concepts were applied in the Field Practicum experience. Students must complete a minimum of 225 hours in the designated field practicum placement.

Corequisite(s): SW409
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SW430 - Generalist Field Education II

This is the second sequential course designed to provide students with a more in depth learning opportunity in operationalizing generalist practice behaviors that reflect the essence of the Nine Competencies of Generalist Social Work Practice as set forth by the Council on Social Work Education (CSWE, 2015 EPAS). Students continue to collaborate with their Faculty Liaison, Field Practicum and Practice Class Instructors to develop and implement real-life practice opportunities. Generalist practice behaviors are documented on the Field Learning Education Plan (FLEP). The core assessment in SW430 is a summative paper that reflects successful application of core Generalist Social Work concepts and practice behaviors in the Field Practicum experience. Students must complete a minimum of 225 hours in the designated field practicum placement.

Prerequisite(s): SW409 and SW420
Corequisite(s): SW410
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SW431 - Field Instruction Seminar II

Integrates agency-based learning in the second Field Instruction placement with classroom-based learning.

Prerequisite(s): SW420, Social Work Major.
Corequisite(s): SW410 and SW430
Lecture Hours: 1 Lab Hours: 0 Credits: 1

SW450 - Integrative Seminar for SW Minor

This course is the final capstone for the Social Work Minor. All required courses (or their equivalents) for the minor must be completed with a grade of C or better prior to being enrolled in SW450. This course is designed to reinforce core concepts (NASW Code of Ethics, Six Core Values & Seven Core Helping Functions of Social Work, Nine Competencies of Generalist Social Work practice (CSWE, 2015) and the Strength's Perspective) critical to competent professional generalist social work practice and provide students the opportunity to apply these conceptual frameworks through active engagement in an extended service learning project (ESLP). Students are required to complete 40 hours of service learning in a local community social service agency, during the term of this course. Students will develop their own research question, in consultation with the instructor that has relevance for contemporary social work practice, policy or research. Students will then develop, implement and evaluate a creative and innovative project designed to enhance the social welfare of individuals, groups or organizations.

Prerequisite(s): SW205, SO302, PS309, SW325, SW330
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SW490 - Special Topics in Social Work

Specialized study of a particular subject in social work, not otherwise available in the department.
Repeatable for Credit This course may be repeated for credit when topics are changed.

Lecture Hours: 3 Lab Hours: 0 Credits: 3

SW492 - Ethical Practice & Professional Behavior in Social Work

This course is a required seminar intended to engage the thoughtful imagination of individuals preparing to enter the social work profession, and prepare individuals for competent and
compassionate ethical practice as generalist social work professionals. In this course we will examine historical as well as emerging issues, the process of becoming a social work professional, the tensions inherent in the goals of social work, and the ways these interrelate to produce conflicts of values and ethics in both our professional and personal realms. The course focuses on acquiring and practicing the skills of ethical decision-making, including values clarification, application of ethical theory, utilization of codes of ethics, and models of ethical analysis and reflective practice. Generalist aspects of social work are addressed, with the goal of building competencies for meeting the contemporary challenges of practice in multicultural and urban as well as rural practice environments. Issues of social justice and human rights, self-care, practitioner impairment, licensure, malpractice, whistle-blowing, and other professional challenges are explored. The structure and content in this course reflects Ethics Course guidelines established by the Association of Social Work Boards. (ASWB) 

Prerequisite(s): Full or provisional admission to the BSW Program and senior standing. 
Fulfills: LE Ethics 
Lecture Hours: 3 Lab Hours: 0 Credits: 3

SW493 - Multidimensional Assessment in Generalist Practice

This course engages student in the process of assessment and examines the various types of assessments that are developed in Generalist Social Work practice. These assessments are designed to inform and direct interventions with individuals, families, groups, organizations, and communities. This course is designed to provide students with the opportunity to enhance their understanding of the assessment process, as well as to enhance their ability to develop assessment skills; both in writing and in sharing verbally through supervision and with interdisciplinary teams.

Repeatable for Credit This course may be repeated for credit when topics are changed. 
Lecture Hours: 3 Lab Hours: 0 Credits: 3 
History: SW491

SW500 - Social Work and Social Welfare

This course provides students with an awareness of the rich traditions and history of the social work profession. It examines social work roles in many fields of practice. Students learn the Social Work Code of Ethics and the six core values that guide and direct social work interventions. The course provides the foundation for all other graduate social work courses through its emphasis on learning and applying the nine core competencies of social work practice. SW500 integrates with Field Education where students observe and participate in the application of social work interventions. This course assesses Social Work EPAS Competencies 1, 2, 5, 6. 

Credits: 3

SW510 - Policy Analysis and Policy Practice

This course introduces students to the major social welfare policies and programs of the United States today, and it examines the historical circumstances which gave rise to those social welfare programs and the social work profession. Existing policies are critically examined, and attention is given to strengths-based methods by which social policies might be influenced to better meet human needs and promote social justice. The Nine Core Competencies as set forth in the 2015 CSWE accreditation standards are infused throughout this course. Emphasis is placed upon engagement in policy practice and advocacy with the end goal of participating in positive social change. Students will demonstrate the ability to engage in policy analysis and practice and identify the actions needed for change, and identify emerging social trends in order to provide relevant social welfare services. This course assesses Social Work EPAS Competency 5. 

Credits: 3

SW520 - Human Behavior in the Social Environment I

This course examines multiple theoretical foundations to provide a deeper understanding of the nature of human behavior in the social environment. SW520 examines the dynamic interaction of the individual and her/his social environments across the life span. SW520 examines the biological, social, psychological, spiritual, cultural forces that impact human behavior from infancy through young adulthood.
This course assesses Social Work EPAS Competencies 1,4,6,7,9.

**Credits:** 3

**SW530 - Generalist Practice I**

This course is the first generalist practice course in the two course practice sequence. The focus is on the values, knowledge and skills required for effective generalist social work practice across a wide range of settings with individuals, families and groups. Emphasis will be placed on understanding and being able to implement all 9 EPAS Competencies as set forth by the Council on Social Work Education (2015). Additionally, this course will address core functions of Strengths-Based, Person Centered practice that are not included as CSWE competencies including Collaborative Planning, Implementation through advocacy and linkage, Monitoring, Supportive Counseling, and Graduated Disengagement. This course is taken concurrently with SW540 Generalist Field Education I, and is designed to integrate classroom learning with concrete expression of generalist practice in actual helping situations. This course assesses Social Work EPAS Competencies 1-9.

**Credits:** 3

**SW540 - Generalist Field Education I**

Field Practicum experience where concepts learned in the classroom are applied in social work settings in the community. Students, in consultation with the Director of Field Education, are placed in an agency where they receive mentoring and instruction from an experienced MSW practitioner. Students work closely with their classroom instructor, the faculty liaison, and the field instructor to develop their Field Learning Education Plan (FLEP). In this course, students become aware of the importance of the agency mission and purpose, organizational culture, policies and procedures, sources of funding, etc. they also begin working with individuals, families and groups under the supervision of the practicum instructor and/or other professionals at the agency. The foundation year practicum focuses on the development of knowledge, values, skills, and cognitive and affective processes in generalist practice. This class assesses the Social Work EPAS competencies 1-9.

**Credits:** 3

**SW550 - Social Work Research**

This course prepares students to engage in the rigorous and systematic examination and evaluation of the social work planned change process. Students learn the nature and purpose of research. They study research design and methodology. Students learn the importance of formulating research questions that are guided by the mission, purpose, values and goals of the profession. Students will examine the relevance of Applied Research and collaborative, Participatory Action Research (PAR). Students learn how to become critical consumers of published research and they become aware of the importance of evaluating the effectiveness of their own interventions and contributing to the growing body of social work knowledge. This class assesses the Social Work EPAS competency 4.

**Credits:** 3

**SW560 - Human Diversity and Social Justice**

This course provides a foundation of knowledge for more effective social work practice with a diversity of individuals and groups. It explores the background, worldview and special needs of groups which vary in such respects as race and ethnicity, religion, gender, disability, sexual orientation, and age. The nine competencies asset forth in the 2015 CSWE accreditation standards are infused throughout this course. Emphasis is placed upon engaging diversity and difference in practice and advocacy in advancing human rights and social and economic justice. Students will demonstrate the ability to: identify how diversity shapes the human experience and is critical to the formation of identity; recognize, define and decrease systemic oppression; utilize self-reflection to effectively engage in culturally competent practice to influence domestic and global social justice change. This course assesses Social Work EPAS Competencies 1,2,5,6.

**Credits:** 3

**SW570 - Human Behavior in the Social Environment II**

This course expands and builds upon the theoretical framework explored in SW520. Theories of human behavior as they relate to mid-
life and aging are addressed. Students are introduced to the impact of life experiences such as trauma, military service, loss, experiencing divorce, and issues relating to retirement and chronic illness. Students are challenged to think more critically about how attention to multiple theories and experiences influences their ability to engage, assess, intervene and evaluate their work with individuals, families, organizations and communities. This course assesses Social Work EPAS Competencies 1,4,7,9.

Credits: 3

SW580 - Generalist Social Work Practice II

This course introduces students to knowledge and skills for social work practice with organizations and communities. The course includes an introduction to organizational management, acquiring grants for program funding, strategies for organizational change, and the experience of working in an agency setting under supervision. Community practice also includes an introduction of community change strategies and methods of advocacy. Students are expected to integrate knowledge of research, policy, practice and theory in the development, implementation, evaluation, and dissemination of their Organizational Transformation Project (OTP). All nine CSWE competencies are to be reflected and addressed in this project. Additionally, this course will address core functions of strengths-based, person centered practice that are not included as CSWE competencies including collaborative planning, implementation through advocacy and linkage, monitoring, supportive counseling, and graduated disengagement. This course is taken concurrently with SW590 Generalist Field Education II, and is designed to integrate classroom learning with concrete expression of generalist practice in actual helping situations. This course assesses Social Work EPAS Competencies 1-9.

Credits: 3

SW590 - Generalist Field Education II

This course continues with the experiential learning in the first field education course, SW540. In SW540, students are expected to demonstrate more self-directed learning and autonomy as they have become assimilated into the agency. Students in SW590 continue to document their experience in reflecting the behaviors that demonstrate knowledge, values, skills, cognitive and affective processes related to each of the nine social work competencies. In addition, students are expected to complete their OTP intervention at the agency and to present the results of their project at an agency in-service. This course assesses Social Work EPAS Competencies 1-9.

Credits: 3

SW600 - Bridging Practice, Theory, Policy and Research

SW600 is designed to reinforce, augment and supplement learning achieved on the baccalaureate level of social work education. The course will integrate knowledge, values and skills across four essential content areas: 1) Policy Practice, 2) Theories of Human Behavior, 3) Research Informed Practice & Practice Informed Research, and 4) Multi-Level Generalist Social Work Practice. Infused throughout the readings, discussions and assignments in this course are the nine competencies of social work practice as set forth by the Council on Social Work Education (CSWE, 2015). Students are expected to demonstrate growth in identifying as a professional social worker. They are expected to identify conflicts and ethical dilemmas and to apply a systematic framework to respond effectively in such situations. Students will be expected to articulate the philosophical and professional values related to the Strengths Perspective and Recovery Oriented practice. Finally, this course will challenge students to continue to identify issues related to structural oppression, exclusion, discrimination, and income inequality. This course assesses Social Work EPAS competencies 1-9.

Credits: 3

SW610 - Advanced Practice I

In SW610, students learn a wide range of therapeutic interventions designed to promote goal attainment and the well-being of individuals, families, groups, and communities. Students learn that effective advanced social work practice is guided and informed by theoretical frameworks, treatment models, practice behaviors, agency mission, policies, and requirements of funding sources. Although the
course sequence begins with theories, frameworks, and models that can be used on a personal or family level of social work practice, as the course progresses, approaches will be applied to all three levels, personal (micro), agency (mezzo), and community (macro). This course equips students with a wide range of knowledge and skills related to engagement, assessment, intervention, and evaluation, to expand on practice skills learned at the generalist level. Students are expected to develop autonomous practice, to utilize critical thinking and reflection, and to function as an effective team member, as they expand awareness of conscious use of self in the social work helping partnerships. This course will include active discussions of values, ethics and practice behaviors, and students are expected to move beyond identifying ethical dilemmas, to planning and implementing strategies which effectively resolve these dilemmas. This course assesses Social Work EPAS competencies 1-9.

**Credits:** 3

**SW615 - Social Work in Behavioral Health**

As defined by SAMHSA (2011), behavioral health is a "state of mental/emotional being and/or choices and actions that affect wellness." However, more specifically related to this course, behavioral health is a term which addresses issues in mental health, substance use, and addictions. The concept of behavioral health encompasses a continuum of prevention, intervention, treatment, and recovery support services. As the largest group of providers of mental health services, social workers comprise 60% or more of the mental health workforce (National Association of Social Workers, 2000). Social Work in Behavioral Health will provide the historical and political context of behavioral health and mental health care. The impact of substance use, gambling and eating disorders on individuals, families and communities will be explored. Lifespan issues that inform work with older adults and families and hospice policies and practices will be introduced. Students will identify the local, state, national and global policies that impact service participants and practice advocating for policy changes to promote improvements of the well-being of individuals, families, organizations and communities. The multidisciplinary nature of behavioral health practices will emphasize the need for social workers to develop collegial skills and practice effective ethical teamwork with psychiatrists, substance use professionals, nurses and physicians to name a few. The medical model, especially as it relates to diagnosing mental disorders and substance use, will be juxtaposed with the strengths perspective as students develop their conceptual framework for professional social work practice. This course assesses Social Work EPAS competencies 3, 5, 7, 8.

**Credits:** 3

**SW620 - Gerontological Social Work**

Aging service participants provide a unique practice focus for social workers. Gerontological social work examines the growing role for autonomous social work practice in working with elderly individuals and their families. This course provides examination of the literature with focus on theory and research, personal and family transitions, experiences in mid-to-late life and their impact on adults and their family relationships. Students review current policies relating to assisting elders to "age-in-place" and maintain quality of life and social well-being in the least restrictive environment possible. The learning in this course will be closely aligned with the practice experiences in the field setting. Students gain a fuller understanding for programs and policies such as the Older American’s Act, Medicare, Medicaid and various other issues relating to Elder Law. This course assesses Social Work EPAS competencies 1,3,5,8.

**Credits:** 3

**SW621 - Military Social Work**

This course provides a historical framework of the social work collaborative practice with military members and their support networks. Delineation regarding the unique challenges for members of the military, their families, veterans of both war and peace time, and persons who have suffered wounds or other extremes during military service, such as imprisonment during a war or conflict, military sanctions, or abuse, will be delivered. Policies that impact working with military members will be another focus of study, including the implementation and repeal of "Don't ask, don't tell, don't pursue," multiple deployments, the GI Bill benefits, and limitations of adequate VA services compared to the
immense needs of wounded veterans. Students will demonstrate understanding of the impact of related policies on individual service participants and families. In this class students will learn the importance of understanding military cultures, treating military service participants with respect, attention to the importance of confidentiality, and strict adherence to the practice protocols that ensure confidentiality. This course assesses all Social Work EPAS Competencies (1-9).

**Credits: 3**

**SW622 - Social Work with Children and Families**

The major focus of this class is on social work in the settings of child welfare, education, and children's behavioral health and social well being. Because children primarily reside in family settings, an emphasis will also be placed on families, family dynamics, and family interventions. Students can expect content focusing on school social work; special education; adoption and foster care; the history of societal responses to child abuse and neglect; recent federal legislation surrounding children's issues; recent research about child-focused programs and practices; the history of deinstitutionalization of children's services; common children's mental health diagnoses; commonly prescribed medications and the controversy of overmedication in children, recent federal legislation regarding the system of care; innovative and research based community based programs; current interventions and treatment modalities used with children and families (e.g. play therapy, CBT, narrative therapies, art therapy, experiential therapy, family-directed structural therapy, and solution-focused therapies); parenting strategies; issues surrounding divorce; and the implications of all of these issues for culturally competent direct practice. This course emphasizes an ecological and strengths perspective. Several issues that apply across all systems are also addressed. These include the tensions between a child focus and a family focus, pros and cons of various ways of organizing and financing services, the philosophy of least restrictive alternative, resiliency, culturally competent practice, and the importance of fairly and accurately measuring outcomes. This course assesses Social Work EPAS competencies 5, 6, 7, 8.

**Credits: 3**

**SW630 - Program Evaluation and Grant Writing**

This course provides students with the knowledge and skills to analyze how programs designed to promote social well-being of people organize, deliver, and assess the effectiveness of the services and interventions. This course emphasizes the grant writing process, with the overall purpose of teaching the student to unpack each component through critical analysis of program development and implementation. The course provides the students with a deeper awareness of the important relationships between funding sources and the manner in which programs conduct daily activities. Students learn models of organizational change and also examine the factors related to successful dissemination of innovations in human service programs. This course assesses Social Work EPAS competencies 4 and 9.

**Credits: 3**

**SW640 - Current Diagnostic Trends: Integrating the DSM-5 with the Strengths' Perspective**

This course provides students with a deeper understanding of the process of diagnosing mental disorders utilizing the latest framework as described in the Diagnostic and Statistical Manual, fifth edition, 2013 (DSM-5). Students learn the characteristics related to specific Behavioral Health diagnoses. In addition, students are challenged to integrate the psycho-pathological perspective with the Strengths Perspective. Students learn the importance of generating accurate diagnosis while at the same time attending to the person’s uniqueness, social context, issues of poverty, discrimination and exclusion that contribute to their sense of social well-being, health and conceitedness. This course is organized around the DSM-5 as it is the major diagnostic framework used in mental health systems. The focus will be on major affective, cognitive, anxiety, trauma, alcohol and drug, and personality disorders that graduates are likely to encounter in behavioral health social work practice. The limitations and controversies related to the use of the DSM-5 will be supplemented by the strengths assessment and will assist students in furthering their critical thinking skills. The course assesses Social Work EPAS competencies 5, 6, 7, 8.
EPAS Competencies 1,2,7,8,9.  
Credits: 3

SW650 - Advanced Field Education I

This course focuses on students' ability to integrate classroom learning with practice application in the field setting at the specialized level. Students collaborate with the Director of Field Education, classroom instructors, the MSW faculty liaison, and the agency based MSW Field Instructor, to identify and document practice behaviors that reflect the knowledge, values, skills, and cognitive and affective processes that are the essence of the nine competencies. These activities are recorded on the Field Education Learning Plan (FLEP). In order to promote the real time integration of knowledge and skills, students are required to take SW650 concurrently with SW610 Advanced Practice I. In this course students are expected to become familiar with the policies and procedures of the host agency. They are expected to gain a deeper understanding of the organizational culture as well as to be able to articulate the mission and purpose of the agency as these relate directly to agency goals. Students are expected to take an active role in their learning experience and advocate for a wide range of learning opportunities as the aim towards autonomous social work practice. The course assesses Social Work EPAS Social Work Competencies 1-9.  
Credits: 3

SW660 - Advanced Practice II

This course builds upon the knowledge and skills covered in SW610 Advanced Practice I. Advanced Practice II is designed to increase students' skills in engagement, assessment, intervention, & evaluation of individuals, families, and groups. Skills in written and oral presentation of assessments, treatment plans, interventions and evaluations of service participants are emphasized. Class sessions will focus on specific problems and intervention models, including loss and grief, cognitive behavioral therapy, strengths-based, and solution-focused interventions, family treatments, group interventions, integrated behavioral health, emotional regulation, adversity and spiritual transformation, and developing a professional practice. Specialist advanced practice and ethical strategies are taught in the classroom, applied in Field Education II, and Field Practicum. Attention to cultural humility and diversity are accentuated. Students will be expected to expand their understanding about working with vulnerable populations, characteristics of vulnerable populations, risk factors, engagement, assessment, interventions with particular populations, and evaluation of treatment outcomes. The course assesses Social Work EPAS Competencies 6-9.  
Credits: 3

SW670 - Leadership, Supervision and Entrepreneurial Opportunities in Social Work

This course prepares students for the changing context of specialized social work practice by preparing students to become supervisors, managers, leaders, and entrepreneurs in the field. Students will explore their strengths in order to identify an area of specialty, or niche in social work practice. Students will gain an understanding of their leadership style as it pertains to working in supervisory roles in organizations and communities. Students will become familiar with all aspects of establishing their own business or private contracting practice. This course assesses Social Work EPAS competencies 1, 6.  
Credits: 3

SW680 - Advanced Field Education II

This course continues learning experiences for specialist advanced social work practice in field education. This course will focus on integration of the social work behaviors that reflect the knowledge, values, skills, cognitive and effective processes reflected by the nine competencies of social work practice. Students take this course concurrently with SW660 Advanced Practice II. This course focuses on students' ability to integrate classroom learning with practice application in the field setting at the specialized level. Students collaborate with the Director of Field Education, classroom instructors, the MSW faculty liaison, and the agency based MSW Field Instructor, to identify and document practice behaviors. These activities are recorded on the Field Education Learning Plan (FLEP). In this course students are expected to become familiar with the policies and procedures of the host agency. They are expected to gain a deeper
understanding of the organizational culture as well as to be able to articulate the mission and purpose of the agency as these relate directly to agency goals. Students are expected to take an active role in their learning experience and advocate for a wide range of learning opportunities as the aim towards autonomous social work practice. This course assesses the Social Work EPAS competencies 1-9.

**Credits:** 3

**SW690 - Integrative Seminar**

This course is the capstone experience in the Master of Social Work program, and critically links field education into the course work. Beginning in the fall semester, students develop their plan to complete their Integrative Seminar project (ISP). In the first semester students utilize the knowledge and skills gained in each class to conduct a search of scholarly literature to inform the development of the ISP question. They then explore the literature to locate an evidence-based intervention designed to promote a positive outcome. Students conduct the intervention, gather data, analyze the data, and discuss implications for social work practice, research, policy and education. Students are expected to disseminate the results of their ISP by writing a 15-18 page scholarly paper. Students are also expected to disseminate the results of their ISP at their Field Agency or at the Social Work Spring Colloquium in April. Through this Integrative Seminar Project, students are expected to demonstrate how their knowledge of the 9 competencies informs and directs the process. This course assesses Social Work EPAS competencies 1-9.

**Credits:** 3

**Theatre**

**TH100 - Introduction to Theatre**

A survey of all the elements (critical, historic, practical, artistic) contributing to the making of theatre presentations.

**Fulfills:** LE Humanities

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**TH101 - Basic Principles of Acting**

A practical exploration of the basic principles of acting and its application to all forms of expression. Open to all students.

**Fulfills:** LE Humanities

**Lecture Hours:** 1 **Lab Hours:** 2 **Credits:** 3

**TH105 - Oral Communication**

A study of the basic skills in breathing, vocal control, diction, and articulation as applied to the public presentation of the following literary forms: poetry, prose, drama, reader’s theatre and choral reading. Selections used as performance options include authors from a wide variety of ethnic and national origins. Open to all students.

**Lecture Hours:** 1 **Lab Hours:** 2 **Credits:** 3

**TH115 - Technical Theatre Production**

Theory and practice of the technical elements involved in theatrical presentation: stagecraft, lighting, sound, costume, and make-up. Special emphasis is given to the practical needs of teachers and religious and community theatre enthusiasts. Open to all students.

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**TH201 - Voice and Speech**

This course will focus on the sounds of Standard American English with an eye to giving the student the tools to speak clearly and effectively. The student will learn to minimize regional or international accents. The course will also concern itself with finding the full range of one’s own “natural” speaking voice, and how to avoid vocal strain by using the voice freely, clearly, effectively, and powerfully in daily conversation, in the classroom, in public speaking, and in performance.

**Fulfills:** LE Humanities

**Lecture Hours:** 3 **Lab Hours:** 0 **Credits:** 3

**TH216 - Principles of Directing**

A study of the function of the director and basic theories of composition, picturization, and movement. Development of practical skills as directors through classroom discussion and the direction of scenes. Classroom presentation of a ten-minute play and assembly of a complete director’s script for a final project. Open to all students.
Fulfills: LE Humanities
Lecture Hours: 1 Lab Hours: 2 Credits: 3

**TH217 - Basic Principles of Theatrical Design**

Introduction to the theory and practice of scenic, lighting, costume and makeup design. A Theatre Minor requirement and strongly suggested for education and English majors interested in theatre.
Lecture Hours: 1 Lab Hours: 2 Credits: 3

**TH223 - Acting/Technical Theatre Workshop I**

A practical apprenticeship in the techniques of the theatre: participation in crew work and/or acting in theatre productions. For 1 credit a total of 40 hours work is required.
Repeatable for Credit May be repeated up to 3 credits total.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-2
History: TH210

**TH302 - Creative Drama**

Theory and practice of the use of creative drama as an alternative teaching/learning tool and as a support technique in working with diverse needs populations and age groups such as drama in education for curricular and language skill enhancement; drama as self-esteem, social interaction, and coordination building tools. Course includes off-campus workshop opportunities.
Note: Course is recommended for Education, Communications, Psychology, and Social Work majors and for recreation leaders. Lecture Hours: 1 Lab Hours: 2 Credits: 3

**TH306 - Acting Beyond Prejudice**

An acting course designed to specifically address issues of prejudice and discrimination through dialogue, improvisation, and script-building, ultimately culminating in several on-campus performances that will be open to the public, with the additional possibility of off-campus touring performances to local schools.
Lecture Hours: 1 Lab Hours: 5 Credits: 3

**TH311 - Intermediate Acting**

Study beyond Basic Principles of Acting of the tools and skills good actors develop and use will be explored: physical and vocal exercises, script analysis and character development, improvisational exercises for specific character development, period acting explorations, and applications of those skills with monologues, scenes and/or a play.
Lecture Hours: 1 Lab Hours: 2 Credits: 3
History: TH301

**TH316 - Directing II**

Advanced study in directing techniques. Each student must direct a one-act play.
Prerequisite(s): TH216
Lecture Hours: 1 Lab Hours: 2 Credits: 3

**TH317 - Design II**

A course designed to assist the student in developing proficiency as a designer of scenery and lighting through research, classroom discussion, and design projects.
Prerequisite(s): TH217
Lecture Hours: 1 Lab Hours: 2 Credits: 3

**TH321 - Advanced Acting**

Advanced study of the tools and skills good actors develop and use will be explored: physical and vocal exercises, script analysis and character development, improvisational exercises for specific character development, period acting explorations, and applications of those skills with monologues for audition purposes, scenes and/or a play production performances.
Lecture Hours: 1 Lab Hours: 2 Credits: 3
History: TH305

**TH323 - Acting/Technical Workshop II**

Practical experience in the techniques of theatre, designed as an extension of Acting/Technical Workshop I. Emphasis is on more advanced techniques acting in major roles, heading production crews and management supervisory work. For 1 credit a total of 40 hours work is required.
Prerequisite(s): TH223
Repeatable for Credit May be repeated for up to 3 credits. A total of no more than 3 credit hours toward graduation may be accrued.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-2
History: TH310

TH341 - Theatrical History and Literature to 1800
A study of theatrical history, literature, and staging practices in Western and Asian cultures up to the 1800s through readings of selected seminal plays in world theatrical literature, through readings about theatre practices and the social/political/economic forces that affected them, and through individual research and presentations for seminar discussions.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: TH307

TH342 - Theatrical History and Literature from the 1800s to the Present
A study of theatrical literature, artistic theories and staging practices from the 19th century to the present through readings of selected seminal plays in world theatrical literature, through readings about theatre practices and the social/political/economic forces that affected them, and through individual research and presentations for seminar discussions.
Lecture Hours: 3 Lab Hours: 0 Credits: 3
History: TH308

TH400 - Special Topics in Theatre
Study and research of topics of special interest to students as further exploration of finite areas projected in preceding courses.
Repeatable for Credit May be repeated for a maximum of 6 hours.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-3

TH490 - Theatre Internship
Provides the opportunity for theatre students to gain credit for professional work with various resident theatre companies in the Kansas City area.
Prerequisite(s): Junior or senior standing and permission of department chair.
Lecture Hours: 0 Lab Hours: 0 Credits: 1-6

TH495 - Senior Project (Capstone Course)
The preparation and presentation of a culminating creative experience in acting, directing, or design
Lecture Hours: 3 Lab Hours: 0 Credits: 3

Unmanned Aerial Systems

UAS107 - Commercial Drone Pilot Certification Prep Course
This Unmanned Aerial Systems (UAS)-Drone course will prepare students to carry out safe, legal and effective commercial aerial flight operations. The course will equip students to be knowledgeable in emerging and applicable regulations required to fly successful and incident-free drone operations. Students successfully completing this course will be prepared to sit for the FAA's UAS Remote Pilot certification exam which is required for all small UAS-Drone commercial and municipal operations in US airspace.
Note: This course curriculum does require the student to have access to a small UAS-Drone. FAA Requirements for becoming a certified Drone Pilot are listed https://www.faa.gov/uas/.
Lecture Hours: 3 Lab Hours: 0 Credits: 3

UAS140 - Drone Mission Planning
This course teaches students the tactics, techniques and procedures (TTPs) needed to pre-plan and fly Unmanned Aerial Systems (UAS)-Drone missions including creating flight-logs and pre and post mission-planning reports. Through various incrementally challenging drone flight training exercises and scenarios, including simulated site surveys, crime or accident scene investigations, disaster and emergency management support, etc., students will demonstrate their ability to develop appropriate situational awareness skills. These TTPs synthesize appropriate mitigation strategies against potential threats from ground, air and meteorological sources. Students will also gain exposure to basic drone photography and video image processing techniques, in order to capture
viable artifacts for drone sorties.

Note: This course curriculum does require the student to have access to, or own, a photo and video-recording enabled small UAS-Drone. Minimum drone specifications for this course, as well as various suitable drone models, are listed at https://droneology.park.edu/specs Lecture Hours: 3 Lab Hours: 0 Credits: 3

UAS200 - Drone Photography and Videography

The course provides training and hands-on exercises to address shooting and editing advanced-level photography and video from the Unmanned Aerial Systems (UAS)-Drone’s unique and challenging aerial perspective. Through various incrementally challenging drone training-flight exercises, such as simulated terrain surveys, construction site reviews, and land-use studies, etc., students will experiment with various in-flight camera recording techniques and apply basic post-production processing workflows to create finished photographic and videography projects.

Prerequisite(s): UAS107, current FAA 107 Certificate or FAA equivalent pilot certificate or license.

Note: This course curriculum requires the student to have access to, or own, a photo and video-recording enabled small UAS-Drone. Minimum drone specifications for this course, as well as various suitable drone models, are listed at https://droneology.park.edu/specs Lecture Hours: 3 Lab Hours: 0 Credits: 3
CORE VALUES
THAT GUIDE OUR ACTIONS:

• We expect **ACCOUNTABILITY** for our actions at all levels, to each other and to Park University.

• We treat all with **CIVILITY** and **RESPECT** while being open and honest in our communication.

• We seek **EXCELLENCE** in all we do, with passionate learning as our highest priority.

• We celebrate **GLOBAL CITIZENSHIP** through our connected learning and working environment, as well as community stewardship.

• We embrace **INCLUSIVITY** that fosters diversity, teamwork and collaboration.

• We act with **INTEGRITY** through honesty, efficiency and reliability.
